Item 2.02. Results of Operations and Financial Condition.

Attached and being furnished hereby as Exhibit 99.1 is a copy of a press release of International Flavors & Fragrances Inc. (the "Company") dated January 10, 2006, reporting the Company's sales results for the full year 2005.

## Edgar Filing: INTERNATIONAL FLAVORS & FRAGRANCES INC - Form 8-K

The discussion of the Company's sales results includes and, where indicated, excludes the impact of sales results attributable to certain non-core business disposed of in 2004 as well as the effects of exchange rate fluctuations. Such information is supplemental to information presented in accordance with generally accepted accounting principles (GAAP) and is not intended to represent a presentation in accordance with GAAP. In discussing its historical results and financial condition, the Company believes it is meaningful for investors to be made aware of and to be assisted in a better understanding of, on a period-to-period comparative basis, the impact of sales results attributable to the business disposed of as well as ongoing exchange rate fluctuations on the Company's operating results and financial condition. The Company believes that this additional non-GAAP information provides investors with an overall perspective of the period-to-period performance of the Company's core business. In addition, management internally reviews each of these non-GAAP financial measures to evaluate performance on a comparative period-to-period basis in terms of absolute performance, trends and expected future performance with respect to its core continuing business.

### Item 2.05. Costs Associated with Exit or Disposal Activities.

On January 10, 2006, the Company issued a press release announcing its decision, made in late December 2005 and further developed up until the date of the press release, to eliminate approximately 300 positions in manufacturing, selling, research and administration, principally in its European and North American operating regions. In connection with these job eliminations, the Company expects to record pre-tax restructuring charges of approximately \$25 million to \$30 million the majority of which will be recognized in the fourth quarter of 2005; the remaining charges are expected to be recognized by June 30, 2006. The actions taken result from the Company's efforts to improve efficiencies in its creative facilities and global operating network, and the charges relate primarily to employee separation.

IFF ANNOUNCES PLANS TO CUT COSTS AND IMPROVE PROFITABILITY;  
-----

COMMENTS ON 2005 SALES PERFORMANCE  
-----

New York, N.Y., January 10, 2006 ... International Flavors & Fragrances Inc. (NYSE: IFF) ("IFF" or "the Company") announced its plans to eliminate approximately 300 positions in manufacturing, selling, research and administration functions, principally in its European and North American operating regions; the reductions represent 6% of the Company's workforce. As a result of these actions, the Company anticipates recording pre-tax restructuring charges of \$25 million to \$30 million, the majority of which will be recognized in the fourth quarter 2005; the remaining charges are expected to be recognized in the first half of 2006. Essentially all elements of the restructuring charges relate to employee separation.

Richard A. Goldstein, IFF's Chairman and CEO, stated, "We are continually striving to ensure IFF's creative facilities and global operating network are as efficient as possible and fully aligned with our customers' needs and expectations. IFF has many hardworking and dedicated employees, which made this decision difficult. However, these actions are a necessary part of our ongoing efforts to maintain and improve IFF's profitability in the economic environment in which we operate."

The Company also announced that, consistent with previous expectations, full year 2005 sales declined 2% in comparison to the prior year in reported dollars. Sales for 2005 benefited from the strengthening of various currencies, particularly the Euro, in relation to the U.S. dollar; had exchange rates remained constant, 2005 sales would have decreased 3% in comparison to the prior year. Sales in 2005 were impacted by the disposition, in the second half of 2004, of the Company's European fruit preparations business. On an as-adjusted basis, excluding \$58.3 million in sales attributable to the fruit business from 2004 results, 2005 sales would have increased 1% in dollars and been flat in local currency.

The Company expects to release earnings for the 2005 fourth quarter and full year on January 25, 2006, at which time additional details regarding the restructuring charges will be provided; in the release, the Company will also provide its initial guidance regarding 2006.
