Forward Looking Statements

This Quarterly Report on Form 10-Q includes forward-looking statements in addition to historical information. The forward-looking statements relate to matters such as our industry, business strategy, goals and expectations concerning our market position, future operations, future performance or results, margins, profitability, capital expenditures, liquidity and capital resources and other financial and operating information. We use words such as “anticipate,” “believe,” “could,” “estimate,” “expect,” “forecast,” “intend,” “looking forward,” “may,” “plan,” “potential,” “project,” “target,” “will” and “would” or any variations of these words or other words with similar meanings. All statements that address activities, events or developments that we intend, expect or believe may occur in the future are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These “forward looking statements” may relate to such matters as our industry, business strategy, goals and expectations concerning our market position, future operations, future performance or results, margins, profitability, capital expenditures, liquidity and capital resources, interest rates and other financial and operating information and the outcome of contingencies such as legal and administrative proceedings.

Our forward-looking statements contained in this Form 10-Q are based on management’s current expectations and are subject to uncertainty and changes in circumstances. We cannot guarantee that the results and other expectations expressed, anticipated or implied in any forward-looking statement will be realized. Actual results may differ materially from these expectations due to unexpected expenses and risks associated with our business; our ability to remain competitive in the areas of merchandise quality, price, breadth of selection, customer service and convenience; the effective management of our merchandise buying and inventory levels; the quality and safety of food products and other items that we may sell; our ability to anticipate and/or react to changes in customer demand; changes in economic and financial conditions, including the outcome of negotiations surrounding the U.S. "fiscal cliff," which, even if resolved, may be adverse due to tax increases and spending cuts, and the resulting impact on consumer confidence; other changes in consumer confidence and spending; unexpected consumer responses to promotional programs; unusual, unpredictable and/or severe weather conditions; the effectiveness of our logistics and supply chain model, including the ability of our third-party logistics providers to meet our product demands and restocking needs on a cost competitive basis; the execution and management of our store growth including the availability and cost of acceptable real estate locations for new store openings, the capital that we utilize in connection with new store development and the time between lease execution and store opening; the mix of our new store openings as between build to suit sites and second-generation, as-is sites; the actions of third parties involved in our store growth activities, including property owners, landlords, property managers, contractors, subcontractors, government agencies, and current tenants who occupy one or more of our proposed new store locations, all of whom may be impacted by their financial condition, their lenders, their activities outside of those focused on our new store growth and other tenants, customers and business partners of theirs; our ability to maintain the security of electronic and other confidential information; serious disruptions and catastrophic events; competition; personnel recruitment and retention; acquisitions and divestitures including the ability to integrate successfully any such acquisitions; information systems and technology; commodity, energy and fuel cost increases; compliance with laws, regulations and orders; changes in laws and regulations; outcomes of litigation and proceedings and the availability of insurance, indemnification and other third-party coverage of any losses suffered in connection therewith; tax matters and other factors, many of which are beyond our control. Should one or more of these risks or uncertainties materialize, or should any of our assumptions prove incorrect, our actual results may vary in material respects from those projected in these forward-looking statements. You should bear this in mind as you consider forward-looking statements.

Any forward-looking statement made by us in this Form 10-Q speaks only as of the date on which we make it. Factors or events that could cause our actual results to differ may emerge from time to time, and it is not possible for us to predict all of them. We undertake no obligation to publicly update any forward-looking statement, whether as a result

of new information, future developments or otherwise, except as may be required by any applicable securities laws. You are advised, however, to consult any further disclosures we may make in our future reports to the Securities and Exchange Commission, on our website, or otherwise.

 October 28, 2012
 (In thousands, except share and per share data)
 (unaudited)

1. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial statements and are in the form prescribed by the Securities and Exchange Commission in instructions to the Quarterly Report on Form 10-Q and Rule 10-01 of Regulation S-X. These unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements and the accompanying notes thereto in the Company's Annual Report on Form 10-K, as amended by the Company's Form 10-K/A, for the fiscal year ended January 29, 2012. In the opinion of management, these unaudited consolidated financial statements include all adjustments, consisting of normal recurring adjustments, considered necessary for a fair presentation. Interim results are not necessarily indicative of results that may be expected for any other interim period or for a full fiscal year.

Certain prior year amounts have been reclassified to conform with the current year's presentation. None of the reclassifications or changes in presentation are considered material.

The Company's wholly-owned subsidiaries are consolidated and all intercompany accounts and transactions are eliminated upon consolidation.

The Company reports its results of operations on a 52 or 53 week fiscal year ending on the last Sunday in January. Fiscal years 2012 and 2011 are 52 week fiscal years and each fiscal quarter consists of 13 weeks.

The Company has determined that it has only one reportable segment. All of the Company's revenues come from the sale of items at its specialty food stores. The Company's primary focus is on perishable food categories, which include meat, seafood, produce, deli, bakery, floral, sushi and prepared foods. Non-perishable categories consist of traditional grocery and dairy products as well as specialty foods, including bulk, coffee, candy, beer and wine. The following is a summary of the percentage for the sales of perishable and non-perishable items:

	For the Thirteen Weeks Ended		For the Thirty-Nine Weeks Ended	
	October 28, 2012	October 30, 2011	October 28, 2012	October 30, 2011
Perishable	65.7%	66.2%	66.3%	67.0%
Non-perishable	34.3%	33.8%	33.7%	33.0%

2. Long-Term Debt

Long-term debt is as follows:

	October 28, 2012	January 29, 2012
Unsecured revolving credit note, with maximum available borrowings of \$175,000, interest payable monthly at one-month LIBOR plus a margin, weighted-average annual	\$46,900	\$64,000

interest rate of 2.9% and 3.1% for the thirty-nine weeks ended October 28, 2012 and the fifty-two weeks ended January 29, 2012, respectively

The Company is party to a revolving credit facility with Bank of America, N.A. as Administrative Agent, Swing Line Lender, and Letter of Credit Issuer, and several other lending institutions (the "2011 Credit Facility"). The 2011 Credit Facility matures February 22, 2016, and is available to provide support for working capital, capital expenditures and other general corporate purposes, including permitted acquisitions, issuance of letters of credit, refinancing and payment of fees. While the Company currently has no material domestic subsidiaries, other entities will guarantee the Company's obligations under the

The Fresh Market, Inc.
Notes to Consolidated Financial Statements - (continued)
(unaudited)

2. Long-Term Debt (continued)

2011 Credit Facility if and when they become material domestic subsidiaries of the Company during the term of the 2011 Credit Facility.

The 2011 Credit Facility provides for total borrowings of up to \$175,000. Under the terms of the 2011 Credit Facility, the Company is entitled to request an increase in the size of the facility by an amount not exceeding \$75,000 in the aggregate. If the existing lenders elect not to provide the full amount of a requested increase, or in lieu of accepting offers from existing lenders to increase their commitments, the Company may designate one or more other lender(s) to become a party to the 2011 Credit Facility, subject to the approval of the Administrative Agent. The 2011 Credit Facility includes a letter of credit sublimit of \$25,000, of which \$11,481 was outstanding at October 28, 2012 and January 29, 2012. The beneficiaries of these letters of credit are the Company's workers' compensation and general liability insurance carriers. The 2011 Credit Facility also includes a swing line sublimit of \$10,000.

At the Company's option, outstanding borrowings bear interest at (i) the London Interbank Offered Rate plus an applicable margin that ranges from 1.00% to 2.25%, (ii) the Eurodollar rate plus an applicable margin that ranges from 1.00% to 2.25%, or (iii) the base rate plus an applicable margin that ranges from 0% to 1.25%, where the base rate is defined as the greatest of: (a) the federal funds rate plus 0.50%, (b) Bank of America's prime rate, and (c) the Eurodollar rate plus 1.00%. As of October 28, 2012, the commitment fee calculated on unused portions of the credit facility ranges from 0.30% to 0.45% per annum.

In November 2012, the Company amended the commitment fee calculated on the unused portions of the 2011 Credit Facility. As amended, the commitment fee ranges from 0.20% to 0.35% per annum. As of October 28, 2012 and January 29, 2012, all outstanding borrowings bear interest at LIBOR plus an applicable margin.

3. Fair Value Measurements

Effective January 30, 2012, the Company adopted Accounting Standards Update (ASU) 2011-04, Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP ("ASU 2011-04"), which establishes common requirements for measuring fair value and related disclosures in accordance with GAAP. The adoption of ASU No. 2011-04, which primarily consists of clarification and wording changes to existing fair value measurement and disclosure requirements, did not have an impact on the Company's consolidated financial statements.

The carrying amounts of cash and cash equivalents, accounts receivable, accounts payable, accrued liabilities and other accrued expenses approximate fair value because of their short maturity. The carrying amount of long-term debt approximates fair value because the advances under this instrument bear variable interest rates which reflect market changes to interest rates and contain variable risk premiums based on certain financial ratios achieved by the Company. The Company did not elect to report any of its nonfinancial assets or nonfinancial liabilities at fair value.

4. Employee Benefits

Long-Term Cash Incentive Program

In March 2012, the Company adopted The Fresh Market, Inc. Long-Term Cash Incentive Program for Select Employees (the "Program"), in which the Company's executive officers do not participate. The purpose of the Program is to provide incentives and reward employees for achieving specified performance goals over a performance period.

The Program awards cash bonuses to participants based upon the Company's achievement of specified performance goals encompassing a three year fiscal performance period. At each reporting period, the Company assesses the probability of achieving the performance goals required for payment of the target amounts for the performance period. These awards are expensed over the respective vesting period on a straight-line basis. Cumulative adjustments, if any, are recorded quarterly to reflect subsequent changes in the estimated outcome of performance-related conditions.

Each participant receives a percentage of the applicable target amount for the performance period based on achievement of the performance goals and formulas. The Program's award payouts will vary based on the achievement of the

The Fresh Market, Inc.
Notes to Consolidated Financial Statements - (continued)
(unaudited)

4. Employee Benefits (continued)

pre-established target and can range from 33% to 150% of the target award. Each participant is entitled to a minimum of one-third the total grant amount, which will be paid in three annual payments over the three year vesting period. At the end of the three year period, the participant is eligible for a final payout based upon the Company's specific measurement criteria. There will be no additional payout unless the threshold for the applicable performance goal is reached, and the participant must be employed by the Company at the end of the performance period to be eligible for payment of an award.

The Company has determined that the achievement of the performance goal for the Program is probable as of the end of the thirteen and thirty-nine weeks ended October 28, 2012 and, accordingly, recorded expense of \$124 and \$388, respectively.

5. Share-based Compensation

The Company grants share-based awards under The Fresh Market, Inc. 2010 Omnibus Incentive Compensation Plan. At October 28, 2012, approximately 2,400,000 shares of the Company's common stock were available for share-based awards.

Stock Options - 2010 Omnibus Incentive Compensation Plan

For the thirty-nine weeks ended October 28, 2012, the Company awarded non-qualifying stock options representing approximately 198,000 shares of common stock to employees. The Company uses the Black-Scholes option pricing model to estimate the fair value of stock options at grant date. Options vest ratably over a four-year period beginning on the grant date and expire ten years from the date of grant.

As of October 28, 2012 and January 29, 2012, respectively, there were approximately 838,000 and 702,000 nonvested stock options outstanding and approximately \$7,100 and \$6,200 of unrecognized share-based compensation expense. The Company anticipates this expense to be recognized over a weighted-average remaining service period of approximately 2.8 years.

Share-based compensation expense related to stock options recognized during the thirteen weeks ended October 28, 2012 and October 30, 2011 totaled \$718 and \$359, respectively. Share-based compensation expense related to stock options recognized during the thirty-nine weeks ended October 28, 2012 and October 30, 2011 totaled \$2,117 and \$1,085, respectively. Share-based compensation expense is included in the "Selling, general and administrative expenses" line item on the Consolidated Statements of Comprehensive Income.

Restricted Stock Units - 2010 Omnibus Incentive Compensation Plan

For the thirty-nine weeks ended October 28, 2012, the Company awarded approximately 21,000 shares of restricted stock units (RSUs) to employees. The RSUs vest in 25% annual increments on each of the first four anniversaries of the date of the grant and the fair value is based on the fair market value of the Company's common stock on the date of grant.

As of October 28, 2012 and January 29, 2012, total remaining unearned compensation cost related to nonvested RSUs was approximately \$1,700 and \$1,700, respectively, which will be amortized over the weighted-average remaining

service period of approximately 2.6 years.

The Company recorded \$186 and \$131 of share-based compensation expense related to outstanding RSUs for the thirteen weeks ended October 28, 2012 and October 30, 2011, respectively. Share-based compensation expense related to the outstanding RSUs during the thirty-nine weeks ended October 28, 2012 and October 30, 2011 totaled \$572 and \$430, respectively. Share-based compensation expense is included in the "Selling, general and administrative expenses" line item on the Consolidated Statements of Comprehensive Income.

Restricted Stock Awards - 2010 Omnibus Incentive Compensation Plan

During the thirty-nine weeks ended October 28, 2012, the Company granted approximately 7,000 restricted stock awards (RSAs) to non-employee directors. RSAs vest at the earlier of one year from the date of grant or the next annual meeting of the stockholders. The fair value of the RSAs is based on the fair market value of the Company's common stock on the date of grant.

5. Share-based Compensation (continued)

Restricted Stock Awards - 2010 Omnibus Incentive Compensation Plan (continued)

As of October 28, 2012 and January 29, 2012, total remaining unearned compensation cost related to nonvested RSAs was \$254 and \$100, respectively, which will be amortized over the weighted-average remaining service period of approximately 0.6 years.

The Company recorded \$104 and \$54 of share-based compensation expense related to RSAs outstanding for the thirteen weeks ended October 28, 2012 and October 30, 2011, respectively. The Company also recorded \$278 and \$128 of share-based compensation expense related to RSAs outstanding for the thirty-nine weeks ended October 28, 2012 and October 30, 2011, respectively. Share-based compensation expense is included in the "Selling, general and administrative expenses" line item on the Consolidated Statements of Comprehensive Income.

Performance Share Awards - 2010 Omnibus Incentive Compensation Plan

In March 2012, the Compensation Committee (the "Committee") of the Board of Directors of the Company approved a Performance Share Award Agreement under the 2010 Omnibus Incentive Compensation Plan. At that time, the Company awarded approximately 38,000 performance share awards to certain employees.

The Performance Share Award Agreement provides for the award of performance-vesting restricted shares of the Company's common stock based on the attainment of defined performance goals. At the end of the defined performance period, the extent to which the performance goals have been attained determines the number of shares that vest, except as otherwise determined by the Committee, and subject to conditions including the employment of the recipient with the Company or its affiliates throughout the performance period, except to the extent provided in cases of retirement, death, disability, or change of control, or as otherwise determined by the Committee.

The Company recognizes the estimated fair value of performance-based awards as share-based compensation expense over the performance period based upon its determination of whether it is probable that the performance targets will be achieved. The Company assesses the probability of achieving the performance targets at each reporting period. Cumulative adjustments, if any, are recorded quarterly to reflect subsequent changes in the estimated outcome of performance-related conditions. The fair value of the performance-based awards is based on the fair market value of the Company's common stock on the date of grant.

The Company recorded share-based compensation expense related to the performance-based awards of approximately \$111 and \$251 for the thirteen and thirty-nine weeks ended October 28, 2012, which is included in the "Selling, general and administrative expenses" line item on the Consolidated Statements of Comprehensive Income.

Employee Stock Purchase Plan

In November 2010, the Employee Stock Purchase Plan ("ESPP") was adopted and approved by the Company's Board of Directors and stockholders. Beginning July 1, 2011, eligible employees may purchase shares of the Company's common stock at a 5% discount from the market price through a payroll deduction. The number of shares of common stock available for issuance under the ESPP is approximately 996,000 at October 28, 2012.

During the thirteen and thirty-nine weeks ended October 28, 2012, 847 and 2,684 shares of the Company's common stock were purchased under the ESPP, which resulted in proceeds of \$48 and \$136, respectively. During the thirteen

and thirty-nine weeks ended October 30, 2011, 719 shares of the Company's common stock were purchased under the ESPP, which resulted in proceeds of \$27.

6. Earnings per Share

The computation of basic earnings per share is based on the number of weighted-average common shares outstanding during the period. The computation of diluted earnings per share for the thirteen and thirty-nine weeks ended October 28, 2012 and October 30, 2011, respectively, includes the dilutive effect of common stock equivalents consisting of incremental common shares deemed outstanding from the assumed exercise of stock options, RSUs and RSAs.

The Fresh Market, Inc.
Notes to Consolidated Financial Statements - (continued)
(unaudited)

6. Earnings per Share (continued)

A reconciliation of the numerators and denominators of the basic and diluted earnings per share calculations follows (in thousands, except share and per share amounts):

	For the Thirteen Weeks Ended		For the Thirty-Nine Weeks Ended	
	October 28, 2012	October 30, 2011	October 28, 2012	October 30, 2011
Net income available to common stockholders (numerator for basic and diluted earnings per share)	\$ 10,889	\$ 9,150	\$ 43,488	\$ 33,137
Weighted average common shares outstanding (denominator for basic earnings per share)	48,068,869	47,996,697	48,057,451	47,993,688
Potential common shares outstanding:				
Incremental shares from share-based awards	254,281	130,852	223,472	130,968
Weighted average common shares outstanding and potential additional common shares outstanding (denominator for diluted earnings per share)	48,323,150	48,127,549	48,280,923	48,124,656
Basic and diluted earnings per share	\$ 0.23	\$ 0.19	\$ 0.90	\$ 0.69

For the thirteen and thirty-nine weeks ended October 28, 2012, there were 229,000 and 243,000 shares excluded from the computation of diluted weighted average common shares outstanding because such shares are considered antidilutive. There were no antidilutive shares for the thirteen and thirty-nine weeks ended October 30, 2011.

7. Commitments and Contingencies

Litigation

From time to time, the Company is involved in various legal proceedings encountered in the normal course of business, including, labor and employment, premises, personal injury, product liability and general liability claims, and claims related to commercial and leasing matters. In the opinion of management, the resolution of currently pending matters, other than those described or referred to in the following paragraphs, will not have a material adverse effect on the Company's financial condition or results of operations. However, because of the nature and inherent uncertainties of litigation, the Company cannot predict with certainty the ultimate resolution of these actions and, should the outcome of these actions be unfavorable, the Company's business, financial position, results of operations or cash flows could be materially and adversely affected.

The Company reviews the status of its legal proceedings and records a provision for a liability when it is considered probable that both a liability has been incurred and the amount of the loss can be reasonably estimated. This review is updated periodically as additional information becomes available. If either or both of the criteria are not met, the Company reassesses whether there is at least a reasonable possibility that a loss, or additional losses, may be incurred. If there is a reasonable possibility that a loss may be incurred, the Company discloses the estimate of the amount of

the loss or range of losses, discloses that the amount is not material, if true, or discloses that an estimate of loss cannot be made. The Company expenses its legal fees as incurred.

The Fresh Market, Inc.
Notes to Consolidated Financial Statements - (continued)
(unaudited)

7. Commitments and Contingencies (continued)

In assessing potential loss contingencies, the Company considers a number of factors, including those listed in the Financial Accounting Standards Board's Accounting Standards Codification ("ASC") 450-20, Contingencies – Loss Contingencies, regarding assessing the probability of a loss and assessing whether a loss is reasonably estimable.

Litigation can

be expensive and disruptive to normal business operations. Moreover, the results of litigation are difficult to predict and the Company's view of these matters may change as the litigation and events unfold over time. An unfavorable outcome in any

legal matter, if material, could have a material adverse effect on the Company's results of operations in the period in which the

unfavorable outcome occurs and potentially in future periods.

In July 2012, the Company entered into a confidential settlement agreement and mutual releases with a former landlord to resolve ongoing litigation regarding the condition in which leased premises were returned to the former landlord at the end of the lease term. The Company settled the matter to avoid the costs and uncertainty of litigation, with no admission of liability or wrongdoing by any party. Pursuant to the settlement agreement, the remaining claims of all parties were dismissed with prejudice.

The Company is currently party to two lawsuits that were filed against it and other parties in the state of South Carolina in connection with certain outdoor candle products that were sold at certain of the Company's stores and alleged to have caused personal injury. The lawsuits seek damages from the Company, as well as from one or more manufacturers and the packager. The Company believes it has defenses against these claims and is vigorously defending itself and pursuing recovery from insurers and other third parties. The Company maintains insurance policies (subject to customary deductibles) for its defense costs and any liability resulting from these lawsuits, but one of the Company's umbrella carriers that sits above its primary general liability insurer has reserved its rights as to coverage. The manufacturers of the candle product and the fuel gel used in the candle have each filed for bankruptcy. Because these lawsuits are at an early stage, and because of the uncertain status of the liability of third parties and potential recovery from third parties, the Company is unable to predict the outcome of these lawsuits or to estimate the amount of damages, if any, that may be awarded. If the Company is ultimately found liable in these lawsuits and if insurance is not available, liability resulting from these lawsuits could have a material adverse effect on the Company's results of operations for the period or periods in which it is incurred.

8. Subsequent Events

In November 2012, the Company entered into agreements to lease four new store locations that are currently operated by Rice Epicurean Markets, a family-owned specialty food retailer based in Houston, Texas. Rice Epicurean Markets will continue to operate the stores through the end of the calendar year, and will close these four stores during the first quarter of calendar 2013. The Company intends to remodel each location and expects to open its four new stores in the latter half of fiscal 2013.

Item 2 – Management’s Discussion and Analysis of Financial Condition and Results of Operations

Overview

The Fresh Market Inc., is a high-growth specialty retailer focused on creating an extraordinary food shopping experience for its customers. Since opening our first store in 1982, we have offered high-quality food products, with an emphasis on fresh, premium perishables and an uncompromising commitment to customer service. We seek to provide an attractive, convenient shopping environment while offering our customers a compelling price-value combination. As of October 28, 2012, we operated 127 stores in 25 states, primarily in the Southeast, Midwest, Mid-Atlantic, and Northeast United States. We also added our first store in California during the third quarter of fiscal 2012.

We believe several key differentiating elements of our business have enabled us to execute our strategy consistently and profitably across our expanding store base. We believe the differentiated shopping experience we provide has helped us to expand our business primarily through favorable word-of-mouth publicity. Within our smaller-box format, we focus on higher-margin food categories and strive to deliver a more personal level of service and a more enjoyable shopping experience. Further, our smaller-box format is adaptable to different retail sites and configurations and has facilitated our successful growth. Additionally, we believe our disciplined, comprehensive approach to planning and merchandising and the support we provide our stores allow us to deliver a consistent shopping experience and financial performance across our growing store base.

How We Assess the Performance of Our Business

In assessing our performance, we consider a variety of performance and financial measures. The key measures that we assess to evaluate the performance of our business are set forth below:

Sales

Our sales comprise gross sales net of coupons, commissions and discounts. Sales include sales from all of our stores.

The food retail industry and our sales are affected by general economic conditions and seasonality, as well as the other factors, discussed below, that affect our comparable store sales. Consumer purchases of specialty food products are particularly sensitive to a number of factors that influence the levels of consumer spending, including economic and financial conditions, the level of disposable consumer income, changes in tax rates, consumer debt, interest rates and consumer confidence. In addition, our business is seasonal and, as a result, our average weekly sales fluctuate during the year and are usually highest in the fourth quarter when customers make holiday purchases.

Comparable Store Sales

Our practice is to include sales from a store in comparable store sales beginning on the first day of the sixteenth full month following the store’s opening. We believe that comparability is achieved approximately fifteen months after opening. When a store that is included in comparable store sales is remodeled or relocated, we continue to consider sales from that store to be comparable store sales. There may be variations in the way that our competitors calculate comparable or “same store” sales. As a result, data in this Form 10-Q regarding our comparable store sales may not be comparable to similar data made available by our competitors.

Various factors may affect comparable store sales, including:

- overall economic and financial trends and conditions, including general price levels in the economy;
- consumer confidence, preferences and buying trends;
- our competition, including competitor store openings or closings near our stores;
- our competitors expanding their offerings of premium/perishable products;
- the pricing of our products, including the effects of inflation or deflation;
- the number of customer transactions at our stores;
- our ability to provide an assortment of distinctive, high-quality product offerings to generate new and repeat visits to our stores;
- the level of customer service that we provide in our stores;
- our in-store merchandising-related activities;
- our ability to source products efficiently;
- our opening of new stores in the vicinity of our existing stores;
- and
- the number of stores we open, remodel or relocate in any period.

As we continue to pursue our growth strategy, we expect that a significant percentage of our sales growth will continue to come from new stores not included in comparable store sales. Accordingly, comparable store sales is only one measure we use to assess our performance.

Gross Profit

Gross profit is equal to our sales minus our cost of goods sold. Gross margin rate measures gross profit as a percentage of our sales. Cost of goods sold is directly correlated with sales and includes the direct costs of purchased merchandise, distribution and supply chain costs, buying costs, store supplies and store occupancy costs. Store occupancy costs include rent, common area maintenance, real estate taxes, personal property taxes, insurance, licenses and utilities. The components of our cost of goods sold may not be identical to those of our competitors. As a result, data in this Form 10-Q regarding our gross profit and gross margin rate may not be comparable to similar data made available by our competitors.

Gross margin rate enhancements are driven by:

- economies of scale resulting from expanding our store base;
- leverage achieved from increased comparable store sales;
- reduced shrink as a percentage of sales; and
- productivity gains through process and program improvements.

Changes in the mix of products sold and promotional activities may also impact our gross margin rate.

Selling, General and Administrative Expenses

Selling, general and administrative expenses include certain retail store and corporate costs, including compensation (both cash and share-based), pre-opening expenses, and other corporate administrative costs. Pre-opening expenses are costs associated with the opening of new stores, including costs associated with recruiting, relocating and training personnel and other miscellaneous costs. Pre-opening costs are expensed as incurred.

Labor and corporate administrative costs generally decrease as a percentage of sales as a result of an increase in our sales. Accordingly, selling, general and administrative expenses as a percentage of sales are usually higher in lower-volume quarters and lower in higher-volume quarters. Store-level labor costs are the largest component of our

selling, general and

15

administrative expenses. The components of our selling, general and administrative expenses may not be identical to those of our competitors. As a result, data in this Form 10-Q regarding our selling, general and administrative expenses may not be comparable to similar data made available by our competitors. We expect that our selling, general and administrative expenses will increase in future periods due to our continuing store growth and increased corporate general and administrative expenses to support that growth.

Income from Operations

Income from operations consists of gross profit minus selling, general and administrative expenses, store closure and exit costs and depreciation.

Taxes

We must make certain estimates and judgments in determining income tax expense for financial statement purposes. The amount of taxes currently payable or refundable is accrued, and deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amount of existing assets and liabilities and their respective tax bases. Deferred tax assets are also recognized for realizable loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in income tax rates is recognized in our financial statements in the period that includes the enactment date.

Results of Operations

The following tables summarize key components of our results of operations for the periods indicated, both in dollars and as a percentage of sales.

	For the Thirteen Weeks Ended				For the Thirty-Nine Weeks Ended			
	October 28, 2012		October 30, 2011		October 28, 2012		October 30, 2011	

(dollars in thousands, except share and per share amounts)

Statement of
Income Data:

Sales	\$321,494	100.0	%	\$263,260	100.0	%	\$959,275	100.0	%	\$787,263	100.0	%

Income before provision for income taxes	17,361	5.4	%	14,024	5.3	%	69,574	7.3	%	52,178	6.6	%
Tax provision	6,472	2.0	%	4,874	1.9	%	26,086	2.7	%	19,041	2.4	%
Net income	\$10,889	3.4	%	\$9,150	3.5	%	\$43,488	4.5	%	\$33,137	4.2	%

Net income per
share

Basic and diluted	\$0.23			\$0.19			\$0.90			\$0.69		
-------------------	--------	--	--	--------	--	--	--------	--	--	--------	--	--

Shares used in
computation of net
income per share,

Basic	48,068,869			47,996,697			48,057,451			47,993,688		
Diluted	48,323,150			48,127,549			48,280,923			48,124,656		

Percentage totals in the above table may not equal the sum of the components due to rounding.

	For the Thirteen Weeks Ended		For the Thirty-Nine Weeks Ended	
	October 28, 2012	October 30, 2011	October 28, 2012	October 30, 2011
Other Operating Data:				
Number of stores at end of period	127	107	127	107
Comparable store sales growth (1)	5.6	% 5.5	% 7.3	% 4.7
Gross square footage at end of period (in thousands)	2,677	2,261	2,677	2,261
Average comparable store size (gross square feet) (2)	21,182	21,250	21,205	21,258
Comparable store sales per gross square foot during period (2)	\$123	\$117	\$384	\$361

Our practice is to include sales from a store in comparable store sales beginning on the first day of the sixteenth full month following the store's opening. When a store that is included in comparable store sales is remodeled or (1)relocated, we continue to consider sales from that store to be comparable store sales. There may be variations in the way that our competitors calculate comparable or "same store" sales. As a result, data in this Form 10-Q regarding our comparable store sales may not be comparable to similar data made available by our competitors.

Average comparable store size and comparable store sales per gross square foot are calculated using the gross (2)square footage and sales for stores included within our comparable store base for each month during the given period.

Public Offering of Common Stock by Certain Selling Stockholders

On June 12, 2012, the Company, certain stockholders of the Company who owned shares of our common stock prior to our initial public offering (the "selling stockholders") and an underwriter entered into an Underwriting Agreement pursuant to which the selling stockholders offered and sold 11,538,112 shares of our common stock at \$50.50 per share in an underwritten public offering. The public offering of the 11,538,112 shares closed on June 18, 2012. We did not receive proceeds from the sale of these shares, and we expensed approximately \$0.5 million of costs associated with the offering during the thirty-nine weeks ended October 28, 2012. This amount is included in the "Selling, general and administrative expenses" line item on the Consolidated Statements of Comprehensive Income.

Items Impacting Comparability

Thirty-nine weeks ended October 28, 2012

Items impacting comparability between the thirty-nine weeks ended October 28, 2012 and the thirty-nine weeks ended October 30, 2011 include the following:

- Approximately \$0.5 million, or \$0.01 per share on a diluted basis, during the thirty-nine weeks ended October 28, 2012, in issuance costs incurred in conjunction with our public offering of common stock, which closed on June 18, 2012. As agreed upon by and among us and certain stockholders, we were obligated to bear the expenses and fees, except for underwriting discounts and commissions. We received no proceeds in connection with the public offering, and all fees and expenses incurred during the thirty-nine weeks ended October 28, 2012 were expensed and included in the "Selling, general and administrative expenses" line item on the Consolidated Statements of Comprehensive Income.
- Approximately \$1.1 million, or \$0.02 per share on a diluted basis, for the thirty-nine weeks ended October 30, 2011, in issuance costs incurred in conjunction with our public offering of common stock, which closed on May 3, 2011. As agreed upon by and among us and certain stockholders, we were obligated to bear the expenses and fees, except for

underwriting discounts and commissions. We received no proceeds in connection with the public offering, and all fees and expenses incurred during the thirty-nine weeks ended October 30, 2011 were expensed and included in the "Selling, general and administrative expenses" line item on the Consolidated Statements of Comprehensive Income.

We resolved two legal matters during the thirty-nine weeks ended October 28, 2012. The net amount of the settlement payments made and received related to these matters is included in the "Selling, general and administrative expenses" line item on the Consolidated Statements of Comprehensive Income and totaled approximately \$0.4 million, or \$0.01 per share on a diluted basis. Legal fees and related expenses in connection with these matters have been expensed as incurred during the thirty-nine weeks ended October 28, 2012.

Period to Period Comparisons

Thirteen Weeks Ended October 28, 2012 Compared to the Thirteen Weeks Ended October 30, 2011

Sales

Sales increased 22.1%, or \$58.2 million, to \$321.5 million for the thirteen weeks ended October 28, 2012, resulting from a \$14.0 million increase in comparable store sales and a \$44.2 million increase in non-comparable store sales. There were 104 comparable stores and 23 non-comparable stores open at October 28, 2012.

Comparable store sales increased 5.6% for the thirteen weeks ended October 28, 2012, compared to the thirteen weeks ended October 30, 2011, driven by a 3.3% increase in the number of transactions and a 2.3% increase in the average transaction size at our comparable stores. Average customer transaction size for comparable stores increased to \$30.66 for the thirteen weeks ended October 28, 2012, compared to \$29.99 for the thirteen weeks ended October 30, 2011.

Gross Profit

Gross profit increased 26.3%, or \$22.2 million, to \$106.4 million for the thirteen weeks ended October 28, 2012, compared to the thirteen weeks ended October 30, 2011. The amount of the increase in gross profit attributable to increased sales was \$18.6 million and the amount attributable to increased gross margin rate was \$3.6 million. Gross margin rate increased 110 basis points to 33.1% for the thirteen weeks ended October 28, 2012, from 32.0% for the thirteen weeks ended October 30, 2011. The increase in our gross margin rate was attributable to an increase in merchandise margin rate, primarily as a result of improved supply chain expense and a reduction in merchandise shrink expense. We also had an improvement in occupancy costs as a percentage of sales as we incurred less deferred rent expense for the thirteen weeks ended October 28, 2012, compared to the thirteen weeks ended October 30, 2011. For the thirteen weeks ended October 28, 2012, estimated LIFO expense was approximately \$0.5 million lower, which contributed to the improved gross margin for the thirteen weeks ended October 28, 2012, compared to the thirteen weeks ended October 30, 2011.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased 27.1%, or \$16.3 million, to \$76.6 million for the thirteen weeks ended October 28, 2012, compared to the thirteen weeks ended October 30, 2011. As a percentage of sales, selling, general and administrative expenses increased by 90 basis points to 23.8% for the thirteen weeks ended October 28, 2012, compared to 22.9% for the thirteen weeks ended October 30, 2011. The increase in selling, general and administrative expenses was primarily attributable to an increase in the number of stores in operation during the thirteen weeks ended October 28, 2012, compared to the thirteen weeks ended October 30, 2011, which led to higher overall store-level compensation expenses and other costs to operate our stores. With more stores in operation during the thirteen weeks ended October 28, 2012, store-level compensation expenses increased \$10.4 million, other store operating expenses, which includes pre-opening store expenses, increased \$3.2 million and corporate administrative expenses increased \$2.7 million, compared to the thirteen weeks ended October 30, 2011.

The increase in the selling, general and administrative expense as a percentage of sales was primarily attributable to increased store-level compensation and pre-opening expenses, as a result of six new store openings for the thirteen weeks ended October 28, 2012, compared to one new store opening for the thirteen weeks ended October 30, 2011. The increase in new store openings added 60 basis points of selling, general and administrative expense as a percentage of sales for the thirteen weeks ended October 28, 2012, compared to the thirteen weeks ended October 30, 2011. The increase was also partially attributable to higher corporate expenses, driven by approximately \$0.8 million of incremental expenses mostly attributable to our share-based compensation programs and by our investment in personnel and expenses associated with their hiring to support our growth. These additional expenses increased selling, general and administrative expenses as a percentage of sales by approximately 30 basis points for the thirteen weeks ended October 28, 2012, compared to the thirteen weeks ended October 30, 2011.

Income from Operations

Income from operations increased 23.3%, or \$3.4 million, to \$17.9 million for the thirteen weeks ended October 28, 2012, compared to the thirteen weeks ended October 30, 2011. Income from operations as a percentage of sales for the thirteen weeks ended October 28, 2012 increased 10 basis points to 5.6% from 5.5% for the thirteen weeks ended October 30, 2011, which included approximately a 20 basis point decrease in income from operations due to incremental costs primarily related to share-based compensation programs. Depreciation increased 26.2%, or \$2.4 million, to \$11.7 million for the thirteen weeks ended October 28, 2012, compared to the thirteen weeks ended October 30, 2011, principally due to store unit growth.

Interest Expense

Interest expense increased 9.4% to \$0.5 million for the thirteen weeks ended October 28, 2012, compared to the thirteen weeks ended October 30, 2011.

Income Tax Expense

Income taxes for the thirteen weeks ended October 28, 2012 resulted in an effective tax rate of approximately 37.3%, compared to approximately 34.8% for the thirteen weeks ended October 30, 2011. The increase in the effective tax rate was primarily the result of a refinement to our initial charitable food contribution estimate for fiscal year 2011, which resulted in a reduction of the income tax expense for the thirteen weeks ended October 30, 2011.

Net Income

As a result of the foregoing, net income increased 19.0%, or \$1.7 million, to \$10.9 million for the thirteen weeks ended October 28, 2012, compared to the thirteen weeks ended October 30, 2011. Net income as a percentage of sales for the thirteen weeks ended October 28, 2012 decreased to 3.4% from 3.5% for the thirteen weeks ended October 30, 2011.

Thirty-Nine Weeks Ended October 28, 2012 Compared to the Thirty-Nine Weeks Ended October 30, 2011

Sales

Sales increased 21.8%, or \$172.0 million, to \$959.3 million for the thirty-nine weeks ended October 28, 2012, which resulted from a \$55.5 million increase in comparable store sales and a \$116.5 million increase in non-comparable store sales. There were 104 comparable stores and 23 non-comparable stores open at October 28, 2012.

Comparable store sales increased 7.3% for the thirty-nine weeks ended October 28, 2012, compared to the thirty-nine weeks ended October 30, 2011, due to a 4.8% increase in the number of transactions and a 2.5% increase in the average transaction size at our comparable stores. Average customer transaction size for comparable stores increased to \$30.98 for the thirty-nine weeks ended October 28, 2012, compared to \$30.26 for the thirty-nine weeks ended October 30, 2011.

Gross Profit

Gross profit increased 25.9%, or \$67.1 million, to \$325.8 million for the thirty-nine weeks ended October 28, 2012, compared to the thirty-nine weeks ended October 30, 2011. The amount of the increase in gross profit attributable to

increased sales was \$56.6 million and the amount of the increase in gross profit attributable to increased gross margin rate was \$10.5 million. Gross margin rate increased 110 basis points to 34.0% for the thirty-nine weeks ended October 28, 2012, from 32.9% for the thirty-nine weeks ended October 30, 2011. The increase in our gross margin rate was mostly attributable to increased merchandise margin, primarily as a result of improved supply chain expense as well as an improvement in occupancy costs as a percentage of sales, offset by an increase in supplies expense as a percentage of sales. For the thirty-nine weeks ended October 28, 2012, estimated LIFO expense showed a favorable improvement of \$0.5 million, compared to the thirty-nine weeks ended October 30, 2011.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased 24.1%, or \$43.0 million, to \$221.1 million for the thirty-nine weeks ended October 28, 2012, compared to the thirty-nine weeks ended October 30, 2011. As a percentage of sales, selling, general and administrative expenses for the thirty-nine weeks ended October 28, 2012 increased by 40 basis points to 23.0% from 22.6% for the thirty-nine weeks ended October 30, 2011. The increase in selling, general and administrative expenses was

primarily attributable to an increase in the number of stores in operation during the thirty-nine weeks ended October 28, 2012, compared to the thirty-nine weeks ended October 30, 2011, which led to higher overall store-level compensation expenses and other costs to operate our stores. With more stores in operation during the thirty-nine weeks ended October 28, 2012, store-level compensation expenses increased \$27.7 million, other store operating expenses, which includes pre-opening store expenses, increased \$7.5 million and corporate administrative expenses increased \$8.4 million, compared to the thirty-nine weeks ended October 30, 2011.

The increase in selling, general and administrative expenses as a percentage of sales was attributable to higher corporate expenses, due to approximately \$2.1 million of incremental expenses mostly ascribed to our share-based compensation programs, as well as \$0.4 million related to legal settlements. The effect of these costs adversely impacted selling, general and administrative expenses as a percentage of sales by approximately 20 basis points during the thirty-nine weeks ended October 28, 2012, compared to the thirty-nine weeks ended October 30, 2011. Higher store pre-opening and store-level compensation expenses also contributed to the increase in selling, general and administrative expenses as a percentage of sales, which was partially offset by a year-over-year decrease in issuance costs incurred in connection with our public offerings of common stock.

Income from Operations

Income from operations increased 31.8%, or \$17.1 million, to \$70.7 million for the thirty-nine weeks ended October 28, 2012, compared to the thirty-nine weeks ended October 30, 2011. Income from operations as a percentage of sales for the thirty-nine weeks ended October 28, 2012 increased 60 basis points to 7.4% from 6.8% for the thirty-nine weeks ended October 30, 2011. The increase in operating margin for the thirty-nine weeks ended October 28, 2012, compared to the thirty-nine weeks ended October 30, 2011, was due to the growth in gross margin rate, which was partially offset by an increase in selling, general and administrative expenses. Depreciation expense increased 24.3% or \$6.5 million, to \$33.2 million for the thirty-nine weeks ended October 28, 2012, compared to the thirty-nine weeks ended October 30, 2011, which was principally attributable to store unit growth over that time.

Interest Expense

Interest expense decreased 23.5%, or \$0.3 million, to \$1.1 million for the thirty-nine weeks ended October 28, 2012, compared to the thirty-nine weeks ended October 30, 2011, primarily due to reduced weighted-average borrowings under our revolving credit facility.

Income Tax Expense

Income taxes for the thirty-nine weeks ended October 28, 2012 resulted in an effective tax rate of approximately 37.5%, compared to approximately 36.5% for the thirty-nine weeks ended October 30, 2011.

Net Income

As a result of the foregoing, net income increased 31.2%, or \$10.4 million, to \$43.5 million for the thirty-nine weeks ended October 28, 2012, compared to the thirty-nine weeks ended October 30, 2011. Net income as a percentage of sales for the thirty-nine weeks ended October 28, 2012 increased to 4.5% from 4.2% for the thirty-nine weeks ended October 30, 2011.

Liquidity and Capital Resources

Our primary sources of liquidity are cash generated from operations and borrowings under our revolving credit facility. Our primary uses of cash are purchases of inventory, operating expenses, capital expenditures primarily for opening new stores and relocating and remodeling existing stores, debt service and corporate taxes. We believe that the cash generated from operations, together with the borrowing availability under our revolving credit facility, will be sufficient to meet our working capital needs for at least the next twelve months, including investments made, and expenses incurred, in connection with opening new stores and relocating and remodeling existing stores and other strategic initiatives. These strategic initiatives include the replacement of store equipment and product display fixtures, and investments in information technology and merchandising enhancements. Our working capital position benefits from the fact that we generally collect cash from sales to customers the same day or, in the case of credit or debit card transactions, within a few days of the related sale.

At October 28, 2012, we had \$15.3 million in cash and cash equivalents and \$116.6 million in borrowing availability under our revolving credit facility.

While we believe we have sufficient liquidity and capital resources to meet our current operating requirements and expansion plans, we may elect to pursue additional expansion opportunities within the next year which could require additional debt or equity financing. If we are unable to secure additional financing at favorable terms in order to pursue such additional expansion opportunities, our ability to pursue such opportunities could be materially adversely affected.

A summary of our operating, investing and financing activities is shown in the following table:

	For the Thirty-Nine Weeks Ended	
	October 28, 2012	October 30, 2011
Net cash provided by operating activities	\$76,406	\$70,383
Net cash used in investing activities	(56,056) (61,675
Net cash used in financing activities	(15,713) (6,879
Net increase in cash and cash equivalents	\$4,637	\$1,829

Operating Activities

Cash provided by operating activities consists primarily of net income adjusted for non-cash items, including depreciation, realized loss on disposal of property and equipment, share-based compensation, changes in deferred taxes, and the effect of working capital changes.

	For the Thirty-Nine Weeks Ended	
	October 28, 2012	October 30, 2011
Net income	\$43,488	\$33,137
Adjustments to reconcile net income to net cash provided by operating activities:		
Depreciation and amortization	33,330	26,834
Loss on disposal of property and equipment	129	169
Share-based compensation	3,218	1,643
Excess tax benefits from share-based compensation	(288) —
Deferred income taxes	(4,248) 5,387
Change in working capital	777	3,213
Net cash provided by operating activities	\$76,406	\$70,383

Net cash provided by operating activities increased 8.6%, or \$6.0 million, to \$76.4 million for the thirty-nine weeks ended October 28, 2012, compared to the thirty-nine weeks ended October 30, 2011. The increase in net cash provided by operating activities was primarily due to an increase in net income adjusted for non-cash items.

Investing Activities

Cash used in investing activities consists primarily of capital expenditures for opening new stores and relocating and remodeling existing stores, as well as investments in information technology and merchandising enhancements.

	For the Thirty-Nine Weeks Ended	
	October 28, 2012	October 30, 2011

Edgar Filing: Fresh Market, Inc. - Form 10-Q

Purchases of property and equipment	\$(62,752) \$(61,835)
Proceeds from sale of property and equipment	6,696	160)
Net cash used in investing activities	\$(56,056) \$(61,675)

22

Capital expenditures increased 1.5%, or \$0.9 million, to \$62.8 million for the thirty-nine weeks ended October 28, 2012, compared to the thirty-nine weeks ended October 30, 2011. The increase in capital expenditures for the thirty-nine weeks ended October 28, 2012 was primarily due to an increase in new store construction compared to the thirty-nine weeks ended October 30, 2011. In April 2012, we received proceeds of \$6.6 million from a land and building sale-leaseback transaction.

We plan to spend approximately \$90.0 million to \$100.0 million on capital expenditures during fiscal 2012, primarily related to real estate investments.

We plan to open 16 new stores during fiscal 2012, 14 of which were open as of October 28, 2012.

Financing Activities

Cash used in financing activities consists principally of borrowings and payments under our revolving credit facility. We currently do not intend to pay cash dividends on our common stock.

	For the Thirty-Nine Weeks Ended	
	October 28, 2012	October 30, 2011
Borrowings on revolving credit note	\$341,668	\$349,331
Payments made on revolving credit note	(358,768) (355,181
Debt issuance costs	—	(1,056
Proceeds from issuance of common stock pursuant to employee stock purchase plan	136	27
Excess tax benefits from share-based compensation	288	—
Proceeds from exercise of share-based compensation awards	963	—
Net cash used in financing activities	\$(15,713) \$(6,879

Net cash used in financing activities during the thirty-nine weeks ended October 28, 2012 increased \$8.8 million to \$15.7 million mostly due to a net paydown of our debt compared to the thirty-nine weeks ended October 30, 2011. We reduced the debt balance by \$17.1 million or 26.7% for the thirty-nine weeks ended October 28, 2012, compared to a net paydown of \$5.9 million during the thirty-nine weeks ended October 30, 2011.

As of February 22, 2011, we terminated our existing Credit Facility (the "2007 Credit Facility") and entered into the 2011 Credit Facility. At closing, approximately \$74.7 million was drawn under the 2011 Credit Facility to repay borrowings under the 2007 Credit Facility, which is included in both borrowings and payments on the revolving credit note during the thirty-nine weeks ended October 30, 2011. We incurred approximately \$1.1 million in debt issuance costs in connection with the 2011 Credit Facility.

Revolving Credit Facility

We are party to a revolving credit facility with Bank of America, N.A. as Administrative Agent, Swing Line Lender, and Letter of Credit Issuer, and several other lending institutions (the "2011 Credit Facility"). The 2011 Credit Facility matures February 22, 2016, and is available to provide support for working capital, capital expenditures and other general corporate purposes, including permitted acquisitions, issuance of letters of credit, refinancing and payment of fees. While we currently have no material domestic subsidiaries, other entities will guarantee our obligations under the 2011 Credit Facility if and when they become material domestic subsidiaries during the term of the 2011 Credit Facility.

The 2011 Credit Facility provides for total borrowings of up to \$175 million. Under the terms of the 2011 Credit Facility, we are entitled to request an increase in the size of the facility by an amount not exceeding \$75 million in the aggregate. If the existing lenders elect not to provide the full amount of a requested increase, or in lieu of accepting offers from existing lenders to increase their commitments, we may designate one or more other lender(s) to become a party to the 2011 Credit Facility, subject to the approval of the Administrative Agent. The 2011 Credit Facility includes a letter of credit sublimit of \$25 million and a swing line sublimit of \$10 million.

At our option, outstanding borrowings bear interest at (i) the London Interbank Offered Rate plus an applicable margin that ranges from 1.00% to 2.25%, (ii) the Eurodollar rate plus an applicable margin that ranges from 1.00% to 2.25%, or

(iii) the base rate plus an applicable margin that ranges from 0% to 1.25%, where the base rate is defined as the greatest of: (a) the federal funds rate plus 0.50%, (b) Bank of America's prime rate, and (c) the Eurodollar rate plus 1.00%. As of October 28, 2012, the commitment fee calculated on unused portions of the credit facility ranges from 0.30% to 0.45% per annum.

In November 2012, we amended the commitment fee calculated on the unused portions of the 2011 Credit Facility. As amended, the commitment fee ranges from 0.20% to 0.35% per annum.

The 2011 Credit Facility contains a number of affirmative and restrictive covenants, including limitations on our ability to grant liens, incur additional debt, pay dividends, redeem our common stock, make certain investments and engage in certain merger, consolidation or asset sale transactions.

In addition, the 2011 Credit Facility provides that we will be required to maintain the following financial ratios as of the last day of each fiscal quarter:

a consolidated maximum leverage ratio as of the end of any quarter of not more than 4.25 to 1.00, based upon the ratio of (i) adjusted funded debt (as defined in the 2011 Credit Facility) to (ii) EBITDAR (as defined in the 2011 Credit Facility) over the period consisting of the four fiscal quarters ending on the determination date, and a consolidated fixed charge coverage ratio of not less than 1.70 to 1.00, based upon the ratio of (i) EBITDAR (as defined in the 2011 Credit Facility) less cash taxes paid by the company and certain discretionary distributions over the period consisting of the four fiscal quarters ending on the determination date to (ii) the sum of interest expense, lease expense, rent expense and the current portion of capitalized lease obligations for such period and the current portion of long-term liabilities for the four fiscal quarters ending on the determination date.

We were in compliance with all debt covenants under our revolving credit facility as of October 28, 2012.

Off-Balance Sheet Arrangements

Our off-balance sheet arrangements at October 28, 2012 consist of outstanding letters of credit discussed in Note 2 to the consolidated financial statements, "Long-Term Debt," and operating leases. We have no other off-balance sheet arrangements that have had, or are reasonably likely to have, a material current or future effect on our consolidated financial statements or changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Contractual Obligations

Our contractual obligations primarily consist of operating lease obligations and long-term debt obligations. No material changes outside the ordinary course of business have occurred in our contractual obligations during the thirty-nine weeks ended October 28, 2012. For a more comprehensive discussion of our contractual obligations see Management's Discussion and Analysis of Financial Condition and Results of Operations, set forth in Part II Item 7, of our Annual Report on Form 10-K, as amended by our Form 10-K/A, for the year ended January 29, 2012.

Critical Accounting Policies

Our financial statements and accompanying notes are prepared in accordance with U.S. generally accepted accounting principles, or GAAP, as we are required to make estimates and assumptions that affect the reported amounts of assets, liabilities, sales, costs and expenses and related disclosures. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent

assets and liabilities at the date of the financial statements and the reported amounts of sales and expenses during the reporting period. These estimates and assumptions are affected by management's application of accounting policies. On an on-going basis, management evaluates its estimates and judgments. Critical accounting policies that affect our more significant judgment and estimates used in the preparation of our financial statements include, accounting for inventories, accounting for impairment of long-lived assets, accounting for closed store reserves, accounting for insurance reserves, accounting for income taxes and accounting for share-based compensation, which are discussed in more detail under the caption "Critical Accounting Policies" in Management's Discussion and Analysis of Financial Condition and Results of Operations, set forth in Part II Item 7, of our Annual Report on Form 10-K, as amended by our Form 10-K/A, for the year ended January 29, 2012.

Seasonality

The food retail industry and our sales are affected by seasonality. Our average weekly sales fluctuate during the year and are usually highest in the fourth quarter when customers make holiday purchases.

Inflation

While inflation may impact our sales and cost of goods sold, we believe the effects of inflation on our results of operations and financial condition were not significant for the thirteen and thirty-nine weeks ended October 28, 2012. We cannot assure you, however, that our results of operations and financial condition will not be materially impacted by inflation in the future.

Item 3 – Quantitative and Qualitative Disclosures About Market Risk

We do not utilize financial instruments for trading or other speculative purposes, nor do we utilize leveraged financial instruments. Our exposure to market risks results primarily from changes in interest rates and there have been no material changes regarding our market risk position from the information provided under Item 7A, "Quantitative and Qualitative Disclosures about Market Risk" in our Form 10-K, as amended by our Form 10-K/A, for the year ended January 29, 2012.

Item 4 – Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our chief executive officer and chief financial officer, evaluated the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15 under the Securities Exchange Act of 1934, as amended (the "Exchange Act") as of the end of the period covered by this Form 10-Q. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints and that management is required to apply its judgment in evaluating the benefits of possible controls and procedures relative to their costs.

Based on that evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures are effective to provide reasonable assurance that information we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the most recent fiscal quarter period that may have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part 2. Other Information

Item 1 – Legal Proceedings

In the ordinary course of our business, we are subject to periodic lawsuits, investigations and claims, including, but not limited to, intellectual property disputes, contractual disputes, premises claims and employment, environmental, health, product liability and safety matters. Although we cannot predict with certainty the ultimate resolution of any lawsuits, investigations and claims asserted against us, we do not believe any currently pending legal proceeding to which we are a party will have a material adverse effect on our business, prospects, financial condition, cash flows or results of operations, except for the proceedings described in the immediately succeeding paragraph, which could have a material adverse effect on us.

We are currently party to two lawsuits that were filed against us and other parties in the state of South Carolina in connection with certain outdoor candle products that were sold at certain of our stores and alleged to have caused personal injury. The lawsuits seek damages from us, as well as from one or more manufacturers and the packager. We believe that we have defenses against these claims and we will vigorously defend ourselves and pursue recovery from insurers and other third parties. We maintain insurance policies (subject to customary deductibles) for our defense costs and any liability resulting from these lawsuits, but one of our umbrella carriers that sits above its primary general liability insurer has reserved its rights as to coverage. The manufacturers of the candle product and the fuel gel used in the candle have each filed for bankruptcy. Because these lawsuits are at an early stage, and because of the uncertain status of the liability of third parties and potential recovery from third parties, we are unable to predict the outcome of these lawsuits or to estimate the amount of damages, if any, that may be awarded. If we are ultimately found liable in these lawsuits and if insurance is not available, liability resulting from these lawsuits could have a material adverse effect on our results of operations for the period or periods in which it is incurred.

Item 1A – Risk Factors

There have been no material changes from the risk factors disclosed in Part I, Item 1A, of our Annual Report in our Form 10-K, as amended by our Form 10-K/A, for the year ended January 29, 2012.

Item 6 – Exhibits

- Exhibit 31.1 Certification of Chief Executive Officer pursuant to Rule 13a-14(a)/15d-14(a) of the Securities Exchange Act of 1934, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
- Exhibit 31.2 Certification of Chief Financial Officer pursuant to Rule 13a-14(a)/15d-14(a) of the Securities Exchange Act of 1934, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
- Exhibit 32.1 Certification of Chief Executive Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
- Exhibit 32.2 Certification of Chief Financial Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
- Exhibit 101 The following financial information from the Company’s Quarterly Report of Form 10-Q, for the period ended October 28, 2012, formatted in eXtensible Business Reporting Language: (i) Consolidated Balance Sheets, (ii) Consolidated Statements of Comprehensive Income, (iii) Consolidated Statements of Stockholders’ Equity, (iv) Consolidated Statements of Cash Flows, (v) Notes to Consolidated Financial Statements (1)
