Glossary of
Terms

The following terms or acronyms used in this Quarterly Report on Form 10-Q are defined below:

Term or Acronym	Definition
2015 10-K	2015 Annual Report on Form 10-K filed with the SEC on February 29, 2016
2018 Notes	8.125% senior subordinated notes due 2018 issued by SGC
2020 Notes	6.250% senior subordinated notes due 2020 issued by SGI
2021 Notes	6.625% senior subordinated notes due 2021 issued by SGI
ASC	Accounting Standards Codification
ASU	Accounting Standards Update
Annual Meeting	the annual meeting of stockholders held on June 15, 2016
Bally	Bally Technologies, Inc.
Bally acquisition	the acquisition of Bally by the Company on November 21, 2014
Barcrest	Barcrest Group Limited
Coin-in	the amount wagered
Company	refers to SGC and its consolidated subsidiaries, unless otherwise specified or the context otherwise dictates
CSG	Beijing CITIC Scientific Games Technology Co., Ltd.
CSL	China Sports Lottery
CSP	Cooperative Services Program
D&A	depreciation, amortization and impairments (excluding goodwill)
ESPP	employee stock purchase plan
EU	European Union
FASB	Financial Accounting Standards Board
F/X	Foreign currency exchange
GLB	Beijing Guard Libang Technology Co., Ltd.
Guarantor Subsidiaries	refers to substantially all of SGC's 100%-owned U.S. subsidiaries other than SGC's 100%-owned U.S. Interactive social gaming subsidiaries
Hellenic Lotteries	Hellenic Lotteries S.A.
ITL	International Terminal Leasing
KPIs	Key Performance Indicators
LBO	licensed betting office
LNS	Lotterie Nazionali S.r.l.
Net win	Coin-in less payouts
Non-Guarantor Subsidiaries	refers to SGC's U.S. subsidiaries that are not Guarantor Subsidiaries and SGC's foreign subsidiaries
Northstar Illinois	Northstar Lottery Group, LLC
Northstar New Jersey	Northstar New Jersey Lottery Group, LLC
Note	refers to a note in the Condensed Notes to our Consolidated Financial Statements in this Quarterly Report on Form 10-Q, unless otherwise indicated
Participation	with respect to our Gaming business, refers to gaming machines provided to customers through service or leasing arrangements in which we earn revenues and are paid based on: (1) a percentage of Net win; (2) fixed daily-fees; (3) a percentage of the Coin-in; or (4) a combination of a fixed daily-fee and a percentage of the Coin-in, and with respect to our Lottery business, refers to a

Edgar Filing: SCIENTIFIC GAMES CORP - Form 10-Q

PMA	contract or arrangement in which we earn revenues and are paid based on a percentage of retail sales
PPU	private management agreement
PTG	price-per-unit
R&D	Proprietary table games
RCN	research and development
RFP	Roberts Communications Network, LLC
	Request for proposal

3

RMG	real-money gaming
RSU	restricted stock unit
SEC	Securities and Exchange Commission
Secured Notes	7.00% senior secured notes due 2022 issued by SGI
SG&A	selling, general and administrative
SGC	Scientific Games Corporation
SGI	Scientific Games International, Inc., a wholly-owned subsidiary of SGC
SHFL	SHFL entertainment, Inc.
Shufflers	various models of automatic card shufflers, deck checkers and roulette chip sorters
Unsecured Notes	10.00% senior unsecured notes due 2022 issued by SGI
U.K.	United Kingdom of Great Britain and Northern Ireland
U.S.	United States of America
U.S. GAAP	accounting principles generally accepted in the U.S.
VGT	video gaming terminal
VLT	video lottery terminal
WAP	wide-area progressive
WMS	WMS Industries, Inc.
WMS acquisition	the acquisition of WMS by the Company on October 18, 2013

Forward-Looking Statements

Throughout this Quarterly Report on Form 10-Q, we make "forward-looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements describe future expectations, plans, results or strategies and can often be identified by the use of terminology such as "may," "will," "estimate," "intend," "plan," "continue," "believe," "expect," "anticipate," "target," "should," "could," "potential," "opportunity," "goal" or similar terminology. The forward-looking statements contained in this Quarterly Report on Form 10-Q are generally located in the material set forth under the heading "Management's Discussion and Analysis of Financial Condition and Results of Operations" but may be found in other locations as well. These statements are based upon management's current expectations, assumptions and estimates and are not guarantees of timing, future results or performance. Actual results may differ materially from those contemplated in these statements due to a variety of risks and uncertainties and other factors, including, among other things:

•competition;

•U.S. and international economic and industry conditions, including declines in or slow growth of gross gaming revenues or lottery retail sales, reductions in or constraints on capital spending by gaming or lottery operators and bankruptcies of, or credit risk relating to, customers;

•limited growth from new gaming jurisdictions, slow addition of casinos in existing jurisdictions and declines in the replacement cycle of existing gaming machines;

•ownership changes and consolidation in the casino industry, including by casino operators;

•opposition to legalized gaming or the expansion thereof;

•inability to adapt to, and offer products that keep pace with, evolving technology;

•inability to develop successful gaming concepts and content;

•laws and government regulations, including those relating to gaming licenses and environmental laws;

•inability to identify and capitalize on trends and changes in the gaming, lottery and interactive gaming industries;

•dependence upon key providers in our social gaming business;

•inability to retain or renew, or unfavorable revisions of, existing contracts, and the inability to enter into new contracts;

•level of our indebtedness, higher interest rates, availability or adequacy of cash flows and liquidity to satisfy indebtedness, other obligations or future cash needs;

•inability to reduce or refinance our indebtedness;

•restrictions and covenants in debt agreements, including those that could result in acceleration of the maturity of our indebtedness;

•protection of intellectual property, inability to license third party intellectual property and the intellectual property rights of others;

•security and integrity of our products and systems and reliance on or failures in information technology and other systems;

•natural events that disrupt our operations or those of our customers, suppliers or regulators;

•inability to benefit from, and risks associated with, strategic equity investments and relationships, including (1) the inability of our joint venture to realize the anticipated benefits under its PMA with the Illinois lottery or from the disentanglement services performed in connection with the termination thereof, (2) the inability of our joint venture to meet the net income targets or other requirements under its agreement to provide marketing and sales services to the New Jersey Lottery or otherwise to realize the anticipated benefits under such agreement and (3) the failure to realize the anticipated benefits related to our consortium's instant lottery game concession in Greece;

failure to achieve the intended benefits of the Bally acquisition, the WMS acquisition, our other recent acquisitions, or future acquisitions, including due to the inability to successfully complete or integrate such acquisitions or realize synergies in the anticipated amounts or within the contemplated time frames or cost expectations, or at all; disruption of current plans and operations in connection with our recent acquisitions (including in connection with the integration of Bally and WMS), including departure of key personnel or inability to recruit additional qualified personnel or maintain relationships with customers, suppliers or other third parties; incurrence of employee termination or restructuring costs and impairment or asset write-down charges; changes in estimates or judgments related to our impairment analysis of goodwill or other intangible assets; implementation of complex revenue recognition standards; fluctuations in our results due to seasonality and other factors; dependence on suppliers and manufacturers; risks relating to foreign operations, including fluctuations in foreign currency exchange rates (including those fluctuations related to the affirmative vote in the U.K. to withdraw from the EU), restrictions on the payment of dividends from earnings, restrictions on the import of products and financial instability, including the potential impact to our business resulting from the affirmative vote in the U.K. to withdraw from the EU and the potential impact to our instant lottery game concession or VLT lease arrangements resulting from the recent economic and political conditions in Greece; dependence on key employees; litigation and other liabilities relating to our business, including litigation and liabilities relating to our contracts and licenses, our products and systems, our employees (including labor disputes), intellectual property and our strategic relationships; influence of certain stockholders; and stock price volatility.

Additional information regarding risks and uncertainties and other factors that could cause actual results to differ materially from those contemplated in forward-looking statements is included from time to time in our filings with the SEC, including under Item 1A "Risk Factors" in our 2015 10-K and under Item 1A "Risk Factors" in our Quarterly Report on Form 10-Q for the period ended June 30, 2016. Forward-looking statements speak only as of the date they are made and, except for our ongoing obligations under the U.S. federal securities laws, we undertake no obligation to publicly update any forward-looking statements whether as a result of new information, future events or otherwise. You should also note that this Quarterly Report on Form 10-Q may contain references to industry market data and certain industry forecasts. Industry market data and industry forecasts are obtained from publicly available information and industry publications. Industry publications generally state that the information contained therein has been obtained from sources believed to be reliable, but that the accuracy and completeness of that information is not guaranteed. Although we believe industry information to be accurate, it is not independently verified by us and we do not make any representation as to the accuracy of that information. In general, we believe there is less publicly available information concerning the international gaming, lottery and interactive gaming industries than the same industries in the U.S.

SCIENTIFIC GAMES CORPORATION AND SUBSIDIARIES
CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited, amounts in USD, table amounts in millions, except per share amounts)

(1) Description of the Business and Summary of Significant Accounting Policies

Description of the Business

We are a leading developer of technology based products and services and associated content for the worldwide gaming, lottery and interactive gaming industries. Our portfolio includes gaming machines and game content, casino management systems, table game products and services, instant and draw based lottery games, server based gaming and lottery systems, sports betting technology, lottery content and services, loyalty and rewards programs, interactive gaming and social casino solutions. We also gain access to technologies and pursue global expansion through strategic acquisitions and equity investments. We report our operations in three business segments—Gaming, Lottery and Interactive.

Basis of Presentation and Principles of Consolidation

The accompanying consolidated financial statements of the Company have been prepared in accordance with SEC and U.S. GAAP requirements. The accompanying consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, as well as those subsidiaries in which we have a controlling financial interest. Investments in other entities in which we do not have a controlling financial interest but we exert significant influence are accounted for in our consolidated financial statements using the equity method of accounting. All intercompany balances and transactions have been eliminated in consolidation.

In the opinion of management, we have made all adjustments necessary to present fairly our consolidated financial position, results of operations and comprehensive loss and cash flows for the periods presented. Such adjustments are of a normal, recurring nature. These unaudited consolidated financial statements should be read in conjunction with the consolidated financial statements and related notes included in our 2015 10-K. Interim results of operations are not necessarily indicative of results of operations for a full year.

Significant Accounting Policies

There have been no changes to our significant accounting policies described in Note 1 in our 2015 10-K.

New Accounting Guidance - Recently Adopted

In July 2015, the FASB issued ASU No. 2015-11, Inventory: Simplifying the Measurement of Inventory. ASU 2015-11 changes the criteria for measuring inventory within the scope of the ASU. Inventory will now be measured at the lower of cost and net realizable value, while the concept of market value will be eliminated. The ASU defines net realizable value as the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation. We adopted this guidance prospectively at the beginning of the second quarter of 2016. The adoption of this guidance did not have a material effect on our financial condition, results of operations, or cash flows.

In March 2016, the FASB issued ASU No. 2016-07, Investments - Equity Method and Joint Ventures (Topic 323): Simplifying the Transition to the Equity Method of Accounting. The amended guidance simplifies the accounting for equity investments and eliminates the requirements in Topic 323 that an entity retroactively adopt the equity method of accounting if an investment qualifies for use of the equity method as a result of an increase in the level of ownership or degree of influence. We adopted this guidance prospectively at the beginning of the first quarter of 2016. The adoption of this guidance did not have a material effect on our financial condition, results of operations or cash flows.

New Accounting Guidance - Not Yet Adopted

In May 2014, the FASB issued ASU No. 2014-09 (Topic 606), Revenue from Contracts with Customers. The amended guidance outlines a single comprehensive revenue model for entities to use in accounting for revenue from contracts with customers. The guidance (including subsequent amendments) supersedes most current revenue recognition guidance, including industry-specific guidance. The core principle of the revenue model is that "an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services." The ASU may be adopted using a full retrospective approach or using a modified retrospective application approach. This guidance is effective for fiscal years beginning after December 15, 2017 and interim periods within those fiscal years with earlier adoption permitted for fiscal years beginning after December 15, 2016. We are

currently evaluating the impact of adopting this guidance and anticipate the adoption to occur at the beginning of the first quarter of 2018, using a modified retrospective application approach.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842). The amended guidance is intended to increase transparency and comparability among organizations by recognizing lease assets and liabilities on the balance sheet and disclosing key information about leasing arrangements. The adoption of this guidance is expected to result in a significant portion of our operating leases, where we are the lessee, to be recognized on our Consolidated Balance Sheets. The guidance requires lessees and lessors to recognize and measure leases at the beginning of the earliest period presented using a modified retrospective approach. This guidance is effective for fiscal years beginning after December 15, 2018 and interim periods within those fiscal years, with earlier adoption permitted. We are currently evaluating the impact and timing of adopting this guidance.

In March 2016, the FASB issued ASU No. 2016-09, Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting. The amended guidance is intended to simplify several aspects of accounting for share-based payment award transactions, including income tax consequences, accounting for forfeitures, classification of awards as either equity or liabilities and classification in the statement of cash flows. ASU 2016-09 has separate transition guidance for each element of the new standard and is effective for fiscal years beginning after December 15, 2016 and interim periods within those fiscal years with earlier adoption permitted. We are currently evaluating the impact of adopting this guidance.

We do not expect that any other recently issued accounting guidance will have a significant effect on our financial statements.

(2) Business Segments

We report our operations in three business segments—Gaming, Lottery and Interactive—representing our different products and services. Our Gaming business segment generally sells gaming machines, VGTs, VLTs and conversion kits and parts, leases or otherwise provides gaming machines, server-based systems and content, sells and supports casino-management systems-based software and hardware, and sells and leases PTG content and Shufflers to commercial, tribal and governmental gaming operators. Our Lottery business segment provides instant lottery games and related value-added services, as well as licensed brands utilized in instant lottery games and loyalty and reward services. Our Lottery business segment also provides systems products and services generally comprised of point-of-sale terminals, a central system, customized computer software, data communication services, support and/or related equipment. Our Interactive business segment provides social gaming and RMG services to online casino operators through our remote game servers. Additional discussion regarding the products and services from which each reportable business segment derives its revenue is included in Note 1 in our 2015 10-K.

In evaluating financial performance, we focus on operating income (loss) as a segment's measure of profit or loss. The accounting policies of our business segments are the same as those described in our summary of significant accounting policies in Note 1 in our 2015 10-K. The following tables present the Company's segment information:

	Three Months Ended September 30, 2016

Goodwill impairment	935.0	—	—	—	935.0
Operating income (loss)	(955.1)	130.6	17.5	(163.2)	(970.2)
Interest expense					(497.5)
Earnings from equity investments					9.4
Other income (expense), net					(17.4)
Net loss before income taxes					\$(1,475.7)

(1) Includes corporate amounts not allocated to the business segments.

(3) Restructuring and other

Restructuring and other includes charges or expenses attributable to: (i) employee severance; (ii) management changes; (iii) restructuring and integration; (iv) cost savings initiatives; and (v) other unusual items. In the three and nine months ended September 30, 2016, approximately \$10.3 million and \$17.2 million, respectively, of Restructuring and other were related to items (i) and (iii) set forth above.

We began integrating Scientific Games and WMS subsequent to the WMS acquisition in October 2013. This integration was completed during the first quarter of 2016. We began integrating Scientific Games and Bally subsequent to the Bally acquisition in November 2014 by implementing our plans to streamline our operations and cost structure.

Although we have substantially completed the actions under the above-described restructuring plans, we remain focused on cost efficiencies and will execute additional initiatives in the future, if necessary, in order to streamline our operations and cost structure. We do not expect to incur additional material costs related to our previously announced integration plans. The amounts currently accrued and previously expensed as Restructuring and other were \$5.8 million as of September 30, 2016. During the three and nine months ended September 30, 2016, we made cash payments on these restructuring plans totaling \$3.4 million and \$10.7 million, respectively.

Refer to Subsequent Events Note 17.

(4) Basic and Diluted Net Loss Per Share

Basic and diluted net loss per share were the same for all periods presented as all common stock equivalents would be anti-dilutive. We excluded 3.2 million and 1.9 million of stock options from the diluted weighted-average common shares outstanding as of September 30, 2016 and 2015, respectively, and 5.6 million and 6.0 million of RSUs from the calculation of diluted weighted-average common shares outstanding as of September 30, 2016 and 2015, respectively.

(5) Accounts and Notes Receivable and Credit Quality of Notes Receivable

Accounts and Notes Receivable

The following summarizes the components of current and long-term accounts and notes receivable, net:

	September 30, December 31,	
	2016	2015
Current:		
Accounts receivable	\$ 478.3	\$ 497.7
Notes receivable	143.6	180.4
Allowance for doubtful accounts and notes	(27.6) (23.3
Current accounts and notes receivable, net	\$ 594.3	\$ 654.8
Long-term:		
Notes receivable, net of allowance of \$0.2 and \$0.3	43.6	51.3
Total accounts and notes receivable, net	\$ 637.9	\$ 706.1

Credit Quality of Notes Receivable

The interest rates on our outstanding notes receivable ranged from 3.25% to 10.42% at September 30, 2016 and December 31, 2015.

We have certain concentrations of outstanding notes receivable in international locations that impact our assessment of the credit quality of our notes receivable. We monitor the macroeconomic and political environment in each of these locations in our assessment of the credit quality of our notes receivable. We have not identified changes in the aforementioned factors in the nine months ended September 30, 2016 that require a reassessment of our receivable balances. The international locations with significant concentrations (generally deemed to be exceeding 10%) of our notes receivable are as follows:

Mexico - Our accounts and notes receivable, net, from certain customers in Mexico at September 30, 2016 was \$43.2 million. We collected \$22.1 million of outstanding receivables from these customers during the nine months ended September 30, 2016.

Peru - Our accounts and notes receivable, net, from certain customers in Peru at September 30, 2016 was \$34.6 million. We collected \$19.5 million of outstanding receivables from these customers during the nine months ended September 30, 2016.

Argentina - Our accounts and notes receivable, net, from customers in Argentina at September 30, 2016 was \$17.5 million denominated in USD. Our customers are required to and have continued to pay us in pesos at the spot exchange rate on the date of payment. We collected \$17.7 million of outstanding receivables from customers in Argentina during the nine months ended September 30, 2016.

In addition to the macroeconomic and political factors noted above, we also evaluated recent payments, receivables aging, any additional security or collateral we had (bills of exchange, pledge agreements, etc.) and other facts and circumstances relevant to our customers' ability to pay.

The following summarizes the components of total notes receivable, net:

	September 30, 2016	Balances over 90 days past due	December 31, 2015	Balances over 90 days past due
Notes receivable:				
Domestic	\$ 34.5	\$ 0.8	\$ 62.4	\$ 2.6
International	152.9	34.1	169.8	26.6
Total notes receivable	187.4	34.9	232.2	29.2
Notes receivable allowances				
Domestic	(1.1)	(0.8)	(2.6)	(2.5)
International	(13.7)	(13.7)	(10.6)	(9.5)
Total notes receivable allowances	(14.8)	(14.5)	(13.2)	(12.0)
Notes receivable, net	\$ 172.6	\$ 20.4	\$ 219.0	\$ 17.2

At September 30, 2016, 11.8% of our total notes receivable, net, was past due by over 90 days, compared to 7.9% at December 31, 2015.

The following tables detail our evaluation of notes receivable for impairment and the changes in our notes receivable allowances:

	September 30, 2016			December 31, 2015		
	Ending Balance Individually Evaluated for Impairment	Ending Balance Collectively Evaluated for Impairment	Total	Ending Balance Individually Evaluated for Impairment	Ending Balance Collectively Evaluated for Impairment	Total
Notes receivable:						
Domestic	\$10.4	\$ 24.1	\$34.5	\$20.7	\$ 41.7	\$62.4
International	78.9	74.0	152.9	101.8	68.0	169.8
Total notes receivable	89.3	98.1	187.4	122.5	109.7	232.2
Allowance for notes receivable	(14.6)	(0.2)	(14.8)	(12.9)	(0.3)	(13.2)
Total notes receivable, net	\$74.7	\$ 97.9	\$172.6	\$109.6	\$ 109.4	\$219.0
	For the Nine Months Ended September 30, 2016			For the Nine Months Ended September 30, 2015		
	Ending Balance Individually Evaluated for Impairment	Ending Balance Collectively Evaluated for Impairment	Total	Ending Balance Individually Evaluated for Impairment	Ending Balance Collectively Evaluated for Impairment	Total
Provision	\$(3.8)	\$	—\$(3.8)	\$(6.2)	\$ (1.7)	\$(7.9)
Charge-offs and recoveries	2.1	0.1	2.2	2.3	0.1	2.4

The fair value of notes receivable is estimated by discounting expected future cash flows using current interest rates at which similar loans would be made to borrowers with similar credit ratings and remaining maturities. As of September 30, 2016 and December 31, 2015, the fair value of notes receivable, net, approximated the carrying amount due to their short-term nature.

(6) Inventories

Inventories consisted of the following as of the dates presented below:

	September 30, December 31,	
	2016	2015
Parts and work-in-process	\$ 117.8	\$ 118.3
Finished goods	152.3	130.2
Total inventories	\$ 270.1	\$ 248.5

Parts and work-in-process include parts for gaming machines, lottery terminals and instant lottery ticket materials, as well as labor and overhead costs for work-in-process associated with the manufacturing of instant lottery games and lottery terminals. Our finished goods inventory primarily consists of gaming machines for sale, instant games for our Participation arrangements and our licensed branded merchandise.

During the nine months ended September 30, 2015, we recorded an impairment of \$7.1 million related to the discontinuance of certain product lines as a result of the Bally acquisition. The impairment is included in Cost of product sales for the nine months ended September 30, 2015.

(7) Property and Equipment, net

Property and equipment, net consisted of the following:

	September 30, December 31,	
	2016	2015
Land	\$ 38.5	\$ 38.5
Buildings and leasehold improvements	183.1	185.2
Gaming and lottery machinery and equipment	1,057.1	1,084.6
Furniture and fixtures	29.2	36.0
Construction in progress	22.5	25.5
Other property and equipment	263.7	271.0
Less: accumulated depreciation	(930.3)	(846.8)
Total property and equipment, net	\$ 663.8	\$ 794.0

Depreciation expense is excluded from Cost of services, Cost of product sales, Cost of instant games and Other operating expenses and is separately presented within D&A.

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
(in millions)	2016	2015	2016	2015
Depreciation expense	\$80.9	\$72.8	\$248.3	\$249.1

(8) Intangible Assets, net and Goodwill

Intangible Assets, net

The following tables present certain information regarding our intangible assets as of September 30, 2016 and December 31, 2015. Amortizable intangible assets are being amortized on a straight-line basis over their estimated useful lives with no estimated residual value, which materially approximates the expected pattern of use of these intangible assets.

Edgar Filing: SCIENTIFIC GAMES CORP - Form 10-Q

	September 30, 2016			December 31, 2015		
	Gross Carrying Amount	Accumulated Amortization	Net Balance	Gross Carrying Amount	Accumulated Amortization	Net Balance
Amortizable intangible assets:

Intellectual property ⁽¹⁾	733.9	(195.3)) 538.6	731.1	(124.5)) 606.6
Licenses	417.8	(139.0)) 278.8	326.1	(91.6)) 234.5
Brand names	125.2	(29.1)) 96.1	124.0	(18.9)) 105.1
Trade names	97.4	(6.5)) 90.9	97.5	(1.9)) 95.6
Patents and other	27.8	(14.0)) 13.8	27.1	(12.8)) 14.3
	2,281.3	(534.9)) 1,746.4	2,183.5	(358.8)) 1,824.7
Non-amortizable intangible assets:						
Trade names	96.7	(2.1)) 94.6	97.4	(2.1)) 95.3
Total intangible assets	\$2,378.0	\$ (537.0)) \$1,841.0	\$2,280.9	\$ (360.9)) \$1,920.0

(1) December 31, 2015 net balance includes \$33 million of in-process R&D assets that were not subject to amortization. These assets reached commercial feasibility at the end of the third quarter of 2016, with amortization commencing October 2016.

In January 2016, we amended and extended the terms of one of our existing license agreements through December 31, 2022. Under the terms of the amended agreement, we are obligated to pay aggregate minimum guarantees of \$88.0 million over the life of the contract in exchange for the right to use certain licensed properties in game content themes, which are incorporated into our slot games, online games, lottery products and promotional materials. We account for the minimum guaranteed obligations within other long-term liabilities (or, with respect to the portion that is a current liability within accounts payable or accrued liabilities) at the onset of the license arrangement and record a corresponding licensed asset within Intangible assets, net. The current and long-term portions of our minimum guaranteed obligations related to the amended license agreement were \$8.8 million and \$74.6 million, respectively, and are recorded in Accounts payable and Other long-term liabilities, respectively, as of September 30, 2016.

Intangible amortization expense is included within D&A.

	Three Months Ended September 30, 2016	Nine Months Ended September 30, 2015	Nine Months Ended September 30, 2016	Three Months Ended September 30, 2015
Amortization expense	\$60.9	\$181.5	\$188.8	\$331.8

We recorded non-cash impairment charges of \$103.6 million and \$128.6 million in D&A for the three and nine months ended September 30, 2015, respectively, to reduce the gross carrying amount of two indefinite-lived trade name assets to their fair values. These assets were subsequently reclassified to finite-lived during the third quarter of 2015.

Goodwill

Based on the results of our third quarter 2015 interim goodwill impairment analysis for our SG gaming reporting unit, we recorded a \$935.0 million non-cash impairment charge with no tax benefit for the three and nine months ended September 30, 2015. The impairment charge primarily resulted from a change in outlook for the SG gaming reporting unit due to market-related factors negatively impacting gaming machine unit demand and the number of gaming machines leased by our customers combined with fewer than anticipated new casino openings and expansions. All of these factors resulted in declines in our outlook for gaming machine sales and Participation game revenues.

The table below reconciles the change in the carrying amount of goodwill by business segment for the period from December 31, 2015 to September 30, 2016.

Goodwill	Gaming	Lottery	Interactive	Totals
Balance as of December 31, 2015	\$2,486.0	\$417.9	\$ 109.8	\$3,013.7
Foreign currency adjustments	(27.1)	4.4	—	(22.7)
Balance as of September 30, 2016	\$2,458.9	\$422.3	\$ 109.8	\$2,991.0

(9) Software, net

Software, net consisted of the following:

	September 30, 2016	December 31, 2015
Software	\$ 932.1	\$ 854.2
Accumulated amortization	(501.0)	(368.3)
Software, net	\$ 431.1	\$ 485.9

Software amortization expense is included within D&A.

	Three Months Ended September 30, 2016	2015	Nine Months Ended September 30, 2016	2015
Amortization expense	\$44.2	\$32.2	\$122.6	\$112.0

(10) Equity Investments

Equity investments totaled \$206.5 million and \$228.5 million as of September 30, 2016 and December 31, 2015, respectively. We received distributions and dividends totaling \$40.7 million and \$57.9 million during the nine months ended September 30, 2016 and 2015, respectively.

(11) Long-Term and Other Debt

Outstanding Debt and Capital Leases

The following reflects our outstanding debt:

	Principal	Unamortized debt discount	Unamortized deferred financing costs	Book value September 30, 2016
Senior Secured Credit Facilities:				
Revolver, varying interest rate, due 2018	\$50.0	\$ —	\$ —	\$ 50.0
Term Loan, varying interest rate, due 2020	2,236.8	(6.5)	(44.2)	2,186.1
Term Loan, varying interest rate, due 2021	1,965.0	(14.5)	(42.7)	1,907.8
2018 Notes	250.0	—	(1.5)	248.5
2020 Notes	243.5	—	(2.5)	241.0
2021 Notes	340.6	(1.5)	(4.8)	334.3
Secured Notes	950.0	—	(14.4)	935.6
Unsecured Notes	2,200.0	—	(37.5)	2,162.5
Capital lease obligations, 3.9% interest as of September 30, 2016 payable monthly through 2019	17.6	—	—	17.6
Total long-term debt outstanding	\$8,253.5	\$ (22.5)	\$ (147.6)	\$ 8,083.4
Less: current portion of long-term debt				(49.6)
Long-term debt, excluding current portion				\$ 8,033.8

	Principal	Unamortized debt discount	Unamortized deferred financing costs	Book value December 31, 2015
Senior Secured Credit Facilities:				
Revolver, varying interest rate, due 2018	\$95.0	\$ —	\$ —	\$ 95.0
Term Loan, varying interest rate, due 2020	2,254.0	(7.8)	(52.5)	2,193.7

Unsecured Notes	2,200.0	—	(42.1)	2,157.9
Capital lease obligations, 3.9% interest as of December 31, 2015 payable monthly through 2019	25.7	—	—	25.7
Total long-term debt outstanding	\$8,404.7	\$ (26.3)	\$ (171.4)	\$ 8,207.0
Less: current portion of long-term debt				(50.3)
Long-term debt, excluding current portion				\$ 8,156.7

Senior Secured Credit Facilities

We and certain of our subsidiaries are party to a credit agreement dated as of October 18, 2013, as amended, by and among SGI, as the borrower, SGC, as a guarantor, Bank of America, N.A., as administrative agent, and the lenders and other agents party thereto. This credit facility includes the term loans due in 2020 and 2021, each as set forth in the above table, and a \$592.6 million revolving credit facility. Up to \$350.0 million of the revolving credit facility is available for issuances of letters of credit.

All of the debt incurred under this credit agreement is subject to accelerated maturity depending on our liquidity at the times each of the 2018 Notes, 2020 Notes and 2021 Notes become due.

2020 Notes and 2021 Notes

During the second quarter of 2016, we repurchased and cancelled \$56.5 million and \$9.4 million of principal amount of the 2020 Notes and 2021 Notes, respectively, for \$34.2 million and \$5.7 million in cash, respectively, through separate open

market purchases. In connection with this transaction, we recorded a \$25.2 million gain on early extinguishment of debt, net of a \$0.8 million charge related to the write-off of unamortized debt discount and deferred financing costs associated with the extinguished debt.

Social Gaming Unrestricted Subsidiary Designation

In order to provide flexibility for potential future growth opportunities with respect to our social gaming business, during the third quarter of 2016 we designated certain of our wholly owned direct and indirect subsidiaries, which hold substantially all of the assets of, and operate, our social gaming business, as “Unrestricted Subsidiaries” under our credit agreement and each of the indentures governing the 2018 Notes, 2020 Notes, 2021 Notes, Secured Notes and Unsecured Notes. As a result of such designations, these social gaming subsidiaries are not guarantors under our credit agreement and indentures and are not obligated to comply with many of the covenants set forth in those agreements and that remain applicable to us and our restricted subsidiaries. In addition, except to the extent of cash distributions from these social gaming subsidiaries to us or our restricted subsidiaries, the assets, liabilities and financial results of these social gaming subsidiaries will be excluded from the calculation of the applicable financial metrics required by these agreements, including our credit agreement’s maintenance covenant, which is based on our consolidated net first lien leverage. Following these designations, the social gaming subsidiaries remain wholly owned direct and indirect subsidiaries of the Company.

For additional information regarding our senior secured credit facilities, 2018 Notes, 2020 Notes, 2021 Notes, Secured Notes, Unsecured Notes and capital lease obligations, see Note 15 in our 2015 10-K.

Fair Value of Debt

The estimated fair value of our long-term debt as of September 30, 2016 and December 31, 2015 was approximately \$7,976.0 million and \$6,931.6 million, respectively. We estimate the fair value of debt based on quoted market prices of our securities, if available, and indicative pricing derived from market information. We categorize inputs used to measure the fair value of debt as Level 2 in the fair value hierarchy due to the low volume and frequency of transactions in the market.

(12) Fair Value Measurements

We determine the fair value of our financial assets and liabilities by reference to market data and other valuation techniques as appropriate. We believe the fair value of our financial instruments, which are principally cash and cash equivalents, accounts receivable, other current assets, accounts payable and accrued liabilities, approximates their recorded values due to the short-term nature of these instruments. Our assets and liabilities measured at fair value on a recurring basis are described below.

Interest rate swap contracts

We hedge a portion of our variable rate debt to effectively fix the interest rates that we pay. We have interest rate swap contracts designated as cash flow hedges under ASC 815. Under these hedges, we pay interest at a weighted-average fixed rate of 2.151% and receive interest at the greater of 1% or the prevailing three-month LIBOR rate.

These hedges are highly effective in offsetting changes in our future expected cash flows due to the fluctuation in the three-month LIBOR rate associated with our variable rate debt. The effectiveness of these hedges is measured quarterly on a retrospective basis. As a result of the effective matching of the critical terms on our variable rate debt being hedged to the hedging instruments being used, we have not measured any hedge ineffectiveness to date. All gains and losses from these hedges are recorded in Other comprehensive income (loss) until the future underlying payment transactions occur. Any realized gains or losses resulting from the hedges will be recognized (together with the hedged transaction) as interest expense. We estimate the fair value of our interest rate swap contracts by discounting the future cash flows of both the fixed rate and variable rate interest payments based on market yield curves. The inputs used to measure the fair value of our interest rate swap contracts are categorized as Level 2 in the fair value hierarchy.

The following table shows the losses (gains) on our interest rate swap contracts:

	Three Months Ended September 30, 2016		Nine Months Ended September 30, 2015	
Losses (gains) recorded in accumulated other comprehensive loss, net of tax	\$(2.7)	\$1.7	\$(6.3)	\$1.0
Realized (gains) losses recorded in interest expense	2.0	(0.6)	6.1	1.1

We expect to reclassify additional losses of \$8.2 million from accumulated other comprehensive loss to interest expense in the next twelve months. The following table shows the fair value of our hedges:

	September 30, 2016	December 31, 2015
Accrued liabilities	\$ 8.2	\$ 7.9
Other long-term liabilities	1.7	4.0
Total fair value	\$ 9.9	\$ 11.9

Other

As of September 30, 2016 and December 31, 2015, we had \$15.3 million and \$16.7 million of assets held for sale, respectively, which consisted of our Waukegan, Illinois manufacturing facility and a portion of our Chicago, Illinois R&D campus. During the second quarter of 2016, we sold the portion of our Chicago, Illinois R&D campus which was previously held for sale at a price that materially approximated the carrying amount, less selling costs. During the third quarter of 2016, we classified additional office buildings located in our Chicago, Illinois R&D campus as assets held for sale. The carrying amount of these buildings approximated the fair market value, less expected costs to sell. During the third quarter of 2016, we recorded a non-cash impairment charge of \$5.7 million in D&A related to our Waukegan manufacturing facility. Assets held for sale are included within Prepaid expenses, deposits and other current assets and are reported at the lower of the carrying amount or fair market value, less expected costs to sell, which approximated the fair value as of September 30, 2016 and December 31, 2015. We measured the fair value of assets held for sale under a market approach and have categorized such measurements as Level 3 in the fair value hierarchy.

(13) Stockholders' Deficit

Stock-based and other incentive compensation

We provide stock-based compensation using stock options and RSUs. We also previously offered an ESPP through September 30, 2015, when the shares allocated to this plan were fully issued and the ESPP terminated in accordance with its terms. See Note 18 in our 2015 10-K. At the Annual Meeting, our stockholders approved the adoption of a new ESPP. The first offering period under the new ESPP will commence on January 1, 2017. A summary of our stock-based compensation plans follows:

	As of September 30, 2016
Options outstanding	3.2
Remaining unrecognized expense related to unvested options	\$8.3
RSUs Outstanding	5.6
Remaining unrecognized expense related to unvested RSUs	\$52.8

	Three Months Ended September 30, 2016		Nine Months Ended September 30, 2015	
Stock-based compensation expense recognized:				
Related to vesting of stock options	\$2.9	\$0.6	\$4.2	\$1.5
Related to vesting of RSUs	8.1	6.6	19.3	17.6
Total	\$11.0	\$7.2	\$23.5	\$19.1

On August 5, 2016, we announced that Kevin Sheehan succeeded M. Gavin Isaacs as President and Chief Executive Officer of the Company. On August 10, 2016, Mr. Sheehan received sign-on equity awards consisting of (a) 400,000 performance-conditioned restricted stock units that will vest based on achievement of specified performance conditions over a three-year period and (b) equity awards with a grant date value equal to approximately 250% of his base salary, prorated based on the number of days Mr. Sheehan will be employed in 2016, and consisting of (i) restricted stock units and stock options, each with a four-year vesting schedule and (ii) performance-conditioned stock options vesting over a four-year period.

(14) Employee Benefit Plans

We have defined benefit pension plans for our U.K.-based union employees (the "U.K. Plan") and certain Canadian-based employees (the "Canadian Plan"). Retirement benefits under the U.K. Plan are generally based on an employee's average compensation over the two years preceding retirement. Retirement benefits under the Canadian Plan are generally based on the number of years of credited service. Our policy is to fund the minimum contribution permissible by the applicable authorities. See Note 19 in our 2015 10-K. We recognized no material costs in 2015 and 2016 under these plans.

We have a 401(k) plan for U.S.-based employees. Those employees who participate in our 401(k) plan are eligible to receive matching contributions of 35% from us for participant contributions up to the first 6% of their compensation (as defined in the plan document). Contribution expense for the three months ended September 30, 2016 and 2015 was \$2.8 million and \$2.0 million, respectively. Contribution expense for the nine months ended September 30, 2016 and 2015 was \$8.6 million and \$7.8 million, respectively.

(15) Income Taxes

The effective income tax rates for the three and nine months ended September 30, 2016 were 16.6% and 19.4%, respectively, and 7.0% and 14.2% for the three and nine months ended September 30, 2015, respectively, and were determined using an estimated annual effective tax rate after considering any discrete items for such periods. As of each reporting date, management considers new evidence, both positive and negative, that could affect its view of the future realization of deferred tax assets. The Company has remained in a three year cumulative loss in the U.S. federal tax jurisdiction. As of September 30, 2016, on the basis of this evaluation and considering the projected U.S. pre-tax losses for 2016 and the resulting net U.S. deferred tax asset position anticipated to occur during 2016, a valuation allowance has been contemplated as a component of the estimated annual effective tax rate in order to recognize only the portion of the benefit related to current year losses that is more likely than not to be realized.

As of December 31, 2015, the Company remained in a net U.S. deferred tax liability position and therefore a valuation allowance against its U.S. deferred tax assets was only necessary for certain state deferred tax assets and U.S. foreign tax credit carryforwards. The Company maintained other valuation allowances for certain non-U.S. jurisdictions with cumulative losses. The Company is projecting a pre-tax loss for its U.S. operations in 2016 in an amount that will more than exceed, on an after tax basis, the net deferred tax liability recorded as of December 31, 2015. Thus, we are

projecting to be in a net U.S. deferred tax asset position at December 31, 2016, exclusive of the valuation allowance. Our effective income tax rate on foreign earnings is impacted by the mix of income and the statutory tax rates in our foreign jurisdictions, which range from a low of 0% to a high of 39%. The foreign jurisdictions that had the most impact on our foreign income tax expense (benefit) in the three and nine months ended September 30, 2016 included Austria, Bermuda, Canada, India, Ireland and the U.K.

(16) Litigation

The Company is involved in various legal proceedings, including those discussed below. We record an accrual for legal contingencies when it is both probable that a liability has been incurred and the amount or range of the loss can be reasonably estimated (although, as discussed below, there may be an exposure to loss in excess of the accrued liability). We evaluate our accruals for legal contingencies at least quarterly and, as appropriate, establish new accruals or adjust existing accruals to reflect (1) the facts and circumstances known to us at the time, including information regarding negotiations, settlements, rulings and other relevant events and developments, (2) the advice and analyses of counsel and (3) the assumptions and judgment of management. Legal costs associated with our legal proceedings are expensed as incurred. We had accrued liabilities of \$8.2 million and \$16.4 million for all of our legal matters that were contingencies as of September 30, 2016 and December 31, 2015, respectively.

Substantially all of our legal contingencies are subject to significant uncertainties and, therefore, determining the likelihood of a loss and/or the measurement of any loss involves a series of complex judgments about future events. Consequently, the ultimate outcomes of our legal contingencies could result in losses in excess of amounts we have accrued. We may be unable to estimate a range of possible losses for some matters pending against the Company or its subsidiaries, even when the amount of damages claimed against the Company or its subsidiaries is stated because, among other things: (1) the claimed amount may be exaggerated or unsupported; (2) the claim may be based on a novel legal theory or involve a large number of parties; (3) there may be uncertainty as to the likelihood of a class being certified or the ultimate size of the class; (4) there may be uncertainty as to the outcome of pending appeals or motions; (5) the matter may not have progressed sufficiently through discovery or there may be significant factual or legal issues to be resolved or developed; and/or (6) there may be uncertainty as to the enforceability of legal judgments and outcomes in certain jurisdictions. Other matters have progressed sufficiently that we are able to estimate a range of possible loss. For those legal contingencies disclosed below, as well as those related to the previously disclosed settlement agreement entered into in February 2015 with SNAI S.p.a., as to which a loss is reasonably possible, whether in excess of a related accrued liability or where there is no accrued liability, and for which we are able to estimate a range of possible loss, the current estimated range is up to approximately \$13.5 million in excess of the accrued liabilities (if any) related to those legal contingencies. This aggregate range represents management's estimate of additional possible loss in excess of the accrued liabilities (if any) with respect to these matters based on currently available information, including any damages claimed by the plaintiffs, and is subject to significant judgment and a variety of assumptions and inherent uncertainties. For example, at the time of making an estimate, management may have only preliminary, incomplete, or inaccurate information about the facts underlying a claim; its assumptions about the future rulings of the court or other tribunal on significant issues, or the behavior and incentives of adverse parties, regulators, indemnitors or co-defendants, may prove to be wrong; and the outcomes it is attempting to predict are often not amenable to the use of statistical or other quantitative analytical tools. In addition, from time to time an outcome may occur that management had not accounted for in its estimate because it had considered that outcome to be remote. Furthermore, as noted above, the aggregate range does not include any matters for which the Company is not able to estimate a range of possible loss. Accordingly, the estimated aggregate range of possible loss does not represent our maximum loss exposure. Any such losses could have a material adverse impact on our results of operations, cash flows or financial condition. The legal proceedings underlying the estimated range will change from time to time and actual results may vary significantly from the current estimate.

Colombia Litigation

Our subsidiary, SGI, owned a minority interest in Wintech de Colombia S.A., or Wintech (now liquidated), which formerly operated the Colombian national lottery under a contract with Empresa Colombiana de Recursos para la Salud, S.A. (together with its successors, "Ecosalud"), an agency of the Colombian government. The contract provided for a penalty against Wintech, SGI and the other shareholders of Wintech of up to \$5.0 million if certain levels of lottery sales were not achieved. In addition, SGI delivered to Ecosalud a \$4.0 million surety bond as a further guarantee of performance under the contract. Wintech started the instant lottery in Colombia but, due to difficulties beyond its control, including, among other factors, social and political unrest in Colombia, frequently interrupted telephone service and power outages, and competition from another lottery being operated in a province of Colombia that we believe was in violation of Wintech's exclusive license from Ecosalud, the projected sales level was not met for the year ended June 30, 1993.

In 1993, Ecosalud issued a resolution declaring that the contract was in default. In 1994, Ecosalud issued a liquidation resolution asserting claims for compensation and damages against Wintech, SGI and other shareholders of Wintech for, among other things, realization of the full amount of the penalty, plus interest, and the amount of the bond. SGI filed separate actions opposing each resolution with the Tribunal Contencioso of Cundinamarca in Colombia (the "Tribunal"), which upheld both resolutions. SGI appealed each decision to the Council of State. In May 2012, the Council of State upheld the contract default resolution, which decision was notified to us in August 2012. In October 2013, the Council of State upheld the liquidation resolution, which decision was notified to us in December 2013. In July 1996, Ecosalud filed a lawsuit against SGI in the U.S. District Court for the Northern District of Georgia asserting many of the same claims asserted in the Colombia proceedings, including breach of contract, and seeking damages. In March 1997, the District Court dismissed Ecosalud's claims. Ecosalud appealed the decision to the U.S.

Court of Appeals for the Eleventh Circuit. The Court of Appeals affirmed the District Court's decision in 1998. In June 1999, Ecosalud filed a collection proceeding against SGI to enforce the liquidation resolution and recover the claimed damages. In May 2013, the Tribunal denied SGI's merit defenses to the collection proceeding and issued an order of payment of approximately 90 billion Colombian pesos (or approximately \$30.6 million), plus default interest potentially accrued since 1994 at a 12% statutory interest rate. SGI has filed an appeal to the Council of State, which appeal has stayed the payment order.

SGI believes it has various defenses, including on the merits, against Ecosalud's claims. Although we believe these claims will not result in a material adverse effect on our consolidated results of operations, cash flows or financial position, it is

not feasible to predict the final outcome and there can be no assurance that these claims will not ultimately be resolved adversely to us or result in material liability.

Oregon State Lottery Matter

On December 31, 2014, a representative of a purported class of persons alleged to have been financially harmed by relying on the "auto hold" feature of various manufacturers' video lottery terminals played in Oregon, filed suit in the Circuit Court of Multnomah County, Oregon, against the Oregon State Lottery and various manufacturers, including WMS Gaming Inc. The suit alleges that the auto hold feature of video poker games is perceived by players as providing the best possible playing strategy that will maximize the odds of the player winning, when such auto hold feature does not maximize the players' odds of winning. The plaintiffs are seeking in excess of \$134.0 million in monetary damages.

In April 2015, the court granted the Oregon State Lottery's motion to dismiss, stating the plaintiffs had not satisfied the Oregon Tort Claims Act. As a result of the dismissal, the court indicated that all claims against WMS Gaming Inc. were moot. In June 2015, plaintiffs filed an appeal. We intend to vigorously defend against the claims asserted in the lawsuit.

Shuffle Tech Matter

In April 2015, Shuffle Tech International, LLC, Aces Up Gaming, Inc. and Poydras-Talrick Holdings LLC brought a civil action in the United States District Court for the Northern District of Illinois against the Company, Bally and Bally Gaming, Inc., alleging monopolization of the market for card shufflers in violation of federal antitrust laws, fraudulent procurement of patents on card shufflers, unfair competition and deceptive trade practices. Specifically, the plaintiffs claim that the defendants utilized certain shuffler patents in a predatory manner to create and maintain a monopoly in the relevant shuffler market. The plaintiffs seek no less than \$100.0 million in compensatory damages, treble damages and injunctive and declaratory relief. In June 2015, the defendants filed a motion to dismiss. In October 2015, the court dismissed all of the plaintiffs' claims against Bally and Bally Gaming, Inc. with prejudice, except for the claims of violation of antitrust laws related to the fraudulent procurement of patents on card shufflers. We intend to vigorously defend against the claims asserted in the lawsuit.

(17) Subsequent Events

On November 3, 2016, we announced that we began implementing a new business improvement initiative, which we expect will streamline our organization, increase our efficiencies, and significantly reduce our operating costs once the initiative is fully implemented. These cost savings are expected to be achieved across all our divisions and will encompass a combination of headcount reductions, facilities streamlining, and reductions in other operating costs. We anticipate Restructuring and other costs of approximately \$20 million in the fourth quarter of 2016. The mostly cash payments related to this charge are anticipated to be incurred during the fourth quarter of 2016.

(18) Financial Information for Guarantor Subsidiaries and Non-Guarantor Subsidiaries

We conduct substantially all of our business through our U.S. and foreign subsidiaries. As of September 30, 2016, SGI's obligations under the 2020 Notes, the 2021 Notes, the Secured Notes and the Unsecured Notes were fully and unconditionally and jointly and severally guaranteed by SGC and the Guarantor Subsidiaries other than SGI. As of September 30, 2016, our 2018 Notes, which were issued by SGC, were fully and unconditionally and jointly and severally guaranteed by the Guarantor Subsidiaries. The guarantees of our 2018 Notes, 2020 Notes, 2021 Notes, Secured Notes and Unsecured Notes will terminate under the following customary circumstances: (1) the sale or disposition of the capital stock of the guarantor (including by consolidation or merger of the guarantor into another person); (2) the liquidation or dissolution of the guarantor; (3) the defeasance or satisfaction and discharge of the notes; (4) the release of the guarantor from any guarantees of indebtedness of SGC and SGI (or, in the case of the 2018 Notes, the release of the guarantor from any guarantees of indebtedness of SGC); and (5) in the case of the 2020 Notes, the 2021 Notes and the Secured Notes and the Unsecured Notes, the proper designation of the guarantor as an unrestricted subsidiary pursuant to the indenture governing the respective Notes.

During the third quarter, we designated certain of our wholly owned direct and indirect subsidiaries that hold substantially all of the assets of, and operate, our social gaming business, as "Unrestricted Subsidiaries" under our credit

agreement and each of the indentures governing the 2018 Notes, 2020 Notes, 2021 Notes, Secured Notes and Unsecured Notes. As a result of these designations, our 100%-owned social gaming subsidiaries are no longer guarantors under our credit agreement and indentures. Therefore, the historical condensed consolidating financial information presented has been

reclassified to show the nature of assets held, results of operations and cash flows assuming the "Unrestricted Subsidiary" designations were in effect at the beginning of all periods presented, consistent with their status as non-guarantors as of September 30, 2016. The affected subsidiaries are no longer allocated interest in this condensed consolidating financial information due to their present status as non-guarantors. Accordingly, for all periods presented, we no longer present an allocation of interest to any entities, including the Unrestricted Subsidiaries, other than the legal entity issuer of the associated debt.

Presented below is condensed consolidating financial information for (1) SGC, (2) SGI, (3) the Guarantor Subsidiaries and (4) the Non-Guarantor Subsidiaries as of September 30, 2016 and December 31, 2015 and for the three and nine months ended September 30, 2016 and 2015. The condensed consolidating financial information has been presented to show the nature of assets held, results of operations and cash flows of SGC, SGI, the Guarantor Subsidiaries and the Non-Guarantor Subsidiaries assuming the guarantee structures of our credit agreement, the 2018 Notes, the 2020 Notes, the 2021 Notes, the Secured Notes and the Unsecured Notes were in effect at the beginning of the periods presented.

The condensed consolidating financial information reflects the investments of SGC in SGI and in the Guarantor Subsidiaries and Non-Guarantor Subsidiaries using the equity method of accounting. They also reflect the investments of the Guarantor Subsidiaries in the Non-Guarantor Subsidiaries. Net changes in intercompany due from/due to accounts are reported in the accompanying Supplemental Condensed Consolidating Statements of Cash Flows as investing activities if the applicable entities have a net investment (asset) in intercompany accounts and as a financing activity if the applicable entities have a net intercompany borrowing (liability) balance.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion is intended to enhance the reader's understanding of our operations and current business environment and should be read in conjunction with the description of our business included under Item 1 "Financial Statements" in this Quarterly Report on Form 10-Q, Item 1A. "Risk Factors" in our Quarterly Report on Form 10-Q for the period ended June 30, 2016 and our "Management's Discussion and Analysis of Financial Condition and Results of Operations," "Business" and "Risk Factors" sections included in our 2015 10-K.

This "Management's Discussion and Analysis of Financial Condition and Results of Operations" ("MD&A") contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and should be read in conjunction with the disclosures and information contained and referenced under "Forward-Looking Statements" in this Quarterly Report on Form 10-Q, "Risk Factors" included in our Quarterly Report on Form 10-Q for the period ended June 30, 2016 and "Risk Factors" included in our 2015 10-K. As used in this MD&A, the terms "we," "us," "our" and the "Company" mean SGC together with its consolidated subsidiaries.

BUSINESS OVERVIEW

We are a leading developer of technology based products and services and associated content for the worldwide gaming, lottery and interactive gaming industries. Our portfolio includes gaming machines and game content, casino management systems, table game products and services, instant and draw based lottery games, server based gaming and lottery systems, sports betting technology, lottery content and services, loyalty and rewards programs, interactive gaming and social casino solutions. We also gain access to technologies and pursue global expansion through strategic acquisitions and equity investments.

Current Events

On November 3, 2016, we announced that we began implementing a new business improvement initiative, which we expect will streamline our organization, increase our efficiencies, and reduce our costs by approximately \$75 million on an annualized basis once the initiative is fully implemented. These cost savings are expected to be achieved across all our divisions and will encompass a combination of headcount reductions, facilities streamlining, and reductions in other operating costs. We anticipate Restructuring and other costs of approximately \$20 million in the fourth quarter of 2016. The mostly cash payments related to this charge are anticipated to be incurred during the fourth quarter of 2016.

Segments

We report our operations in three business segments — Gaming, Lottery and Interactive — representing our different products and services. See "— Business Segments Results" below and Note 2 for additional business segment information.

Foreign Exchange

Our results are impacted by changes in foreign currency exchange rates used in the translation of foreign functional currencies into USD and the re-measurement of foreign currency transactions or balances. The impact of foreign currency exchange rate fluctuations represents the difference between current rates and prior-period rates applied to current activity. Our exposure to foreign currency volatility on revenue is as follows:

	Three Months Ended				Nine Months Ended			
	September 30, 2016		2015		September 30, 2016		2015	
(in millions)	Revenue	% Consolidated Revenue	Revenue	% Consolidated Revenue	Revenue	% Consolidated Revenue	Revenue	% Consolidated Revenue
Foreign Currency:								
British Pound Sterling	\$59.68.3	%	\$59.38.8	%	\$175.88.2	%	\$176.48.7	%
Euro	33.7 4.7	%	26.8 4.0	%	91.4 4.3	%	78.4 3.9	%
Australian Dollar	40.4 5.6	%	25.1 3.7	%	92.4 4.3	%	82.2 4.1	%

We also have foreign currency exposure related to certain of our equity investments. See further information regarding our foreign exchange exposure in "Quantitative and Qualitative Disclosures About Market Risk" under Item 7A of our

2015 10-K and "Risk Factors" under Item 1A in our Quarterly Report on Form 10-Q for the period ended June 30, 2016 and "Risk Factors" included in our 2015 10-K. Total foreign currency exchange rate impact upon revenue for the three and nine months ended September 30, 2016 was \$10.8 million (unfavorable) and \$23.5 million (unfavorable), respectively.

Three and Nine Months Ended September 30, 2016 Compared to Three and Nine Months Ended September 30, 2015

Revenue

(in millions)	Three Months Ended September 30,			Nine Months Ended September 30,		
	2016	2015	Variance 2016 vs. 2015	2016	2015	Variance 2016 vs. 2015
Gaming	\$448.2	\$429.1	\$19.1 4.5 %	\$1,311.8	\$1,304.6	\$7.2 0.6 %
Lottery	186.6	191.3	(4.7) (2.5)%	578.2	567.5	10.7 1.9 %
Interactive	85.2	51.2	34.0 66.4 %	241.2	149.7	91.5 61.1 %
Total revenue	\$720.0	\$671.6	\$48.4 7.2 %	\$2,131.2	\$2,021.8	\$109.4 5.4 %

Gaming revenue increased for all comparable periods primarily due to higher unit sales of gaming machines and table products from global shipments, which was partially offset by a decrease in WAP and premium game lease revenue and lower systems hardware and software sales. The Gaming revenue increase included the impact of \$7.8 million and \$15.4 million of unfavorable currency translation in the three and nine months ended September 30, 2016, respectively.

Lottery revenue for the three month period decreased primarily due to an unfavorable \$5.6 million impact resulting from the previously disclosed expiration of the CSL validation contract and \$1.9 million of unfavorable currency translation, partially offset by higher lottery terminal sales. Lottery revenue for the nine month period increased (this increase was offset by an unfavorable \$17.3 million impact from the expiration of the CSL validation contract and \$6.1 million of unfavorable currency translation) primarily due to higher U.S. revenue, mostly driven by increased retail sales of multi-state games including sales leading up to the record \$1.6 billion POWERBALL® jackpot in January 2016, and an increase in U.S. instant game sales revenue with particular strength in Participation contracts and from CSP customers for whom we provide our CSP offerings in an integrated approach, which includes a range of services from game design to support initiatives at retailers.

Interactive revenue increased for all comparable periods primarily due to growth in our social gaming business reflecting the ongoing popularity of Jackpot Party® Social Casino and the success of our recently launched Quick Hit® Slots, Hot Shot® Social Casino and Blazing 7s® Hot Shot Slots social gaming apps.

Operating Expenses

Depreciation, amortization and impairments	191.7	286.5	(94.8) (33.1)%	565.4	692.9	(127.5) (18.4)%
Goodwill impairment	—	935.0	(935.0) (100.0)%	—	935.0	(935.0) (100.0)%
Total operating expenses	\$686.5	\$1,659.8	\$(973.3) (58.6)%	\$1,988.3	\$2,992.0	\$(1,003.7) (33.5)%

Cost of Revenue

Total cost of revenue for the three month period increased primarily due to (1) a \$16.7 million increase in cost of unit shipments in Gaming corresponding to the \$28.6 million growth in revenues; and (2) a \$14.7 million increase in the cost of Interactive services primarily related to platform fees associated with the \$34.0 million increase in Interactive revenue; partially offset by (3) a \$5.4 million reduction in cost of instant games primarily due to the cancellation of the MONOPOLY MILLIONAIRES' CLUB[™] (MMC) game.

Total cost of revenue for the nine month period increased primarily due to (1) a \$35.9 million increase in the cost of Interactive services primarily related to platform fees associated with the \$91.5 million increase in Interactive revenue; (2) a product mix shift among the Gaming lines of business with a \$14.4 million decrease in cost of gaming services, partially offset by an increase of \$9.4 million related to cost of product sales; and (3) cost of instant games having offsetting factors with an increase in PPU program costs offset by an \$8.0 million reduction in costs due to the cancellation of the MMC game.

Selling, general and administrative

The increase in SG&A in the comparable periods was primarily due to the following: (1) a \$10.8 million and \$27.7 million increase in Interactive marketing and player acquisition costs for the three and nine month comparable periods, respectively; (2) a \$3.6 million and \$4.0 million increase in stock based compensation for the three and nine month comparable periods, respectively, each primarily attributable to certain accelerated recognition of stock based compensation; (3) a \$2.6 million increase in professional and legal services for the three month comparable period; and (4) a \$15.2 million decrease in professional and legal fees for the nine month comparable period, which includes an offset of \$7.5 million due to insurance proceeds received during the second quarter of 2016 in connection with the settlement of a legal matter.

Depreciation, amortization and impairments

The decrease in D&A for both comparable periods was primarily due to the non-recurrence of \$128.6 million of intangible asset impairment charges recognized in the nine months ended September 30, 2015 in order to reduce the carrying amount of two trade name assets to their fair value, of which \$25.0 million was recorded in the second quarter of 2015 with the remainder recorded in the third quarter of 2015.

Goodwill impairment

The decrease in goodwill impairment for both comparable periods was primarily due to the non-recurrence of a \$935.0 million impairment charge recognized in the third quarter of 2015 to reduce the carrying amount of our SG gaming reporting unit goodwill to its implied fair value as a result of a change in outlook for the SG gaming reporting unit. For additional information regarding this charge, see Note 8.

Other Factors Affecting Net Loss:

Gain on early extinguishment of debt

During the second quarter of 2016, we repurchased and cancelled an aggregate principal amount of \$65.9 million of our 2020 Notes and 2021 Notes for \$39.9 million in cash, which resulted in a \$25.2 million gain on early extinguishment of debt inclusive of a \$0.8 million charge related to the write-off of unamortized debt discount and deferred financing costs associated with the extinguished debt.

Income tax benefit

We recorded an income tax benefit of \$19.7 million and \$58.5 million for the three and nine months ended September 30, 2016, respectively, compared to an income tax benefit of \$81.3 million and \$208.9 million for the three and nine months ended September 30, 2015, respectively. The effective income tax rates for the three and nine months ended September 30, 2016 were 16.6% and 19.4%, respectively, and 7.0% and 14.2% for the three and nine months ended September 30, 2015, respectively, and were determined using an estimated annual effective tax rate after considering any discrete items for such periods. For additional information regarding the changes in our effective tax rates and the variance in our income tax benefit, see Note 15.

See "—Business Segments Results" below for a more detailed explanation of the significant changes in our components of revenue within the individual segment results of operations.

BUSINESS SEGMENTS RESULTS

GAMING

Our Gaming business segment designs, develops, manufactures, markets and distributes a comprehensive portfolio of gaming products and services. We provide our Gaming portfolio of products and services to commercial casinos, Native American casinos, wide-area gaming operators such as LBOs, arcade and bingo operators in the U.K. and continental Europe, and government agencies and their affiliated operators. Our equity investments in RCN and ITL are part of our Gaming business segment.

We generate Gaming revenue from both services and product sales. Our services revenue includes revenue earned from WAP, premium and daily-fee Participation gaming machines, other leased gaming machines (including VLTs and electronic table games), leased table products and services (including Shufflers), casino management technology solutions and systems, PTG licensing and other services revenues. Our product sales revenue includes the sale of new and used gaming machines, electronic table games, VLTs and VGTs, casino-management technology solutions and systems, table products, conversion kits (including game, hardware or operating system conversions) and spare parts.

Current Year Update

We believe that challenging market conditions impacted our Gaming results during the first three quarters of 2016 and could continue to negatively impact our results of operations. These challenges included: (1) restrained investment in new replacement gaming machines by our existing customers; (2) increased competition for new systems, gaming operations, gaming machines and table products businesses; (3) political and economic conditions in Greece, resulting in a delay in the deployment of our VLTs; and (4) other economic and regulatory pressures that affect our business operations globally.

For the remainder of 2016, we expect to continue to face pricing pressure in our Gaming segment. We anticipate that replacement demand for gaming machines and constraints on capital spending by gaming operators will continue at current levels and that demand for gaming machines will continue to be negatively impacted by the continued consolidation of casino and other gaming operators. We anticipate that demand for our gaming systems products and services will continue at current levels due to fewer large, multi-site installation opportunities, system replacements and new casino openings throughout 2016. We have experienced a decrease in our installed base of WAP gaming machines and anticipate that our installed base of WAP, premium and daily-fee Participation gaming machines will begin to stabilize, benefiting from the release of a number of new games, including the launch of our new GameScape™ cabinet in the third quarter of 2016. The GameScape cabinet, a dedicated Participation platform, features a

player-favorite branded WILLY WONKA'S WORLD OF WONKA™ game.

Total new unit shipments	7,960	6,255	1,705	27.3%	22,376	19,792	2,584	13.1%
Average sales price per new unit	\$16,824	\$16,287	\$537	3.3%	\$16,804	\$15,991	\$813	5.1%

Gaming Operations

Gaming operations revenue decreased as compared to both prior year periods in part due to: (1) a 704 unit decrease in the installed base of WAP, premium and daily-fee Participation gaming machines; and (2) a decrease in the average daily revenue per WAP, premium and daily-fee Participation units primarily reflecting a lower mix of higher-yielding WAP games.

These decreases were partially offset by higher revenue in the three and nine months ended September 30, 2016 resulting from: (1) a 2,423 unit increase in the ending installed base for Other Participation and leased units reflecting additional placements of electronic table games and an increase in the number of leased units in the Caribbean and other international markets during the current year; and (2) a partially offsetting decrease in the average daily revenue for our Other Participation and leased units.

Gaming Machine Sales

Gaming machine unit sales increased compared to both prior year periods due to higher global unit shipments primarily resulting from sales of the Pro Series WAVE, TwinStar™ and Dualos cabinets.

U.S. and Canadian shipments for the three months ended September 30, 2016 encompassed 3,033 replacement units and 989 units for new casino openings and expansions, including 245 Illinois VGT units. International shipments encompassed 2,993 replacement units and 945 units for new casino openings and expansions, driven by growth in Asia, Australia and South America. The average sales price increased to \$16,824 per unit reflecting a greater mix of higher performing premium gaming machines sold during the period.

U.S. and Canadian shipments for the nine months ended September 30, 2016 encompassed 10,365 replacement units, inclusive of 1,271 Oregon VLT units (which completed the contract), and 2,700 units for new casino openings and expansions, including 1,418 Illinois VGT units. International shipments encompassed 8,241 replacement units and 1,070 units for new casino openings and expansions. The average sales price increased to \$16,804 per unit reflecting a greater mix of higher-performing premium gaming machines sold during the period.

Gaming Systems

Gaming systems sales decreased compared to both prior year periods due to lower hardware, software and services sales resulting from fewer large, multi-site opportunities, system replacements and new casino openings in 2016. The decreases were partially offset by a 5% and 6% increase in systems maintenance revenue during the three and nine months ended September 30, 2016, respectively, compared to the prior year periods.

Table Products

Table products revenue increased compared to both prior year periods primarily due to increased Shuffler sales and a 5% increase in revenue from leased Shufflers, PTGs and progressives primarily due to the success of the Blazing 7s Blackjack™ Progressive.

Operating Income

The decrease in operating loss from the comparable prior year periods was primarily attributable to the following: (1) the non-recurrence of third quarter 2015 goodwill impairment and trade name assets impairment charges, as more fully described above; (2) a decrease in overall operating expenses primarily due to realized integration cost synergies largely implemented in prior periods, including lower SG&A expense of \$7.1 million and \$23.4 million for the three and nine months ended September 30, 2016, respectively, which benefited in the nine month period from \$7.5 million of insurance proceeds received in connection with the settlement of a legal matter; and (3) lower depreciation and amortization expense of \$85.4 million and \$120.0 million for the three and nine months ended September 30, 2016, respectively; partially offset by (4) a less profitable revenue mix, which was due to an increase in lower-margin Gaming machine sales revenue and a decline in higher-margin Gaming systems and Gaming operations revenue.

LOTTERY

The Lottery segment is primarily comprised of our systems-based services and product sales business and our instant games business. Our systems-based services and product sales business provides customized computer software, software support, equipment and data communication services, sports wagering systems and keno to lotteries. In the U.S., we typically provide the necessary point-of-sale terminals and equipment, software and maintenance services on a Participation basis under long-term contracts that typically have an initial term of at least five years. Internationally, we typically sell point-of-sale terminals and/or computer software to lottery authorities and may provide ongoing fee-based systems maintenance and software support services.

Our instant games business generates revenue from the manufacture and sale of instant games, as well as the provision of value-added services such as game design, sales and marketing support, specialty games and promotions, inventory management, warehousing, fulfillment services, as well as full instant game category management. In addition, we provide licensed games, promotional entertainment and internet-based marketing services to the lottery industry.

These revenues are presented as instant games revenue.

40

Our equity investments in LNS, Northstar Illinois, Northstar New Jersey, CSG, Hellenic Lotteries and GLB are included in the Lottery segment.

Current Year Update

We were the exclusive instant game validation network provider to the CSL under an agreement that expired in January 2016 and was subsequently not renewed or extended. We have also seen a decline in the instant game printing revenue of CSG, our printing joint venture in China, which continues to service the CSL. We believe a decrease in retail sales is due in part to competition from other wagering products. We are actively seeking multiple opportunities to continue to provide value-added services to the CSL, as well as developing additional business initiatives to replace our revenue and profits previously generated by the CSL validation agreement. Until we are able to achieve these other opportunities and initiatives, or to the extent we are not able to do so, our operating results relating to our China lottery business will continue to be adversely affected.

In April, we signed a lottery instant games CSP agreement with the North Carolina lottery, which is anticipated to begin in March 2017 and has a term of eight years. The contract may be extended by the lottery for up to two additional years.

During the first quarter of 2016, we also launched innovative, multi-channel cross-over games, such as our Jackpot Party instant game, for several customers. These new launches capitalize on our extensive proprietary games library and our expertise in mobile applications and second-chance promotional games and activities.

During the second quarter of 2016, we were awarded a new agreement by the Georgia Lottery that provided for a seven-year extension of the current instant games contract.

During the third quarter of 2016, we were awarded a new three-year contract by the South Dakota Lottery as primary instant game provider and a one-year contract extension by the Massachusetts Lottery to continue as the primary instant game provider.

We believe that our U.S. lottery customers' retail sales is a key performance indicator of our services revenue. However, there may not always be a direct correlation between retail sales and our services revenue due to the terms of our contracts, the impact of changes in our customer contracts or other factors. Additionally, we believe the level of jackpots of the POWERBALL and MEGA MILLIONS® multi-state draw games, and the number of drawings conducted before a jackpot is won, may have an impact on U.S. retail sales and, therefore, on our Lottery services revenue. Our Lottery services revenue can also be impacted by the retail sales of instant games where we provide instant game validation services, either on a standalone basis or as part of a lottery systems contract. Our Lottery product sales revenue primarily relates to sales of equipment to international customers that are not subject to long-term contracts and demand can be volatile between quarters.

We believe we will continue to face intense price-based competition in our Lottery business for the remainder of 2016. In the near term, we also expect to see an increase in the number of jurisdictions that seek to privatize or outsource lottery operations and to face strong competition from both traditional and new competitors with respect to these opportunities. In addition, we anticipate that lottery RFPs, specifically those for our PMA arrangements and certain of our international customers, could increasingly include terms that expose us to increased risk, such as requiring the guarantee of specific income thresholds or significant upfront payments.

We believe retail sales of instant games is a key performance indicator of our instant games revenue. However, there may not always be a direct correlation between retail sales and our instant games revenue due to various factors. These factors include, but are not limited to, the type of contract (e.g., Participation contracts versus PPU contracts), the impact of changes to individual customer contracts, the performance of our licensed games and player loyalty business and foreign exchange volatility.

(1) Information provided by third-party lottery operators.

(2) U.S. instant games customers' retail sales include only sales of instant games.

(3) U.S. lottery systems customers' retail sales primarily include sales of draw games, keno and instant games validated by the relevant system.

Primary factors affecting total Lottery revenue in both the three and nine months ended September 30, 2016 were: (1) the expiration of the CSL validation contract which had a negative \$5.6 million and \$17.3 million impact on services revenue in the three and nine month periods, respectively; (2) continued strength in Participation and PPU contracts (especially with customers having a CSP contract) which increased instant games revenue by \$7.7 million and \$25.7 million in the three and nine month periods, respectively; (3) an unfavorable impact on revenue from foreign currency (primarily in the U.K.) totaling \$1.9 million and \$6.1 million in the three and nine month periods, respectively; and (4) an increase in product sales of \$1.9 million reflecting higher terminal sales in the three month comparable period and a decrease of \$1.0 million in the nine month comparable periods. In addition to the preceding factors, in the three month period, increases in instant games revenue were offset by declines in licensed games revenue of \$5.5 million and by declines in international revenue primarily from Participation contract customers. In the nine month period, U.S. revenue from retail sales of multi-state games increased total revenue by \$10.2 million, partially offsetting the impact to services revenue due to the expiration of the CSL validation contract.

Operating Income

Operating income increased compared to both prior year periods primarily due to a more profitable revenue mix and the following key factors: (1) a decrease in D&A totaling \$6.4 million and \$12.7 million in the three and nine month periods, respectively; (2) an increase in SG&A of \$4.6 million and \$5.4 million in the three and nine month periods, respectively; and (3) an R&D increase of \$0.6 million and \$2.7 million in the three and nine month periods, respectively.

INTERACTIVE

We generate Interactive gaming services revenue through our social gaming, RMG and SG Universe™ products which are all available via desktop and mobile devices.

In our social gaming business, we generate revenue from the sale of virtual coins or chips, which players can use to play slot and table games (i.e., spin in the case of slot games, bet in the case of table games). The games are primarily our

WMS®, Bally, Barcrest™, SHFL® and Dragonplay® branded games. In addition, we also offer third-party branded games as well as original content.

In our RMG business, we provide game content to real-money online casino operators, primarily in Europe. We host the play of our game content on our centrally-located servers (often referred to as remote game servers) that are integrated with the online casino operators' websites. We typically earn a percentage of the operator's net gaming revenue generated by the games we host.

Our SG Universe includes three interactive services for land based casino operators: Mobile Concierge, Play4Fun™ and VenueBet. Mobile Concierge provides casinos with the ability to customize marketing to players while giving players access to their loyalty reward credits and the ability to make on-property reservations. Play4Fun is a social casino platform delivered through a land based casino operator's branded website and mobile application. VenueBet is an on-property mobile real money gaming platform that allows casino patrons to play their favorite casino games for real money on their mobile devices while anywhere on the casino property. We typically earn revenue from a combination of service fees and the sale of virtual coins

Current Year Update

In early 2016, our Hot Shot Social Casino became one of the top 30 grossing apps on Facebook and, in the third quarter of 2016, we launched the mobile version of this product worldwide. We have continued to expand our RMG business with the launch of RMG products at 18 additional online casino operators in 2016.

nm = not meaningful

pp = percentage points

(1) Mobile penetration as defined by percentage of B2C social gaming revenue generated from mobile platforms.

(2) MAU = Monthly Active Users and is a count of unique visitors to our sites during a month.

(3) DAU = Daily Active Users, a count of unique visitors to our sites during a day.

(4) ARPDau = Average daily revenue per DAU is calculated by dividing revenue for a period by the DAU for the period by the number of days for the period.

The increase in revenue compared to both prior year periods is primarily attributable to social gaming revenue (including SG Universe™) which grew 80.8% and 69.1% in three and nine month comparable periods, respectively, reflecting the ongoing popularity of Jackpot Party Social Casino and the success of the recently launched Quick Hit Slots, Hot Shot Social Casino, and Blazing 7s Hot Shot Slots social gaming apps.

Operating Income

The increase in operating income compared to both prior year periods reflects the corresponding revenue growth. SG&A expense and R&D expense increased as a result of higher marketing and player acquisition costs, coupled with new product development costs to support ongoing growth initiatives for which revenue has not yet been recognized.

RECENTLY ISSUED ACCOUNTING GUIDANCE

For a description of recently issued accounting pronouncements, see Note 1.

CRITICAL ACCOUNTING ESTIMATES

For a description of our policies regarding our critical accounting estimates, see "Critical Accounting Estimates" in "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" included in our 2015 10-K.

There have been no significant changes in our critical accounting estimate policies or the application of those policies to our consolidated financial statements from those presented in "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" included in our 2015 10-K.

LIQUIDITY, CAPITAL RESOURCES AND WORKING CAPITAL

Sources of Liquidity

As of September 30, 2016, our principal sources of liquidity, other than cash flows provided by operating activities, were cash and cash equivalents and amounts available under our revolving credit facility discussed below under "Credit Agreement and Other Debt."

Cash and Available Revolver Capacity

(in millions)	As of September 30, 2016	As of December 31, 2015
Cash and cash equivalents	\$ 120.9	\$ 128.7
Revolver capacity	592.6	592.6
Revolver capacity drawn or committed to letters of credit	(106.2)	(138.3)
Total	\$ 607.3	\$ 583.0

The amount of our available cash and cash equivalents fluctuates principally based on borrowings or repayments under our credit facilities, investments, acquisitions and changes in our working capital position. The borrowing capacity under our revolving credit facility will depend on the amount of outstanding borrowings and letters of credit issued and on us remaining in compliance with the covenants under our credit agreement, including a maintenance covenant based on consolidated net first lien leverage. We were in compliance with the covenants under our credit agreement as of September 30, 2016.

We believe that our cash flow from operations, available cash and cash equivalents and available borrowing capacity under our existing or anticipated financing arrangements will be sufficient to meet our liquidity needs for the foreseeable future; however, there can be no assurance that this will be the case. For example, our Lottery contracts are periodically subject to renewal or re-bid and there can be no assurance that we will be successful in sustaining our cash flow from operations if our contracts are not renewed or replaced or are renewed on less favorable terms, or if we are unable to enter into new contracts. We believe that substantially all cash held outside the U.S. is free from legal encumbrances or similar restrictions that would prevent it from being available to meet our global liquidity needs. Total cash held by our foreign subsidiaries was \$75.3 million as of September 30, 2016. To the extent that a portion of our foreign cash was required to meet liquidity needs in the U.S. (which we do not currently anticipate), we might

incur a tax liability to repatriate it, the timing and amount of which would depend on a variety of factors.

Our gaming Participation and lottery systems businesses generally require significant upfront capital expenditures. In connection with a renewal or bid of a gaming machine or lottery systems contract, a customer may seek to obtain new equipment or impose new service requirements, which may require additional capital expenditures in order to retain or win the contract. Our ability to generate revenue and to continue to procure new contracts will depend on, among other things, our then present liquidity levels or our ability to obtain additional financing on commercially reasonable terms. If we do not have adequate liquidity or are unable to obtain financing for these upfront cash payments on favorable terms or at all, we may not be able to bid on certain contracts, which could restrict our ability to grow and have a material adverse effect on our results of operations, cash flows and financial condition. Our ability to make payments on and to refinance our indebtedness and other obligations depends on our ability to generate cash in the future. We may also, from time to time, repurchase, or otherwise retire or refinance our debt, through our subsidiaries or otherwise. Such activities, if any, will depend on prevailing market conditions, contractual restrictions and other factors, and the amounts involved may or may not be material. If we need to refinance all or part of our indebtedness at or before maturity, there can be no assurance that we will be able to obtain new financing or to refinance any of our indebtedness on commercially reasonable terms or at all. During the second quarter of 2016, we repurchased and cancelled a portion of our 2020 Notes and 2021 Notes (see Note 11 for more information). In the event we pursue significant acquisitions or other expansion opportunities, conduct significant repurchases of our outstanding securities, or refinance or repay existing debt, we may need to raise additional capital either through the public or private issuance of equity or debt securities or through additional borrowings under our existing financing arrangements, which sources of funds may not necessarily be available on terms acceptable to us, if at all. In addition, lottery customers in the U.S. generally require service providers to provide performance bonds in connection with the relevant contract. As of September 30, 2016, our outstanding performance bonds totaled \$223.3 million. Our ability to obtain performance bonds on commercially reasonable terms is subject to our financial condition and to prevailing market conditions, which may be impacted by economic and political events. Although we have not experienced difficulty in obtaining such bonds to date, there can be no assurance that we will continue to be able to obtain performance bonds on commercially reasonable terms, or at all.

Nine Months Ended September 30, 2016 Compared to Nine Months Ended September 30, 2015

Cash Flow Summary

	Nine Months		Variance
	Ended		
	September 30,		
(in millions)	2016	2015	2016 vs. 2015
Net cash provided by operating activities	\$342.8	\$255.5	\$ 87.3
Net cash used in investing activities	(187.8)	(177.2)	(10.6)
Net cash used in financing activities	(161.7)	(140.9)	(20.8)
Effect of exchange rates on cash and cash equivalents	(1.1)	(7.1)	6.0
Decrease in cash and cash equivalents	\$(7.8)	\$(69.7)	\$ 61.9

Cash flows from operating activities

Net cash provided by operating activities increased primarily due to the increase in incremental net earnings after adjusting for non-cash items of \$64.1 million and a \$23.2 million increase in working capital and other items.

Cash flows from investing activities

Net cash used in investing activities increased primarily due to a decrease of \$13.0 million in distributions of capital on equity investments which was partially offset by \$3.1 million in proceeds from asset sales. In addition, we decreased our capital expenditures by \$19.2 million which was offset by a decrease in restricted cash of \$12.8 million and a decrease in changes in other assets and liabilities and other of \$7.1 million, when compared to the same period last year. Capital expenditures are composed of investments in systems, equipment and other assets related to contracts, property and equipment, intangible assets and software.

Cash flows from financing activities

Net cash used in financing activities increased primarily due to a net increase in payments on debt of \$38.7 million. The increase was primarily due to the repurchase of \$65.9 million in aggregate principal face value of our 2020 Notes and 2021 Notes for \$39.9 million, resulting in a \$25.2 million gain on early extinguishment of debt. In addition, we increased our payments on license obligations by \$2.5 million and made \$25.0 million less in net payments on our revolving credit facility, when compared to the nine-month period last year.

Credit Agreement and Other Debt

For additional information regarding our credit agreement and other debt, interest rate risk and interest rate hedging instruments, see Note 11 and Item 7A "Quantitative and Qualitative Disclosures About Market Risk" in of our 2015 10-K.

Off-Balance Sheet Arrangements

As of September 30, 2016, we did not have any significant off-balance sheet arrangements.

Contractual Obligations

Other than the amendment and extension of terms of one of our existing license agreements, which is more fully described in Note 8, and the repurchase and cancellation of \$56.5 million and \$9.4 million of principal amount of our 2020 Notes and 2021 Notes, respectively, which is more fully described in Note 11, there have been no material changes to our contractual obligations disclosed under Item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations — Liquidity, Capital Resources and Working Capital — Contractual Obligations" in our 2015 10-K.

During the third quarter of 2016, we entered into a definitive agreement to acquire all of the issued and outstanding common shares of DEQ Systems Corp. (DEQ) for approximately \$21.0 million in cash. The transaction is expected to close around year-end 2016, subject to approval by DEQ's shareholders, receipt of gaming approvals in certain jurisdictions and other customary closing conditions.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

There have been no material changes to the disclosure under Item 7A. "Quantitative and Qualitative Disclosures about Market Risk" included in our 2015 10-K.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We have evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this Quarterly Report on Form 10-Q. The evaluation was conducted under the supervision and with the participation of our management, including our Chief Executive Officer and our Chief Financial Officer.

Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, due to the material weakness in our internal control over financial reporting ("ICFR") previously disclosed in our 2015 10-K, our disclosure controls and procedures were not effective as of September 30, 2016. Although we have completed our remediation measures designed to correct the material weakness as of September 30, 2016, we are unable to conclude that the remediation was successful until further testing can be performed, as described below. The material weakness, which is described more fully in Item 9A of our 2015 10-K, is as follows: the Company's review control did not operate at a sufficient level of precision to identify the improper inclusion of deferred taxes in the fair value modeling used in our step two goodwill impairment test for our SG gaming reporting unit. Notwithstanding the material weakness identified by our management, our Chief Executive Officer and our Chief Financial Officer have concluded, based on their knowledge, that the consolidated financial statements included in this Quarterly Report on Form 10-Q fairly present in all material respects the Company's financial condition, results of operations and cash flows as of and for the periods presented in this report, in conformity with accounting principles generally accepted in the United States.

Changes in Internal Control over Financial Reporting

As previously disclosed, we identified a material weakness in our ICFR, pertaining to the step two goodwill impairment testing for our SG gaming reporting unit that we performed in accordance with ASC 350, Intangibles-Goodwill and Other. As of September 30, 2016 we have completed remediation measures designed to correct this material weakness as follows:

Reviewed the processes and controls related to the fair value modeling in the step two goodwill impairment assessment.

Designed and documented a new review control with enhanced precision related to the review of the fair value modeling of the step two goodwill impairment assessment.

Conducted a training program for relevant personnel and developed specific review procedures for the step two goodwill impairment assessment.

We believe these actions have meaningfully strengthened our ICFR, but we will not be able to conclude whether the material weakness has been remediated until sufficient time has elapsed to provide evidence that the enhanced controls are operating effectively in connection with our routine annual goodwill impairment testing to be performed in accordance with ASC 350. We are in the process of performing our annual goodwill impairment testing, which will be completed before the filing of our 2016 Annual Report on Form 10-K.

Other than the completion of the remediation steps described above, there were no changes in our ICFR during the quarter ended September 30, 2016 that have materially affected, or are reasonably likely to materially affect, our ICFR.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

For a description of our legal proceedings, see Note 16.

Item 1A. Risk Factors

47

Except for the risk factor disclosed in our Quarterly Report on Form 10-Q for the period ended June 30, 2016, there have been no material changes in our risk factors from those disclosed under Item 1A. "Risk Factors" included in our 2015 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

There was no stock repurchase activity during the three months ended September 30, 2016, other than 24,989 shares acquired from employees to satisfy the withholding taxes associated with the vesting of RSUs during this period at an average price paid per share of \$10.01.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.

Item 6. Exhibits
