On May 28, 2003, the Company issued a press release announcing
its preliminary financial results for the second quarter ended April 30, 2003.
A copy of the Earnings Press Release is attached as Exhibit 99.1.
The Earnings Press Release contains information about EBITDA, a
non-GAAP financial measure. The most directly comparable GAAP financial
measure to EBITDA is income before income taxes. A reconciliation of EBITDA

Edgar Filing: HOVNANIAN ENTERPRISES INC - Form 8-K

to income before income taxes is contained in the Earnings Press Release. Management believes EBITDA to be relevant and useful information as EBITDA is a standard measure commonly reported and widely used by analysts, investors and others to measure our financial performance and our ability to service our debt obligation. EBITDA is also one of several metrics used by our management to measure the cash generated from our operations. EBITDA does not take into account substantial costs of doing business, such as income taxes and interest expense. While many in the financial community consider EBITDA to be an important measure of comparative operating performance, it should be considered in addition to, but not as a substitute for, income before income taxes, net income, cash flow provided by operating activities and other measures of financial performance prepared in accordance with accounting principles generally accepted in the United States that are presented on the financial statements included in the Company's reports filed with the SEC. Additionally, our calculation of EBITDA may be different than the calculation used by other companies and, therefore, comparability may be affected.
