CAREER EDUCATION CORPORATION AND SUBSIDIARIES

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. DESCRIPTION OF THE COMPANY

Career Education's academic institutions offer a quality education to a diverse student population in a variety of disciplines through online, campus-based and hybrid learning programs. Our two universities – American InterContinental University (“AIU”) and Colorado Technical University (“CTU”) – provide degree programs through the master's or doctoral level as well as associate and bachelor's levels. Both universities predominantly serve students online with career-focused degree programs that are designed to meet the educational demands of today's busy adults. AIU and CTU continue to show innovation in higher education, advancing new personalized learning technologies like their intelligipath™ adaptive learning platform. Career Education is committed to providing quality education that closes the gap between learners who seek to advance their careers and employers needing a qualified workforce.

Additionally, CEC is in the process of teaching out campuses within our Transitional Group and Culinary Arts segments. Students enrolled at these campuses are afforded the reasonable opportunity to complete their program of study prior to the final teach-out date.

A listing of individual campus locations and web links to Career Education's colleges, institutions and universities can be found at [www.careered.com](http://www.careered.com).

As used in this Quarterly Report on Form 10-Q, the terms “we,” “us,” “our,” “the Company” and “CEC” refer to Career Education Corporation and our wholly-owned subsidiaries. The terms “college,” “institution” and “university” refer to an individual, branded, for-profit educational institution, owned by us and includes its campus locations. The term “campus” refers to an individual main or branch campus operated by one of our colleges, institutions or universities.

2. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, the financial statements do not include all of the information and notes required by GAAP for complete financial statements. In the opinion of management, all adjustments, including normal recurring accruals, considered necessary for a fair presentation have been included. Operating results for the quarter and year to date ended September 30, 2016 are not necessarily indicative of the results that may be expected for the full year ending December 31, 2016.

The unaudited condensed consolidated financial statements presented herein include the accounts of Career Education Corporation and our wholly-owned subsidiaries. All intercompany transactions and balances have been eliminated.

Our reporting segments are determined in accordance with Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 280 – Segment Reporting and are based upon how the Company analyzes performance and makes decisions. We organize our business across four reporting segments: CTU, AIU (comprises University Group); Culinary Arts and Transitional Group (comprises Career Schools Group). Campuses included in our Transitional Group and Culinary Arts segments are currently being taught out and no longer enroll

new students. These campuses employ a gradual teach-out process, enabling them to continue to operate while current students have a reasonable opportunity to complete their course of study. All prior periods have been recast to reflect our segments on a comparable basis.

During the third quarter of 2016, the Company completed the teach-out of five Transitional Group campuses: Sanford-Brown Atlanta, Sanford-Brown Dallas, Sanford-Brown Ft. Lauderdale, Sanford-Brown Iselin and International Academy of Design & Technology Detroit, which continue to be reported within the Transitional Group as of September 30, 2016 in accordance with ASC Topic 360 – Property, Plant and Equipment, which limits discontinued operations reporting.

### 3. RECENT ACCOUNTING PRONOUNCEMENTS

In August 2016, the FASB issued Accounting Standards Update (“ASU”) No. 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments. The amendments in this ASU address eight specific cash flow issues with the objective of reducing the existing diversity in practice in how certain cash receipts and cash payments are presented and classified in the statement of cash flows under Topic 230. The eight topics include debt prepayment or extinguishments costs, settlement of zero-coupon debt instruments, contingent consideration payments made after a business combination, proceeds from settlement of insurance claims, proceeds from settlement of corporate-owned life insurance policies, distributions received from equity method investees, beneficial interests in securitization transactions and separately identifiable cash flows and application of the predominance principle. For all public business entities, ASU 2016-15 is effective for annual periods and interim periods beginning after December 15, 2017; early adoption is permitted for all organizations for annual periods and interim periods. We are currently evaluating this guidance and believe the adoption will not significantly impact the presentation of our financial condition, results of operations and disclosures.

In June 2016, the FASB issued ASU No. 2016-13, Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments. The amendments in this ASU require a financial asset measured at amortized cost basis to be presented at the net amount expected to be collected and credit losses relating to available-for-sale debt securities to be recorded through an allowance for credit losses. For all public business entities, ASU 2016-13 is effective for annual periods and interim periods beginning after December 15, 2019; early adoption is permitted for all organizations for annual periods and interim periods beginning after December 15, 2018. We are currently evaluating this guidance and believe the adoption will not significantly impact the presentation of our financial condition, results of operations and disclosures.

In March 2016, the FASB issued ASU No. 2016-09, Compensation – Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting. This ASU simplified several aspects of accounting for share-based payment award transactions including income tax consequences, classification of excess tax benefits on the statement of cash flows, classification of employee taxes paid on the statement of cash flows when the employer withholds shares, forfeiture policy election and payroll minimum statutory tax withholding. For all public business entities, ASU 2016-09 is effective for annual periods and interim periods beginning after December 15, 2016. We are currently evaluating this guidance and believe the adoption will materially impact our results of operations, particularly related to the provision for (benefit from) income taxes, as well as the presentation of our financial condition and disclosures.

In March 2016, the FASB issued ASU No. 2016-07, Investments – Equity Method and Joint Ventures (Topic 323): Simplifying the Transition to the Equity Method of Accounting. The amendments in this ASU eliminate the requirement that when an investment qualifies for use of the equity method as a result of an increase in the level of ownership interest or degree of influence, an investor must adjust the investments, results of operations, and retained earnings retroactively on a step-by-step basis as if the equity method was in effect during all previous periods. The amendments require an equity method investor to add the cost of acquisition and requires available-for-sale equity securities that qualify for the equity method of accounting to recognize earnings as unrealized holding gain or loss in accumulated other comprehensive income. For all entities, ASU 2016-07 is effective for annual periods and interim periods beginning after December 15, 2016. We are currently evaluating this guidance and do not believe the adoption will significantly impact the presentation of our financial condition, results of operations and disclosures.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842). The objective of Topic 842 is to establish the principles that lessees and lessors shall apply to report useful information to users of financial statements about the amount, timing, and uncertainty of cash flows arising from a lease. The core principle of Topic 842 is that lessees should recognize the assets and liabilities that arise from leases. All leases create an asset and liability for the lessee in accordance with FASB Concept Statements No. 6 Elements of Financial Statements, and, therefore, recognition of those lease assets and liabilities represents an improvement over previous GAAP. The accounting applied for lessors largely remained unchanged. The amendment in this ASU requires recognition of a lease liability and a right to use asset at the commencement date. For all public business entities, ASU 2016-02 is effective for annual periods and interim periods beginning after December 15, 2018; early adoption is permitted. We are currently evaluating this guidance and believe the adoption will significantly impact the presentation of our financial condition, results of operations and disclosures.

In July 2015, the FASB issued ASU No. 2015-11, Inventory (Topic 330): Simplifying the Measurement of Inventory. The amendments in this ASU require an entity to measure in-scope inventory at the lower of cost and net realizable value, further clarifying consideration for net realizable value as estimated selling prices in the ordinary course of business less reasonably predictable costs of completion, disposal and transportation. This ASU more closely aligns the measurement of inventory in GAAP with the measurement of inventory in International Financial Reporting Standards (“IFRS”). For public business entities, ASU 2015-11 is effective for annual periods and interim periods beginning after December 15, 2016. The amendment in this ASU is prospectively applied with earlier adoption permitted. We are currently evaluating this guidance and do not believe the adoption will significantly impact the presentation of our financial condition, results of operations and disclosures.

In August 2014, the FASB issued ASU No. 2014-15, Presentation of Financial Statements – Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity’s Ability to Continue as a Going Concern. This ASU provides guidance to an organization’s management, intended to define management’s responsibility to evaluate whether there is a substantial doubt about an organization’s ability to continue as a going concern and to provide guidance regarding related footnote disclosure. In connection with preparing financial statements for each annual and interim reporting period, an entity’s management should evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the entity’s ability to continue as a going concern within one year after the date that the financial statements are issued. Management’s evaluation should be based on relevant conditions and events that are known and reasonably knowable at the date that the financial statements are issued. For all entities, ASU 2014-15 is effective for annual periods and interim periods beginning after December 15, 2016; early adoption is permitted. We are currently evaluating this guidance and do not believe the adoption will significantly impact the presentation of our financial condition, results of operations and disclosures.

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606). ASU 2014-09 is principles based guidance that can be applied to all contracts with customers, enhancing comparability of revenue recognition practices across entities, industries, jurisdictions and capital markets. The core principle of the guidance is that entities should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to

which the entity expects to be entitled in exchange for those goods and services. The guidance details the steps entities should apply to achieve the core principle. Subsequently, FASB issued four additional Updates to the guidance as follows: In August 2015, the FASB issued ASU 2015-14 approving a one-year deferral of the effective date for its new revenue standard for public and nonpublic entities reporting under US GAAP. In March 2016, the FASB issued ASU 2016-08, providing clarity to improve operability and understandability of the implementation guidance on principal versus agent considerations. In April 2016, the FASB issued ASU 2016-10, to add further guidance on identifying performance obligations and the licensing implementation while retaining the related core principles for those areas. In May 2016, the FASB issued ASU 2016-12, amendments to provide clarity on the objective of the collectability criterion, permit an entity to exclude amounts collected from customers for all sales taxes from the transaction price, specify a measurement date for non-cash consideration, provide a practical expedient permitting an entity to reflect the aggregate effect of all modifications, clarify a completed contract during transition and clarify disclosure requirements for retrospectively applied guidance in Topic 606. The standard will be effective for public business entities for annual reporting periods beginning after December 15, 2017 and interim periods therein. Nonpublic entities would be required to adopt the new standard for annual reporting periods beginning after December 15, 2018, and interim periods within annual reporting periods beginning after December 15, 2019. Additionally, the FASB approved the option to early adopt prior to the original effective date (fiscal years beginning after December 15, 2016). We are currently evaluating the impact that the adoption of ASU 2014-09 will have on the presentation of our financial condition, results of operations and disclosures.

#### 4. DISCONTINUED OPERATIONS

As of September 30, 2016, the results of operations for campuses that have ceased operations prior to 2015 are presented within discontinued operations. Prior to January 1, 2015, our Transitional Group campuses met the criteria for discontinued operations upon completion of their teach-out. Commencing January 1, 2015, in accordance with new guidance under ASC Topic 360, only campuses that meet the criteria of a strategic shift upon disposal will be classified within discontinued operations, among other criteria. Since the January 2015 effective date of the updated guidance within ASC Topic 360, we have not had any campuses that met the criteria to be considered a discontinued operation.
