### EXHIBIT 99.1

Zoom Technologies Reports Higher Sales and Profit for the Fourth Quarter of 2003

Boston, February 11, 2004 -Zoom Technologies, Inc. (NASDAQ: ZOOM), a leading manufacturer of modems and other data communication products, today reported net income of \$757 thousand or \$.09 per diluted share for its fourth quarter ending December 31, 2003, a positive income swing of \$1.3 million from Zoom's net loss of \$529 thousand or \$.07 per diluted share in the fourth quarter of 2002.

Zoom's net sales were \$9.2 million for the fourth quarter of 2003, up 11.5% from \$8.2 million for the fourth quarter of 2002, due primarily to dramatic growth in ADSL modem sales.

Zoom's net loss for the year 2003 was \$668 thousand or \$.08 per diluted share on sales of \$33.3 million, compared to a net loss of \$5.1 million or \$.65 per diluted share on sales of \$37.3 million for 2002. Zoom incurred losses in the first two quarters of 2003, and then became profitable in the last two quarters of 2003 as ADSL modem sales grew and Zoom's costs declined.

Gross profit was \$3.4 million or 36.6% of net sales in the fourth quarter of 2003 compared to \$2.4 million or 29.1% of net sales in the fourth quarter of 2002. The improved gross profit dollars and percentage reflect the impact of product cost improvements and the increased dollar value of European sales due to the strength of the euro and the pound.

Operating expenses were \$2.6 million or 28.6% of net sales in the fourth quarter of 2003 compared to \$2.9 million or 35.2% of net sales in the fourth quarter of 2002. The decline in operating expenses was primarily due to lower employee-related operating expenses as Zoom's worldwide headcount dropped from 185 to 159 from December 31, 2002 to December 31, 2003.

Zoom's cash balance on December 31, 2003 was \$9.9 million, up from \$7.6 million on December 31, 2002. On December 31, 2003 Zoom's current ratio was 5.6.

"We are particularly encouraged by the growth of our ADSL modem business, which has increased for 8 straight quarters, more than quadrupling in revenues to \$2.2 million from Q4 2002 to Q4 2003," said Frank Manning, Zoom's President and CEO. "Europe is particularly strong for us, and we are also seeing good growth in the US and Asia. Our DSL customers now include European retailers, Internet Service Providers, and even telephone operating companies. We plan to extend our ADSL product line to include wireless networking and Voice over IP. While we are encouraged by our progress in the ADSL modem market, the overall market for dial-up modems sold by retailers, an important part of our business, has continued to decline."

"We are focusing our development efforts primarily in the ADSL, dial-up modem, dialer, and Voice over IP areas, with exciting product introductions planned throughout 2004. We also remain committed to our other Internet access product lines, including cable modems."

"Overall our business has been running efficiently. Operating costs are down, inventory turns are up, receivables collections are good, and our cash position is strong."
