The Commerce Group, Inc.
Announces 2004 Second Quarter Results
and Comparison to 2003

WEBSTER, Mass., July 23, 2004 -- The Commerce Group, Inc. (NYSE:CGI) today reported 2004 second quarter results. Net earnings were \$37.4 million, or \$1.14 per diluted share, compared to net earnings of \$71.5 million or \$2.22 per diluted share for 2003.

During the second quarter of 2004, the Company had net realized investment losses of \$8.6 million or \$0.17 per diluted share, compared to gains of \$65.9 million or \$1.53 per diluted share in the second quarter of 2003. A complete breakdown of this information is included

Edgar Filing: COMMERCE GROUP INC /MA - Form 8-K

in the attached tables.

Earned premiums were \$404.5 million for the second quarter of 2004, compared to \$350.3 million for 2003. A schedule of direct written premiums to earned premiums is included in the attached tables.

The second quarter GAAP consolidated operating combined ratio was 91.7%, compared to 100.5% for 2003. The decrease in the combined ratio was the result of a decrease in both the loss ratio and the underwriting ratio. The Companys GAAP consolidated loss ratio for the second quarter of 2004 decreased to 68.4% from 76.9% during the same period last year. The improvement was primarily the result of an increase in average earned premium revenue per automobile and a decline in the current year personal automobile physical damage claim frequency. The Companys GAAP consolidated underwriting ratio decreased to 23.3%, as compared to 23.6% for last years second quarter, primarily as a net result of lower 2004 policy year mandated Massachusetts personal automobile commission rates partially offset by higher accrued contingent commissions.

Cumulative June 30, 2004 Results

Net earnings for the first six months of 2004 were \$88.4 million, or \$2.70 per diluted share, compared to net earnings of \$84.4 million or \$2.62 per diluted share for 2003.

During the first six months of 2004, the Company had net realized investment gains of \$11.9 million or \$0.24 per diluted share, compared to gains of \$60.0 million or \$1.33 per diluted share in the same period of 2003. A complete breakdown of this information is included in the attached tables.

Earned premiums were \$800.1 million for the six months of 2004, compared to \$688.3 million for 2003. A schedule of direct written premiums to earned premiums is included in the attached tables.

Page 3 of 9

CGI 2Q04 Earnings Release (page 2 of 7)

The 2004 six month GAAP consolidated operating combined ratio was 92.7%, compared to 100.5% for 2003. The decrease in the combined ratio was the result of a decrease in the loss ratio, partially offset by an increase in the underwriting ratio. The Companys GAAP consolidated loss ratio for the first six months of 2004 decreased to 69.8% from 79.0% during the same period last year. The improvement was the result of several factors, including: (1) an increase in average earned premium revenue per automobile; (2) a decline in the current year personal automobile physical damage claim frequency; and, (3) a decrease in the overall Commonwealth Automobile Reinsures (C.A.R.) deficit. The Companys GAAP consolidated underwriting ratio increased to 22.9% for the first six months of 2004, as compared to 21.5% for 2003, primarily as a net result of higher accrued contingent commissions offset by lower 2004 policy year mandated Massachusetts personal automobile commission rates.

A complete presentation of June 30, 2004 and 2003 financial statement information, including a breakdown of the components of the combined ratio and realized investment gains and losses, is included in the financial statements attached to this press release.

Additional supplemental financial information will be available on

Edgar Filing: COMMERCE GROUP INC /MA - Form 8-K

July 26th on the Companys website at www.commerceinsurance.com, under the "Links" section of the "News and Investor Information" area.

At June 30, 2004, the Company had authority to purchase approximately 858,000 additional shares of common stock under the current Board of Directors stock re-purchase authorization, which excludes treasury stock acquired as a result of officer stock option exercises. During the second quarter of 2004, the Company acquired 493,361 shares of treasury stock at an average price of \$45.95 per share as a result of option exercises. Also during the second quarter, the Company issued approximately 924,000 shares of common stock related to all option exercises.

All quarterly figures are unedited and all results are reported in accordance with accounting principles generally accepted in the United States (GAAP).

About The Commerce Group, Inc.

The Commerce Group, Inc. is headquartered in Webster, Massachusetts. Property and casualty insurance subsidiaries include The Commerce Insurance Company and Citation Insurance Company in Massachusetts, Commerce West Insurance Company in California, and American Commerce Insurance Company in Ohio. Through its subsidiaries combined insurance activities, the Company is ranked as the 20th largest personal automobile insurance group in the country by the Auto Insurance Report, based on NAIC 2003 direct written premium information.

ADDITIONAL EARNINGS INFORMATION

Three Months and Six Months June 30, 2004 and 2003

(Thousands of Dollars, Except Per Share Data)

Unaudited

- (1) GAAP consolidated operating ratios are calculated as in (2) below using the combined insurance subsidiaries loss and underwriting results, adding to them the expenses of holding companies (corporate expenses) in order to equal the loss and underwriting

Edgar Filing: COMMERCE GROUP INC /MA - Form 8-K

expense amounts on the income statement. For purposes of the U/W ratio, underwriting expenses are grossed-up for the increase in deferred acquisition costs of \$5,766 and for the three months ended and \$20,769 and \$19,005 for the six months ended June 30, and 2003, respectively.

- (2) GAAP operating ratios for combined insurance subsidiaries are calculated as follows:
- (a) The loss ratio represents losses and LAE divided by earned premiums; and,
 - (b) The underwriting ratio represents underwriting expenses (excluding changes in costs), divided by net premiums written. No corporate expenses are included i
