Fannie Mae is filing this report in compliance with SEC Rule 15Ga-1. The following information is

## Edgar Filing: FEDERAL NATIONAL MORTGAGE ASSOCIATION FANNIE MAE - Form ABS-15G/A

Fannie Mae filed its initial report in compliance with Rule 15Ga-1 as of February 14, 2012. Such (set forth below) outstanding as of December 31, 2011 and included all activities between and including Fannie Mae against the seller of the related mortgage loans (including activities in such period) for breaches of representations and warranties related to such mortgage loans.

In accordance with Rule 15Ga-1, Fannie Mae is filing a report on a quarterly basis approximately every three months for securities (with those exceptions as set forth below) outstanding at the beginning of that calendar quarter. The report includes demands made by Fannie Mae against the seller of the related mortgage loans (including additional demands in the reporting period) for breaches of representations and warranties related to such mortgage loans.

Because the report does not include information related to the origination date of a mortgage loan, the report will present securities based on the date on which the report was filed. In order to determine the issue date of a security, investors should visit Fannie Mae's website or utilize another third-party data source. Fannie Mae also provides the date of the Prospectus Supplement for each issuance of MBS.

Fannie Mae engages in a variety of practices with respect to mortgage loans where there are breaches of representations and warranties. If a mortgage loan from a Fannie Mae trust is determined to have a breach of representation and warranty, Fannie Mae may repurchase the mortgage loan in accordance with the terms of the related trust agreement at the time that it is determined. Such repurchase may alternatively result in a payment by the seller of the mortgage loan to reimburse Fannie Mae for the cost of such demand, as agreed to by the seller and Fannie Mae. Each such repurchase demand made by Fannie Mae against the mortgage asset in question is in the related Fannie Mae trust at the time of demand and (ii) the first receipt date of funds for repurchase, as captured in Fannie Mae's systems, is used to determine the date of repurchase.

The report will not include percentage calculations for most fields.<sup>1</sup> Because Fannie Mae routinely repurchases mortgage loans, such percentages have been removed from the related Fannie Mae trust, such percentages would tend to overstate (and are not representative) of the subject to a repurchase demand. Fannie Mae will provide the number of mortgage loans and the principal amount of such loans.

Breaches of representations and warranties generally relate to the underwriting of a mortgage loan or (ii) servicing violations. The report includes all breaches of representation and warranty, including underwriting deficiencies and those unrelated to such deficiencies. For example, a mortgage loan may be included in a mortgage pool. Such fixed-rate mortgage loan may meet Fannie Mae underwriting requirements, but Fannie Mae may repurchase the mortgage loan if the mortgage loan seller's representation and warranty that such mortgage loan bears an adjustable rate is breached.

This report includes only those Fannie Mae mortgage securities where Fannie Mae has the right to repurchase the mortgage loan in question and the related representation and warranty. These securities typically include Fannie Mae single-family MBS, Fannie Mae commercial MBS, Fannie Mae securities, including Megas, Stripped Mortgage-Backed Securities, most REMIC Securities and other securities.

As described above, the mortgage loans may not necessarily be in the related Fannie Mae trust at the time of the breach. If a mortgage loan is repurchased prior to that time, the principal amount that is paid off prior to the actual repurchase will not be reflected in subsequent reports. The report includes mortgage loans commingled throughout the report and structured products (such as REMICs) reported at the end of the reporting period. Fannie Mae reports data at a deal-group level. As the deal-groups pay off, the data will be removed from subsequent reports.

The term "Total Assets by Originator" presents, by originator, the number and issue date principal amount of mortgage loans. The term "originator" is the party that funded the mortgage loan in question. It is common practice for Fannie Mae to originate to third parties, who aggregate such mortgage loans from multiple originators and sell them to Fannie Mae. If, other than with the originators, Fannie Mae had not, prior to November 2012, obtained the names of such originators, such information (after issuance) would be prohibitively expensive. Consequently, where Fannie Mae does not have the names of such originators, the identity of such originator, but will list the originator as "Unavailable" in such cases. Fannie Mae will list the seller (which party is frequently not the originator) of the mortgage loans who has made the repurchase demand in the event of a breach of representation and warranty.

Beginning in November 2012, Fannie Mae began to require its mortgage loan sellers to identify the originator of the mortgage loan, as so provided by Fannie Mae's mortgage loan sellers, with respect to securities issued after November 2012. Such information would be prohibitively expensive. Consequently, where Fannie Mae does not have the names of such originators, the identity of such originator, but will list the originator as "Unavailable" in such cases.

Certain Fannie Mae mortgage securities, all of which were issued no later than January 1, 2001, include mortgage loans with adjustable rates. All of the mortgage loans in question were removed from the pool or were paid off prior to the end of the reporting period. Obtaining such information would be impossible or prohibitively expensive. Consequently, Fannie Mae will not report the date principal balance of such mortgage loans. The CUSIP numbers of the securities where Fannie Mae has the right to repurchase the mortgage loan in question are reported.

The term "Assets that Were Subject of Demand" presents the number and outstanding principal balance of mortgage loans that were subject to a repurchase demand.
