x QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the quarterly period ended August 4, 2018
OR
¨ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
Commission file number: 001-35535

TILLY'S, INC.
(Exact name of Registrant as specified in its charter)

Delaware	45-2164791
(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification No.)

10 Whatney
Irvine, CA 92618
(Address of principal executive offices)
(949) 609-5599
(Registrant's telephone number, including area code)

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes x No ¨
Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes x No ¨
Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," or an "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	¨	Accelerated filer	x
Non-accelerated filer	¨ (do not check if a smaller reporting company)	Smaller reporting company	¨

Emerging growth company ¨

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ¨

Indicate by check mark whether the registrant is a shell company (as defined in Exchange Act Rule 12b-2) Yes ¨ No x

As of August 29, 2018, the registrant had the following shares of common stock outstanding:

Class A common stock $0.001 par value	15,640,185
Class B common stock $0.001 par value	13,668,497

TILLY’S, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Note 1: Description of the Company and Basis of Presentation

Tillys is a leading destination specialty retailer of casual apparel, footwear and accessories for young men, young women, boys and girls with an extensive assortment of iconic global, emerging, and proprietary brands rooted in an active and social lifestyle. Tillys is headquartered in Irvine, California and we operated 226 stores, including three RSQ-branded pop-up stores, in 31 states as of August 4, 2018. Our stores are located in malls, lifestyle centers, ‘power’ centers, community centers, outlet centers and street-front locations. Customers may also shop online, where we feature the same assortment of products as carried in our brick-and-mortar stores, supplemented by additional online-only styles. Our goal is to serve as a destination for the latest, most relevant merchandise and brands important to our customers.

The Tillys concept began in 1982, when our co-founders, Hezy Shaked and Tilly Levine, opened their first store in Orange County, California. Since 1984 the business has been conducted through World of Jeans & Tops, a California corporation, or “WOJT”, which operates under the name “Tillys”. In May 2011, Tilly’s, Inc., a Delaware corporation, was formed solely for the purpose of reorganizing the corporate structure of WOJT in preparation for an initial public offering. As part of the initial public offering in May 2012, WOJT became a wholly owned subsidiary of Tilly's, Inc.

As used in these Notes to the Consolidated Financial Statements, except where the context otherwise requires or where otherwise indicated, the terms "the Company", "World of Jeans and Tops", "WOJT", "we", "our", "us" and "Tillys" refer to WOJT before our initial public offering, and to Tilly's, Inc. and its subsidiary after our initial public offering.

We have prepared the accompanying unaudited consolidated financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial reporting. These unaudited consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC"). Certain information and footnote disclosures normally included in financial statements prepared in accordance with GAAP have been omitted from this Quarterly Report on Form 10-Q as is permitted by SEC rules and regulations.

In the opinion of management, the accompanying unaudited consolidated financial statements contain all normal and recurring adjustments necessary to present fairly the financial condition, results of operations and cash flows for the interim periods presented. The results of operations for the three and six months ended August 4, 2018 and July 29, 2017 are not necessarily indicative of results to be expected for the full fiscal year. The accompanying unaudited consolidated financial statements should be read in conjunction with the consolidated financial statements and notes included in our Annual Report on Form 10-K for the fiscal year ended February 3, 2018 ("fiscal 2017").

Fiscal Periods

Our fiscal year ends on the Saturday closest to January 31. References to fiscal 2018 refer to the fiscal year ending February 2, 2019. References to the fiscal quarters ended August 4, 2018 and July 29, 2017 refer to the three and six months ended as of those dates.

Note 2: Summary of Significant Accounting Policies

Information regarding our significant accounting policies is contained in Note 2, “Summary of Significant Accounting Policies”, of the consolidated financial statements in our Annual Report on Form 10-K for the fiscal year ended February 3, 2018.

Recently Adopted Accounting Standard

On February 4, 2018, we adopted Financial Accounting Standards Board (the "FASB") Accounting Standards Update ("ASU") No. 2014-09, Revenue from Contracts with Customers ("ASC 606"), using the modified retrospective transition method, which under ASC 606, means the standard applies retrospectively with the cumulative effect recognized in the opening retained earnings balance in fiscal 2018. Comparative information for the prior year fiscal quarter has not been adjusted and continues to be reported under the previous standard ASC 605. Under ASC 606, revenue is recognized when control of promised goods or services is transferred to our customers at an amount we

expect to be entitled to in exchange for those goods or services. The adoption of this standard requires us to recognize gift card breakage income in proportion to redemptions as they occur. The new guidance also requires enhanced disclosures, such as disaggregation of revenues and revenue recognition policies that require significant judgment and identification of performance obligations to customers.

Table of Contents

The adoption of ASC 606 resulted in a net cumulative effect adjustment that increased the opening balance of retained earnings by approximately $1.4 million, as well as the following impacts:

- Breakage revenue is now recognized over time in proportion to actual customer redemptions. Breakage revenue was previously recognized two full fiscal years after the gift cards were activated when the probability of redemption was considered remote.
- Revenue for merchandise shipped to the customer from a distribution center or store is now recognized at the shipping point, whereas it was previously recognized upon customer receipt.

The impact of the adoption of ASC 606 on the Consolidated Balance Sheet as of August 4, 2018 was as follows (in thousands):

	As reported	Balances without adoption of ASC 606	Effect of Adoption Increase (Decrease)
Merchandise inventories	$74,815	$75,625	$ (810)
Other assets	3,391	3,927	(536)
Accrued expenses	29,521	29,131	390
Deferred revenue	7,193	10,894	(3,701)
Retained earnings	28,756	26,791	1,965

The impact of the adoption of ASC 606 on our Consolidated Statements of Operations for the three and six months ended August 4, 2018 was as follows (in thousands):

	Three Months Ended			Six Months Ended		
	As reported	Balances without adoption of ASC 606	Effect of Adoption Increase (Decrease)	As reported	Balances without adoption of ASC 606	Effect of Adoption Increase (Decrease)
Net sales	$157,406	$156,470	$ 936	$281,040	$279,512	$ 1,528
Cost of goods sold	107,301	106,920	381	195,957	195,337	620
Gross profit	50,105	49,550	555	85,083	84,175	908

Revenue Recognition

Revenue is recognized for store sales when the customer receives and pays for the merchandise at the register, net of estimated returns. Taxes collected from our customers are recorded on a net basis. For e-commerce sales, we recognize revenue, net of sales taxes and estimated sales returns, and the related cost of goods sold at the time the merchandise is shipped to the customer. Amounts related to shipping and handling that are billed to customers are reflected in net sales, and the related costs are reflected in cost of goods sold in the accompanying Consolidated Statements of Operations.

The following table summarizes net sales from our retail stores compared to e-commerce (in thousands):

	Three Months Ended		Six Months Ended	
	August 4, 2018	July 29, 2017	August 4, 2018	July 29, 2017
Retail stores	$137,734	$121,957	$246,235	$226,652
E-commerce	19,672	16,853	34,805	33,105
Total net sales	$157,406	$138,810	$281,040	$259,757

We accrue for estimated sales returns by customers based on historical sales return results. As of August 4, 2018, February 3, 2018 and July 29, 2017, our reserve for sales returns was $3.3 million, $1.1 million and $2.2 million,

respectively.

Table of Contents

We recognize revenue from gift cards as they are redeemed for merchandise. Prior to redemption, we maintain a current liability for unredeemed gift card balances. The customer liability balance was $5.7 million, $9.2 million and $7.1 million as of August 4, 2018, February 3, 2018 and July 29, 2017, respectively, and is included in deferred revenue on the accompanying Consolidated Balance Sheets. Our gift cards do not have expiration dates and in most cases there is no legal obligation to remit unredeemed gift cards to relevant jurisdictions. Based on actual historical redemption patterns, we determined that a small percentage of gift cards are unlikely to be redeemed (which we refer to as gift card “breakage”). Based on our historical gift card breakage rate, we recognize breakage revenue over the redemption period in proportion to actual gift card redemptions. Revenue recognized from gift cards was $3.4 million and $7.2 million for the three months and six months ended August 4, 2018, respectively, and $3.7 million and $7.9 million for the three and six months ended July 29, 2017, respectively.

We have a customer loyalty program where customers accumulate points based on purchase activity. Once a loyalty member achieves a certain point level, the member earns awards that may be redeemed for merchandise. Unredeemed awards and accumulated partial points are accrued as deferred revenue and awards redeemed by the member for merchandise are recorded as an increase to net sales. We expire unredeemed awards after 45 days from date of issuance and accumulated partial points 365 days after the last purchase activity. A liability is estimated based on the standalone selling price of awards and partial points earned and estimated redemptions. The deferred revenue for this program was $1.5 million, $1.2 million and $0.9 million as of August 4, 2018, February 3, 2018 and July 29, 2017, respectively. Revenue recognized from our loyalty program was $0.4 million and $0.7 million for the three and six months ended August 4, 2018, respectively, and $0.3 million and $0.4 million for the three and six months ended and July 29, 2017, respectively.

Income taxes

The Securities and Exchange Commission has issued interpretive guidance under Staff Accounting Bulletin No. 118 ("SAB 118") that allows for a measurement period up to one year after the enactment date of the Tax Act to finalize the recording of the related tax impacts. We have not made any provision adjustments during the first half ended August 4, 2018. We are continuing to assess the final impact of the guidance which we expect to complete within the one-year time frame provided by SAB 118.

New Accounting Standards Not Yet Adopted

In February 2016, the FASB issued ASU No. 2016-02, Leases (ASC 842). The new standard requires lessees to apply a dual approach, classifying leases as either finance or operating leases based on the principle of whether or not the lease is effectively a financed purchase by the lessee. This classification will determine whether lease expense is recognized based on an effective interest method or on a straight-line basis over the term of the lease. A lessee is also required to record a right-of-use asset and a lease liability for all leases with a term of greater than 12 months regardless of their classification. Leases with a term of 12 months or less will be accounted for similar to existing guidance for operating leases. ASC 842, which will become effective for us in the first quarter of fiscal 2019, with early adoption permitted, must be adopted using the modified retrospective method. The new standard is expected to impact our consolidated financial statements as we conduct all of our retail sales and corporate operations in leased facilities. We are in the process of evaluating the impact of adopting the new standard on our consolidated financial statements.

In June 2016, the FASB issued ASU No. 2016-13, Measurement of Credit Losses on Financial Instruments (ASU 2016-13), which modifies or replaces existing models for impairment of trade and other receivables, debt securities, loans, beneficial interests held as assets, purchased-credit impaired financial assets and other instruments. The new standard requires entities to measure expected losses over the life of the asset and recognize an allowance for estimated credit losses upon recognition of the financial instrument. ASU 2016-13 will become effective for us in the first quarter of fiscal 2020, with early adoption permitted and must be adopted using the modified retrospective method. We are in the process of evaluating the impact of adopting the new standard on our consolidated financial statements and related disclosures.

Note 3: Marketable Securities

Marketable securities as of August 4, 2018 consisted of commercial paper, classified as available-for-sale, and fixed income securities, classified as held-to-maturity as we have the intent and ability to hold them to maturity. Our investments in commercial paper and fixed income securities are recorded at fair value and amortized cost, respectively, which approximates fair value. All of our marketable securities are less than one year from maturity.

Table of Contents

The following table summarizes our investments in marketable securities at August 4, 2018, February 3, 2018 and July 29, 2017 (in thousands):

	August 4, 2018		
	Cost or Amortized Cost	Gross Unrealized Holding Gains	Estimated Fair Value
Commercial paper	$54,389	$ 118	$ 54,507
Fixed income securities	24,081	—	24,081
	$78,470	$ 118	$ 78,588

	February 3, 2018		
	Cost or Amortized Cost	Gross Unrealized Holding Gains	Estimated Fair Value
Commercial paper	$59,566	$ 23	$ 59,589
Fixed income securities	23,119	42	23,161
	$82,685	$ 65	$ 82,750

	July 29, 2017		
	Cost or Amortized Cost	Gross Unrealized Holding Gains	Estimated Fair Value
Commercial paper	$44,713	$ 170	$ 44,883
Fixed income securities	21,181	—	21,181
	$65,894	$ 170	$ 66,064

We recognized gains on investments for commercial paper that matured during the three and six months ended August 4, 2018 and July 29, 2017. Upon recognition of the gains, we reclassified these amounts out of Accumulated Other Comprehensive Income/(Loss) and into “Other income, net” on the Consolidated Statements of Operations. The following table summarizes our gains on investments for commercial paper (in thousands):

	Three Months Ended		Six Months Ended	
	August 4, 2018	July 29, 2017	August 4, 2018	July 29, 2017
Gains on investments	$240	$ 83	$435	$215

Note 4: Line of Credit

Our amended and restated credit agreement with Wells Fargo Bank, N.A. (the "Bank") provides for a $25.0 million revolving line of credit with a maturity date of June 26, 2020. The interest rate charged on borrowings is selected at our discretion at the time of draw between the London Interbank Offered Rate, plus 0.75%, or at the Bank’s prime rate. The agreement allows for the declaration and payment of dividends or distributions to stockholders, subject to certain limitations. On February 20, 2018 and February 24, 2017, we paid a special cash dividend of $1.00 per share and $0.70 per share, respectively, to all holders of record of issued and outstanding shares of both our Class A and Class B common stock. The line of credit is secured by substantially all of our assets. As a sub-feature under the credit agreement, the Bank may also issue stand-by and/or commercial letters of credit up to $15.0 million.

We are required to maintain certain financial and non-financial covenants in accordance with the line of credit. The financial covenants require certain levels of leverage and profitability, such as (i) income before income taxes must not to be less than $1.0 million (calculated at the end of each fiscal quarter on a trailing 12-month basis), (ii) a maximum ratio of 4.00 to 1.00 as of each quarter end for “Funded Debt to EBITDAR”, defined as the sum of total debt, capital leases and annual rent expense multiplied by six divided by the sum of net income, interest expense, taxes, depreciation, amortization and annual rent expense on a trailing 12-month basis, and (iii) requires minimum eligible inventory, cash, cash equivalents and marketable securities totaling $50.0 million as of the end of each quarter. In addition, maximum investment in fixed assets in any fiscal year must not exceed $50.0 million.
In September 2016, we established a $750,000 standby letter of credit as security against insurance claims as required by our workers' compensation insurance policy. There has been no activity under this letter of credit since its inception.

Table of Contents

As of August 4, 2018, we were in compliance with all of our covenants and had no outstanding borrowings under the revolving credit facility.

Note 5: Commitments and Contingencies

From time to time, we may become involved in lawsuits and other claims arising from our ordinary course of business. We have established loss provisions of approximately $4.7 million for matters in which losses are probable and can be reasonably estimated. For some matters, we are currently unable to predict the ultimate outcome, determine whether a liability has been incurred or make an estimate of the reasonably possible liability that could result from an unfavorable outcome because of the uncertainties related to the incurrence, amount and range of loss on any pending litigation or claim. Because of the unpredictable nature of these matters, we cannot provide any assurances regarding the outcome of any litigation or claim to which we are a party or that the ultimate outcome of any of the matters threatened or pending against us, including those disclosed below, will not have a material adverse effect on our financial condition, results of operations or cash flows.

Juan Carlos Gonzales, on behalf of himself and all others similarly situated, v. Tilly’s Inc. et al, Superior Court of California, County of Orange, Case No. 30-2017-00948710-CU-OE-CXC. In October 2017, the plaintiff filed a putative class action against us, alleging various violations of California’s wage and hour laws. The complaint seeks class certification, unspecified damages, unpaid wages, penalties, restitution, interest, and attorneys’ fees and costs. In December 2017, we filed an answer to the complaint, denying all of the claims and asserting various defenses. In April 2018, the plaintiff filed a separate action under the Private Attorneys General Act (PAGA) against us seeking penalties on behalf of himself and other similarly situated employees for the same alleged violations of California's wage and hour laws. We requested the plaintiff to dismiss the class action claims based on an existing class action waiver in an arbitration agreement which plaintiff signed with our co-defendant, BaronHR, the staffing company that employed plaintiff to work at the Company. In June 2018, the plaintiff's class action complaint was dismissed. We have defended this case vigorously, and will continue to do so.

Lauren Minniti, on behalf of herself and all others similarly situated, v. Tilly’s, Inc., United States District Court, Southern District of Florida, Case No. 0:17-cv-60237-FAM. On January 30, 2017, the plaintiff filed a putative class action lawsuit against us, alleging violations of the Telephone Consumer Protection Act of 1991 (the “TCPA”). Specifically, the complaint asserted a violation of the TCPA for allegedly sending unsolicited automated messages to the cellular telephones of the plaintiff and others. The complaint sought class certification and damages of $500 per violation plus treble damages under the TCPA. In March 2017, we filed our initial response to this matter with the court. In June 2017, the parties attended a mediation. In July 2017, the parties reached an agreement in principle to settle this matter, subject to court approval, and we recorded an estimated loss provision of $6.2 million in connection with the proposed settlement during the second quarter of fiscal 2017. In March 2018, the parties executed a settlement agreement, subject to final court approval. In April 2018, the court preliminarily approved the settlement agreement and certified a class for settlement purposes. In May 2018, the class members were sent notice of the settlement and in August 2018, the court granted final approval of the settlement. As a result, we recorded a $1.5 million reduction in our original accrual estimate to reflect the final required cash payments to be made as part of this settlement. Additionally, we are required to issue non-transferable discount coupons to approximately 612,000 existing Tillys customers not covered by the cash payments in early September 2018. These coupons entitle the recipient to a one-time 50% discount on a single purchase transaction of up to $1,000. Any unused coupons will expire upon the one year anniversary of the date of issuance. We cannot reasonably estimate the number of coupons that will be utilized, the timing of any coupon usage, the average transaction value utilizing these coupons, or the potential impact of their usage on our reported comparable store net sales, product margins and earnings per share over the course of the next twelve months, but the potential impact could be material and adverse. In particular, we generally expect that the usage of these coupons will have a positive impact on our comparable store net sales, and a negative impact on our product margins, although we cannot reasonably estimate the magnitude of such impacts. The potential impact on our operating income will depend on a variety of factors that cannot be reasonably estimated at this time, including but not limited to the factors described above.

Skylar Ward, on behalf of herself and all others similarly situated, v. Tilly’s, Inc., Superior Court of California, County of Los Angeles, Case No. BC595405. In September 2015, the plaintiff filed a putative class action lawsuit against us

alleging, among other things, various violations of California's wage and hour laws. The complaint sought class certification, unspecified damages, unpaid wages, penalties, restitution, and attorneys' fees. In June 2016, the court granted our demurrer to the plaintiff's complaint on the grounds that the plaintiff failed to state a cause of action against Tilly's and dismissed the complaint. Specifically, the court agreed with us that the plaintiff's cause of action for reporting-time pay fails as a matter of law as the plaintiff and other putative class members did not "report for work" with respect to certain shifts on which the plaintiff's claims are based. In November 2016, the court entered a written order sustaining our demurrer to the plaintiff's complaint and dismissing all of plaintiff's causes of action with prejudice. In January 2017, the plaintiff filed an appeal of the order to the California Court of Appeal. In October 2017, the plaintiff filed her opening appellate brief, and our responding appellate brief was filed in December 2017. In May 2018, the plaintiff filed her reply appellate brief. Later in May 2018, an amicus brief was filed by Abercrombie & Fitch Stores, Inc., in support of Tilly's position in this appeal. Oral arguments have been scheduled by the court for November 2018. We have defended this case vigorously, and will continue to do so.

Table of Contents

In June 2015, we and one of our vendors entered into a settlement arrangement with a plaintiff who filed a copyright infringement lawsuit against the vendor and us related to certain vendor products we sell. The settlement required that the vendor pay $2.0 million to the plaintiff over three years, and we agreed to guarantee such payments in exchange for a security interest in the vendor's intellectual property. We concluded this matter with the final settlement payment on June 5, 2018. The total settlement amount paid by us was not materially different from the amount previously accrued.

Note 6: Fair Value Measurements

We determine fair value based on a three-level valuation hierarchy as described below. Fair value is defined as the exit price associated with the sale of an asset or transfer of a liability in an orderly transaction between market participants at the measurement date. The three-level hierarchy of inputs used to determine fair value is as follows:

- Level 1 – Quoted prices in active markets for identical assets and liabilities.
- Level 2 – Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets and liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 – Unobservable inputs (i.e. projections, estimates, interpretations, etc.) that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

We measure certain financial assets at fair value on a recurring basis, including our marketable securities, which are classified as either available-for-sale or held-to-maturity securities, and certain cash equivalents, specifically money market securities, commercial paper and bonds. The money market accounts are valued based on quoted market prices in active markets. The marketable securities are valued based on other observable inputs for those securities (including market corroborated pricing or other models that utilize observable inputs such as interest rates and yield curves) based on information provided by independent third party entities.

From time to time, we measure certain assets at fair value on a non-recurring basis, including evaluation of long-lived assets for impairment using Company specific assumptions which would fall within Level 3 of the fair value hierarchy.

Fair value calculations contain significant judgments and estimates, which may differ from actual results due to, among other things, economic conditions, changes to the business model or changes in operating performance.

During the three and six months ended August 4, 2018 and July 29, 2017, we did not make any transfers between Level 1 and Level 2 financial assets. Furthermore, as of August 4, 2018, February 3, 2018 and July 29, 2017, we did not have any Level 3 financial assets. We conduct reviews on a quarterly basis to verify pricing, assess liquidity and determine if significant inputs have changed that would impact the fair value hierarchy disclosure.

Financial Assets

We have categorized our financial assets based on the priority of the inputs to the valuation technique for the instruments as follows (in thousands):

	August 4, 2018			February 3, 2018			July 29, 2017		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
Cash equivalents (1):									
Money market securities	$32,556	$—	$ —	$46,441	$—	$ —	$35,508	$—	$ —
Marketable securities:									
Commercial paper	$—	$54,507	$ —	$—	$59,589	$ —	$—	$44,883	$ —
Fixed income securities	—	24,081	—	—	23,161	—	—	21,181	—

(1) Excluding cash.

Impairment of Long-Lived Assets

An impairment is recorded on a long-lived asset used in operations whenever events or changes in circumstances indicate that the net carrying amounts for such asset may not be recoverable. Important factors that could result in an impairment review include, but are not limited to, significant under-performance relative to historical or planned operating results, significant changes in the manner of use of the assets or significant changes in our business strategies. An evaluation is performed using estimated undiscounted future cash flows from operating activities

compared to the carrying value of related assets for the individual stores. If the undiscounted future cash flows are less than the carrying value, an impairment loss is recognized for the difference between the carrying value and the estimated fair value of the assets based on the discounted cash flows of the assets using a rate that approximates our weighted average cost of capital. With regard to retail store assets, which are comprised of

Table of Contents

leasehold improvements, fixtures and computer hardware and software, we consider the assets at each individual retail store to represent an asset group. In addition, we have considered the relevant valuation techniques that could be applied without undue cost and effort and have determined that the discounted estimated future cash flow approach provides the most relevant and reliable means by which to determine fair value in this circumstance.

On a quarterly basis, we assess whether events or changes in circumstances have occurred that potentially indicate the carrying value of long-lived assets may not be recoverable. During the three and six months ended August 4, 2018, based on Level 3 inputs of historical operating performance, including sales trends, gross margin rates, current cash flows from operations and the projected outlook for each of our stores, we determined that two of our stores would not be able to generate sufficient cash flows over the remaining term of the related lease to recover our investment in the respective store. As a result, we recorded non-cash impairment charges during the three and six months ended August 4, 2018 of approximately $0.6 million and $0.8 million, respectively, to write-down the carrying value of certain long-lived store assets to zero.

	Three Months Ended		Six Months Ended	
	August 4, 2018	July 29, 2017	August 4, 2018	July 29, 2017
	($ in thousands)			
Carrying value of assets with impairment	$641	$451	$786	$451
Number of stores tested for impairment	4	6	5	8
Number of stores with impairment	1	2	2	2

Note 7: Share-Based Compensation

The Tilly's, Inc. 2012 Amended and Restated Equity and Incentive Plan, as amended in June 2014 (the "2012 Plan"), authorizes up to 4,413,900 shares for issuance of options, shares or rights to acquire our Class A common stock and allows for, among other things, operating income and comparable store sales growth targets as additional performance goals that may be used in connection with performance-based awards granted under the 2012 Plan. As of August 4, 2018, there were 1,496,740 shares still available for future issuance under the 2012 Plan.

Stock Options

We grant stock options to certain employees that give them the right to acquire our Class A common stock under the 2012 Plan. The exercise price of options granted is equal to the closing price per share of our stock at the date of grant. The nonqualified options vest at a rate of 25% on each of the first four anniversaries of the grant date provided that the award recipient continues to be employed by us through each of those vesting dates, and expire ten years from the date of grant.

The following table summarizes the stock option activity for the six months ended August 4, 2018 (aggregate intrinsic value in thousands):

	Stock Options	Grant Date Weighted Average Exercise Price	Weighted Average Remaining Contractual Life (in Years)	Aggregate Intrinsic Value (1)
Outstanding at February 3, 2018	1,851,250	$ 9.50		
Granted	301,625	$ 11.33		
Exercised	(149,875)	$ 9.85		
Forfeited	(41,000)	$ 8.94		
Expired	(13,500)	$ 15.30		
Outstanding at August 4, 2018	1,948,500	$ 9.73	7.1	$ 11,056
Vested and expected to vest at August 4, 2018	1,948,500	$ 9.73	7.1	$ 11,056
Exercisable at August 4, 2018	946,375	$ 11.14	5.5	$ 4,102

(1)

Intrinsic value for stock options is defined as the difference between the market price of our Class A common stock on the last business day of the fiscal quarter and the weighted average exercise price of in-the-money stock options outstanding at the end of each fiscal period. The market value per share was $15.34 at August 4, 2018.

The stock option awards were measured at fair value on the grant date using the Black-Scholes option valuation model. Key input assumptions used to estimate the fair value of stock options include the exercise price of the award, the expected option term, expected volatility of our stock over the option’s expected term, the risk-free interest rate over the option’s expected term

Table of Contents

and our expected annual dividend yield, if any. We account for forfeitures as they occur. We will issue shares of Class A common stock when the options are exercised.

The fair values of stock options granted during the six months ended August 4, 2018 and three and six months ended July 29, 2017 were estimated on the grant date using the following assumptions. There were no stock options granted during the three months ended August 4, 2018.

	Three Months Ended		Six Months Ended	
	August 4, 2018	July 29, 2017	August 4, 2018	July 29, 2017
Weighted average grant-date fair value per option granted	NA	$4.60	$5.35	$4.02
Expected option term (1)	NA	5.0 years	5.0 years	5.0 years
Weighted average expected volatility factor (2)	NA	50.5%	51.6%	51.4%
Weighted average risk-free interest rate (3)	NA	1.8%	2.6%	1.9%
Expected annual dividend yield	NA	—%	—%	—%

NA - Not applicable

(1) We have limited historical information regarding expected option term. Accordingly, we determine the expected option term of the awards using the latest historical data available from comparable public companies and management's expectation of exercise behavior.

(2) Stock volatility for each grant is measured using the weighted average of historical daily price changes of our common stock over the most recent period equal to the expected option term of the awards.

(3) The risk-free interest rate is determined using the rate on treasury securities with the same term as the expected life of the stock option as of the grant date.

Restricted Stock

Restricted stock awards ("RSAs") represent restricted shares of our common stock issued upon the date of grant in which the recipient's rights in the stock are restricted until the shares are vested, and restricted stock units ("RSUs") represent a commitment to issue shares of our common stock in the future upon vesting. Under the 2012 Plan, we may grant RSAs to independent members of our Board of Directors and RSUs to certain employees. RSAs granted to our Board of Directors vest at a rate of 50% on each of the first two anniversaries of the grant date provided that the respective award recipient continues to serve on our Board of Directors through each of those vesting dates. RSUs granted to certain employees vest at a rate of 25% on each of the first four anniversaries of the grant date provided that the respective recipient continues to be employed by us through each of those vesting dates. We determine the fair value of restricted stock underlying the RSAs and RSUs based upon the closing price of our Class A common stock on the date of grant.

A summary of the status of non-vested restricted stock changes during the six months ended August 4, 2018 are presented below:

	Restricted Stock	Weighted Average Grant-Date Fair Value
Nonvested at February 3, 2018	109,532	$ 12.24
Granted	21,476	$ 14.90
Vested	(67,732)	$ 11.08
Forfeited	(1,125)	$ 16.07
Nonvested at August 4, 2018	62,151	$ 14.36

Share-based compensation expense associated with stock options and restricted stock is recognized on a straight-line basis over the requisite service period. The following table summarizes share-based compensation recorded in the Consolidated Statements of Operations (in thousands):

	Three Months Ended		Six Months Ended	
	August 4, 2018	July 29, 2017	August 4, 2018	July 29, 2017
Cost of goods sold	$127	$159	$267	$300
Selling, general and administrative expenses	420	459	860	895
Share-based compensation	$547	$618	$1,127	$1,195

Table of Contents

At August 4, 2018, there was $4.2 million of total unrecognized stock-based compensation expense related to unvested stock options and restricted stock. This cost has a weighted average remaining recognition of 2.5 years.

Note 8: Income/(Loss) Per Share

Income/(loss) per share is computed under the provisions of ASC 260, Earnings Per Share. Basic income/(loss) per share is computed based on the weighted average number of common shares outstanding during the period. Diluted income/(loss) per share is computed based on the weighted average number of shares of common stock plus the effect of dilutive potential common shares outstanding during the period using the treasury stock method, whereby proceeds from such exercise, unamortized compensation and hypothetical excess tax benefits, if any, on share-based awards are assumed to be used by us to purchase the common shares at the average market price during the period. Potentially dilutive shares of common stock represent outstanding stock options and RSAs.

The components of basic and diluted income/(loss) per share are as follows (in thousands, except per share amounts):

	Three Months Ended		Six Months Ended	
	August 4, 2018	July 29, 2017	August 4, 2018	July 29, 2017
Net income/(loss)	$9,689	$(596)	$10,911	$(757)
Weighted average basic shares outstanding	29,209	28,751	29,145	28,728
Dilutive effect of stock options and restricted stock	472	—	422	—
Weighted average shares for diluted income per share	29,681	28,751	29,567	28,728
Basic income/(loss) per share of Class A and Class B common stock	$0.33	$(0.02)	$0.37	$(0.03)
Diluted income/(loss) per share of Class A and Class B common stock	$0.33	$(0.02)	$0.37	$(0.03)

The following stock options and restricted stock have been excluded from the calculation of diluted income/(loss) per share as the effect of including these stock options and restricted stock would have been anti-dilutive (in thousands):

	Three Months Ended		Six Months Ended	
	August 4, 2018	July 29, 2017	August 4, 2018	July 29, 2017
Stock options	600	2,184	600	2,184
Restricted stock	22	112	22	112
Total	622	2,296	622	2,296

Table of Contents

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of the financial condition and results of our operations should be read together with the financial statements and related notes of Tilly’s, Inc. included in Part I Item 1 of this Quarterly Report on Form 10-Q and with our audited consolidated financial statements and the related notes included in our Annual Report on Form 10-K for the fiscal year ended February 3, 2018. As used in this Quarterly Report on Form 10-Q, except where the context otherwise requires or where otherwise indicated, the terms “the Company”, “World of Jeans & Tops”, “we”, “our”, “us”, "Tillys" and “Tilly’s” refer to Tilly’s, Inc. and its subsidiary.

Cautionary Statement Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements that involve risks and uncertainties, as well as assumptions that, if they never materialize or prove incorrect, could cause our results to differ materially from those expressed or implied by such forward-looking statements. The statements contained in this Quarterly Report on Form 10-Q that are not purely historical are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act. Forward-looking statements are often identified by the use of words such as, but not limited to, “anticipate”, “believe”, “can”, “continue”, “could”, “estimate”, “expect”, “intend”, “may”, “plan”, “project”, “seek”, “should”, “target”, “will”, “would
expressions or variations intended to identify forward-looking statements. These statements are based on the beliefs and assumptions of our management based on information currently available to management. These forward-looking statements are subject to numerous risks and uncertainties, including the risks and uncertainties described under the section titled “Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended February 3, 2018, those identified in this “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and elsewhere in this Quarterly Report on Form 10-Q, and in other filings we may make with the Securities and Exchange Commission from time to time. Moreover, we operate in an evolving environment. New risk factors and uncertainties emerge from time to time and it is not possible for our management to predict all risk factors and uncertainties, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors may cause actual results to differ materially from those contained in any forward-looking statement. We qualify all of our forward-looking statements by these cautionary statements.

Overview

Tillys is a destination specialty retailer of casual apparel, footwear and accessories for young men, young women, boys and girls. We offer an extensive assortment of iconic global, emerging, and proprietary brands rooted in an active and social lifestyle. Tillys started operations in 1982, when Hezy Shaked and Tilly Levine opened our first store in Orange County, California. As of August 4, 2018, we operated 226 stores in 31 states, comprised of 223 full-size stores averaging 7,600 square feet and three RSQ-branded pop-up stores averaging 2,600 square feet. We also sell our products through our e-commerce website, www.tillys.com.

Known or Anticipated Trends

The retail industry has experienced a general downward trend in customer traffic to physical stores for an extended period of time. Conversely, online shopping has generally increased and resulted in sustained online sales growth. We believe these market trends will continue, despite the improvement in store traffic that we have experienced during the last seven consecutive quarters. There can be no guarantee that our recent improvement in store traffic will continue given the broader industry trends. We will continue to focus our efforts on improving our existing stores, and expanding our online/digital capabilities through omni-channel initiatives designed to provide a seamless shopping experience for our customers, whether in-store or online.

During the second half of fiscal 2018, we currently plan to open seven new, full-size stores and close five full-size stores. We will leverage existing markets where we believe our brand recognition can be enhanced with new stores that are planned to drive additional improvement to our operating income.

As a result of the Tax Reform Act, which was signed into law in December 2017, we expect our effective income tax rate will be reduced to approximately 27% for fiscal 2018.

Pursuant to the settlement terms of a recently finalized legal matter, we are required to issue certain non-transferable discount coupons to approximately 612,000 existing Tillys customers in early September 2018 that allow for a one-time 50% discount on a single, future purchase transaction of up to $1,000. Any unused coupons will expire upon

the one year anniversary of the date of issuance. We cannot reasonably estimate the number of coupons that will be utilized, the timing of any coupon usage, the average transaction value utilizing these coupons, or the potential impact of their usage on our reported comparable store net sales, product margins and earnings per share over the course of the next twelve months, but the potential impact could be material and adverse. In particular, we generally expect that the usage of these coupons will have a positive impact on our comparable store net sales, and a negative impact on our product margins, although we cannot reasonably estimate the magnitude of such impacts. The potential impact on our operating income will depend on a variety of factors that cannot be

reasonably estimated at this time, including but not limited to the factors described above (see "Legal Proceedings" and "Risk Factors").

How We Assess the Performance of Our Business

In assessing the performance of our business, we consider a variety of performance and financial measures. The key indicators of the financial condition and operating performance of our business are net sales, comparable store sales, gross profit, selling, general and administrative expenses and operating income.

Net Sales

Net sales reflect revenue from the sale of our merchandise at store locations as well as sales of merchandise through our e-commerce platform, which is reflected in sales when the merchandise is shipped to the customer. Net sales also include shipping and handling fees for e-commerce shipments that have been shipped to the customer. Net sales are net of returns on sales during the period as well as an estimate of returns expected in the future stemming from current period sales. Net sales are adjusted for the unredeemed awards and accumulated partial points on our customer loyalty program. Revenue from the sale of gift cards is deferred and not included in net sales until the gift cards are used to purchase merchandise. However, based upon historical patterns, some gift cards will never be redeemed (referred to as gift card "breakage"). Based on our historical gift card breakage rate, gift card breakage revenue is recognized over the redemption period in proportion to actual gift card redemptions and is also included in net sales.

Our business is seasonal and as a result our revenues fluctuate from quarter to quarter. In addition, our revenues in any given quarter can be affected by a number of factors including the timing of holidays and weather patterns. The third and fourth quarters of the fiscal year, which include the back-to-school and holiday sales seasons, have historically produced stronger sales and disproportionately stronger operating results than have the first two quarters of the fiscal year.

Comparable Store Sales

Comparable store sales is a measure that indicates the change in year-over-year comparable store sales which allows us to evaluate how our store base is performing. Numerous factors affect our comparable store sales, including:

- overall economic trends;
- our ability to attract traffic to our stores and e-commerce platform;
- our ability to identify and respond effectively to consumer preferences and fashion trends;
- competition;
- the timing of our releases of new and seasonal styles;
- changes in our product mix;
- pricing;
- the level of customer service that we provide in stores and through our e-commerce platform;
- our ability to source and distribute products efficiently;
- calendar shifts of holiday or seasonal periods;
- the number and timing of store openings and the relative proportion of new stores to mature stores; and
- the timing and success of promotional and advertising efforts.

Comparable store sales are sales from our e-commerce platform and stores open at least 12 full fiscal months as of the end of the current reporting period. A remodeled, relocated or refreshed store is included in comparable store sales, both during and after construction, if the square footage of the store used to sell merchandise was not changed by more than 20% and the store was not closed for more than five days in any fiscal month. We include sales from our e-commerce platform as part of comparable store sales as we manage and analyze our business on a single omni-channel and have substantially integrated our investments and operations for our stores and e-commerce platform to give our customers seamless access and increased ease of shopping. Comparable store sales exclude gift card breakage income and e-commerce shipping and handling fee revenue. Some of our competitors and other retailers may calculate comparable or “same store” sales differently than we do. As a result, data in this report regarding our comparable store sales may not be comparable to similar data made available by other retailers.

19

Table of Contents

Gross Profit

Gross profit is equal to our net sales less our cost of goods sold. Cost of goods sold reflects the direct cost of purchased merchandise as well as buying, distribution and occupancy costs. Buying costs include compensation and benefit expense for our internal buying organization. Distribution costs include costs for receiving, processing and warehousing our store merchandise, and shipping of merchandise to or from our distribution and e-commerce fulfillment centers and to our e-commerce customers and between store locations. Occupancy costs include the rent, common area maintenance, utilities, property taxes, security and depreciation costs of all store locations. These costs are significant and can be expected to continue to increase as our company grows. The components of our reported cost of goods sold may not be comparable to those of other retail companies.

We regularly analyze the components of gross profit as well as gross profit as a percentage of net sales. Specifically we look at the initial markup on purchases, markdowns and reserves, shrinkage, buying costs, distribution costs and occupancy costs. Any inability to obtain acceptable levels of initial markups, a significant increase in our use of markdowns or a significant increase in inventory shrinkage or inability to generate sufficient sales leverage on the buying, distribution and occupancy components of cost of goods sold could have an adverse impact on our gross profit and results of operations.

Gross profit is also impacted by shifts in the proportion of sales of proprietary branded products compared to third-party branded products, as well as by sales mix shifts within and between brands and between major product departments such as 'young men's and women's apparel', footwear or accessories. A substantial shift in the mix of products could have a material impact on our results of operations. In addition, gross profit and gross profit as a percentage of net sales have historically been higher in the third and fourth quarters of the fiscal year, as these periods include the back-to-school and winter holiday selling seasons. In those periods, various costs, such as occupancy costs, generally do not increase in proportion to the seasonal sales increase.

Selling, General and Administrative Expenses

Our selling, general and administrative, or SG&A, expenses are composed of store selling expenses and corporate-level general and administrative expenses. Store selling expenses include store and regional support costs, including personnel, advertising and debit and credit card processing costs, e-commerce receiving and processing costs and store supplies costs. General and administrative expenses include the payroll and support costs of corporate functions such as executive management, legal, accounting, information systems, human resources, impairment charges and other centralized services. Store selling expenses generally vary proportionately with net sales and store growth. In contrast, general and administrative expenses are generally not directly proportional to net sales and store growth, but will be expected to increase over time to support the needs of our growing company. SG&A expenses as a percentage of net sales are usually higher in lower volume periods and lower in higher volume periods.

Operating Income

Operating income equals gross profit less SG&A expenses. Operating income excludes interest income, interest expense and income taxes. Operating income percentage measures operating income as a percentage of our net sales.

Table of Contents

Results of Operations

The following tables summarize key components of our unaudited results of operations for the periods indicated, both in dollars (in thousands) and as a percentage of our net sales.

	Three Months Ended		Six Months Ended	
	August 4, 2018	July 29, 2017	August 4, 2018	July 29, 2017

The following table presents store operating data for the periods indicated:

	Three Months Ended		Six Months Ended	
	August 4, 2018	July 29, 2017	August 4, 2018	July 29, 2017
Operating Data:				
Stores operating at end of period	226	221	226	221
Comparable store sales change (1)	4.4 %	2.1 %	2.4 %	1.4 %
Total square feet at end of period (in thousands)	1,698	1,690	1,698	1,690
Average net sales per retail store (in thousands) (2)	$616	$549	$1,109	$1,020
Average net sales per square foot (2)	$82	$72	$147	$133
E-commerce revenues (in thousands) (3)	$19,672	$16,853	$34,805	$33,105
E-commerce revenues as a percentage of net sales	12.5 %	12.1 %	12.4 %	12.7 %

(1) Comparable store sales are net sales from stores that have been open at least 12 full fiscal months as of the end of the current reporting period. A remodeled or relocated store is included in comparable store sales, both during and after construction, if the square footage of the store used to sell merchandise was not changed by more than 20% and the store was not closed for more than five days in any fiscal month. Comparable store sales include sales through our e-commerce platform but exclude gift card breakage income, deferred revenue on loyalty program and e-commerce shipping and handling fee revenue.

(2) E-commerce sales, e-commerce shipping and handling fee revenue and gift card breakage are excluded from net sales in deriving average net sales per retail store.

(3) E-commerce revenues include e-commerce sales and e-commerce shipping fee revenue.

21

Table of Contents

Second Quarter Ended August 4, 2018 Compared to Second Quarter Ended July 29, 2017

Net Sales

Net sales were $157.4 million in the second quarter of fiscal 2018 compared to $138.8 million in the second quarter of fiscal 2017, an increase of $18.6 million, or 13.4%. Approximately $12.3 million of this increase was attributable to the calendar shift impact of the 53rd week in fiscal 2017's retail calendar, which caused a portion of the back-to-school season to shift into the second quarter this year versus the third quarter last year. The remaining $6.3 million of this increase was due to higher comparable store sales and net sales from five net new stores. Comparable store sales, including e-commerce, increased 4.4%, driven by an increase in store traffic as compared to the second quarter of fiscal 2017. E-commerce revenues represented 12.5% of our total net sales, or $19.7 million, in the second quarter of fiscal 2018 compared to 12.1%, or $16.9 million, in the second quarter of fiscal 2017. Our comparable store sales growth was primarily attributable to strength in our footwear, girls, womens, mens, and accessories merchandise assortments, partially offset by weakness in our boys assortment which was down less than 1%.

Gross Profit

Gross profit was $50.1 million in the second quarter of fiscal 2018 compared to $40.9 million in the second quarter of fiscal 2017, an increase of $9.2 million, or 22.5%. Gross margin, or gross profit as a percentage of net sales, was 31.8% during the second quarter of fiscal 2018, an improvement of 230 basis points compared to 29.5% during the second quarter of fiscal 2017. The 230 basis point improvement in gross margin was primarily attributable to leveraging lower total occupancy costs on higher total net sales. Product margins were approximately flat.

Selling, General and Administrative Expenses

SG&A expenses were $37.6 million in the second quarter of fiscal 2018 compared to $42.2 million in the second quarter of fiscal 2017, a decrease of $4.5 million, or 10.7%. As a percentage of net sales, SG&A expenses were 23.9% for the second quarter of fiscal 2018, an improvement of 650 basis points compared to 30.4% during the second quarter of fiscal 2017. The components of the SG&A variances, both in terms of percentage of net sales and total dollars, were as follows:

%	$ millions	Primarily Attributable to
(5.4)%	$(7.6)	Aggregate reduction in legal matter impacts as a result of the $6.2 million loss provision established in the second quarter of fiscal 2017, which was subsequently reduced by $1.5 million during the second quarter of 2018 as a result of the court-approved terms of the final settlement of such legal matter.
(0.9)%	1.8	The percentage decrease was primarily attributable to a decrease in corporate and store payroll and benefits expenses as a percentage of net sales. The dollar increase was primarily attributable to higher sales volume, minimum wage increases in certain jurisdictions and the opening of five net new stores and corporate bonus provision increases due to improved year-over-year operations.
(0.2)%	1.3	The percentage decrease was attributable to a net decrease in all other SG&A expenses as a percentage of net sales. The dollar increase was primarily attributable to an increase in marketing spend due to a portion of the back-to-school season falling into the second quarter of fiscal 2018 versus the third quarter in fiscal 2017.
(6.5)%	$(4.5)	Total

Operating Income/(Loss)

Operating income was $12.5 million, or 7.9% of net sales, in the second quarter of fiscal 2018 compared to an operating loss of $(1.2) million, or (0.9)% of net sales, for the second quarter of fiscal 2017. Of this $13.7 million improvement in year-over-year operating income, approximately $7.6 million was attributable to the aggregate year-over-year impact of the legal matter noted above, approximately $4.2 million was attributable to the retail calendar shift impact noted earlier, and approximately $1.9 million was attributable to increased comparable store net sales results.

Income Tax Expense/(Benefit)

Income tax expense was $3.3 million in the second quarter of fiscal 2018 compared to an income tax benefit of $(0.4) million in the second quarter of fiscal 2017. Our effective tax rate was 25.3% for the second quarter of fiscal 2018.

Income tax expense/(benefit) includes discrete benefits related to stock grant activity for both periods. Income tax expense in the second quarter of fiscal 2018 also includes discrete tax benefits related to a tax method change which was impacted by the recently enacted U.S. Tax Cuts and Jobs Act of 2017.

Table of Contents

Net Income/(Loss) and Income/(Loss) Per Share

Net income was $9.7 million for the second quarter of fiscal 2018 compared to net loss of $(0.6) million for the second quarter of fiscal 2017, representing an increase of $10.3 million, attributable to the factors discussed above. Basic and diluted income per share was $0.33 for the second quarter of fiscal 2018 compared to a loss per share of $(0.02) for the second quarter of fiscal 2017.

Six Months Ended August 4, 2018 Compared to Six Months Ended July 29, 2017

Net Sales

Net sales were $281.0 million in the first half of fiscal 2018 compared to $259.8 million in the first half of fiscal 2017, an increase of $21.3 million, or 8.2%. Approximately $15.2 million of this increase was attributable to the calendar shift impact of the 53rd week in fiscal 2017's retail calendar, which caused a portion of the back-to-school season to shift into the second quarter this year versus the third quarter last year. The remaining $6.1 million of this increase was attributable to higher comparable store net sales and net sales from five net new stores. Comparable store sales, including e-commerce, increased 2.4%, driven by an increase in store traffic as compared to the first half of fiscal 2017. E-commerce revenues represented 12.4% of our total net sales, or $34.8 million, in the first half of fiscal 2018 as compared to 12.7%, or $33.1 million, in the first half of fiscal 2017. Our comparable store sales growth was primarily attributable to strength in our footwear, girls, mens, womens, and boys merchandise assortments, partially offset by weakness in our accessories assortment which was down less than 1%.

Gross Profit

Gross profit was $85.1 million in the first half of fiscal 2018 compared to $73.8 million in the first half of fiscal 2017, an increase of $11.2 million, or 15.2%. Gross margin, or gross profit as a percentage of net sales, was 30.3% and 28.4% during the first half of fiscal 2018 and fiscal 2017, respectively. This 190 basis point improvement in gross margin was primarily attributable to leveraging lower total occupancy costs on higher total net sales. Product margins were flat.

Selling, General and Administrative Expenses

SG&A expenses were $71.3 million in the first half of fiscal 2018 compared to $75.4 million in the first half of fiscal 2017, a decrease of $4.1 million, or 5.5%. As a percentage of net sales, SG&A expenses were 25.4% during the first half of fiscal 2018 and 29.0% during the first half of fiscal 2017. The components of the SG&A increase, both in terms of percentage of net sales and total dollars, were as follows:

%	$ millions	Primarily Attributable to
(2.9)%	$(7.6)	Aggregate reduction in legal matter impacts as a result of the $6.2 million loss provision established in the second quarter of fiscal 2017, which was subsequently reduced by $1.5 million during the second quarter of 2018 as a result of the court-approved terms of the final settlement of such legal matter.
(0.6)%	2.0	The percentage decrease was primarily attributable to a decrease in corporate and store payroll and benefits expenses as a percentage of net sales. The dollar increase was primarily attributable to higher sales volume, minimum wage increases in certain jurisdictions and the opening of five net new stores and corporate bonus provision increases due to improved year-over-year operations.
(0.1)%	1.5	The percentage decrease was attributable to a net decrease in all other SG&A expenses as a percentage of net sales. The dollar increase was primarily attributable to an increase in marketing spend due to a portion of the back-to-school season falling into the second quarter of fiscal 2018 versus the third quarter in fiscal 2017.
(3.6)%	$(4.1)	Total

Operating Income/(Loss)

Operating income was $13.8 million, or 4.9% of net sales, for the first half of fiscal 2018 compared to an operating loss of $(1.6) million, or (0.6)% of net sales, for the first half of fiscal 2017. Of this $15.4 million improvement in year-over-year

operating income, approximately $7.6 million was attributable to the aggregate year-over-year impact of the legal matter noted above, approximately $5.2 million was attributable to the retail calendar shift impact noted earlier, and approximately $2.6 million was attributable to increased comparable store net sales results.

Table of Contents

Income Tax Expense/(Benefit)

Income tax expense was $3.8 million, or 25.7% of income before taxes, for the first half of fiscal 2018 compared to an income tax benefit of $(0.4) million, or 33.2% of loss before taxes, for the first half of fiscal 2017. Income tax expense/(benefit) includes discrete benefits related to stock grant activity for both periods. Income tax expense for the first half of fiscal 2018 also includes discrete tax benefits related to a tax method change which was impacted by the recently enacted U.S. Tax Cuts and Jobs Act of 2017.

Net Income/(Loss) and Income/(Loss) Per Share

Net income was $10.9 million for the first half of fiscal 2018 compared to a net loss of $(0.8) million for the first half of fiscal 2017, due to the factors discussed above. Basic and diluted income per share was $0.37 for the first half of fiscal 2018 compared to a loss of $(0.03) for the first half of fiscal 2017.

Liquidity and Capital Resources

Our primary cash needs are for merchandise inventories, payroll, store rent and capital expenditures. We have historically provided for these needs from internally generated cash flows. In addition, we have access to additional liquidity through a $25.0 million revolving credit facility with Wells Fargo Bank, NA. We expect to continue to finance our operations from cash and marketable securities on hand as well as cash flows from operations without borrowing under our revolving credit facility over the next twelve months.

Working capital at August 4, 2018, was $126.5 million compared to $107.4 million at February 3, 2018, an increase of $19.1 million. The changes in our working capital during the first half of fiscal 2018 were as follows:

$ millions	Description
$107.4	Working capital at February 3, 2018
6.8	Increase in receivables for credit cards, primarily due to a portion of the back-to-school season falling into the second quarter of fiscal 2018 versus the third quarter of fiscal 2017, and an increase in tenant allowances due to an increase in net new stores
3.7	Decrease in deferred revenue primarily due to the balance sheet implementation impacts of our adoption of ASC 606, Revenue Recognition
8.6	Net increase from changes in all other current assets and liabilities
$126.5	Working capital at August 4, 2018

Cash Flow Analysis

A summary of operating, investing and financing activities is shown in the following table (in thousands):

	Six Months Ended	
	August 4, 2018	July 29, 2017
Net cash provided by operating activities	$21,950	$2,868
Net cash used in investing activities	(1,812)	(17,770)
Net cash used in financing activities	(27,702)	(20,525)
Net decrease in cash and cash equivalents	$(7,564)	$(35,427)

Net Cash Provided By Operating Activities

Operating activities consist primarily of net income adjusted for non-cash items, plus the effect on cash of changes during the period in our assets and liabilities.

Net cash flows provided by operating activities were $22.0 million during the first half of fiscal 2018 compared to $2.9 million in the first half of fiscal 2017. The $19.1 million increase in cash provided by operating activities was primarily due to higher net income and the timing of vendor payments.

Net Cash Used In Investing Activities

Cash flows from investing activities consist primarily of capital expenditures and maturities and purchases of marketable securities.

Net cash used in investing activities was $1.8 million during the first half of fiscal 2018 compared to $17.8 million during the first half of fiscal 2017. Net cash used in investing activities in the first half of fiscal 2018 consisted of purchases of marketable securities of $79.8 million and capital expenditures totaling $6.7 million, partially offset by proceeds from the

Table of Contents

maturities of marketable securities of $84.7 million. Net cash used in investing activities during the first half of fiscal 2017 consisted of purchases of marketable securities of $62.9 million and capital expenditures totaling $7.0 million, partially offset by proceeds from the maturities of marketable securities of $52.1 million.

Net Cash Used in Financing Activities

Financing activities primarily consist of cash dividend payments, taxes paid in lieu of shares issued for share based compensation, proceeds from employee exercises of stock options and payments on a capital lease obligation.

Net cash used in financing activities was $27.7 million during the first half of fiscal 2018 compared to $20.5 million during the first half of fiscal 2017. Financing activities in the first half of fiscal 2018 primarily consisted of dividends paid of $29.1 million, and taxes paid in lieu of shares issued for share based compensation of $0.1 million, partially offset by $1.5 million in proceeds from stock option exercises. Financing activities in the first half of fiscal 2017 primarily consisted of dividends paid of $20.1 million, cash payments on a capital lease obligation of $0.4 million and taxes paid in lieu of shares issued for share based compensation of $0.1 million, partially offset by $0.1 million in proceeds from stock option exercises.

Line of Credit

Our amended and restated credit agreement with Wells Fargo Bank, N.A. (the "Bank") provides for a $25.0 million revolving line of credit with a maturity date of June 26, 2020. The interest rate charged on borrowings is selected at our discretion at the time of draw between the London Interbank Offered Rate, plus 0.75%, or at the Bank’s prime rate. The agreement allows for the declaration and payment of dividends or distributions to stockholders, subject to certain limitations. On February 20, 2018 and February 24, 2017, we paid a special cash dividend of $1.00 per share and $0.70 per share, respectively, to all holders of record of issued and outstanding shares of both Class A and Class B common stock. The line of credit is secured by substantially all of our assets. As a sub-feature under the credit agreement, the Bank may also issue stand-by and/or commercial letters of credit up to $15.0 million.

We are required to maintain certain financial and non-financial covenants in accordance with the line of credit. The financial covenants require certain levels of leverage and profitability, such as (i) income before income taxes not to be less than $1.0 million (calculated at the end of each fiscal quarter on a trailing 12-month basis), (ii) a maximum ratio of 4.00 to 1.00 as of each quarter end for “Funded Debt to EBITDAR”, defined as the sum of total debt, capital leases and annual rent expense multiplied by six divided by the sum of net income, interest expense, taxes, depreciation, amortization and annual rent expense on a trailing 12-month basis, and (iii) requires minimum eligible inventory, cash, cash equivalents and marketable securities totaling $50.0 million as of the end of each quarter. In addition, maximum investment in fixed assets in any fiscal year of $50.0 million.

In September 2016, we established a $750,000 standby letter of credit as security against insurance claims as required by our workers' compensation insurance policy. There has been no activity under this letter of credit since its inception.

As of August 4, 2018, we were in compliance with all of our covenants and had no outstanding borrowings under the revolving credit facility.

Contractual Obligations

As of August 4, 2018, there were no material changes to our contractual obligations as described in the “Management’s Discussion and Analysis of Financial Condition and Results of Operations” section of our Annual Report on Form 10-K for the fiscal year ended February 3, 2018.

Off-Balance Sheet Arrangements

We are not a party to any off-balance sheet arrangements, except for operating leases, purchase obligations and our revolving credit facility.

Critical Accounting Policies and Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires the appropriate application of certain accounting policies, some of which require us to make estimates and assumptions about future events and their impact on amounts reported in our consolidated financial statements. Since future events and their impact cannot be determined with absolute certainty, the actual results will inevitably differ from our estimates. A summary of our significant accounting policies is included in Note 2 to the consolidated financial statements in our Annual Report on Form 10-K for the fiscal year ended February 3, 2018.

On February 4, 2018, we adopted new revenue recognition policies based on new revenue recognition requirements. The adoption impacted our critical accounting policies as follows:

Table of Contents

- Breakage revenue is now recognized over time in proportion to actual customer redemptions. Breakage revenue was previously recognized two full fiscal years after the gift cards were activated when the probability of redemption was considered remote.
- Revenue for merchandise shipped to the customer from a distribution center or store is now recognized at the shipping point, whereas it was previously recognized upon customer receipt.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk

As of August 4, 2018, there were no material changes in the market risks described in the "Quantitative and Qualitative Disclosure of Market Risks" section of our Annual Report on Form 10-K for the fiscal year ended February 3, 2018.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Disclosure Committee, including our Chief Executive Officer and our Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures as of August 4, 2018. The term "disclosure controls and procedures," as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, means controls and other procedures of a company that are designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to our management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure. Based on the evaluation of our disclosure controls and procedures as of August 4, 2018, our Chief Executive Officer and Chief Financial Officer concluded that, as of such date, our disclosure controls and procedures were effective at the reasonable assurance level.

Changes in Internal Control Over Financial Reporting

There was no change in our internal control over financial reporting identified in connection with the evaluation required by Rule 13a-15(d) and 15d-15(d) of the Exchange Act that occurred during the period covered by this Quarterly Report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitations on Effectiveness of Controls

Our management, including our Chief Executive Officer and Chief Financial Officer, believes that our disclosure controls and procedures and internal control over financial reporting are designed to provide reasonable assurance of achieving their objectives and are effective at the reasonable assurance level. However, our management does not expect that our disclosure controls and procedures or our internal control over financial reporting will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected.

These inherent limitations include the realities that judgments in decision making can be faulty, and that breakdowns can occur because of a simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people or by management override of the controls. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

Table of Contents

Part II. Other Information

Item 1. Legal Proceedings

From time to time, we may become involved in lawsuits and other claims arising from our ordinary course of business. We have established loss provisions of approximately $4.7 million for matters in which losses are probable and can be reasonably estimated. For some matters, we are currently unable to predict the ultimate outcome, determine whether a liability has been incurred or make an estimate of the reasonably possible liability that could result from an unfavorable outcome because of the uncertainties related to the incurrence, amount and range of loss on any pending litigation or claim. Because of the unpredictable nature of these matters, we cannot provide any assurances regarding the outcome of any litigation or claim to which we are a party or that the ultimate outcome of any of the matters threatened or pending against us, including those disclosed below, will not have a material adverse effect on our financial condition, results of operations or cash flows.

Juan Carlos Gonzales, on behalf of himself and all others similarly situated, v. Tilly’s Inc. et al, Superior Court of California, County of Orange, Case No. 30-2017-00948710-CU-OE-CXC. In October 2017, the plaintiff filed a putative class action against us, alleging various violations of California’s wage and hour laws. The complaint seeks class certification, unspecified damages, unpaid wages, penalties, restitution, interest, and attorneys’ fees and costs. In December 2017, we filed an answer to the complaint, denying all of the claims and asserting various defenses. In April 2018, the plaintiff filed a separate action under the Private Attorneys General Act (PAGA) against us seeking penalties on behalf of himself and other similarly situated employees for the same alleged violations of California's wage and hour laws. We requested the plaintiff to dismiss the class action claims based on an existing class action waiver in an arbitration agreement which plaintiff signed with our co-defendant, BaronHR, the staffing company that employed plaintiff to work at the Company. In June 2018, the plaintiff's class action complaint was dismissed. We have defended this case vigorously, and will continue to do so.

Lauren Minniti, on behalf of herself and all others similarly situated, v. Tilly’s, Inc., United States District Court, Southern District of Florida, Case No. 0:17-cv-60237-FAM. On January 30, 2017, the plaintiff filed a putative class action lawsuit against us, alleging violations of the Telephone Consumer Protection Act of 1991 (the “TCPA”). Specifically, the complaint asserted a violation of the TCPA for allegedly sending unsolicited automated messages to the cellular telephones of the plaintiff and others. The complaint sought class certification and damages of $500 per violation plus treble damages under the TCPA. In March 2017, we filed our initial response to this matter with the court. In June 2017, the parties attended a mediation. In July 2017, the parties reached an agreement in principle to settle this matter, subject to court approval, and we recorded an estimated loss provision of $6.2 million in connection with the proposed settlement during the second quarter of fiscal 2017. In March 2018, the parties executed a settlement agreement, subject to final court approval. In April 2018, the court preliminarily approved the settlement agreement and certified a class for settlement purposes. In May 2018, the class members were sent notice of the settlement and in August 2018, the court granted final approval of the settlement. As a result, we recorded a $1.5 million reduction in our original accrual estimate to reflect the actual required cash payments to be made as part of this settlement. Additionally, we are required to issue non-transferable discount coupons to approximately 612,000 existing Tillys customers not covered by the cash payments in early September 2018. These coupons entitle the recipient to a one-time 50% discount on a single purchase transaction of up to $1,000. Any unused coupons will expire upon the one year anniversary of the date of issuance. We cannot reasonably estimate the number of coupons that will be utilized, the timing of any coupon usage, the average transaction value utilizing these coupons, or the potential impact of their usage on our reported comparable store net sales, product margins and earnings per share over the course of the next twelve months, but the potential impact could be material and adverse. In particular, we generally expect that the usage of these coupons will have a positive impact on our comparable store net sales, and a negative impact on our product margins, although we cannot reasonably estimate the magnitude of such impacts. The potential impact on our operating income will depend on a variety of factors that cannot be reasonably estimated at this time, including but not limited to the factors described above.

Skylar Ward, on behalf of herself and all others similarly situated, v. Tilly’s, Inc., Superior Court of California, County of Los Angeles, Case No. BC595405. In September 2015, the plaintiff filed a putative class action lawsuit against us

alleging, among other things, various violations of California's wage and hour laws. The complaint sought class certification, unspecified damages, unpaid wages, penalties, restitution, and attorneys' fees. In June 2016, the court granted our demurrer to the plaintiff's complaint on the grounds that the plaintiff failed to state a cause of action against Tilly's and dismissed the complaint. Specifically, the court agreed with us that the plaintiff's cause of action for reporting-time pay fails as a matter of law as the plaintiff and other putative class members did not "report for work" with respect to certain shifts on which the plaintiff's claims are based. In November 2016, the court entered a written order sustaining our demurrer to the plaintiff's complaint and dismissing all of plaintiff's causes of action with prejudice. In January 2017, the plaintiff filed an appeal of the order to the California Court of Appeal. In October 2017, the plaintiff filed her opening appellate brief, and our responding appellate brief was filed in December 2017. In May 2018, the plaintiff filed her reply appellate brief. Later in May 2018, an amicus brief was filed by Abercrombie & Fitch Stores, Inc., in support of Tilly's position in this appeal. Oral arguments have been scheduled by the court for November 2018. We have defended this case vigorously, and will continue to do so.

In June 2015, we and one of our vendors entered into a settlement arrangement with a plaintiff who filed a copyright infringement lawsuit against the vendor and us related to certain vendor products we sell. The settlement required that the vendor pay $2.0 million to the plaintiff over three years, and we agreed to guarantee such payments in exchange for a security interest in the vendor's intellectual property. We concluded this matter with the final settlement payment on June 5, 2018. The total settlement amount paid by us was not materially different from the amount previously accrued.

Item 1A. Risk Factors

We operate in a rapidly changing environment that involves a number of risks that could materially and adversely affect our business, financial condition, prospects, operating results or cash flows. For a detailed discussion of the risks that affect our business, please refer to the section entitled “Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended February 3, 2018, which is supplemented by the additional risk factor set forth below. Other than as provided below, there have been no material changes to our risk factors as previously disclosed in our Annual Report on Form 10-K.

Risks Related to Our Business

In connection with a recently finalized settlement agreement, we were required to issue certain discount coupons to certain of our existing customers, which could materially and adversely affect our financial condition and results of operations.

Pursuant to the settlement terms of a recently finalized and previously disclosed legal matter, Lauren Minniti, on behalf of herself and all others similarly situated, v. Tilly’s, Inc., we are required to issue certain non-transferable discount coupons to approximately 612,000 existing Tillys customers in early September 2018 that allow for a one-time 50% discount on a single, future purchase transaction of up to $1,000. Any unused coupons will expire upon the one year anniversary of the date of issuance. We cannot reasonably estimate the number of coupons that will be utilized, the timing of any coupon usage, the average transaction value of any future purchase transactions utilizing these coupons, or the potential impact of any future coupon usage on our reported sales, product margins or operating results, but the potential impact over the course of the next twelve months could be material and could adversely affect our financial condition and results of operations.

Item 6. Exhibits

Exhibit No.	Description of Exhibit
10.1*	Settlement Agreement, effective as of August 7, 2018, by and between Lauren Minniti, on behalf of herself and a settlement class of similarly-situated persons, and Tilly's, Inc.
