

GENERAL DYNAMICS CORP
Form 10-Q
July 24, 2013

UNITED STATES SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2013

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

Commission File Number 1-3671

GENERAL DYNAMICS CORPORATION

(Exact name of registrant as specified in its charter)

Delaware 13-1673581

State or other jurisdiction of
incorporation or organization I.R.S. employer identification no.

2941 Fairview Park Drive, Suite 100 22042-4513
Falls Church, Virginia
Address of principal executive offices Zip code
(703) 876-3000

Registrant's telephone number, including area code

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer Accelerated Filer Non-Accelerated Filer Smaller Reporting Company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

349,867,839 shares of the registrant's common stock, \$1 par value per share, were outstanding on June 30, 2013.

Net cash used by discontinued operations	—	(3)
Net (decrease) increase in cash and equivalents	(109)	461
Cash and equivalents at beginning of period	2,649	3,296
Cash and equivalents at end of period	\$2,540	\$3,757
Supplemental cash flow information:		
Cash payments for:		
Income taxes	\$506	\$468
Interest	\$78	\$46

The accompanying Notes to Unaudited Consolidated Financial Statements are an integral part of these statements.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in millions, except per-share amounts or unless otherwise noted)

A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Consolidation and Classification. The unaudited Consolidated Financial Statements include the accounts of General Dynamics Corporation and our wholly owned and majority-owned subsidiaries. We eliminate all inter-company balances and transactions in the unaudited Consolidated Financial Statements.

Consistent with defense industry practice, we classify assets and liabilities related to long-term production contracts as current, even though some of these amounts may not be realized within one year.

Interim Financial Statements. The unaudited Consolidated Financial Statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. These rules and regulations permit some of the information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles (GAAP) to be condensed or omitted.

Our fiscal quarters are 13 weeks in length. Because our fiscal year ends on December 31, the number of days in our first and fourth quarters varies slightly from year to year. Operating results for the three- and six-month periods ended June 30, 2013, are not necessarily indicative of the results that may be expected for the year ending December 31, 2013.

The unaudited Consolidated Financial Statements contain all adjustments that are of a normal recurring nature necessary for a fair presentation of our results of operations and financial condition for the three- and six-month periods ended July 1, 2012, and June 30, 2013.

These unaudited Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2012.

Revenue Recognition. We account for revenues and earnings using the percentage-of-completion method. Under this method, contract costs and revenues are recognized as the work progresses, either as the products are produced or as services are rendered. We estimate the profit on a contract as the difference between the total estimated revenue and costs to complete a contract and recognize that profit over the life of the contract. If at any time the estimate of contract profitability indicates an anticipated loss on the contract, we recognize the loss in the quarter it is identified. We review and update our contract estimates regularly. We recognize changes in estimated profit on contracts under the reallocation method. Under the reallocation method, the impact of a revision in estimate is recognized prospectively over the remaining contract term. The net increase in our operating earnings (and on a diluted per-share basis) from the favorable impact of revisions in contract estimates totaled \$90 (\$0.17) and \$158 (\$0.30) for the three- and six-month periods ended July 1, 2012, and \$83 (\$0.15) and \$191 (\$0.35) for the three- and six-month periods ended June 30, 2013, respectively. In the second quarter and first half of 2013, no revisions on any one contract were material to our unaudited Consolidated Financial Statements.

Subsequent Events. We have evaluated material events and transactions that have occurred after the balance sheet date and concluded that no subsequent events have occurred that require adjustment to or disclosure in this Form 10-Q.

B. ACQUISITIONS, INTANGIBLE ASSETS AND GOODWILL

We did not acquire any businesses in the first six months of 2013. In 2012, we acquired seven businesses for an aggregate of \$444, funded by cash on hand, including two in the first half of 2012.

The changes in the carrying amount of goodwill by reporting unit for the six months ended June 30, 2013, were as follows:

	Aerospace	Combat Systems	Marine Systems	Information Systems and Technology	Total Goodwill	
December 31, 2012 (a)	\$2,697	\$2,961	\$290	\$6,100	\$12,048	
Acquisitions (b)	—	2	—	2	4	
Other (c)	(56) (66) —	(21) (143)
June 30, 2013	\$2,641	\$2,897	\$290	\$6,081	\$11,909	

(a) Goodwill on December 31, 2012, in the Information Systems and Technology reporting unit is net of \$1,994 of accumulated impairment losses.

(b) Includes adjustments during the purchase price allocation period.

(c) Consists primarily of adjustments for foreign currency translation.

Intangible assets consisted of the following:

	Gross Carrying Amount December 31, 2012	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount June 30, 2013	Accumulated Amortization	Net Carrying Amount
Contract and program intangible assets*	\$2,066	\$(1,165)\$901	\$2,067	\$(1,239)\$828
Trade names and trademarks	494	(87)407	487	(96)391
Technology and software	180	(108)72	161	(113)48
Other intangible assets	175	(172)3	166	(163)3
Total intangible assets	\$2,915	\$(1,532)\$1,383	\$2,881	\$(1,611)\$1,270

* Consists of acquired backlog and probable follow-on work and related customer relationships.

Amortization expense was \$58 and \$115 for the three- and six-month periods ended July 1, 2012, and \$42 and \$89 for the three- and six-month periods ended June 30, 2013, respectively. We expect to record amortization expense of \$165 in 2013.

C. EARNINGS PER SHARE

Earnings per Share. We compute basic earnings per share (EPS) using net earnings for the period and the weighted average number of common shares outstanding during the period. Diluted EPS generally incorporates the additional shares issuable upon the assumed exercise of stock options and the release of restricted shares and restricted stock units (RSUs). Basic and diluted weighted average shares outstanding were as follows (in thousands):

	Three Months Ended		Six Months Ended	
	July 1, 2012	June 30, 2013	July 1, 2012	June 30, 2013
Basic weighted average shares outstanding	355,048	351,110	356,017	351,492
Dilutive effect of stock options and restricted stock/RSUs*	2,325	1,822	2,349	1,732
Diluted weighted average shares outstanding	357,373	352,932	358,366	353,224

* Excludes the following outstanding options to purchase shares of common stock and nonvested restricted stock because the effect of including these options and restricted shares would be antidilutive: 2012 - 23,847 and 2013 - 16,484.

D. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market in an orderly transaction between marketplace participants. Various valuation approaches can be used to determine fair value, each requiring different valuation inputs. The following hierarchy classifies the inputs used to determine fair value into three levels:

Level 1 – quoted prices in active markets for identical assets or liabilities;

Level 2 – inputs, other than quoted prices, observable by a marketplace participant either directly or indirectly; and

Level 3 – unobservable inputs significant to the fair value measurement.

We did not have any significant non-financial assets or liabilities measured at fair value on December 31, 2012, or June 30, 2013, except for long-lived assets that were impaired in December 2012, including goodwill in our Information Systems and Technology business group.

Our financial instruments include cash and equivalents, marketable securities and other investments; accounts receivable and accounts payable; short- and long-term debt; and derivative financial instruments. The carrying values of cash and equivalents, accounts receivable and payable, and short-term debt on the Consolidated Balance Sheets approximate their fair value. The following tables present the fair values of our other financial assets and liabilities on December 31, 2012, and June 30, 2013, and the basis for determining their fair values:

	Carrying Value	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2) (a)
Financial assets (liabilities) (b)	December 31, 2012			
Other investments	\$150	\$150	\$96	\$54
Derivatives	22	22	—	22
Long-term debt, including current portion	(3,909)	(3,966)	—	(3,966)
	June 30, 2013			
Other investments	\$149	\$149	\$100	\$49
Derivatives	1	1	—	1
Long-term debt, including current portion	(3,908)	(3,775)	—	(3,775)

(a) Determined under a market approach using valuation models that incorporate observable inputs such as interest rates, bond yields and quoted prices for similar assets and liabilities.

(b) We had no Level 3 financial instruments on December 31, 2012, or June 30, 2013.

E. CONTRACTS IN PROCESS

Contracts in process represent recoverable costs and, where applicable, accrued profit related to long-term contracts that have been inventoried until the customer is billed, and consisted of the following:

	December 31, 2012	June 30, 2013
Contract costs and estimated profits	\$8,162	\$8,871
Other contract costs	1,089	1,148
	9,251	10,019
Advances and progress payments	(4,287) (4,909
Total contracts in process	\$4,964	\$5,110

Contract costs consist primarily of labor, material, overhead and G&A expenses. Other contract costs represent amounts that are not currently allocable to government contracts, such as a portion of our estimated workers' compensation obligations, other insurance-related assessments, pension and other post-retirement benefits and environmental expenses. These costs will become allocable to contracts generally after they are paid. We expect to recover these costs through ongoing business, including existing backlog and probable follow-on contracts. If the backlog in the future does not support the continued deferral of these costs, the profitability of our remaining contracts could be adversely affected.

F. INVENTORIES

Our inventories represent primarily business-jet components and are stated at the lower of cost or net realizable value. Work-in-process represents largely labor, material and overhead costs associated with aircraft in the manufacturing process and is based primarily on the estimated average unit cost of the units in a production lot. Raw materials are valued primarily on the first-in, first-out method. We record pre-owned aircraft acquired in connection with the sale of new aircraft at the lower of the trade-in value or the estimated net realizable value. Inventories consisted of the following:

	December 31, 2012	June 30, 2013
Work in process	\$1,518	\$1,657
Raw materials	1,109	1,160
Finished goods	69	56
Pre-owned aircraft	80	62
Total inventories	\$2,776	\$2,935

G. DEBT

Debt consisted of the following:

		December 31, 2012	June 30, 2013
Fixed-rate notes due:	Interest Rate		
January 2015	1.375%	\$500	\$500
July 2016	2.250%	500	500
November 2017	1.000%	895	895
July 2021	3.875%	499	499
November 2022	2.250%	990	991
November 2042	3.600%	498	498
Other	Various	27	25
Total debt		3,909	3,908
Less current portion		1	1
Long-term debt		\$3,908	\$3,907

Our fixed-rate notes are fully and unconditionally guaranteed by several of our 100-percent-owned subsidiaries (see Note O for condensed consolidating financial statements). We have the option to redeem the notes prior to their maturity in whole or part for the principal plus any accrued but unpaid interest and applicable make-whole amounts. On June 30, 2013, we had no commercial paper outstanding, but we maintain the ability to access the market. We have \$2 billion in committed bank credit facilities that provide backup liquidity to our commercial paper program. These credit facilities include a \$1 billion multi-year facility expiring in July 2016 and a \$1 billion multi-year facility expiring in July 2018 that replaces a facility that expired in July 2013. These facilities are required by the rating agencies to support our commercial paper issuances. We may renew or replace, in whole or part, these credit facilities at or prior to their expiration dates. Our commercial paper issuances and the bank credit facilities are guaranteed by several of our 100-percent-owned subsidiaries. In addition, we have approximately \$285 in committed bank credit facilities to provide backup liquidity to our European businesses.

Our financing arrangements contain a number of customary covenants and restrictions. We were in compliance with all material covenants on June 30, 2013.

H. OTHER LIABILITIES

A summary of significant other liabilities by balance sheet caption follows:

	December 31, 2012	June 30, 2013
Salaries and wages	\$835	\$754
Workers' compensation	578	529
Retirement benefits	318	328
Deferred income taxes	173	207
Other (a)	1,205	1,466
Total other current liabilities	\$3,109	\$3,284
Retirement benefits	\$5,671	\$5,606
Customer deposits on commercial contracts	849	724
Deferred income taxes	144	136
Other (b)	727	761
Total other liabilities	\$7,391	\$7,227

(a) Consists primarily of dividends payable, taxes payable, environmental remediation reserves, warranty reserves, liabilities of discontinued operations and insurance-related costs.

(b) Consists primarily of liabilities for warranty reserves and workers' compensation.

The increase in the June 30, 2013, other current liabilities amount is primarily due to \$196 of dividends payable. We did not have any dividends payable on December 31, 2012, because we paid our first quarter 2013 dividend in December 2012.

I. INCOME TAXES

Deferred Tax Assets. Our net deferred tax asset was included on the Consolidated Balance Sheets in other assets and liabilities as follows:

	December 31, 2012	June 30, 2013
Current deferred tax asset	\$44	\$33
Current deferred tax liability	(173) (207
Noncurrent deferred tax asset	1,251	1,157
Noncurrent deferred tax liability	(144) (136
Net deferred tax asset	\$978	\$847

Tax Uncertainties. For all periods open to examination by tax authorities, we periodically assess our liabilities and contingencies based on the latest available information. Where we believe there is more than a 50 percent chance that our tax position will not be sustained, we record our best estimate of the resulting tax liability, including interest, in the Consolidated Financial Statements. We include any interest or penalties incurred in connection with income taxes as part of income tax expense.

We participate in the Internal Revenue Service (IRS) Compliance Assurance Process, a real-time audit of our consolidated corporate federal income tax return. The IRS has examined our consolidated federal income tax returns through 2011.

Based on all known facts and circumstances and current tax law, we believe the total amount of unrecognized tax benefits on June 30, 2013, is not material to our results of operations, financial condition or cash flows, and if recognized, would not have a material impact on our effective tax rate. We further believe that there are no tax positions for which it is reasonably possible that the unrecognized tax benefits will significantly vary over the next 12 months, producing, individually or in the aggregate, a material effect on our results of operations, financial condition or cash flows.

J. SHAREHOLDERS' EQUITY

Dividends per Share. Dividends declared per share were \$0.51 and \$1.02 for the three- and six-month periods ended July 1, 2012, and \$0.56 and \$1.12 for the three- and six-month periods ended June 30, 2013. Cash dividends paid were \$184 and \$353 for the three- and six-month periods ended July 1, 2012, and \$198 for the six-month period ended June 30, 2013. We did not pay any dividends in the first three months of 2013 because we paid our first quarter 2013 dividend in December 2012.

Other Comprehensive Income (Loss). The tax effect for each component of other comprehensive income (OCI) consisted of the following:

	Gross Amount	Benefit (Provision) for Income Tax	Net Amount	Gross Amount	Benefit (Provision) for Income Tax	Net Amount
Three Months Ended	July 1, 2012			June 30, 2013		
Losses on cash flow hedges	\$ (55)) \$ 14	\$ (41)) \$ —	\$ —	\$ —
Unrealized gains (losses) on securities	(3)) 1	(2)) 3	—	3
Foreign currency translation adjustments	(207)) 16	(191)) (66)) 1	(65)
Change in retirement plans' funded status	64	(20)) 44	104	(37)) 67
Other comprehensive income (loss)	\$ (201)) \$ 11	\$ (190)) \$ 41	\$ (36)) \$ 5

	Gross Amount	Benefit (Provision) for Income Tax	Net Amount	Gross Amount	Benefit (Provision) for Income Tax	Net Amount
Six Months Ended	July 1, 2012			June 30, 2013		
Losses on cash flow hedges	\$ (41)) \$ 7	\$ (34)) \$ (12)) \$ 4	\$ (8)
Unrealized gains on securities	2	—	2	7	(2)) 5
Foreign currency translation adjustments	(38)) (1)	(39)) (244)) 3	(241)
Change in retirement plans' funded status	121	(40)) 81	204	(74)) 130
Other comprehensive income (loss)	\$ 44	\$ (34)) \$ 10	\$ (45)) \$ (69)) \$ (114)

The changes, net of tax, in each component of accumulated other comprehensive loss (AOCL) consisted of the following:

	Gains (Losses) on Cash Flow Hedges	Unrealized Gains on Securities	Foreign Currency Translation Adjustments	Changes in Retirement Plans' Funded Status	AOCL
Balance, December 31, 2012	\$6	\$7	\$ 1,092	\$(3,880)\$ (2,775)
OCI before reclassifications	—	5	(241)—	(236)
Amounts reclassified from AOCL	(8)—	—	130	122
Other comprehensive loss	(8)5	(241)130	(114)
Balance, June 30, 2013	\$(2)\$12	\$851	\$(3,750)\$ (2,889)

Significant amounts reclassified out of each component of AOCL consisted of the following:

Six Months Ended June 30, 2013	Amount Reclassified from AOCL	Consolidated Statement of Earnings Line Item
Losses on cash flow hedges of foreign exchange contracts	\$(12) Operating costs and expenses
	4	Tax benefit
	(8)
Changes in retirement plans' funded status		
Recognized net actuarial loss	224	*
Amortization of prior service credit	(26)*
	(68) Tax expense
	130	
Total reclassifications, net of tax	\$122	

* These AOCL components are included in our net periodic pension and other post-retirement benefit cost. See Note M for additional details.

K. DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

We are exposed to market risk, primarily from foreign currency exchange rates, interest rates, commodity prices and investments. We may use derivative financial instruments to hedge some of these risks as described below. We do not use derivatives for trading or speculative purposes.

Foreign Currency Risk. Our foreign currency exchange rate risk relates to receipts from customers, payments to suppliers and inter-company transactions denominated in foreign currencies. To the extent possible, we include terms in our contracts that are designed to protect us from this risk. Otherwise, we enter into derivative financial instruments, principally foreign currency forward purchase and sale contracts, designed to offset and minimize our risk. The one year average maturity of these instruments matches the duration of the activities that are at risk.

Interest Rate Risk. Our financial instruments subject to interest rate risk include fixed-rate long-term debt obligations and variable-rate commercial paper. However, the risk associated with these instruments is not material.

Commodity Price Risk. We are subject to risk of rising labor and commodity prices, primarily on long-term fixed-price contracts. To the extent possible, we include terms in our contracts that are designed to protect us from this risk. Some of the protective terms included in our contracts are considered derivatives but are not accounted for separately because they are clearly and closely related to the host contract. We have not entered into any material commodity hedging contracts but may do so as circumstances warrant. We do not believe that changes in labor or commodity prices will have a material impact on our results of operations or cash flows.

Investment Risk. Our investment policy allows for purchases of fixed-income securities with an investment-grade rating and a maximum maturity of up to five years. On June 30, 2013, we held \$3.8 billion in cash and equivalents, but held no marketable securities.

Hedging Activities. We had \$2.5 billion in notional forward exchange contracts outstanding on December 31, 2012, and \$2.2 billion on June 30, 2013. We recognize derivative financial instruments on the Consolidated Balance Sheets at fair value (see Note D).

We record changes in the fair value of derivative financial instruments in operating costs and expenses in the Consolidated Statements of Earnings or in OCI within the Consolidated Statements of Comprehensive Income depending on whether the derivative is designated and qualifies for hedge accounting. Gains and losses related to derivatives that qualify as cash flow hedges are deferred in OCI until the underlying transaction is reflected in earnings. We adjust derivative financial instruments not designated as cash flow hedges to market value each period and record the gain or loss in the Consolidated Statements of Earnings. The gains and losses on these instruments generally offset losses and gains on the assets, liabilities and other transactions being hedged. Gains and losses resulting from hedge ineffectiveness are recognized in the Consolidated Statements of Earnings for all derivative financial instruments, regardless of designation.

Net gains and losses recognized in earnings and OCI, including gains and losses related to hedge ineffectiveness, were not material to our results of operations for the three- and six-month periods ended July 1, 2012, and June 30, 2013. We do not expect the amount of gains and losses in OCI that will be reclassified to earnings during the next 12 months to be material.

We had no material derivative financial instruments designated as fair value or net investment hedges on December 31, 2012, or June 30, 2013.

Foreign Currency Financial Statement Translation. We translate foreign-currency balance sheets from our international businesses' functional currency (generally the respective local currency) to U.S. dollars at the end-of-period exchange rates, and statements of earnings at the average exchange rates for each period. The resulting foreign currency translation adjustments are a component of OCI.

We do not hedge the fluctuation in reported revenues and earnings resulting from the translation of these international operations' results into U.S. dollars. The impact of translating our international operations' revenues and earnings into U.S. dollars was not material to our results of operations for the three- and six-month periods ended July 1, 2012, or June 30, 2013. In addition, the effect of changes in foreign exchange rates on non-U.S. cash balances was not material in the first three months or six months of either 2012 or 2013.

L. COMMITMENTS AND CONTINGENCIES

Litigation

Termination of A-12 Program. The A-12 aircraft contract was a fixed-price incentive contract for the full-scale development and initial production of the carrier-based Advanced Tactical Aircraft with the U.S. Navy and a team composed of contractors General Dynamics and McDonnell Douglas (now a subsidiary of The Boeing Company). In January 1991, the U.S. Navy terminated the contract for default and demanded the contractors repay \$1.4 billion in unliquidated progress payments. Following the termination, the Navy agreed to defer the collection of that amount pending a negotiated settlement or other resolution. Both contractors had full responsibility to the Navy for performance under the contract, and both are jointly and severally liable for potential liabilities arising from the termination.

Over 20 years of litigation, the trial court (the U.S. Court of Federal Claims), appeals court (the Court of Appeals for the Federal Circuit) and the U.S. Supreme Court have issued various rulings, some in favor of the government and others in favor of the contractors.

On May 3, 2007, the trial court issued a decision upholding the government's determination of default. This decision was affirmed by a three-judge panel of the appeals court on June 2, 2009, and on November 24, 2009, the court of appeals denied the contractors' petitions for rehearing. On September 28, 2010, the U.S. Supreme Court granted the contractors' petitions for review as to whether the government could maintain its default claim against the contractors while invoking the state-secrets privilege to deny the contractors a defense to that claim.

On May 23, 2011, the U.S. Supreme Court vacated the judgment of the court of appeals, stating that the contractors had a plausible superior knowledge defense that had been stripped from them as a consequence of the government's assertion of the state-secrets privilege. In particular, the U.S. Supreme Court held that, in that circumstance, neither party can obtain judicial relief.

In addition, the U.S. Supreme Court remanded the case to the court of appeals for further proceedings on whether the government has an obligation to share its superior knowledge with respect to highly classified information, whether the government has such an obligation when the agreement specifies information that must be shared (as was the case with respect to the A-12 contract), and whether these questions can safely be litigated by the courts without endangering state secrets. On July 7, 2011, the appeals court remanded these issues to the trial court for further proceedings consistent with the U.S. Supreme Court's opinion. These issues remain to be resolved on remand. Recently, the government and the contractors have initiated discussions that could, if successful, lead to a settlement of this longstanding dispute. The government has submitted to Congress proposed legislation that would authorize the Navy to receive and retain payment in-kind for settlement of the A-12 litigation. Congress has not yet acted on the proposed legislation, and the parties have not reached agreement on the specific terms of any potential settlement of the case.

If settlement efforts are not successful and the case proceeds, we believe that the lower courts will ultimately rule in the contractors' favor on the remaining issues in the case. We expect this would leave all parties where they stood prior to the contracting officer's declaration of default, meaning that no money would be due from one party to another. Additionally, even if the lower courts were to ultimately sustain the government's default claim, we continue to believe that there are significant legal obstacles to the government's ability to collect any amount from the contractors given that no court has ever awarded a money judgment to the government. For these reasons, we have not recorded an accrual for this matter.

If, contrary to our expectations, the government prevails on its default claim and its recovery theories, the contractors could collectively be required to repay the government, on a joint and several basis, as much as \$1.4 billion for progress payments received for the A-12 contract plus interest. Interest was approximately \$1.6 billion on June 30, 2013. This would result in a liability to us of half of the total (based upon The Boeing Company satisfying McDonnell Douglas' obligations under the contract), or approximately \$1.5 billion pretax. Our after-tax charge would be approximately \$840, or \$2.38 per share, which would be recorded in discontinued operations. Our after-tax cash cost would be approximately \$745. We believe we have sufficient resources to satisfy our obligation if required.

Other. Various claims and other legal proceedings incidental to the normal course of business are pending or threatened against us. These matters relate to such issues as government investigations and claims, the protection of the environment, asbestos-related claims and employee-related matters. The nature of litigation is such that we cannot predict the outcome of these matters. However, based on information

currently available, we believe any potential liabilities in these proceedings, individually or in the aggregate, will not have a material impact on our results of operations, financial condition or cash flows.

Environmental

We are subject to and affected by a variety of federal, state, local and foreign environmental laws and regulations. We are directly or indirectly involved in environmental investigations or remediation at some of our current and former facilities and third-party sites that we do not own but where we have been designated a Potentially Responsible Party (PRP) by the U.S. Environmental Protection Agency or a state environmental agency. Based on historical experience, we expect that a significant percentage of the total remediation and compliance costs associated with these facilities will continue to be allowable contract costs and, therefore, recoverable under U.S. government contracts.

As required, we provide financial assurance for certain sites undergoing or subject to investigation or remediation. We accrue environmental costs when it is probable that a liability has been incurred and the amount can be reasonably estimated. Where applicable, we seek insurance recovery for costs related to environmental liabilities. We do not record insurance recoveries before collection is considered probable. Based on all known facts and analyses, we do not believe that our liability at any individual site, or in the aggregate, arising from such environmental conditions, will be material to our results of operations, financial condition or cash flows. We also do not believe that the range of reasonably possible additional loss beyond what has been recorded would be material to our results of operations, financial condition or cash flows.

Other

Portugal Program. In 2012, the Portuguese Ministry of National Defense notified our Combat Systems group's European Land Systems business that it was terminating the contract to provide 260 Pandur vehicles based on an alleged breach of contract. Subsequently, the customer drew \$75 from bank guarantees for the contract. We have asserted that we are not in breach of the contract and that the termination of the contract was invalid, and we are currently in arbitration with the customer. Given the uncertainty of receiving further payments, we reserved the receivables and contracts in process balances and accrued an estimate of the remaining costs related to the close-out of the contract, totaling \$258 in 2012. As of June 30, 2013, approximately \$195 of bank guarantees relating to the program and its related offset requirements remained outstanding. The bank guarantees could be drawn upon by the customer through 2014 and, therefore, have a possible impact on our future operating results and cash flows.

Letters of Credit and Guarantees. In the ordinary course of business, we have entered into letters of credit, bank guarantees, surety bonds and other similar arrangements with financial institutions and insurance carriers totaling approximately \$1.8 billion on June 30, 2013. In addition, from time to time in the ordinary course of business, we contractually guarantee the payment or performance obligations of our subsidiaries arising under certain contracts.

Government Contracts. As a government contractor, we are subject to U.S. government audits and investigations relating to our operations, including claims for fines, penalties, and compensatory and treble damages. We believe the outcome of such ongoing government disputes and investigations will not have a material impact on our results of operations, financial condition or cash flows.

In the performance of our contracts, we routinely request contract modifications that require additional funding from the customer. Most often, these requests are due to customer-directed changes in scope of work. While we are entitled to recovery of these costs under our contracts, the administrative process with our customer may be protracted. Based upon the circumstances, we periodically file claims or requests for equitable adjustment (REAs). In some cases, these requests are disputed by our customer. We believe our outstanding modifications and other claims will be resolved without material impact to our results of operations, financial condition or cash flows.

Aircraft Trade-ins. In connection with orders for new aircraft in funded contract backlog, our Aerospace group has outstanding options with some customers to trade in aircraft as partial consideration in their new-aircraft transaction. These trade-in commitments are structured to establish the fair market value of the trade-in aircraft at a date generally 120 or fewer days preceding delivery of the new aircraft to the customer. At that time, the customer is required to either exercise the option or allow its expiration. Any excess of the pre-established trade-in price above the fair market value at the time the new aircraft is delivered is treated as a reduction of revenue in the new-aircraft sales transaction. Product Warranties. We provide warranties to our customers associated with certain product sales. We record estimated warranty costs in the period in which the related products are delivered. The warranty liability recorded at each balance sheet date is generally based on the number of months of warranty coverage remaining for products delivered and the average historical monthly warranty payments. Warranty obligations incurred in connection with long-term production contracts are accounted for within the contract estimates at completion. Our other warranty obligations, primarily for business-jet aircraft, are included in other current and noncurrent liabilities on the Consolidated Balance Sheets.

The changes in the carrying amount of warranty liabilities for the six-month periods ended July 1, 2012, and June 30, 2013, were as follows:

Six Months Ended	July 1, 2012	June 30, 2013
Beginning balance	\$293	\$319
Warranty expense	35	52
Payments	(35) (29
Adjustments*	(8) —
Ending balance	\$285	\$342

* Includes reclassifications.

M. RETIREMENT PLANS

We provide defined-contribution benefits, as well as defined-benefit pension and other post-retirement benefits, to eligible employees.

Net periodic cost associated with our defined-benefit pension and other post-retirement benefit plans for the three- and six-month periods ended July 1, 2012, and June 30, 2013, consisted of the following:

Three Months Ended	Pension Benefits		Other Post-retirement Benefits	
	July 1, 2012	June 30, 2013	July 1, 2012	June 30, 2013
Service cost	\$71	\$80	\$3	\$4
Interest cost	131	124	14	13
Expected return on plan assets	(147) (148)(8) (7
Recognized net actuarial loss	66	106	3	6
Amortization of prior service (credit) cost	(11) (15)2	2
Net periodic cost	\$110	\$147	\$14	\$18
Six Months Ended	Pension Benefits		Other Post-retirement Benefits	
	July 1, 2012	June 30, 2013	July 1, 2012	June 30, 2013
Service cost	\$142	\$160	\$6	\$8
Interest cost	262	248	28	26
Expected return on plan assets	(294) (296)(15) (14
Recognized net actuarial loss	132	212	5	12
Amortization of prior service (credit) cost	(22) (30)4	4
Net periodic cost	\$220	\$294	\$28	\$36

Our contractual arrangements with the U.S. government provide for the recovery of contributions to our pension and other post-retirement benefit plans covering employees working in our defense business groups. For non-funded plans, our government contracts allow us to recover claims paid. Following payment, these recoverable amounts are allocated to contracts and billed to the customer in accordance with the Cost Accounting Standards (CAS) and specific contractual terms. For some of these plans, the cumulative pension and post-retirement benefit cost exceeds the amount currently allocable to contracts. To the extent recovery of the cost is considered probable based on our backlog and probable follow-on contracts, we defer the excess in contracts in process on the Consolidated Balance Sheets until the cost is allocable to contracts. See Note E for discussion of our deferred contract costs. For other plans, the amount allocated to contracts and included in revenues has exceeded the plans' cumulative benefit cost. We have deferred recognition of these excess earnings to provide a better matching of revenues and expenses. These deferrals have been classified against the plan assets on the Consolidated Balance Sheets.

In late 2011, changes were made to the CAS to harmonize the regulations with the Pension Protection Act of 2006. As a result, pension costs allocable to our contracts are expected to increase beginning in 2014 when the impact of the CAS regulations begins to take effect. For certain contracts awarded prior to February 27, 2012, we are entitled to recovery of these additional pension costs from our customers. We submitted REAs of approximately \$165 for these contracts in 2012.

N. BUSINESS GROUP INFORMATION

We operate in four business groups: Aerospace, Combat Systems, Marine Systems and Information Systems and Technology. We organize our business groups in accordance with the nature of products and services offered. These business groups derive their revenues from business aviation; combat vehicles, weapons systems and munitions; military and commercial shipbuilding and services; and communications and information technology, respectively. We measure each group's profit based on operating earnings. As a result, we do not allocate net interest, other income and expense items, and income taxes to our business groups.

Summary financial information for each of our business groups follows:

Three Months Ended	Revenues		Operating Earnings	
	July 1, 2012	June 30, 2013	July 1, 2012	June 30, 2013
Aerospace	\$1,592	\$2,053	\$257	\$389
Combat Systems	2,149	1,549	322	218

*Corporate operating results primarily consists of stock option expense.

O. CONDENSED CONSOLIDATING FINANCIAL STATEMENTS

The fixed-rate notes described in Note G are fully and unconditionally guaranteed on an unsecured, joint and several basis by certain of our 100-percent-owned subsidiaries (the guarantors). The following condensed consolidating financial statements illustrate the composition of the parent, the guarantors on a combined basis (each guarantor together with its majority owned subsidiaries) and all other subsidiaries on a combined basis.

CONDENSED CONSOLIDATING STATEMENTS OF EARNINGS (UNAUDITED)

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

BUSINESS OVERVIEW

General Dynamics is an aerospace and defense company that offers a broad portfolio of products and services in business aviation; combat vehicles, weapons systems and munitions; shipbuilding; and communications and information technology. We operate through four business groups: Aerospace, Combat Systems, Marine Systems and Information Systems and Technology. Our primary customers are the U.S. government, including the Department of Defense (DoD), intelligence community and other U.S. government customers; international governments; and a wide range of corporate and individual customers for business jets. We operate in two primary markets, defense and business aviation, with the majority of our revenues from contracts with the U.S. government. The following discussion should be read in conjunction with our 2012 Annual Report on Form 10-K and with the unaudited Consolidated Financial Statements included in this Form 10-Q.

DEFENSE BUSINESS ENVIRONMENT

Over the past several years, the level of U.S. defense spending has been negatively impacted by the country's fiscal shortfall. The Budget Control Act of 2011 (BCA) mandated a \$487 billion, or approximately 8 percent, reduction to previously-planned defense funding over the next decade. In addition, the BCA included a sequester mechanism that imposed additional defense cuts of \$500 billion, or approximately 9 percent, over nine years starting in fiscal year (FY) 2013 if the Congress did not identify a means to reduce the U.S. deficit by \$1.2 trillion. Because these means were not identified, the sequester mechanism took effect on March 1, 2013.

The FY 2013 defense budget of \$528 billion, which was passed in March 2013, incorporated the reductions mandated by the BCA but did not include the \$37 billion of cuts required by the sequester mechanism. These mandated sequester cuts have since been identified by the DoD, providing some understanding of how our customers may address sequestration in the remaining two months of FY 2013.

The President's FY 2014 budget request was submitted to the Congress in the second quarter of 2013. The FY 2014 request complies with the \$527 billion amount mandated by the BCA, but does not include the \$52 billion of FY 2014 cuts imposed by sequestration. Although it is unclear whether the mandated cuts will ultimately be included in the budget when it is approved by the Congress, the Secretary of Defense recently provided a preliminary high-level approach to implementing the cuts in FY 2014 at the Congress' request.

In the event that the budget is not approved and a continuing resolution (CR) is in effect during the fourth calendar quarter of 2013, funding will be prescribed at prior-year levels. Our financial outlook for our defense business (Combat Systems, Marine Systems and Information Systems and Technology) anticipates our estimates of the likely impact of 2013 sequestration reductions and a fourth quarter CR structured by the Congress and executed by the DoD in accordance with past practice.

RESULTS OF OPERATIONS

INTRODUCTION

An understanding of our accounting practices is important to an evaluation of our operating results. We recognize the majority of our revenues using the percentage-of-completion method of accounting. The following paragraphs explain how this method is applied in recognizing revenues and operating costs in our Aerospace and defense groups.

In the Aerospace group, contracts for new aircraft have two major phases: the manufacture of the “green” aircraft and the aircraft’s outfitting, which includes exterior painting and installation of customer-selected interiors. We record revenues on these contracts at the completion of these two phases: when green aircraft are delivered to and accepted by the customer, and when the customer accepts final delivery of the outfitted aircraft. Revenues in the Aerospace group’s other original equipment manufacturers (OEMs) completions and services businesses are recognized as work progresses or upon delivery of services. Changes in revenues result from the number and mix of new aircraft deliveries (green and outfitted), progress on aircraft completions and the level of aircraft service activity during the period.

The majority of the Aerospace group’s operating costs relates to new aircraft production for firm orders and consists of labor, material and overhead costs. The costs are accumulated in production lots and recognized as operating costs at green aircraft delivery based on the estimated average unit cost in a production lot. While changes in the estimated average unit cost for a production lot impact the level of operating costs, the amount of operating costs reported in a given period is based largely on the number and type of aircraft delivered. Operating costs in the Aerospace group’s completions and services businesses are generally recognized as incurred.

For new aircraft, operating earnings and margins are a function of the prices of our aircraft, our operational efficiency in manufacturing and outfitting the aircraft and the mix of aircraft deliveries between the higher-margin large-cabin and lower-margin mid-cabin aircraft. Additional factors affecting the group’s earnings and margins include the volume, mix and profitability of completions and services work performed, the market for pre-owned aircraft and the level of general and administrative (G&A) and net research and development (R&D) costs incurred by the group.

In the defense groups, revenue on long-term government contracts is recognized as work progresses, either as products are produced or services are rendered. As a result, changes in revenues are discussed generally in terms of volume, typically measured by the level of activity on individual contracts or programs. Year-over-year variances attributed to volume are due to changes in production or service levels and delivery schedules.

Operating costs for the defense groups consist of labor, material, subcontractor and overhead costs and are generally recognized as incurred. Variances in costs recognized from period to period primarily reflect increases and decreases in production or activity levels on individual contracts and, therefore, result largely from the same factors that drive variances in revenues.

Operating earnings and margins in the defense groups are driven by changes in volume, performance or contract mix. Performance refers to changes in profitability based on revisions to estimates at completion on individual contracts. These revisions result from increases or decreases to the estimated value of the contract, the estimated costs to complete or both. Therefore, changes in costs incurred in the period do not necessarily impact profitability. It is only when total estimated costs at completion change that profitability may be impacted. Contract mix refers to changes in the volume of higher- vs. lower-margin work. Higher or lower margins can be inherent in the contract type (e.g., fixed-price/cost-reimbursable) or type of work (e.g., development/production).

CONSOLIDATED OVERVIEW

Three Months Ended	July 1, 2012	June 30, 2013	Variance		
Revenues	\$7,922	\$7,911	\$(11) (0.1)%
Operating costs and expenses	6,952	6,951	(1) —)%
Operating earnings	970	960	(10) (1.0)%
Operating margins	12.2	% 12.1	%		
Six Months Ended	July 1, 2012	June 30, 2013	Variance		
Revenues	\$15,501	\$15,315	\$(186) (1.2)%
Operating costs and expenses	13,671	13,508	(163) (1.2)%
Operating earnings	1,830	1,807	(23) (1.3)%
Operating margins	11.8	% 11.8	%		

Our revenues and operating costs were down slightly in 2013 compared with the prior-year periods driven by lower volume in the Combat Systems group across all of our land forces-related businesses. This decrease was partially offset by increased aircraft deliveries in our Aerospace group. Operating margins were steady in 2013 on lower volume compared with the prior-year periods.

PRODUCT REVENUES AND OPERATING COSTS

Three Months Ended	July 1, 2012	June 30, 2013	Variance		
Revenues	\$4,987	\$4,877	\$(110) (2.2)%
Operating costs	3,936	3,837	(99) (2.5)%
Six Months Ended	July 1, 2012	June 30, 2013	Variance		
Revenues	\$9,705	\$9,337	\$(368) (3.8)%
Operating costs	7,700	7,366	(334) (4.3)%

Product revenues were lower in the second quarter and the first six months of 2013 compared with the prior-year periods. The decrease consisted of the following:

	Second Quarter	Six Months	
Aircraft manufacturing and outfitting	\$467	\$652	
Military vehicle production	(434) (693)
Weapons systems production	(92) (175)
Ship construction	(25) (100)
Other, net	(26) (52)
Total decrease	\$(110) \$(368)

In 2013, aircraft manufacturing and outfitting revenues increased due to additional deliveries of Gulfstream aircraft. U.S. and European military vehicle production decreased on several programs, including the U.S. Stryker, Abrams and MRAP programs and several international Duro and Eagle wheeled vehicle programs. Weapons systems revenues decreased due to lower U.S. Army spending on Hydra-70

rockets, guns and axles. The completion of the T-AKE combat-logistics ship program in late 2012 and lower volume on the DDG-1000 destroyer program due to less material purchases resulted in the decrease in ship construction revenues.

Product operating costs were lower in the second quarter and first half of 2013 compared with the prior-year periods. As shown below, the decrease in product operating costs was primarily due to lower volume. No other changes were material.

	Second Quarter	Six Months	
Primary changes due to volume:			
Aircraft manufacturing and outfitting	\$ 339	\$ 505	
Military vehicle production	(336) (572)
Weapons systems production	(64) (123)
Ship construction	(11) (49)
	(72) (239)
Other changes, net	(27) (95)
Total decrease	\$(99) \$(334)

SERVICE REVENUES AND OPERATING COSTS

Three Months Ended	July 1, 2012	June 30, 2013	Variance		
Revenues	\$2,935	\$3,034	\$99	3.4	%
Operating costs	2,491	2,590	99	4.0	%
Six Months Ended	July 1, 2012	June 30, 2013	Variance		
Revenues	\$5,796	\$5,978	\$182	3.1	%
Operating costs	4,911	5,111	200	4.1	%

Service revenues were higher in the second quarter and first half of 2013 compared with the prior-year periods. The increase consisted of the following:

	Second Quarter	Six Months	
Ship engineering and repair	\$ 131	\$ 227	
Other, net	(32) (45)
Total increase	\$99	\$182	

The increase in ship engineering and repair revenues was driven by submarine overhaul and repair work and the acquisition of an East Coast surface-ship repair yard in the second half of 2012.

Service operating costs increased in the second quarter and first six months of 2013 compared with the prior-year periods. As shown below, the increase in service operating costs was primarily due to higher volume. No other changes were material.

	Second Quarter	Six Months
Ship engineering and repair volume	\$118	\$211
Other changes, net	(19) (11
Total increase	\$99	\$200

OTHER INFORMATION

G&A Expenses

As a percentage of revenues, G&A expenses were 6.7 percent in the first half of 2013, compared with 6.8 percent in the prior-year period. We expect G&A expenses in 2013 to be approximately 6.5 percent of revenues.

Interest, Net

Net interest expense in the first six months of 2013 was \$41 compared with \$76 in the same period in 2012. The decrease in interest expense results from our debt refinancing completed in December 2012 that lowered the weighted-average interest rate on our outstanding debt from 3.9 percent to 2.2 percent. We expect full-year 2013 net interest expense to be approximately \$85.

Effective Tax Rate

Our effective tax rate for the first six months of 2012 and 2013 was 31.5 percent. We anticipate a full-year 2013 effective tax rate of approximately 32 percent.

REVIEW OF BUSINESS GROUPS

Following is a discussion of operating results and outlook for each of our business groups. For the Aerospace group, results are analyzed with respect to specific lines of products and services, consistent with how the group is managed. For the defense groups, the discussion is based on the types of products and services each group offers with a supplemental discussion of specific contracts and programs when significant to the groups' results. Information regarding our business groups also can be found in Note N to the unaudited Consolidated Financial Statements.

AEROSPACE

Three Months Ended	July 1, 2012	June 30, 2013	Variance		
Revenues	\$1,592	\$2,053	\$461	29.0	%
Operating earnings	257	389	132	51.4	%
Operating margin	16.1	% 18.9	%		

Gulfstream aircraft deliveries (in units):

Green	26	35	9	34.6	%
Outfitted	21	36	15	71.4	%

Six Months Ended

	July 1, 2012	June 30, 2013	Variance		
Revenues	\$3,215	\$3,831	\$616	19.2	%
Operating earnings	528	699	171	32.4	%
Operating margin	16.4	% 18.2	%		

Gulfstream aircraft deliveries (in units):

Green	54	65	11	20.4	%
Outfitted	40	65	25	62.5	%

Operating Results

The Aerospace group's revenues increased in the second quarter and first six months of 2013 compared with the prior-year periods. The increase consisted of the following:

	Second Quarter	Six Months
Aircraft manufacturing, outfitting and completions	\$436	\$590
Aircraft services	(18) (58
Pre-owned aircraft	43	84
Total increase	\$461	\$616

Aircraft manufacturing, outfitting and completions revenues include the manufacture and outfitting of Gulfstream business-jet aircraft as well as completions of aircraft produced by other OEMs. Aircraft manufacturing, outfitting and completions revenues increased on all of our aircraft models in the second quarter of 2013 compared to the prior-year period. In the first half of 2013, revenues increased primarily due to additional deliveries of the new G650 and G280 aircraft.

Although aircraft services revenues increased from the first to the second quarter of 2013, aircraft services revenues were lower compared to the prior-year periods due in part to the sale of three European-based maintenance facilities in the fourth quarter of 2012.

Pre-owned aircraft sales increased in 2013 as we sold three aircraft in the second quarter and five in the first half of 2013 as compared to no pre-owned aircraft sales in similar periods in 2012.

The group's operating earnings increased in the second quarter and first six months of 2013 compared with 2012. The increase consisted of the following:

	Second Quarter	Six Months
Aircraft manufacturing, outfitting and completions	\$ 138	\$ 176
Aircraft services	10	8
Pre-owned aircraft	(4) (4
G&A/other expenses	(12) (9
Total increase	\$ 132	\$ 171

Aircraft manufacturing, outfitting and completions earnings increased in 2013 primarily due to the increase in aircraft deliveries discussed above.

Outlook

We expect an increase of approximately 17 percent in the group's full-year revenues in 2013 compared with 2012, led by Gulfstream. Operating margins are expected to decrease in the second half of 2013 compared with the first half due in part to price increases from several major suppliers and a mix shift in second-half deliveries with two fewer large-cabin green deliveries in the third quarter compared to the second quarter of 2013 and an increase of three mid-cabin deliveries from our original production estimates. Full-year operating margins for the group are expected to be in the mid- to high-16 percent range.

COMBAT SYSTEMS

Three Months Ended	July 1, 2012	June 30, 2013	Variance		
Revenues	\$2,149	\$1,549	\$(600)	(27.9)%
Operating earnings	322	218	(104)	(32.3)%
Operating margins	15.0	% 14.1	%		
Six Months Ended	July 1, 2012	June 30, 2013	Variance		
Revenues	\$4,060	\$3,102	\$(958)	(23.6)%
Operating earnings	525	433	(92)	(17.5)%
Operating margins	12.9	% 14.0	%		

Operating Results

The Combat Systems group's revenues decreased in the second quarter and first half of 2013 compared with the prior-year periods. The decrease consisted of the following:

	Second Quarter	Six Months	
U.S. military vehicles	\$(415) \$(662)
Weapon systems and munitions	(126) (200)
European military vehicles	(59) (96)
Total decrease	\$(600) \$(958)

In 2013, revenues were down in the group's U.S. military vehicles business as a result of decreased U.S. Army spending on combat vehicle programs.

Lower Army spending on Hydra-70 rockets, guns, axles and ammunition also impacted revenues in 2013 in the weapons systems and munitions business. In July 2013, we announced the consolidation of our weapons systems business into our munitions business to maintain competitiveness and create opportunities for growth over time. We expect to cover the majority of our 2013 consolidation costs with savings we will realize during the year.

In the group's European military vehicle business, revenues were down due to final vehicle deliveries in 2012 under several legacy Duro and Eagle wheeled vehicle contracts for the Swiss and German governments.

Operating results in 2012 and 2013 include the negative impact of the following discrete charges in our European military vehicles business:

- \$18 of restructuring-related charges in the second quarter of 2013 to reduce the cost structure of the business commensurate with its revenue level; and

- \$67 of previously-reported out-of-period adjustments in the first quarter of 2012.

Without the charges described above, the group's operating margins were up slightly in the second quarter and first half of 2013.

Outlook

We expect the Combat Systems group's full-year revenues in 2013 to be down nearly 15 percent from 2012 given order delays from the first half to the second half of 2013, with operating margins in the mid-14 percent range.

MARINE SYSTEMS

Three Months Ended	July 1, 2012	June 30, 2013	Variance		
Revenues	\$1,653	\$1,759	\$106	6.4	%
Operating earnings	183	178	(5) (2.7)%
Operating margins	11.1	% 10.1	%		
Six Months Ended	July 1, 2012	June 30, 2013	Variance		
Revenues	\$3,258	\$3,385	\$127	3.9	%
Operating earnings	368	337	(31) (8.4)%
Operating margins	11.3	% 10.0	%		
Operating Results					

Revenues increased in the Marine Systems group in the second quarter and first half of 2013 compared with the prior-year periods. The increase consisted of the following:

	Second Quarter	Six Months
Navy ship construction	\$(28)	\$(117)
Navy ship engineering, repair and other services	131	227
Commercial ship construction	3	17
Total increase	\$106	\$127

The group's U.S. Navy ship construction programs currently include Virginia-class submarines, DDG-1000 and DDG-51 destroyers, and Mobile Landing Platform (MLP) auxiliary support ships. The decrease in 2013 construction revenues is due to the completion of the T-AKE combat-logistics ship program in late 2012 and lower volume on the DDG-1000 destroyer program due to less material purchases. Offsetting these decreases, revenues increased on the Virginia-class program due to over \$95 of additional volume in the second quarter of 2013 as the Block II contract nears completion.

Revenues were higher on engineering and repair programs for the Navy in 2013 driven by increased submarine overhaul and repair work and the acquisition of an East Coast surface-ship repair yard in the second half of 2012. Operating margins decreased in 2013 due to the completion of the mature, higher-margin T-AKE program in 2012.

Outlook

We expect the Marine Systems group's 2013 full-year revenues to remain near 2012 levels. Operating margins are expected to be in the mid- to high-9 percent range in 2013.

INFORMATION SYSTEMS AND TECHNOLOGY

Three Months Ended	July 1, 2012	June 30, 2013	Variance		
Revenues	\$2,528	\$2,550	\$22	0.9	%
Operating earnings	226	198	(28)	(12.4))%
Operating margins	8.9	% 7.8	%		
Six Months Ended	July 1, 2012	June 30, 2013	Variance		
Revenues	\$4,968	\$4,997	\$29	0.6	%
Operating earnings	444	383	(61)	(13.7))%
Operating margins	8.9	% 7.7	%		

Operating Results

The Information Systems and Technology group's revenues increased slightly in the second quarter and first half of 2013 compared with the prior-year periods. The increase consisted of the following:

	Second Quarter	Six Months	
Mobile communication systems	\$4	\$(7)
Information technology (IT) solutions and mission support services	59	97	
Intelligence, surveillance and reconnaissance (ISR) systems	(41) (61)
Total increase	\$22	\$29	

The increase in revenues in the IT services business in the second quarter and first six months of 2013 was driven by higher volume on programs to provide IT infrastructure services to commercial wireless providers and increased sales to several U.S. government customers.

Revenues decreased in 2013 across the ISR systems business driven by lower defense spending and a slower than expected transition to follow-on work on several contracts.

Operating margins decreased in 2013 compared with the prior-year periods due to an unfavorable program mix in our mobile communication systems business, poor performance in our United Kingdom business and growth in lower-margin IT services. We have consolidated our U.K. business into our North American mobile communication systems business. This consolidation was effected to improve operating and financial performance of the business over time.

Outlook

We expect 2013 full-year revenues in the Information Systems and Technology group to be down approximately 2 percent from 2012 with operating margins approaching 8 percent as productivity improvements continue to take hold and we experience a positive mix shift to some of our higher-margin legacy programs.

CORPORATE

Corporate results consist primarily of compensation expense for stock options. Corporate operating costs totaled \$23 in the second quarter of 2013 compared with \$18 in the second quarter of 2012 and \$45 in the first half of 2013 compared with \$35 in the 2012 period. We expect 2013 full-year Corporate operating costs of approximately \$90.

BACKLOG AND ESTIMATED POTENTIAL CONTRACT VALUE

Our total backlog, including funded and unfunded portions, was \$49.4 billion on June 30, 2013, up 2 percent from \$48.5 billion at the end of the first quarter of 2013. Our backlog does not include work awarded on unfunded indefinite delivery, indefinite quantity (IDIQ) contracts or unexercised options associated with existing firm contracts, which we refer to collectively as estimated potential contract value. On June 30, 2013, estimated potential contract value was \$27.7 billion, up 10 percent from \$25.2 billion at the end of first quarter of 2013.

The following table details the backlog and the estimated potential contract value of each business group at the end of the first and second quarters of 2013:

	Funded	Unfunded	Total Backlog	Estimated Potential Contract Value	Total Estimated Contract Value
	March 31, 2013				
Aerospace	\$15,029	\$197	\$15,226	\$—	\$15,226
Combat Systems	6,677	1,180	7,857	3,038	10,895
Marine Systems	12,551	3,108	15,659	2,324	17,983
Information Systems and Technology	8,158	1,551	9,709	19,811	29,520
Total	\$42,415	\$6,036	\$48,451	\$25,173	\$73,624
	June 30, 2013				
Aerospace	\$14,480	\$183	\$14,663	\$—	\$14,663
Combat Systems	5,915	1,129	7,044	3,025	10,069
Marine Systems	12,771	5,149	17,920	3,900	21,820
Information Systems and Technology	7,943	1,856	9,799	20,788	30,587
Total	\$41,109	\$8,317	\$49,426	\$27,713	\$77,139

AEROSPACE

Aerospace funded backlog represents aircraft orders for which we have definitive purchase contracts and deposits from customers. Unfunded backlog consists of agreements to provide future aircraft maintenance and support services. The group ended the second quarter of 2013 with \$14.7 billion of backlog, down from \$15.2 billion at the end of the first quarter of 2013 as we deliver on our G650 backlog. Orders were up significantly from the prior-year period and steady compared with the first quarter of 2013, and included demand for products across our portfolio. There were no customer defaults in the second quarter for the first time since 2008.

DEFENSE GROUPS

The total backlog for our defense groups represents the estimated remaining sales value of work to be performed under firm contracts. The funded portion of this backlog includes items that have been authorized and appropriated by the Congress and funded by the customer, as well as commitments by international customers that are similarly approved and funded by their governments. While there is no guarantee that future budgets and appropriations will provide funding for a given program, we have included in total backlog only firm contracts at the amounts we believe are likely to receive funding.

Total backlog in our defense groups was \$34.8 billion on June 30, 2013, up 5 percent from the first quarter of 2013, driven primarily by the Marine Systems group. Our defense groups each received notable contract awards in the quarter.

Combat Systems awards included the following:

- \$180 from the U.S. Army to extend the Technology Development (TD) phase of the Army's Ground Combat Vehicle (GCV) program by six months.

- The production of 100 EAGLE V vehicles for Germany, with an option for 76 additional vehicles.

Marine Systems awards included the following:

\$2.8 billion from the U.S. Navy for construction of four DDG-51 ships, with an option for a fifth ship.

\$210 from the Navy for long-lead material for three Virginia-class submarines under Block IV of the program.

The design and construction of four product carriers for an affiliate of American Petroleum Tankers, with options to build four additional ships.

Information Systems and Technology awards included the following:

\$560 from the Centers for Medicare and Medicaid Services for contact-center services, including the 1-800-MEDICARE program.

\$80 from the Navy for support of the Trident missile D5 life-extension program, which extends the life of existing missiles by replacing and upgrading obsolete components.

- \$65 from the Centers for Medicare and Medicaid Services for infrastructure support.

\$60 for the Army's Warfighter Field Operations Customer Support (FOCUS) program to provide support for live, virtual and constructive training operations.

\$60 from the Army for ruggedized computing equipment under the Common Hardware Systems-4 (CHS-4) program.

\$60 from the Army for the production and support of the Prophet Enhanced signals intelligence system.

\$60 from the U.S. Air Force for networking and computing products and support under the Network-Centric Solutions (NETCENTS) program.

\$55 from the Army under the Warfighter Information Network-Tactical (WIN-T) program for equipment and support services.

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

We ended the second quarter of 2013 with a cash balance of \$3.8 billion, up from \$3.3 billion at the end of 2012. Our net debt, defined as debt less cash and equivalents and marketable securities, was \$151 at the end of the second quarter of 2013, down \$462 from the end of 2012. The following is a discussion of our major operating, investing and financing activities, as classified on the Consolidated Statement of Cash Flows, in the first half of 2012 and 2013.

OPERATING ACTIVITIES

We generated cash from operating activities of \$1.1 billion in the first half of 2013 compared with \$1.2 billion in the same period in 2012. The primary driver of cash flows in both periods was net earnings offset in part by growth in operating working capital (OWC). The increase in OWC in the first half of 2013 is largely due to timing of contract activity and payments and, consistent with historical experience, is expected to largely reverse by the end of the year. Cash from operating activities in the first six months of 2013 also

includes approximately \$140 of contributions to our pension plans compared with \$100 in the first six months of 2012.

As discussed further in Note L to the unaudited Consolidated Financial Statements, litigation on the A-12 program termination has been ongoing since 1991. Recently, the government and the contractors have initiated discussions that could, if successful, lead to a settlement of this longstanding dispute. If a settlement is not reached and, contrary to our expectations, the default termination ultimately is sustained and the government prevails on its recovery theories, we, along with The Boeing Company, could collectively be required to repay the U.S. government as much as \$1.4 billion for progress payments received for the A-12 contract plus interest. Interest was approximately \$1.6 billion on June 30, 2013. If this were the outcome, we would owe half of the total, or approximately \$1.5 billion pretax. Our after-tax cash obligation would be approximately \$745. We believe we have sufficient resources, including access to capital markets, to pay such an obligation if required.

INVESTING ACTIVITIES

We used \$164 for investing activities in the first six months of 2013 compared with \$506 in the same period in 2012. The primary use of cash for investing activities in 2013 was capital expenditures. We expect capital expenditures of approximately 2 percent of anticipated revenues in 2013, as work on Gulfstream's Savannah, Georgia, facilities expansion project announced in 2010 continues.

FINANCING ACTIVITIES

Cash used for financing activities was \$455 in the first six months of 2013 compared with \$806 in the same period in 2012. Our financing activities include payment of dividends and repurchases of common stock.

On March 6, 2013, our board of directors declared an increased quarterly dividend of \$0.56 per share – the 16th consecutive annual increase. The board had increased the quarterly dividend to \$0.51 per share in March 2012. While we made a second quarter dividend payment, we did not pay any dividends in the first three months of 2013 because we paid our first quarter 2013 dividend payment in December 2012.

In the first half of 2013, we repurchased 7.6 million of our outstanding shares on the open market at an average price of \$77 per share. As 1.3 million of these shares did not settle until July 2013, an associated cash outflow of \$100 will be reported as a financing activity in the third quarter of 2013. On June 30, 2013, approximately 3.2 million shares remain authorized by our board of directors for repurchase, about 1 percent of our total shares outstanding. We repurchased 9.1 million shares at an average price of \$66 per share in the first six months of 2012.

We had no commercial paper outstanding on June 30, 2013. We have \$2 billion in bank credit facilities that remain available. These include a new \$1 billion facility expiring in July 2018 that replaces a facility that expired in July 2013 and a \$1 billion facility expiring in 2016. These facilities provide backup liquidity to our commercial paper program. We may renew or replace, in whole or part, these credit facilities at or prior to their expiration dates. We also have an effective shelf registration on file with the Securities and Exchange Commission. We have no material repayments of long-term debt expected until 2015. See Note G to the unaudited Consolidated Financial Statements for additional information regarding our debt obligations, including scheduled debt maturities.

NON-GAAP MANAGEMENT METRICS – FREE CASH FLOW

We define free cash flow from operations as net cash provided by operating activities less capital expenditures. We believe free cash flow from operations is a useful measure for investors because it portrays our ability to generate cash from our core businesses for purposes such as repaying maturing debt, funding

business acquisitions, repurchasing our common stock and paying dividends. We use free cash flow from operations to assess the quality of our earnings and as a performance measure in evaluating management.

Our free cash flow from operations for the first six months of 2013 was \$915, or 76 percent of net earnings, compared with \$1 billion and 86 percent for the same period in 2012. The following table reconciles the free cash flow from operations with net cash provided by operating activities, as classified on the unaudited Consolidated Statements of Cash Flows:

Six Months Ended	July 1, 2012	June 30, 2013
Net cash provided by operating activities	\$1,203	\$1,083
Capital expenditures	(176) (168
Free cash flow from operations	\$1,027	\$915
Cash flows as a percentage of net earnings:		
Net cash provided by operating activities	100	% 89
Free cash flow from operations	86	% 76

We expect to continue to generate funds in excess of our short- and long-term liquidity needs. We believe we have adequate funds on hand and sufficient borrowing capacity to execute our financial and operating strategy.

ADDITIONAL FINANCIAL INFORMATION

ENVIRONMENTAL MATTERS AND OTHER CONTINGENCIES

For a discussion of environmental matters and other contingencies, see Note L to the unaudited Consolidated Financial Statements. We do not expect our aggregate liability with respect to these matters to have a material impact on our results of operations, financial condition or cash flows.

APPLICATION OF CRITICAL ACCOUNTING POLICIES

Management's Discussion and Analysis of Financial Condition and Results of Operations is based on our unaudited Consolidated Financial Statements, which have been prepared in accordance with U.S. generally accepted accounting principles (GAAP). The preparation of financial statements in accordance with GAAP requires that we make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the period.

Accounting for long-term contracts and programs involves the use of various techniques to estimate total contract revenues and costs. Contract estimates are based on various assumptions to project the outcome of future events that often span several years. We review our performance monthly and update our contract estimates at least annually and often quarterly, as well as when required by specific events and circumstances. We recognize changes in estimated profit on contracts under the reallocation method. Under this method, the impact of revisions in estimates is recognized prospectively over the remaining contract term. The net increase in our operating earnings (and on a per-share basis) from the quarterly impact of revisions in contract estimates totaled \$90 (\$0.17) and \$158 (\$0.30) for the three- and six-month periods ended July 1, 2012, and \$83 (\$0.15) and \$191 (\$0.35) for the three- and six-month periods ended June 30, 2013, respectively. No revisions on any one contract were material to our unaudited Consolidated Financial Statements in the first six months of 2013.

Other significant estimates include those related to goodwill and other intangible assets, income taxes, pensions and other post-retirement benefits, workers' compensation, warranty obligations and litigation and other contingencies. We employ judgment in making our estimates but they are based on historical experience, currently available information and various other assumptions that we believe to be reasonable under the circumstances. The results of these estimates form the basis for making judgments about the carrying values of assets and liabilities that are not readily available from other sources. Actual results may differ from these estimates.

We believe that our judgment is applied consistently and produces financial information that fairly depicts the results of operations for all periods presented. For a full discussion of our critical accounting policies, see our Annual Report on Form 10-K for the year ended December 31, 2012.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes with respect to this item from the disclosure included in our Annual Report on Form 10-K for the year ended December 31, 2012.

ITEM 4. CONTROLS AND PROCEDURES

Our management, under the supervision and with the participation of the Chief Executive Officer and the Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) under the Securities Exchange Act of 1934, as amended) on June 30, 2013. Based on this evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, on June 30, 2013, our disclosure controls and procedures were effective.

There were no changes in our internal control over financial reporting that occurred during the quarter ended June 30, 2013, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

FORWARD-LOOKING STATEMENTS

This quarterly report on Form 10-Q contains forward-looking statements that are based on management's expectations, estimates, projections and assumptions. Words such as "expects," "anticipates," "plans," "believes," "scheduled," "outlook," "should," "estimates" and variations of these words and similar expressions are intended to identify forward-looking statements. These include but are not limited to projections of revenues, earnings, operating margins, segment performance, cash flows, contract awards, aircraft production, deliveries and backlog. Forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, as amended. These statements are not guarantees of future performance and involve certain risks and uncertainties that are difficult to predict. Therefore, actual future results and trends may differ materially from what is forecast in forward-looking statements due to a variety of factors, including the risk factors discussed in Item 1A of our Annual Report on Form 10-K. These factors include, without limitation:

- general U.S. and international political and economic conditions;
- decreases in U.S. government defense spending or changing priorities within the defense budget and the impacts of the Budget Control Act of 2011, including sequester;
- termination or restructuring of government contracts due to unilateral government action;
- differences in anticipated and actual program performance, including the ability to perform under long-term fixed-price contracts within estimated costs, and performance issues with key suppliers and subcontractors;

• expected recovery on contract claims and requests for equitable adjustment;
 • changing customer demand or preferences for business aircraft, including the effects of economic conditions on the business-aircraft market;
 • potential for changing prices for energy and raw materials; and
 • the status or outcome of legal and/or regulatory proceedings.

All forward-looking statements speak only as of the date of this report or, in the case of any document incorporated by reference, the date of that document. All subsequent written and oral forward-looking statements attributable to the company or any person acting on the company's behalf are qualified by the cautionary statements in this section. We do not undertake any obligation to update or publicly release any revisions to forward-looking statements to reflect events, circumstances or changes in expectations after the date of this report except as expressly required to do so by law.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

For information relating to legal proceedings, see Note L to the unaudited Consolidated Financial Statements contained in Part I, Item 1 of this quarterly report on Form 10-Q.

ITEM 1A. RISK FACTORS

There have been no material changes with respect to this item from the disclosure included in our Annual Report on Form 10-K for the year ended December 31, 2012.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table provides information about our second quarter repurchases of equity securities that are registered pursuant to Section 12 of the Securities Exchange Act of 1934, as amended:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Maximum Number of Shares that May Yet Be Purchased Under the Program
Pursuant to Share Buyback Program				
4/1/13-4/28/13	—	\$—	—	9,862,253
4/29/13-5/26/13	1,760,000	\$76.98	1,760,000	8,102,253
5/27/13-6/30/13	4,858,300	\$77.76	4,858,300	3,243,953
Total	6,618,300	\$77.55		

We did not make any unregistered sales of equity in the second quarter.

ITEM 6. EXHIBITS

31.1 Certification by CEO pursuant to Section 302 of the Sarbanes-Oxley Act of 2002*

31.2 Certification by CFO pursuant to Section 302 of the Sarbanes-Oxley Act of 2002*

32.1 Certification by CEO pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002*

32.2 Certification by CFO pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002*
