Form 8-K

August 15, 2014

This presentation is the property of Lawson Products, Inc. and may not be reproduced. 2 Forward-Looking Statements "Safe Harbor" Statement under the Securities Litigation Reform Act of 1995: This presentation contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that involve risks and uncertainties. The terms "may," "should," "could," "anticipate," "believe," "continues," "estimate," "expect," "intend," "objective," "potential," "project" and similar expressions are intended to identify forward-looking statements. These statements are not guarantees of future performance and involve risks, uncertainties and assumptions that are difficult to predict. These statements are based on management's current expectations, intentions or beliefs and are subject to a number of factors, assumptions and uncertainties that could cause actual results to differ materially from those described in the forward-looking statements. Factors that could cause or contribute to such differences or that might otherwise impact the business include: failure to retain a talented workforce including productive sales representatives; the inability of management to successfully implement strategic initiatives; failure to manage change; the ability to adequately fund our operating and working capital needs through cash generated from operations; the ability to meet the covenant requirements of our line of

This presentation is the property of Lawson Products, Inc. and may not be reproduced 17 Regulation G – GAAP Reconciliation Non GAAP Reconciliation of Adjusted EBITDA to Sales Percentage The Company reports its financial results in accordance with U.S. generally accepted accounting principles (GAAP). However, the Company's management believes that certain non-GAAP financial measures may provide users of this financial information additional meaningful comparisons between current results and results in prior operating periods. Management believes that these non-GAAP financial measures can provide additional meaningful reflection of underlying trends of the business because they provide a comparison of historical information that excludes certain infrequently occurring or non-operational items that impact the overall comparability. See the table below for supplemental financial data and corresponding reconciliations to GAAP financial measures for quarterly adjusted EBITDA as a percentage of net sales. Non-GAAP financial measures should be viewed in addition to, and not as an alternative for, the Company's reported results prepared in accordance with GAAP. Appendix P-2 (\$ in thousands)
