HILTON WORLDWIDE HOLDINGS INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

Note 1: Organization and Basis of Presentation

Organization

Hilton Worldwide Holdings Inc. (the "Parent," or together with its subsidiaries, "Hilton," "we," "us," "our" or the "Company"), a Delaware corporation, is one of the largest hospitality companies in the world and is engaged in managing, franchising, owning and leasing hotels and resorts, including timeshare properties. As of September 30, 2017, we managed, franchised, owned or leased 5,168 hotels and resorts, totaling 837,692 rooms in 103 countries and territories.

In March 2017, HNA Tourism Group Co., Ltd. and certain of its affiliates (together, "HNA") acquired 82.5 million shares of Hilton common stock from affiliates of The Blackstone Group L.P. ("Blackstone"). As of September 30, 2017, HNA and Blackstone beneficially owned approximately 25.7 percent and 10.2 percent of our common stock, respectively. See Note 16: Subsequent Events for the reduction of Blackstone's beneficial ownership in Hilton following their offering of Hilton common stock in October 2017.

Spin-offs

On January 3, 2017, we completed the spin-offs of a portfolio of hotels and resorts, as well as our timeshare business, into two independent, publicly traded companies: Park Hotels & Resorts Inc. ("Park") and Hilton Grand Vacations Inc. ("HGV"), respectively, (the "spin-offs"). See Note 3: "Discontinued Operations" for additional information.

Reverse Stock Split

On January 3, 2017, we completed a 1-for-3 reverse stock split of Hilton's outstanding common stock (the "Reverse Stock Split"). All share and share-related information presented for periods prior to January 3, 2017 have been retrospectively adjusted to reflect the decreased number of shares resulting from the Reverse Stock Split. The retrospective adjustments resulted in the reclassification of \$7 million from common stock to additional paid-in capital in the condensed consolidated balance sheets for all periods presented prior to the date of the Reverse Stock Split.

Basis of Presentation

The accompanying condensed consolidated financial statements for the three and nine months ended September 30, 2017 and 2016 have been prepared in accordance with United States of America ("U.S.") generally accepted accounting principles ("GAAP") and are unaudited. We have condensed or omitted certain information and footnote disclosures normally included in financial statements presented in accordance with GAAP. Although we believe the disclosures made are adequate to prevent the information presented from being misleading, these financial statements should be read in conjunction with the consolidated financial statements and notes thereto incorporated by reference in Item 8.01 of our Current Report on Form 8-K dated July 26, 2017.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported and, accordingly, ultimate results could differ from those estimates. Additionally, interim results are not necessarily indicative of full year performance.

These condensed consolidated financial statements present the condensed consolidated financial position of Hilton as of September 30, 2017 and December 31, 2016 and the results of operations of Hilton for the three and nine months ended September 30, 2017 and 2016 giving effect to the spin-offs, with the historical financial results of Park and HGV reflected as discontinued operations. Unless otherwise indicated, the information in the notes to the condensed consolidated financial statements refer only to Hilton's continuing operations and do not include discussion of balances or activity of Park or HGV.

Principles of Consolidation

In our opinion, the accompanying condensed consolidated financial statements reflect all adjustments, including normal recurring items, considered necessary for a fair presentation of the interim periods. All material intercompany transactions have been eliminated in consolidation.

Reclassifications

Certain amounts in previously issued financial statements have been reclassified to conform to the presentation following the spin-offs, which includes the reclassification of the financial position and results of operations of Park and HGV as discontinued operations as of December 31, 2016 and for the three and nine months ended September 30, 2016. Additionally, certain line items in the condensed consolidated statements of operations have been revised to reflect the operating structure of Hilton subsequent to the spin-offs. The primary change to the condensed consolidated statements of operations is the disaggregation of management and franchise fee revenues.

Note 2: Recently Issued Accounting Pronouncements

Adopted Accounting Standards

In January 2017, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2017-04 ("ASU 2017-04"), Intangibles - Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment. This ASU simplifies the subsequent measurement of goodwill by removing Step 2 from the goodwill impairment test. We elected, as permitted by the standard, to early adopt ASU 2017-04 on a prospective basis as of January 1, 2017. The adoption did not have a material effect on our condensed consolidated financial statements.

In March 2016, the FASB issued ASU No. 2016-09 ("ASU 2016-09"), Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting. This ASU is intended to simplify several aspects of the accounting for share-based payment transactions, including the accounting for income taxes, forfeitures and statutory withholding requirements, as well as to clarify the classification in the statement of cash flows. We adopted ASU 2016-09 as of January 1, 2017. One of the provisions of this ASU requires entities to make an accounting policy election with respect to forfeitures of share-based payment awards, and we elected to account for forfeitures as they occur and adopted this provision of ASU 2016-09 using a modified retrospective approach by recording a cumulative-effect adjustment to equity as of January 1, 2017 of approximately \$1 million. Additionally, we have applied the provisions of this ASU on a retrospective basis in our condensed consolidated statements of cash flows, which includes presenting: (i) excess tax benefits as an operating activity, which were previously presented as a financing activity; and (ii) cash payments to tax authorities for employee taxes when shares are withheld to meet statutory withholding requirements as a financing activity, which were previously presented as an operating activity.

Accounting Standards Not Yet Adopted

In February 2016, the FASB issued ASU No. 2016-02 ("ASU 2016-02"), Leases (Topic 842), which supersedes existing guidance on accounting for leases in Leases (Topic 840) and generally requires all leases, including operating leases, to be recognized in the statement of financial position as right-of-use assets and lease liabilities by lessees. The provisions of ASU 2016-02 are to be applied using a modified retrospective approach and are effective for reporting periods beginning after December 15, 2018; early adoption is permitted. We are currently evaluating the effect that this ASU will have on our consolidated financial statements, but we expect this ASU to have a material effect on our consolidated balance sheet.

In May 2014, the FASB issued ASU No. 2014-09 ("ASU 2014-09"), Revenue from Contracts with Customers (Topic 606). This ASU supersedes the revenue recognition requirements in Revenue Recognition (Topic 605) and requires entities to recognize revenue when a customer obtains control of promised goods or services and is recognized in an amount that reflects the consideration the entity expects to receive in exchange for those goods or services. Subsequent to ASU 2014-09, the FASB issued several related ASUs to clarify the application of the new revenue recognition standard. The provisions of ASU 2014-09 and the related ASUs are effective for reporting periods beginning after December 15, 2017; early adoption is permitted. ASU 2014-09 permits two transition approaches:

retrospective or modified retrospective. We currently expect to implement this ASU using the retrospective approach.

We anticipate that ASU 2014-09 and the related ASUs will have a material effect on our consolidated financial statements. However, revenue recognition related to our accounting for ongoing royalty and management fee revenues, direct reimbursable fees from our management and franchise agreements and hotel guest transactions at our owned and leased hotels will remain substantially unchanged.

While we are continuing to assess all other potential effects of the standard, we currently believe the provisions of ASU 2014-09 and the related ASUs will affect revenue recognition as follows: (i) application and initiation fees for new hotels entering the system will be recognized over the term of the franchise agreement, rather than upon execution of the agreement; (ii) certain contract acquisition costs related to our management and franchise agreements will be recognized over the term of

the agreements as a reduction to revenue, instead of as amortization expense; (iii) incentive management fees will be recognized to the extent that it is probable that a significant reversal will not occur as a result of future hotel profits or cash flows, as opposed to recognizing amounts that would be due if the management agreement was terminated at the end of the reporting period; (iv) revenue related to our guest loyalty program will be deferred as points are awarded and recognized upon point redemption, net of any reward reimbursement paid to a third party, as opposed to recognized on a gross basis at the time points are issued in conjunction with the accrual of the expected future cost of the reward reimbursement; and (v) indirect reimbursable fees related to our management and franchise agreements will be recognized as they are earned. We do not expect the changes in revenue recognition for contract acquisition costs to affect the Company's net income, nor do we expect incentive management fees to affect the Company's net income for any full year period. We continue to update our assessment of the effect that ASU 2014-09 and the related ASUs will have on our consolidated financial statements, and we will disclose further material effects, if any, in our Annual Report on Form 10-K for the fiscal year ended December 31, 2017.

Note 3: Discontinued Operations

On January 3, 2017, we completed the spin-offs of Park and HGV via a pro rata distribution to each of Hilton's stockholders of record, as of close of business on December 15, 2016, of 100 percent of the outstanding common stock of each of Park and HGV (the "Distribution"). Each Hilton stockholder of record received one share of Park common stock for every five shares of Hilton common stock and one share of HGV common stock for every ten shares of Hilton common stock. Following the spin-offs, Hilton did not retain any ownership interest in Park or HGV. Both Park and HGV have their common stock listed on the New York Stock Exchange under the symbols "PK" and "HGV," respectively.

In connection with the spin-offs, on January 2, 2017, Hilton entered into several agreements with Park and HGV that govern Hilton's relationship with them following the Distribution including: (i) a Distribution Agreement; (ii) an Employee Matters Agreement; (iii) a Tax Matters Agreement; (iv) a Transition Services Agreement ("TSA"); (v) a License Agreement with HGV; (vi) a Tax Stockholders Agreement; and (vii) management and franchise agreements with Park.

Under the TSA with Park and HGV, Hilton or one of its affiliates provides Park and HGV certain services for a period of two years from the date of the TSA to facilitate an orderly transition following the Distribution. The services that Hilton agreed to provide under the TSA include: finance; information technology; human resources and compensation; facilities; legal and compliance; and other services. The entity providing the services is compensated for any such services at agreed amounts as set forth in the TSA.

The License Agreement with HGV granted HGV the exclusive right, for an initial term of 100 years, to use certain Hilton marks and intellectual property in its timeshare business, subject to the terms and conditions of the agreement. HGV pays a royalty fee of five percent of gross revenues, as defined in the agreement, to Hilton quarterly in arrears, as well as specified additional fees and reimbursements. Additionally, during the term of the License Agreement, HGV will participate in Hilton's guest loyalty program, Hilton Honors.

Under the management and franchise agreements with Park, Park pays agreed upon fees for various services that Hilton provides to support the operations of their hotels, as well as royalty fees for the licensing of Hilton's hotel brands. The terms of the management agreements generally include a base management fee, calculated as three percent of gross hotel revenues or receipts, and an incentive management fee, calculated as six percent of a specified measure of hotel earnings as determined in accordance with the applicable management agreement. Additionally, payroll and related costs, certain other operating costs, marketing expenses and other expenses associated with Hilton's brands and shared services are directly reimbursed to Hilton by Park pursuant to the terms of the management and franchise agreements.

Financial Information

During the three and nine months ended September 30, 2017, we recognized \$37 million and \$119 million, respectively, of management and franchise fees for properties that were transferred to Park upon completion of the spin-offs and \$22 million and \$65 million, respectively, of license fees from HGV.

Prior to the spin-offs, the results of Park were reported in our ownership segment and the results of HGV were reported in our timeshare segment. Following the spin-offs, we no longer report a timeshare segment, as we no longer have timeshare operations.

Note 4: Consolidated Variable Interest Entities

As of September 30, 2017 and December 31, 2016, we consolidated three variable interest entities ("VIEs"): two entities that leased hotel properties and one management company. We are the primary beneficiaries of these consolidated VIEs as we have the power to direct the activities that most significantly affect their economic performance. Additionally, we have the obligation to absorb their losses and the right to receive benefits that could be significant to them. The assets of our VIEs are only available to settle the obligations of the respective entities. Our condensed consolidated balance sheets included the assets and liabilities of these entities, which primarily comprised the following:

	September 30, 2017	December 31, 2016
	(in millions)	
Cash and cash equivalents	\$ 71	\$ 57
Accounts receivable, net	13	14

⁽¹⁾ Includes capital lease obligations of \$197 million and \$191 million as of September 30, 2017 and December 31, 2016, respectively.

During the nine months ended September 30, 2017 and 2016, we did not provide any financial or other support to any VIEs that we were not previously contractually required to provide, nor do we intend to provide such support in the future.

Note 5: Goodwill and Intangible Assets

Goodwill

Our goodwill balances, by reporting unit, were as follows:

	Ownership ⁽¹⁾	Management Franchise ⁽²⁾	Total

Senior Notes

In March 2017, we issued \$900 million aggregate principal amount of 4.625% Senior Notes due 2025 (the "2025 Senior Notes") and \$600 million aggregate principal amount of 4.875% Senior Notes due 2027 (the "2027 Senior Notes"), and incurred \$21 million of debt issuance costs. Interest on the 2025 Senior Notes and the 2027 Senior Notes is payable semi-annually in arrears on April 1 and October 1 of each year, beginning in October 2017. We used the net proceeds of the 2025 Senior Notes and the 2027 Senior Notes, along with available cash, to redeem in full our \$1.5 billion 5.625% Senior Notes due 2021 (the "2021 Senior Notes"), plus accrued and unpaid interest. In connection with the repayment, we paid a redemption premium of \$42 million and accelerated the recognition of \$18 million of unamortized debt issuance costs, which were included in loss on debt extinguishment in our condensed consolidated statement of operations for the nine months ended September 30, 2017.

The 4.25% Senior Notes due 2024 (the "2024 Senior Notes"), the 2025 Senior Notes and the 2027 Senior Notes are guaranteed on a senior unsecured basis by Hilton and certain of its wholly owned subsidiaries. See Note 15: "Condensed Consolidating Guarantor Financial Information" for additional details.

Senior Secured Credit Facility

Our senior secured credit facility consists of a \$1.0 billion senior secured revolving credit facility (the "Revolving Credit Facility") and a senior secured term loan facility (the "Term Loans"). In March 2017, we amended the Term Loans pursuant to which \$750 million of outstanding Term Loans due in 2020 were extended, aligning their maturity with the \$3,209 million tranche of Term Loans due 2023. Additionally, concurrent with the extension, the entire balance of the Term Loans was

repriced with an interest rate of LIBOR plus 200 basis points. In connection with the refinancing and modification of the Term Loans, we incurred \$3 million of debt issuance costs, which were included in other non-operating income, net, in our condensed consolidated statement of operations for the nine months ended September 30, 2017. As of September 30, 2017, we had \$18 million of letters of credit outstanding under our Revolving Credit Facility and a borrowing capacity of \$982 million.

Debt Maturities

The contractual maturities of our long-term debt as of September 30, 2017 were as follows:

Year	(in millions)
2017 (remaining)	\$ 12
2018	59
2019	55
2020	56
2021	57
Thereafter	6,458
	\$ 6,697

Note 7: Derivative Instruments and Hedging Activities

During the nine months ended September 30, 2017 and 2016, derivatives were used to hedge the interest rate risk associated with variable-rate debt, as well as foreign exchange risk associated with certain foreign currency denominated cash balances. During the nine months ended September 30, 2017, derivatives were also used to hedge the foreign exchange risk associated with management and franchise fees.

Cash Flow Hedges

In May 2017, we began hedging foreign exchange-based cash flow variability in certain of our foreign currency denominated management and franchise fees using forward contracts (the "Fee Forward Contracts"). We elected to designate these Fee Forward Contracts as cash flow hedges for accounting purposes, and we record the change in fair value of the effective portions of these contracts in other comprehensive income (loss) until an individual contract matures. The effective portion of the hedges are reclassified from accumulated other comprehensive loss to earnings in our condensed consolidated statement of operations in the same period that the fee revenue is earned. As of September 30, 2017, the Fee Forward Contracts had an aggregate notional amount of \$22 million and maturities of 24 months or less.

In March 2017, we entered into two interest rate swap agreements with notional amounts of \$1.6 billion and \$750 million, which swap one-month LIBOR on the Term Loans to fixed rates of 1.98 percent and 2.02 percent, respectively, and expire in March 2022. We elected to designate these interest rate swaps as cash flow hedges for accounting purposes.

Non-designated Hedges

As of September 30, 2017, we held short-term forward contracts with an aggregate notional amount of \$284 million to offset exposure to fluctuations in certain of our foreign currency denominated cash balances. We elected not to designate these forward contracts as hedging instruments.

In August and September 2016, we dedesignated four interest rate swaps (the "2013 Interest Rate Swaps") that were previously designated as cash flow hedges as they no longer met the criteria for hedge accounting. These interest rate swaps, which had an aggregate notional amount of \$1.45 billion and swapped three-month LIBOR on the Term Loans to a fixed rate of 1.87 percent, were settled in March 2017.

Fair Value of Derivative Instruments

We measure our derivative instruments at fair value, which is estimated using a discounted cash flow analysis, and we consider the inputs used to measure the fair value as Level 2 within the fair value hierarchy. The discounted cash flow analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs of similar instruments, including interest rate curves and spot and forward rates, as applicable, as well as option volatility. The fair values of our derivative instruments in our condensed consolidated balance sheets were as follows:

Balance Sheet Classification		September	
		30, 2017	December 31, 2016
(in millions)			
Cash Flow Hedges ⁽¹⁾ :			
Interest rate swaps	Other liabilities	\$ 13	N/A
Non-designated Hedges:

Forward contracts	Accounts payable, accrued expenses and other	1	4

⁽¹⁾ The fair value of the Fee Forward Contracts as of September 30, 2017 was less than \$1 million.

Earnings Effect of Derivative Instruments

The gains and losses recognized in our condensed consolidated statements of operations and condensed consolidated statements of comprehensive income before any effect for income taxes were as follows:

Classification of Gain (Loss) Recognized		Three Months Ended September 30, 2017		Nine Months Ended September 30, 2016	
		2017	2016	2017	2016

Interest rate swaps ⁽³⁾	Interest expense	(3)	(1)	(8)	(1)
Forward contracts	Gain (loss) on foreign currency transactions	3	4	10	7

⁽¹⁾ There were no amounts recognized in earnings related to hedge ineffectiveness or amounts excluded from hedge effectiveness testing during the three and nine months ended September 30, 2017 and 2016.

⁽²⁾ The earnings effect of the Fee Forward Contracts on fee revenues for the three and nine months ended September 30, 2017 was less than \$1 million.

⁽³⁾ These amounts are related to the dedesignation of the 2013 Interest Rate Swaps as cash flow hedges and were reclassified from accumulated other comprehensive loss as the underlying transactions occurred.

Note 8: Fair Value Measurements

We did not elect the fair value measurement option for any of our financial assets or liabilities. The fair values of certain financial instruments and the hierarchy level we used to estimate the fair values are shown below, see Note 7: "Derivative Instruments and Hedging Activities" for the fair value information of our derivatives:

	September 30, 2017		
	Hierarchy Level		
	Carrying Value	Level 1	Level 2

Restricted cash equivalents	11	—	—
Liabilities:			
Long-term debt ⁽¹⁾	6,369	2,546	4,006

⁽¹⁾ The carrying values include unamortized deferred financing costs and discount. The carrying values and fair values exclude capital lease obligations and other debt.

The fair values of financial instruments not included in these tables are estimated to be equal to their carrying values as of September 30, 2017 and December 31, 2016. Our estimates of the fair values were determined using available market information and appropriate valuation methods. Considerable judgment is necessary to interpret market data and develop the estimated fair values.

Cash equivalents and restricted cash equivalents primarily consisted of short-term interest-bearing money market funds with maturities of less than 90 days and time deposits. The estimated fair values were based on available market pricing information of similar financial instruments.

The estimated fair values of our Level 1 long-term debt were based on prices in active debt markets. The estimated fair values of our Level 3 long-term debt were based on indicative quotes received for similar issuances.

Note 9: Income Taxes

At the end of each quarter, we estimate the effective income tax rate expected to be applied for the full year. The effective income tax rate is determined by the level and composition of pre-tax income or loss, which is subject to federal, foreign, state and local income taxes.

Our total unrecognized tax benefits as of September 30, 2017 were \$165 million. We accrued approximately \$33 million for the payment of interest and penalties as of September 30, 2017. Included in the balance of unrecognized tax benefits as of September 30, 2017 was \$161 million associated with positions that, if favorably resolved, would provide a benefit to our effective income tax rate.

In April 2014, we received 30-day Letters from the Internal Revenue Service ("IRS") and the Revenue Agents Report ("RAR") for the 2006 and October 2007 tax years. We disagreed with several of the proposed adjustments in the RAR, filed a formal appeals protest with the IRS and did not make any tax payments related to this audit. The issues being protested in appeals relate to assertions by the IRS that: (i) certain foreign currency denominated intercompany loans from our foreign subsidiaries to certain U.S. subsidiaries should be recharacterized as equity for U.S. federal income tax purposes and constitute

deemed dividends from such foreign subsidiaries to our U.S. subsidiaries; (ii) in calculating the amount of U.S. taxable income resulting from our Hilton Honors guest loyalty program, we should not reduce gross income by the estimated costs of future redemptions, but rather such costs would be deductible at the time the points are redeemed; and (iii) certain foreign currency denominated loans issued by one of our Luxembourg subsidiaries whose functional currency is the U.S. dollar ("USD"), should instead be treated as issued by one of our Belgian subsidiaries whose functional currency is the euro, and thus foreign currency gains and losses with respect to such loans should have been measured in euros, instead of USD. Additionally, in January 2016, we received a 30-day Letter from the IRS and the RAR for the December 2007 through 2010 tax years. The RAR includes the proposed adjustments for tax years December 2007 through 2010, which reflect the carryover effect of the three protested issues from 2006 through October 2007. These proposed adjustments will also be protested in appeals and formal appeals protests have been submitted. In total, the proposed adjustments sought by the IRS would result in additional U.S. federal tax owed of approximately \$874 million, excluding interest and penalties and potential state income taxes. The portion of this amount related to Hilton Honors would result in a decrease to our future tax liability when the points are redeemed. We disagree with the IRS's position on each of these assertions and intend to vigorously contest them. However, based on continuing appeals process discussions with the IRS, we believe that it is more likely than not that we will not recognize the full benefit related to certain of the issues being appealed. Accordingly, we have recorded \$48 million of unrecognized tax benefits related to these issues.

We file income tax returns, including returns for our subsidiaries, with federal, state, local and foreign tax jurisdictions. We are under regular and recurring audit by the IRS and other taxing authorities on open tax positions. The timing of the resolution of tax audits is highly uncertain, as are the amounts, if any, that may ultimately be paid upon such resolution. Changes may result from the conclusion of ongoing audits, appeals or litigation in federal, state, local and foreign tax jurisdictions or from the resolution of various proceedings between the U.S. and foreign tax authorities. We are no longer subject to U.S. federal income tax examination for years through 2004. As of September 30, 2017, we remain subject to federal examinations from 2005 through 2015, state examinations from 2005 through 2016 and foreign examinations of our income tax returns for the years 1996 through 2016.

State income tax returns are generally subject to examination for a period of three to five years after filing the respective return; however, the state effect of any federal tax return changes remains subject to examination by various states for a period generally of up to one year after formal notification to the states. The statute of limitations for the foreign jurisdictions generally ranges from three to ten years after filing the respective tax return.

Note 10: Share-Based Compensation

During the nine months ended September 30, 2017, we issued time-vesting restricted stock units and restricted stock (collectively, "RSUs"), nonqualified stock options ("options") and performance-vesting restricted stock units and restricted stock (collectively, "performance shares") to our employees and deferred share units ("DSUs") to members of our board of directors under our 2013 and 2017 Omnibus Incentive Plans. We recognized share-based compensation expense of \$32 million and \$23 million during the three months ended September 30, 2017 and 2016, respectively, and \$91 million and \$62 million during the nine months ended September 30, 2017 and 2016, respectively, which included amounts reimbursed by hotel owners. As of September 30, 2017, unrecognized compensation costs for unvested awards was approximately \$135 million, which are expected to be recognized over a weighted-average period of 1.9 years on a straight-line basis. As of September 30, 2017, there were 17,970,113 shares of common stock available for future issuance under our 2017 Omnibus Incentive Plan, plus any shares subject to awards outstanding under our 2013 Omnibus Incentive Plan, which will become available for issuance under our 2017 Omnibus Incentive Plan as a result of such outstanding awards expiring or terminating or being canceled or forfeited.

All share and share-related information presented for periods prior to January 3, 2017 have been adjusted to reflect the Reverse Stock Split. See Note 1: "Organization and Basis of Presentation" for additional information.

Effect of the Spin-offs on Equity Awards

In connection with the spin-offs, the outstanding share-based compensation awards held by employees transferring to Park and HGV were converted to equity awards in Park and HGV common stock, respectively.

Share-based compensation awards of employees remaining at Hilton were adjusted using a conversion factor in accordance with the anti-dilution provisions of the 2013 Omnibus Incentive Plan with the intent to preserve the intrinsic value of the original awards (the "Conversion Factor"). The adjustments were determined by comparing the fair value of such awards immediately prior to the spin-offs to the fair value of such awards immediately after the spin-offs. The comparison resulted in

17

no incremental compensation expense. Equity awards that were adjusted generally remain subject to the same vesting, expiration and other terms and conditions as applied to the awards immediately prior to the spin-offs.

RSUs

The following table summarizes the activity of our RSUs during the nine months ended September 30, 2017:

	Number of Shares	Weighted Average Grant Date Fair Value per Share
Outstanding as of December 31, 2016	1,624,541	\$ 65.24

⁽¹⁾ Represents all performance shares outstanding as of December 31, 2016.

⁽²⁾ The weighted average grant date fair value was adjusted to reflect the Conversion Factor.

The RSUs granted during the nine months ended September 30, 2017 generally vest in equal annual installments over two or three years from the date of grant.

Options

The following table summarizes the activity of our options during the nine months ended September 30, 2017:

	Number of Options	Weighted Average Exercise Price per Share
Outstanding as of December 31, 2016	1,076,031	\$ 66.83

Exercisable as of September 30, 2017 ⁽¹⁾	759,350	48.32

⁽¹⁾ The weighted average exercise price was adjusted to reflect the Conversion Factor.

The options granted during the nine months ended September 30, 2017 vest over three years from the date of grant and terminate 10 years from the date of grant or earlier if the individual's service terminates under certain circumstances.

The weighted average grant date fair value of the options granted during the nine months ended September 30, 2017 was \$13.96, which was determined using the Black-Scholes-Merton option-pricing model with the following assumptions:

Expected volatility ⁽¹⁾	24.00	%
Dividend yield ⁽²⁾	0.92 - 1.03%	
Risk-free rate ⁽³⁾	1.93 - 2.03%	
Expected term (in years) ⁽⁴⁾	6.0	

(1) Estimated using historical movement of Hilton's stock price and, due to limited trading history, historical volatility of our peer group over a time period consistent with our expected term assumption.

(2) Estimated based on the expected annualized dividend payment at the date of grant.

(3) Based on the yields of U.S. Department of Treasury instruments with similar expected lives.

(4) Estimated using the average of the vesting periods and the contractual term of the options.

Performance Shares

As of December 31, 2016, we had outstanding performance awards based on a measure of the Company's total shareholder return relative to the total shareholder returns of members of a peer company group ("relative shareholder return") and based on the Company's earnings before interest expense, income taxes and depreciation and amortization ("EBITDA") compound annual growth rate ("CAGR"). Upon completion of the spin-offs, we converted all 671,604 outstanding performance shares to RSUs based on a 100 percent achievement percentage with the same vesting periods as the original awards.

During the nine months ended September 30, 2017, we issued performance shares with 50 percent of the shares subject to achievement based on the Company's EBITDA CAGR and the other 50 percent of the shares subject to achievement based on the Company's free cash flow ("FCF") per share CAGR ("FCF CAGR"). The performance shares are settled at the end of the three-year performance period. We determined that the performance condition for these awards is probable of achievement and, as of September 30, 2017, we recognized compensation expense based on the anticipated achievement percentage of 200 percent and 100 percent for the performance awards based on EBITDA CAGR and FCF CAGR, respectively. As of September 30, 2017, there were no outstanding performance shares based on relative shareholder return.

The following table summarizes the activity of our performance shares during the nine months ended September 30, 2017:

	EBITDA CAGR		FCF CAGR	
	Number of Shares	Weighted Average Grant Date Fair Value per Share	Number of Shares	Weighted Average Grant Date Fair Value per Share

Outstanding as of September 30, 2017	176,091	58.41	176,061	58.41

DSUs

During the nine months ended September 30, 2017, we issued to our independent directors 15,288 DSUs with a weighted average grant date fair value of \$65.39, which are fully vested and non-forfeitable on the grant date. DSUs are settled for shares of our common stock and deliverable upon the earlier of termination of the individual's service on our board of directors or a change in control.

(1) Other comprehensive loss for the nine months ended September 30, 2017 and 2016 was related to a pension liability adjustment and a currency translation adjustment, respectively.

(2) Common stock and additional paid-in capital were adjusted to reflect the Reverse Stock Split. See Note 1: "Organization and Basis of Presentation" for additional information.

In February 2017, our board of directors authorized a stock repurchase program of up to \$1.0 billion of the Company's common stock. During the nine months ended September 30, 2017, we repurchased 9,993,158 shares of common stock under the program at a total cost of \$625 million, including the June 2017 repurchase of 1,500,000 shares from Blackstone for a total cost of \$99 million. As of September 30, 2017, \$375 million remained available for share repurchases under the program. See Note 16: Subsequent Events for the repurchase of additional shares from Blackstone in October 2017.

(1) Includes net investment hedges and intra-entity foreign currency transactions that are of a long-term investment nature. Amounts reclassified relate to gains on net investment hedges and, for the nine months ended September 30, 2017, also the release of currency translation adjustments due to the termination of a lease contract. The reclassifications were recognized in gain (loss) on foreign currency transactions in our condensed consolidated statements of operations and are presented net of a less than \$1 million tax benefit and expense for the nine months ended September 30, 2017 and 2016, respectively.

(2) Amounts reclassified include the amortization of prior service cost and the amortization of net loss that were included in our computation of net periodic pension cost. They were recognized in general and administrative expenses in our condensed consolidated statements of operations and are presented net of a \$2 million and \$3 million tax benefit for the nine months ended September 30, 2017 and 2016, respectively.

(3) Amounts reclassified relate to the 2013 Interest Rate Swaps, were recognized in interest expense in our condensed consolidated statements of operations and are presented net of a tax benefit of \$3 million and less than \$1 million for the nine months ended September 30, 2017 and 2016, respectively.

Note 12: Earnings Per Share

The following table presents the calculation of basic and diluted earnings per share ("EPS"). All historical share and per share amounts have been adjusted to reflect the Reverse Stock Split. See Note 1: "Organization and Basis of Presentation" for additional information.

Approximately 1 million share-based compensation awards were excluded from the weighted average shares outstanding used in the computation of diluted EPS for the three and nine months ended September 30, 2017 and 2016 because their effect would have been anti-dilutive under the treasury stock method.

Note 13: Business Segments

We are a hospitality company with operations organized in two distinct operating segments following the spin-offs: (i) management and franchise; and (ii) ownership. These segments are managed and reported separately because of their distinct economic characteristics.

The management and franchise segment includes all of the hotels we manage for third-party owners, as well as all franchised hotels operated or managed by someone other than us. As of September 30, 2017, this segment included 639 managed hotels and 4,408 franchised hotels consisting of 807,387 total rooms, which includes 67 hotels with 35,406 rooms that were previously owned or leased by Hilton or unconsolidated affiliates of Hilton and, upon completion of the spin-offs, were owned or leased by Park or unconsolidated affiliates of Park. This segment also earns fees for managing properties in our ownership segment and, effective upon completion of the spin-offs, a license fee from HGV for the exclusive right to use certain Hilton marks and intellectual property in HGV's timeshare business.

As of September 30, 2017, the ownership segment included 73 properties totaling 22,204 rooms, comprising 64 hotels that we wholly owned or leased, one hotel leased by a consolidated non-wholly owned entity, two hotels leased by consolidated VIEs and six hotels owned or leased by unconsolidated affiliates.

Prior to the spin-offs, the performance of our operating segments was evaluated primarily on Adjusted EBITDA. Following the spin-offs, the performance of our operating segments is evaluated primarily on operating income, without allocating corporate and other revenues and other expenses or general and administrative expenses, since we have simplified our operating segments and certain adjustments included in Adjusted EBITDA on a segment basis are no longer applicable.

The following table presents revenues for our reportable segments, reconciled to consolidated amounts:

Note 14: Commitments and Contingencies

We provide performance guarantees to certain owners of hotels that we operate under management contracts. Most of these guarantees allow us to terminate the contract, rather than fund shortfalls, if specified operating performance levels are not achieved. However, in limited cases, we are obligated to fund performance shortfalls. As of September 30, 2017, we had five contracts containing performance guarantees, with expirations ranging from 2019 to 2030, with possible cash outlays totaling approximately \$68 million. Our obligations under these guarantees in future periods are dependent on the operating performance levels of these hotels over the remaining terms of the performance guarantees. We do not have any letters of credit pledged as collateral against these guarantees. As of September 30, 2017 and December 31, 2016, we recorded \$10 million and \$11 million, respectively, in accounts payable, accrued expenses and other and \$12 million and \$17 million, respectively, in other liabilities in our condensed consolidated balance sheets for two outstanding performance guarantees that are related to VIEs for which we are not the primary beneficiary.

We are involved in litigation arising in the normal course of business, some of which includes claims for substantial sums. While the ultimate results of claims and litigation cannot be predicted with certainty, we expect that the ultimate resolution of all pending or threatened claims and litigation as of September 30, 2017 will not have a material effect on our consolidated financial position, results of operations or cash flows.

Note 15: Condensed Consolidating Guarantor Financial Information

In October 2013, Hilton Worldwide Finance LLC and Hilton Worldwide Finance Corp. (the "HWF Issuers"), entities that are 100 percent owned by Hilton Worldwide Parent LLC ("HWP"), which is 100 percent owned by the Parent, issued the 2021 Senior Notes. In September 2016, Hilton Domestic Operating Company Inc. ("HOC"), an entity incorporated in July 2016 that is 100 percent owned by Hilton Worldwide Finance LLC and is a guarantor of the 2021 Senior Notes, 2025 Senior Notes and 2027 Senior Notes, assumed the 2024 Senior Notes that were issued in August 2016 by escrow issuers. In March 2017, the HWF Issuers, which are guarantors of the 2024 Senior Notes, issued the 2025 Senior Notes and 2027 Senior Notes, and used the net proceeds and available cash to repay in full the 2021 Senior Notes. The 2024 Senior Notes, 2025 Senior Notes and 2027 Senior Notes are collectively referred to as the Senior Notes. The HWF Issuers and HOC are collectively referred to as the Subsidiary Issuers.

The Senior Notes are guaranteed jointly and severally on a senior unsecured basis by HWP, the Parent and certain of the Parent's 100 percent owned domestic restricted subsidiaries that are themselves not issuers of the applicable series of Senior Notes (together, the "Guarantors"). The indentures that govern the Senior Notes provide that any subsidiary of the Company that provides a guarantee of the Senior Secured Credit Facility will guarantee the Senior Notes. As of

September 30, 2017, none of our foreign subsidiaries or U.S. subsidiaries owned by foreign subsidiaries or conducting foreign operations or our non-wholly owned subsidiaries guarantee the Senior Notes (collectively, the "Non-Guarantors").

In September 2016, certain employees, assets and liabilities of a guarantor subsidiary were transferred into HOC. This transfer was considered to be a transfer of assets rather than a transfer of a business. Accordingly, we have separately presented HOC as a subsidiary issuer in our condensed consolidating financial information prospectively from the date of the transfer. Due to the timing of the transfer, our condensed consolidating statements of operations will include the results of operations of HOC beginning October 1, 2016 and our condensed consolidating statement of cash flows reflects the issuance of the 2024 Senior Notes during the nine months ended September 30, 2016.

In connection with the spin-offs, certain entities that were previously guarantors of the 2021 Senior Notes and 2024 Senior Notes were released and no longer guaranteed these senior notes. The condensed consolidating financial information presents the financial information based on the composition of the Guarantors and Non-Guarantors as of September 30, 2017.

The guarantees are full and unconditional, subject to certain customary release provisions. The indentures that govern the Senior Notes provide that any Guarantor may be released from its guarantee so long as: (i) the subsidiary is sold or sells all of its assets; (ii) the subsidiary is released from its guaranty under the Senior Secured Credit Facility; (iii) the subsidiary is declared "unrestricted" for covenant purposes; (iv) the subsidiary is merged with or into the applicable Subsidiary Issuers or another Guarantor or the Guarantor liquidates after transferring all of its assets to the applicable Subsidiary Issuers or another Guarantor; or (v) the requirements for legal defeasance or covenant defeasance or to discharge the indenture have been satisfied, in each case in compliance with applicable provisions of the indentures.

The following schedules present the condensed consolidating financial information as of September 30, 2017 and December 31, 2016, and for the three and nine months ended September 30, 2017 and 2016, for the Parent, HWF Issuers, HOC, Guarantors and Non-Guarantors.

Note 16: Subsequent Events

On October 4, 2017, Blackstone closed a secondary offering of 14,610,000 shares of its Hilton common stock and, in connection with the offering, we repurchased 986,175 shares from Blackstone as part of our stock repurchase program for a total cost of \$68 million. Following the offering and share repurchase, Blackstone's beneficial ownership percentage in Hilton was reduced to 5.4 percent.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our unaudited condensed consolidated financial statements and related notes included elsewhere in this Quarterly Report on Form 10-Q. The unaudited condensed consolidated financial statements present the consolidated financial position of Hilton as of September 30, 2017 and December 31, 2016 and the results of operations of Hilton for the three and nine months ended September 30, 2017 and 2016 giving effect to the spin-offs, with the historical financial results of Park and HGV reflected as discontinued operations. Unless indicated otherwise, the following discussion and analysis herein refers to Hilton's continuing operations. For the presentation of Hilton's consolidated results of operations and financial position as of and for the year ended December 31, 2016 giving effect to the spin-offs, and other additional information, including our significant accounting policies and principal components and factors affecting our results of operations as updated for the spin-offs, refer to our Current Reports on Form 8-K dated May 24, 2017 and July 26, 2017 (Item 8.01). Refer to our Annual Report on Form 10-K for the fiscal year ended December 31, 2016 for other information.

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). These statements include, but are not limited to, statements related to our expectations regarding the performance of our business, our financial results, our liquidity and capital resources and other non-historical statements. In some cases, you can identify these forward-looking statements by the use of words such as "outlook," "believes," "expects," "potential," "continues," "may," "will," "should," "could," "seeks," "projects," "predicts," "intends," "plans," "estimates," "anticipates" or the negative version of these words or other comparable words. Such forward-looking statements are subject to various risks and uncertainties including, among others, risks inherent to the hospitality industry, macroeconomic factors beyond our control, competition for hotel guests, management and franchise agreements, risks related to doing business with third-party hotel owners, performance of our information technology systems, growth of reservation channels outside of our system, risks of doing business outside of the U.S. and our indebtedness. Accordingly, there are or will be important factors that could cause actual outcomes or results to differ materially from those indicated in these statements. We believe these factors include but are not limited to those described under "Part I—Item 1A. Risk Factors" of our Annual Report on Form 10-K for the fiscal year ended December 31, 2016. These factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included in this Quarterly Report on Form 10-Q. We undertake no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise, except as required by law.

Overview

Our Business

Hilton is one of the largest and fastest growing hospitality companies in the world, with 5,168 properties comprising 837,692 rooms in 103 countries and territories as of September 30, 2017. Our premier brand portfolio includes: our luxury and lifestyle hotel brands, Waldorf Astoria Hotels & Resorts, Conrad Hotels & Resorts and Canopy by Hilton; our full-service hotel brands, Hilton Hotels & Resorts, Curio - A Collection by Hilton, DoubleTree by Hilton, Tapestry Collection by Hilton and Embassy Suites by Hilton; our focused-service hotel brands, Hilton Garden Inn, Hampton by Hilton, Tru by Hilton, Homewood Suites by Hilton and Home2 Suites by Hilton; and our timeshare brand, Hilton Grand Vacations. As of September 30, 2017, we had approximately 73 million members in our award-winning guest loyalty program, Hilton Honors, a 22 percent increase from December 31, 2016.

Recent Events

On January 3, 2017, we completed the spin-offs of Park and HGV. The historical financial results of Park and HGV are reflected in our unaudited condensed consolidated financial statements as discontinued operations. See Note 3: "Discontinued Operations" in our unaudited condensed consolidated financial statements for additional information.

On January 3, 2017, we completed a 1-for-3 reverse stock split of Hilton's outstanding common stock. See Note 1: "Organization and Basis of Presentation" in our unaudited condensed consolidated financial statements for additional information.

Segments and Regions

Management analyzes our operations and business by both operating segments and geographic regions. Following the spin-offs, our operations consist of two reportable segments that are based on similar products or services: (i) management and franchise; and (ii) ownership. The management and franchise segment provides services, including hotel management and licensing of our brands. This segment generates its revenue from management and franchise fees charged to: (i) third-party hotel owners; (ii) owned and leased hotels; and (iii) license fees for the exclusive right to use certain Hilton marks and intellectual property. As a manager of hotels, we typically are responsible for supervising or operating the property in exchange for management fees. As a franchisor of hotels, we charge franchise fees in exchange for the use of one of our brand names and related commercial services, such as our reservation system, marketing and information technology services. The ownership segment primarily derives earnings from providing hotel room rentals, food and beverage sales and other services at our owned and leased hotels.

Geographically, management conducts business through three distinct geographic regions: (i) the Americas; (ii) Europe, Middle East and Africa ("EMEA"); and (iii) Asia Pacific. The Americas region includes North America, South America and Central America, including all Caribbean nations. Although the U.S. is included in the Americas, it represents a significant portion of our system-wide hotel rooms, which was 74 percent as of September 30, 2017; therefore, the U.S. is often analyzed separately and apart from the Americas geographic region and, as such, it is presented separately within the analysis herein. The EMEA region includes Europe, which represents the western-most peninsula of Eurasia stretching from Iceland in the west to Russia in the east, and the Middle East and Africa ("MEA"), which represents the Middle East region and all African nations, including the Indian Ocean island nations. Europe and MEA are often analyzed separately and, as such, are presented separately within the analysis herein. The Asia Pacific region includes the eastern and southeastern nations of Asia, as well as India, Australia, New Zealand and the Pacific island nations.

System Growth and Pipeline

Our strategic objectives include the continued expansion of our global footprint and fee-based business. As we enter into new management and franchise agreements, we expand our business with minimal or no capital investment by us as the manager or franchisor, since the capital required to build and maintain hotels is typically provided by the third-party owner of the hotel with whom we contract to provide the management or franchise services. Additionally, prior to approving the addition of new hotels to our management and franchise development pipeline, we evaluate the economic viability of the hotel based on the geographic location, the credit quality of the third-party owner and other factors. By increasing the number of management and franchise agreements with third-party owners, we expect to increase overall return on invested capital.

As of September 30, 2017, we had a total of 2,191 hotels in our development pipeline, representing over 335,000 rooms under construction or approved for development throughout 104 countries and territories, including 37 countries and territories where we do not currently have any open hotels. All of the rooms in the pipeline are within our management and franchise segment. Nearly 172,000 rooms of the rooms in the pipeline, or more than half, were located outside the U.S. Additionally, over 171,000 rooms in the pipeline, or more than half, were under construction. We do not consider any individual development project to be material to us.

Key Business and Financial Metrics Used by Management

Comparable Hotels

We define our comparable hotels as those that: (i) were active and operating in our system for at least one full calendar year as of the end of the current period, and open January 1st of the previous year; (ii) have not undergone a

change in brand or ownership type during the current or comparable periods reported, excluding the hotels distributed in the spin-offs; and (iii) have not sustained substantial property damage, business interruption, undergone large-scale capital projects or for which comparable results are not available. Of the 5,120 hotels in our system as of September 30, 2017, 3,956 hotels have been classified as comparable hotels. Our 1,164 non-comparable hotels included 253 hotels, or approximately five percent of the total hotels in our system, that were removed from the comparable group during the last twelve months because they sustained substantial property damage, business interruption, underwent large-scale capital projects or comparable results were not available.

Occupancy

Occupancy represents the total number of room nights sold divided by the total number of room nights available at a hotel or group of hotels for a given period. Occupancy measures the utilization of our hotels' available capacity.

Management uses

occupancy to gauge demand at a specific hotel or group of hotels in a given period. Occupancy levels also help us determine achievable average daily rate levels as demand for hotel rooms increases or decreases.

Average Daily Rate ("ADR")

ADR represents hotel room revenue divided by total number of room nights sold for a given period. ADR measures average room price attained by a hotel and ADR trends provide useful information concerning the pricing environment and the nature of the customer base of a hotel or group of hotels. ADR is a commonly used performance measure in the industry, and we use ADR to assess pricing levels that we are able to generate by type of customer, as changes in rates have a different effect on overall revenues and incremental profitability than changes in occupancy, as described above.

Revenue per Available Room ("RevPAR")

RevPAR is calculated by dividing hotel room revenue by total number of room nights available to guests for a given period. We consider RevPAR to be a meaningful indicator of our performance as it provides a metric correlated to two primary and key drivers of operations at a hotel or group of hotels: occupancy and ADR. RevPAR is also a useful indicator in measuring performance over comparable periods for comparable hotels.

References to RevPAR, ADR and occupancy are presented on a comparable basis and references to RevPAR and ADR are presented on a currency neutral basis (all periods presented use the actual exchange rates for the three and nine months ended September 30, 2017, as applicable), unless otherwise noted.

EBITDA and Adjusted EBITDA

EBITDA reflects income (loss) from continuing operations, net of taxes, excluding interest expense, a provision for income taxes and depreciation and amortization.

Adjusted EBITDA is calculated as EBITDA, as previously defined, further adjusted to exclude certain items, including gains, losses and expenses in connection with: (i) asset dispositions for both consolidated and unconsolidated investments; (ii) foreign currency transactions; (iii) debt restructurings and retirements; (iv) furniture, fixtures and equipment ("FF&E") replacement reserves required under certain lease agreements; (v) reorganization costs; (vi) share-based compensation expense; (vii) non-cash impairment losses; (viii) severance, relocation and other expenses; and (ix) other items.

We believe that EBITDA and Adjusted EBITDA provide useful information to investors about us and our financial condition and results of operations for the following reasons: (i) these measures are among the measures used by our management team to evaluate our operating performance and make day-to-day operating decisions; and (ii) these

measures are frequently used by securities analysts, investors and other interested parties as a common performance measure to compare results or estimate valuations across companies in our industry. Additionally, these measures exclude certain items that can vary widely across different industries and among competitors within our industry. For instance, interest expense and the provision for income taxes are dependent on company specifics, including, among other things, our capital structure and operating jurisdictions, respectively, and, therefore could vary significantly across companies. Depreciation and amortization are dependent upon company policies, including the method of acquiring and depreciating assets and the useful lives that are used. For Adjusted EBITDA, we also exclude items such as: (i) share-based compensation expense, as this could vary widely among companies due to the different plans in place and the usage of them; (ii) FF&E replacement reserve to be consistent with the treatment of FF&E for owned and leased hotels where it is capitalized and depreciated over the life of the FF&E; and (iii) other items that are not core to our operations and are not reflective of our performance.

EBITDA and Adjusted EBITDA are not recognized terms under GAAP and should not be considered as alternatives to net income (loss) or other measures of financial performance or liquidity derived in accordance with GAAP. EBITDA and Adjusted EBITDA have limitations as analytical tools and should not be considered as alternatives, either in isolation or as a substitute, for net income (loss), cash flow or other methods of analyzing our results as reported under GAAP. Some of these limitations are:

EBITDA and Adjusted EBITDA do not reflect changes in, or cash requirements for, our working capital needs;

EBITDA and Adjusted EBITDA do not reflect our interest expense, or the cash requirements necessary to service interest or principal payments, on our indebtedness;

EBITDA and Adjusted EBITDA do not reflect our income tax expense or the cash requirements to pay our taxes;

EBITDA and Adjusted EBITDA do not reflect historical cash expenditures or future requirements for capital expenditures or contractual commitments;

EBITDA and Adjusted EBITDA do not reflect the effect on earnings or changes resulting from matters that we consider not to be indicative of our future operations;

although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and EBITDA and Adjusted EBITDA do not reflect any cash requirements for such replacements; and

other companies in our industry may calculate EBITDA and Adjusted EBITDA differently, limiting their usefulness as comparative measures.

Because of these limitations, EBITDA and Adjusted EBITDA should not be considered as discretionary cash available to us to reinvest in the growth of our business or as measures of cash that will be available to us to meet our obligations.

For the three and nine months ended September 30, 2017, we experienced system-wide RevPAR growth, driven primarily by the Americas (excluding U.S.), Europe and Asia Pacific, all experiencing increased ADR and occupancy. RevPAR increases in the Americas (excluding U.S.) were driven by strong performance in most countries and territories, particularly in Mexico and Puerto Rico, despite the major weather events during the three months ended September 30, 2017. The growth in Europe was largely a result of certain countries recovering from geopolitical and economic turmoil in 2016, as well as continued

demand in continental European countries and strong ADR in London. Asia Pacific's continued RevPAR growth was attributable to new hotels stabilizing in the system, particularly in China. Although MEA experienced increased occupancy during both the three and nine months ended September 30, 2017, certain countries experienced declines in ADR due to travel sanctions and increased geopolitical pressures. The decline in U.S. RevPAR for the three months ended September 30, 2017 was largely attributable to holiday shifts, including the Fourth of July and the Jewish religious holidays.

Incentive management fees	52	34	52.9	160	103	55.3
Total management fees	\$139	\$93	49.5	\$415	\$282	47.2

The increases in management and franchise fees during the three and nine months ended September 30, 2017 were driven by the addition of new managed and franchised properties to our portfolio and the increase in RevPAR at our comparable managed and franchised hotels.

Including new development and ownership type transfers, from January 1, 2016 to September 30, 2017, we added 628 managed and franchised properties on a net basis, providing an additional 115,500 rooms to our managed and franchised segment, including the properties that were owned by Park and managed or franchised by Hilton upon completion of the spin-offs. As new hotels stabilize in our system, we expect the fees received from such hotels to increase as they are part of our system for full periods. Franchise fees also increased as a result of net increases in licensing and other fees of \$38 million and \$106 million during the three and nine months ended September 30, 2017, respectively, which includes the effect of the license fees earned from HGV after the spin-offs.

On a comparable basis, our management fees increased during the three and nine months ended September 30, 2017 as a result of increases in RevPAR at our managed hotels of 1.9 percent and 3.0 percent, respectively, primarily due to increases in occupancy of 1.9 percentage points and 2.3 percentage points, respectively. On a comparable basis, our franchise fees increased

during the three and nine months ended September 30, 2017 as a result of increases in RevPAR at our franchised hotels of 0.8 percent and 1.5 percent, respectively, primarily due to increases in ADR.

Owned and leased hotels	\$ 388	\$ 372	4.3	\$ 1,065	\$ 1,089	(2.2)

Owned and leased hotel revenues increased \$16 million during the three months ended September 30, 2017. On a currency neutral basis, owned and leased hotel revenues increased \$20 million primarily as a result of an \$18 million increase at our comparable owned and leased hotels, due to an increase in RevPAR of 5.8 percent driven by increases in both ADR and occupancy.

Owned and leased hotel revenues decreased during the nine months ended September 30, 2017 primarily as a result of the effect of foreign currency changes of \$54 million. On a currency neutral basis, owned and leased hotel revenues increased \$30 million during the nine months ended September 30, 2017 primarily as a result of an increase at our comparable owned and leased hotels of \$32 million due to an increase in RevPAR of 5.0 percent, attributable to increases in ADR and occupancy of 2.8 percent and 1.6 percentage points, respectively. On a currency neutral basis, non-comparable owned and leased hotel revenues decreased \$2 million during the nine months ended September 30, 2017 as a result of a net decrease of \$9 million from properties either opened or disposed between January 1, 2016 and September 30, 2017, partially offset by a net increase in revenues at hotels that underwent renovations in 2016.

Owned and leased hotel expenses increased \$20 million during the three months ended September 30, 2017. On a currency neutral basis, owned and leased hotel expenses increased \$23 million primarily as a result of an \$18 million increase at our comparable owned and leased hotels driven by an increase in variable operating costs due to increased occupancy.

Owned and leased hotel expenses decreased \$34 million during the nine months ended September 30, 2017 primarily as a result of the effect of foreign currency changes of \$52 million. On a currency neutral basis, owned and leased hotel expenses increased \$18 million during the nine months ended September 30, 2017 as a result of an increase of \$29 million from comparable owned and leased hotels, partially offset by a decrease from non-comparable owned and leased hotels of \$11 million. The increase in comparable owned and leased hotel expenses resulted from an increase in variable operating costs due to increased occupancy. The decrease in non-comparable owned and leased hotel expenses was primarily attributable to a net decrease of \$14 million in expenses from properties either opened or disposed between January 1, 2016 and September 30, 2017, partially offset by a net increase in expenses at hotels that underwent renovations in 2016.

General and administrative	104	107	(2.8)	326	287	13.6
Other expenses	7	10	(30.0)	41	39	5.1

The decreases in depreciation and amortization expense during the three and nine months ended September 30, 2017 were primarily a result of decreases in amortization expense due to certain capitalized software costs being fully amortized between September 30, 2016 and September 30, 2017.

The decrease in general and administrative expense during the three months ended September 30, 2017 was primarily a result of a \$13 million decrease in severance costs related to the 2015 sale of the Waldorf Astoria New York. This decrease was partially offset by a \$5 million increase in share-based compensation expense primarily due to an increase in retirement eligible participants, resulting in the acceleration of expense recognition, as well as additional expense from a special equity grant to certain participants in connection with the spin-offs.

The increase in general and administrative expense during the nine months ended September 30, 2017 was primarily the result of increased share-based compensation expense of \$19 million, for the reasons noted above. Additionally, \$17 million in costs associated with the spin-offs were incurred during the nine months ended September 30, 2017. Costs incurred in 2016 related to the spin-offs are included in discontinued operations. These increases were partially offset by a decrease of \$6 million in severance costs related to the 2015 sale of the Waldorf Astoria New York.

⁽¹⁾ Fluctuation in terms of percentage change is not meaningful.

The increases in interest expense during the three and nine months ended September 30, 2017 were primarily due to the issuances of the 2025 Senior Notes and the 2027 Senior Notes in March 2017 and the 2024 Senior Notes in August 2016, as well as the reclassification of losses from accumulated other comprehensive loss related to the dedesignation of the 2013 Interest Rate Swaps. These increases were largely offset by decreases in interest expense due to the March 2017 repayment of the 2021 Senior Notes and the refinancing of the Term Loans in March 2017, which reduced the

interest rate on these instruments. See Note 6: "Debt" and Note 7: "Derivative Instruments and Hedging Activities" in our unaudited condensed consolidated financial statements for additional details.

The gains and losses on foreign currency transactions primarily related to changes in foreign currency rates on our short-term cross-currency intercompany loans for all periods. During the three and nine months ended September 30, 2017, the changes were predominantly for loans denominated in the euro, the Australian dollar ("AUD") and the British pound ("GBP"). During the three and nine months ended September 30, 2016, the changes were predominantly for loans denominated in AUD, GBP and the Brazilian real.

The loss on debt extinguishment related to the repayment of the 2021 Senior Notes and included a redemption premium of \$42 million and the accelerated recognition of \$18 million of unamortized debt issuance costs during the nine months ended September 30, 2017.

Income tax expense increased for the three and nine months ended September 30, 2017 primarily as a result of increased income from continuing operations before income taxes and a net reduction in our unrecognized tax benefits of \$155 million in

the prior year, respectively. See Note 9: "Income Taxes" in our unaudited condensed consolidated financial statements for additional information.

Segment Results

We evaluate our business segment operating performance using operating income, as described in Note 13: "Business Segments" in our unaudited condensed consolidated financial statements. Refer to those financial statements for a reconciliation of segment operating income to income from continuing operations before income taxes. The following table sets forth revenues and operating income by segment:

(1) Includes management, royalty and intellectual property fees charged to our ownership segment by our management and franchise segment, which were eliminated in our unaudited condensed consolidated statements of operations.

Management and franchise segment revenues and operating income increased during the three and nine months ended September 30, 2017 as a result of the net addition of hotels to our managed and franchised system and increases in RevPAR at our comparable managed and franchised properties of 1.1 percent and 2.0 percent, respectively. Refer to "—Revenues" for further discussion of the increases in revenues from our managed and franchised properties.

Ownership segment revenues increased \$16 million during the three months ended September 30, 2017 primarily as a result of an increase in revenues at our comparable owned and leased hotels, which was primarily attributable to an increase in RevPAR of 5.8 percent. Ownership operating income decreased \$5 million for the three months ended September 30, 2017 as a result of increasing operating expenses at our owned and leased hotels partially offset by the increase in segment revenues.

Ownership segment revenues decreased \$24 million during the nine months ended September 30, 2017 as a result of a decrease in owned and leased hotel revenues, which was primarily attributable to foreign currency changes, partially offset by the increase in revenue at our comparable owned and leased hotels resulting from an increase in RevPAR of 5.0 percent. Ownership operating income increased \$12 million for the nine months ended September 30, 2017 as a result of the decrease in operating expenses at our owned and leased hotels partially offset by the decrease in

ownership segment revenues. Refer to "—Revenues" and "—Operating Expenses" for further discussion of the changes in revenues and operating expenses at our owned and leased hotels.

Liquidity and Capital Resources

Overview

As of September 30, 2017, we had total cash and cash equivalents of \$796 million, including \$126 million of restricted cash and cash equivalents. The majority of our restricted cash and cash equivalents balance related to cash collateral on our self-insurance programs.

Our known short-term liquidity requirements primarily consist of funds necessary to pay for operating and other expenditures, including costs associated with the management and franchising of hotels, corporate expenses, payroll and related benefits, legal costs, interest and scheduled principal payments on our outstanding indebtedness, contract acquisition costs and capital expenditures for renovations and maintenance at the hotels within our ownership segment. Our long-term liquidity requirements primarily consist of funds necessary to pay for scheduled debt maturities, capital improvements in the hotels within our ownership segment, commitments to owners in our management and franchise segment, dividends as declared, share repurchases and corporate capital expenditures.

We finance our business activities primarily with existing cash and cash generated from our operations. We believe that this cash will be adequate to meet anticipated requirements for operating and other expenditures, including corporate expenses, payroll and related benefits, legal costs and other commitments for the foreseeable future. The objectives of our cash management policy are to maintain the availability of liquidity and minimize operational costs. Further, we have an investment policy that is focused on the preservation of capital and maximizing the return on new and existing investments and returning available capital to stockholders.

We and our affiliates may from time to time purchase our outstanding debt through open market purchases, privately negotiated transactions or otherwise. Purchases or retirement of debt, if any, will depend on prevailing market conditions, liquidity requirements, contractual restrictions and other factors. The amounts involved may be material.

In February 2017, our board of directors authorized a stock repurchase program of up to \$1 billion of the Company's common stock. During the nine months ended September 30, 2017, we repurchased \$625 million of common stock under the program, and, as of September 30, 2017, \$375 million remained available for share repurchases, of which \$68 million was committed for the repurchase of 986,175 shares from affiliates of Blackstone, which were repurchased in October 2017. The repurchase program does not have an expiration date and may be suspended or discontinued at any time.

Sources and Uses of Our Cash and Cash Equivalents

The following table summarizes our net cash flows:

	Nine Months Ended		Percent Change 2017 vs. 2016
	September 30, 2017	2016 ⁽¹⁾	
	(in millions)		
Net cash provided by operating activities	\$646	\$969	(33.3)
Net cash used in investing activities	(146)	(346)	(57.8)
Net cash used in financing activities	(1,396)	(355)	NM ⁽²⁾

(1) Includes the cash flows from operating activities, investing activities and financing activities of Hilton, Park and HGV.

(2) Fluctuation in terms of percentage change is not meaningful.

As of September 30, 2017 and December 31, 2016, our working capital surplus (deficit), which is calculated as current assets less current liabilities excluding assets and liabilities of discontinued operations, was \$(128) million and \$169 million, respectively, and our ratio of current assets to current liabilities was 0.94 and 1.09, respectively.

Operating Activities

Cash flow from operating activities is primarily generated from management and franchise fee revenue and operating income from our owned and leased hotels and, for the nine months ended September 30, 2016, sales of timeshare units.

The \$323 million decrease in net cash provided by operating activities was primarily a result of a decrease in operating income from our owned and leased properties and sales of timeshare units as a result of the spin-offs.

Investing Activities

For the nine months ended September 30, 2017 and 2016, net cash used in investing activities consisted primarily of capital expenditures, including contract acquisition costs and capitalized software costs. Our capital expenditures for property and equipment primarily consisted of expenditures related to our corporate facilities and the renovation of hotels in our ownership segment, which, for the nine months ended September 30, 2016, included those owned by Park following

completion of the spin-offs. Our capitalized software costs related to various systems initiatives for the benefit of our hotel owners and our overall corporate operations.

Financing Activities

The \$1,041 million increase in net cash used in financing activities was primarily as a result of cash transferred in connection with the spin-offs and \$565 million of additional capital returned to our stockholders during the nine months ended September 30, 2017 compared to the nine months ended September 30, 2016, which included dividends and share repurchases. In addition, during the nine months ended September 30, 2017, we issued the 2025 Senior Notes and the 2027 Senior Notes and received proceeds of \$1.5 billion, which we used with available cash to repay in full our 2021 Senior Notes, including a redemption premium of \$42 million.

Debt and Borrowing Capacity

As of September 30, 2017, our total indebtedness, excluding unamortized deferred financing costs and discount, was approximately \$6.7 billion. For further information on our total indebtedness, our 2017 financing transactions, availability under our credit facility and guarantees, refer to Note 6: "Debt" and Note 15: "Condensed Consolidating Guarantor Financial Information" in our unaudited condensed consolidated financial statements.

If we are unable to generate sufficient cash flow from operations in the future to service our debt, we may be required to reduce capital expenditures, issue additional equity securities or draw on our Revolving Credit Facility. Our ability to make scheduled principal payments and to pay interest on our debt depends on our future operating performance, which is subject to general conditions in or affecting the hospitality industry that may be beyond our control.

Off-Balance Sheet Arrangements

See Note 14: "Commitments and Contingencies" in our unaudited condensed consolidated financial statements for a discussion of our off-balance sheet arrangements.

Critical Accounting Policies and Estimates

The preparation of our unaudited condensed consolidated financial statements in accordance with GAAP requires us to make estimates and assumptions that affect reported amounts and related disclosures. We have discussed the policies and estimates that we believe are critical and require the use of complex judgment in their application in our Current Report on Form 8-K dated May 24, 2017, which presents Hilton's consolidated financial position and results of operations as of and for the year ended December 31, 2016, giving effect to the spin-offs. Since the date of our Current Report on Form 8-K, there have been no material changes to our critical accounting policies or the methods or assumptions we apply under them.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to market risk primarily from changes in interest rates and foreign currency exchange rates, which may affect future income, cash flows and the fair value of the Company. In certain situations, we may seek to reduce cash flow volatility associated with changes in interest rates and foreign currency exchange rates by entering into financial arrangements intended to provide a hedge against a portion of the risks associated with such volatility. We continue to have exposure to such risks to the extent that they are not hedged. We enter into derivative financial arrangements to the extent they meet the objective described above and we do not use derivatives for trading or speculative purposes. See Note 7: "Derivative Instruments and Hedging Activities" in our unaudited condensed consolidated financial statements for additional information. Our exposure to market risk has not materially changed

from what we previously disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2016, including after giving effect to the spin-offs.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

The Company maintains a set of disclosure controls and procedures as that term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, that are designed to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission ("SEC") rules and forms, and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. The design of any disclosure controls and procedures is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Any controls and procedures, no matter how well designed and operated, can provide only reasonable, not absolute, assurance of achieving the desired control objectives. In accordance with Rule 13a-15(b) of the Exchange Act, as of the end of the period covered by this Quarterly Report on Form 10-Q, an evaluation was carried out under the supervision and with the participation of the Company's management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of its disclosure controls and procedures. Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures, as of the end of the period covered by this Quarterly Report on Form 10-Q, were effective to provide reasonable assurance that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and is accumulated and communicated to the Company's management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control

There has been no change in the Company's internal control over financial reporting during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

We are involved in various claims and lawsuits arising in the normal course of business, some of which include claims for substantial sums, including proceedings involving tort and other general liability claims, employee claims, consumer protection claims and claims related to our management of certain hotel properties. The ultimate results of claims and litigation cannot be predicted with certainty. We currently believe that the ultimate outcome of such lawsuits and proceedings will not, individually or in the aggregate, have a material adverse effect on our consolidated financial position, results of operations or cash flows. However, depending on the amount and timing, an unfavorable resolution of some or all of these matters could materially affect our future results of operations in a particular period.

Item 1A. Risk Factors

As of September 30, 2017, there have been no material changes from the risk factors previously disclosed in response to "Part I—Item 1A. Risk Factors" of our Annual Report on Form 10-K for the fiscal year ended December 31, 2016.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds
