AMERISERV FINANCIAL REPORTS FOURTH CONSECUTIVE QUARTER OF PROFITABILITY

JOHNSTOWN, PA AmeriServ Financial, Inc. (NASDAQ: ASRV) completed its fourth consecutive quarter of profitability by reporting net income for the first quarter of 2004 of \$226,000 or \$0.02 per diluted share. This represents significant improvement and a sharp turnaround from the net loss of \$795,000 or \$0.06 per share reported in the first quarter of 2003. The following table highlights the Company's financial performance for the quarters ended March 31, 2004 and 2003:

	First Quarter 2004	First Quarter 2003	Change
Net income (loss)	\$226,000	(\$795,000)	\$1,021,000
Diluted earnings (loss) per share	0.02	(0.06)	0.08

At March 31, 2004, ASRV had total assets of \$1.1 billion and shareholders' equity of \$78 million or \$5.57 per share. The Company is well capitalized for regulatory purposes with an asset leverage ratio at March 31, 2004 of 7.75%, compared to a regulatory minimum of 5.0%.

The Company's net interest income in the first quarter of 2004 decreased by \$435,000 from the prior year first quarter due to a reduced level of earning assets and a nine basis point decline in the net interest margin to 2.39%. Loan portfolio shrinkage experienced during the majority of 2003 was a predominant factor contributing to both the lower level of earning assets and the net interest margin contraction in the first quarter comparisons. However, when compared to more recent quarterly performance, the Company's net interest income and net interest margin have demonstrated favorable trends growing for two consecutive quarters. Specifically, when compared to the third quarter 2003 when the impact of loan refinancings reached their peak on the Company's portfolio, the net interest margin has increased from 2.14% to 2.39%. This improvement reflects modest growth in both loans and deposits and a slow down in premium amortization on the Company's mortgage backed securities since the third quarter of 2003.

The Company's provision for loan losses totaled \$384,000 or 0.31% of total loans in the first quarter of 2004. This represented a decrease of \$1.3 million from the first quarter 2003 provision of \$1.7 million or 1.19% of total loans. Net charge-offs in the first quarter of 2004 totaled \$597,000 or 0.48% of total loans compared to net charge-offs of \$279,000 or 0.20% of total loans in the first quarter of 2003. The higher net charge-offs in the first quarter of 2004 reflect a \$625,000 write-down of a \$4.8 million loan on a personal care facility that was discussed in a previously issued press release. The Company took possession of the facility and transferred the property to other real estate owned in the first quarter of 2004. The Company is currently evaluating bids for the facility and hopes to finalize a sale by the end of the second quarter of 2004. The Company expects to incur no further loss on this property.

The Company's allowance for loan losses totaled \$11.4 million at March 31, 2004 providing 84% coverage of non-performing assets. Non-performing assets totaled \$13.5 million at March 31, 2004, which represented an increase of \$2.1 million from the December 31, 2003 level of \$11.4 million. This increase reflects the beginning of foreclosure proceedings on a \$4.3 million commercial mortgage loan on a hotel within the Company's primary market area. Overall, the allowance for loan losses as a percentage of total loans amounted to 2.26% at March 31, 2004 compared to 2.32% at December 31, 2003, and 2.06% at March 31, 2003.

The Company's total non-interest income in the first quarter of 2004 increased by \$70,000 from the prior year first quarter due to a combination of several factors. First, the Company realized a \$758,000 loss on the sale of approximately 70% of its mortgage-servicing portfolio in the first quarter of 2003. This significant downsizing of the mortgage-servicing asset reduced the level of interest rate risk and earnings volatility of the Company. There was no such loss experienced in the first quarter of 2004. This positive item, however, was partially offset by fewer gains realized on asset sales in the first quarter of 2004. These included a \$341,000 decrease in gains on investment security sales and a \$133,000 decline in gains realized on the sale of mortgage loans into the secondary market as result of reduced mortgage refinancing activity. This lower level of new mortgage origination activity in the first quarter of 2004 was also the main factor responsible for the \$149,000 decrease in other non-interest income.

The Company's total non-interest expense in the first quarter of 2004 favorably decreased by \$449,000 or 4.4% when compared to the first quarter of 2003. The largest factor causing the decrease was a \$266,000 reduction in the impairment charge on mortgage servicing rights due a significantly smaller mortgage-servicing asset in 2004. The Company also benefited from the non-recurrence in 2004 of a \$199,000 goodwill impairment loss associated with the write-off of all goodwill within the mortgage-banking segment in the first quarter of 2003. Excluding these

impairment related charges, the remaining total non-interest expenses were essentially flat between the first quarter of 2003 and first quarter of 2004 reflecting the Company's continued focus on reducing and containing expenses.

AmeriServ Financial, Inc., is the parent of AmeriServ Financial Bank and AmeriServ Trust & Financial Services in Johnstown, AmeriServ Associates of State College, and AmeriServ Life Insurance Company.

This news release may contain forward-looking statements that involve risks and uncertainties, including the risks detailed in the Company's Annual Report and Form 10-K to the Securities and Exchange Commission as defined in the Private Securities Litigation Reform Act of 1995. Actual results may differ materially.
