CONSOLIDATED COMMUNICATIONS HOLDINGS, INC. AND SUBSIDIARIES

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business and Basis of Accounting

Consolidated Communications Holdings, Inc. (the “Company”, “we” or “our”) is a holding company with operating subsidiaries (collectively “Consolidated”) that provide integrated communications services in consumer, commercial and carrier channels in California, Illinois, Iowa, Kansas, Minnesota, Missouri, North Dakota, Pennsylvania, South Dakota, Texas and Wisconsin.

We operate as both an Incumbent Local Exchange Carrier (“ILEC”) and a Competitive Local Exchange Carrier (“CLEC”), dependent upon the territory served. We provide a wide range of services and products that include local and long-distance service, high-speed broadband Internet access, video services, Voice over Internet Protocol (“VoIP”), private line services, carrier grade access services, network capacity services over our regional fiber optic networks, cloud services, data center and managed services, directory publishing and equipment sales. As of September 30, 2015, we had approximately 488 thousand voice connections, 452 thousand data connections and 120 thousand video connections.

In the opinion of management, the accompanying condensed consolidated balance sheets and related condensed consolidated statements of operations, comprehensive income (loss) and cash flows include all adjustments, consisting only of normal recurring items, necessary for their fair presentation in conformity with accounting principles generally accepted in the United States (“US GAAP” or “GAAP”) for interim financial information and pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”). Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with US GAAP have been condensed or omitted pursuant to such SEC rules and regulations and accounting principles applicable for interim periods. Events subsequent to the balance sheet date have been evaluated for inclusion in the accompanying condensed consolidated financial statements through the date of issuance. Management believes that the disclosures made are adequate to make the information presented not misleading. Interim results are not necessarily indicative of results for a full year. The information presented in this Form 10-Q should be read in conjunction with Management’s Discussion and Analysis of Financial Condition and Results of Operations and the consolidated financial statements and the accompanying notes to the financial statements (“Notes”) thereto included in our 2014 Annual Report on Form 10-K filed with the SEC.

Recent Business Developments

## Enventis Merger

On October 16, 2014, we completed our acquisition of Enventis Corporation, a Minnesota corporation (“Enventis”), in which we acquired all the issued and outstanding shares of Enventis in exchange for shares of our common stock. The financial results for Enventis have been included in our condensed consolidated financial statements as of the acquisition date. See Note 2 for a more complete discussion of the transaction.

## Issuance of Additional Senior Notes

On June 8, 2015, we issued an additional \$300.0 million in aggregate principal amount of 6.50% Senior Notes due 2022 (the “New Notes”). The New Notes were issued as additional notes under the same indenture pursuant to which our \$200.0 million aggregate principal amount of 6.50% Senior Notes due 2022 (the “Existing Notes” and together with the New Notes, the “2022 Notes”) were previously issued on September 18, 2014. The New Notes were priced at 98.26% of par and resulted in total gross proceeds of approximately \$294.8 million, excluding accrued interest. The net proceeds from the issuance of the New Notes were used, in part, to redeem the remaining \$227.2 million of the original aggregate principal amount of the 10.875% Senior Notes due 2020 (the “2020 Notes”), to pay related fees and expenses and to reduce the amount outstanding on our revolving credit facility. In connection with the redemption of the 2020 Notes, we paid \$261.9 million and recognized a loss on the extinguishment of debt of \$41.2 million during the nine months ended September 30, 2015. See Note 6 for a more complete discussion of the transaction.

## Table of Contents

During the quarter ended September 30, 2015, we completed an exchange offer to register all of the 2022 Notes under the Securities Act of 1933, as amended (the “Securities Act”). The terms of the registered 2022 Notes are substantially identical to the 2022 Notes prior to the exchange, except that the notes are now registered under the Securities Act and the transfer restrictions and registration rights applicable to the 2022 Notes no longer apply to the registered 2022 Notes. The exchange offer did not impact the aggregate principal amount or the remaining terms of the 2022 Notes outstanding.

### Early Retirement Program

As part of the Company’s continued integration efforts, an early retirement program was initiated during the quarter ended September 30, 2015 to a group of select employees who were 55 years of age or older and who have provided 15 or more years of service. The employees were primarily in non-customer facing positions or positions in which the Company believed the retiree’s workload could be absorbed internally as part of the Company’s continuing cost saving initiatives. The early retirement package was accepted by approximately 60 employees and, as a result, one-time severance costs of \$7.2 million were incurred during the quarter ended September 30, 2015. The Company expects approximately \$4.8 million in future annual savings as a result of the early retirement program.

### Recent Accounting Pronouncements

In September 2015, the Financial Accounting Standards Board (“FASB”) issued the Accounting Standards Update No. 2015-16 (“ASU 2015-16”), Simplifying the Accounting for Measurement-Period Adjustments. ASU 2015-16 requires that the acquiring company in a business combination recognize adjustments to provisional amounts identified during the measurement period in the reporting period in which the adjustments are determined and record in the reporting period in which the adjustments are determined the effect on earnings of changes in depreciation, amortization and other items resulting from the change to the provisional amounts. ASU 2015-16 is effective for annual and interim periods beginning after December 15, 2015 and should be applied prospectively with early adoption permitted. The adoption of ASU 2015-16 is not expected to have a material impact on our condensed consolidated financial statements and related disclosures.

In April 2015, FASB issued the Accounting Standards Update No. 2015-03 (“ASU 2015-03”), Simplifying the Presentation of Debt Issuance Costs. ASU 2015-03 requires debt issuance costs related to a recognized debt liability to be presented in the balance sheet as a direct deduction from the carrying amount of that liability, consistent with debt discounts. Amendments in this update are effective retrospectively for fiscal years and interim periods within those years beginning after December 15, 2015, with early adoption permitted. Upon adoption of this guidance, that financial statement classification of debt issuance costs will change from assets to liabilities on our condensed consolidated balance sheet.

In August 2014, FASB issued the Accounting Standards Update No. 2014-15 (“ASU 2014-15”), Disclosure of Uncertainties about an Entity’s Ability to Continue as a Going Concern. ASU 2014-15 requires management to evaluate for each annual and interim reporting period whether conditions or events give rise to substantial doubt that an entity has the ability to continue as a going concern within one year following issuance of the financial statements and requires specific disclosures regarding the conditions or events leading to substantial doubt. The new guidance is effective for annual and interim periods ending after December 15, 2016, with early adoption permitted. The adoption of ASU 2014-15 is not expected to have a material impact on our financial position or results of operations.

In May 2014, FASB issued the Accounting Standards Update No. 2014-09 (“ASU 2014-09”), Revenue from Contracts with Customers (Topic 606). ASU 2014-09 provides new, globally applicable converged guidance concerning recognition and measurement of revenue. As a result, significant additional disclosures are required about the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. In August 2015, FASB issued the Accounting Standards Update No. 2015-14 (“ASU 2015-14”), Deferral of the Effective Date. ASU 2015-14 defers the effective date of ASU 2014-09 for all entities by one year. Accordingly, the new guidance in ASU 2014-09 is effective for annual and interim periods beginning on or after December 15, 2017. Companies are allowed to transition using either the modified retrospective or full retrospective adoption method. If full retrospective adoption is chosen, three years of financial information must be presented in accordance with the new standard. We are currently evaluating the alternative methods of adoption and the effect on our condensed consolidated financial statements and related disclosures.

Table of Contents

## 2. ACQUISITION

On October 16, 2014, we completed our merger with Enventis and acquired all the issued and outstanding shares of Enventis in exchange for shares of our common stock. As a result, Enventis became a wholly-owned subsidiary of the Company. Enventis is an advanced communications provider, which services business and residential customers primarily in the upper Midwest. The Enventis fiber network spans more than 4,200 route miles across Minnesota and into Iowa, North Dakota, South Dakota and Wisconsin. The acquisition reflects our strategy to diversify revenue and cash flows amongst multiple products and to expand our network to new markets.

At the effective time of the merger, each share of common stock, no par value, of Enventis owned immediately prior to the effective time of the merger converted into and became the right to receive 0.7402 shares of our common stock, par value of \$0.01 per share, plus cash in lieu of fractional shares, as set forth in the merger agreement. Based on the closing price of our common stock of \$25.40 per share on the date preceding the merger, the total value of the purchase consideration exchanged was \$257.7 million, excluding the repayment of Enventis' outstanding debt of \$149.9 million. On the date of the merger, we issued an aggregate total of 10.1 million shares of our common stock to the former Enventis shareholders. The results of operations of Enventis have been reported in our condensed consolidated financial statements as of the effective date of the acquisition.

The acquisition was accounted for in accordance with the acquisition method of accounting for business combinations. The tangible and intangible assets acquired and liabilities assumed were recorded at their estimated fair values as of the date of the acquisition. The valuation of the net assets acquired was finalized during the quarter ended September 30, 2015.

The final estimated fair value of the tangible and intangible assets acquired and liabilities assumed are as follows:

	(In thousands)
Cash and cash equivalents	\$ 10,382
Accounts receivable	37,399
Other current assets	15,961
Property, plant and equipment	284,709
Intangible assets	26,600
Other long-term assets	3,162
Total assets acquired	378,213
Current liabilities	40,552
Pension and other post-retirement obligations	13,852
Deferred income taxes	74,628
Other long-term liabilities	2,766

Edgar Filing: Consolidated Communications Holdings, Inc. - Form 10-Q

Total liabilities assumed	131,798
Net fair value of assets acquired	246,415
Goodwill	161,184
Total consideration transferred	\$ 407,599

Goodwill recognized from the acquisition primarily relates to the expected contributions of the entity to our overall corporate strategy in addition to synergies and acquired workforce. Goodwill is not deductible for income tax purposes.

The identifiable intangible assets acquired include customer relationships of \$19.6 million, tradenames of \$1.4 million and non-compete agreements of \$5.6 million. The identifiable intangible assets are amortized using the straight-line method over their estimated useful lives, which is five to nine years for customer relationships, depending on the nature of the customer, five years for non-compete agreements and two years for tradenames.

During the nine months ended September 30, 2015, we made certain adjustments to the fair value of the assets acquired and liabilities assumed which resulted in an increase in property, plant and equipment of \$2.1 million, intangible assets of \$6.0 million, pension and other post-retirement obligations of \$6.3 million and deferred income taxes of \$0.6 million. The

Table of Contents

net impact of the adjustments increased net assets acquired and reduced goodwill by \$1.2 million. These adjustments have been retrospectively applied on the balance sheet as of the acquisition date. There was no material impact to amounts previously reported in the statement of operations as a result of these adjustments. During the quarter ended September 30, 2015, no significant adjustments were recorded to the preliminary valuation of the net assets acquired.

In connection with the opening balance sheet adjustment for the pension and other post-retirement obligations discussed above, we determined certain changes to the plan should be recognized as a post-acquisition event. As a result, the valuation of the post-retirement obligation was revised to appropriately reflect the changes in the plan provisions as a result of the acquisition. These changes resulted in a decrease to the pension and other post-retirement obligations liability of \$6.3 million, an increase in deferred taxes of \$2.4 million and a decrease in accumulated other comprehensive loss of \$3.9 million, which have been reflected in the condensed consolidated balance sheet as of December 31, 2014. The impact of the change to the results of operations was not material.

## Unaudited Pro Forma Results

The following unaudited pro forma information presents our results of operations as if the acquisition of Enventis occurred on January 1, 2013. The adjustments to arrive at the pro forma information below included: additional depreciation and amortization expense for the fair value increases to property, plant and equipment and intangible assets acquired; an increase in interest expense to reflect the additional debt entered into to finance a portion of the acquisition; and the exclusion of certain acquisition related costs. Shares used to calculate the basic and diluted earnings per share were adjusted to reflect the additional shares of common stock issued to fund a portion of the acquisition price.

	Quarter Ended September 30, 2014	Nine Months Ended September 30, 2014
(Unaudited; in thousands, except per share amounts)		
Operating revenues	\$ 203,450	\$ 598,097
Income from operations	\$ 25,505	\$ 78,800
Net income	\$ 7,831	\$ 24,624
Less: net income attributable to noncontrolling interest	107	285
Net income attributable to common stockholders	\$ 7,724	\$ 24,339
Net income per common share-basic and diluted	\$ 0.15	\$ 0.49

The pro forma information does not purport to present the actual results that would have resulted if the acquisition had in fact occurred at the beginning of the fiscal periods presented, nor does the information project results for any future period. The pro forma information does not include the impact of any future cost savings or synergies that may be

achieved as a result of the acquisition.

### 3. EARNINGS (LOSS) PER SHARE

Basic and diluted earnings (loss) per share (“EPS”) are computed using the two-class method, which is an earnings allocation that determines EPS for each class of common stock and participating securities according to dividends declared and participation rights in undistributed earnings. The Company’s restricted stock awards are considered participating securities because holders are entitled to receive non-forfeitable dividends during the vesting term. Diluted EPS includes securities that could potentially dilute basic EPS during a reporting period. Dilutive securities are not included in the computation of loss per share when a company reports a net loss from continuing operations as the impact would be anti-dilutive.

The potentially dilutive impact of the Company’s restricted stock awards is determined using the treasury stock method. Under the treasury stock method, awards are treated as if they had been exercised with any proceeds used to repurchase common stock at the average market price during the period. Any incremental difference between the assumed number of shares issued and purchased is included in the diluted share computation.

Table of Contents

The computation of basic and diluted EPS attributable to common shareholders computed using the two class method is as follows:

(In thousands, except per share amounts)	Quarter Ended		Nine Months Ended	
	September 30,		September 30,	
	2015	2014	2015	2014
Net income (loss)	\$ 2,745	\$ 7,749	\$ (5,354)	\$ 26,058
Less: net income attributable to noncontrolling interest	150	107	209	285
Income (loss) attributable to common shareholders before allocation of earnings to participating securities	2,595	7,642	(5,563)	25,773
Less: earnings allocated to participating securities	119	153	-	459
Net income (loss) attributable to common shareholders	\$ 2,476	\$ 7,489	\$ (5,563)	\$ 25,314
Weighted-average number of common shares outstanding	50,174	39,877	50,166	39,877
Net income (loss) per basic and diluted common share attributable to common shareholders	\$ 0.05	\$ 0.19	\$ (0.11)	\$ 0.63

Diluted earnings (loss) per common share attributable to common shareholders for the quarter and nine months ended September 30, 2015 both exclude 0.3 million potential common shares that could be issued under our share-based compensation plan because the inclusion of the potential common shares would have an antidilutive effect. For each of the quarter and nine months ended September 30, 2014, diluted earnings per common share attributable to common shareholders excluded 0.4 million potential common shares.

## 4. INVESTMENTS

Pennsylvania RSA 6(II) Limited Partnership (23.67% interest)	26,006	23,894
CVIN, LLC	-	1,757
Totals	\$ 106,183	\$ 115,376

Cost Method

We own 2.34% of GTE Mobilnet of South Texas Limited Partnership (the “Mobilnet South Partnership”). The principal activity of the Mobilnet South Partnership is providing cellular service in the Houston, Galveston and Beaumont, Texas metropolitan areas. We also own 3.60% of Pittsburgh SMSA Limited Partnership (“Pittsburgh SMSA”), which provides cellular service in and around the Pittsburgh metropolitan area. Because of our limited influence over these partnerships, we use the cost method to account for both of these investments. It is not practicable to estimate the fair value of these investments. We did not evaluate any of the investments for impairment during the quarters or nine months ended September 30, 2015 or 2014 as no factors indicating impairment existed. For the quarters ended September 30, 2015 and 2014, we received cash distributions from these partnerships totaling \$5.0 million and \$3.8 million, respectively. For the

Table of Contents

nine months ended September 30, 2015 and 2014, we received cash distributions from these partnerships totaling \$9.8 million and \$11.1 million, respectively.

CoBank, ACB (“CoBank”) is a cooperative bank owned by its customers. On an annual basis, CoBank distributes patronage in the form of cash and stock in the cooperative based on the Company’s outstanding loan balance with CoBank, which has traditionally been a significant lender in the Company’s credit facility. The investment in CoBank represents the accumulation of the equity patronage paid by CoBank to the Company.

## Equity Method

We own 20.51% of GTE Mobilnet of Texas RSA #17 Limited Partnership (“RSA #17”), 16.67% of Pennsylvania RSA 6(I) Limited Partnership (“RSA 6(I)”) and 23.67% of Pennsylvania RSA 6(II) Limited Partnership (“RSA 6(II)”). RSA #17 provides cellular service to a limited rural area in Texas. RSA 6(I) and RSA 6(II) provide cellular service in and around our Pennsylvania service territory. Because we have significant influence over the operating and financial policies of these three entities, we account for the investments using the equity method. For the quarters ended September 30, 2015 and 2014, we received cash distributions from these partnerships totaling \$15.0 million and \$3.8 million, respectively. For the nine months ended September 30, 2015 and 2014, we received cash distributions from these partnerships totaling \$24.3 million and \$14.2 million, respectively.

During the quarter ended June 30, 2015, we sold our 6.96% interest in Central Valley Independent Network, LLC (“CVIN”), a joint enterprise comprised of affiliates of several independent telephone companies located in central and northern California. CVIN provides network services and oversees a broadband infrastructure project designed to expand and improve the availability of network services to counties in central California. As a result of the sale, we recognized an other-than-temporary impairment loss of \$0.8 million during the nine months ended September 30, 2015 to reduce the investment to its estimated fair value. The impairment charge is included in investment income within other income (expense) in the condensed consolidated statements of operations. We did not receive any distributions from this partnership during the quarters or nine months ended September 30, 2015 and 2014.

The combined unaudited results of operations and financial position of our three equity investments in the cellular limited partnerships are summarized below:

(In thousands)	Quarter Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
Total revenues	\$ 86,885	\$ 85,511	\$ 259,901	\$ 249,556
Income from operations	27,322	24,233	81,127	73,539

Edgar Filing: Consolidated Communications Holdings, Inc. - Form 10-Q

Net income before taxes	26,991	24,271	80,606	73,633
Net income	26,991	24,271	80,606	73,633

	September 30, 2015	December 31, 2014
(In thousands)		
Current assets	\$ 65,765	\$ 52,866
Non-current assets	95,784	93,771
Current liabilities	21,060	16,253
Non-current liabilities	52,527	3,225
Partnership equity	87,962	127,159

## 5. FAIR VALUE MEASUREMENTS

Our derivative instruments related to interest rate swap agreements are required to be measured at fair value on a recurring basis. The fair values of the interest rate swaps are determined using valuation models which rely on the expected London Interbank Offered Rate (“LIBOR”) based yield curve and estimates of counterparty and Consolidated’s non-performance risk as the most significant inputs. Because each of these inputs are directly observable or can be corroborated by observable market data, we have categorized these interest rate swaps as Level 2 within the fair value hierarchy. See Note 7 for further discussion regarding our interest rate swap agreements.

Table of Contents

Our interest rate swap liabilities measured at fair value on a recurring basis and subject to disclosure requirements as of September 30, 2015 and December 31, 2014 were as follows:

(In thousands)	Total	As of September 30, 2015		
		Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Current interest rate swap liabilities	\$ (362)	\$ -	\$ (362)	\$ -
Long-term interest rate swap liabilities	(1,508)	-	(1,508)	-
Total	\$ (1,870)	\$ -	\$ (1,870)	\$ -

(In thousands)	Total	As of December 31, 2014		
		Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Current interest rate swap liabilities	\$ (443)	—	\$ (443)	—
Long-term interest rate swap liabilities	(690)	—	(690)	—
Total	\$ (1,133)	\$ —	\$ (1,133)	\$ —

We have not elected the fair value option for any of our financial assets or liabilities. The carrying value of other financial instruments, including cash, accounts receivable, accounts payable and accrued liabilities approximate fair value due to their short maturities or variable-rate nature of the respective balances. The following table presents the other financial instruments that are not carried at fair value but which require fair value disclosure as of September 30, 2015 and December 31, 2014.

(In thousands)	As of September 30, 2015		As of December 31, 2014	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Investments, equity basis	\$ 51,568	n/a	\$ 61,092	n/a
Investments, at cost	\$ 52,571	n/a	\$ 52,245	n/a
Long-term debt, excluding capital leases	\$ 1,411,546	\$ 1,362,547	\$ 1,362,049	\$ 1,381,972

#### Cost & Equity Method Investments

Our investments as of September 30, 2015 and December 31, 2014 accounted for under both the equity and cost methods consisted primarily of minority positions in various cellular telephone limited partnerships and our investment in CoBank. It is impracticable to determine the fair value of these investments.

#### Long-term Debt

The fair value of our senior notes was based on quoted market prices, and the fair value of borrowings under our credit facility was determined using current market rates for similar types of borrowing arrangements. We have categorized the long-term debt as Level 2 within the fair value hierarchy.

Table of Contents

## 6. LONG-TERM DEBT

Long-term debt, presented net of unamortized discounts, consisted of the following:

(In thousands)	September 30, 2015	December 31, 2014
Senior secured credit facility:		
Term 4 loan, net of discount of \$3,494 and \$3,948 as of September 30, 2015 and December 31, 2014, respectively	\$ 890,581	\$ 896,952
Revolving loan	26,000	39,000
10.875% Senior notes due 2020, net of discount of \$1,121 as of December 31, 2014	—	226,097
6.50% Senior notes due 2022, net of discount of \$5,035 as of September 30, 2015	494,965	200,000
Capital leases	4,871	4,553
	1,416,417	1,366,602
Less: current portion of long-term debt and capital leases	(10,120)	(9,849)
Total long-term debt	\$ 1,406,297	\$ 1,356,753

## Credit Agreement

In December 2013, the Company, through certain of its wholly owned subsidiaries, entered into a Second Amended and Restated Credit Agreement with various financial institutions (the “Credit Agreement”) to replace the Company’s previously amended credit agreement. The Credit Agreement consists of a \$75.0 million revolving credit facility and initial term loans in the aggregate amount of \$910.0 million (“Term 4”). The Credit Agreement also includes an incremental term loan facility which provides the ability to request to borrow up to \$300.0 million of incremental term loans subject to certain terms and conditions. Borrowings under the senior secured credit facility are secured by substantially all of the assets of the Company and its subsidiaries, with the exception of Illinois Consolidated Telephone Company and our majority-owned subsidiary, East Texas Fiber Line Incorporated.

The Term 4 loan was issued in an original aggregate principal amount of \$910.0 million with a maturity date of December 23, 2020. The Term 4 loan contains an original issuance discount of \$4.6 million, which is being amortized over the term of the loan. The Term 4 loan requires quarterly principal payments of \$2.3 million, which commenced March 31, 2014, and has an interest rate of LIBOR plus 3.25% subject to a 1.00% LIBOR floor.

Our revolving credit facility has a maturity date of December 23, 2018 and an applicable margin (at our election) of between 2.50% and 3.25% for LIBOR-based borrowings or between 1.50% and 2.25% for alternate base rate borrowings, depending on our leverage ratio. Based on our leverage ratio as of September 30, 2015, the borrowing

margin for the next three month period ending December 31, 2015 will be at a weighted-average margin of 3.00% for a LIBOR-based loan or 2.00% for an alternate base rate loan. The applicable borrowing margin for the revolving credit facility is adjusted quarterly to reflect the leverage ratio from the prior quarter-end. As of September 30, 2015 and December 31, 2014, borrowings of \$26.0 million and \$39.0 million were outstanding under the revolving credit facility, respectively. A stand-by letter of credit of \$1.6 million, issued primarily in connection with the Company's insurance coverage, was outstanding under our revolving credit facility as of September 30, 2015. The stand-by letter of credit is renewable annually and reduces the borrowing availability under the revolving credit facility. As of September 30, 2015, \$47.4 million was available for borrowing under the revolving credit facility.

The weighted-average interest rate on outstanding borrowings under our credit facility was 4.22% and 4.20% as of September 30, 2015 and December 31, 2014, respectively. Interest is payable at least quarterly.

Net proceeds from asset sales exceeding certain thresholds, to the extent not reinvested, are required to be used to repay loans outstanding under the Credit Agreement.

## Table of Contents

### Credit Agreement Covenant Compliance

The Credit Agreement contains various provisions and covenants, including, among other items, restrictions on the ability to pay dividends, incur additional indebtedness and issue capital stock. We have agreed to maintain certain financial ratios, including interest coverage and total net leverage ratios, all as defined in the Credit Agreement. As of September 30, 2015, we were in compliance with the Credit Agreement covenants.

In general, our Credit Agreement restricts our ability to pay dividends to the amount of our available cash as defined in our Credit Agreement. As of September 30, 2015, and including the \$19.6 million dividend declared in August 2015 and paid on November 2, 2015, we had \$226.1 million in dividend availability under the credit facility covenant.

Under our Credit Agreement, if our total net leverage ratio, as defined in the Credit Agreement, as of the end of any fiscal quarter is greater than 5.10:1.00, we will be required to suspend dividends on our common stock unless otherwise permitted by an exception for dividends that may be paid from the portion of proceeds of any sale of equity not used to fund acquisitions or make other investments. During any dividend suspension period, we will be required to repay debt in an amount equal to 50.0% of any increase in available cash, among other things. In addition, we will not be permitted to pay dividends if an event of default under the Credit Agreement has occurred and is continuing. Among other things, it will be an event of default if our total net leverage ratio and interest coverage ratio as of the end of any fiscal quarter is greater than 5.25:1.00 and less than 2.25:1.00, respectively. As of September 30, 2015, our total net leverage ratio under the Credit Agreement was 4.24:1.00, and our interest coverage ratio was 3.99:1.00.

### Senior Notes

#### 6.50% Senior Notes due 2022

On June 8, 2015, we completed an offering of \$300.0 million in aggregate principal amount of 6.50% Senior Notes due 2022. The New Notes were priced at 98.26% of par with a yield to maturity of 6.80% and resulted in total gross proceeds of approximately \$294.8 million, excluding accrued interest. The discount and deferred debt issuance costs of \$4.5 million incurred in connection with the issuance of the New Notes are being amortized using the effective interest method over the term of the notes. The net proceeds from the issuance of the New Notes were used, in part, to redeem the remaining \$227.2 million of our original \$300.0 million aggregate principal amount of 10.875% Senior Notes due 2020, to pay related fees and expenses and to reduce the amount outstanding on the revolving credit facility. In connection with the redemption of the 2020 Notes, we paid \$261.9 million and recognized a loss on extinguishment of debt of \$41.2 million during the nine months ended September 30, 2015.

The New Notes were issued as additional notes under the same indenture pursuant to which the \$200.0 million aggregate principal amount of 6.50% Senior Notes due 2022 (the “Existing Notes” and together with the New Notes, the “2022 Notes”) were previously issued on September 18, 2014. The Existing Notes were priced at par, which resulted in total gross proceeds of \$200.0 million. The net proceeds from the issuance of the Existing Notes were used to finance the acquisition of Enventis, including related fees and expenses, and to repay the existing indebtedness of Enventis. A portion of the net proceeds, together with cash on hand and borrowings from the revolving credit facility, were also used to repurchase \$72.8 million of the original aggregate principal amount of the 2020 Notes during the fourth quarter of 2014.

The 2022 Notes mature on October 1, 2022 and interest is payable semi-annually on April 1 and October 1 of each year. Consolidated Communications, Inc. (“CCI”) is the primary obligor under the 2022 Notes, and we and certain of our wholly owned subsidiaries have fully and unconditionally guaranteed the 2022 Notes. The 2022 Notes are senior unsecured obligations of the Company.

During the quarter ended September 30, 2015, we completed an exchange offer to register all of the 2022 Notes under the Securities Act. The terms of the registered 2022 Notes are substantially identical to those of the 2022 Notes prior to the exchange, except that the 2022 Notes are now registered under the Securities Act and the transfer restrictions and registration rights previously applicable to the 2022 Notes no longer apply to the registered 2022 notes. The exchange offer did not impact the aggregate principal amount or the remaining terms of the 2022 Notes outstanding.

Table of Contents

Senior Notes Covenant Compliance

Subject to certain exceptions and qualifications, the indenture governing the 2022 Notes contains customary covenants that, among other things, limits CCI's and its restricted subsidiaries' ability to: incur additional debt or issue certain preferred stock; pay dividends or make other distributions on capital stock or prepay subordinated indebtedness; purchase or redeem any equity interests; make investments; create liens; sell assets; enter into agreements that restrict dividends or other payments by restricted subsidiaries; consolidate, merge or transfer all or substantially all of its assets; engage in transactions with its affiliates; or enter into any sale and leaseback transactions. The indenture also contains customary events of default.

Among other matters, the 2022 Notes indenture provides that CCI may not pay dividends or make other restricted payments, as defined in the indenture, if its total net leverage ratio is 4.75:1.00 or greater. This ratio is calculated differently than the comparable ratio under the Credit Agreement; among other differences, it takes into account, on a pro forma basis, synergies expected to be achieved as a result of certain acquisitions not yet reflected in historical results. As of September 30, 2015, this ratio was 4.33:1.00. If this ratio is met, dividends and other restricted payments may be made from cumulative consolidated cash flow since April 1, 2012, less 1.75 times fixed charges, less dividends and other restricted payments made since May 30, 2012. Dividends may be paid and other restricted payments may also be made from a "basket" of \$50.0 million, none of which has been used to date, and pursuant to other exceptions identified in the indenture. Since dividends of \$233.5 million have been paid since May 30, 2012, including the quarterly dividend declared in August 2015 and paid on November 2, 2015, there was \$325.4 million of the \$558.9 million of cumulative consolidated cash flow since May 30, 2012 available to pay dividends as of September 30, 2015. As of September 30, 2015, the Company was in compliance with all terms, conditions and covenants under the indenture governing the 2022 Notes.

Capital Leases

We lease certain facilities and equipment under various capital leases which expire between 2015 and 2021. As of September 30, 2015, the present value of the minimum remaining lease commitments was approximately \$4.9 million, of which \$1.0 million was due and payable within the next twelve months. The leases require total remaining rental payments of \$6.5 million as of September 30, 2015, of which \$4.5 million will be paid to LATEL LLC, a related party entity.

7. DERIVATIVE FINANCIAL INSTRUMENTS

We use derivative financial instruments to manage our exposure to the risks associated with fluctuations in interest rates. Our interest rate swap agreements effectively convert a portion of our floating-rate debt to a fixed rate basis, thereby reducing the impact of interest rate changes on future cash interest payments. Derivative financial instruments

are recorded at fair value in our condensed consolidated balance sheets. We may designate certain of our interest rate swaps as cash flow hedges of our expected future interest payments. For derivative instruments designated as a cash flow hedge, the effective portion of the change in the fair value is recognized as a component of accumulated other comprehensive income (loss) ("AOCI") and is recognized as an adjustment to earnings over the period in which the hedged item impacts earnings. When an interest rate swap agreement terminates, any resulting gain or loss is recognized over the shorter of the remaining original term of the hedging instrument or the remaining life of the underlying debt obligation. If a derivative instrument is de-designated, the remaining gain or loss in AOCI on the date of de-designation is amortized to earnings over the remaining term of the hedging instrument. For derivative financial instruments that are not designated as a hedge, including those that have been de-designated, changes in fair value are recognized on a current basis in earnings. The ineffective portion of the change in fair value of any hedging derivative is recognized immediately in earnings. Cash flows from hedging activities are classified under the same category as the cash flows from the hedged items in our condensed consolidated statements of cash flows.

Table of Contents

The following interest rate swaps were outstanding as of September 30, 2015:

(In thousands)	Notional Amount	2015 Balance Sheet Location	Fair Value
Cash Flow Hedges:			
Fixed to 1-month floating LIBOR (with floor)	\$ 150,000	Other long-term liabilities	\$ (1,508)
De-designated Hedges:			
Fixed to 1-month floating LIBOR	\$ 50,000	Current portion of derivative liability	(204)
Fixed to 1-month floating LIBOR (with floor)	\$ 50,000	Current portion of derivative liability	(158)
Total Fair Values			\$ (1,870)

The following interest rate swaps were outstanding as of December 31, 2014:

(In thousands)	Notional Amount	2014 Balance Sheet Location	Fair Value
Cash Flow Hedges:			
Fixed to 1-month floating LIBOR (with floor)	\$ 100,000	Other long-term liabilities	\$ (133)
De-designated Hedges:			
Fixed to 1-month floating LIBOR	\$ 125,000	Other long-term liabilities	(410)
Fixed to 1-month floating LIBOR	\$ 50,000	Current portion of derivative liability	(443)
Fixed to 1-month floating LIBOR (with floor)	\$ 50,000	Other long-term liabilities	(147)
Total Fair Values			\$ (1,133)

The counterparties to our various swaps are highly rated financial institutions. None of the swap agreements provide for either us or the counterparties to post collateral nor do the agreements include any covenants related to the financial condition of Consolidated or the counterparties. The swaps of any counterparty that is a lender, as defined in our credit facility, are secured along with the other creditors under the credit facility. Each of the swap agreements provides that, in the event of a bankruptcy filing by either Consolidated or the counterparty, any amounts owed between the two parties would be offset in order to determine the net amount due between parties. This provision allows us to partially mitigate the risk of non performance by a counterparty.

In 2013, interest rate swaps previously designated as cash flow hedges were de-designated as a result of amendments to our credit agreement. The interest rate swap agreements mature on various dates through September 2016. Prior to

de-designation, the effective portion of the change in fair value of the interest rate swaps was recognized in AOCI. The balance of the unrealized loss included in AOCI as of the date the swaps were de-designated is being amortized to earnings over the remaining term of the swap agreements. Changes in fair value of the de-designated swaps are immediately recognized in earnings as interest expense. During the quarter and nine-month periods ended September 30, 2015, a gain of \$0.1 million and \$0.6 million, respectively, was recognized as a reduction to interest expense for the change in fair value of the de-designated swaps. During the quarter and nine-month periods ended September 30, 2014, a gain of \$0.7 million and \$1.2 million, respectively, was recognized as a reduction to interest expense for the change in fair value of the de-designated swaps.

As of September 30, 2015 and December 31, 2014, the pre-tax deferred losses related to our interest rate swap agreements included in AOCI were \$1.6 million and \$0.8 million, respectively. The estimated amount of losses included in AOCI as of September 30, 2015 that will be recognized in earnings in the next twelve months is approximately \$1.0 million.

Information regarding our cash flow hedge transactions is as follows:

(In thousands)	Quarter Ended		Nine Months Ended	
	September 30,		September 30,	
	2015	2014	2015	2014
Loss recognized in AOCI, pretax	\$ (631)	\$ —	\$ (1,932)	\$ —
Deferred losses reclassified from AOCI to interest expense	\$ (300)	\$ (468)	\$ (1,096)	\$ (1,616)

Table of Contents

## 8. EQUITY

## Share-Based Compensation

On May 4, 2015, the shareholders approved an additional 1,000,000 shares of our common stock authorized for issuance under the Amended and Restated Consolidated Communications Holdings, Inc. 2005 Long-term Incentive Plan (the “Plan”). Under the Plan, 2,650,000 shares of our common stock are authorized for issuance, provided that no more than 300,000 shares may be granted in the form of stock options or stock appreciation rights to any eligible employee or director in any calendar year.

The following table summarizes total compensation costs recognized for share-based payments during the quarters and nine-month periods ended September 30, 2015 and 2014:

(In thousands)	Quarter Ended		Nine Months	
	September 30,		Ended	
	2015	2014	2015	2014
Restricted stock	\$ 401	\$ 531	\$ 1,267	\$ 1,575
Performance shares	341	417	998	1,097
Total	\$ 742	\$ 948	\$ 2,265	\$ 2,672

Share-based compensation expense is included in selling, general and administrative expenses in the accompanying condensed consolidated statements of operations.

As of September 30, 2015, total unrecognized compensation costs related to non-vested Restricted Stock Awards (“RSAs”) and Performance Share Awards (“PSAs”) was \$4.4 million and will be recognized over a weighted-average period of approximately 1.1 years.

The following table summarizes the RSA and PSA activity for the nine-month period ended September 30, 2015:

Edgar Filing: Consolidated Communications Holdings, Inc. - Form 10-Q

	RSAs	Weighted Average Grant Date Fair Value	PSAs	Weighted Average Grant Date Fair Value
	Shares		Shares	
Non-vested shares outstanding - January 1, 2015	141,565	\$ 18.78	82,409	\$ 18.94
Shares granted	83,571	\$ 21.08	77,786	\$ 19.74
Shares vested	(42,560)	\$ 20.90	(7,618)	\$ 18.45
Non-vested shares outstanding - September 30, 2015	182,576		152,577	

Accumulated Other Comprehensive Loss

The following table summarizes the changes in accumulated other comprehensive loss, net of tax, by component for the nine-month period ended September 30, 2015:

(In thousands)	Pension and Post-Retirement Obligations	Derivative Instruments	Total
Balance as of December 31, 2014	\$ (31,185)	\$ (455)	\$ (31,640)
Other comprehensive income before reclassifications	—	(1,192)	(1,192)
Amounts reclassified from accumulated other comprehensive income	1,267	676	1,943
Net current period other comprehensive income	1,267	(516)	751
Balance as of September 30, 2015	\$ (29,918)	\$ (971)	\$ (30,889)

Table of Contents

The following table summarizes reclassifications from accumulated other comprehensive loss for the quarters and nine-month periods ended September 30, 2015 and 2014:

(In thousands)	Quarter Ended		Nine Months Ended		Affected Line Item in the Statement of Income
	September 30, 2015	2014	September 30, 2015	2014	
Amortization of pension and post-retirement items:					
Prior service credit	\$ 487	\$ 80	\$ 834	\$ 239	(a)
Actuarial (loss) gain	(1,145)	142	(2,913)	426	(a)
	(658)	222	(2,079)	665	Total before tax
	257	(86)	812	(257)	Tax benefit
	\$ (401)	\$ 136	\$ (1,267)	\$ 408	(expense) Net of tax
Loss on cash flow hedges:					
Interest rate derivatives	\$ (300)	\$ (468)	\$ (1,096)	\$ (1,616)	Interest expense
	115	178	420	615	Tax benefit
	\$ (185)	\$ (290)	\$ (676)	\$ (1,001)	Net of tax

---

(a) These items are included in the components of net periodic benefit cost for our pension and other post-retirement benefit plans. See Note 9 for further discussion regarding our pension and other post-retirement benefit plans.

## 9. PENSION PLAN AND OTHER POST-RETIREMENT BENEFITS

### Defined Benefit Plans

We sponsor a qualified defined benefit pension plan (“Retirement Plan”) that is non-contributory covering certain of our hourly employees who fulfill minimum age and service requirements. Certain salaried employees are also covered by the Retirement Plan, although these benefits have previously been frozen. The Retirement Plan is closed to all new entrants and all employees under collective bargaining agreements that provide for defined benefit plan coverage to accrue benefits under a cash balance formula.

We also have two non-qualified supplemental retirement plans (“Supplemental Plans”). The Supplemental Plans provide supplemental retirement benefits to certain former employees by providing for incremental pension payments to partially offset the reduction that would have been payable under the qualified defined benefit pension plans if it were not for limitations imposed by federal income tax regulations. The Supplemental Plans have previously been frozen so that no person is eligible to become a new participant. These plans are unfunded and have no assets. The

benefits paid under the Supplemental Plans are paid from the general operating funds of the Company.

The following table summarizes the components of net periodic pension cost for our defined benefit plans for the quarters and nine-month periods ended September 30, 2015 and 2014:

(In thousands)	Quarter Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
Service cost	\$ 50	\$ 140	\$ 308	\$ 420
Interest cost	3,978	4,074	11,841	12,221

## Table of Contents

### Other Non-qualified Deferred Compensation Agreements

We are also liable for deferred compensation agreements with former members of the board of directors and certain other former employees of acquired companies. Depending on the plan, benefits are payable in monthly or annual installments for a period of time based on the terms of the agreement, which range from five years up to the life of the participant or to the beneficiary upon the death of the participant, and may begin as early as age 55. Participants accrue no new benefits as these plans had previously been frozen. Payments related to the deferred compensation agreements totaled approximately \$0.1 million during the quarter ended September 30, 2014 and \$0.2 million and \$0.3 million for the nine-month periods ended September 30, 2015 and 2014, respectively. No payments were made during the quarter ended September 30, 2015. The net present value of the remaining obligations was approximately \$2.1 million and \$2.4 million as of September 30, 2015 and December 31, 2014, respectively, and is included in pension and other post-retirement benefit obligations in the accompanying condensed consolidated balance sheets.

We also maintain 28 life insurance policies on certain of the participating former directors and employees. The excess of the cash surrender value of the remaining life insurance policies over the notes payable balances related to these policies is determined by an independent consultant, and totaled \$2.0 million as of September 30, 2015 and December 31, 2014. These amounts are included in investments in the accompanying condensed consolidated balance sheets. Cash principal payments for the policies and any proceeds from the policies are classified as operating activities in the condensed consolidated statements of cash flows. We did not recognize any life insurance proceeds during the quarter or nine-month period ended September 30, 2015. We recognized \$0.2 million in life insurance proceeds as other non-operating income during the nine-month period ended September 30, 2014.

### Post-retirement Benefit Obligations

We sponsor various healthcare and life insurance plans (“Post-retirement Plans”) that provide post-retirement medical and life insurance benefits to certain groups of retired employees. Certain plans have previously been frozen so that no person is eligible to become a new participant. Retirees share in the cost of healthcare benefits, making contributions that are adjusted periodically—either based upon collective bargaining agreements or because total costs of the program have changed. Covered expenses for retiree health benefits are paid as they are incurred. Post-retirement life insurance benefits are fully insured. A majority of the healthcare plans are unfunded and have no assets, and benefits are paid from the general operating funds of the Company. However, a plan acquired in the purchase of another company has assets that are separately designated within the Retirement Plan for the sole purpose of providing payments of retiree medical benefits for this specific plan. The assets used to provide payment of these retiree medical benefits are the same as those of the Retirement Plan. In connection with the acquisition of Enventis, its post-retirement benefit plan has been included as of the date of acquisition.

The following table summarizes the components of the net periodic cost for our post-retirement benefit plans for the quarters and nine-month periods ended September 30, 2015 and 2014:

(In thousands)	Quarter Ended		Nine Months	
	September 30,		September 30,	
	2015	2014	2015	2014
Service cost	\$ 155	\$ 91	\$ 450	\$ 271
Interest cost	458	354	1,284	1,064
Expected return on plan assets	4	(54)	(112)	(164)
Net amortization (gain) loss	40	(146)	(100)	(440)
Net prior service cost (credit) amortization	(372)	34	(491)	104
Net periodic postretirement benefit cost	\$ 285	\$ 279	\$ 1,031	\$ 835

### Contributions

We expect to contribute approximately \$12.2 million to our pension plans and \$2.5 million to our other post retirement plans in 2015. As of September 30, 2015, we have contributed \$12.1 million and \$1.8 million of the annual contribution to the pension plans and other post-retirement plans, respectively.

Table of Contents

10. INCOME TAXES

There have been no changes to our unrecognized tax benefits as reported as of December 31, 2014. As of September 30, 2015 and December 31, 2014, the amount of unrecognized tax benefits was \$0.2 million. The net amount of unrecognized benefits that, if recognized, would result in an impact to the effective tax rate is \$0.2 million. We do not expect any material changes in our unrecognized tax benefits during the remainder of 2015.

Our practice is to recognize interest and penalties related to income tax matters in interest expense and general and administrative expense, respectively. As of September 30, 2015, we did not have a material liability for interest or penalties and had no material interest or penalty expense.

The periods subject to examination for our federal return are years 2013 through 2014. The periods subject to examination for our state returns are years 2011 through 2014. We are not currently under examination by federal or state taxing authorities.

Our effective tax rate was 44.7% and 36.2% for the quarters ended September 30, 2015 and 2014, respectively, and 29.7% and 35.6% for the nine-month periods ended September 30, 2015 and 2014, respectively. For the quarter and nine-month periods ended September 30, 2015, the effective tax rate differed from the federal and state statutory rates primarily due to non-deductible expenses, state taxable income differences and state tax credits. We also recognized approximately \$0.2 million of tax expense during the quarter ended September 30, 2015 to adjust our 2014 provision to match our 2014 returns compared to \$0.01 million of tax benefit during the quarter ended September 30, 2014 to adjust our 2013 provision to match our 2013 returns. For the quarter and nine-month periods ended September 30, 2014, the effective tax rate differed from the federal and state statutory rates primarily due to the release of a valuation allowance set up on federal net operating loss carryforwards subject to separate return limitation year restrictions. Exclusive of these adjustments, our effective tax rate would have been approximately 41.7% and 36.2% for the quarters ended September 30, 2015 and 2014, respectively, and 31.5% and 36.8% for the nine-month periods ended September 30, 2015 and 2014, respectively.

On September 13, 2013, Treasury and the Internal Revenue Service issued final regulations regarding the deduction and capitalization of expenditures related to tangible property. The final regulations under Internal Revenue Code Sections 162, 167 and 263(a) apply to amounts paid to acquire, produce or improve tangible property as well as dispositions of such property, and are generally effective for tax years beginning on or after January 1, 2014. We have adopted and implemented these regulations with the filing of our 2014 returns.

11. COMMITMENTS AND CONTINGENCIES

Litigation, Regulatory Proceedings and Other Contingencies

In 2014, Sprint Corporation, Level 3 Communications, Inc. and Verizon Communications Inc. filed lawsuits against us and many others in the industry regarding the proper charges to be applied between interexchange and local exchange carriers for certain calls between mobile and wireline devices that are routed through an interexchange carrier. The plaintiffs are refusing to pay these access charges in all states and are seeking refunds of past charges paid. The disputed amounts total \$2.1 million, and cover the periods extending from 2006. CenturyLink, Inc. has filed to bring all related suits to the U.S. District Court's Judicial Panel on multi district litigation. This panel is granted authority to transfer to a single court the pretrial proceedings for civil cases involving common questions of fact. The U.S. District Court in Dallas, Texas is expected to hear the case no later than the fourth quarter of 2015. We have interconnection agreements in place with all wireless carriers and the applicable traffic is being billed at current access rates, therefore we do not expect any potential settlement or judgment to have an adverse material impact on our financial results or cash flows.

On April 14, 2008, Salsgiver Inc., a Pennsylvania-based telecommunications company, and certain of its affiliates ("Salsgiver") filed a lawsuit against us and our subsidiaries North Pittsburgh Telephone Company and North Pittsburgh Systems Inc. in the Court of Common Pleas of Allegheny County, Pennsylvania alleging that we had prevented Salsgiver from connecting their fiber optic cables to our utility poles. Salsgiver sought compensatory and punitive damages as the result of alleged lost projected profits, damage to its business reputation and other costs. Salsgiver originally claimed to

Table of Contents

have sustained losses of approximately \$125.0 million. We believe that these claims are without merit and that the alleged damages are completely unfounded. We had recorded approximately \$0.4 million in 2011 in anticipation of the settlement of this case. During the quarter ended September 30, 2013, we recorded an additional \$0.9 million, which included estimated legal fees. A jury trial concluded on May 14, 2015 with the jury ruling in our favor. Salsgiver subsequently filed a post-trial motion asking the judge to overturn the jury verdict. That motion was denied. On June 17, 2015, Salsgiver filed an appeal in the Pennsylvania Superior Court. Salsgiver's brief is scheduled to be filed with the Superior Court on December 4, 2015, with the Company's brief due thirty days later. We believe that, despite the appeal, the \$1.3 million currently accrued represents management's best estimate of the potential loss if the verdict is overturned in Salsgiver's favor.

Two of our subsidiaries, Consolidated Communications of Pennsylvania Company LLC ("CCPA") and Consolidated Communications Enterprise Services Inc. ("CCES"), have, at various times, received assessment notices from the Commonwealth of Pennsylvania Department of Revenue ("DOR") increasing the amounts owed for Pennsylvania Gross Receipt Taxes, and/or have had audits performed for the tax years of 2008 through 2013. In addition, a re-audit was performed on CCPA for the 2010 calendar year. For the calendar years for which we received both additional assessment notices and audit actions, those issues have been combined by the DOR into a single Docket for each year.

For the CCES subsidiary, the total additional tax liability calculated by the auditors for the tax years 2008 through 2013 is approximately \$4.1 million. Audits for calendar years 2008 through 2010 have been filed for appeal and have received continuances pending the outcome of the present litigation in the Commonwealth of Pennsylvania (Verizon Pennsylvania, Inc. v. Commonwealth, Docket No. 266 F.R. 2008). The preliminary audit findings for the calendar years 2011 through 2013 were received on September 16, 2014. We are awaiting invoices for each of these years, at which time we will prepare to file an appeal with the DOR.

For the CCPA subsidiary, the total additional tax liability calculated by the auditors for calendar years 2008 through 2013 (using the re-audited 2010 number) is approximately \$5.0 million. Appeals of cases for calendar years 2008, 2009 and the original 2010 audit have been filed and have received continuance pending the outcome of present litigation in the Commonwealth of Pennsylvania (Verizon Pennsylvania, Inc. v. Commonwealth, Docket No. 266 F.R. 2008). The preliminary audit findings for the calendar years 2011 through 2013, as well as the re-audit of 2010, were received on September 16, 2014. We are awaiting invoices for each of these years, at which time we will prepare to file an appeal with the DOR.

We anticipate that the outstanding audits and subsequent appeals will be continued pending the outcome of the Verizon litigation. The Gross Receipts Tax issues in the Verizon Pennsylvania case are substantially the same as those presently facing CCPA and CCES. In addition, there are numerous telecommunications carriers with Gross Receipts Tax matters dealing with the same issues that are in various stages of appeal before the Board of Finance and Revenue and the Commonwealth Court. Those appeals by other similarly situated telecommunications carriers have been continued until resolution of the Verizon Pennsylvania case. We believe that these assessments and the positions taken by the Commonwealth of Pennsylvania are without substantial merit. We do not believe that the outcome of these claims will have a material adverse impact on our financial results or cash flows.

We are from time to time involved in various other legal proceedings and regulatory actions arising out of our operations. We do not believe that any of these, individually or in the aggregate, will have a material adverse effect upon our business, operating results or financial condition.

## 12. CONDENSED CONSOLIDATING FINANCIAL INFORMATION

Consolidated Communications, Inc. is the primary obligor under the unsecured 2022 Notes. We and substantially all of our subsidiaries, excluding Illinois Consolidated Telephone Company, have jointly and severally guaranteed the 2022 Notes. All of the subsidiary guarantors are 100% direct or indirect wholly owned subsidiaries of the parent, and all guarantees are full, unconditional and joint and several with respect to principal, interest and liquidated damages, if any. As such, we present condensed consolidating balance sheets as of September 30, 2015 and December 31, 2014, condensed consolidating statements of operations for the quarters and nine-month periods ended September 30, 2015 and 2014 and condensed consolidating statements of cash flows for the nine-month periods ended September 30, 2015 and 2014 for each

Table of Contents

of the Company (Parent), Consolidated Communications, Inc. (Subsidiary Issuer), guarantor subsidiaries and other non-guarantor subsidiaries with any consolidating adjustments. See Note 6 for more information regarding our 2022 Notes.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The Securities and Exchange Commission ("SEC") encourages companies to disclose forward-looking information so that investors can better understand a company's future prospects and make informed investment decisions. Certain statements in this Quarterly Report on Form 10-Q, including those which relate to the impact on future revenue sources, pending and future regulatory orders, continued expansion of the telecommunications network and expected changes in the sources of our revenue and cost structure resulting from our entrance into new communications markets, are forward-looking statements and are made pursuant to the safe harbor provisions of the Securities Litigation Reform Act of 1995. These forward-looking statements reflect, among other things, our current expectations, plans, strategies and anticipated financial results. There are a number of risks, uncertainties and conditions that may cause our actual results to differ materially from those expressed or implied by these forward-looking statements. Many of these circumstances are beyond our ability to control or predict. Moreover, forward-looking statements necessarily involve assumptions on our part. These forward-looking statements generally are identified by the words "believe", "expect", "anticipate", "estimate", "project", "intend", "plan", "should", "may", "will", "be", "will continue" or similar expressions. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements of Consolidated Communications Holdings, Inc. and its subsidiaries ("Consolidated", the "Company", "we" or "our") to be different from those expressed or implied in the forward-looking statements. All forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the cautionary statements that appear throughout this report. A detailed discussion of these and other risks and uncertainties that could cause actual results and events to differ materially from such forward-looking statements is included in our 2014 Annual Report on Form 10-K filed with the SEC. Furthermore, forward-looking statements speak only as of the date they are made. Except as required under the federal securities laws or the rules and regulations of the SEC, we disclaim any intention or obligation to update or revise publicly any forward-looking statements. You should not place undue reliance on forward-looking statements. Management's Discussion and Analysis ("MD&A") should be read in conjunction with our unaudited condensed consolidated financial statements and accompanying notes to the financial statements ("Notes") as of and for the quarter and nine months ended September 30, 2015 included in Item 1 of Part I of this Quarterly Report on Form 10-Q.

Throughout this MD&A, we refer to measures that are not measures of financial performance in accordance with accounting principles generally accepted in the United States ("US GAAP" or "GAAP"). We believe the use of these non-GAAP measures on a consolidated basis provides the reader with additional information that is useful in understanding our operating results and trends. These measures should be viewed in addition to, rather than as a substitute for, those measures prepared in accordance with GAAP. See the "Non-GAAP Measures" section below for a more detailed discussion on the use and calculation of these measures.

Overview

We are an integrated communications services company that operates as both an Incumbent Local Exchange Carrier (“ILEC”) and a Competitive Local Exchange Carrier (“CLEC”) dependent upon the territory served. We provide an array of services in consumer, commercial and carrier channels in 11 states, including local and long-distance service, high-speed broadband Internet access, video services, Voice over Internet Protocol (“VoIP”), custom calling features, private line services, carrier grade access services, network capacity services over our regional fiber optic networks, data center and managed services, directory publishing, equipment sales and cloud services.

We generate the majority of our consolidated operating revenues primarily from subscriptions to our video, data and transport services (collectively “broadband services”) to business and residential customers. Revenues increased \$44.8 million and \$137.8 million during the quarter and nine months ended September 30, 2015, respectively, compared to the same periods in 2014, primarily from growth in commercial services, total data connections and the acquisition of Enventis Corporation (“Enventis”) in October 2014, as described below. We expect our broadband services revenue to continue to grow as consumer and commercial demands for data based services increase.

## Table of Contents

We continue to focus on commercial and broadband growth opportunities and are continually expanding our commercial product offerings for both small and large businesses to capitalize on industry technological advances. We can leverage our fiber optic networks and tailor our services for business customers by developing solutions to fit their specific needs. We gained strategic advantage through the acquisition of Enventis in 2014, which recently launched a suite of cloud services that increases efficiency and reduces IT costs for our customers. In addition, we recently launched an enhanced hosted voice product, which enables greater scalability and reliability for businesses. We anticipate future momentum in new commercial services as these new products gain traction.

We market services to our residential customers either individually or as a bundled package. Our “triple play” bundle includes our voice, video and data services. Data connections continue to increase as a result of consumer trends toward increased Internet usage and our enhanced product and service offerings, such as our progressively increasing consumer data speeds. We introduced data speeds of up to 1 Gbps to approximately 20,000 of our fiber-to-the-home customers in our Kansas market and a limited portion of our Pennsylvania market in December 2014 and in our Texas market in the first quarter of 2015, with our California market to follow in 2016. Where 1 Gbps speeds are not yet offered, the maximum broadband speed is 100 Mbps, depending on the geographic market availability. As of September 30, 2015, approximately 29% of the homes in the areas we serve subscribe to our data service.

Our exceptional consumer broadband speed allows us to continue to meet the needs of our customers and the demand for higher speed resulting from the growing trend of over-the-top (“OTT”) content viewing. The availability of 1 Gbps data speed also complements our wireless home networking (“Wi-Fi”) that supports our TV Everywhere service and allows our subscribers to watch their favorite programs at home or away on a computer, smartphone or tablet.

The increase in our operating revenues during the nine months ended September 30, 2015 was offset in part by an anticipated industry wide trend of a decline in consumer voice services, access lines and related network access. Many consumers are choosing to subscribe to alternative communications services and competition for these subscribers continues to increase. Excluding the increase in voice connections as a result of the acquisition of Enventis in 2014, total voice connections decreased 5% as of September 30, 2015 as compared to the same period in 2014. Competition from wireless providers, competitive local exchange carriers and, in some cases, cable television providers has increased in recent years in the markets we serve. We have been able to mitigate some of the access line losses through marketing initiatives and product offerings, such as our VoIP service. In addition, our video connection growth is decelerating. Excluding Enventis, total video connections decreased 5% as of September 30, 2015 as compared to the same period in 2014. The consumer’s growing acceptance of OTT video services either to augment their current viewing options or to entirely replace their video subscription, may impact our future video subscriber base, which could result in a decline in video revenue as well as a reduction in video programming costs. We believe this trend in changing consumer viewing habits will continue to impact our business model and strategy of providing consumers the necessary broadband speed to facilitate OTT content viewing.

As discussed in the “Regulatory Matters” section below, our operating revenues are also impacted by legislative or regulatory changes at the federal and state levels, which could reduce or eliminate the current subsidies revenue we receive. A number of proceedings and recent orders relate to universal service reform, intercarrier compensation and network access charges. There are various ongoing legal challenges to the orders that have been issued. As a result, it

is not yet possible to determine fully the impact of the regulatory changes on our operations.

## Significant Recent Developments

### Enventis Merger

On October 16, 2014, we completed our merger with Enventis and acquired all the issued and outstanding shares of Enventis in exchange for shares of our common stock. As a result, Enventis became a wholly-owned subsidiary of the Company. Each share of common stock, no par value, of Enventis converted into and became the right to receive 0.7402 shares of our common stock, par value of \$0.01 per share, plus cash in lieu of fractional shares as set forth in the merger agreement. Based on the closing price of our common stock at \$25.40 per share on the date preceding the merger, the total value of the purchase consideration exchanged was \$257.7 million, excluding \$149.9 million paid to extinguish Enventis'.

Table of Contents

outstanding debt. On the date of the merger, we issued an aggregate total of 10.1 million shares of our common stock to the former Enventis shareholders.

Enventis is an advanced communications provider, which services consumer, commercial and wholesale carrier customer channels primarily in the upper Midwest. The acquisition reflects our strategy to diversify revenue and cash flows amongst multiple products and to expand our network to new markets. The financial results for Enventis have been included in our condensed consolidated financial statements as of the acquisition date. See Note 2 to the Condensed Consolidated Financial Statements included in this report in Part I – Item I “Financial Information” for a more detailed discussion of the transaction.

In conjunction with the acquisition, in September 2014, we completed an offering of \$200.0 million aggregate principal amount of 6.50% Senior Notes due 2022 (the “Existing Notes”). The net proceeds from the issuance of the Existing Notes were used to finance the acquisition of Enventis, including related fees and expenses, and to pay the existing indebtedness of Enventis. A portion of the proceeds, together with cash on hand and borrowings under our credit facility, was also used to repurchase \$72.8 million of our \$300.0 million original aggregate principal amount of 10.875% Senior Notes due 2020 (the “2020 Notes”) during the fourth quarter of 2014, as described in the “Liquidity and Capital Resources” section below.

Issuance of Additional Senior Notes

On June 8, 2015, we issued an additional \$300.0 million in aggregate principal amount of 6.50% Senior Notes due 2022 (the “New Notes” and together with the Existing Notes, the “2022 Notes”). The New Notes were priced at 98.26% of par and resulted in total gross proceeds of approximately \$294.8 million, excluding accrued interest. The net proceeds from the issuance of the New Notes were used, in part, to redeem the remaining \$227.2 million of the original aggregate principal amount of the 2020 Notes, to pay related fees and expenses and to reduce the outstanding balance of our revolving credit facility. In connection with the redemption of the 2020 Notes, we paid \$261.9 million and recognized a loss on extinguishment of debt of \$41.2 million during the nine months ended September 30, 2015.

During the quarter ended September 30, 2015, we completed an exchange offer to register all of the 2022 Notes under the Securities Act of 1933, as amended (the “Securities Act”). The terms of the registered 2022 Notes are substantially identical to the 2022 Notes prior to the exchange, except that the notes are now registered under the Securities Act and the transfer restrictions and registration rights applicable to the 2022 Notes no longer apply to the registered 2022 Notes. The exchange offer did not impact the aggregate principal amount or the remaining terms of the 2022 Notes outstanding.

- (1) A non-GAAP measure. See the “Non-GAAP Measures” section below for additional information and reconciliation to the most directly comparable GAAP measure.

Key Operating Statistics

	As of September 30,				
	2015	2014	Change	% Change	
Consumer customers	270,466	251,379	19,087	8	%
Voice connections	488,037	430,178	57,859	13	
Data connections	452,265	414,440	37,825	9	
Video connections	119,643	112,233	7,410	7	
Total connections	1,059,945	956,851	103,094	11	%

The comparability of our consolidated results of operations and key operating statistics was impacted by the Enventis acquisition that closed on October 16, 2014, as described above. Enventis’ results are included in our condensed consolidated financial statements as of the date of the acquisition. The acquisition provides additional diversification of the Company’s revenues and cash flows both geographically and by service type.

Operating Revenues

Commercial and Carrier

Data and Transport Services

We provide a variety of business communication services to small, medium and large business customers, including many services over our advanced fiber network. The services we offer include scalable high speed broadband Internet access and VoIP phone services which range from basic service plans to virtual hosted systems. In addition to Internet and VoIP services, we also offer private line data services to businesses that include dedicated Internet access through our Metro Ethernet network. Wide Area Network (“WAN”) products include point-to-point and multi-point deployments from 2.5 Mbps to 10 Gbps to accommodate the growth patterns of our business customers. Data center and disaster recovery solutions provide a reliable and local colocation option for commercial customers. We also offer wholesale services to regional and national interexchange and wireless carriers, including cellular backhaul and other fiber transport solutions.

Data and transport services revenue increased \$19.9 million and \$59.4 million during the quarter and nine months ended September 30, 2015, respectively, compared to the same periods in 2014 primarily due to the acquisition of Enventis, which represented \$17.7 million and \$53.0 million of the increases, respectively. Data revenue also increased from growth in data connections and a continued increase in VoIP, internet access and Metro Ethernet revenue. Fiber transport and cellular backhaul revenue also increased as network bandwidth demand for wireless data continues to escalate.

#### Voice Services

Voice services include basic local phone and long-distance service packages for business customers. The plans include options for voicemail, conference calling, linking multiple office locations and other custom calling features such as caller ID, call forwarding, speed dialing and call waiting. Services can be charged at a fixed monthly rate, a measured rate or can be bundled with selected services at a discounted rate. Voice services revenue increased \$3.3 million and \$10.8 million during the quarter and nine months ended September 30, 2015, respectively, compared to the same periods in 2014 primarily due to the acquisition of Enventis, which represented \$4.6 million and \$13.6 million of the increases, respectively. Excluding Enventis, voice services declined \$1.3 million and \$2.8 million, respectively, primarily due to a 6% decline in access lines as commercial customers are increasingly choosing alternative technologies, including our own VoIP product, and the broad range of features that Internet based voice services can offer.

## Table of Contents

### Consumer

### Broadband Services

Broadband services include revenue from residential customers for subscriptions to our VoIP, data and video products. We offer high speed Internet access at speeds of up to 1 Gbps, depending on the nature of the network facilities that are available, the level of service selected and the location. Our VoIP digital phone service is also available in certain markets as an alternative to the traditional telephone line. Depending on geographic market availability, our video services range from limited basic service to advanced digital television, which includes several plans each with hundreds of local, national and music channels including premium and pay-per-view channels as well as video on demand service. Certain customers may also subscribe to our advanced video services, which consist of high-definition television, digital video recorders (“DVR”) and/or a whole home DVR.

Broadband services revenue increased \$3.4 million and \$12.7 million during the quarter and nine months ended September 30, 2015, respectively, compared to the same periods in 2014, primarily due to the acquisition of Enventis, which accounted for \$4.2 million and \$12.6 million of the increases, respectively. Excluding Enventis, video revenue decreased primarily due to a 6% decline in video connections, and data revenue decreased due to increased discounts on our data service offerings. We expect data revenue to grow as a result of the rising consumer demand for data based services. However, the revenue growth was tempered by a decrease in VoIP revenue during that same period due to a decline in voice connections as more consumers have begun to rely exclusively on wireless service.

### Voice Services

We offer several different basic local phone service packages and long-distance calling plans, including unlimited flat-rate calling plans. The plans include options for voicemail and other custom calling features such as caller ID, call forwarding and call waiting. Voice services revenue increased \$0.4 million and \$1.3 million during the quarter and nine months ended September 30, 2015, respectively, compared to the same periods in 2014. Excluding the addition of Enventis revenue, voice services revenue decreased \$1.4 million and \$4.0 million, respectively, primarily due to a 7% decline in voice connections. The number of local access lines in service directly affects the recurring revenue we generate from end users and continues to be impacted by the industry-wide decline in access lines. We expect to continue to experience modest erosion in voice connections due to competition from alternative technologies, including our own competing VoIP product.

### Equipment Sales and Service

Through our acquisition of Enventis in 2014, we obtained a leading market relationship with Cisco Systems, Inc. and, as a result, are an accredited Master Level Unified Communications and Gold Certified Cisco Partner providing equipment solutions and support for business customers. When an equipment sale involves multiple deliverables, revenue is allocated to each respective element based on relative selling price. As an equipment integrator, we offer network design, implementation and support services, including maintenance contracts, in order to provide integrated communication solutions for our customers. Equipment sales and services are non-recurring and changes in revenue can be attributed to the timing and volume of customer sales which can vary each quarter and result in positive or negative fluctuations in our quarterly operating revenues and expenses. During the quarter and nine months ended September 30, 2015, equipment sales and service revenue increased \$14.7 million and \$44.9 million, respectively, compared to the same periods in 2014 due to the acquisition of Enventis in 2014.

### Subsidies

Subsidies consist of both federal and state subsidies, which are designed to promote widely available, quality telephone service at affordable prices in rural areas. Subsidies revenue increased \$1.3 million and \$3.8 million during the quarter and nine months ended September 30, 2015, respectively, compared to the same periods in 2014 primarily from the acquisition of Enventis. Excluding the increases due to the acquisition of Enventis, subsidies revenue decreased \$1.2 million and \$2.2 million, respectively, as a result of a reduction in state funding support for our Texas ILEC. See the “Regulatory Matters” section below for a further discussion of the subsidies we receive.

## Table of Contents

### Network Access Services

Network access services include interstate and intrastate switched access revenue, network special access services and end user access. Switched access revenue includes access services to other communications carriers to terminate or originate long-distance calls on our network. Special access circuits provide dedicated lines and trunks to business customers and interexchange carriers. Network access service revenue was flat during the quarter ended September 30, 2015 compared to the same period in 2014, and increased \$0.1 million during the nine months ended September 30, 2015 compared to the same period in 2014. Excluding the addition of Enventis, network access service revenue decreased \$1.9 million and \$5.8 million, respectively, primarily due to a decline in switched and special access revenue. Special access revenue declined due to a reduction in the number of our carrier circuits; however, a portion of the decrease can be attributed to carriers shifting to our fiber Metro Ethernet product, contributing to the growth in that area. Switched access revenue decreased as a result of the continuing decline in minutes of use and voice connections.

### Other Products and Services

Other products and services include revenues from telephone directory publishing, video advertising and billing and support services. Other products and services revenue increased \$1.3 million and \$4.4 million during the quarter and nine months ended September 30, 2015, respectively, compared to the same periods in 2014. The growth over prior periods is primarily from the addition of Enventis revenue of \$1.3 million and \$4.6 million, respectively, primarily for its billing and support services.

### Operating Expenses

### Cost of Services and Products

Cost of services and products increased \$26.8 million and \$81.9 million during the quarter and nine months ended September 30, 2015, respectively, compared to the same periods in 2014 primarily due to the addition of the operations for Enventis during 2015, which accounted for \$25.1 million and \$76.7 million of the increases, respectively. Video programming costs also increased as costs per program channel continue to rise as a result of annual rate increases and an increase in re-transmission costs for local stations.

### Selling, General and Administrative Costs

Selling, general and administrative costs increased \$17.9 million and \$37.7 million during the quarter and nine months ended September 30, 2015, respectively, compared to the same periods in 2014. The acquisition of Enventis contributed to \$10.5 million and \$28.4 million of the increases, respectively. In addition, as part of the Company's continued integration efforts, an early retirement program was initiated during the quarter ended September 30, 2015 to a group of select employees who were 55 years of age or older and who have provided 15 or more years of service. The employees were primarily in non-customer facing positions or positions in which the Company believed the retiree's workload could be absorbed internally as part of the Company's continuing cost saving initiatives. The early retirement package was accepted by approximately 60 employees and, as a result, one-time severance costs of \$7.2 million were incurred during the quarter ended September 30, 2015. The Company expects approximately \$4.8 million in future annual savings as a result of the early retirement program. The remaining increase in selling, general and administrative costs was primarily due to an increase in bad debt expense and increased pension costs in the current year.

#### Acquisition and Other Transaction Costs

Acquisition and other transaction costs decreased \$0.3 million and \$1.0 million during the quarter and nine months ended September 30, 2015, respectively, compared to the same periods in 2014 as a result of the acquisition of Enventis, which closed in the fourth quarter of 2014. Transaction costs consist primarily of legal, finance and other professional fees.

Table of Contents

Depreciation and Amortization

Depreciation and amortization expense increased \$11.1 million and \$26.8 million during the quarter and nine months ended September 30, 2015, respectively, compared to the same periods in 2014, primarily as a result of the acquisition of Enventis during 2014, which accounted for \$9.9 million and \$28.7 million of the increases, respectively. Excluding the addition of the operations for Enventis, depreciation and amortization expense increased \$1.2 million and decreased \$1.9 million during the quarter and the nine months ended September 30, 2015, respectively, compared to the same periods in 2014 primarily due to the acceleration of depreciation on certain customer premise equipment in the current quarter, which was offset in part by certain circuit, network and terminal equipment becoming fully depreciated during 2015.

Regulatory Matters

Our revenues are subject to broad federal and/or state regulation, which include such telecommunications services as local telephone service, network access service and toll service and are derived from various sources, including:

- business and residential subscribers of basic exchange services;
- surcharges mandated by state commissions;
- long-distance carriers for network access service;
- competitive access providers and commercial enterprises for network access service; and
- support payments from federal or state programs.

The telecommunications industry is subject to extensive federal, state and local regulation. Under the Telecommunications Act of 1996, federal and state regulators share responsibility for implementing and enforcing statutes and regulations designed to encourage competition and to preserve and advance widely available, quality telephone service at affordable prices.

At the federal level, the Federal Communications Commission (“FCC”) generally exercises jurisdiction over facilities and services of local exchange carriers, such as our rural telephone companies, to the extent they are used to provide, originate or terminate interstate or international communications. The FCC has the authority to condition, modify, cancel, terminate or revoke our operating authority for failure to comply with applicable federal laws or FCC rules, regulations and policies. Fines or penalties also may be imposed for any of these violations.

State regulatory commissions generally exercise jurisdiction over carriers’ facilities and services to the extent they are used to provide, originate or terminate intrastate communications. In particular, state regulatory agencies have substantial oversight over interconnection and network access by competitors of our rural telephone companies. In

addition, municipalities and other local government agencies regulate the public rights-of-way necessary to install and operate networks. State regulators can sanction our rural telephone companies or revoke our certifications if we violate relevant laws or regulations.

#### FCC Matters

In general, telecommunications service in rural areas is more costly to provide than service in urban areas. The lower customer density means that switching and other facilities serve fewer customers and loops are typically longer, requiring greater expenditures per customer to build and maintain. By supporting the high cost of operations in rural markets, Universal Service Fund (“USF”) subsidies promote widely available, quality telephone service at affordable prices in rural areas. Revenues from the federal and certain states’ USFs increased \$1.3 million and \$3.8 million during the quarter and nine months ended September 30, 2015, respectively, compared to the same periods in 2014, primarily due to the acquisition of Enventis in October 2014.

In order for an eligible telecommunications carrier (“ETC”) to receive high-cost support, the USF/Intercarrier Compensation (“ICC”) Transformation Order requires states to certify annually that USF support is used only for the provision, maintenance and upgrading of facilities and services for which the support is intended. States, in turn, require that ETCs file certifications with them as the basis for the state filings with the FCC. Failure to meet the annual data and certification deadlines can result in reduced support to the ETC based on the length of the delay in certification. For

Table of Contents

calendar year 2013, the California state certification was due to be filed with the FCC on or before October 1, 2012. We were notified in January 2013 that SureWest Communications (“SureWest”) did not submit the required certification to the California Public Utilities Commission (“CPUC”) in time to be included in its October 1, 2012 submission to the FCC. In January 2013, we filed a certification with the CPUC and filed a petition with the FCC for a waiver of the filing deadline for the annual state certification. In February 2013, the CPUC filed a certification with the FCC with respect to SureWest. In October 2013, the Wireline Competition Bureau of the FCC denied our petition for a waiver of the annual certification deadline. In November 2013, we applied for a review of the decision made by the FCC staff by the full Commission. Management is optimistic that the Company may prevail in its application to the Commission and receive USF funding for the period January 1, 2013 through June 30, 2013 based on the change in SureWest’s USF filing status caused by the change in the ownership of SureWest, the lack of formal notice by the FCC regarding this change in filing status, the fact that SureWest had a previously filed certification of compliance in effect with the FCC for the two quarters for which USF was withheld and the FCC’s past practice of granting waivers to accept late filings in similar situations. However, due to the denial of our petition by the Wireline Competition Bureau and the uncertainty of the collectability of previously recognized revenues, in December 2013 we reversed \$3.0 million of previously recognized revenues until such time that the Commission has the opportunity to reach a decision on our application for review.

Our recently acquired Enventis ILEC properties are cost-based rate of return companies. Historically, under FCC rules governing rate making, these ILECs were required to establish rates for their interstate telecommunications services based on projected demand usage for the various services. We projected our earnings through the use of annual cost separation studies, which utilized estimated total cost information and projected demand usage. Carriers were required to follow FCC rules in the preparation of these annual studies. We determined actual earnings from our interstate rates as actual volumes and costs became known. Effective January 1, 2015, our Enventis ILECs are treated as price cap companies for universal service purposes. In March 2015, we filed a petition for waiver to keep them as rate of return companies for switched and special access. The petition was granted on October 6, 2015. We expect certain adjustments to take place over 24 months as a result of exiting the National Exchange Carrier Association (“NECA”) pool; however, we do not anticipate that they will be material to our condensed consolidated financial statements or results of operations.

An order adopted by the FCC in 2011 (the “Order”) may significantly impact the amount of support revenue we receive from the USF, Connect America Fund (“CAF”) and ICC. The Order reformed core parts of the USF, broadly recast the existing ICC scheme, established the CAF to replace support revenues provided by the current USF and redirected support from voice services to broadband services. In 2012, Phase I of the CAF was implemented, which froze USF support to price cap holding companies until the FCC implemented a broadband cost model to shift support from voice service to broadband. The Order also modified the methodology used for ICC traffic exchanged between carriers. The initial phase of ICC reform was effective on July 1, 2012, beginning the transition of our terminating switched access rates to bill-and-keep over a seven year period. We expect that our network access revenues for 2015 will decrease by as much as \$1.3 million compared to 2014 as a result of the implementation of the Order.

In December 2014, the FCC released a report and order that addresses, among other things, the transition to CAF Phase II for price cap carriers, the acceptance criteria of CAF Phase II funding and the rules for the competitive bidding process. For companies that accept the CAF Phase II model based support, there will be a three year transition period in instances where their current Phase I frozen funding exceeds the Phase II funding. If Phase II

funding exceeds Phase I, then transitional support is waived and Phase II funding begins immediately. Companies are required to commit to a build out requirement to support 10 Mbps downstream and 1 Mbps upstream broadband speeds in the funded locations, with funding received over six years beginning in mid-2015.

In April 2015, the FCC released the CAF Phase II right of first refusal offers of support to price cap carriers to fund deployment of voice and broadband-capable networks. The CAF Phase II provides, if accepted, annual funding up to \$13.9 million through 2020. We accepted the CAF Phase II funding on August 27, 2015. The annual funding under CAF Phase I of \$36.6 million will be replaced by the CAF Phase II funding. In the state of Iowa, where CAF Phase II funding is greater than the CAF Phase I funding, the CAF Phase II funding will be received with a retroactive payment back to January 1, 2015. For all other states, funding under CAF Phase II is less than the CAF Phase I funding levels. The acceptance of funding to the lower level will be over a three year period at the rates of: 75% in 2015, 50% in 2016 and 25% in 2017. The funding for CAF Phase II began effective August 1, 2015. For the period from August 2015 through

## Table of Contents

December 2015, the Company expects to receive and recognize approximately \$6.4 million in total CAF Phase II funding, which includes the retroactive payment for Iowa of approximately \$0.6 million.

In March 2015, the FCC released its net neutrality order which applies to all wireline and wireless providers of broadband internet access services. The net neutrality order addresses several areas that will be regulated and others that are subject to forbearance. The regulations disallow blocking, throttling and paid prioritization by internet service providers. The net neutrality order also requires providers to disclose certain information to consumers on rates, fees, data allowances and packet loss. Finally, it gives the FCC codified enforcement authority and it forbears on certain Title II regulations. We are evaluating the net neutrality order, and we currently do not believe the order will result in any significant changes to the services we provide our customers, nor do we believe it will have a material impact on our condensed consolidated financial position or results of operations.

## State Matters

### California

In an ongoing proceeding relating to the New Regulatory Framework, the CPUC adopted Decision 06-08-030 in 2006, which grants carriers broader pricing freedom in the provision of telecommunications services, bundling of services, promotions and customer contracts. This decision adopted a new regulatory framework, the Uniform Regulatory Framework (“URF”), which among other things (i) eliminates price regulation and allows full pricing flexibility for all new and retail services, (ii) allows new forms of bundles and promotional packages of telecommunication services, (iii) allocates all gains and losses from the sale of assets to shareholders and (iv) eliminates almost all elements of rate of return regulation, including the calculation of shareable earnings. In December 2010, the CPUC issued a ruling to initiate a new proceeding to assess whether, or to what extent, the level of competition in the telecommunications industry is sufficient to control prices for the four largest ILECs in the state. Subsequently, the CPUC issued a ruling temporarily deferring the proceeding. The status on when the CPUC may open this proceeding is unclear and on hold at this time. The CPUC’s actions in this and future proceedings could lead to new rules and an increase in government regulation. The Company will continue to monitor this matter.

### Pennsylvania

In 2011, the Pennsylvania Public Utilities Commission (“PAPUC”) issued an intrastate access reform order reducing intrastate access rates to interstate levels in a three-step process, which began in March 2012. With the release of the FCC order in November 2011, the PAPUC temporarily issued a stay. A final stay was issued in 2012 to implement the FCC ordered intrastate access rate changes. The PAPUC had indicated that it would address state universal funding in 2013, but delayed conducting a proceeding pending any state legislative activity that may occur in the 2015 legislative session. The Company will continue to monitor this matter.

Texas

The Texas Public Utilities Regulatory Act (“PURA”) directs the Public Utilities Commission of Texas (“PUCT”) to adopt and enforce rules requiring local exchange carriers to contribute to a state universal service fund that helps telecommunications providers offer basic local telecommunications service at reasonable rates in high cost rural areas. The Texas Universal Service Fund is also used to reimburse telecommunications providers for revenues lost by providing lifeline service. Our Texas rural telephone companies receive disbursements from this fund.

Our Texas ILECs have historically received support from two state funds, the small and rural incumbent local exchange company plan High Cost Fund (“HCF”) and the High Cost Assistance Fund (“HCAF”). The HCF is a line-based fund used to keep local rates low. The rate is applied on all residential lines and up to five single business lines. The amount we receive from the HCAF is a frozen monthly amount that was originally developed to offset high intrastate toll rates.

In September 2011, the Texas state legislature passed Senate Bill No. 980/House Bill No. 2603 which, among other things, mandated the PUCT to review the Universal Service Fund and issue recommendations by January 1, 2013 with the intent to effectively reduce the size of the Universal Service Fund. This would be accomplished by implementing an urban floor

## Table of Contents

to offset state funding reductions with a phase-in period of four years. The PUCT recommended that (i) frozen line counts be lifted effective September 1, 2013 and (ii) rural and urban local rate benchmarks be developed. The large company fund was completed in September 2012 and the PUCT addressed the small fund participants in Docket 41097 Rate Rebalancing (“Docket 41097”), as discussed below.

In June 2013, the Texas state legislature passed Senate Bill No. 583 (“SB 583”). The provisions of SB 583 were effective September 1, 2013 and froze HCF and HCAF support for the remainder of 2013. As of January 1, 2014, our annual \$1.4 million HCAF support was eliminated and the frozen HCF support returned to funding on a per line basis. In July 2013, the Company entered into a settlement agreement with the PUCT on Docket 41097, which was approved by the PUCT in August 2013. In accordance with the provisions of the settlement agreement, the HCF draw will be reduced by approximately \$1.2 million annually over a four year period beginning June 1, 2014 through 2018. However, we have the ability to fully offset this reduction with increases to residential rates where market conditions allow, which the Company filed for in April 2014 and implemented in June 2014.

In addition, the PUCT is required to develop a needs test for post-2017 funding and has held workshops on various proposals. The PUCT issued its recommendation to the Texas state commissioners in May 2014, which was approved in December 2014. The needs test allows for a one-time disaggregation of line rates from a per line flat rate, then a competitive test must be met to receive funding. The deadline for submission of the needs test is December 31, 2016. We expect to complete the needs test as required and file for continued funding by the 2016 deadline.

## Other Regulatory Matters

We are also subject to a number of regulatory proceedings occurring at the federal and state levels that may have a material impact on our operations. The FCC and state commissions have authority to issue rules and regulations related to our business. A number of proceedings are pending or anticipated that are related to such telecommunications issues as competition, interconnection, access charges, intercarrier compensation, broadband deployment, consumer protection and universal service reform. Some proceedings may authorize new services to compete with our existing services. Proceedings that relate to our cable television operations include rulemakings on set top boxes, carriage of programming, industry consolidation and ways to promote additional competition. There are various on-going legal challenges to the scope or validity of FCC orders that have been issued. As a result, it is not yet possible to determine fully the impact of the related FCC rules and regulations on our operations.

## Non-Operating Items

## Other Income and Expense, Net

Interest expense, net of interest income, decreased \$1.5 million and increased \$0.1 million during the quarter and nine months ended September 30, 2015, respectively, compared to the same periods in 2014 primarily due to a reduction in the interest rate for our outstanding 2022 Notes. In June 2015, we issued an additional \$300.0 million in 6.50% Senior Notes due 2022, which were used, in part, to redeem our outstanding 10.875% Senior Notes due 2020, as described below. The New Notes were issued as an add on to the \$200.0 million in 6.50% Senior Notes issued in September 2014, the proceeds of which were used, in part, to fund the acquisition of Enventis. Interest expense was also reduced in 2015 by declines in non-cash interest expense related to our de-designated interest rate swap agreements and additional financing costs in 2014 related to the bridge loan facility obtained for the Enventis acquisition.

During the nine months ended September 30, 2015, we redeemed the remaining \$227.2 million of the original aggregate principal amount of our 10.875% Senior Notes due 2020, as described in the “Liquidity and Capital Resources” section below. In connection with the redemption of these notes, we paid \$261.9 million and recognized a loss on the extinguishment of debt of \$41.2 million during the nine months ended September 30, 2015.

Investment income increased \$2.3 million and \$0.1 million during the quarter and nine months ended September 30, 2015, respectively, compared to the same periods in 2014, primarily due to an increase in earnings from our wireless partnership interests. In addition, we recognized an other-than-temporary impairment loss of \$0.8 million during the nine months ended September 30, 2015 as a result of the sale of our equity interest in Central Valley Independent Network, LLC. Other

## Table of Contents

expense, net increased \$0.4 million and decreased \$0.6 million during the quarter and nine months ended September 30, 2015, respectively, compared to the same periods in 2014, primarily due to losses on the retirement of equipment in the current year quarter and the loss on the sale of an office facility and other related assets in Pennsylvania in 2014.

## Income Taxes

Income taxes decreased \$2.2 million and \$16.6 million during the quarter and nine months ended September 30, 2015, respectively, compared to the same periods in 2014. Our effective tax rate was 44.7% and 36.2% for the quarters ended September 30, 2015 and 2014, respectively, and 29.7% and 35.6% for the nine-month periods ended September 30, 2015 and 2014, respectively. For the quarter and nine-month periods ended September 30, 2015, the effective tax rate differed from the federal and state statutory rates primarily due to non-deductible expenses, state taxable income differences and state tax credits. We also recognized approximately \$0.2 million of tax expense during the quarter ended September 30, 2015 to adjust our 2014 provision to match our 2014 returns compared to \$0.01 million of tax benefit during the quarter ended September 30, 2014 to adjust our 2013 provision to match our 2013 returns. For the quarter and nine-month periods ended September 30, 2014, the effective tax rate differed from the federal and state statutory rates primarily due to the release of a valuation allowance set up on federal net operating loss carryforwards subject to separate return limitation year restrictions. Exclusive of these adjustments, our effective tax rate would have been approximately 41.7% and 36.2% for the quarters ended September 30, 2015 and 2014, respectively, and 31.5% and 36.8% for the nine-month periods ended September 30, 2015 and 2014, respectively.

## Non-GAAP Measures

In addition to the results reported in accordance with US GAAP, we also use certain non-GAAP measures such as EBITDA and adjusted EBITDA to evaluate operating performance and to facilitate the comparison of our historical results and trends. These financial measures are not measures of financial performance under US GAAP and should not be considered in isolation or as a substitute for net income as a measure of performance and net cash provided by operating activities as a measure of liquidity. They are not, on their own, necessarily indicative of cash available to fund cash needs as determined in accordance with GAAP. The calculation of these non-GAAP measures may not be comparable to similarly titled measures used by other companies. Reconciliations of these non-GAAP measures to the most directly comparable financial measures presented in accordance with GAAP are provided below.

EBITDA is defined as net earnings before interest expense, income taxes and depreciation and amortization. Adjusted EBITDA is comprised of EBITDA, adjusted for certain items as permitted or required under our credit facility as described in the reconciliations below. These measures are a common measure of operating performance in the telecommunications industry and are useful, with other data, as a means to evaluate our ability to fund our estimated uses of cash.

Table of Contents

The following table is a reconciliation of net cash provided by operating activities to adjusted EBITDA for the quarters and nine month periods ended September 30, 2015 and 2014:

(In thousands, unaudited)	Quarter Ended		Nine Months Ended	
	September 30,		September 30,	
	2015	2014	2015	2014
Net cash provided by operating activities	\$ 71,821	\$ 46,319	\$ 167,637	\$ 133,364
Adjustments:				
Non-cash, stock-based compensation	(742)	(948)	(2,265)	(2,672)
Loss on extinguishment of debt	—	—	(41,242)	—
Other adjustments, net	(14,605)	(232)	(15,574)	(2,964)
Changes in operating assets and liabilities	(7,672)	(2,422)	19,354	4,845
Interest expense, net	19,174	20,721	60,277	60,280
Income tax expense (benefit)	2,220	4,387	(2,258)	14,380
EBITDA	70,196	67,825	185,929	207,233
Adjustments to EBITDA:				
Other, net (1)	(1,498)	(9,190)	(14,140)	(25,677)
Investment distributions (2)	19,996	7,564	34,162	25,356
Loss on extinguishment of debt	—	—	41,242	—
Non-cash, share-based compensation (3)	742	948	2,265	2,672
Adjusted EBITDA	\$ 89,436	\$ 67,147	\$ 249,458	\$ 209,584

- 
- (1) Includes the equity earnings from our investments, dividend income, income attributable to noncontrolling interests in subsidiaries, transaction related costs, including severance, and certain other miscellaneous items.
- (2) Includes all cash dividends and other cash distributions received from our investments.
- (3) Represents compensation expenses in connection with the issuance of stock awards, which, because of the non-cash nature of these expenses, are excluded from adjusted EBITDA.

## Liquidity and Capital Resources

## Outlook and Overview

Our operating requirements have historically been funded from cash flows generated from our business and borrowings under our credit facilities. We expect that our future operating requirements will continue to be funded from cash flows from operating activities, existing cash and cash equivalents and, if needed, borrowings under our

revolving credit facility and our ability to obtain future external financing. We anticipate that we will continue to use a substantial portion of our cash flow to fund capital expenditures, meet scheduled payments of long-term debt, make dividend payments and invest in future business opportunities.

The following table summarizes our cash flows:

(In thousands)	Nine Months Ended	
	September 30,	
	2015	2014
Cash flows provided by (used in):		
Operating activities	\$ 167,637	\$ 133,364
Investing activities	(99,155)	(224,392)
Financing activities	(51,307)	90,367
Increase (decrease) in cash and cash equivalents	\$ 17,175	\$ (661)

Table of Contents

Cash Flows Provided by Operating Activities

Net cash provided by operating activities was \$167.6 million during the nine-month period ended September 30, 2015, an increase of \$34.3 million compared to the same period in 2014. Cash provided by operating activities increased primarily as a result of additional cash flows and earnings provided by the addition of the Enventis operations as well as an increase in cash distributions from our wireless partnerships in 2015.

Cash Flows Used In Investing Activities

Net cash used in investing activities was \$99.2 million during the nine-month period ended September 30, 2015 and consisted primarily of cash used for capital expenditures.

Capital Expenditures

Capital expenditures continue to be our primary recurring investing activity and were \$100.1 million during the nine-month period ended September 30, 2015, an increase of \$24.1 million compared to the same period in 2014. Capital expenditures for the remainder of 2015 are expected to be \$30.0 million to \$34.0 million, of which approximately 61% is planned for success-based capital projects for consumer and commercial initiatives. Capital expenditures for the remainder of 2015 and subsequent years will depend on various factors, including competition, changes in technology, regulatory changes and the timing in the deployment of new services. We expect to continue to invest in existing and new services and the expansion of our fiber network in order to retain and acquire more customers through a broader set of products and an expanded network footprint.

Cash Flows Provided by (Used In) Financing Activities

Net cash provided by (used in) financing activities consists primarily of our proceeds from and principal payments on long-term borrowings and the payment of dividends.

Long-term Debt

Credit Agreement

In December 2013, the Company, through certain of its wholly owned subsidiaries, entered into a Second Amended and Restated Credit Agreement with various financial institutions (the "Credit Agreement") to replace the Company's previously amended credit agreement. The Credit Agreement consists of a \$75.0 million revolving credit facility and initial term loans in the aggregate amount of \$910.0 million ("Term 4"). The Credit Agreement also includes an incremental term loan facility which provides the ability to request to borrow up to \$300.0 million of incremental term loans subject to certain terms and conditions. Borrowings under the senior secured credit facility are secured by substantially all of the assets of the Company and its subsidiaries, with the exception of Illinois Consolidated Telephone Company and our majority-owned subsidiary, East Texas Fiber Line Incorporated.

The Term 4 loan was issued in an original aggregate principal amount of \$910.0 million with a maturity date of December 23, 2020. The Term 4 loan contains an original issuance discount of \$4.6 million, which is being amortized over the term of the loan. The Term 4 loan requires quarterly principal payments of \$2.3 million, which commenced March 31, 2014, and has an interest rate of London Interbank Offered Rate ("LIBOR") plus 3.25% subject to a 1.00% LIBOR floor.

Our revolving credit facility has a maturity date of December 23, 2018 and an applicable margin (at our election) of between 2.50% and 3.25% for LIBOR-based borrowings or between 1.50% and 2.25% for alternate base rate borrowings, depending on our leverage ratio. Based on our leverage ratio as of September 30, 2015, the borrowing margin for the next three month period ending December 31, 2015 will be at a weighted-average margin of 3.00% for a LIBOR-based loan or 2.00% for an alternate base rate loan. The applicable borrowing margin for the revolving credit facility is adjusted quarterly to reflect the leverage ratio from the prior quarter-end. As of September 30, 2015 and December 31, 2014, borrowings of \$26.0 million and \$39.0 million were outstanding under the revolving credit facility, respectively. A stand-by letter of

Table of Contents

credit of \$1.6 million, issued primarily in connection with the Company's insurance coverage, was outstanding under our revolving credit facility as of September 30, 2015. The stand-by letter of credit is renewable annually and reduces the borrowing availability under the revolving credit facility. As of September 30, 2015, \$47.4 million was available for borrowing under the revolving credit facility.

The weighted-average interest rate on outstanding borrowings under our credit facility was 4.22% and 4.20% as of September 30, 2015 and December 31, 2014, respectively. Interest is payable at least quarterly.

Net proceeds from asset sales exceeding certain thresholds, to the extent not reinvested, are required to be used to repay loans outstanding under the Credit Agreement.

Credit Agreement Covenant Compliance

The Credit Agreement contains various provisions and covenants, including, among other items, restrictions on the ability to pay dividends, incur additional indebtedness and issue capital stock. We have agreed to maintain certain financial ratios, including interest coverage and total net leverage ratios, all as defined in the Credit Agreement. As of September 30, 2015, we were in compliance with the Credit Agreement covenants.

In general, our Credit Agreement restricts our ability to pay dividends to the amount of our available cash as defined in our Credit Agreement. As of September 30, 2015, and including the \$19.6 million dividend declared in August 2015 and paid on November 2, 2015, we had \$226.1 million in dividend availability under the credit facility covenant.

Under our Credit Agreement, if our total net leverage ratio, as defined in the Credit Agreement, as of the end of any fiscal quarter is greater than 5.10:1.00, we will be required to suspend dividends on our common stock unless otherwise permitted by an exception for dividends that may be paid from the portion of proceeds of any sale of equity not used to fund acquisitions or make other investments. During any dividend suspension period, we will be required to repay debt in an amount equal to 50.0% of any increase in available cash, among other things. In addition, we will not be permitted to pay dividends if an event of default under the Credit Agreement has occurred and is continuing. Among other things, it will be an event of default if our total net leverage ratio and interest coverage ratio as of the end of any fiscal quarter is greater than 5.25:1.00 and less than 2.25:1.00, respectively. As of September 30, 2015, our total net leverage ratio under the Credit Agreement was 4.24:1.00, and our interest coverage ratio was 3.99:1.00.

6.50% Senior Notes due 2022

On June 8, 2015, we completed an offering of \$300.0 million in aggregate principal amount of 6.50% Senior Notes due 2022. The New Notes were priced at 98.26% of par with a yield to maturity of 6.80% and resulted in total gross proceeds of approximately \$294.8 million, excluding accrued interest. The discount and deferred debt issuance costs of \$4.5 million incurred in connection with the issuance of the New Notes are being amortized using the effective interest method over the term of the notes. The net proceeds from the issuance of the New Notes were used, in part, to redeem the remaining \$227.2 million of our original \$300.0 million aggregate principal amount of 10.875% Senior Notes due 2020 and to pay related fees and expenses. In connection with the redemption of the 2020 Notes, we paid \$261.9 million and recognized a loss on extinguishment of debt of \$41.2 million during the nine months ended September 30, 2015.

The New Notes were issued as additional notes under the same indenture pursuant to which the \$200.0 million aggregate principal amount of 6.50% Senior Notes due 2022 were previously issued on September 18, 2014. The Existing Notes were priced at par, which resulted in total gross proceeds of \$200.0 million. The net proceeds from the issuance of the Existing Notes were used to finance the acquisition of Enventis, including related fees and expenses, and to repay the existing indebtedness of Enventis. A portion of the net proceeds, together with cash on hand and borrowings from the revolving credit facility, were also used to repurchase \$72.8 million of the original aggregate principal amount of the 2020 Notes during the fourth quarter of 2014.

The 2022 Notes mature on October 1, 2022 and interest is payable semi-annually on April 1 and October 1 of each year. Consolidated Communications, Inc. ("CCI") is the primary obligor under the 2022 Notes, and we and certain of our

## Table of Contents

wholly-owned subsidiaries have fully and unconditionally guaranteed the 2022 Notes. The 2022 Notes are senior unsecured obligations of the Company.

During the quarter ended September 30, 2015, we completed an exchange offer to register all of the 2022 Notes under the Securities Act. The terms of the registered notes are substantially identical to those of the 2022 Notes prior to the exchange, except that the 2022 Notes are now registered under the Securities Act and the transfer restrictions and registration rights previously applicable to the 2022 Notes do not apply to the registered 2022 Notes. The exchange offer did not impact the aggregate principal amount or the remaining terms of the 2022 Notes outstanding.

## Senior Notes Covenant Compliance

Subject to certain exceptions and qualifications, the indenture governing the 2022 Notes contains customary covenants that, among other things, limits CCI's and its restricted subsidiaries' ability to: incur additional debt or issue certain preferred stock; pay dividends or make other distributions on capital stock or prepay subordinated indebtedness; purchase or redeem any equity interests; make investments; create liens; sell assets; enter into agreements that restrict dividends or other payments by restricted subsidiaries; consolidate, merge or transfer all or substantially all of its assets; engage in transactions with its affiliates; or enter into any sale and leaseback transactions. The indenture also contains customary events of default.

Among other matters, the 2022 Notes indenture provides that CCI may not pay dividends or make other restricted payments, as defined in the indenture, if its total net leverage ratio is 4.75:1.00 or greater. This ratio is calculated differently than the comparable ratio under the Credit Agreement; among other differences, it takes into account, on a pro forma basis, synergies expected to be achieved as a result of certain acquisitions not yet reflected in historical results. As of September 30, 2015, this ratio was 4.33:1.00. If this ratio is met, dividends and other restricted payments may be made from cumulative consolidated cash flow since April 1, 2012, less 1.75 times fixed charges, less dividends and other restricted payments made since May 30, 2012. Dividends may be paid and other restricted payments may also be made from a "basket" of \$50.0 million, none of which has been used to date, and pursuant to other exceptions identified in the indenture. Since dividends of \$233.5 million have been paid since May 30, 2012, including the quarterly dividend declared in August 2015 and paid on November 2, 2015, there was \$325.4 million of the \$558.9 million of cumulative consolidated cash flow since May 30, 2012 available to pay dividends as of September 30, 2015. As of September 30, 2015, the Company was in compliance with all terms, conditions and covenants under the indenture governing the 2022 Notes.

## Capital Leases

We lease certain facilities and equipment under various capital leases which expire between 2015 and 2021. As of September 30, 2015, the present value of the minimum remaining lease commitments was approximately \$4.9 million,

of which \$1.0 million was due and payable within the next twelve months. The leases require total remaining rental payments of \$6.5 million as of September 30, 2015, of which \$4.5 million will be paid to LATEL LLC, a related party entity.

## Dividends

We paid \$58.6 million and \$46.7 million in dividend payments to shareholders during the nine-month periods ended September 30, 2015 and 2014, respectively. In August 2015, our board of directors declared its next quarterly dividend of \$0.38738 per common share, which is payable on November 2, 2015 to stockholders of record at the close of business on October 15, 2015. Our current annual dividend rate is approximately \$1.55 per share.

The cash required to fund dividend payments is in addition to our other expected cash needs, which we expect to fund with cash flows from our operations. In addition, we expect we will have sufficient availability under our revolving credit facility to fund dividend payments in addition to any expected fluctuations in working capital and other cash needs, although we do not intend to borrow under this facility to pay dividends.

We believe that our dividend policy will limit, but not preclude, our ability to grow. If we continue paying dividends at the level currently anticipated under our dividend policy, we may not retain a sufficient amount of cash, and may need to seek refinancing to fund a material expansion of our business, including any significant acquisitions or to pursue growth opportunities requiring capital expenditures significantly beyond our current expectations. In addition, because we expect

Table of Contents

a significant portion of cash available will be distributed to holders of common stock under our dividend policy, our ability to pursue any material expansion of our business will depend more than it otherwise would on our ability to obtain third-party financing.

## Sufficiency of Cash Resources

The following table sets forth selected information regarding our financial condition.

	September 30, 2015	December 31, 2014
(In thousands, except for ratio)		
Cash and cash equivalents	\$ 23,854	\$ 6,679
Working capital (deficit)	78	(21,930)
Current ratio	1.00	0.86

Our net working capital position improved \$22.0 million as of September 30, 2015 as compared to December 31, 2014 primarily as a result of an increase in cash and cash equivalents due in part to a decline in accounts receivable and additional cash distributions from our wireless partnerships in the current year. Income tax receivable also increased primarily due to the loss on the extinguishment of debt recognized in 2015. The improvement in working capital was also due to a slight decline in current liabilities as a result of a decrease in accounts payable and accrued compensation but was offset in part by an increase in accrued interest in 2015.

Our most significant uses of funds in the remainder of 2015 are expected to be for: (i) dividend payments of approximately \$15.6 million; (ii) interest payments on our indebtedness of approximately \$26.0 million and principal payments on debt of \$2.3 million; and (iii) capital expenditures of between \$30.0 million and \$34.0 million. In the future our ability to use cash may be limited by our other expected uses of cash, including our dividend policy, and our ability to incur additional debt will be limited by our existing and future debt agreements.

We believe that cash flows from operating activities, together with our existing cash and borrowings available under our revolving credit facility, will be sufficient for at least the next twelve months to fund our current anticipated uses of cash. After that, our ability to fund these expected uses of cash and to comply with the financial covenants under our debt agreements will depend on the results of future operations, performance and cash flow. Our ability to fund these expected uses from the results of future operations will be subject to prevailing economic conditions and to financial, business, regulatory, legislative and other factors, many of which are beyond our control.

We may be unable to access the cash flows of our subsidiaries since certain of our subsidiaries are parties to credit or other borrowing agreements, or are subject to statutory or regulatory restrictions, that restrict the payment of dividends or making intercompany loans and investments, and those subsidiaries are likely to continue to be subject to such restrictions and prohibitions for the foreseeable future. In addition, future agreements that our subsidiaries may enter into governing the terms of indebtedness may restrict our subsidiaries' ability to pay dividends or advance cash in any other manner to us.

To the extent that our business plans or projections change or prove to be inaccurate, we may require additional financing or require financing sooner than we currently anticipate. Sources of additional financing may include commercial bank borrowings, other strategic debt financing, sales of nonstrategic assets, vendor financing or the private or public sales of equity and debt securities. There can be no assurance that we will be able to generate sufficient cash flows from operations in the future, that anticipated revenue growth will be realized or that future borrowings or equity issuances will be available in amounts sufficient to provide adequate sources of cash to fund our expected uses of cash. Failure to obtain adequate financing, if necessary, could require us to significantly reduce our operations or level of capital expenditures which could have a material adverse effect on our financial condition and the results of operations.

#### Surety Bonds

In the ordinary course of business, we enter into surety, performance and similar bonds as required by certain jurisdictions in which we provide services. As of September 30, 2015, we had approximately \$3.9 million of these bonds outstanding.

## Table of Contents

### Defined Benefit Pension Plans

As required, we contribute to a qualified defined pension plan (the “Retirement Plan”) and non-qualified supplemental retirement plans (collectively the “Pension Plans”) and other post-retirement benefit plans, which provide retirement benefits to certain eligible employees. Contributions are intended to provide for benefits attributed to service to date. Our funding policy is to contribute annually an actuarially determined amount consistent with applicable federal income tax regulations.

The costs to maintain our Pension Plans and future funding requirements are affected by several factors including the expected return on investment of the assets held by the Pension Plan, changes in the discount rate used to calculate pension expense and the amortization of unrecognized gains and losses. Returns generated on Pension Plan assets have historically funded a significant portion of the benefits paid under the Pension Plans. We estimate the long-term rate of return of Pension Plan assets will be 8.0%. The Pension Plans invest in marketable equity securities which are exposed to changes in the financial markets. If the financial markets experience a downturn and returns fall below our estimate, we could be required to make a material contribution to the Pension Plan, which could adversely affect our cash flows from operations.

In 2015, we expect to make contributions totaling approximately \$12.2 million to the Retirement Plan and \$2.5 million to our other post-retirement plans. As of September 30, 2015, we have contributed \$12.1 million and \$1.8 million to our Retirement Plan and our other post-retirement plans, respectively. Our contribution amounts meet the minimum funding requirements as set forth in employee benefit and tax laws. See Note 9 to the Condensed Consolidated Financial Statements, included in this report in Part I – Item I “Financial Information” for a more detailed discussion regarding our pension and other post-retirement plans.

### Income Taxes

The timing of cash payments for income taxes, which is governed by the Internal Revenue Service and other taxing jurisdictions, will differ from the timing of recording tax expense and deferred income taxes, which are reported in accordance with GAAP. For example, tax laws in effect regarding accelerated or “bonus” depreciation for tax reporting resulted in less cash payments than the GAAP tax expense. Acceleration of tax deductions could eventually result in situations where cash payments will exceed GAAP tax expense.

### Regulatory Matters

As discussed in the “Regulatory Matters” section above, an order adopted by the FCC may significantly impact the amount of support revenue we receive from USF/CAF and ICC. The Order reformed the current USF system by redirecting support from voice services to broadband services. The broadband cost model for this reform is expected to be finalized in the third quarter of 2015. The initial phase of ICC reform decreased our network access revenue \$0.3 million and \$0.9 million during the quarter and nine months ended September 30, 2015, respectively, compared to the same periods in 2014. We anticipate network access revenue will continue to decline as a result of the Order through 2018 by as much as \$1.3 million in 2015 and \$1.9 million, \$4.8 million and \$6.8 million in each of 2016, 2017 and 2018, respectively.

In April 2015, the FCC released the CAF Phase II right of first refusal offers of support to price cap carriers to fund deployment of voice and broadband-capable networks. The CAF Phase II provides, if accepted, annual funding up to \$13.9 million through 2020. We accepted the CAF Phase II funding on August 27, 2015. The current funding under CAF Phase I of \$36.6 million will be replaced by the CAF Phase II funding. In the state of Iowa, where CAF Phase II funding is greater than the CAF Phase I funding, the CAF Phase II funding will be received with a retroactive payment back to January 1, 2015. For all other states, funding under CAF Phase II is less than the CAF Phase I funding levels. The acceptance of funding to the lower level will be over a three year period at the rates of: 75% in 2015, 50% in 2016 and 25% in 2017. The funding for CAF Phase II began effective August 1, 2015. For the period from August 2015 through December 2015, the Company expects to receive and recognize approximately \$6.4 million in total CAF Phase II funding, which includes the retroactive payment for Iowa of approximately \$0.6 million.

In accordance with the provisions of SB 583 as discussed in the “Regulatory Matters” section above, effective January 1, 2014, our annual \$1.4 million Texas HCAF support was eliminated and the frozen HCF support returned to funding on a

## Table of Contents

per line basis. In addition, in August 2013, the Company reached a settlement agreement with the PUCT under which the HCF draw will be reduced by approximately \$1.2 million annually over a four year period beginning June 1, 2014 through 2018. However, we have the ability to fully offset this reduction with increases to residential rates where market conditions allow. In April 2015, we filed a local rate increase of \$1.30 per line effective June 1, 2015 to offset the Texas HCAF scheduled reduction.

## Critical Accounting Estimates

Our condensed consolidated financial statements and accompanying notes are prepared in accordance with US GAAP. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses. These estimates and assumptions are affected by management's application of accounting policies. Our judgments are based on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making estimates about the carrying values of assets and liabilities that are not readily apparent from other sources. For a full discussion of our accounting estimates and assumptions that we have identified as critical in the preparation of our condensed consolidated financial statements, refer to our 2014 Annual Report on Form 10-K filed with the SEC.

## Recent Accounting Pronouncements

For information regarding the impact of certain recent accounting pronouncements, see Note 1 "Summary of Significant Accounting Policies" to the Condensed Consolidated Financial Statements, included in this report in Part I - Item I "Financial Information".

## ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our exposure to market risk is primarily related to the impact of interest rate fluctuations on our debt obligations. Market risk is the potential loss arising from adverse changes in market interest rates on our variable rate obligations. In order to manage the volatility relating to changes in interest rates, we utilize derivative financial instruments such as interest rate swaps to maintain a mix of fixed and variable rate debt. We do not use derivatives for trading or speculative purposes. Our interest rate swap agreements effectively convert a portion of our floating-rate debt to a fixed-rate basis, thereby reducing the impact of interest rate changes on future cash interest payments. We calculate the potential change in interest expense caused by changes in market interest rates by determining the effect of the hypothetical rate increase on the portion of our variable rate debt that is not subject to a variable rate floor or hedged through the interest rate swap agreements.

As of September 30, 2015, the majority of our variable rate debt was subject to a 1.00% London Interbank Offered Rate (“LIBOR”) floor thereby reducing the impact of fluctuations in interest rates. As of September 30, 2015, LIBOR was well below the 1.00% floor. Based on our variable rate debt outstanding as of September 30, 2015 that is not subject to a variable rate floor, a 1.00% change in market interest rates would increase or decrease annual interest expense by approximately \$0.3 million.

As of September 30, 2015, the fair value of our interest rate swap agreements amounted to a net liability of \$1.9 million. Pre-tax deferred losses related to our interest rate swap agreements included in accumulated other comprehensive loss was \$1.6 million as of September 30, 2015.

#### ITEM 4. CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (“Exchange Act”) that are designed to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and (ii) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives. In connection with the filing of this Form 10-Q, management evaluated, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, the effectiveness of the design to provide reasonable assurance

Table of Contents

of achieving their objectives and operation of our disclosure controls and procedures as of September 30, 2015. Based upon that evaluation and subject to the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective as of September 30, 2015.

Change in Internal Control Over Financial Reporting

Based upon the evaluation performed by our management, which was conducted with the participation of our Chief Executive Officer and Chief Financial Officer, there has been no change in our internal control over financial reporting during the quarter ended September 30, 2015 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Limitations on the Effectiveness of Controls

We are responsible for establishing and maintaining adequate internal control over financial reporting. Our internal control systems are designed to provide reasonable assurance to the Company's management, Board of Directors and Audit Committee regarding the reliability of financial reporting and the preparation of published financial statements in accordance with generally accepted accounting principles.

Table of Contents

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

In 2014, Sprint Corporation, Level 3 Communications, Inc. and Verizon Communications Inc. filed lawsuits against us and many others in the industry regarding the proper charges to be applied between interexchange and local exchange carriers for certain calls between mobile and wireline devices that are routed through an interexchange carrier. The plaintiffs are refusing to pay these access charges in all states and are seeking refunds of past charges paid. The disputed amounts total \$2.1 million, and cover the periods extending from 2006. CenturyLink, Inc. has filed to bring all related suits to the U.S. District Court's Judicial Panel on multi district litigation. This panel is granted authority to transfer to a single court the pretrial proceedings for civil cases involving common questions of fact. The U.S. District Court in Dallas, Texas is expected to hear the case no later than the fourth quarter of 2015. We have interconnection agreements in place with all wireless carriers and the applicable traffic is being billed at current access rates, therefore we do not expect any potential settlement or judgment to have an adverse material impact on our financial results or cash flows.

On April 14, 2008, Salsgiver Inc., a Pennsylvania-based telecommunications company, and certain of its affiliates ("Salsgiver") filed a lawsuit against us and our subsidiaries North Pittsburgh Telephone Company and North Pittsburgh Systems Inc. in the Court of Common Pleas of Allegheny County, Pennsylvania alleging that we had prevented Salsgiver from connecting their fiber optic cables to our utility poles. Salsgiver sought compensatory and punitive damages as the result of alleged lost projected profits, damage to its business reputation and other costs. Salsgiver originally claimed to have sustained losses of approximately \$125.0 million. We believe that these claims are without merit and that the alleged damages are completely unfounded. We had recorded approximately \$0.4 million in 2011 in anticipation of the settlement of this case. During the quarter ended September 30, 2013, we recorded an additional \$0.9 million, which included estimated legal fees. A jury trial concluded on May 14, 2015 with the jury ruling in our favor. Salsgiver subsequently filed a post-trial motion asking the judge to overturn the jury verdict. That motion was denied. On June 17, 2015, Salsgiver filed an appeal in the Pennsylvania Superior Court. Salsgiver's brief is scheduled to be filed with the Superior Court on December 4, 2015, with the Company's brief due thirty days later. We believe that, despite the appeal, the \$1.3 million currently accrued represents management's best estimate of the potential loss if the verdict is overturned in Salsgiver's favor.

Two of our subsidiaries, Consolidated Communications of Pennsylvania Company LLC ("CCPA") and Consolidated Communications Enterprise Services Inc. ("CCES"), have, at various times, received assessment notices from the Commonwealth of Pennsylvania Department of Revenue ("DOR") increasing the amounts owed for Pennsylvania Gross Receipt Taxes, and/or have had audits performed for the tax years of 2008 through 2013. In addition, a re-audit was performed on CCPA for the 2010 calendar year. For the calendar years for which we received both additional assessment notices and audit actions, those issues have been combined by the DOR into a single Docket for each year.

For the CCES subsidiary, the total additional tax liability calculated by the auditors for the tax years 2008 through 2013 is approximately \$4.1 million. Audits for calendar years 2008 through 2010 have been filed for appeal and have received continuances pending the outcome of the present litigation in the Commonwealth of Pennsylvania (Verizon Pennsylvania, Inc. v. Commonwealth, Docket No. 266 F.R. 2008). The preliminary audit findings for the calendar years 2011 through 2013 were received on September 16, 2014. We are awaiting invoices for each of these years, at which time we will prepare to file an appeal with the DOR.

For the CCPA subsidiary, the total additional tax liability calculated by the auditors for calendar years 2008 through 2013 (using the re-audited 2010 number) is approximately \$5.0 million. Appeals of cases for calendar years 2008, 2009 and the original 2010 audit have been filed and have received continuance pending the outcome of present litigation in the Commonwealth of Pennsylvania (Verizon Pennsylvania, Inc. v. Commonwealth, Docket No. 266 F.R. 2008). The preliminary audit findings for the calendar years 2011 through 2013, as well as the re-audit of 2010, were received on September 16, 2014. We are awaiting invoices for each of these years, at which time we will prepare to file an appeal with the DOR.

We anticipate that the outstanding audits and subsequent appeals will be continued pending the outcome of the Verizon litigation. The Gross Receipts Tax issues in the Verizon Pennsylvania case are substantially the same as those presently facing CCPA and CCES. In addition, there are numerous telecommunications carriers with Gross Receipts Tax matters

Table of Contents

dealing with the same issues that are in various stages of appeal before the Board of Finance and Revenue and the Commonwealth Court. Those appeals by other similarly situated telecommunications carriers have been continued until resolution of the Verizon Pennsylvania case. We believe that these assessments and the positions taken by the Commonwealth of Pennsylvania are without substantial merit. We do not believe that the outcome of these claims will have a material adverse impact on our financial results or cash flows.

We are from time to time involved in various other legal proceedings and regulatory actions arising out of our operations. We do not believe that any of these, individually or in the aggregate, will have a material adverse effect upon our business, operating results or financial condition.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
