Note 1: Organization and Business

Organization and Nature of Business

Genius Brands International, Inc. (“we”, “us”, “our”, or the “Company”) is a global content and brand management company that creates and licenses multimedia content. Led by industry veterans, the Company distributes its content in all formats as well as a broad range of consumer products based on its characters. In the children's media sector, the Company’s portfolio features "content with a purpose" for toddlers to tweens, which provides enrichment as well as entertainment, including tween music-driven brand *SpacePop* ; preschool property debuting on Netflix *Llama Llama*; award-winning *Baby Genius*, re-launched with new entertainment and over 40 new products; adventure comedy *Thomas Edison's Secret Lab*®, available on Netflix, public broadcast stations and the Company’s *Kid Genius* channel on Comcast's Xfinity on Demand; Warren Buffett's *Secret Millionaires Club*, created with and starring iconic investor Warren Buffett. The Company is also co-producing an all-new adult-themed animated series, *Stan Lee's Cosmic Crusaders*, with Stan Lee's Pow! Entertainment and The Hollywood Reporter.

In addition, the Company acts as licensing agent for certain brands, leveraging its existing licensing infrastructure to expand these brands into new product categories, new retailers, and new territories. These include *Llama Llama*; *From Frank*, a humor greeting card and product line; and *Celessence Technologies*, the world's leading microencapsulation company.

The Company commenced operations in January 2006, assuming all the rights and obligations of its then Chief Executive Officer, under an Asset Purchase Agreement between the Company and Genius Products, Inc., in which the Company obtained all rights, copyrights, and trademarks to the brands “Baby Genius,” “Little Genius,” “Kid Genius,” “123 Favorite Music” and “Wee Worship,” and all then existing productions under those titles. In October 2011, the Company (i) changed its domicile to Nevada from California, and (ii) changed its name to Genius Brands International, Inc. from Pacific Entertainment Corporation (the “Reincorporation”). In connection with the Reincorporation, the Company changed its trading symbol from “PENT” to “GNUS”.

On November 15, 2013, the Company entered into an Agreement and Plan of Reorganization (the “Merger Agreement”) with A Squared Entertainment LLC, a Delaware limited liability company (“A Squared”), A Squared Holdings LLC, a

California limited liability company and sole member of A Squared (the “Parent Member”) and A2E Acquisition LLC, its newly formed, wholly-owned Delaware subsidiary (“Acquisition Sub”). Upon closing of the transactions contemplated under the Merger Agreement (the “Merger”), which occurred concurrently with entering into the Merger Agreement, the Acquisition Sub merged with and into A Squared, and A Squared, as the surviving entity, became a wholly-owned subsidiary of the Company. As a result of the Merger, the Company acquired the business and operations of A Squared.

On November 4, 2016, the Company filed a certificate to change its Articles of Incorporation to effect a reverse split on a 1-for-3 basis (the “2016 Reverse Split”). The 2016 Reverse Split became effective on November 9, 2016. All common stock share and per share information in this Quarterly Report on Form 10-Q (“Form 10-Q”), including the accompanying consolidated financial statements and notes thereto, have been adjusted to reflect retrospective application of the 2016 Reverse Split, unless otherwise indicated.

Liquidity

Historically, the Company has incurred net losses. As of September 30, 2016, the Company had an accumulated deficit of \$34,793,193 and total stockholders’ equity of \$11,559,735. At September 30, 2016, the Company had current assets of \$4,167,708, including cash of \$3,642,667 and current liabilities of \$3,554,617, including certain trade payables of \$925,000 to which the Company disputes the claim, resulting in working capital of \$613,091. For the three months ended September 30, 2016 and 2015, the Company reported a net loss of \$1,530,900 and \$797,820, respectively. For the nine months ended September 30, 2016 and 2015, the Company reported a net loss of \$4,363,567 and \$2,421,938, respectively, and reported net cash used by operating activities \$1,885,328 and \$2,611,607, respectively.

During the nine months ended September 30, 2016, the Company received gross proceeds of \$2,000,000 pursuant to its distribution agreement with Sony Pictures Home Entertainment as well as \$275,000 for the settlement of a distribution agreement. Additionally, on August 8, 2016, Llama Productions LLC (“Llama Productions”), a California limited liability company and wholly-owned subsidiary of the Company, closed a \$5,275,000 multiple draw-down, non-recourse, secured, non-revolving credit facility with Bank Leumi USA for the production of its animated series *Llama Llama* (See Note 10, herein). While the Company believes that its current cash balances and receivables combined with its production facility and deal pipeline will be sufficient to fund operations for the next twelve months, there can be no assurance that cash flows from operations will continue to improve in the near future. If the Company is unable to attain profitable operations and attain positive operating cash flows, it may need to (i) seek additional funding, (ii) scale back its development or production plans, or (iii) reduce certain operations.

Note 2: Summary of Significant Accounting Policies*Basis of Presentation*

Our consolidated financial statements for the year ended December 31, 2015 and the three and nine months ended September 30, 2016, include an immaterial revision to additional paid in capital as well as retained earnings related to the beneficial conversion feature of certain preferred securities. The effect of the revision was to increase additional paid in capital by \$3,383,850 and to reduce retained earnings by the same amount with no net effect to total stockholders' equity. In accordance with Securities and Exchange Commission ("SEC") Staff Accounting Bulletin Nos. 99 and 108 ("SAB 99" and "SAB 108"), the Company has evaluated this error and, based on an analysis of quantitative and qualitative factors, has determined that it was not material to any of the reporting periods affected and no amendments to previously filed 10-Q or 10-K reports with the SEC are required.

The following table summarizes impact of these errors on the Company's consolidated financial statement, principally the consolidated balance sheet and the consolidated statement of operations as the errors and corrections are both non-cash items. All information has been adjusted for the 2016 Reverse Split.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Genius Brands International, Inc., its wholly-owned subsidiaries A Squared and Llama Productions as well as its interest in Stan Lee Comics, LLC (“Stan Lee Comics”). All significant inter-company balances and transactions have been eliminated in consolidation.

Business Combination

On November 15, 2013, the Company entered into a Merger Agreement with A Squared, the Member, and the Acquisition Sub. Upon closing of the Merger, which occurred concurrently with entering into the Merger Agreement, our Acquisition Sub merged with and into A Squared, and A Squared, as the surviving entity, became a wholly-owned subsidiary of the Company. As a result of the Merger, the Company acquired the business and operations of A Squared.

The financial statements have been prepared using the acquisition method of accounting in accordance with FASB Accounting Standards Codification (“ASC”) 805 Business Combinations.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (“U.S. GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods.

Financial Statement Reclassification

Certain account balances from prior periods have been reclassified in these consolidated financial statements to conform to current period classifications.

Cash and Cash Equivalents

The Company considers all highly liquid debt instruments with initial maturities of three months or less to be cash equivalents. Included in Cash and Cash Equivalents is \$1,000,000 that the Company deposited into a cash account to be used solely for the production of its series *Llama Llama* as a condition of its loan agreement with Bank Leumi.

Allowance for Doubtful Accounts

Accounts receivable are presented on the balance sheets net of estimated uncollectible amounts. The Company assesses its accounts receivable balances on a quarterly basis to determine collectability and records an allowance for estimated uncollectible accounts in an amount approximating anticipated losses based on historical experience and future expectations. Individual uncollectible accounts are written off against the allowance when collection of the individual accounts appears doubtful. The Company recorded an allowance for doubtful accounts of \$110,658 as of each of September 30, 2016 and December 31, 2015.

Inventories

Inventories are stated at the lower of cost (average) or market and consist of finished goods such as DVDs, CDs and other products. A reserve for slow-moving and obsolete inventory is established for all inventory deemed potentially non-saleable by management in the period in which it is determined to be potentially non-saleable. The current inventory is considered properly valued and saleable. The Company concluded that there was an appropriate reserve for slow moving and obsolete inventory of \$26,097 and \$28,813 at September 30, 2016 and December 31, 2015, respectively.

Property and Equipment

Property and equipment are recorded at cost. Depreciation on property and equipment is computed using the straight-line method over the estimated useful lives of the assets, which range from two to seven years. Maintenance, repairs, and renewals, which neither materially add to the value of the assets nor appreciably prolong their lives, are charged to expense as incurred. Gains and losses from any dispositions of property and equipment are reflected in the statement of operations.

Goodwill and Intangible Assets

Goodwill represents the excess of purchase price over the estimated fair value of net assets acquired in business combinations accounted for by the purchase method. In accordance with ASC 350 Intangibles Goodwill and Other, goodwill and certain intangible assets are presumed to have indefinite useful lives and are thus not amortized, but subject to an impairment test annually or more frequently if indicators of impairment arise. The Company completes the annual goodwill and indefinite-lived intangible asset impairment tests at the end of each fiscal year. To test for goodwill impairment, we are required to estimate the fair market value of each of our reporting units, of which we have one. While we may use a variety of methods to estimate fair value for impairment testing, our primary method is discounted cash flows. We estimate future cash flows and allocations of certain assets using estimates for future growth rates and our judgment regarding the applicable discount rates. Changes to our judgments and estimates could result in a significantly different estimate of the fair market value of the reporting units, which could result in an impairment of goodwill of indefinite lived intangible assets in future periods.

Other intangible assets have been acquired, either individually or with a group of other assets, and were initially recognized and measured based on fair value. In accordance with ASC 350 Intangible Assets, the costs of new product development and significant improvement to existing products are capitalized while routine and periodic alterations to existing products are expensed as incurred. Annual amortization of these intangible assets is computed based on the straight-line method over the remaining economic life of the asset.

Film and Television Costs

The Company capitalizes production costs for episodic series produced in accordance with ASC 926-20 Entertainment-Films - Other Assets - Film Costs. Accordingly, production costs are capitalized at actual cost and then charged against revenue based on the initial market revenue evidenced by a firm commitment over the period of commitment. The Company expenses all capitalized costs that exceed the initial market firm commitment revenue in the period of delivery of the episodes.

The Company capitalizes production costs for films produced in accordance with ASC 926-20 Entertainment-Films - Other Assets - Film Costs. Accordingly, production costs are capitalized at actual cost and then charged against revenue quarterly as a cost of production based on the relative fair value of the film(s) delivered and recognized as revenue. The Company evaluates its capitalized production costs annually and limits recorded amounts by their ability to recover such costs through expected future sales.

Additionally, the Company develops new videos, music, books and digital applications in addition to adding content, improved animation and bonus songs/features to its existing product catalog. After the initial release of the film or episodic series, the costs of significant improvement to existing products are capitalized while routine and periodic alterations to existing products are expensed as incurred.

Revenue Recognition

The Company recognizes revenue in accordance with ASC 926-605 Entertainment-Films - Revenue Recognition. Accordingly, the Company recognizes revenue when (i) persuasive evidence of a sale with a customer exists, (ii) the film is complete and has been delivered or is available for delivery, (iii) the license period of the arrangement has begun and the customer can begin its exploitation, exhibition, or sale, (iv) the arrangement fee is fixed or determinable, and (v) collection of the arrangement fee is reasonably assured.

The Company's licensing and royalty revenue represents revenue generated from license agreements that are held in conjunction with third parties that are responsible for collecting fees due and remitting to the Company its share after expenses. Revenue from licensed products is recognized when realized or realizable based on royalty reporting received from licensees. Licensing income the Company recognizes as an agent is in accordance with ASC 605-45 Revenue Recognition - Principal Agent. Accordingly, the Company's revenue is its gross billings to its customers less the amounts it pays to suppliers for their products and services.

The Company recognizes revenue related to product sales when (i) the seller's price is substantially fixed, (ii) shipment has occurred causing the buyer to be obligated to pay for product, (iii) the buyer has economic substance apart from the seller, and (iv) there is no significant obligation for future performance to directly bring about the resale of the product by the buyer as required by ASC 605 Revenue Recognition.

Stock Based Compensation

As required by ASC 718 - Stock Compensation, the Company recognizes an expense related to the fair value of our stock-based compensation awards, including stock options, using the Black-Scholes calculation as of the date of grant.

Earnings Per Share

Basic earnings (loss) per common share ("EPS") is calculated by dividing net income (loss) applicable to common shareholders by the weighted average number of shares of common stock outstanding for the period. Diluted EPS is calculated by dividing net income (loss) applicable to common shareholders by the weighted average number of shares of common stock outstanding, plus the assumed exercise of all dilutive securities using the treasury stock or "as converted" method, as appropriate. During periods of net loss, all common stock equivalents are excluded from the diluted EPS calculation because they are antidilutive.

Income Taxes

Deferred income tax assets and liabilities are recognized based on differences between the financial statement and tax basis of assets and liabilities using presently enacted tax rates. At each balance sheet date, the Company evaluates the available evidence about future taxable income and other possible sources of realization of deferred tax assets, and records a valuation allowance that reduces the deferred tax assets to an amount that represents management's best estimate of the amount of such deferred tax assets that more likely than not will be realized.

Fair value of financial instruments

The carrying amounts of cash, receivables and accrued liabilities approximate fair value due to the short-term maturity of the instruments.

We adopted ASC 820 as of January 1, 2008 for financial instruments measured at fair value on a recurring basis. ASC Topic 820 defines fair value, establishes a framework for measuring fair value in accordance with U.S. GAAP and expands disclosures about fair value measurements.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC Topic 820 establishes a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). These tiers include:

- Level 1, defined as observable inputs such as quoted prices for identical instruments in active markets;
- Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable such as quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active; and
- Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions, such as valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

Recent Accounting Pronouncements

In May 2014, the FASB issued Accounting Standards Update 2014-09, “Revenue from Contracts with Customers” (“ASU 2014-09”). ASU 2014-09 affects any entity that either enters into contracts with customers to transfer goods or services or enters into contracts for the transfer of non-financial assets unless those contracts are within the scope of other standards (e.g. insurance contracts). This ASU will supersede all revenue recognition requirements in Topic 605, Revenue Recognition, and industry-specific guidance throughout the industry topics of the codification. The guidance's core principle is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In applying the revenue principles, an entity will identify the contract(s) with a customer, identify the performance obligations, determine the transaction price, allocate the transaction price to the performance obligations and recognize revenue when the performance obligation is satisfied (either over time or at a point in time). The ASU further states that an entity should disclose sufficient information to enable users of financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts

with customers. In August 2015, the FASB issued ASU 2015-14, “Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date”, which approved a one-year deferral of the effective date of the ASU from the original effective date of annual reporting periods beginning after December 15, 2016, to annual reporting periods (including interim reporting periods) beginning after December 15, 2017, with an option for early adoption of the standard on the original effective date. Additionally, in March 2016, the FASB issued ASU 2016-08, “Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations (Reporting Revenue Gross versus Net)”, which clarified the implementation guidance on principal versus agent considerations. In April 2016, the FASB issued ASU 2016-10, “Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing”, that amended the revenue guidance on identifying performance obligations and accounting for licenses of intellectual property. In May 2016, the FASB issued ASU 2016-11 “Revenue Recognition (Topic 605) and Derivatives and Hedging (Topic 805): Rescission of SEC Guidance Because of Accounting Standards Updates 2014-09 and 2014-16 Pursuant to Staff Announcements at the March 3, 2016 EITF Meeting”, which rescinded from the FASB Accounting Standards Codification certain SEC paragraphs as a result of two SEC Staff Announcements. The FASB also issued ASU 2016-12 “Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients”, which clarified guidance on assessment of collectability, presentation of sale taxes, measurement of noncash consideration, and certain transition matters. The Company is still evaluating the impact that the provisions of ASU 2014-09 and related subsequent updates will have on the Company's condensed consolidated financial position, results of operations and cash flows.

In April 2015, the FASB issued Accounting Standards Update 2015-3, “Interest—Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs.” This update requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. We adopted this standard during the quarter ended September 30, 2016.

In February 2016, the FASB issued Accounting Standards Update 2016-02, "Leases". The standard requires lessees to recognize the assets and liabilities that arise from leases on the balance sheet. A lessee should recognize in the statement of financial position a liability to make lease payments (the lease liability) and a right-of-use asset representing its right to use the underlying asset for the lease term. The new guidance is effective for annual and interim reporting periods beginning after December 15, 2018. The amendments should be applied at the beginning of the earliest period presented using a modified retrospective approach with earlier application permitted as of the beginning of an interim or annual reporting period. We are currently evaluating the potential impact of adopting this guidance on our consolidated financial statements.

In March 2016, the FASB issued Accounting Standards Update 2016-09, "Compensation - Stock Compensation" ("ASU 2016-09"). ASU 2016-09 simplifies the accounting and reporting of certain aspects of share-based payment transactions, including income tax treatment of excess tax benefits, forfeitures, classification of share-based awards as either equity or liabilities, and classification in the statement of cash flows for certain share-based transactions related to tax benefits and tax payments. ASU 2016-09 is effective for public business entities for annual periods beginning after December 15, 2016, and interim periods within those annual periods; early adoption is permitted. We are currently evaluating the potential impact of adopting this guidance on our consolidated financial statements.

Various other accounting pronouncements have been recently issued, most of which represented technical corrections to the accounting literature or were applicable to specific industries, and are not expected to have a material effect on our financial position, results of operations, or cash flows.

In association with the Merger, the Company recognized \$10,365,805 in Goodwill, representing the excess of the fair value of the consideration for the Merger over net identifiable assets acquired. Pursuant to ASC 350-20, Goodwill is not subject to amortization but is subject to annual review to determine if certain events warrant impairment to the Goodwill asset. The Company had the following intangible assets as of September 30, 2016 and December 31, 2015:

Intangible Assets, Net	\$1,864,242	\$1,918,206

In association with the Merger, the Company acquired \$1,740,000 of Identifiable Artistic-Related Assets. These assets, related to certain properties owned by A Squared and assumed by the Company, were valued using an independent firm during the fourth quarter of 2013. Based on certain legal, regulatory, contractual, and economic factors, the Company has deemed these assets to be indefinite-lived. Hence, pursuant to ASC 350-30, these assets are not subject to amortization and are tested annually for impairment. Through September 30, 2016, the Company has not recognized any impairment expense related to these assets.

Pursuant to ASC 350-30-35, the Company reviews these intangible assets periodically to determine if the value should be retired or impaired due to recent events. During the three and nine months ended September 30, 2016 and 2015, the Company did not recognize any impairment of these assets.

During the three months ended September 30, 2016 and 2015, the Company recognized \$19,448 and \$19,999, respectively, in amortization expense related to the Trademarks, Product Masters, and Other Intangible Assets.

Note 8: Accrued Liabilities - Current

As of September 30, 2016 and December 31, 2015, the Company has the following accrued liabilities:

	9/30/2016	12/31/2015

(a) Accrued Salaries and Wages represent accrued vacation payable to employees.

As part of the Merger, the Company assumed certain liabilities from a previous member of A Squared which has claimed certain liabilities totaling \$925,000. The Company disputes the basis for this liability. As of September

(b) 30, 2016, the Company believes that the statute of limitations applicable to the assertion of any legal claim relating to the collection of these liabilities has expired and therefore believes this liability is uncollectible. The Company is working with the counterparty to extinguish this liability.

During the first quarter of 2014, the Company entered into an exclusive three-year agreement with Sony DADC, the optical disc manufacturing and fulfillment arm of Sony, to provide all CD, DVD and BD replication, packaging and distribution to the Company's direct customers. Under the terms of the long-term, exclusive supply chain services agreement, the Company will order a minimum level of disc replication, packaging and distribution

(c) services for its content across all physical media, including DVD, CD, and Blu-ray from Sony DADC. As consideration for these minimum order levels, the Company received a total of \$1,500,000, \$750,000 during the first quarter of 2014 and \$750,000 during the first quarter of 2015. At the end of the term, the Company is obligated to repay a pro-rata portion of the advance if it has not ordered a minimum number of DVD/CD units during the term.

Note 9: Short Term Debt - Related Parties

As part of the Merger, the Company acquired certain liabilities from A Squared. From time to time, A Squared required short-term advances to fund its operations and provide working capital from its founder, the Company's current Chief Executive Officer, Andrew Heyward. As of December 31, 2015, these advances totaled \$410,535. On May 4, 2016, the Company issued to Mr. Heyward 79,561 shares of common stock valued at \$5.16 per share, the day's closing stock price, in full payment and satisfaction of these advances.

These advances were interest free and had no stated maturity. The Company applied an imputed interest rate of 6% in accordance with ASC 835-30-45. During three months ended September 30, 2016 and 2015, the Company recognized imputed interest expense of \$0 and \$6,229 as a contribution to additional paid-in capital, respectively. During nine

Note 10: Production Facility

On August 8, 2016, Llama Productions LLC, a wholly-owned subsidiary of the Company, closed a \$5,275,000 multiple draw-down, secured, non-recourse, non-revolving credit facility (the "Facility") with Bank Leumi USA for the production of its animated series *Llama Llama*, (the "Series") which is configured as fifteen half-hour episodes comprised of thirty 11 minute programs to be delivered to Netflix in fall 2017. The Facility is secured by the license fees the Company will receive from Netflix for the delivery of the Series as well as the Company's copyright in the Series. The Facility has a term of 40 months and has an interest rate of either Prime plus 1% or one, three, or six month LIBOR plus 3.25%. As a condition of the loan agreement with Bank Leumi, the Company deposited \$1,000,000 into a cash account to be used solely for the production of the Series. Additionally, the Facility contains certain standard affirmative and negative non-financial covenants such as maintaining certain levels of production insurance and providing standard financial reports.

As of September 30, 2016, the Company had gross outstanding borrowing under the facility of \$385,971 against which offering costs of \$146,316 were applied resulting in net borrowings of \$239,655.

On April 2, 2014, we filed a certificate of change to our Articles of Incorporation to effect a reverse split on a 1-for-100 basis (the "2014 Reverse Split."). The 2014 Reverse Split was effective with FINRA on April 7, 2014. All common stock share and per share information in this Form 10-Q, including the accompanying consolidated financial statements and notes thereto, have been adjusted to reflect application of the 2014 Reverse Split, unless otherwise indicated. The total number of authorized shares of common stock was not adjusted in conjunction with the 2014 Reverse Split.

The 2015 Private Placement closed on November 3, 2015. Stock offering costs were \$502,218. (See Note 13 for additional information about these warrants.)

On October 6, 2016, the Board of Directors of the Company authorized a reverse stock split in preparation for the Company's anticipated uplisting on the NASDAQ Capital Market.

On November 4, 2016, the Company filed a certificate of change to the Company's Articles of Incorporation with the Secretary of State of the State of Nevada to effect a 1-for-3 reverse stock split of the Company's issued and outstanding common stock. As a result of the reverse stock split, every three shares of the Company's issued and outstanding common stock were automatically combined and reclassified into one share of the Company's common stock. The reverse stock split affected all issued and outstanding shares of common stock, as well as common stock underlying stock options and warrants outstanding. No fractional shares will be issued in connection with the reverse stock split. Stockholders who would otherwise hold a fractional share of common stock will receive an increase to their common stock as the common stock will be rounded up to a full share. The total number of authorized shares of common stock was reduced from 700,000,000 to 233,333,334 in conjunction with the reverse stock split. The reverse stock split became effective on November 9, 2016. All disclosures of shares and per share data in these consolidated financial statements and related notes have been retroactively adjusted to reflect the reverse stock split for all periods presented.

As of September 30, 2016 and December 31, 2015, there were 3,990,211 and 3,753,150 shares of common stock outstanding, respectively. Below are the changes to the Company's common stock during the nine months ended September 30, 2016:

Preferred Stock

The Company has 10,000,000 shares of preferred stock authorized with a par value of \$0.001 per share. The Board of Directors is authorized, subject to any limitations prescribed by law, without further vote or action by our stockholders, to issue from time to time shares of preferred stock in one or more series. Each series of preferred stock will have such number of shares, designations, preferences, voting powers, qualifications and special or relative rights or privileges as shall be determined by our Board of Directors, which may include, among others, dividend rights, voting rights, liquidation preferences, conversion rights and preemptive rights.

As of September 30, 2016 and December 31, 2015, there were 4,955 and 5,290 shares of Series A Preferred Stock outstanding, respectively.

On May 12, 2014, the Board of Directors authorized the designation of a class of preferred stock as “Series A Convertible Preferred Stock”. On May 14, 2014, the Company filed the Certificate of Designation, Preferences and Rights of the 0% Series A Convertible Preferred Stock with the Secretary of State of the State of Nevada.

Each share of the Series A Preferred Stock is convertible into shares of the Company’s common stock, par value \$0.001 per share, based on a conversion calculation equal to the Base Amount divided by the conversion price. The Base Amount is defined as the sum of (i) the aggregate stated value of the Series A Preferred Stock to be converted and (ii) all unpaid dividends thereon. The stated value of each share of the Series A Preferred Stock is \$1,000 and the initial conversion price is \$6.00 per share, subject to adjustment in the event of stock splits, dividends and recapitalizations. Additionally, in the event the Company issues shares of its common stock or common stock equivalents at a per share price that is lower than the conversion price then in effect, the conversion price shall be adjusted to such lower price, subject to certain exceptions. The Company is prohibited from effecting a conversion of the Series A Preferred Stock to the extent that as a result of such conversion, the investor would beneficially own more than 9.99% in the aggregate of the issued and outstanding shares of the Company’s common stock, calculated immediately after giving effect to the issuance of shares of common stock upon conversion of the Series A Preferred Stock. The shares of Series A Preferred Stock possess no voting rights.

On May 14, 2014, we entered into securities purchase agreements with certain accredited investors pursuant to which we sold an aggregate of 6,000 shares of our then newly designated Series A Convertible Preferred Stock at a price of \$1,000 per share for gross proceeds to us of \$6,000,000. Related to the sale, we incurred offering costs of \$620,085 resulting in net proceeds of \$5,379,915. The transaction closed on May 15, 2014.

As the conversion price of the Series A Preferred Stock on a converted basis was below the market price of the common shares on the closing date, this resulted in a beneficial conversion feature recorded as an “imputed” dividend of \$2,010,000. In addition, during the fourth quarter of 2015, in connection with the 2015 Private Placement in which the Company’s common stock was sold at \$3.00 per share, the conversion price of the Series A Preferred Stock decreased to \$3.00. This decrease resulted in an additional beneficial conversion feature of \$3,383,850 which has now been recognized as of the time of the 2015 Private Placement as opposed to at the time of each investor’s conversion of the Series A Preferred Stock into common stock. (See Basis of Presentation in Note 2, herein).

Note 12: Stock Options

The Company has adopted the provisions of ASC 718 - Compensation which requires companies to measure the cost of employee services received in exchange for equity instruments based on the grant date fair value of those awards and to recognize the compensation expense over the requisite service period during which the awards are expected to vest.

On December 29, 2008, the Company adopted the 2008 Stock Option Plan (the “Plan”), which provides for the issuance of qualified and non-qualified stock options to officers, directors, employees and other qualified persons. The Plan is administered by the Board of Directors of the Company or a committee appointed by the Board of Directors. The number of shares of the Company’s common stock initially reserved for issuance under the Plan was 36,667. On September 2, 2011, the stockholders holding a majority of the Company’s outstanding common stock adopted an amendment to the Company’s 2008 Stock Option Plan to increase the number of shares of common stock issuable under the plan to 166,667.

On September 18, 2015, the Company adopted the Genius Brands International, Inc. 2015 Incentive Plan (the “2015 Plan”). The 2015 Plan was approved by our stockholders in September 2015. The 2015 Plan as approved by the stockholders authorized the issuance up to an aggregate of 150,000 shares of common stock. On December 14, 2015, the Board of Directors voted to amend the 2015 Plan to increase the total number of shares that can be issued under the 2015 Plan by 1,293,334 from 150,000 shares to 1,443,334 shares. The increase in shares available for issuance under the 2015 Plan was approved by stockholders on February 3, 2016.

Note 14: Income Taxes

The Company accounts for income taxes in accordance with ASC 740 Income Taxes, which requires the recognition of deferred tax liabilities and assets at currently enacted tax rates for the expected future tax consequences of events that have been included in the financial statements or tax returns. A valuation allowance is recognized to reduce the net deferred tax asset to an amount that is more likely than not to be realized.

ASC 740 provides guidance on the accounting for uncertainty in income taxes recognized in a company's financial statements. ASC 740 requires a company to determine whether it is more likely than not that a tax position will be sustained upon examination based upon the technical merits of the position. If the more-likely-than-not threshold is met, a company must measure the tax position to determine the amount to recognize in the financial statements.

At the adoption date of January 1, 2008, the Company had no unrecognized tax benefit which would affect the effective tax rate if recognized.

The Company includes interest and penalties arising from the underpayment of income taxes in the statements of operation in the provision for income taxes. As of September 30, 2016 and December 31, 2015, the Company had no accrued interest or penalties related to uncertain tax positions.

During the nine months ended September 30, 2016 compared to September 30, 2015, this category decreased modestly by \$24,894 (7%) due the transition from one distribution partner to another.

Television & Home Entertainment revenue is generated from distribution of our properties for broadcast on television, VOD, or SVOD in domestic and foreign markets and the sale of DVDs for home entertainment. During the nine months ended September 30, 2016, Television & Home Entertainment revenue decreased 38,371 (12%) compared to the nine months ended September 30, 2015, representing the commencement of deliveries of *Thomas Edison's Secret Lab* in the third quarter of 2015.

Product sales represent physical products, including DVDs and CDs, in which we hold intellectual property rights such as trademarks and copyrights to the characters and which are manufactured and sold by us either directly at wholesale to retail stores or online retailers. During the nine months ended September 30, 2016, product sales increased by \$977 (6%) compared to the nine months ended September 30, 2015 due to direct product sales of Warren Buffet's *Secret Millionaires Club* at the Berkshire Hathaway annual shareholders' meeting offset by diminishing direct sales in the first quarter due to the exit from the direct sales business.

Cost of Sales increased \$48,821 during the nine months ended September 30, 2016 compared to the same period of 2015. The increase was primarily the result of certain non-capitalizable expenses associated with the release of *Thomas Edison's Secret Lab* as well as costs related to direct sales of Warren Buffet's *Secret Millionaires Club* at the Berkshire Hathaway Annual Shareholders' meeting. Similarly, amortization of Film and TV costs increased during the nine months ended September 30, 2016 compared to the prior period as a result of the amortization of film costs associated with the release of *Thomas Edison's Secret Lab* in the third quarter of 2015.

General and Administrative expenses consist primarily of salaries, employee benefits, as well as other expenses associated with finance, legal, facilities, marketing, rent, other professional services, and depreciation and amortization. General and administrative costs for the nine months ended September 30, 2016 increased \$1,576,087 (57%) compared to the same period in 2015. Of this increase, \$1,236,880 was attributable to stock based compensation for options granted to officers, directors, employees, and consultants in the fourth quarter of 2015.

Marketing and sales expenses increased \$344,259 (101%) for the nine months ended September 30, 2016 compared to the nine months ended September 30, 2015 primarily due to promotional efforts for our *SpacePop* and fees paid to external sales consultants for certain key agreements.

For the nine months ended September 30, 2016, other loss totaled \$252,690 compared to \$52,988 in the prior period. This \$199,702 increase was primarily due to the \$275,000 settlement of a distribution agreement with limited comparable activity in the prior period.

Liquidity and Capital Resources

Working Capital

At September 30, 2016, we had current assets of \$4,167,708, including cash of \$3,642,667 and current liabilities of \$3,554,617, including certain trade payables of \$925,000 to which we dispute the claim, resulting in working capital of \$613,091 representing a decrease of \$2,212,260 from working capital of \$2,825,351 as of December 31, 2015. During the nine months ended September 30, 2016, we received gross proceeds of \$2,000,000 pursuant to our distribution agreement with Sony Pictures Home Entertainment and \$275,000 for the settlement of a distribution agreement. Additionally, we issued to our Chief Executive Officer, Andrew Heyward, 79,561 shares of common stock valued at \$5.16 per share in satisfaction of \$410,535 in short term advances.

Credit Facility

On August 8, 2016, Llama Productions LLC, our wholly-owned subsidiary, closed a \$5,275,000 multiple draw-down, secured, non-recourse, non-revolving credit facility (the “Facility”) with Bank Leumi USA for the production of our animated series *Llama Llama* (the “Series”). The Series is configured as fifteen half-hour episodes comprised of thirty 11 minute programs to be delivered to Netflix in fall 2017. The Facility is secured by the license fees we will receive from Netflix for the delivery of the Series as well as our copyright in the Series. The Facility has a term of 40 months and has an interest rate of either Prime plus 1% or one, three, or six month LIBOR plus 3.25%. As a condition of the loan agreement with Bank Leumi, the Company deposited \$1,000,000 into a cash account to be used solely for the production of the series.

Comparison of Cash Flows for the Nine Months Ended September 30, 2016 and 2015

Cash totaled \$3,642,667 at September 30, 2016 and \$2,147,931 at September 30, 2015. The change in cash during the nine month periods ended September 30, 2016 and 2015 is as follows:

	9/30/2016	9/30/2015	Change
Cash provided (used) by operations	\$(1,885,328)	\$(2,611,607)	\$726,279
Cash provided (used) in investing activities	(7,192)	(292,074)	284,882
Cash provided (used) in financing activities	347,567	750,513	(402,946)
Increase (decrease) in cash	\$(1,544,953)	\$(2,153,168)	\$608,215

During the nine months ended September 30, 2016, our primary source of cash was financing activity proceeds from the exercise of warrants as well as proceeds from the *Llama* production facility. During the comparable period in 2015, our primary source of cash was financing activity including the collection of the second payment related to a long-term, exclusive supply chain services contract. During both periods, these funds were primarily used to fund operations.

Operating Activities

Cash used in operating activities in the nine months ended September 30, 2016 was \$1,885,328 as compared to a use of \$2,611,607 during the prior period, representing an improvement in the cash used by operating activities of \$726,279 based on the operating results discussed above as well as the receipt of the advance from Sony offset by film and television costs related to the development and production of *SpacePop*, *Llama Llama*, *Rainbow Rangers*, and *Stan Lee's Cosmic Crusaders*.

Investing Activities

Cash used in investing activities for the nine months ended September 30, 2016 was \$7,192 as compared to a use of \$292,074 for the comparable period in 2015, representing a decrease in cash used in investing activities of \$284,882. This decrease is primarily the result of approximately \$180,000 spent on leasehold improvements in our leased office space in the first quarter of 2015 and as well as the development expenditures for certain intangible assets without comparable activity in 2016.

Financing Activities

Cash generated from financing activities during the nine months ended September 30, 2016 was \$347,267 as compared to \$750,513 generated in the comparable period in 2015 representing a decrease of \$402,946. During the first quarter of 2014, we entered into a long-term, exclusive supply chain services agreement in which we will order a minimum level of disc replication, packaging and distribution services for our content across all physical media. As consideration for these minimum order levels, we received a total of \$1,500,000, \$750,000 during the first quarter of 2014 and \$750,000 during the first quarter of 2015. During the nine months ended September 30, 2016, cash generated from financing activities related to \$110,000 received from the exercise of certain outstanding warrants as well as draw-downs on the *Llama* production facility.

Capital Expenditures

As of September 30, 2016, we do not have any material commitments for capital expenditures.

Critical Accounting Policies

Our accounting policies are described in the notes to the financial statements. Below is a summary of the critical accounting policies, among others, that management believes involve significant judgments and estimates used in the preparation of our financial statements.

Principles of Consolidation

Our consolidated financial statements include the accounts of Genius Brands International, Inc., our wholly-owned subsidiaries A Squared Entertainment, LLC and Llama Productions LLC as well as our interest in Stan Lee Comics, LLC. All significant inter-company balances and transactions have been eliminated in consolidation.

Goodwill and Intangible Assets

Goodwill represents the excess of purchase price over the estimated fair value of net assets acquired in business combinations accounted for by the purchase method. In accordance with ASC Topic 350 Intangibles Goodwill and Other, goodwill and certain intangible assets are presumed to have indefinite useful lives and are thus not amortized, but subject to an impairment test annually or more frequently if indicators of impairment arise. We complete the annual goodwill and indefinite-lived intangible asset impairment tests during the fourth quarter. To test for goodwill impairment, we are required to estimate the fair market value of each of our reporting units. While we may use a variety of methods to estimate fair value for impairment testing, our primary methods are discounted cash flows. We estimate future cash flows and allocations of certain assets using estimates for future growth rates and our judgment regarding the applicable discount rates. Changes to our judgments and estimates could result in a significantly different estimate of the fair market value of the reporting units, which could result in an impairment of goodwill.

Other intangible assets have been acquired, either individually or with a group of other assets, and were initially recognized and measured based on fair value. In accordance with ASC 350 Intangible Assets, the costs of new product development and significant improvement to existing products are capitalized while routine and periodic alterations to

existing products are expensed as incurred. Annual amortization of these intangible assets is computed based on the straight-line method over the remaining economic life of the asset.

Film and Television Costs

We capitalize production costs for episodic series produced in accordance with ASC 926-20 Entertainment-Films - Other Assets - Film Costs. Accordingly, production costs are capitalized at actual cost and then charged against revenue based on the initial market revenue evidenced by a firm commitment over the period of commitment. We expense all capitalized costs that exceed the initial market firm commitment revenue in the period of delivery of the episodes.

We capitalize production costs for films produced in accordance with ASC 926-20 Entertainment-Films - Other Assets - Film Costs. Accordingly, production costs are capitalized at actual cost and then charged against revenue quarterly as a cost of production based on the relative fair value of the film(s) delivered and recognized as revenue. We evaluate our capitalized production costs annually and limits recorded amounts by their ability to recover such costs through expected future sales.

Additionally, we develop new videos, music, books and digital applications in addition to adding content, improved animation and bonus songs/features to our existing product catalog. After the initial release of the film or episodic series, the costs of significant improvement to existing products are capitalized while routine and periodic alterations to existing products are expensed as incurred.

Revenue Recognition

We recognize revenue in accordance with ASC 926-605 Entertainment-Films - Revenue Recognition. Accordingly, we recognize revenue when (i) persuasive evidence of a sale with a customer exists, (ii) the film is complete and has been delivered or is available for delivery, (iii) the license period of the arrangement has begun and the customer can begin its exploitation, exhibition, or sale, (iv) the arrangement fee is fixed or determinable, and (v) collection of the arrangement fee is reasonably assured.

Our licensing and royalty revenue represents revenue generated from license agreements that are held in conjunction with third parties that are responsible for collecting fees due and remitting to us its share after expenses. Revenue from licensed products is recognized when realized or realizable based on royalty reporting received from licensees. Licensing income we recognize as an agent is in accordance with ASC 605-45 Revenue Recognition - Principal Agent. Accordingly, our revenue is our gross billings to our customers less the amounts we pay to suppliers for their products and services.

We recognize revenue related to product sales when (i) the seller's price is substantially fixed, (ii) shipment has occurred causing the buyer to be obligated to pay for product, (iii) the buyer has economic substance apart from the seller, and (iv) there is no significant obligation for future performance to directly bring about the resale of the product by the buyer as required by ASC 605 Revenue Recognition.

Other Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods.

Off Balance Sheet Arrangements

We have no off-balance sheet arrangements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Not applicable.

ITEM 4. CONTROLS AND PROCEDURES.

Disclosure Controls and Procedures

We carried out an evaluation, under the supervision and with the participation of our management, including our chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Disclosure controls and procedures include, without limitation, controls and procedures that are designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer's management, including its principal executive and

principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Based upon our evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures are effective for the period ended September 30, 2016, in ensuring that information that we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the quarter ended September 30, 2016, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitations over Internal Controls

Internal control over financial reporting cannot provide absolute assurance of achieving financial reporting objectives because of its inherent limitations, including the possibility of human error and circumvention by collusion or overriding of controls. Accordingly, even an effective internal control system may not prevent or detect material misstatements on a timely basis. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.
