Notice of Annual Meeting of Shareholders

Dear shareholders:

The 2014 annual meeting of shareholders of Post Holdings, Inc. will be held at 9:00 a.m., Central Time, on Thursday, January 30, 2014, at Gateway Center, One Gateway Drive, Collinsville, Illinois 62234. At the annual meeting, shareholders will consider the following matters:

1. the election of three nominees for director;
2. a proposal to approve increases in the number of shares of our common stock issuable upon conversion of our 3.75% Series B Cumulative Perpetual Convertible Preferred Stock;
3. the ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm;
4. an advisory vote on executive compensation; and
5. any other business properly introduced at the annual meeting.

The close of business on December 6, 2013 has been fixed as the record date for the determination of shareholders entitled to receive notice of and to vote at the annual meeting or any adjournment or postponement thereof. This notice of the meeting and the enclosed proxy statement and proxy card are first being sent or made available to shareholders on or about December 13, 2013.

Your vote is important. Please note that if you hold your shares through a broker, your broker cannot vote your shares on any matter except ratification of the appointment of our independent registered public accounting firm in the absence of your specific instructions as to how to vote. In order for your vote to be counted, please make sure that you submit your vote to your broker.

By order of the Board of Directors,

Diedre J. Gray

Senior Vice President, General Counsel and Secretary

**APPROVAL OF PROPOSAL TO APPROVE INCREASES IN NUMBER OF SHARES OF COMMON STOCK ISSUABLE UPON CONVERSION OF OUR 3.75% SERIES B CUMULATIVE PERPETUAL CONVERTIBLE PREFERRED STOCK**

We are asking our shareholders to consider and vote upon a proposal to approve increases in the number of shares of our common stock issuable upon conversion of our 3.75% Series B Cumulative Perpetual Convertible Preferred Stock that would result from the occurrence of certain events, such as “fundamental changes” and certain recapitalizations, reclassifications or other changes in our common stock, including cash dividend payments. Rules of the New York Stock Exchange, or NYSE, upon which our common stock trades, limit the number of shares of our common stock that we may issue without shareholder approval upon conversion of our convertible preferred stock. Approval of the proposal would allow us to issue shares of our common stock upon conversion of the convertible preferred stock in excess of the limits currently in effect or applicable to the convertible preferred stock. While we currently do not know whether we will ever undergo a fundamental change under circumstances that would result in a conversion rate in excess of the limits currently in effect or whether we will ever effect any of the transactions that would increase the conversion rate above current limits, if the proposal is approved we would be able to avoid the additional demands on our cash flows and liquidity associated with the increased dividend rate we would otherwise be obligated to pay. Additionally, our board of directors and management will have greater flexibility if they determine that a fundamental change, dividend, recapitalization or other transaction described in the proposal would be in the best interests of us and our shareholders, even if the conversion rate as adjusted for those transactions would otherwise result in the issuance of shares in excess of the NYSE rule limits.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

We are asking our shareholders to ratify the selection of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the fiscal year ending September 30, 2014.

EXECUTIVE COMPENSATION

Consistent with the provisions of Section 14A of the Securities Exchange Act of 1934 (which was added by the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010) and related U.S. Securities and Exchange Commission rules, our Board is asking that our shareholders vote to approve, on an advisory (non-binding) basis, the compensation of our named executive officers as disclosed in this proxy statement. This vote is not intended to address any specific item of our compensation program, but rather addresses our overall approach to the compensation of our named executive officers.

As described in detail in this proxy statement, we seek to closely align the interests of our corporate officers with the interests of our shareholders. Our compensation programs are designed to reward our corporate officers for the achievement of financial and operating performance.

Our “named executive officers” are those individuals who served as our Chief Executive Officer and Chief Financial Officer during 2013 as well as the three other most highly compensated current officers. Please read “Compensation Discussion and Analysis” beginning on page 18 and the executive compensation tables beginning on page 25 for additional details about our executive compensation programs, including information about our named executive officers’ 2013 compensation.

PROXY AND VOTING INFORMATION

Why am I receiving these materials?

Our board of directors is soliciting proxies for the 2014 annual meeting of shareholders. On or about December 13, 2013, we expect to begin mailing these proxy materials to shareholders of record at the close of business on December 6, 2013, the record date. On the record date, there were 32,693,019 shares of our common stock outstanding

Where and when is the annual meeting?

We will hold the annual meeting on Thursday, January 30, 2014, at 9:00 a.m., Central Time, at Gateway Center, One Gateway Drive, Collinsville, Illinois 62234.

What am I being asked to vote on at the meeting?

We are asking our shareholders to consider the following items:

1. the election of the three nominees for director named in this proxy statement;
2. a proposal to approve increases in the number of shares of our common stock issuable upon conversion of our 3.75% Series B Cumulative Perpetual Convertible Preferred Stock;
3. the ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm;
4. an advisory vote on executive compensation; and
5. any other business properly introduced at the annual meeting.

How many votes do I have?

You have one vote for each share of our common stock that you owned at the close of business on the record date.

These shares include:

• shares registered directly in your name with our transfer agent, for which you are considered the “shareholder of record”;

• shares held for you as the beneficial owner through a broker, bank or other nominee in “street name”; and

• shares credited to your account in our savings investment plan.

What is the difference between holding shares as a “shareholder of record” and as a “beneficial owner”?

If your shares are registered directly in your name with our transfer agent, you are considered the “shareholder of record” with respect to those shares. We have sent these proxy materials directly to you.

If your shares are held in a stock brokerage account or by a bank or other nominee, you are considered the “beneficial owner” of the shares held in street name. Your broker, bank or other nominee who is considered the shareholder of record with respect to those shares has forwarded these proxy materials to you. As the beneficial owner, you have the right to direct your broker, bank or other nominee on how to vote your shares by using the voting instruction card included in the mailing or by following their instructions for voting by telephone or the Internet.

How can I vote my shares?

You can vote by proxy or in person.

How do I vote by proxy?

If you are a shareholder of record, you may vote by telephone, Internet or mail. Our telephone and Internet voting procedures are designed to authenticate shareholders by using individual control numbers that can be found on the proxy card.

Voting by telephone.

You can vote by calling 800-652-VOTE (8683) and following the instructions provided. Telephone voting is available 24 hours a day, 7 days a week, until 1:00 a.m., Central Time, on Thursday, January 30, 2014. If you vote by telephone, you do not need to return your proxy card.

Voting by Internet.

You can vote via the Internet by accessing [www.envisionreports.com/POST](http://www.envisionreports.com/POST) and following the instructions provided. Internet voting is available 24 hours a day, 7 days a week, until 1:00 a.m., Central Time, on Thursday, January 30, 2014. If you vote by Internet, you do not need to return your proxy card.

## Table of Contents

### Voting by mail.

If you choose to vote by mail, simply mark your proxy card, date and sign it, and return it in the postage-paid envelope provided.

If you submit your proxy using any of these three methods, Robert V. Vitale or Diedre J. Gray, who have been appointed by our board of directors as the proxies for our shareholders for this meeting, will vote your shares in the manner you indicate. You may specify whether your shares should be voted for all, some, or none of the nominees for director and for or against any other proposals properly introduced at the annual meeting. If you vote by telephone or Internet and choose to vote with the recommendation of our board of directors, or if you vote by mail, sign your proxy card, and do not indicate specific choices, your shares will be voted "FOR" the election of all three nominees for director, "FOR" the proposal to approve increases in the number of shares of our common stock issuable upon conversion of our convertible preferred stock; "FOR" ratification of the appointment of our independent public accounting firm, and "FOR" the proposal regarding an advisory vote on executive compensation.

If any other matter is presented at the meeting, your proxy will authorize Robert V. Vitale or Diedre J. Gray to vote your shares in accordance with their best judgment. At the time this proxy statement was printed, we knew of no matters to be considered at the annual meeting other than those referenced in this proxy statement.

If you wish to give a proxy to someone other than Robert V. Vitale or Diedre J. Gray, you may strike out their names on the proxy card and write in the name of any other person, sign the proxy, and deliver it to the person whose name has been substituted.

### How can I revoke my proxy?

You may revoke a proxy in any one of the following four ways:

- submit a valid, later-dated proxy;
- vote again electronically after your original vote;
- notify our corporate secretary in writing before the annual meeting that you have revoked your proxy; or
- vote in person at the annual meeting.

### How do I vote in person?

If you are a shareholder of record, you may attend the annual meeting and cast your vote in person. If you hold shares in street name, then you will need to bring an account statement or letter from your broker, bank or other nominee indicating that you were the record holder of your shares as of December 6, 2013.

### If I hold shares in street name, how can I vote my shares?

You can submit voting instructions to your broker, bank or other nominee. In most instances, you will be able to do this by telephone, over the Internet or by mail. Please refer to the voting instruction card included with these materials by your broker, bank or other nominee.

### How do I vote my shares in the savings investment plan?

If you are both a registered shareholder and a participant in our savings investment plan, you will receive a single proxy card that covers shares of our common stock credited to your plan account as well as shares of record registered in exactly the same name. Accordingly, your proxy card also serves as a voting instruction for the trustee of the plan. If your plan account is not carried in exactly the same name as your shares of record, you will receive separate proxy cards for individual and plan holdings. If you own shares through this plan and you do not return your proxy by 4:00 p.m., Central Time, on January 27, 2014, the trustee will vote your shares in the same proportion as the shares that are voted by the other participants in the plan. The trustee will also vote unallocated shares of our common stock held in the plan in direct proportion to the voting of allocated shares in the plan for which voting instructions have been received unless doing so would be inconsistent with the trustee's duties.

### Is my vote confidential?

Yes. Voting tabulations are confidential except in extremely limited circumstances. Such limited circumstances include contested solicitation of proxies, when disclosure is required by law, to defend a claim against us or to assert a claim by us, and when a shareholder's written comments appear on a proxy or other voting material.

Table of Contents

What “quorum” is required for the annual meeting?

In order to have a valid shareholder vote, a quorum must exist at the annual meeting. For us, a quorum exists when shareholders holding a majority of the outstanding shares entitled to vote at the meeting are present or represented at the meeting, provided that in no event shall a quorum consist of less than a majority of the outstanding shares entitled to vote.

What vote is required?

The affirmative vote of a majority of the shares present and entitled to vote at the meeting is required for a director nominee to be elected and for each of the items to be presented to the shareholders for approval.

How are the voting results determined?

A proxy card marked “withhold” for a nominee will not be voted for that nominee. A proxy card marked “abstain” on a matter will be considered to be represented at the annual meeting, but not voted for these purposes. If a broker indicates on its proxy that it does not have authority to vote certain shares held in “street name,” the shares not voted are referred to as “broker non-votes.” Broker non-votes occur when brokers do not have discretionary voting authority to vote certain shares held in “street name” on particular proposals under the rules of the New York Stock Exchange, and the “beneficial owner” of those shares has not instructed the broker to vote on those proposals. If you are a beneficial owner, your broker, bank or other nominee is permitted to vote your shares only with regard to ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm, even if the holder does not receive voting instructions from you. Shares registered in the name of a broker, bank or other nominee, for which proxies are voted on some, but not all matters, will be considered to be represented at the annual meeting for purposes of determining a quorum and voted only as to those matters marked on the proxy card.

Is any other business expected at the meeting?

The Board of Directors does not intend to present any business at the annual meeting other than the proposals described in this proxy statement. However, if any other matter properly comes before the annual meeting, including any shareholder proposal omitted from the proxy statement and form of proxy pursuant to Rule 14a-8 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”) your proxies will act on such matter in their discretion.

Where can I find the voting results?

We intend to announce preliminary voting results at the annual meeting. We will publish the final results in a Current Report on Form 8-K, which we expect to file on or before February 5, 2014. You can obtain a copy of the Form 8-K by logging on to our website at [www.postholdings.com](http://www.postholdings.com), by calling the Securities and Exchange Commission (“SEC”) at 800-SEC-0330 for the location of the nearest public reference room, or through the EDGAR system at [www.sec.gov](http://www.sec.gov). Information on our website does not constitute part of this proxy statement.

## Table of Contents

### CORPORATE GOVERNANCE

#### Overview

We are dedicated to creating long-term shareholder value. It is our policy to conduct our business with integrity and an unrelenting passion for providing value to our customers and their consumers. All of our corporate governance materials, including our corporate governance guidelines, our standards of business conduct, our director code of ethics and board committee charters, are published under the Corporate Governance section of our website at [www.postholdings.com](http://www.postholdings.com). Information on our website does not constitute part of this proxy statement. The board of directors regularly reviews these materials, Missouri law, the rules and listing standards of the NYSE and SEC rules and regulations, as well as best practices suggested by recognized governance authorities, and modifies our corporate governance materials as warranted.

#### Director Independence

Our board of directors follows the categorical independence standards based on the NYSE listing standards and the SEC rules and regulations as described in our corporate governance guidelines. The guidelines contain the categorical standards our board uses to make its determination as to the materiality of the relationships of each of our directors. Our board has determined, in its judgment, that all of our non-employee directors, except Mr. David Skarie, are independent directors as defined in the NYSE listing standards and the SEC rules and regulations. The board determined that Mr. Skarie is not an independent director since he previously served as co-CEO and President of Ralcorp Holdings, Inc. (“Ralcorp”), our former parent company, until December 2011.

The independent members of the board of directors meet regularly without the presence of management. These sessions are normally held following or in conjunction with regular board meetings. The lead independent director, or the chairman of the committee then in session, acts as the presiding director during executive sessions. As the Chairman of our Corporate Governance and Compensation Committee, Mr. David Banks currently serves as our lead independent director.

#### Code of Ethics

Our standards of business conduct, applicable to all corporate officers and employees, sets forth our expectations for the conduct of business by corporate officers and employees. Our directors have adopted, and are required to abide by, a director code of ethics. We intend to post amendments to or waivers from (to the extent applicable to one of our corporate officers or directors) these documents on our website.

#### Conflicts of Interest

Pursuant to our conflict of interest policy, standards of business conduct for corporate officers and employees and director code of conduct, each director and corporate officer has an obligation not to engage in any transaction that could be deemed a conflict of interest. Our directors may not engage in any transaction that could impact their independence on the board of directors.

The Corporate Governance and Compensation Committee is responsible for approving and ratifying transactions in which one or more directors may have an interest. The Committee reviews the material facts of all interested transactions that require the Committee’s approval and either approves or disapproves of the entry into the interested transaction. In the event management, in the normal course of reviewing our records, determines an interested transaction exists which was not approved by the Committee, management will present the transaction to the Committee for consideration.

The Committee has adopted standing pre-approval of certain transactions in which a corporate officer or director may have an interest including (i) transactions involving competitive bids, (ii) certain charitable contributions, and (iii) certain banking related services. The Committee believes these transactions are immaterial to us and to any director or corporate officer. No director may participate in the approval of an interested party transaction for which he is a related party. If an interested party transaction will be ongoing, the Committee may establish guidelines for our management to follow in its ongoing dealings with the related party.

#### Structure of the Board of Directors

Our articles of incorporation and bylaws provide for a board of directors that is divided into three classes as equal in size as possible. The classes have three-year terms, and the term of one class expires each year in rotation at that year’s annual meeting. The size of the board of directors can be changed by a vote of its members. The board of directors is

currently comprised of nine members. Vacancies on the board of directors may be filled by a majority of the remaining directors. A director elected to fill a vacancy, or a new directorship created by an increase in the size of the board of directors, serves until the next meeting of shareholders at which directors are elected, at which he or she may stand for election if nominated by the full board.

Table of Contents

## Board Meetings and Committees

The board of directors has the following four committees: Audit, Corporate Governance and Compensation, Executive and Strategy and Financial Oversight. The table below contains information concerning the membership of each of the committees and the number of times the board of directors and each committee met during fiscal 2013. During fiscal 2013, each director attended at least 75% of the total number of meetings of the board of directors and of the committees on which he serves. Our corporate governance guidelines do not require the directors to attend the annual meeting of shareholders.

## Audit Committee

The Audit Committee's primary responsibilities are to monitor and oversee (a) the quality and integrity of our financial statements and financial reporting, (b) the independence and qualifications of our independent auditors, (c) the performance of our independent audit, (d) our systems of internal accounting, financial controls and disclosure controls, and (e) compliance with legal and regulatory requirements, codes of conduct and ethics programs.

The board of directors has determined, in its judgment, that the Audit Committee is comprised solely of independent directors as defined in the NYSE listing standards and Rule 10A-3 of the Exchange Act. The committee operates under a written charter, adopted by the board of directors, which is available under the Corporate Governance section of our website at [www.postholdings.com](http://www.postholdings.com). The board of directors has also determined, in its judgment, that Mr. Callison, the chair of our Audit Committee, qualifies as an "audit committee financial expert" as defined by SEC rules and that each member of the Audit Committee is "financially literate" as defined by NYSE rules. Our corporate governance guidelines do not currently restrict the number of audit committees of public companies on which members of our Audit Committee may serve, however, the board of directors has determined that none of the members of the Audit Committee currently serves on the audit committees of more than three public companies. The report of the Audit Committee can be found on page 17 of this proxy statement.

## Corporate Governance and Compensation Committee

The Corporate Governance and Compensation Committee (a) determines the compensation level of the corporate officers, (b) reviews management's Compensation Discussion and Analysis relating to our executive compensation programs and approves the inclusion of the same in our proxy statement and/or annual report, (c) issues a report confirming the committee's review and approval of the Compensation Discussion and Analysis for inclusion in our proxy statement and/or annual report, (d) administers and makes recommendations with respect to incentive compensation plans and stock-based plans and (e) reviews and oversees risks arising from or in connection with our compensation policies and programs for all employees. The Corporate Governance and Compensation Committee also reviews and revises, as necessary, our corporate governance guidelines.

The board of directors has determined, in its judgment, that the Corporate Governance and Compensation Committee is comprised solely of independent directors as defined in the NYSE listing standards. The committee operates under a written charter, adopted by the board of directors, which is available under the Corporate Governance section of our website at [www.postholdings.com](http://www.postholdings.com). The charter was revised in June 2013 to make provision for new SEC and NYSE

rules affecting compensation committees. The charter now provides for assessing potential conflicts of interest of compensation consultants and other advisers. The report of the Corporate Governance and Compensation Committee can be found on page 33 of this proxy statement.

## Table of Contents

### Executive Committee

The Executive Committee may exercise all board authority in the intervals between board meetings, to the extent such authority is in compliance with our corporate governance guidelines and does not infringe upon the duties and responsibilities of other board committees.

### Strategy and Financial Oversight Committee

The Strategy and Financial Oversight Committee periodically reviews financial and strategic matters with management during periods between board meetings.

### Nomination Process for Election of Directors

The Corporate Governance and Compensation Committee has responsibility for assessing the need for new directors to address specific requirements or to fill a vacancy. The committee may, from time to time, initiate a search for a new candidate seeking input from our chairman and from other directors. The committee may retain an executive search firm to identify potential candidates. All candidates must meet the requirements specified in our corporate governance guidelines. Candidates who meet those requirements and otherwise qualify for membership on our board of directors are identified, and the committee initiates contact with preferred candidates. The committee regularly reports to the board of directors on the progress of the committee's efforts. The committee meets to consider and approve final candidates who are then presented to the board of directors for consideration and approval. Our chairman or the chairman of the Corporate Governance and Compensation Committee may extend an invitation to join the board of directors.

The committee relies primarily on recommendations from management and members of the board of directors to identify director nominee candidates. However, the committee will consider timely written suggestions from shareholders. Such suggestions and the nominee's consent to being nominated, together with appropriate biographical information (including principal occupation for the previous five years, business and residential addresses, and educational background) and other relevant information as outlined in our bylaws, should be submitted in writing to our corporate secretary. Shareholders wishing to suggest a candidate for director nomination for the 2015 annual meeting should mail their suggestions to Post Holdings, Inc., 2503 S. Hanley Road, St. Louis, Missouri 63144, Attn: Corporate Secretary. Suggestions must be received by the corporate secretary no earlier than October 2, 2014 and no later than November 1, 2014.

### Role of the Board in Risk Oversight

The board of directors is responsible for the oversight of risk, while management is responsible for the day-to-day management of risk. The board of directors, directly and through its committees, carries out its oversight role by regularly reviewing and discussing with management the risks inherent in the operation of our business and applicable risk mitigation efforts. Management meets regularly to discuss our business strategies, challenges, risks and opportunities and reviews those items with the board of directors at regularly scheduled meetings.

We do not believe that our compensation policies and practices encourage excessive and unnecessary risk-taking. The design of our compensation policies and practices encourages employees to remain focused on both short- and long-term financial and operational goals. For example, cash bonus plans measure performance on an annual basis but are based on a wide variety of factors and, while recommended by the Chief Executive Officer, are subject to the Corporate Governance and Compensation Committee's ultimate judgment and discretion. In addition, equity awards typically vest over a number of years, which we believe encourages employees to focus on sustained stock price appreciation over an extended period of time instead of on short-term financial results.

### Board Leadership Structure

The current leadership structure of our board includes William P. Stiritz, our Chairman and Chief Executive Officer. We do not have a formal policy with respect to separation of the offices of Chairman of the Board and Chief Executive Officer, and the board believes that it should maintain flexibility to select our Chairman and board leadership structure from time to time. Pursuant to our Corporate Governance Guidelines, the Chairman of the Corporate Governance and Compensation Committee acts in the role of lead director.

The board believes that combining the positions of Chairman and Chief Executive Officer is the most appropriate for Post at this time. Having one person as Chairman and Chief Executive Officer provides unified leadership and direction to our company and strengthens the ability of the Chief Executive Officer to develop and implement

strategic initiatives and respond efficiently in crisis situations. The board also believes the combination of the Chairman and Chief Executive Officer positions is appropriate in light of the substantial independent oversight provided by the board.

The lead director's duties are described in our Corporate Governance Guidelines and include: (i) chairing the meetings of the independent directors when the Chairman is not present; (ii) working with the Chief Executive Officer to develop the Board and Committee agendas and approve the final agendas; (iii) coordinating, developing the agenda for and chairing executive

Table of Contents

sessions of the board's independent directors; and (iv) working in conjunction with the Corporate Governance and Compensation Committee to identify for appointment the members of the various board committees. In addition to the lead director, the board has a substantial majority of independent directors. The Audit Committee and Corporate Governance and Compensation Committees are composed solely of independent directors. Consequently, independent directors directly oversee critical matters and appropriately monitor the Chairman and Chief Executive Officer. Our independent directors have the opportunity to meet in executive session at the conclusion of each of our board of director meetings.

Director Evaluations

On an annual basis, the Corporate Governance and Compensation Committee is expected to conduct an evaluation of the Board, the functioning of the committees and each individual member of the Board. In addition to this evaluation, and as a part of this process, the Board and each Committee conducts a self-assessment. The Corporate Governance and Compensation Committee reviews the results of these self-assessments, and shares the same with the Board and each Committee, as appropriate, and makes any advisable recommendations based on this feedback.

Policy on Director Diversity

While the Corporate Governance and Compensation Committee does not have a written policy regarding diversity in identifying new director candidates, the Committee takes diversity into account in looking for the best available candidates to serve on the Board of Directors. The Committee looks to establish diversity on the Board through a number of demographics, experience (including operational experience), skills and viewpoints, all with a view to identify candidates who can assist the Board with its decision making. The Committee believes that the current Board of Directors reflects diversity on a number of these factors.

Communication with the Board

Shareholders and other parties interested in communicating directly with an individual director or with the non-management directors as a group, may do so by writing to the individual director or group, c/o Post Holdings, Inc., 2503 S. Hanley Road, St. Louis, Missouri 63144, Attn: Corporate Secretary. The board has directed our corporate secretary to forward shareholder communications to our chairman and any other director to whom the communications are directed. In order to facilitate an efficient and reliable means for directors to receive all legitimate communications directed to them regarding our governance or operations, our corporate secretary will use her discretion to refrain from forwarding the following: sales literature; defamatory material regarding us and/or our directors; incoherent or inflammatory correspondence, particularly when such correspondence is repetitive or was addressed previously in some manner; and other correspondence unrelated to the board of director's corporate governance and oversight responsibilities.

ELECTION OF DIRECTORS

(Proxy Item No. 1)

The terms of three current directors (Messrs. Banks, Block and Grote) will expire at the annual meeting. Our board of directors has nominated Messrs. Banks, Block and Grote for election for a three-year term that will expire in 2017. The board of directors is not aware that any of these nominees will be unwilling or unable to serve as a director. All nominees have consented to be named in the proxy statement and to serve if elected. If, however, a nominee is unavailable for election, your proxy authorizes us to vote for a replacement nominee if the board of directors names one. As an alternative, the board of directors may reduce the number of directors to be elected at the meeting. Proxies may not be voted for a greater number of persons than the nominees presented.

All of the nominees currently are directors. Each of these directors was elected to the Board on February 3, 2012, immediately after the separation from Ralcorp was completed.

The persons named on the proxy card intend to vote the proxy representing your shares for the election of Messrs. Banks, Block and Grote, unless you indicate on the proxy card that the vote should be withheld or you indicate contrary directions. If you deliver the proxy card without giving any direction, the persons named on the proxy card will vote the proxy representing your shares FOR the election of the nominee named on the proxy card. If a nominee is unavailable to serve as a director, your proxies may vote for another nominee proposed by the Board, or the Board may reduce the number of directors to be elected at the annual meeting.

The board of directors recommends a vote "FOR" these nominees.

Board Composition

We believe that our directors should possess the highest personal and professional integrity and values, and be committed to representing the long-term interests of our shareholders. We further believe that the backgrounds and qualifications of our directors, considered as a group, should provide a blend of business experience and competence, and professional and personal abilities, that will allow the Board to fulfill its responsibilities. The Corporate Governance and Compensation Committee works with the Board to determine the appropriate mix of these backgrounds and qualifications that would establish and maintain a Board with strong collective abilities.

To fulfill these objectives, the Board has determined that it is important to nominate directors with the skills and experiences set forth below, among others. The experiences, qualifications and skills that the Board considered in each director's re-nomination are included in their individual biographies.

**Leadership Experience.** We believe that directors with experience in significant leadership positions over an extended period generally possess strong abilities to motivate and manage others and to identify and develop leadership qualities in others. They also generally possess a practical understanding of organizations, processes, strategy, risk management and the methods to drive change and growth.

**Financial or Accounting Acumen.** We believe that an understanding of finance and financial reporting processes enables our directors to evaluate and understand the impact of business decisions on our financial statements and capital structure. In addition, accurate financial reporting and robust auditing are critical to our ongoing success.

**Industry Experience.** We seek directors with experience as executives, directors or in other leadership positions in industries relevant to our business, including consumer packaged goods, branded products, retail or consumer product manufacturing.

**Operational Experience.** We believe that directors who are current or former executives with direct operational responsibilities bring valuable practical insight to helping develop, implement and assess our operating plan and business strategy. Operational experience includes experience in areas such as marketing, supply chain, sustainability and commodity management.

**Public Company Board Experience.** Directors with experience as executives or directors of other publicly traded companies generally are well prepared to fulfill the Board's responsibilities of overseeing and providing insight and guidance to management, and help further our goals of greater transparency, accountability for management and the Board, and protection of our shareholders' interests.

APPROVAL OF INCREASES IN COMMON STOCK ISSUABLE ON CONVERSION  
OF CONVERTIBLE PREFERRED STOCK

(Proxy Item No. 2)

At the annual meeting, we are asking our shareholders to consider and vote upon a proposal to approve increases in the number of shares of our common stock that would be issued or issuable upon conversion of our 3.75% Series B Cumulative Perpetual Convertible Preferred Stock, which we refer to as our “convertible preferred stock,” that would result from the occurrence of certain events, such as “fundamental changes” and certain recapitalizations, reclassifications or other changes in our common stock, including cash dividend payments, each of which is described briefly below and in more detail under “Conversion Rights” in Exhibit A to this proxy statement.

General

We issued 2,415,000 shares of our convertible preferred stock on February 26, 2013 and received gross proceeds of \$241,500,000. The terms and conditions of our convertible preferred stock are contained in the Certificate of Designation, Rights and Preferences, or certificate of designation, of our convertible preferred stock as filed with the Missouri Secretary of State and are summarized in the “Description of the Convertible Preferred Stock” attached to this proxy statement as Exhibit A.

Holders of shares of our convertible preferred stock, at their option, may convert some or all of their outstanding shares of our convertible preferred stock at an initial conversion rate of 2.1192 shares of our common stock per share of our convertible preferred stock. This initial conversion rate continues to be in effect as of the date of this proxy statement. If all holders of our convertible preferred stock were to convert their shares at this rate, we would issue, in the aggregate, 5,117,868 shares of our common stock, which would have represented approximately 15.7% of the shares of our common stock outstanding at the time we issued the convertible preferred stock. As noted above, the conversion rate is subject to adjustment upon the occurrence of certain events, such as “fundamental changes” and certain recapitalizations, reclassifications or other changes in our common stock, including cash dividend payments. Rules of the NYSE, upon which our common stock trades, limit the number of shares of our common stock that we may issue without shareholder approval upon conversion of our convertible preferred stock. Specifically, Section 312.03(c) of the NYSE Listed Company Manual requires that we obtain shareholder approval in certain circumstances prior to the issuance of our common stock, or securities convertible into or exercisable for our common stock, such as our convertible preferred stock, in any transaction or series of related transactions if: (i) the common stock issuable by us has, or will have upon issuance, voting power equal to 20% or more of the voting power outstanding before the issuance of such stock or of securities convertible into or exercisable for our common stock; or (ii) the number of shares of our common stock to be issued is, or will upon issuance, equal 20% or more of the number of shares of our common stock outstanding before the issuance of such stock or of securities convertible into or exercisable for our common stock.

At the annual meeting, we are seeking the approval of our shareholders for adjustments in the conversion rate of our convertible preferred stock that could result in us issuing shares of our common stock that exceed, in the aggregate, the 20% thresholds specified in NYSE Section 312.03(c).

Increases in Common Stock Issuable upon a “Fundamental Change”

The terms of our convertible preferred stock provide that the conversion rate may be adjusted in connection with a “fundamental change.” The term “fundamental change” is defined in the certificate of designation and is described in more detail in Exhibit A under “Conversion Rights - Make-Whole Premium upon a Fundamental Change;” however, it generally includes events such as:

- a person or group other than us or our subsidiaries beneficially owning more than 50% of the voting power of our common stock;
- with certain exceptions, including where at least 90% of the consideration received by holders of our common stock for the fundamental change transaction consists of publicly traded common stock and our convertible preferred stock is convertible into such stock, consummation of a recapitalization or reclassification of our common stock that results in our common stock being converted into or exchanged for stock or other securities or assets, or a business combination involving us that results in our common stock being converted into cash, securities or other property, or a sale, lease or other transfer of all or substantially all of our assets to any person other than one of our subsidiaries;

approval by our shareholders of our liquidation or dissolution, or our common stock ceasing to be listed or quoted on the NYSE, The NASDAQ Global Select Market or The NASDAQ Global Market (or any of their respective successors).

Upon the occurrence of a fundamental change, a holder may elect to convert its convertible preferred stock in connection with the fundamental change as follows:

13

---

Table of Contents

if our “stock price” (as defined in the certificate of designation) is greater than or equal to \$37.75 per share (subject to adjustment as provided in the certificate of designation), the holder may elect to have the conversion rate (A) increased by a number of additional shares of our common stock determined based on the stock price and effective date of the fundamental change, as described in the certificate of designation (see “Conversion Rights - Make-Whole Premium upon a Fundamental Change” in Exhibit A); or regardless of the “stock price,” the holder may elect to have the conversion rate increased to equal the quotient of “(x)” divided by “(y),” where “(x)” equals the sum of the \$100 liquidation preference of the convertible preferred stock and (B) all accrued and unpaid dividends to the fundamental change settlement date (as defined in the certificate of designation), and where “(y)” equals the average of the closing sale prices of our common stock for the five consecutive trading days ending on the third business day prior to the fundamental change settlement date.

The purpose of these adjustments to the conversion rate in connection with a fundamental change is to provide holders of our convertible preferred stock with certain limited protections against adverse changes in us or our stock price. We anticipate that an adjustment to the conversion rate as described in clause (B) above would occur only under circumstances in which our stock price at the time of the fundamental change is less than \$37.75 per share.

Adjustments to the conversion rate described in clause (A) above will not result in us being required to issue, in the aggregate, shares of common stock in excess of the NYSE Section 312.03(c) limits. However, the conversion rate adjustment described in clause (B) above could result in us being required to issue, in the aggregate, shares of common stock in excess of the Section 312.03(c) limits.

Since we did not obtain shareholder approval under NYSE Section 312.03(c) prior to the issuance of our convertible preferred stock on February 26, 2013, the certificate of designation provides that the conversion rate adjustment described in clause (B) above will not exceed 2.6490 shares of our common stock per share of our convertible preferred stock, which we refer to as the “share cap.” The share cap was designed to ensure that any adjustment of the conversion rate under clause (B) would not result in the issuance by us of shares of our common stock that exceed in the aggregate the thresholds under Section 312.03(c) by limiting the maximum number of shares of our common stock issuable in connection with a fundamental change to 6,397,335 shares, which would have represented approximately 19.6% of the number of shares of our common stock outstanding at the time we issued the convertible preferred stock. The certificate of designation also provides that if we do not obtain the requisite shareholder approval to increase the share cap to 5.2980 shares of our common stock per share of our convertible preferred stock, which we refer to as the “adjusted share cap,” by February 20, 2014, the annual dividend rate on our convertible preferred stock will automatically increase by 0.25%, to 4.0%, and the increased dividend rate will remain in effect until such time, if ever, that our shareholders approve the adjusted share cap. The aggregate amount of the increased dividend would be \$603,750 per year, if increased dividends are triggered under the Certificate of Designation. The adjusted share cap would permit us to issue up to 12,794,670 shares of common stock upon conversion of our convertible preferred stock in connection with clause (B) above, an amount that exceeds the NYSE Section 312.03(c) limits and thus requires shareholder approval under the NYSE rules.

**Increases in our Common Stock Issuable as a Result of Recapitalizations, Reclassifications and Changes of our Common Stock**

The rate at which shares of our convertible preferred stock is convertible into shares of our common stock may also be adjusted from time to time, as described in more detail under “Conversion Right - Recapitalizations, Reclassifications and Changes of Our Common Stock” in Exhibit A, if:

- (1) we exclusively issue shares of our common stock as a dividend or distribution on our common stock to all or substantially all holders of our common stock, or if we effect a share split or share combination; we distribute to all or substantially all holders of our common stock any rights, options or warrants entitling them
- (2) to subscribe for or purchase shares of our common stock at a price per share that is less than the average of the closing sale prices of our common stock over a ten trading day period; we distribute shares of our capital stock, evidences of our indebtedness or other assets, securities or property of
- (3) ours or rights, options or warrants to acquire our capital stock or other securities, to all or substantially all holders of our common stock (subject to certain exclusions);
- (4)

we pay any cash dividend or distribution to all or substantially all holders of our common stock;

or

(5) we or any of our subsidiaries makes a payment in respect of a tender offer or exchange offer for our common stock, to the extent the cash and value of any other consideration included in the payment per share of our common stock exceeds the closing sale price of a share of our common stock on the trading day following the last date on which tenders or exchanges may be made pursuant to such tender or exchange offer.

14

---

Table of Contents

As described above, NYSE Section 312.03(c) may limit the amount by which we may increase the conversion rate on our convertible preferred stock in connection with the events described in clauses (2) through (5) above. We do not believe that Section 312.03(c) would limit adjustments under clause (1) above.

**Shareholder Approval**

At the annual meeting, we are asking our shareholders to consider and vote upon a proposal to approve increases in the number of shares of our common stock issuable upon conversion of the convertible preferred stock, which would have the effect of approving (i) the increase in the share cap to the adjusted share cap conversion rate of 5.2980 shares of our common stock per share of our convertible preferred stock and (ii) all increases in the number of shares of our common stock arising from changes in the conversion rate due to recapitalizations, reclassifications and other changes in our common stock described in clauses (2) through (5) above.

Shareholder approval of this proposal would allow us to issue shares of our common stock upon conversion of our convertible preferred stock even if, after the conversion rate adjustments in connection with a fundamental change described in clause (B) above or the other conversion rate adjustments described in clauses (2) through (5) above, the aggregate number of our shares of common stock that may be so issued has, or will have upon issuance, voting power equal to 20% or more of the voting power of our common stock outstanding before the issuance of such stock or of securities convertible into or exercisable for our common stock and is, or will upon issuance, equal 20% or more of the number of shares of our common stock outstanding before the issuance of such stock or of securities convertible into or exercisable for common stock.

While we currently do not know whether we will ever undergo a fundamental change under circumstances that would result in a conversion rate in excess of the share cap currently in effect, or whether we will ever effect any of the transactions described in clauses (2) through (5) above, if the proposal is approved, then we would be able to avoid the additional demands on our cash flows and liquidity associated with the increased dividend rate we would otherwise be obligated to pay and our board of directors and management will have greater flexibility if they determine that a fundamental change, dividend, recapitalization or other transaction described above would be in the best interests of us and our shareholders, even if the conversion rate as adjusted for those transactions would otherwise result in the issuance of shares in excess of the NYSE rule limits.

Our board of directors recommends a vote “FOR” the approval of the increases in our common stock issuable on conversion of our convertible preferred stock.

Table of ContentsRATIFICATION OF APPOINTMENT OF INDEPENDENT  
REGISTERED PUBLIC ACCOUNTING FIRM

(Proxy Item No. 3)

The Audit Committee has selected PricewaterhouseCoopers LLP as our independent registered public accounting firm for the fiscal year ending September 30, 2014, and the board of directors has directed that management submit the appointment of our independent registered public accounting firm for ratification by our shareholders at the annual meeting. PricewaterhouseCoopers LLP has served as our independent registered public accounting firm since February 2012. A representative of that firm will be present at the annual meeting, will have an opportunity to make a statement, if they desire, and will be available to respond to appropriate questions.

We are not required to obtain shareholder ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm. However, we are submitting the appointment of PricewaterhouseCoopers LLP to shareholders for ratification as a matter of good corporate practice. If our shareholders fail to ratify the appointment, the Audit Committee will reconsider whether or not to retain PricewaterhouseCoopers LLP. Even if the appointment is ratified, the Audit Committee in its discretion may direct the appointment of a different independent registered public accounting firm at any time if they determine that such a change would be in our best interests and the best interests of our shareholders.

The following table sets forth the fees paid for audit services during the fiscal years ended September 30, 2012 and 2013 and for other services during those fiscal years.

	Year Ended September 30,	
	2012	2013
Audit fees <sup>(1)</sup>	\$1,685,000	<sup>(3)</sup> 2,205,000
Audit-related fees	—	—
Tax fees	—	—
All other fees <sup>(2)</sup>	1,800	1,800

(1) Audit fees relate primarily to the audit of our financial statements, comfort letter consents and review of SEC registration statements.

(2) All other fees include any fees for services received by PricewaterhouseCoopers which are not included in any of the above categories. The other fees consist of licensing fees paid for accounting research software.

(3) Subsequent to the filing of the 2013 proxy statement, the Audit Committee approved the payment of \$220,000 of additional audit fees to PricewaterhouseCoopers LLP, resulting in total 2012 audit fees of \$1,685,000.

With regard to the fees listed above, the Audit Committee has considered whether the provision by PricewaterhouseCoopers LLP of services other than audit services is compatible with its ability to maintain its independence. Regardless of the size or nature of the other services, if any, to be provided, it is the Audit Committee's policy and practice to approve any services not under the heading "Audit Fees" before any such other services are undertaken. Our audit was staffed primarily by full-time, permanent employees of PricewaterhouseCoopers LLP. The board of directors recommends a vote "FOR" ratification of the appointment of our independent registered public accounting firm.

AUDIT COMMITTEE REPORT

The Audit Committee oversees our financial reporting process on behalf of the board of directors. Management is responsible for our internal controls, financial reporting processes and compliance with laws and regulations and ethical business standards. PricewaterhouseCoopers LLP, our independent registered public accounting firm, is responsible for performing an independent audit of our consolidated financial statements in accordance with the standards of the Public Company Accounting Oversight Board (the “PCAOB”) and issuing a report thereon. Our internal auditors assist the Audit Committee with its responsibility to monitor and oversee the financial reporting process and internal controls. The committee discussed with our internal auditors and independent registered public accounting firm the overall scopes and plans for their respective audits. The committee met, at least quarterly, with the internal auditors and independent registered public accounting firm, and at their discretion with and without management present, and discussed the results of their examinations, their evaluations of our internal controls, and the overall quality of our financial reporting.

With respect to our audited financial statements for the fiscal year ended September 30, 2013, management has represented to the committee that the financial statements were prepared in accordance with generally accepted accounting principles and the committee has reviewed and discussed those financial statements with management. The Audit Committee has also discussed with PricewaterhouseCoopers LLP the matters required to be discussed by PCAOB AU Section 380 (Communication with Audit Committees) as modified or supplemented.

The Audit Committee has received the written disclosures from PricewaterhouseCoopers LLP required by PCAOB Rule 3526 (Communications with Audit Committees Concerning Independence), as modified or supplemented, and has discussed the independence of PricewaterhouseCoopers LLP with members of that firm.

Based on the review and discussions referred to above, the Audit Committee recommended to the board of directors that the audited consolidated financial statements for the fiscal year ended September 30, 2013 be included in our Annual Report on Form 10-K filed with the SEC for that year.

While the Audit Committee has the responsibilities and powers set forth in its charter, it is not the duty of the Audit Committee to plan or conduct audits or to determine that our financial statements are complete and accurate or are in accordance with generally accepted accounting principles. This is the responsibility of management and the independent registered public accounting firm.

## COMPENSATION OF OFFICERS AND DIRECTORS

## Compensation Discussion and Analysis

## Executive Summary

This Compensation Discussion and Analysis describes how the Corporate Governance and Compensation Committee (the “Compensation Committee”) decided to compensate the following officers for fiscal 2013:

- William P. Stirtz, our Chief Executive Officer;
- Terence E. Block, our President and Chief Operating Officer;
- Robert V. Vitale, our Chief Financial Officer;
- James L. Holbrook, our Executive Vice President – Marketing; and
- Jeff A. Zadoks, our Corporate Controller.

We refer to these individuals in this proxy statement as our “named executive officers.”

## Our Executive Compensation Objectives

Our executive compensation programs are based upon achieving the following objectives:

- aligning the compensation of our named executive officers with the long-term interests of our shareholders;
- providing a total compensation opportunity that allows us to attract and retain talented executive officers, and motivate them to achieve exceptional business results; and
- ensuring that our named executive officers’ total compensation opportunities are competitive in comparison with our peers, that our incentive compensation is performance-based, and that our programs are consistent with high standards of corporate governance and evolving best practices within our industry.

## Pay Opportunity for Our Named Executive Officers

## Mr. Stirtz

Pursuant to a three-year employment agreement signed in May 2012 and extended for another year in October 2013, Mr. Stirtz will receive a base salary of \$1 per year. Under this agreement, Mr. Stirtz has agreed that he generally will not participate in any of the Company’s short-term or long-term bonus plans, benefit plans or other similar arrangements.

In May 2012, the Compensation Committee granted Mr. Stirtz 1,550,000 non-qualified stock options at an exercise price of \$31.25 per share, the closing price of our stock on the date of grant, which generally vest in equal installments on the first, second and third anniversaries of the grant date. In October 2013, the Company and Mr. Stirtz agreed to an amendment to his employment agreement to extend the term by one year, and in connection with such amendment, Post granted Mr. Stirtz 600,000 stock options at an exercise price equal to \$40.30, the closing market price of Post stock on the date of grant, generally vesting in equal increments on the first, second and third anniversaries of the grant date. These options are intended to constitute substantially all of Mr. Stirtz’s compensation for his service as Chief Executive Officer of the Company during the four-year term of his employment agreement, absent special circumstances.

## Other Executives

In November 2012, the Compensation Committee approved the fiscal 2013 base salaries and target bonus percentages (expressed as percentages of base salary) of our named executive officers other than Mr. Stirtz. The following table sets forth the annual base salary and target bonus level of our named executive officers for fiscal 2013:

Name	Position	Base Salary	Target Bonus
Terence E. Block	President and Chief Operating Officer	\$500,000	100%
Robert V. Vitale	Chief Financial Officer	\$430,000	100%
James L. Holbrook	Executive Vice President – Marketing	\$430,000	100%
Jeff A. Zadoks	Corporate Controller	\$250,000	80%

In addition, on November 19, 2012, the Compensation Committee granted non-qualified stock options to certain named executive officers, with an exercise price of \$33.89, the closing market price of the Company’s common stock on the date of grant. These stock options vest in full on the seventh anniversary of the date of grant, except for the stock options granted to

Table of Contents

Mr. Block which vest in equal annual installments on the first, second and third anniversaries of the date of grant. The following table sets forth the non-qualified stock options which were awarded to these executive officers:

Name	Position	Stock Options
Terence E. Block	President and Chief Operating Officer	100,000
Robert V. Vitale	Chief Financial Officer	100,000
James L. Holbrook	Executive Vice President – Marketing	100,000

Also on November 19, 2012, the Compensation Committee approved awards of restricted stock units (“RSUs”) to certain executive officers. The RSUs vest in full on the seventh anniversary of the date of grant, except for the RSUs awarded to Mr. Block which vest in equal installments on the first, second and third anniversaries of the date of grant, subject to certain acceleration events described in the award agreements. The following table sets forth the RSUs which were awarded to these executive officers:

Name	Position	RSUs
Terence E. Block	President and Chief Operating Officer	19,000
Robert V. Vitale	Chief Financial Officer	19,000
James L. Holbrook	Executive Vice President – Marketing	19,000

In addition, on November 19, 2012, the Compensation Committee approved an award to Mr. Zadoks of 5,000 RSUs. These RSUs have the same vesting provisions as the RSUs awarded to Mr. Block, but will ultimately be settled in cash as opposed to shares of stock.

**Senior Management Bonus Program**

On May 6, 2013, the Compensation Committee approved the Amended and Restated Senior Management Bonus Program applicable to Messrs. Block, Vitale, Holbrook, and Zadoks. The amount of payout under the plan is a percentage of each executive’s salary, which is paid based on the level of achievement of performance objectives determined by the Committee with the advice of our Chief Executive Officer. In October 2013, the Compensation Committee amended the program as applicable to Mr. Zadoks by increasing the percentage of Mr. Zadoks’ salary that is payable under the plan.

**Fiscal 2013 Business Review and Impact on Executive Compensation**

In fiscal 2013, Post continued in transforming its business and expanding into new categories. Among other things, Post:

- completed the acquisition of Attune Foods in December 2012;
- raised over \$600 million in two high yield note offerings in October 2012 and July 2013;
- raised approximately \$240 million in a convertible preferred stock offering in February 2013;
- completed the separation of information technology functions away from Ralcorp operations largely on schedule and within targeted costs;
- completed the acquisition of the cereal, snack and granola business of Hearthside Food Solutions in May 2013;
- integrated the Attune Foods and Hearthside acquisitions into a single operating segment;
- introduced product improvements and/or line extensions on key brands, including Honey Bunches of Oats, Pebbles, Great Grains, Grape-Nuts and others;
- completed the acquisition of Premier Nutrition Corporation in September 2013; and
- signed a definitive agreement in September 2013 to acquire Dakota Growers Pasta Company, Inc.

Despite the disruptions created by the transition to independence, and a continued difficult economic environment in a declining overall category, the Compensation Committee believes that Post delivered solid results in fiscal 2013.

Significant items, such as the expenses of duplication of costs as Post transitioned to an independent company, as well as increased raw materials costs and a declining category, negatively impacted fiscal 2013 results. Management believes that it has taken key actions necessary to position Post for increased profitability in the future.

Based on the foregoing achievements, the Compensation Committee determined that 100% of the performance objectives for fiscal 2013 were met for the senior management team.

**Compensation Philosophy**

We believe that our success in creating long-term value for our shareholders depends on our ability to attract, retain and motivate our executive officers. We encourage sustained long-term profitability and increased shareholder value

by linking compensation to our achievement of financial and operating performance. We use equity-based awards and other mechanisms

## Table of Contents

to align the long-term interests of our officers with those of our shareholders. We have designed elements of our executive compensation program to increase the likelihood that we will retain key employees.

We have determined the type and amount of compensation for each officer after considering a variety of factors, including the officer's position and level of responsibility within our company, comparative market data and other external market-based factors. Our Compensation Committee uses this information when establishing compensation in order to achieve a comprehensive package that emphasizes pay-for-performance and is competitive in the marketplace.

The Compensation Committee believes that an effective executive compensation program should encompass the following fundamental objectives:

- compensation should be competitive;
- compensation should vary with performance;
- compensation should align the long-term interests of our corporate officers with those of our shareholders; and
- compensation should provide a retention incentive.

### Our Compensation Process

The Compensation Committee uses current compensation levels, performance, future leadership potential and succession planning, among other factors, in determining appropriate compensation levels for our officers.

The Compensation Committee anticipates that it will review the design of its executive compensation program and the various components of compensation annually. In doing so, the Compensation Committee will assess whether compensation programs used in prior years have successfully achieved the compensation objectives. The Compensation Committee also considers the extent to which its compensation program is designed to achieve its long-term financial and operating goals. As Post is a newly independent company, the Compensation Committee will likely continue to make adjustments to Post's compensation structure over the next several years as the Company grows.

### Role of Management

Our human resources group reviews published compensation surveys and publicly disclosed compensation information reported by entities within our peer group described below. The human resources group uses the information to develop compensation targets and ranges (salaries, bonus awards and equity awards) for positions similar to those held by our officers. Management works together with the human resources department and the Compensation Committee to recommend base salaries for the executives, ensuring that salaries are designed to take into account competitive practices at peer companies. Our Chief Executive Officer is expected to provide to the chairman of the Compensation Committee recommendations of salary adjustments, annual bonus payments, and equity awards for the executive officers (other than himself). The recommendations of the Chief Executive Officer are designed to reflect the Compensation Committee's compensation philosophy. Any further adjustments will be made by the Compensation Committee based on the financial or operating performance of the company. The Chief Executive Officer also reviews with the Compensation Committee the performance of each officer (other than himself). The Compensation Committee reviews the peer data and compensation recommendations from compensation consultants, but has the discretion in modifying the compensation of the executive officers, including modifying the recommendations from the human resources group and Chief Executive Officer.

### Role of Compensation Consultant

Post management did not engage a compensation consultant in fiscal 2013. Post management relied on the previous advice it obtained in May 2012 from Frederick W. Cook & Co., Inc. ("FW Cook") with respect to executive compensation matters. In 2012, FW Cook advised management and the Compensation Committee with respect to both annual and long-term incentive compensation and on competitive compensation practices and other executive compensation developments, appropriate peer companies, program design and the appropriate mix of compensation. The cost of FW Cook's services in fiscal 2012 related to officer compensation was approximately \$50,000. Except as described above, FW Cook provided no other services to Post and received no compensation other than for its executive compensation advice.

The Compensation Committee has the ability to directly engage a compensation consultant which is independent of any compensation consultant engaged by management. In 2012, the Compensation Committee used the advice from

FW Cook and did not separately engage an independent compensation consultant. Because FW Cook was retained by management, its services were not considered “independent” under SEC rules. The Compensation Committee did not retain FW Cook or any other compensation consultant in 2013, but instead relied on the previous advice from FW Cook provided in May 2012.

Peer Group

For fiscal 2013, we relied on the compensation benchmarking peer group that was developed in May 2012 with the assistance of FW Cook after completion of the spin-off from Ralcorp. This peer group was composed of 17 U.S.-based public companies in the food and consumer packaged goods industries. At the time of development of the peer group, these

Table of Contents

companies reported a median revenue of approximately \$1.6 billion for the respective most recently completed fiscal years. For fiscal 2012 and 2013 compensation benchmarking, these companies were:

B&G Foods, Inc.	The Hain Celestial Group, Inc.
Brown-Forman Corporation	Imperial Sugar Company
Central European Distribution Corporation	J&J Snack Foods Corp.
Coca-Cola Bottling Co.	Monster Beverage Corporation
Cott Corporation	Sanderson Farms, Inc.
Darling International Inc.	Snyder's-Lance, Inc.
Diamond Foods, Inc.	Sunopta Inc.
Flowers Foods, Inc.	TreeHouse Foods, Inc.
Green Mountain Coffee Roasters, Inc.	

The Compensation Committee expects to review the composition of the peer group annually to determine its appropriateness. In November 2012, the Compensation Committee reviewed the peer group for appropriateness and determined no changes were warranted at that time. At that time, the Compensation Committee also determined that the peer group should be used for 2013 compensation benchmarking purposes.

In fiscal 2013, Post did not target individual components of compensation but rather targeted the overall compensation packages (excluding the RSU grants described above) for our named executive officers to be at or around the 75<sup>th</sup> percentile of the peer group compensation. Additionally, the variable elements of Post's executive compensation programs (cash bonuses, stock options and restricted stock units) allow our executives to earn compensation that, when combined with their base salaries, could generate total compensation at or higher than (depending on improvements in Post's share price) such levels and would reflect Post's long-term improved performance.

CEO Compensation

Mr. William P. Stiritz serves as our Chief Executive Officer. Unlike the other named executive officers of Post, Mr. Stiritz does not have a traditional compensation package comprised of base salary, cash bonuses, deferred compensation or other benefit programs. Instead, Mr. Stiritz's compensation has been made entirely in the form of equity awards, as expressed in his employment agreement described below. As a result, except with respect to the special grant of RSUs described above granted in 2012, Mr. Stiritz will generally not receive any actual compensation unless and to the extent that the Company's stock price appreciates from the date of grant.

The Compensation Committee believes that this compensation package directly aligns Mr. Stiritz's interests with the Company's shareholders, has a strong retention element due to the vesting features of equity compensation, and provides Mr. Stiritz with limited severance. Each of these characteristics is consistent with requiring strong performance from both Mr. Stiritz and the Company in order for Mr. Stiritz to achieve any true compensation under the employment agreement. The Compensation Committee utilized survey data provided by FW Cook in connection with the benchmarking Mr. Stiritz's overall compensation package, targeting Mr. Stiritz's compensation around the 75<sup>th</sup> percentile within the peer group. The Compensation Committee believes that the aggregate compensation provided by the employment agreement is purely performance oriented, and fits the Compensation Committee's compensation philosophy of paying well for outstanding performance, but providing less total compensation if the Company and its shareholders do not benefit as well.

Elements of Compensation

Our compensation program applicable to our executives other than Mr. Stiritz is comprised of the following components:

Compensation Component	Purpose
Base salary	Fixed component of pay intended to compensate an executive officer fairly for the responsibility level of the position held.
Annual incentive awards	Variable component of pay intended to motivate and reward an executive officer's contribution to achieving short-term/annual objectives.
Long-term incentives (equity)	Variable component of pay intended to motivate and reward an executive officer's contribution to achieving our long-term objectives and to align the interests of our executives with those of our shareholders; generally with vesting

Retirement and other benefits	over a number of years. Fixed component of pay intended to protect against catastrophic expenses (healthcare, disability, and life insurance) and provide retirement savings opportunity.
Perquisites	Fixed component of pay intended to help us in attracting and retaining executive talent.
Post-termination compensation (severance and change in control)	Fixed component of pay intended to provide income and benefits following an executive officer's involuntary termination of employment and, in the case of a change in control, to also help provide continuity of management through the transaction.

## Table of Contents

Post aims to provide compensation programs with a significant variable element. The total compensation package is designed to reward all executives for improved shareholder value, compensate executives for services performed during the fiscal year and provide an incentive to remain employed with Post.

### Base Salary

We provide each officer with an annual base salary, other than Mr. Stiritz, whose base salary is \$1. Base salaries depend on peer data, individual performance, the officer's ability to address competitive or operating challenges, and overall company financial performance. The Compensation Committee attempts to set base salary levels to be competitive with executives holding positions of similar responsibility and complexity at peer group corporations as reflected in public filings and published surveys, as well as competitive data provided by compensation consultants. Base salaries are reviewed and approved on an annual basis.

### Annual Cash Bonus

Post provides executive officers (other than Mr. Stiritz, who does not participate in any bonus plans) the opportunity to earn additional cash compensation on a fiscal year basis. Prior to the beginning of each fiscal year, the chief executive officer submits recommendations to the Compensation Committee, which approves certain performance targets that must be satisfied before a bonus is paid. Prior to each fiscal year, the Compensation Committee determines target award payouts for each participant if the relevant performance targets are achieved. The amount of payout is not computed through specific mathematical formulas. Rather, the Compensation Committee evaluates a variety of factors including the following: the executive's total compensation package; the financial performance of the business relative to the business plan (including such measures as sales volume, revenues, costs, cash flow and operating profit); Post's overall financial performance for the fiscal year; the officer's individual performance (including the quality of strategic plans, organizational and management development, participation in evaluations of potential acquisitions and similar manifestations of individual performance); and the business environment. In determining bonus amounts, the Compensation Committee considers the recommendations made by our Chief Executive Officer. The bonus targets are set at levels which the Compensation Committee deems appropriate in light of our compensation philosophy, usually in the range of 80% to 100% of the executive's base salary. The Compensation Committee retains the authority to determine the bonus payouts based on achievement of the target performance goals.

### Long-Term Compensation

Our long-term compensation program for the executive officers is comprised of long-term equity compensation. The Post Holdings, Inc. 2012 Long-Term Incentive Plan provides for the grant of long-term equity compensation in the form of options, restricted stock awards, restricted stock units, performance shares, stock appreciation rights and other stock based awards.

Stock options entitle the recipient to purchase a specified number of shares of Post common stock after a specified period of time at an option price, which will not be less than the fair market value of our common stock on the date of grant.

Restricted stock awards consist of grants of shares of Post common stock that are restricted and may not be sold, pledged, transferred or otherwise disposed of until the lapse or release of such restrictions. Individuals holding restricted stock awards may exercise full voting rights and are entitled to receive dividends during the restriction period.

Restricted stock units represent a grant of units representing shares of Post common stock. Upon vesting, cash or shares of Post common stock will be issued. Individuals with restricted stock units do not have any voting or dividend rights with respect such award.

Performance shares refer to contingent awards of a specified number of performance shares or units, with each performance share or unit equivalent to one or more shares of Post common stock or a fractional share. Recipients earn a variable percentage of the performance shares or units awarded based on the achievement of specified performance objectives. Performance shares or units may pay out in cash, shares of Post common stock or both. Stock appreciation rights allow recipients to receive, upon exercise, cash or shares of Post common stock (or a combination of both) equal in value to the difference between the exercise price and the fair market value at the date of exercise. The exercise price of a stock appreciation right will not be less than the fair market value of the common stock on the date of grant.

Post believes that granting long-term compensation mostly in the form of non-qualified stock options ensures an officer's long-term compensation is linked directly to shareholder value since the officer receives no benefit from the option unless shareholders have benefited from an appreciation in the value of Post's common stock. The vesting of stock-based awards under the 2012 Plan may be accelerated upon the occurrence of certain events, as provided in the relevant award agreement.

We believe that long-term equity incentive awards will be a critical element in the mix of compensation, linking compensation of our executives to long-term increases in the market price of our common stock, and therefore align the interests of our executives to those of our shareholders.

## Table of Contents

The total number of shares of Post common stock that may be delivered under the 2012 Plan is 6,500,000, plus any awards that are forfeited, paid in cash rather than in Post common stock, withheld to pay taxes, expired or are canceled without delivery of shares of Post common stock. Post common stock will be issuable upon vesting or exercise of stock appreciation rights issued in substitution of Ralcorp stock appreciation rights awards held by our employees. In November 2012, we granted stock options to each of our named executive officers other than Mr. Zadoks. These stock options and RSUs granted to our named executive officers are subject to “double trigger” accelerated vesting, meaning that vesting will only occur in the event of a “change in control” of Post with the executive’s subsequent termination by Post “without cause” or for “good reason” (as these terms are defined in the 2012 Plan) within two years after such change in control. A change in control without such a termination will not result in accelerated vesting.

### Deferred Compensation

We maintain a non-qualified deferred compensation plan which permits the deferral of all or part of an eligible employee’s bonus and up to 50% of his or her annual salary. Income taxes on the amounts deferred and any investment gains are deferred until distributed. Participation in the plan is not limited to corporate officers.

We will match up to 100% of the first 6% of pay that is contributed to the savings investment plan and the deferred compensation plan. Generally, a participant may begin contributing to the deferred compensation plan when his or her contributions to the savings investment plan reach certain limits imposed under the Code. A number of investment funds are available as “benchmark” investment options. Amounts contributed continue to grow on a tax-deferred basis until distributed. We do not guarantee the rate of return of any fund. As with any deferred compensation plan, there are restrictions on deferral and distribution elections as well as potential financial exposure to changes in our financial health. These plans allow executives to accumulate funds for retirement. See Non-Qualified Deferred Compensation below for further information.

### Perquisites

We provide executives limited perquisites and other personal benefits that we believe are reasonable and consistent with our overall compensation philosophy. These benefits help retain and attract superior employees for key positions. The Compensation Committee reviews the levels of perquisites and other benefits periodically.

Currently the only perquisite provided by Post is personal use of our corporate aircraft. Our Chief Executive Officer may use the plane for personal use, as well as other executive officers with the Chief Executive Officer’s prior authorization. Our Compensation Committee has the authority to grant tax gross-ups related to such use. In fiscal 2012, the Committee authorized tax gross-ups related to such use provided that they not exceed \$100,000 for any individual or \$200,000 in the aggregate during any fiscal year. The Compensation Committee reviews the levels of perquisites and other benefits periodically. Personal use of the Company aircraft is discussed in the Summary Compensation Table where applicable.

### Employment Agreements

Mr. Stirtz. On May 29, 2012, we entered into an employment agreement with William P. Stirtz, our Chief Executive Officer. The majority of the compensation potentially payable to Mr. Stirtz in this employment agreement is long-term, performance-based compensation, primarily based on stock options, although Mr. Stirtz also received some RSUs in recognition of his service for completing the successful separation from Ralcorp. The employment agreement originally expired pursuant to its terms on April 30, 2015, but was amended to October 2013 to extend the expiration date to May 28, 2016, although the agreement will automatically renew for one-year periods unless either party gives notice of its intention not to renew. Under the terms of the employment agreement, Mr. Stirtz’s base salary was set at \$1 per year. Mr. Stirtz will not participate in any cash bonus programs and generally will not participate in any of our traditional benefit plans.

In connection with the employment agreement, Post granted Mr. Stirtz 1,550,000 stock options at an exercise price equal to \$31.25, the closing market price of Post stock on the date of grant, generally vesting in equal increments on the first, second and third anniversaries of the grant date. In connection with the amendment to his employment agreement in October 2013 extending the term by one year, Post granted Mr. Stirtz 600,000 stock options at an exercise price equal to \$40.30, the closing market price of Post stock on the date of grant, generally vesting in equal increments on the first, second and third anniversaries of the grant date. These equity based awards were issued pursuant to and governed by Post’s 2012 Plan. All equity grants to Mr. Stirtz are subject to “double trigger” accelerated

vesting in the event of a change in control and Mr. Stirtz's subsequent termination by Post without cause or by him for good reason within two years after such change in control. Either party can terminate Mr. Stirtz's employment agreement upon 30 days' notice. Because the options represent four years of compensation, Mr. Stirtz acknowledges in the agreement that the Compensation Committee does not intend to grant him any additional equity awards during the remaining term of the agreement, absent special circumstances.

Table of Contents

Management Continuity Agreements

We have entered into management continuity agreements with all of our senior management, including the named executive officers whose compensation is discussed herein, except Mr. Stiritz. These agreements are intended to promote stability and continuity of senior management in the event of an actual or anticipated change of control of Post. The board of directors authorized these agreements in recognition of the importance to us and our shareholders of avoiding the distraction and loss of key management personnel that may occur in connection with rumored or actual fundamental corporate changes. Our board of directors is of the opinion that a properly designed change in control agreement protects shareholder interest by providing (i) incentives to remain with the company despite uncertainties while a transaction is under consideration or pending, (ii) assurance of severance benefits for terminated employees and (iii) access to equity components of total compensation after a change in control.

Under the agreement, an officer may receive (i) a lump sum severance payment (equal to two or three years of base pay depending on the officer), (ii) a lump sum payout equal to the present actuarial value of continued participation in certain welfare benefit plans or equivalent benefits, (iii) a lump sum cash payment equal to the difference between the present values of the participant's actual benefits under our retirement plan and the supplemental retirement plan and what the participant would have been entitled to if he or she had remained employed for two or three years (based on same period applicable to severance payment), (iv) outplacement assistance and (v) reimbursement for certain litigation expenses.

Information regarding payments under the agreements for the corporate officers named in this proxy statement is provided in Potential Payments upon Termination of Employment or Change in Control below.

Stock Ownership Guidelines

We have established stock ownership guidelines applicable to all non-employee directors and all corporate officers. Our board of directors believes that it is in the Company's best interests and the best interests of our shareholders to align the financial interests of the executives and non-employee directors with those of our shareholders. Our Chief Executive Officer and each of our directors is expected to own shares of common stock valued at five times the base salary or annual retainer, and each of the other executive officers is expected to own stock valued at two times the base salary. The guidelines became effective on February 3, 2012, and participants are expected to comply with the ownership requirements within five years of adoption. The Compensation Committee is responsible for monitoring the application of the stock ownership guidelines and may modify the guidelines in its discretion, including as a result of dramatic or unexpected changes in the market value of Post common stock. The Compensation Committee has the discretion to enforce these stock ownership guidelines on a case-by-case basis.

Deductibility of Certain Executive Compensation

Section 162(m) of the Code sets a limit on deductible compensation of \$1,000,000 per person, per year for the chief executive officer and the next three highest-paid executives (excluding the chief financial officer). However, the deduction limit does not apply if the compensation is strictly performance based. In establishing total compensation for such officers, the Compensation Committee considers the effect of Section 162(m). However, corporate objectives may not always be consistent with the requirements for full deductibility. Therefore, deductibility is not the sole factor used in setting the appropriate compensation levels paid by Post and decisions leading to future compensation levels may not be fully deductible under Section 162(m). We believe this flexibility enables us to respond to changing business conditions or to an executive's exceptional individual performance.

Amounts are based on the aggregate incremental cost to us of the named executive officer's use of our aircraft. The incremental cost is calculated by dividing the total estimated variable costs (such as fuel, landing fees, employed pilot incidentals, contract pilot fees, on-board catering and flight crew expenses) by the total flight hours for such year and multiplying such amount by the individual's total number of flight hours for non-business use for the year.

(a) Incremental costs do not include certain fixed costs that we incur by virtue of owning the plane, including depreciation, employed pilot salaries and benefits, hangar fees, and maintenance. Spouses and guests of executives occasionally fly on the aircraft as additional passengers on business flights. In those cases, the aggregate incremental cost is a de minimis amount, and no amounts are therefore reported; however, these flights are treated as taxable under the Internal Revenue Service's Standard Industry Fare Level ("SIFL") formula for imputing taxable income for such use.

(b) Executive officers may use the aircraft for personal use (including for spouses and guests) so long as the value of such use is treated as taxable compensation to the individual. We report the SIFL rates for such use in each executive's taxable wages. We reimburse our executive officers for amounts necessary to offset the impact of income taxes relating to such use.

## Supplemental Summary Compensation Table

The following table presents additional information on the compensation of our named executive officers during fiscal 2013 that differs from the Summary Compensation Table presented immediately above and is intended to illustrate the longer-term nature of the equity awards granted to our executive officers. The above Summary Compensation Table was prepared in accordance with SEC requirements and shows, in the “Stock Awards” and “Option Awards” columns, the corresponding grant date fair value for the awards as reflected in our financial statements. The following table presents, in the “Stock Awards” column, the market value of shares underlying the RSUs which vested during fiscal 2013 and, in the “Option Awards” column, the intrinsic value (the difference between the market value of the shares and the exercise price of the option) of stock options exercised during the respective year. The other columns in the table are the same as those used in our Summary Compensation Table above.

This table is not intended to be a substitute for the Summary Compensation Table shown above. However, we believe the table provides a useful comparison of the difference between the grant date fair value for an award under applicable accounting standards and the actual value an executive received in the year ended September 30, 2013. Please see the table Outstanding Equity Awards at Fiscal Year End below for a list of each named executive officer’s outstanding equity awards and their vesting/exercisable schedules.

## Grants of Plan-Based Awards for the Fiscal Year Ended September 30, 2013

The following table provides, for each of the named executive officers, information concerning cash awards under our annual incentive plan for fiscal 2013 and grants of equity awards made during fiscal 2013. The non-equity incentive plan awards disclosed below are part of the amended and restated 2012 senior management bonus plan. The plan has threshold, target and maximum payouts, as set forth below, based on achievement of personal and/or corporate performance measures. Awards of options or restricted stock units were made under our 2012 Long-Term Incentive Plan. In November 2012, the Compensation Committee met to review performance and payments were made to each of the named executive officers based on a combination of achievement of the corporate performance measures and personal performance measures in the amounts set forth in the Summary Compensation Table under “Non-Equity Incentive Plan Compensation”.

- These columns consist of threshold, target and maximum annual incentive targets for fiscal 2013. The “Threshold” column represents the minimum amount payable to the named executive officers. Achievement below “Threshold” performance would result in a zero payout. The “Target” column represents the payout amount if the specified performance targets are achieved. The “Maximum” column represents the maximum payout possible under the applicable bonus program in fiscal 2013. See the Summary Compensation Table for actual amounts paid under these programs.
- (1) This column contains the number of shares of RSUs granted in fiscal 2013.
- (2) This column contains the number of non-qualified stock options granted in fiscal 2013.

## Non-Qualified Deferred Compensation

We maintain deferred compensation plans for non-management directors and key employees, as well as an executive savings investment plan.

Under the deferred compensation plan for key employees, eligible employees may elect to defer payment of all or a portion of their bonus and up to 50% of their annual salary until some later date. Deferred compensation may be invested in Post common stock equivalents or in a number of funds operated by The Vanguard Group Inc. with a variety of investment strategies and objectives. Under this plan, distribution of deferrals invested in common stock equivalents are made in shares of our common stock, while deferrals invested in the Vanguard funds are made in cash. The executive savings investment plan allows eligible employees to defer up to 44% of their cash compensation. Once they have reached the legislated maximum annual pre-tax contribution to our savings investment plan or their compensation exceeds the legislated maximum compensation that can be recognized under that plan, they are eligible to defer an additional 2% to 6% of their cash compensation, a portion of which receives a company matching contribution that vests at a rate of 25% for each year of service with us. Deferred compensation may be invested in Post common stock equivalents or in the Vanguard funds. Under this plan, distribution of deferrals invested in common stock equivalents are made in shares of our common stock, while deferrals invested in the Vanguard funds are made in cash.

The following table provides additional information with respect to the participation of our named executive officers in our non-qualified deferred compensation plans through September 30, 2013.

Name	Executive Contributions in Last FY (\$) (1)	Registrant Contributions in Last FY (\$) (2)	Aggregate Earnings in Last FY (\$)	Aggregate Withdrawals/ Distributions (\$)	Aggregate Balance at Last FYE (\$)

Potential Payments Upon Termination of Employment or Change-in-Control

We have management continuity agreements with our executive officers, except Mr. Stiritz. As discussed in the Compensation Discussion and Analysis section of this proxy statement, these agreements are meant to promote the stability and continuity of senior management in the event of an actual or anticipated change in control.

The agreements provide severance compensation to each officer in the event of the officer's voluntary or involuntary termination after a change in control. A change in control occurs upon (i) the acquisition by any person, entity or "group" within the meaning of Section 13(d)(3) or 14(d)(2) of the Securities Exchange Act of 1934, of beneficial ownership of (x) 50% or more of the aggregate voting power of the then outstanding shares of our common stock, other than acquisitions by us or any of our subsidiaries or any of our employee benefit plans or any entity holding stock for or pursuant to the terms of any such plan, or (y) all, or substantially all, of our assets, taken as a whole; or (ii) individuals who would have qualified as continuing directors shall have ceased for any reason to constitute at least a majority of our board of directors. A change in control does not include a transaction pursuant to which a third party acquires one or more of our businesses by acquiring all of our common stock while leaving our remaining businesses in a separate public company, commonly known as a Morris Trust transaction, unless the businesses so acquired constitute all or substantially all of our businesses.

In the event of a change in control, the compensation provided would be in the form of a lump sum payment equal to the present value of continuing the officer's salary and bonus for two or three years, depending on the officer, following the officer's termination of employment within two years following a change in control, and the payment of other benefits for the same period.

Each officer would also be eligible to receive the following severance benefits: (i) payment in lump sum of the actuarial value of continuation during the applicable period of the officer's participation in each life, health, accident and disability plan in which the officer was entitled to participate immediately prior to the change in control, (ii) payment in lump sum in cash of the present value of the benefits under our retirement plan and supplemental executive retirement plan, (iii) payment of any actual costs and expenses of litigation incurred by the officer and (iv) payment of up to \$20,000 of costs or expenses incurred for outplacement assistance.

Payments will be delayed for a period of six months in the event the officer is determined to be a "specified employee" for purposes of Section 409A of the Code. No payments would be made if the officer's termination is due to death, disability or normal retirement, or is "for cause," defined as (i) the continued failure by the officer to devote reasonable time and effort to the performance of his duties (other than a failure resulting from his incapacity due to physical or mental illness), (ii) the officer's willfully engaging in misconduct which is materially injurious to us or (iii) the officer's conviction of a felony or a crime involving moral turpitude.

In addition, no payments would continue beyond the officer's normal retirement date. The grant agreements governing our executive officers' stock options and restricted stock units provide that in the event of a qualifying termination following within two years of a change in control, any unexercised and unvested restricted stock units or stock options become 100% vested. The management continuity agreements provide that executives shall be indemnified from any tax under Section 4999 of the Code that is attributable to a parachute payment under the Code but do not provide for any "gross-ups" for such taxes, including under Section 280G of the Code. In addition, vesting of stock-based incentive compensation awards accelerate upon a change of control and all nonqualified deferred compensation earned by the executive will be subject to payment upon termination.

The agreements also contain provisions relating to non-competition, non-solicitation of our employees and protection of our confidential information, all of which become effective once the officer becomes eligible for payments under these agreements.

Table of Contents

The table below sets forth estimates of the amounts to which each named executive officer would be entitled, other than accrued but unpaid base salary and benefits payable under broad-based employee benefit plans and programs that do not discriminate in favor of executive officers and are generally available to all employees in the event of the involuntary termination of the officer's employment due to a change in control occurring on September 30, 2013.

(1) Above amount is equal to three times the executives' base salary and bonus payment for fiscal year 2013, except for Mr. Stiritz who does not have a management continuity agreement with the Company.

(2) All unvested restricted stock unit awards and option awards and were valued at the closing price of our common stock on September 30, 2013.

(3) Health benefits amounts are company estimated present value of annual costs of providing the benefits over the applicable payment period.

(4) Disability and insurance payments are calculated over the applicable payment period.

In the event an executive officer has a qualifying termination within two years of a change in control (as defined in the Plan) all equity awards will immediately vest. Stock options and stock appreciation rights will remain exercisable thereafter until the earlier of the following to occur: three years from the date of normal retirement or involuntary termination; or the expiration of the award under its terms. See the above table for the value of stock and option awards at termination. Upon voluntary termination, involuntary termination or retirement, each corporate officer receives his vested retirement benefits (401(k) balances and deferred compensation balances) described in previous sections.

#### Director Compensation for the Fiscal Year Ended September 30, 2013

All non-employee directors receive an annual retainer of \$55,000. The chairmen of the Audit Committee and the Corporate Governance and Compensation Committee receive additional retainers of \$10,000. Non-employee directors are paid \$2,000 for each regular or special board meeting, telephonic meeting and consent to action without a meeting and \$1,500 for each regular or special committee meeting, telephonic meeting and consent to action without a meeting.

In addition to cash compensation, all non-employee directors receive 10,000 stock appreciation rights upon commencing service and 5,000 stock appreciation rights on an annual basis thereafter. All awards vest at the director's termination, retirement, disability or death.

We also pay the premiums on directors' and officers' liability and travel accident insurance policies insuring directors. We reimburse directors for their expenses incurred in connection with board meetings.

In order to encourage ownership of our stock by non-employee directors, we require that any shares of our common stock acquired as a result of option or stock appreciation rights exercises must be held until the director's retirement or other termination of directorship. In addition, retainers and fees paid in shares of our common stock and deferred under a deferred compensation plan are required to be held as such until the director's retirement or other termination

of directorship. At that time, the shares are then free to be sold or transferred at the director's request. Further, we have established stock ownership guidelines applicable to all non-employee directors. See stock ownership guidelines under the heading Compensation Discussion and Analysis for more details.

Under our deferred compensation plan, any non-employee director may elect to defer, with certain limitations, their retainer and fees. Deferred compensation may be invested in Post common stock equivalents or in a number of mutual funds operated by The Vanguard Group Inc. with a variety of investment strategies and objectives. Deferrals in our common stock equivalents receive a 33 1/3% company matching contribution. Deferrals are paid in cash upon leaving the board of directors in one of three ways: (1) lump sum payout; (2) five-year installments; or (3) ten-year installments.

Amounts held by Messrs. Stiritz, Skarie and Banks which were previously credited to a their accounts under the Ralcorp Holdings, Inc. Deferred Compensation Plan for Non-Management Directors have been credited to our plan as a separate bookkeeping subaccount. However, because Mr. Stiritz is now a management director of Post, Mr. Stiritz is not eligible to make additional deferrals under our plan.

Table of Contents

The following table sets forth the compensation paid to non-management directors for fiscal year 2013, other than reimbursement for travel expenses.

Name	Fees Earned or Paid in Cash (\$)	Stock Awards (\$)	Option Awards (\$) (1)	All Other Compensation (\$) (2)	Total (\$)
David R. Banks	107,500	—	60,941	35,830	204,271
Jay W. Brown	94,000	—	60,941	31,330	186,271
Edwin H. Callison	95,000	—	60,941	23,748	179,689

David P. Skarie	81,000	—	60,941	26,997	168,938

(1) This amount represents the grant date fair value of 5,000 stock appreciation rights granted on February 5, 2013.

(2) This amount represents the 33 1/3% match on deferrals into common stock equivalents under the deferred compensation plan.

## CORPORATE GOVERNANCE AND COMPENSATION COMMITTEE REPORT

The Corporate Governance and Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, the Corporate Governance and Compensation Committee recommended to the board of directors that the Compensation Discussion and Analysis be included in this proxy statement.

**ADVISORY VOTE ON EXECUTIVE COMPENSATION**

(Proxy Item No. 4)

Section 14A of the Exchange Act requires that we seek a non-binding advisory vote from our shareholders to approve the compensation as disclosed under the heading “Compensation Discussion and Analysis” beginning on page 18 and the related tables and narrative disclosures beginning on page 25.

As described in detail under the heading “Compensation Discussion and Analysis,” we seek to closely align the interests of our corporate officers with the interests of our shareholders. Our compensation programs are designed to reward our corporate officers for the achievement of financial and operating performance. To that end, our compensation programs encompass the following principles:

Total compensation should be competitive with the peer group approved by our Corporate Governance and Compensation Committee.

Compensation should be tied to our overall financial and operating performance.

Compensation should align the long-term interests of our executives with those of our shareholders.

Compensation should serve as an incentive for our executives to remain employed with us, assisting in our long-term growth objectives.

The vote on this resolution is not intended to address any specific element of compensation; rather, the vote relates to the compensation of the corporate officers named in this proxy statement, as described under the heading “Compensation Discussion and Analysis” beginning on page 18 and the related tables and narrative disclosures beginning on page 25. We believe that our compensation programs have been effective at appropriately aligning pay and performance and in enabling us to attract and retain very talented executives.

We are asking our shareholders to indicate their support for the corporate officer compensation described in this proxy statement. The board of directors recommends a vote “FOR” the following resolution:

“RESOLVED, that the shareholders approve the compensation awarded to the corporate officers named in this proxy statement, as described under the heading “Compensation Discussion and Analysis” beginning on page 18 and the related compensation tables and narrative disclosures beginning on page 25 as required by the rules of the Securities and Exchange Commission.”

Because the vote is advisory, it will not be binding upon the board of directors or the Corporate Governance and Compensation Committee, and neither the board nor the committee will be required to take any action as a result of the outcome of the vote on this proposal. Although the resolution is non-binding, the board of directors and the committee will consider the outcome of the advisory vote on executive compensation when making future compensation decisions.

**COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION**

As noted above, the Corporate Governance and Compensation Committee is currently composed of Messrs. Banks, Brown, Danforth and Grote. There are no relationships involving the members of the Corporate Governance and Compensation Committee or our corporate officers that are required to be disclosed under Item 407(e)(5) of Regulation S-K.

Pursuant to Schedule 13G/A filed on February 14, 2013, Fidelity Management & Research Company (“Fidelity”), a wholly-owned subsidiary of FMR LLC, is the beneficial owner of 3,533,532 shares as a result of acting as investment adviser to various investment companies registered under Section 8 of the Investment Company Act of 1940. Edward C. Johnson 3d and FMR LLC, through its control of Fidelity, and the funds each has sole power to dispose of the 3,533,532 shares owned by the Funds. Members of the family of Edward C. Johnson 3d, Chairman of FMR LLC, are the predominant owners, directly or through trusts, of Series B voting common shares of FMR LLC, representing 49% of the voting power of FMR LLC. The Johnson family group and all other Series B shareholders have entered into a shareholders’ voting agreement under which all Series B voting common shares will be voted in accordance with the majority vote of Series B voting common shares. Accordingly, through their ownership of voting common shares and the execution of the shareholders’ voting agreement, members of the

(1) Johnson family may be deemed, under the Investment Company Act of 1940, to form a controlling group with respect to FMR LLC. Neither FMR LLC nor Edward C. Johnson 3d, Chairman of FMR LLC, has the sole power to vote or direct the voting of the shares owned directly by the Fidelity Funds, which power resides with the Funds’ Boards of Trustees. Fidelity carries out the voting of the shares under written guidelines established by the Funds’ Boards of Trustees. Pyramis Global Advisors Trust Company (“PGATC”), 900 Salem Street, Smithfield, Rhode Island, 02917, an indirect wholly-owned subsidiary of FMR LLC and a bank as defined in Section 3(a)(6) of the Securities Exchange Act of 1934, is the beneficial owner of 205,530 shares as a result of its serving as investment manager of institutional accounts owning such shares. Edward C. Johnson 3d and FMR LLC, through its control of Pyramis Global Advisors Trust Company, each has sole dispositive power over 205,530 shares and sole power to vote or to direct the voting of 205,530 shares of Common Stock owned by the institutional accounts managed by PGATC as reported above.

(2) Pursuant to Schedule 13G filed on January 30, 2013 filed by BlackRock, Inc. (“BlackRock”), the following entities have sole voting power and sole disposition power with respect to 2,856,140 shares: BlackRock Japan Co. Ltd., BlackRock Advisors (UK) Limited, BlackRock Institutional Trust Company, N.A., BlackRock Fund Advisors, BlackRock Asset Management Canada Limited, BlackRock Asset Management Australia Limited, BlackRock Advisors, LLC, BlackRock Capital Management, Inc., BlackRock Investment Management, LLC, BlackRock Investment Management (Australia) Limited, BlackRock (Luxembourg) S.A., BlackRock Fund Managers Limited,

BlackRock International Limited, BlackRock (Singapore) Limited, BlackRock Life Limited, BlackRock Financial Management, Inc. and BlackRock Investment Management (UK) Limited. BlackRock's report indicated that none of these entities owned 5% or greater of the Company's outstanding shares. Based on the filings made by BlackRock, we are unable to identify the natural persons with voting and/or dispositive power over the shares held by such entity.

- (3) Pursuant to Schedule 13G filed on August 17, 2012, Samana Capital, L.P., Morton Holdings, Inc. and Philip B. Korsant have shared dispositive power and shared voting power for all 1,980,564 shares.
- (4) As reported on Schedule 13F filed with the SEC with a report date of November 13, 2013. Pursuant to Schedule 13G filed on February 13, 2013, The Vanguard Group has sole voting power with respect to 42,429 shares, sole dispositive power with respect to 1,703,932 shares and shared dispositive power with respect to 40,229 shares. Vanguard Fiduciary Trust Company, a wholly owned subsidiary of The Vanguard Group, Inc. is the
- (5) beneficial owner of 40,229 shares as a result of its serving as investment manager of collective trust accounts. ## Security Ownership of Management

The following table shows the shares of our common stock beneficially owned, as of November 11, 2013, by our directors, director nominees and executive officers. Except as noted, all such persons possess sole voting and dispositive powers with respect to the shares listed. In general, “beneficial ownership” includes those shares an individual has the power to vote or transfer, and options or other equity awards that are vested and exercisable or that become vested and/or exercisable within 60 days. An asterisk in the column listing the percentage of shares outstanding indicates that the person owns less than 1% of the common stock outstanding.

(1) Includes 166 shares of common stock held by Mr. Stiritz’s wife.

(2) Includes 1,000 shares of common stock held by Mr. Banks’ wife.

(3) Dr. Danforth has shared voting and investment power with Bank of America, N.A. with respect to 96,299 shares held in an irrevocable trust.

(4) Mr. Skarie has shared voting and investment power with his wife with respect to 4,177 shares.

(5) While our non-employee directors are granted stock appreciation rights on an annual basis, these stock appreciation rights become exercisable three years from the date of grant or upon that non-employee director’s termination, retirement, disability or death.

(6) Based on 32,688,799 shares outstanding on November 11, 2013.

Includes indirect interests in shares of our common stock held under our director deferred compensation plan.

(7) While indirect interests in shares of our common stock under deferred compensation plans may not be voted or transferred, they have been included in the table above as they represent an economic interest in our common stock that is subject to the same market risk as ownership of actual shares of our common stock. For Mr. Skarie, also includes 655 share equivalents held indirectly in the savings investment plan. Shares in the savings investment plan are held in a separate fund in which participants acquire units. The fund also holds cash and short-term investments. The shares reported for a participant approximate the number of shares in the fund allocable to that participant and fluctuate due to the cash in the fund and the price of our common stock.

## Section 16(a) Beneficial Ownership Reporting Compliance

Our executive officers and directors are required under the Exchange Act to file reports of ownership and changes in ownership of our common stock with the SEC and the NYSE. Copies of those reports must also be furnished to us. Based solely on a review of copies of those reports, other documents furnished to us and written representations that no other reports were required, we believe that all filing requirements applicable to officers and directors have been complied with during the preceding fiscal year.

### CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

#### Policy and Procedures Governing Related Party Transactions

We have adopted a written conflict of interest policy that, together with our written standards of business conduct and our written code of conduct for directors, is designed to prevent each director and corporate officer from engaging in any transaction that could be deemed a conflict of interest.

Our Corporate Governance and Compensation Committee is responsible for reviewing transactions in which one or more directors or corporate officers may have an interest. The Compensation Committee acts pursuant to a written charter, giving the committee the authority to oversee compliance with legal and regulatory requirements, codes of conduct and ethics programs established by the Company. If the Compensation Committee determines that a director or officer has a direct or indirect material interest in a transaction involving us, the Compensation Committee will either approve, ratify or disapprove the transaction. In considering a related party transaction, the Compensation Committee will take into account relevant facts and circumstances, including the following:

- whether the terms of the transaction are no less favorable to us than terms generally available to an unaffiliated third party under similar circumstances;

- the materiality of the director's or officer's interest in the transaction, including any actual or perceived conflicts of interest; and

- the importance of the transaction and the benefit (or lack thereof) of such transaction to us.

We expect that the Compensation Committee will not approve or ratify such transaction unless, after considering all facts and circumstances, including the factors listed above, it will determine that the transaction is in, or is not inconsistent with, the best interests of our company and our shareholders. In the event management, in the normal course of reviewing corporate records, determines a related party transaction exists which was not approved by the Compensation Committee, management will present the transaction to the Compensation Committee for consideration.

The Compensation Committee will pre-approve certain transactions in which a corporate officer or director may have an interest including (i) transactions involving competitive bids, (ii) certain charitable contributions and (iii) certain banking-related services. No director will be permitted to participate in the approval of a related party transaction in which such director was interested. If a related party transaction will be ongoing, the Compensation Committee may establish guidelines for management to follow in its ongoing dealings with the related party.

Nick Stiritz, the adult son of Mr. Stiritz, our Chief Executive Officer, joined the Company as a Brand Manager in November 2013 for the Company's subsidiary, Premier Nutrition Corporation. Nick has a base salary of \$105,000 and a bonus target of 10%. He also received a starting bonus of \$21,000 to offset relocation expenses. In October 2013, the Compensation Committee reviewed this proposed transaction in accordance with the related party policy described above, and determined that no conflict of interest would arise from such transaction. In setting compensation, we followed the same policies and practices that we have historically used to set compensation for other similarly-situated employees.

### OTHER MATTERS

#### Proxy Solicitation

We will bear the expense of preparing, printing and mailing or otherwise transmitting this proxy statement and the accompanying materials. We have paid certain entities for assistance with preparing this proxy statement and the proxy card. We will also pay for the solicitation of proxies. We hired Georgeson Shareholder Communications Inc. to assist in the solicitation of proxies for a fee of \$12,500 plus expenses. We will reimburse brokers, banks and other nominees for costs, including postage and handling, reasonably incurred by them in sending proxy materials to the beneficial owners of our common stock. In addition to the standard mail, our employees may make proxy solicitations via telephone or personal contact. Our employees will not receive additional compensation for these activities.

#### Shareholder Nominations and Proposals for the 2015 Annual Meeting

Under our bylaws, shareholders who desire to nominate a director or present any other business at an annual meeting of shareholders must follow certain procedures. Generally, to be considered at the 2015 annual meeting of shareholders, a shareholder nomination of a director or a proposal not to be included in the proxy statement and notice

of meeting must be received by the Corporate Secretary between October 2, 2014 and November 1, 2014. However, if the shareholder desires that the proposal be included in our proxy statement and notice of meeting for the 2015 annual meeting of shareholders, then it must be received by our Corporate Secretary no later than August 23, 2014 and must also comply in all respects with the rules and

Table of Contents

regulations of the SEC and the laws of the State of Missouri. A copy of the bylaws will be furnished to any shareholder without charge upon written request to our corporate secretary.

Form 10-K and Other Filings

Upon written request and at no charge, we will provide a copy of any of our filings with the SEC, including our Annual Report on Form 10-K, with financial statements and schedules for our most recent fiscal year. We may impose a reasonable fee for expenses associated with providing copies of separate exhibits to the report when such exhibits are requested. These documents are also available on our website at [www.postholdings.com](http://www.postholdings.com), and the website of the SEC at [www.sec.gov](http://www.sec.gov).

Internet Availability of Proxy Materials

The notice of annual meeting, proxy statement and our 2013 annual report may be viewed online under <http://postholdings.com>. Information on our website does not constitute part of this proxy statement. You may find more information about the date, time and location of the annual meeting of shareholders, as well as the items to be voted on by shareholders at the annual meeting, in the section entitled "Proxy and Voting Information" beginning on page 3 of this proxy statement. There, you will also find information about attending the annual meeting and voting your proxy, including where you may find the individual control numbers necessary to vote your shares by telephone or over the Internet.

If you are a shareholder of record and are interested in receiving future proxy statements and annual reports electronically, you should contact our transfer agent by accessing your account at [www.envisionreports.com/POST](http://www.envisionreports.com/POST) and following the instructions as listed. If you hold shares of our common stock through a broker, bank or other nominee, please refer to the instructions provided by that entity for instructions on how to elect this option.

Householding

SEC rules allow delivery of a single annual report and proxy statement to households at which two or more shareholders reside. Accordingly, shareholders sharing an address who have been previously notified by their broker or its intermediary will receive only one copy of the annual report and proxy statement, unless the shareholder has provided contrary instructions. Individual proxy cards or voting instruction forms (or electronic voting facilities) will, however, continue to be provided for each shareholder account. This procedure, referred to as "householding," reduces the volume of duplicate information received by shareholders, as well as our expenses. Shareholders having multiple accounts may have received householding notifications from their respective brokers and, consequently, such shareholders may receive only one proxy statement and annual report. Shareholders who prefer to receive separate copies of the proxy statement and annual report, either now or in the future, may request to receive separate copies of the proxy statement and annual report by notifying our corporate secretary. Shareholders currently sharing an address with another shareholder who wish to have only one proxy statement and annual report delivered to the household in the future should also contact our corporate secretary. Our corporate secretary may be reached by telephone at 314-644-7622 or by mail at Post Holdings, Inc., 2503 S. Hanley Road, St. Louis, Missouri 63144, Attention: Corporate Secretary.

EXHIBIT A

Description of the Convertible Preferred Stock

The following is a summary of material terms of the 3.75% Series B Cumulative Perpetual Convertible Preferred Stock. While we believe this description covers the material terms of the notes, it may not contain all of the information that is important to you and is qualified in its entirety by reference to the Certificate of Designation, Preferences and Rights of Series B Cumulative Perpetual Convertible Preferred Stock, which was included as Exhibit 4.1 to the Current Report on Form 8-K filed by us on February 26, 2013.

General

Under our amended and restated articles of incorporation, our board of directors designated 2,415,000 shares of our authorized but unissued preferred stock as, and approved a certificate of designation creating, a series of our preferred stock, designated as the “3.75% Series B Cumulative Perpetual Convertible Preferred Stock.”

Ranking

The preferred stock, with respect to dividend rights or rights upon our liquidation, dissolution or winding-up, ranks: senior to all classes or series of our common stock and to any other class or series of our capital stock expressly designated as ranking junior to the preferred stock;

on parity with any other class or series of our capital stock expressly designated as ranking on parity with the preferred stock;

junior to any other class or series of our capital stock expressly designated as ranking senior to the preferred stock;

junior to all of our existing and future indebtedness; and

structurally junior to all existing and future indebtedness and other liabilities (including trade payables) of our subsidiaries and any capital stock of our subsidiaries not held by us.

The term “capital stock” does not include convertible or exchangeable debt securities, which, prior to conversion or exchange, rank senior in right of payment to the preferred stock.

Dividends

Holders of the preferred stock are entitled to receive, when, as and if authorized by our board of directors and declared by us out of funds legally available for the payment of dividends, cumulative cash dividends at the annual rate of 3.75% (the “dividend rate”) on the \$100 liquidation preference per share of the preferred stock, subject to adjustment under certain circumstances described below.

If declared by our board of directors or an authorized committee of our board, we will pay dividends on the preferred stock quarterly in arrears on February 15, May 15, August 15 and November 15 of each year to the person whose name appears in our stock records at the close of business on the applicable record date. Dividends on the preferred stock will accrue whether or not we have earnings, there are funds legally available for the payment of those dividends or those dividends are authorized or declared.

So long as any shares of preferred stock remain outstanding, unless all accrued and unpaid dividends on the preferred stock for all prior dividend periods have been or contemporaneously are declared and paid, we will not:

declare or pay dividends on, make any other distributions on, or redeem or purchase or otherwise acquire for consideration any shares of stock ranking junior to the preferred stock;

declare or pay dividends on or make any other distributions on any shares of stock ranking on parity with the preferred stock, except dividends paid ratably on the preferred stock and all such parity stock as described below; except as permitted in the following bullet, redeem or purchase or otherwise acquire for consideration shares of any stock ranking on parity with the preferred stock, provided that we may at any time redeem, purchase or otherwise acquire shares of any such parity stock in exchange for any shares of our stock ranking junior to the preferred stock;

or

## Table of Contents

purchase or otherwise acquire for consideration any shares of preferred stock, or any shares of stock ranking junior to or on parity with the preferred stock, except in accordance with a purchase offer made to all holders of such shares upon such terms as the board of directors or an authorized committee thereof, after consideration of the respective annual dividend rates and other relative rights and preferences of the respective series and classes, may determine in good faith will result in fair and equitable treatment among the respective series or classes.

We will not permit any of our subsidiaries to purchase or otherwise acquire for consideration any shares of our stock unless we could purchase or otherwise acquire such shares at such time and in such manner.

When we do not pay dividends in full on the preferred stock and the shares of any other class or series of capital stock ranking on parity with the preferred stock, we will declare any dividends upon the preferred stock and each such other class or series of capital stock on a pro rata basis.

### Liquidation Preference

Upon any voluntary or involuntary liquidation, dissolution or winding up of our affairs, before any distribution or payment may be made to holders of our common stock or any other class or series of capital stock ranking, as to rights upon liquidation, junior to the preferred stock, holders of shares of the preferred stock are entitled to be paid, after payment of or provision for our debts and other liabilities, a liquidation preference of \$100 per share of the preferred stock, plus the amount of all accrued and unpaid dividends. If, upon our voluntary or involuntary liquidation, dissolution or winding up, our available assets are insufficient to pay the full amount of the liquidating distributions on all outstanding shares of the preferred stock and the corresponding amounts payable on all shares of each other class or series of capital stock ranking, as to liquidation rights, on parity with the preferred stock in the distribution of assets, then holders of shares of the preferred stock and each such other class or series of capital stock ranking, as to voluntary or involuntary liquidation rights, on parity with the preferred stock will share ratably in any distribution of assets in proportion to the full liquidating distributions to which they would otherwise be respectively entitled.

### No Maturity

The preferred stock has no maturity date, but we are permitted to redeem the preferred stock as described below. Accordingly, each share of preferred stock will remain outstanding indefinitely unless a holder of shares of the preferred stock decides to convert it, or we elect to redeem it.

### Optional Redemption

We may not redeem any shares of the preferred stock prior to February 15, 2018. On or after February 15, 2018, we will have the option to redeem some or all the shares of the preferred stock at a redemption price equal to 100% of the liquidation preference per share, plus accrued and unpaid dividends to the redemption date if the closing sale price of our common stock has been at least 130% of the conversion price then in effect for at least 20 trading days (whether or not consecutive) during any 30 consecutive trading day period ending on the trading day immediately preceding the date on which we provide notice of redemption. The redemption price will be paid solely in cash. If accrued and unpaid dividends on the preferred stock for all complete dividend periods prior to the dividend period in which the redemption date falls have not been paid, the preferred stock may not be called for redemption. In the case of any partial redemption, we will select the shares of preferred stock to be redeemed on a pro rata basis, by lot or any other method that we, in our discretion, deem fair and appropriate.

### Limited Voting Rights

Holders of shares of the preferred stock generally do not have any voting rights, except as set forth below and as required by law. In matters where holders of the preferred stock are entitled to vote, each share of the preferred stock shall be entitled to one vote.

### Preferred Stock Directors

If at any time dividends on the preferred stock or any other class or series of preferred stock ranking equally with the preferred stock as to payment of dividends and upon which voting rights equivalent to those described in this paragraph have been conferred and are exercisable, have not been declared and paid for the equivalent of at least six or more dividend periods, whether or not consecutive, holders of shares of the preferred stock (voting together as a single class with the holders of all other classes or series of preferred stock upon which equivalent voting rights have been conferred and are exercisable) will be entitled to vote for the election of two additional directors to serve on our board of directors. In such a case, the number of directors serving on our board of directors will be increased by two.

The preferred stock directors will be elected by a majority of the votes cast in the election to serve until the next annual meeting, and each preferred stock director will serve until his successor is duly elected and qualifies or until the director's right to hold the office terminates, whichever occurs earlier. The election will take place at:

a special meeting called by holders of at least 10% of the outstanding shares of the preferred stock together with any other class or series of preferred stock upon which equivalent voting rights have been conferred and are exercisable, if this request is received more than 90 calendar days before the date fixed for our next annual or special meeting of shareholders, or, if we receive the request for a special meeting within 90 calendar days before the date fixed for our next annual or special meeting of shareholders, at our annual or special meeting of shareholders; and each subsequent annual meeting (or special meeting held in its place) until all accrued and unpaid dividends on the preferred stock and any other class or series of our preferred stock upon which equivalent voting rights have been conferred and are exercisable for all complete dividend periods prior to the date of payment plus the dividend for the then-current dividend period have been paid in full, or declared and a sum sufficient for such payment in cash is set aside for payment.

If and when all such dividends on the preferred stock and any other class or series of our preferred stock upon which equivalent voting rights have been conferred and are exercisable shall have been paid in full, or declared and a sum sufficient for such payment in cash is set aside for payment, holders of shares of the preferred stock will be divested of the voting rights set forth above (subject to re-vesting in the event of any subsequent preferred dividend defaults) and the term of office of such preferred stock directors so elected will terminate and the entire board of directors will be reduced accordingly. Each preferred stock director will be entitled to one vote on any matter submitted for a vote by our board of directors.

### When a Supermajority Vote is Required

So long as any shares of the preferred stock remain outstanding, we may not, without the consent or the affirmative vote of the holders of at least two-thirds of the outstanding shares of the preferred stock together with each other class or series of preferred stock ranking on parity with the preferred stock and upon which equivalent voting rights have been conferred and are exercisable (voting as a single class):

- authorize, create or issue, or increase the number of authorized or issued shares of, any class or series of stock ranking senior to the preferred stock with respect to payment of dividends, or the distribution of assets upon the liquidation, dissolution or winding up of our affairs, or reclassify any of our authorized capital stock into any such shares, or create, authorize or issue any obligation or security convertible into or evidencing the right to purchase any such shares; or

amend, alter or repeal the provisions of our amended and restated articles of incorporation so as to materially and adversely affect any right, preference, privilege or voting power of the preferred stock.

Holders of shares of the preferred stock will not be entitled to vote with respect to any increase in the total number of authorized shares of our common stock or preferred stock, any increase in the number of authorized shares of the preferred stock or the creation or issuance of any other class or series of capital stock or any increase in the number of authorized shares of any other class or series of capital stock, in each case ranking on parity with or junior to the preferred stock with respect to the payment of dividends and the distribution of assets upon liquidation, dissolution or winding up, except as set forth above.

Holders of shares of the preferred stock will not have any voting rights with respect to the taking of any corporate action, including any merger or consolidation involving us or a sale of all or substantially all of our assets, regardless of the effect that such merger, consolidation or sale may have upon the powers, preferences, voting power or other rights or privileges of the preferred stock, except as set forth above. In addition, the voting provisions above will not apply if, at or prior to the time when the act with respect to which the vote would otherwise be required would occur, all outstanding shares of the preferred stock have been converted or redeemed upon proper procedures.

### Conversion Rights

General. Holders of shares of the preferred stock, at their option, may, at any time and from time to time, convert some or all of their outstanding shares of the preferred stock at an initial conversion rate of 2.1192 shares of our common stock per share of preferred stock, which is equivalent to an initial conversion price of approximately \$47.19 per share of our common stock. If we call the preferred stock for redemption, holders may convert their preferred stock at any time prior to the close of business on the business day immediately preceding the redemption date.

Make-Whole Premium upon a Fundamental Change. If a fundamental change (as defined below) occurs, a holder may elect to convert the preferred stock in connection with the fundamental change as follows:

if the stock price (as defined below) is greater than or equal to \$37.75 per share, subject to adjustment in the same manner as the stock prices in the table below, the holder may elect to have the conversion rate increased by a number of additional shares of our common stock, which we refer to as the “fundamental change make-whole premium,” determined by reference to the table below; or

A-3

---

Table of Contents

regardless of the stock price, the holder may elect to have the conversion rate increased to equal the \$100 liquidation preference, plus all accrued and unpaid dividends, divided by the average of the closing sale prices of our common stock for the five consecutive trading days ending on the third business day prior to the fundamental change settlement date. Notwithstanding the foregoing, the conversion rate as adjusted as described in this bullet will not exceed 2.6490 shares of common stock per share of convertible preferred stock, which is equal to the \$100 liquidation preference divided by the \$37.75 closing sale price of our common stock on February 20, 2013 unless we receive the shareholder approval for this proposal. We refer to the maximum number of shares of common stock issuable upon conversion of one share of convertible preferred stock pursuant to this bullet as the “share cap” and the conversion rate as adjusted pursuant to this bullet as the “make-whole conversion rate.”

The fundamental change make-whole premium, if any, will be determined by reference to the table below and is based on the date on which the fundamental change occurs or becomes effective, which we refer to as the “effective date,” and the price, which we refer to as the “stock price,” paid or deemed to be paid per share of our common stock in the fundamental change. If the holders of our common stock receive in exchange for their common stock only cash in a fundamental change described in clause (ii) of the definition of fundamental change, the stock price will be the cash amount paid per share of our common stock. In all other cases, the stock price will be the average of the closing sale prices of our common stock for the 10 consecutive trading days immediately prior to, but not including, the effective date.

The share cap effectively limits the number of shares of our common stock that may be issued in connection with a fundamental change to 6,397,335 shares and was designed to ensure that our initial issuance of the preferred stock was conducted in accordance with Section 312.03(c) of the NYSE Listed Company Manual. At the annual meeting, we are seeking shareholder approval to increase the share cap to the adjusted share cap of 5.2980 shares of common stock per share of preferred stock, which is equal to the \$100 liquidation preference of the preferred stock, divided by 50% of the closing sale price of our common stock on February 20, 2013. Please refer to the discussion below under “-Shareholder Approval; Increased Dividend Rate.

The stock prices set forth in the first row of the table (i.e., the column headings) will be adjusted as of any date on which the conversion rate of the preferred stock is adjusted. The adjusted stock prices will equal the stock prices immediately prior to such adjustment, multiplied by a fraction, the numerator of which is the conversion rate immediately prior to the adjustment giving rise to the stock price adjustment and the denominator of which is the conversion rate as so adjusted. In addition, the fundamental change make-whole premiums set forth in the table below will be subject to adjustment in the same manner as the conversion rate as set below.

The exact stock price and effective date may not be set forth on the table, in which case:

if the stock price is between two stock prices on the table or the effective date is between two effective dates on the table, the fundamental change make-whole premium will be determined by a straight-line interpolation between the

fundamental change make-whole premiums set forth for the higher and lower stock prices or the earlier and later effective dates, as applicable, based on a 365-day year;

if the stock price is greater than \$150.00 per share, subject to adjustment in the same manner as the stock prices set forth in the column headings in the table above, no fundamental change make-whole premium will be added to the conversion rate; and

if the stock price is less than \$37.75 per share, subject to adjustment in the same manner as the stock prices set forth in the column headings in the table above, no fundamental change make-whole premium will be added to the conversion rate, and the conversion rate will instead be determined in accordance with the second bullet under “Make-Whole Premium Upon a Fundamental Change” above.

If the stock price is greater than or equal to \$37.75 per share, subject to adjustment in the same manner as the stock prices in the table above, and the converting holder does not make a valid election with respect to the applicable adjusted conversion rate, the shares will be converted at the then-applicable conversion rate, plus the fundamental change make-whole premium, if any.

Table of Contents

Our obligation to pay the fundamental change make-whole premium could be considered a penalty, in which case the enforceability thereof would be subject to general principles of reasonableness and equitable remedies.

A “fundamental change” will be deemed to have occurred at the time that any of the following occurs:

- a “person” or “group” within the meaning of Section 13(d) of the Exchange Act, other than us, our subsidiaries and our (i) and their employee benefit plans, has become the direct or indirect “beneficial owner,” as defined in Rule 13d-3 under the Exchange Act, of our common equity representing more than 50% of the voting power of our common equity; the consummation of (A) any recapitalization, reclassification or change of our common stock (other than changes resulting from a subdivision or combination) as a result of which our common stock would be converted into, or exchanged for, stock, other securities, other property or assets; (B) any share exchange, consolidation or merger of us pursuant to which our common stock will be converted into cash, securities or other property; or (C) any sale, lease or other transfer in one transaction or a series of transactions of all or substantially all of the consolidated (ii) assets of us and our subsidiaries, taken as a whole, to any person other than one of our subsidiaries. A transaction described in clause (B) in which the holders of all classes of our common equity immediately prior to such transaction own, directly or indirectly, more than 50% of all classes of common equity of the continuing or surviving corporation or transferee or the parent thereof immediately after such transaction in substantially the same proportions as such ownership immediately prior to such transaction will not be a fundamental change pursuant to this clause (ii);
- (iii) our shareholders approve any plan or proposal for the liquidation or dissolution of us; or our common stock (or other common stock underlying the preferred stock) ceases to be listed or quoted on any of (iv) the NYSE, The NASDAQ Global Select Market or The NASDAQ Global Market (or any of their respective successors).

A transaction or transactions described in clause (ii) above will not constitute a fundamental change, however, if at least 90% of the consideration received or to be received by our common shareholders, excluding cash payments for fractional shares, in connection with such transaction or transactions consists of shares of common stock that are listed or quoted on any of the NYSE, The NASDAQ Global Select Market or The NASDAQ Global Market (or any of their respective successors), or will be so listed or quoted when issued or exchanged in connection with such transaction or transactions and as a result of such transaction or transactions the preferred stock becomes convertible into such consideration, excluding cash payments for fractional shares.

**Shareholder Approval; Increased Dividend Rate.** As noted above, if we do not obtain the requisite shareholder approval by February 20, 2014 to increase the share cap to the adjusted share cap of 5.2980 shares of common stock per share of preferred stock, which is equal to the \$100 liquidation preference of the preferred stock, divided by 50% of the closing sale price of our common stock on February 20, 2013, the annual dividend rate on the preferred stock will increase by 0.25% during the time period beginning February 20, 2014 through the day prior to the date on which the shareholder approval is obtained. Under the terms of the preferred stock, we have no obligation to seek shareholder approval for the increased share cap and except for the increased dividend rate described above, holders of the preferred stock will have no claim against us if the shareholder approval is not obtained.

**Other Matters.** Holders of shares of the preferred stock are not eligible to exercise any rights of a holder of shares of our common stock until they have converted their shares of the preferred stock into shares of our common stock, if any. To satisfy our obligations upon a conversion, we may only deliver shares of our common stock, together with cash in lieu of fractional shares. We will not issue fractional shares upon conversion of the preferred stock.

In the discussion above, a “trading day” means a day during which trading in our common stock generally occurs on the NYSE or, if our common stock is not listed on the NYSE, on the principal other national or regional securities exchange on which our common stock is then listed or, if our common stock is not listed on a national or regional securities exchange, on the principal other market on which our common stock is then listed or admitted for trading. If our common stock is not so listed or admitted for trading, “trading day” means a business day. Also, the “closing sale price” of our common stock on any date means the closing sale price per share (or if no closing sale price is reported, the average of the closing bid and ask prices or, if more than one in either case, the average of the average closing bid and the average closing ask prices) on such date as reported in composite transactions for the principal United States national or regional securities exchange on which our common stock is traded or, if our common stock is not listed for

trading on a United States national or regional securities exchange on the relevant date, the “closing sale price” will be the last quoted bid price for our common stock in the over-the-counter market on the relevant date as reported by OTC Markets Group Inc. or a similar organization. In the absence of such a quotation, the “closing sale price” will be the average of the mid-points of the last bid and ask prices for our common stock on the relevant date from each of at least three nationally recognized independent investment banking firms selected by us for this purpose.

## Recapitalizations, Reclassifications and Changes of Our Common Stock

If our common stock would be converted into or exchanged for stock, other securities or assets (including cash or any combination thereof) in a recapitalization, reclassification or change of our common stock, consolidation, our merger, consolidation or other combination or any sale or lease of our and our subsidiaries' assets substantially as an entirety, then the right to convert each share of preferred stock will be changed into a right to convert into the kind and amount of shares of stock, other securities or assets that a holder of our common stock would have owned or been entitled to receive.

## Conversion Rate Adjustments

The rate at which shares of our preferred stock is convertible into shares of our common stock may be adjusted from time to time for any of the following events:

(1) If we exclusively issue common stock as a dividend or distribution on our common stock to all or substantially all holders of our common stock, or if we effect a share split or share combination, the conversion rate will be adjusted based on the following formula:

$$CR_1 = CR_0 \times \frac{OS_1}{OS_0}$$

where:

$CR_0$  = the conversion rate in effect immediately prior to the close of business on the record date for such dividend or distribution, or immediately prior to the open of business on the effective date of such share split or share combination, as the case may be;

$CR_1$  = the conversion rate in effect immediately after the close of business on the record date for such dividend or distribution, or immediately after the open of business on the effective date of such share split or share combination, as the case may be;

$OS_0$  = the number of shares of our common stock outstanding immediately prior to the close of business on the record date for such dividend or distribution, or immediately prior to the open of business on the effective date of such share split or share combination, as the case may be; and

$OS_1$  = the number of shares of our common stock outstanding immediately after giving effect to such dividend or distribution, or such share split or share combination, as the case may be.

(2) If we distribute to all or substantially all holders of our common stock any rights, options or warrants entitling them, for a period of not more than 45 calendar days after the date of distribution thereof, to subscribe for or purchase shares of our common stock at a price per share of our common stock that is less than the average of the closing sale prices of our common stock over the 10 consecutive trading day period ending on, and including, the trading day immediately preceding the date of announcement of such distribution, the conversion rate will be increased based on the following formula:

$$CR_1 = CR_0 \times \frac{(OS_0 + X)}{(OS_0 + Y)}$$

where:

$CR_0$  = the conversion rate in effect immediately prior to the close of business on the record date for such distribution;

$CR_1$  = the conversion rate in effect immediately after the close of business on the record date for such distribution;

$OS_0$  = the number of shares of our common stock outstanding immediately prior to the close of business on the record date for such distribution;

X = the total number of shares of our common stock issuable pursuant to such rights, options or warrants; and  
 Y = the number of shares of our common stock equal to the quotient of (A) the aggregate price payable to exercise all such rights, options or warrants, divided by (B) the average of the closing sale prices of our common stock for the 10 consecutive trading days ending on, and including, the trading day immediately preceding the date of announcement of such distribution.

(3) If we distribute shares of capital stock, evidences of our indebtedness or other assets, securities or property of ours or rights, options or warrants to acquire our capital stock or other securities, to all or substantially holders of our common stock, excluding:

Table of Contents

- (A) dividends, distributions, rights, options or warrants as to which an adjustment was effected pursuant to clause (1) or (2) above;
- (B) dividends or distributions paid exclusively in cash as to which an adjustment was effected pursuant to clause (4) below; and
- (C) spin-offs as to which the provisions set forth in the last two paragraphs of this clause (3) shall apply, then the conversion rate will be increased based on the following formula:

$$CR_1 = CR_0 \times \frac{SP_0}{(SP_0 - FMV)}$$

where:

$CR_0$  = the conversion rate in effect immediately prior to the close of business on the record date for such distribution;

$CR_1$  = the conversion rate in effect immediately after the close of business on the record date for such distribution;

$SP_0$  = the average of the closing sale prices of our common stock over the 10 consecutive trading day period ending on, and including, the trading day immediately preceding the ex-dividend date for such distribution; and

$FMV$  = the fair market value as of the record date for such distribution (as determined in good faith by our board of directors) of the shares of capital stock, evidences of indebtedness, assets, securities, property, rights, options or warrants distributed with respect to each outstanding share of our common stock.

Notwithstanding the foregoing, if “FMV” (as defined above) is equal to or greater than “ $SP_0$ ” (as defined above), in lieu of any adjustment under the above portion of this clause (3), each holder of preferred stock shall receive, for each share of preferred stock, at the same time and upon the same terms as holders of our common stock and without having to convert its shares of preferred stock, the amount and kind of our capital stock, evidences of our indebtedness, other assets, securities or property of ours or rights, options or warrants to acquire our capital stock or other securities that such holder would have received had such holder owned a number of shares of common stock equal to the conversion rate in effect on the record date for the distribution.

With respect to an adjustment pursuant to this clause (3) where there has been a payment of a dividend or other distribution on our common stock of shares of capital stock of any class or series, or similar equity interests, of or relating to a subsidiary or other business unit where such capital stock or similar equity interest is, or will be when issued, listed or admitted for trading on a U.S. national securities exchange, (which we refer to as a “spin-off”), the conversion rate will be increased based on the following formula:

$$CR_1 = CR_0 \times \frac{(FMV + MP_0)}{MP_0}$$

where:

$CR_0$  = the conversion rate in effect immediately prior to the close of business on the 10th trading day immediately following, and including, the ex-dividend date for the spin-off;

$CR_1$  = the conversion rate in effect immediately after the close of business on the 10th trading day immediately following, and including, the ex-dividend date for the spin-off;

$FMV$  = the average of the closing sale prices of the capital stock or similar equity interest distributed to holders of our common stock applicable to one share of our common stock over the 10 consecutive trading day period immediately following, and including, the ex-dividend date for the spin-off; and

$MP_0$  = the average of the closing sale prices of our common stock over the 10 consecutive trading day period immediately following, and including, the ex-dividend date for the spin-off.

(4) If any cash dividend or distribution is made to all or substantially all holders of our common stock, the conversion rate will be adjusted based on the following formula:

$$CR_1 = CR_0 \times \frac{SP_0}{SP_0 - C}$$

Table of Contents

where:

- $CR_0$  = the conversion rate in effect immediately prior to the close of business on the record date for such dividend or distribution;
- $CR_1$  = the conversion rate in effect immediately after the close of business on the record date for such dividend or distribution;
- $SP_0$  = the closing sale price of our common stock on the trading day immediately preceding the ex-dividend date for such dividend or distribution; and
- $C$  = the amount in cash per share of our common stock we distribute to all or substantially all holders of our common stock.

Notwithstanding the foregoing, if “C” (as defined above) is greater than or equal to “ $CR_0$ ” (as defined above), in lieu of any adjustment under this clause (4), each holder of preferred stock shall receive, for each share of preferred stock, at the same time and upon the same terms as holders of our common stock and without having to convert its shares of preferred stock, the amount of cash that such holder would have received had such holder owned a number of shares of our common stock equal to the conversion rate on the record date for such cash dividend or distribution.

(5) If we or any of our subsidiaries makes a payment in respect of a tender offer or exchange offer for our common stock, to the extent the cash and value of any other consideration included in the payment per share of our common stock exceeds the closing sale price of a share of our common stock on the trading day next succeeding the last date on which tenders or exchanges may be made pursuant to such tender or exchange offer, the conversion rate will be increased based on the following formula:

$$CR_1 = CR_0 \times \frac{(AC + (SP_1 \times OS_1))}{SP_1 \times OS_0}$$

where:

- $CR_0$  = the conversion rate in effect immediately prior to the close of business on the 10th trading day immediately following, and including, the trading day next succeeding the date such tender or exchange offer expires;
- $CR_1$  = the conversion rate in effect immediately after the close of business on the 10th trading day immediately following, and including, the trading day next succeeding the date such tender or exchange offer expires;
- $AC$  = the aggregate value of all cash and any other consideration (as determined in good faith by our board of directors or an authorized committee thereof) paid or payable for shares purchased in such tender or exchange offer;
- $OS_0$  = the number of shares of our common stock outstanding immediately prior to the date such tender or exchange offer expires (prior to giving effect to the purchase of all shares accepted for purchase or exchange in such tender or exchange offer);
- $OS_1$  = the number of shares of our common stock outstanding immediately after the date such tender or exchange offer expires (after giving effect to the purchase of all shares accepted for purchase or exchange in such tender or exchange offer); and
- $SP_1$  = the average of the closing sale prices of our common stock over the 10 consecutive trading day period commencing on, and including, the trading day next succeeding the date such tender or exchange offer expires.
- If the application of the foregoing formula would result in a decrease in the conversion rate, no adjustment to the conversion rate will be made.

Except as stated herein, we will not adjust the conversion rate for the issuance of shares of our common stock or any securities convertible into or exchangeable for shares of our common stock or the right to purchase shares of our common stock or such convertible or exchangeable securities.

As used above, “ex-dividend date” means the first date on which the shares of our common stock trade on the applicable exchange or in the applicable market, regular way, without the right to receive the issuance, dividend or distribution in question, from us or, if applicable, from the seller of our common stock on such exchange or market (in the form of due bills or otherwise) as determined by such exchange or market, and “effective date” means the first date on which the shares of our common stock trade on the applicable exchange or in the applicable market, regular way, reflecting the relevant share split or

Table of Contents

share combination, as applicable. Further, “record date” means, with respect to any dividend, distribution or other transaction or event in which the holders of our common stock (or other applicable security) have the right to receive any cash, securities or other property or in which our common stock (or such other security) is exchanged for or converted into any combination of cash, securities or other property, the date fixed for determination of holders of our common stock (or such other security) entitled to receive such cash, securities or other property (whether such date is fixed by our board of directors or a duly authorized committee thereof, statute, contract or otherwise).

If we have in effect a rights plan while any preferred stock remains outstanding, holders of preferred stock will receive, upon a conversion of their preferred stock, in addition to shares of our common stock, rights under our shareholder rights agreement. However, if, prior to conversion, the rights provided for in the rights plan adopted by us have separated from our common stock in accordance with the provisions of the applicable shareholder rights agreement so that holders of preferred stock would not be entitled to receive any rights in respect of our common stock delivered upon conversion of preferred stock, the conversion rate will be adjusted at the time of separation as if we had distributed to all holders of our common stock capital stock, evidences of our indebtedness or other assets, securities or property of ours or rights, options or warrants to acquire our capital stock or other securities pursuant to clause (3) above, subject to readjustment upon the subsequent expiration, termination or redemption of the rights.

In addition to the adjustments pursuant to paragraphs (1) through (5) above, we may, but are not required to, increase the conversion rate in order to avoid or diminish any income tax to holders of our common stock resulting from any dividend or distribution of capital stock (or rights to acquire our common stock) or from any event treated as such for income tax purposes. We may also, from time to time, to the extent permitted by applicable law, increase the conversion rate by any amount for a period of at least 20 business days if we have determined that such increase would be in our best interests. If we make such determination, it will be conclusive, and we will mail to holders of the preferred stock a notice of the increased conversion rate and the period during which it will be in effect at least 15 calendar days prior to the date the increased conversion rate takes effect in accordance with applicable law.

No adjustment to the conversion rate will be made if holders of the preferred stock, as a result of holding the preferred stock and without having to convert their preferred stock, are entitled to participate at the same time as our common stock holders participate in any of the transactions described above as if such holders of the preferred stock held a number of shares of our common stock equal to the conversion rate, multiplied by the number of shares of preferred stock held by such holder.
