EXPLANATORY NOTE

We are filing this Amendment No. 1 to our definitive proxy statement to correct an error that appeared in the original proxy statement and proxy card which was filed with the Securities and Exchange Commission on September 15, 2017. The original proxy statement incorrectly stated on page 2 under the caption “STOCKHOLDERS ENTITLED TO VOTE” that the affirmative vote of a plurality of the votes cast at the meeting is required for the election of directors. On February 7, 2017, the Board of Directors of Matrix Service Company adopted a majority voting standard for uncontested director elections pursuant to which a director nominee will be elected only if the votes cast for such nominee’s election exceed the votes cast against such nominee’s election. The purpose of this Amendment No. 1 is to correct the information in the proxy statement and proxy card to reflect the new majority voting standard. There are no other revisions or amendments to any other parts of the original proxy statement previously filed. We will print and distribute to our stockholders this Amendment No. 1 in lieu of the original definitive proxy statement.

MATRIX SERVICE COMPANY
PROXY STATEMENT FOR ANNUAL MEETING OF STOCKHOLDERS
To Be Held on October 31, 2017

This proxy statement, along with a proxy card and our 2017 Annual Report, is first being mailed to stockholders on or about September 26, 2017

SOLICITATION AND REVOCATION OF PROXIES

The accompanying proxy is solicited by the Board of Directors (the "Board") of Matrix Service Company ("Matrix", the "Company", "we", "our" or "us") for use at the 2017 Annual Meeting of Stockholders (the "Annual Meeting"), which is scheduled to be held at 2:00 PM, Central Time on October 31, 2017, and at any adjournment or postponement thereof for the purposes set forth in the accompanying Notice of 2017 Annual Meeting of Stockholders. The Annual Meeting is scheduled to be held at the Company's corporate headquarters, 5100 East Skelly Drive, Tulsa, Oklahoma. This proxy statement and accompanying proxy card were first sent on or about September 26, 2017 to stockholders of record on September 7, 2017 (the "Record Date"). The annual report of the Company on Form 10-K for the fiscal year ended June 30, 2017 accompanies this proxy statement.

If the accompanying proxy card is properly executed and returned or a stockholder votes his or her proxy by Internet or telephone, the shares represented by the proxy will be voted at the Annual Meeting in accordance with the directions noted thereon or, if no direction is indicated, those shares will be voted FOR each of the Board's nominees in respect of Proposal 1, FOR Proposals 2 and 3 and "1 Year" in respect of Proposal 4. In addition, the proxy confers authority on the persons named in the proxy card to vote, in their discretion, on any other matters properly presented at the Annual Meeting. The Board is not currently aware of any other such matters. Any stockholder who has given a proxy, whether by mail, Internet or telephone, has the power to revoke it at any time before it is voted by executing a subsequent proxy and sending it to Kevin S. Cavanah, Secretary, Matrix Service Company, 5100 East Skelly Drive, Suite 500, Tulsa, Oklahoma 74135, or by a later dated vote by Internet or by telephone. The proxy also may be revoked if the stockholder is present at the meeting and elects to vote in person.

The expenses of this proxy solicitation, including the cost of preparing and mailing this proxy statement and enclosed proxy card, will be borne by the Company. Such expenses will also include the charges and expenses of banks, brokerage firms and other custodians, nominees or fiduciaries for forwarding solicitation materials regarding the Annual Meeting to beneficial owners of the Company's common stock. In addition to solicitation by mail, certain directors, officers and regular employees of the Company may solicit proxies in person or by telephone, electronic transmission and facsimile transmission. Other than the persons described in this proxy statement, no general class of employee of the Company will be employed to solicit stockholders in connection with this proxy solicitation.

However, in the course of their regular duties, employees may be asked to perform clerical or ministerial tasks in furtherance of this solicitation. Any such directors, officers or employees will not be additionally compensated, but may be reimbursed for their out-of-pocket expenses in connection therewith.

STOCKHOLDERS ENTITLED TO VOTE

At the close of business on the Record Date, there were 26,722,392 shares of the Company's common stock, par value \$0.01 per share, outstanding. Each outstanding share of our common stock is entitled to one vote upon each of the matters to be voted on at the Annual Meeting. There is no cumulative voting with respect to the election of directors. The presence, in person or by proxy, of at least a majority of the outstanding shares of common stock is required for a quorum for the transaction of business.

If you hold your shares through an account with a bank or broker, the bank or broker may vote your shares on some matters even if you do not provide voting instructions. Brokerage firms have the authority to vote shares on certain matters (such as the ratification of auditors) when their customers do not provide voting instructions. However, on other matters (such as the election of directors), when the brokerage firm has not received voting instructions from its customers, the brokerage firm cannot vote the shares on that matter and a "broker non-vote" occurs. Please note that an uncontested election of directors is no longer considered a routine matter. This means that brokers may not vote your shares on the election of directors if you have not given your broker specific instructions as to how to vote. Please be sure to give specific voting instructions to your broker so that your vote can be counted. On August 11, 2017, Engine Capital, L.P. ("Engine Capital"), which indicated that it beneficially owned, together with its nominees and certain affiliates, an aggregate of 447,866 shares of our common stock (representing approximately 1.7% of our outstanding common stock), delivered notice to the Company of its intention to nominate two director candidates for election to the Board at the Annual Meeting. On September 11, 2017, the Company received a written notice from Engine Capital, stating that it was withdrawing such director nomination. As a result, the election of directors at the Annual Meeting is considered an uncontested election.

Votes withheld from nominees for directors, abstentions and broker non-votes will be counted for purposes of determining whether a quorum has been reached. Votes will be tabulated by an inspector of election appointed by the Board. Abstentions may be specified on all proposals. The following vote is needed in order for the various proposals to be adopted:

Proposal 1-Election of Directors. The affirmative vote of a majority of the votes cast at the meeting is required for the election of directors. This means that the number of shares voted for a director nominee must exceed the number of votes cast against that nominee in order to elect that nominee in an uncontested election. With respect to the election of directors, you may vote for or against each nominee. Abstentions do not count as votes for or against the nominee's election.

Proposal 2-Ratification of Independent Registered Public Accounting Firm. The appointment of Deloitte & Touche LLP as our independent registered public accounting firm for fiscal 2018 will be ratified if a majority of the shares of common stock present or represented by proxy and entitled to vote thereon at the Annual Meeting vote in favor. Abstentions will have the effect of a vote against the proposal.

Proposal 3-Advisory Vote on Executive Compensation. The approval, on an advisory basis, of the compensation paid to our executive officers named in this proxy statement requires the affirmative vote of a majority of the shares of common stock present or represented by proxy and entitled to vote thereon at the Annual Meeting. Abstentions will have the effect of a vote against the proposal.

Proposal 4-Advisory Vote on Frequency of Future Advisory Vote on Executive Compensation. The option of one year, two years or three years that receives the greatest number of affirmative votes will be considered to be the preferred option of stockholders. Abstentions will have no effect on the vote.

A "broker non-vote" will have no effect on the outcome of the election of directors or Proposals 2, 3 and 4.

PROPOSAL NUMBER 1:

Director Independence Guidelines

Pursuant to the applicable rules for companies traded on the NASDAQ Global Market System ("NASDAQ") and the rules and regulations of the Securities and Exchange Commission (the "SEC"), the Board has adopted director independence guidelines. In accordance with these guidelines, each independent director must be determined to have no relationship with the Company which, in the opinion of the Company's Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. The guidelines specify criteria by which the independence of the Company's directors will be determined, including strict guidelines for directors and their immediate families with respect to past employment or affiliation with the Company or its independent registered public accounting firm.

The Board has affirmatively determined that each of Ms. Carnes, Mr. Chandler, Mr. Gibson, Mr. Maxwell, Mr. Miller and Mr. Mogg are "independent" under the guidelines. The Board also affirmatively determined that Messrs. Hall and Hendrix, who are retiring from the Board at the Annual Meeting, are independent. Mr. Hewitt is not considered to be independent because of his current employment as President and Chief Executive Officer of the Company.

The Board also considered Mr. Miller's familial relationships with the Company. Mr. Miller's son is an employee of Matrix North American Construction. The Board concluded that this relationship did not impair Mr. Miller's independence as his son did not hold an executive officer position within Matrix North American Construction and is several levels below the level of executive officers of Matrix.

The Board also considered Mr. Gibson's membership on the board of directors of BOK Financial Corporation ("BOK"). BOK serves as the Company's investment advisor on its 401(k) defined contribution plan, is a participant in the Company's senior credit facility and performs other insignificant financial services for the Company. The Company has also invested a portion of its excess cash with BOK. The Board concluded that Mr. Gibson's relationship did not impair his independence as BOK's relationship with the Company predates Mr. Gibson's appointment to the Board, Mr. Gibson played no role in BOK's engagement and plays no role in the on-going relationship.

The full text of the Company's director independence guidelines is included in the Company's Corporate Governance Guidelines, which is available on the Corporate Governance page included in the "Investor Relations" section of the Company's website at matrixservicecompany.com.

Board Leadership Structure and Role in Risk Oversight

The Board has no policy mandating the separation of the offices of Chairman of the Board and Chief Executive Officer. However, as the oversight responsibilities of directors continues to increase, we believe it is beneficial to have an independent chairman whose sole job for the Company is leading the Board. We believe the separation of the Chairman and Chief Executive Officer roles provides strong leadership for our Board, while positioning our Chief Executive Officer as the leader of the Company in the eyes of our customers, employees and other stakeholders. If, in the future, the Chief Executive Officer is serving as Chairman of the Board, then the Board will name a lead director who would, among other specified responsibilities, serve as the leader of the independent directors and facilitate communication between the Chairman/CEO and the other directors.

In June 2017, the Board, upon the recommendation of the Nominating and Corporate Governance Committee, temporarily increased the size of the Board from seven to eight members and appointed John D. Chandler to serve as a Board member. Mr. Chandler's term commenced on June 20, 2017 and expires at the Annual Meeting. In July 2017, the Board, upon the recommendation of the Nominating and Corporate Governance Committee, temporarily increased the size of the Board from eight to nine members and appointed Martha Z. Carnes to serve as a Board member. Ms. Carnes' term commenced on July 13, 2017 and expires at the Annual Meeting. The size of the Board will revert to seven coincident with the Annual Meeting when Michael J. Hall and I. Edgar (Ed) Hendrix retire from the Board at the end of their terms in accordance with the Board's mandatory retirement policy.

The Board continues to have one non-independent member, the President and Chief Executive Officer of the Company. A number of our independent Board members have served as members of senior management or as directors of other public companies. Our Audit, Compensation and Nominating and Corporate Governance Committees are comprised solely of independent directors, each with a different independent director serving as chair of the committee. We believe that the number of independent, experienced directors that make up our Board, along with the independent oversight of the Board by the non-executive Chairman, benefits our Company and our stockholders.

The Audit Committee and full Board jointly oversee the Company's risk management processes. The Audit Committee receives regular reports from management regarding the Company's assessment of risks. In addition, the Audit Committee and the full Board focus on the most significant risks facing the Company and the Company's general risk management strategy, and also ensure that risks undertaken by the Company are consistent with the Board's appetite for risk. While the Board oversees the Company's risk management, Company management is responsible for day-to-day risk management processes. We believe this division of responsibilities is the most effective approach for addressing the risks facing our Company and that our Board leadership structure supports this approach.

Meetings and Committees of the Board

The Company's Board met ten times during fiscal year 2017. The Board has three standing committees – the Audit Committee, the Compensation Committee, and the Nominating and Corporate Governance Committee. Each of the members of each of the committees qualifies as an "independent director" under the NASDAQ listing standards. During fiscal 2017, each director attended a minimum of 75% of the total number of meetings of the Board and of the total number of meetings held by all committees of which he or she was a member.

The Company's Corporate Governance Guidelines provide that each director is expected to attend the annual meetings of stockholders of the Company. All of the members of the Company's Board attended the 2016 Annual Meeting of Stockholders with the exception of Mr. Chandler and Ms. Carnes who were appointed to the Board in June 2017 and July 2017, respectively.

The Nominating and Corporate Governance Committee was established to assist the Board in identifying qualified individuals to become directors of the Company, recommend to the Board qualified director nominees for election by the stockholders or to fill vacancies on the Board, recommend to the Board membership on Board committees, recommend to the Board proposed Corporate Governance Guidelines and report annually to the Board on the status of the CEO succession plan. The Nominating and Corporate Governance Committee operates under a written charter. The Company has made a copy of its Nominating and Corporate Governance Committee Charter available on the Corporate Governance page included in the “Investor Relations” section of the Company’s website at matrixservicecompany.com. The Nominating and Corporate Governance Committee has the authority under its charter to retain a professional search firm to identify candidates. The Nominating and Corporate Governance Committee held six meetings during fiscal 2017.

Director Nomination Process

The Nominating and Corporate Governance Committee will consider director candidates submitted to it by other directors, employees and stockholders. In evaluating such nominations, the Nominating and Corporate Governance Committee seeks to achieve a balance of knowledge, experience and capability to address the director qualifications discussed below.

The Nominating and Corporate Governance Committee regularly assesses the appropriate size of the Board and whether any vacancies on the Board are expected due to retirement or otherwise. In the event that vacancies are anticipated or otherwise arise, the Committee considers various potential candidates. Candidates may come to the attention of the Committee through current directors, senior management, professional search firms, stockholders or other persons.

Once a prospective nominee has been identified, the Committee makes an initial determination as to whether to conduct a full evaluation of the candidate. The initial determination involves an evaluation of the candidate against the qualifications set forth in the Corporate Governance Guidelines, which require broad experience, wisdom, integrity, the ability to make independent analytical inquiries, an understanding of the Company’s business environment and a willingness to devote adequate time to Board duties, including service on no more than four other public company boards.

The Committee does not assign specific weights to particular criteria and no particular criterion is a prerequisite for each prospective nominee. Our Board believes that the backgrounds and qualifications of its directors, considered as a group, should provide a composite mix of experience, knowledge and abilities that will allow it to fulfill its responsibilities. Although we do not have a formal policy governing diversity among Board members, the Board also strives to identify candidates with diverse backgrounds. We recognize the value of overall diversity and consider members’ and candidates’ opinions, perspectives, personal and professional experiences, and backgrounds, including gender, race and ethnicity. We believe that the judgment and perspectives offered by a diverse Board improves the quality of decision making and enhances the Company’s business performance.

The Committee also assesses the candidate’s qualifications as an “independent director” under the NASDAQ’s current director independence standards and the Company’s director independence guidelines. If the Committee determines that additional consideration is warranted, it may request a professional search firm to gather additional information about the candidate. The Committee designates, after consultation with the CEO, which candidates are to be interviewed. After completing its evaluation, the Committee makes a recommendation to the full Board as to the persons who should be nominated by the Board and the Board determines the nominees after considering the recommendation of the Committee.

Holders of common stock wishing to recommend a person for consideration as a nominee for election to the Board can do so in accordance with the Company's Bylaws by giving timely written notice to Kevin S. Cavanah, Secretary of Matrix Service Company, at 5100 East Skelly Drive, Suite 500, Tulsa, Oklahoma 74135. In order to be considered timely, a stockholder's notice of proposal must be delivered not later than the close of business on the 90th day nor earlier than the close of business on the 120th day prior to the first anniversary of the preceding year's annual meeting; provided, however, that in the event that the date of the annual meeting is more than 30 days before or more than 60 days after such anniversary date, notice by the stockholder to be timely must be so delivered not earlier than the close of business on the 120th day prior to such annual meeting and not later than the close of business on the later of the 90th day prior to such annual meeting or if the first public announcement of the date of such annual meeting is less than 100 days prior to the date of such annual meeting, the close of business on the 10th day following the day on which public announcement of the date of such meeting is first made by the Company. The written notice should give each such nominee's name, address, appropriate biographical information, a description of all arrangements or understandings between the stockholder (and the beneficial owner, if any, on whose behalf the nomination is made) and each such nominee and/or any other person or persons (naming such person or persons), relating to such nominee's service on the Board, if elected, as well as any other information that would be required in a proxy statement. Any such recommendation should be accompanied by a written statement from the person recommended, giving his or her consent to be named as a nominee and, if nominated and elected, to serve as a director. The written notice should also be accompanied by a completed director nominee questionnaire in the form required by the Company and a completed and signed written representation and agreement (executed by the nominee in the form provided by the Secretary of the Company upon written request) that such person:

is not and will not become a party to any agreement, arrangement or understanding with, and has not given any commitment or assurance to, any person or entity as to how such person, if elected as a director of the Company, will act or vote on any issue or question (a "Voting Commitment") that has not been disclosed to the Company or any Voting Commitment that could limit or interfere with such person's ability to comply, if elected as a director, with such person's fiduciary duties under applicable law;

- is not and will not become a party to any agreement, arrangement or understanding with any person or entity other than the Company with respect to any direct or indirect compensation, reimbursement or indemnification in connection with service or action as a director that has not been disclosed to the Company; would be in compliance, if elected as a director, and will comply with, applicable law and all applicable publicly disclosed corporate governance, conflict of interest, corporate opportunities, confidentiality and stock ownership and trading policies and guidelines of the Company;
- will tender, promptly following such person's election or reelection, an irrevocable resignation effective upon such person's failure to receive the required vote for re-election at the next meeting at which such person would face re-election and upon acceptance of such resignation by the Board, in accordance with the Board's policies or guidelines on director elections; and
- intends to serve a full term if elected as a director of the Company.

The written notice must also set forth, as to the stockholder giving the notice and the beneficial owner, if any, on whose behalf the nomination or proposal is made:

- the name and address of such stockholder, as they appear on the Company's books, and of such beneficial owner;
- the class and number of shares of capital stock of the Company that are owned beneficially and held of record by such stockholder and such beneficial owner;

the investment strategy or objective, if any, of such stockholder and its associated person who is not an individual and a copy of the prospectus, offering memorandum or similar document, if any, provided to investors or potential investors in such stockholder and each such associated person;

-

the disclosure of any short positions or other derivative positions relating to the Company's shares of such stockholder and such beneficial owner, such information to be updated to reflect any material change in such positions through the time of the annual meeting;

a description of any proxy, contract, arrangement, understanding or relationship pursuant to which such stockholder or such beneficial owner has a right to vote any shares of any security of the Company;

10

a representation that such stockholder is a holder of record of the Company's stock entitled to vote at such meeting, will continue to be so through the date of the meeting and intends to appear in person or by proxy at the meeting to bring such nomination or other business before the meeting;

a representation as to whether such stockholder or beneficial owner intends or is part of a group that intends to deliver a proxy statement or form of proxy to holders of at least the percentage of the voting power of the Company's outstanding stock required to approve or adopt the proposal or to elect each such nominee; the class and number of any security of any entity that was publicly disclosed as a peer by the Company; and

a description of any agreement, arrangement or understanding with respect to the nomination or other business between or among such stockholder, beneficial owner or any other person.

The above summary may not contain all of the information about our stockholder nomination process. You are encouraged to read our Bylaws carefully for further details, which can be found in our public filings.

Executive sessions of the Board are held periodically. The sessions are chaired by the independent, non-executive Chairman of the Board. Any non-management director may request that an additional executive session be scheduled. Executive sessions of the independent directors are held on an as needed basis, but at least quarterly.

The Board provides a process by which stockholders and other interested parties may communicate with the Board or any of the directors. Stockholders and other interested parties may send written communications to the Board or any of the directors at the following address: Board of Matrix Service Company c/o Matrix Service Company, 5100 East Skelly Drive, Suite 500, Tulsa, Oklahoma 74135. Stockholders and other interested parties may also contact the Board or any of the directors via the Company's online submission form by clicking on the "Contact the Board" link included on the Corporate Governance page included in the "Investor Relations" section of the Company's website at matrixservicecompany.com. All communications will be compiled by the Company's Corporate Secretary and submitted to the Board or the individual director on a periodic basis.

Equity Ownership Guidelines for Directors

The Company's Stock Ownership Guidelines for Directors, which were revised in August 2014 and confirmed in August 2016, require each non-employee director to own a number shares of our common stock equal to five times the annual cash retainer. For purposes of determining compliance with the guideline, the cash retainer does not include fees earned as Chairman of the Board or as Chairman of the Audit, Compensation or Nominating and Corporate Governance committees. The following types of equity can be used to satisfy the stock ownership requirements:

- (1) shares owned separately by the director or owned either jointly with, or separately by, immediate family members residing in the same household;
- (2) shares held in trust for the benefit of the director or his immediate family members;
- (3) shares purchased in the open market;
- (4) shares purchased through the Company's Employee Stock Purchase Plan;
- (5) vested and unvested time-based restricted stock or restricted stock units ("RSUs");
- (6) unvested performance or market based restricted stock or restricted stock units but only to the extent that the Company recognizes compensation expense with respect to such restricted stock or restricted stock units;
- (7) in-the-money vested unexercised stock options; and
- (8) any phantom shares held on behalf of a director under the Board's deferred compensation plan.

Existing directors have five years from the August 2014 date of adoption or revision of the guidelines to attain this level of ownership. Directors elected or appointed after the date of the adoption of the Stock Ownership Guidelines will have five years from the date of their election or appointment to the Board to attain this level of ownership. Furthermore, once the guidelines are met, the directors will remain in compliance with the Stock Ownership Guidelines if a drop in the Company's stock price causes the director's ownership level to drop below five times the

annual retainer so long as the director has not sold any shares subsequent to passing the ownership test. Messrs. Hall, Hendrix and Maxwell currently satisfy the requirements. Mr. Jim W. Mogg, who was appointed in August 2013, Mr. James H. Miller, who was appointed in May 2014, Mr. John W. Gibson, who was appointed in April 2016, Mr. John D. Chandler, who was appointed in June 2017, and Ms. Martha Z. Carnes who was appointed in July 2017, do not currently satisfy the Stock Ownership Guidelines requirements; however, each is still within the initial five-year accumulation period.

Since Mr. Hewitt is the Chief Executive Officer of the Company, he must comply with the Equity Ownership Guidelines for Executive Officers, which are discussed in this proxy statement under the caption “Equity Ownership Guidelines.”

DIRECTOR COMPENSATION

General

Management directors receive no additional compensation for their service on the Board or any committee thereof. Directors of the Company are reimbursed for out-of-pocket expenses incurred in attending Board and committee meetings.

The elements of our non-employee director compensation consist of cash and equity. Our objective in establishing director compensation is to position ourselves to attract and retain individuals who have relevant business and leadership backgrounds and experience by providing a competitive package of cash and equity compensation.

Total compensation for the Company’s non-employee directors is determined in a manner similar to that for executives, which is described under the caption “Compensation Discussion and Analysis.” The Compensation Committee of the Board (the “Committee”) engages a third party compensation consultant to periodically review director compensation and make recommendations. The Committee reviews comparative data from the outside consultant and makes recommendations regarding director compensation to the full Board for approval.

Director compensation is generally reviewed on a bi-annual basis. In August 2016, the Committee engaged a third party compensation consultant, Meridian Compensation Partners, LLC (“Meridian”), to conduct a market study of director compensation. Meridian obtained comparative data using published compensation surveys and proxy analysis of selected companies similar in size, location and industry. The companies included in the survey are consistent with those that we use to review executive compensation.

The overall conclusions of the consultant were that the compensation structure of the Board was aligned with peer practices and that the annual value of compensation was between the 25th percentile and the median of the identified peer group of companies. Upon careful consideration of the consultant's recommendations, peer practices and the Company's stated compensation objectives, the Committee approved the following:

- The value of the cash retainer remained at \$85,000 per each non-employee director.

The equity component of the annual grant would continue to be in form of RSUs. The value of the equity grant was increased from \$85,000 to \$95,000 and the vesting period of the equity grant was decreased from three years to one year. The reduction in vesting period was approved to align the vesting period with the annual director elections.

- The Committee also concluded that retainers for other Board duties are appropriate and should remain at the following amounts:

Retainer	Amount (\$)
Audit Committee Chair	15,000
Compensation Committee Chair	10,000
Nominating and Corporate Governance Committee Chair	7,500
Chairman of the Board	50,000

We also provide the Deferred Fee Plan for Members of the Board of Directors of Matrix Service Company (the "Deferred Fee Plan") which allows our non-employee directors to defer all or a portion of their cash compensation with interest. The effective interest rate for the subsequent calendar year is researched and approved by the Committee at its regularly-scheduled meeting each November. For fiscal 2017, the average interest rate was 5.0%. Non-employee directors are also permitted to invest their cash retainer in Company common stock through the Company’s 2011 Employee Stock Purchase Plan (“ESPP”). Investment through the ESPP is limited to \$60,000 per director per calendar year.

The compensation earned by each of our non-employee directors in fiscal 2017 is summarized in the table below:

The compensation received by Mr. Hewitt as an employee is shown in the Summary Compensation Table for our Named Executive Officers under the caption "Executive Officer Compensation".

(2) Includes retainer fees earned in fiscal 2017 but paid subsequent to the completion of the fiscal year and fees earned in fiscal 2017 but deferred under the Deferred Fee Plan. In fiscal 2017, Mr. Hall deferred \$135,000 in fees, Mr. Hendrix deferred \$45,000 in fees, Mr. Lackey deferred \$35,625 in fees, Mr. Maxwell deferred \$92,500 in fees, Mr. Mogg deferred \$85,000 in fees, and Mr. Miller deferred \$85,000 in fees. Messrs. Gibson and Chandler did not defer any fees. The Deferred Fee Plan is discussed in note (5) below. Mr. Chandler's fees represent those earned after his appointment to the Board effective June 20, 2017 through the end of 2017.

(3) With the exception of Messrs. Gibson and Chandler, the amounts shown represent the grant date fair value for awards granted during fiscal 2017 determined in accordance with the applicable accounting guidance for equity-based awards. For further information on the valuation of these awards, see Notes 1 and 10 to the Consolidated Financial Statements included in our fiscal 2017 Annual Report on Form 10-K. The grant date fair value of the shares earned in fiscal 2017 was determined by dividing the target value of \$95,000 by the average share price over the 20-day period ending five days prior to the grant date. For services provided as a member of the Board in fiscal 2017, Messrs. Hall, Hendrix, Maxwell, Mogg and Miller each received an award of 5,240 RSUs with a grant date fair value of \$97,988. Mr. Gibson received a pro-rata award of 8,515 RSUs with a grant date fair value of \$159,231 for services provided from his appointment date of April 2016 through fiscal 2017. The amount included for Mr. Gibson represents the value of RSUs earned for fiscal 2017 services. The amount shown for Mr. Chandler represents the estimated value of RSUs earned for fiscal 2017 services. Mr. Chandler's actual pro-rata award, which will include RSUs earned in fiscal 2017, will occur in fiscal 2018. As of June 30, 2017, Messrs. Hall, Hendrix, Maxwell and Mogg each held 12,530 unvested RSUs, Mr. Miller held 14,345 unvested RSUs, and Mr. Gibson held 8,515 unvested RSU's.

(4) No stock option awards were granted to non-employee directors in fiscal 2017 and no options were outstanding at June 30, 2017.

(5) A non-employee director may defer all or part of director fees earned into the Deferred Fee Plan. Under the Deferred Fee Plan, directors are allowed to defer fees and earn interest. The amounts shown represent interest earned under the plan in excess of a market rate. For fiscal 2017, the market rate for the deferrals was 2.388% as compared to the actual average rate paid of 5.0%.

(6) Amounts in the Fees Earned or Paid in Cash column represent fees earned by Mr. Lackey from July 1, 2016 through his retirement date of November 11, 2016. Under the Deferred Fee Plan, Board members receive cash settlement of deferred fees one year after retirement. The amount included in the column titled Change in Pension Value and Nonqualified Deferred Compensation Earnings represents interest earned in excess of the market rate on Mr. Lackey's cumulative deferred fees in fiscal 2017. Cash settlement of Mr. Lackey's Deferred Fee Plan account will occur on November 11, 2017.

(7) The amount shown for Mr. Chandler represents fees earned beginning on June 20, 2017, the effective date of his appointment, through the Company's fiscal year end of June 30, 2017.

(8) Ms. Carnes was appointed in July 2017 and as such did not receive fiscal 2017 compensation.

COMPENSATION DISCUSSION AND ANALYSIS

Executive Summary

This Compensation Discussion and Analysis explains our compensation philosophy, objectives and practices in place for our President and Chief Executive Officer (“CEO”), our Chief Financial Officer (“CFO”) and our other named executive officers (collectively, the “Named Executive Officers”) during fiscal 2017. Compensation for our Named Executive Officers is determined by the Compensation Committee of the Board (the “Committee”) and is supported by market data and advice from an independent compensation consultant retained by the Committee, Meridian Compensation Partners, LLC (“Meridian”).

There were no changes to the Company's Named Executive Officers in fiscal 2017. They continue to be the Chief Executive Officer, the Chief Financial Officer, the Chief Operating Officer and the presidents of the Company's two largest operating companies.

Summarized below are the highlights of key decisions and actions taken regarding the compensation of our Named Executive Officers in fiscal 2017. These actions were approved by the Committee with advice from Meridian and are consistent with our stated compensation philosophy.

Base Salaries: Consistent with normal practice, the Committee reviewed Named Executive Officer compensation at the August 2016 meeting. In determining base salary adjustments, the Committee considered many factors including market data provided by Meridian, the Company's financial and safety performance in fiscal 2016 and the absence of salary increases in fiscal 2016. Based on these factors, the Committee approved a salary increase of 5% for the COO, 4% for the CFO, and 10% and 15% for the operating company presidents. The Committee elected not to increase the base salary of the CEO.

Fiscal 2017 Short-Term Incentive Compensation Targets: The Committee increased the target bonus opportunity as a percentage of base compensation from 65% to 75% for the COO and CFO and from 60% to 75% for the operating company presidents. No changes were made to the target bonus opportunity as a percentage of base compensation for the CEO. The fiscal 2017 plan metrics were based on the achievement of various financial and safety goals. The achievement of the financial goals determine 85% of the payout while the achievement of the safety goals determine the remaining 15%. In addition, the Company must earn a minimum of 50% of its budgeted pre-tax operating income before any bonuses are paid with respect to financial targets.

Fiscal 2017 Short-Term Incentive Compensation Performance: Although the Company did achieve record safety performance, it did not achieve in excess of 50% of budgeted pre-tax operating income. Therefore, no financial incentives were earned. Additionally, despite record safety performance, the Committee also chose not to pay incentives with respect to the safety goals in light of the near breakeven earnings performance.

Fiscal 2016 Cash-Based Long-Term Incentive Award Payout: The cash-based portion of the fiscal 2016 long-term incentive award was based on the average Return on Invested Capital for fiscal 2016 and 2017. The fiscal 2016 Return on Invested Capital was 13.0% and the fiscal 2017 Return on Invested Capital was 1.0%. This financial performance resulted in an average Return on Invested Capital of 7.0% which is below the threshold level; therefore, no payout was earned.

Fiscal 2017 Long-Term Incentive Awards: The fiscal 2017 long-term incentive target opportunity was increased from 125% to 140% of base compensation for the COO and CFO. There were no changes to the target long-term incentive opportunity for the remaining Named Executive Officers. The actual long-term incentive awards for fiscal 2017 were comprised of the following:

One-third of the award consisted of service-based restricted stock units (“RSUs”). Restrictions on the RSUs lapse in four equal annual installments, subject to continued employment with us;

One-third of the award consisted of performance units. Award recipients may receive anywhere from zero to two shares of our common stock for each performance unit on the third anniversary of the date of the award depending on the Company's relative Total Shareholder Return in comparison to the Total Shareholder Return of a peer group of companies; and

One-third of the award consisted of a cash-based long-term incentive award. The payout for the cash-based LTI award will range from zero to 150% of the target payout and is based on the Company's average Return on Invested Capital for fiscal years 2017 and 2018.

Compensation Philosophy and Objectives

We are focused on building and maintaining a sustainable business model that consistently delivers superior returns to our stockholders. To be successful, we must attract, retain and motivate key talent to provide the needed leadership capabilities to develop and execute our business strategy. Our compensation philosophy and approach is designed to support these objectives.

Our compensation philosophy is to provide the opportunity for outstanding compensation when superior performance is demonstrated. This pay-for-performance philosophy is reflected in each aspect of the compensation package for executive officers and other management team members. All components of compensation for executive officers and key management are reviewed periodically to ensure consistency with our compensation philosophy and to verify that the overall level of compensation is competitive. We use the following principles in the design and administration of our executive compensation program:

Competitiveness – Our compensation programs are designed to ensure we can attract, motivate and retain the talent needed to lead and grow the business. Targets for base salary, short-term and long-term compensation are generally based on median (50th percentile) market levels.

Support Business Objectives, Strategy and Values – Ultimately our compensation program is designed to drive the achievement of short and long-term business objectives, support the creation of long-term value for our stockholders, and promote and encourage behavior consistent with our core values and guiding principles.

Pay for Performance – While we establish target pay levels at or near the median or 50th percentile market levels for target level performance, our plans provide the opportunity for significantly greater rewards for outstanding performance. At the same time, performance that does not meet expectations is not rewarded.

Individual Performance – In addition to company-wide, business unit and operating unit measures, our programs emphasize individual performance and the achievement of personal objectives.

Integrated Approach – We look at compensation in total and strive to achieve an appropriate balance of immediate, annual and long-term compensation components, with the ultimate goal of aligning executive compensation with the creation of long-term stockholder value.

Our executive compensation program is administered by the Committee. The role of the Committee is to provide oversight and direction to ensure the establishment of executive compensation programs that are competitive in nature, enable us to attract top talent, and align the interests of our executive officers and our stockholders. The Committee is supported by our Vice President, Strategic Services and Administration in the design, review and administration of our executive compensation programs. The Committee engaged Meridian to evaluate executive officer compensation and Company practices in relation to other companies and to provide associated recommendations.

The CEO considers all relevant information and provides recommendations to the Committee regarding compensation for review, discussion and approval for all executive officers with the exception of himself. The Committee establishes CEO compensation. The Committee reviews the performance and approves the compensation of the executive officers based on the CEO's recommendations, and then reviews the performance and establishes appropriate compensation for the CEO in executive session without the CEO present.

In implementing our compensation philosophy, the Committee also compares our CEO's total compensation to the total compensation of the other Named Executive Officers. However, the Committee has not established a targeted level of difference between the total compensation of the CEO and the median total compensation level for the next lower tier of management. The Committee also considers internal pay equity among the other Named Executive Officers, and in relation to the next lower tier of management, in order to maintain compensation levels that are

consistent with the individual contributions and responsibilities of those officers.

Committee Consideration of the 2016 Stockholder Vote on Executive Compensation

We conducted our advisory vote on executive compensation last year at our 2016 annual meeting. While this vote was not binding on us, we believe that it is important for our stockholders to have an opportunity to vote on this proposal on an annual basis as a means of expressing their views regarding our executive compensation philosophy, our compensation policies and programs, and our decisions regarding executive compensation, all as disclosed in our proxy statement. The Committee values the opinions of our stockholders and, to the extent there is any significant vote against the compensation of our Named Executive Officers, we will consider our stockholders' concerns, and the Committee will evaluate whether any actions are necessary to address those concerns.

The Committee has reviewed the voting results from the advisory vote on executive compensation (commonly known as a say-on-pay proposal) conducted at our 2016 Annual Meeting of Stockholders. At this meeting, nearly 95% of the votes cast on the say-on-pay proposal were in favor of our Named Executive Officers' compensation as disclosed in our proxy statement for that meeting. The Committee determined that, given the high level of support, no changes to our executive compensation policies and decisions were necessary based on last year's voting results. The Committee intends to continue making executive compensation decisions with a focus on aligning pay with performance and promoting stockholder value.

Key Elements of Executive Compensation

The primary elements of our executive compensation program include:

- Base Salary;
- Annual/Short-Term Cash Incentive Compensation;
- Long-Term Incentive Compensation;
- Other Benefits; and
- Change of Control Agreements.

The Compensation Committee engages a compensation consultant on a bi-annual basis to ensure that the Company's compensation package is consistent with that of its competitors. The Committee engaged Meridian in fiscal 2017 to evaluate the mix of targeted compensation and the other incentive programs that we offer. Meridian was engaged exclusively by the Committee and does not provide other services to the Company or senior management. The Committee has assessed the independence of Meridian pursuant to SEC rules and concluded that Meridian's work for the Committee does not raise any conflict of interest.

The Committee evaluated the competitiveness of the compensation package offered to our executives in both form and structure. Meridian's executive compensation practices analysis included a review of general industry survey data and of proxy information and other public filings for the following companies:

Aegion Corp.	MasTec Inc.
Babcock & Wilcox Co.	Mistras Group Inc.
Dycom Industries Inc.	MYR Group Inc.
Emcor Group Inc.	Primoris Services Corporation
Granite Construction, Inc.	Quanta Services Inc.
Great Lakes Dredge and Dock CP	Sterling Construction Co. Inc.
KBR Inc.	Team Inc.
Layne Christensen Co.	Willbros Group, Inc.

Base Salary

Base salary is the foundation of our executive compensation package. Our practice in establishing executive base salary, and that for other managers and employees, is to determine the market median, "or 50th percentile" among comparable companies. This data was provided by Meridian. Base salary is then established based on the Named Executive Officer's responsibilities, role in the organization, level and type of work experience, and individual and business performance. We expect to continue to engage a compensation consultant to review and provide competitive

market pay data on no less than a bi-annual basis.

19

We utilize a market-based job evaluation system to establish and ensure equitable, competitive pay levels throughout the organization. Salary grades and ranges are established by evaluating positions based on the external market data and internal equity. All of our employees, including the Named Executive Officers, are assigned to a salary grade. Broad ranges of salary are associated with each grade.

Base salary and salary grade also play a factor in determining other short- and long-term incentive compensation awards. Short- and long-term target incentive awards are set at a percentage of base salary.

Consistent with the Committee's normal practice of reviewing executive compensation, Meridian's observations and recommendations regarding the competitiveness of executive compensation were presented to the Committee at the August 2016 meeting. The Committee approved salary adjustments, which were based on the Company's compensation philosophy of competitiveness and individual and business performance. The Committee's decisions are discussed below:

John R. Hewitt - Chief Executive Officer: The Committee concluded that Mr. Hewitt's fiscal 2016 performance was very strong. The Committee then concluded, based on the Meridian study, which indicated that Mr. Hewitt's base salary was slightly in excess of the peer group median, that no change to his base salary was warranted. It remained unchanged at \$750,000.

Joseph F. Montalbano - Chief Operating Officer: The Meridian study indicated that Mr. Montalbano's base salary was \$40,500 below the median. Based on Mr. Montalbano's performance and his base salary relative to our peer companies, Mr. Hewitt recommended a base salary increase of 5.0% or \$23,625. The Committee approved Mr. Hewitt's recommendation and Mr. Montalbano's base salary was increased from \$472,500 to \$496,125 effective September 1, 2016.

Kevin S. Cavanah - Chief Financial Officer: The Meridian study indicated that Mr. Cavanah's base salary was near the median. Based on Mr. Cavanah's strong performance the Committee approved an increase to base salary of 4.0%, or \$16,698, from \$417,450 to \$434,148, effective September 1, 2016.

James P. Ryan - President Matrix Service Inc.: The Meridian study indicated that Mr. Ryan's base salary was well below the median. Based on Mr. Ryan's strong performance and his base salary relative to our peers, Mr. Hewitt recommended an increase of 10.0%, or \$38,300. The Committee approved Mr. Hewitt's recommendation and Mr. Ryan's base salary was increased from \$383,000 to \$421,300 effective September 1, 2016.

Jason W. Turner - President Matrix North American Construction: The Meridian study indicated that Mr. Turner's base salary was significantly below the median. Based on Mr. Turner's performance and his base salary relative to our peers, Mr. Hewitt recommended an increase of 15.0%, or \$51,615. The Committee approved Mr. Hewitt's recommendation and Mr. Turner's base salary was increased from \$344,100 to \$395,716 effective September 1, 2016.

Annual/Short-Term Incentive Compensation

Our annual/short-term incentive compensation plan is designed to offer the opportunity for substantial annual cash incentive awards for delivering outstanding performance. Rewards under our short-term incentive compensation plan are based on overall company, business unit and individual performance, as compared to pre-established objectives that are tied to enhancement of stockholder value. Our short-term incentive compensation objectives are designed to:

- support and drive performance toward achieving our strategic objectives;
- emphasize overall company and business unit performance in the structuring of reward opportunities;
- motivate and reward superior performance; and
- provide incentive compensation opportunities that are competitive with the industry.

The base calculation of incentives is generally tied to objective measures for financial and safety performance. Incentives for executive officers other than the CEO in the form of targeted percentages of base salary are recommended by the CEO and reviewed and approved by the Committee, which is free to reject or revise the CEO's

recommendations. The targeted incentive compensation percentage of base salary for the CEO is determined solely by the Committee in executive session, without the CEO present.

For fiscal 2017, the Committee approved, at the August 2016 meeting, the following key provisions of the annual/short-term incentive compensation plan:

If 50% of budgeted fiscal 2017 pre-tax operating income is not achieved, the Committee is not obligated to make any payments relating to financial metrics under the plan. Payouts relating to safety metrics may be paid regardless of financial performance.

Incentives would be weighted at 85% for performance against financial metrics and 15% for performance against safety metrics.

Financial incentives would be based on the following:

operating income; and
working capital management.

Safety incentives would be based on the following:

Total Recordable Incident Rate, or "TRIR";
quality and depth of the investigation of safety incidents; and
implementation of corrective actions identified in safety audits.

Payout of the short-term incentives attributable to operating income for Messrs. Hewitt, Cavanah and Montalbano would be based on a combination of the Company's consolidated performance and the performance of the individual operating companies. The payout attributable to working capital management and safety would be based on consolidated results.

Payout of short-term incentives for Messrs. Ryan and Turner would be based on a combination of the Company's consolidated performance and the performance of the applicable operating company with respect to operating income and the applicable operating company performance with respect to working capital management and safety.

Once the Committee approved the incentive metrics, Threshold, Target and Maximum levels of performance were defined.

Target short-term payouts for fiscal 2017 were established for each of the Named Executive Officers. Mr. Hewitt's target remained at 100% of his base salary, Messrs. Montalbano's and Cavanah's targets increased from 65% to 75% of their respective base salaries and Messrs. Ryan's and Turner's targets were increased from 60% to 75% of their respective base salaries.

Incentive targets for the Named Executive Officers are as follows:

Safety performance targets, which represent 15% of the total incentive opportunity, were established based on the safety criteria discussed above. The specific criteria were as follows:

	Threshold	Target	Maximum
TRIR	0.65	0.55	0.37
Quality and depth of the investigation of safety incidents	70.0%	80.0%	90.0%
Safety audit corrective action implementation	70.0%	80.0%	90.0%

The financial incentive tied to pre-tax operating income represents 75% of the total bonus opportunity for the Named Executive officers. The specific pre-tax operating income criteria at the consolidated level were as follows:

	Minimum	Threshold	Target	Maximum
	in millions			
Pre-tax operating income	\$39.1	\$43.0	\$55.8	\$67.0
Percentage of fiscal 2017 budgeted amount	70.0%	77.0%	90.0%	120.0%
Percentage of target bonus earned	25.0%	50.0%	100.0%	150.0%

Ten percent of the total bonus opportunity is tied to the achievement of Net Working Capital targets. The Net Working Capital percentage is based on the ratio of certain working capital accounts to revenue. The specific criteria are as follows: Threshold - 8.0%; Target - 6.0%; and Maximum - 4.0%. The incentive attributable to Net Working Capital is measured at the consolidated level for Messrs. Hewitt, Montalbano and Cavanah and at the applicable operating company level for Messrs. Ryan and Turner.

The Committee evaluated actual results in each category against the applicable financial and safety goals:

Financial: In fiscal 2017, we achieved pre-tax operating income of \$4.9 million. This level of pre-tax operating income is less than the 50% necessary to earn payments based on financial performance. The fiscal 2017 Net Working Capital percentage was 9.7% which was below the threshold amount.

Safety: In fiscal 2017, we achieved a TRIR of 0.49, 80% on the quality and depth of safety incident investigations, and 97% on the implementation of corrective actions identified in safety audits. These results are between target and maximum on TRIR, at the target level of performance on the quality and depth of safety incident investigations and at the maximum level of performance on safety audit corrective action implementation.

In spite of our exceptional safety performance in fiscal 2017, due to the financial performance of the Company, the Committee concluded that no payouts would be made on the safety incentives.

Performance measures are established shortly after the beginning of the fiscal year and do not include the impact of any acquisitions, positive or negative, completed within the fiscal year. However, it is anticipated that the Committee would evaluate any acquisitions which may be completed during the fiscal year on a case-by-case basis to determine their impact on the plan and adjust performance measures appropriately. In addition, the Committee has negative discretion with respect to actual payout of annual short term incentive awards and can reduce awards regardless of whether performance targets are achieved.

The Annual/Short-Term Incentive Compensation Plan is reviewed and evaluated periodically to ensure that it meets our objectives and may be modified, discontinued or replaced based on our changing objectives and requirements.

Long-Term Incentive Compensation

The purpose for providing long-term incentive compensation to executive officers is to tie executive rewards directly to the enhancement of long-term stockholder value and Company profitability. Offering the opportunity for executive officers and other key members of management to earn an ownership position in the Company along with a long-term cash incentive enables us to remain competitive and attract, retain and motivate top executive and management talent. We believe that long-term incentive awards help to create and maintain a long-term perspective among executive officers and provide a direct link between executive compensation and our long-term growth and profitability.

However, we also understand that equity awards create dilution in our earnings per share and therefore, believe that a portion of our long-term incentive compensation should be in the form of cash.

The Committee believes that a combination of service-based RSUs and performance units are the most appropriate forms of equity awards to achieve our stated objectives. RSUs strongly and directly link management and stockholder interests. As a full value award, RSUs are less dilutive to stockholders than stock options, since we are able to issue fewer shares in order to attain the desired level of equity compensation for our executive officers and managers. Under the long-term incentive program, all awards are issued on an annual basis. A portion of the annual award is in the form of service-based RSUs that vest over a specified period of time. Service-based shares are an excellent tool to promote executive officer and management retention. The second portion of the award is in the form of performance units with performance criteria that link the realized value of the equity reward to achievement of stockholder value. Finally, the remaining portion of the award is cash-based and includes performance incentives tied to achievement of important strategic goals. Specific, individual grants vary by level and role in the organization. The amount of each award corresponds to the respective salary grade for each executive officer and manager.

Long-term incentive awards are reviewed and evaluated periodically to ensure that they continue to meet our objectives and may be modified, discontinued or replaced based on the changing objectives and requirements of the Company. The Committee reviewed the long-term incentive plan in August 2016 in connection with the grant of fiscal 2017 long-term incentive awards and recommended no significant changes. The Committee's review carefully considered the Meridian study, trends of our peer companies, compensation objectives of retention and value creation, and the objective of conserving shares available for grant under our equity incentive plan and reducing earnings dilution.

The Committee approved the following structure for the fiscal 2017 long-term incentive grant:

One third of the grant consisted of service-based RSUs. Vesting will occur evenly over a four-year period beginning on the first anniversary of the grant date, so long as the Named Executive Officer remains continuously employed by us through each vesting date.

One third of the grant is in the form of performance units. The performance units cliff vest on the third anniversary of the grant. The shares of Company common stock received can vary from zero to two for each performance unit based on the relative Total Shareholder Return of the Company's common stock as compared to the Total Shareholder

Return of a group of peer companies over the vesting period. The potential award levels are as follows:

22

Shareholder Return Goal	Total Shareholder Return	Shares of Common Stock for Each Performance Unit
Threshold	25th percentile of Peer Group	0.25
Above Threshold	35th percentile of Peer Group	0.50
Target	50th percentile of Peer Group	1.00
Above Target	75th percentile of Peer Group	1.50
Maximum	90th percentile of Peer Group	2.00

The peer group for the fiscal 2017 performance unit award was as follows:

Aegion Corp.	Layne Christensen Co.
Babcock and Wilcox Enterprises	MasTec, Inc.
Chicago Bridge & Iron Company N.V.	Mistras Group, Inc.
Dycom Industries Inc.	MYR Group Inc.
Emcor Group, Inc.	Primoris Services Corporation
Granite Construction, Inc.	Quanta Services, Inc.
Great Lakes Dredge and Dock Corporation	Sterling Construction Company, Inc.
Jacobs Engineering Group Inc.	Team, Inc.
KBR, Inc.	Willbros Group, Inc.

The remaining one-third of the grant was a performance-based award to be paid in cash. The award cliff vests after two years and is based on the Average Return on Invested Capital ("AROIC") achieved by the Company over fiscal years 2017 and 2018. The threshold AROIC goal is 13%, the target AROIC goal is 15% and the maximum AROIC goal is 17%. At these performance levels, the payouts would be 50%, 100% and 150% of the target award.

Grants made during fiscal 2017 to our Named Executive Officers are shown in the Grants of Plan-Based Awards table under the caption "Executive Officer Compensation".

Perquisites and Other Benefits

In general, our executive officers are eligible to participate in the same retirement and health and welfare plans as all of our other eligible employees. We offer the following benefits to executive officers.

We sponsor the Matrix Service Company 401(k) Savings Plan, which allows executive officers and other employees to contribute up to 100% of their salary (up to the annual IRS maximum). The Company's safe harbor matching contribution is a 100% matching contribution on salary deferrals up to the first 3% of compensation and 50% on the next 2% of compensation deferred. All matching contributions are 100% vested at all times. Executive officers participate and receive benefits under the plan in the same manner as all other eligible participants. We do not sponsor or maintain any other pension, deferred compensation or other supplemental retirement plans for executive officers. In addition to the group term life insurance policy offered to all eligible employees, we provide additional life insurance to our executive officers, at no cost to the officer. Specifically, the Company provides a term life insurance policy equal to two times base salary up to a maximum of \$1.5 million. For the CEO, additional corporate term life insurance policies of \$500,000 with the Company as the beneficiary and \$500,000 with a designee of the CEO as the beneficiary are provided.

The Company provides long-term disability to all administrative employees. Under this plan, the employee may receive disability payments of up to 60% of their base salary subject to a maximum of \$12,000 per month. The Company also provides a supplemental executive long-term disability plan to the Named Executive Officers. Under the plan, the Named Executive Officers may receive disability payments of up to 60% of the sum of their base salary and the average of their prior two years short-term incentive cash bonuses. The supplemental plan also increases the benefit up to a maximum of \$20,000 per month.

In addition to the company-provided life insurance policies described above, all executive officers, along with other eligible employees and managers, have the option to purchase supplemental life insurance for themselves, their spouses and dependents.

Change of Control/Severance Agreements

We have entered into Change of Control/Severance Agreements with each of our Named Executive Officers. These agreements are designed to promote stability, continuity and focus for key members of leadership during periods of uncertainty that may be created by change of control situations. Additionally, the use of such agreements is a competitive practice that enhances our ability to attract and retain leadership talent. For further details regarding our Change of Control/Severance Agreements, see the discussion under the caption "Potential Payments Upon Termination or Change of Control."

Clawback Policy

Consistent with the principles of responsible oversight, the Company's Board has adopted a clawback policy, and the Company's equity award agreements also include a clawback provision. The clawback policy provides that, to the extent permitted by law, if the Board, with the recommendation of the Committee, determines that:

any bonus, equity award, equity equivalent award or other incentive compensation has been awarded or received by an executive officer, and such compensation was based on the achievement of any financial results that were subsequently the subject of any material restatement of our financial statements filed with the SEC; the executive officer engaged in grossly negligent or intentional misconduct that caused or substantially caused the material restatement; and the amount of the compensation would have been less had the financial statements been correct, we will seek to recover from the executive officer such compensation, in whole or in part, as we deem appropriate under the circumstances. The Board has sole discretion in determining whether an officer's conduct has or has not met any particular standard of conduct under law or Company policy.

Pursuant to the Dodd-Frank Wall Street Reform and Consumer Protection Act, which was signed into law on July 21, 2010, the SEC was directed to issue rules requiring the national securities exchanges to amend their listing standards to require listed companies to adopt mandatory clawback policies. The Company anticipates that it will modify its clawback policy to conform to the requirements of any such rules or listing requirements upon their adoption.

Policy on Hedging and Pledging of Company Securities

Hedging transactions may permit a director, officer or employee to continue to own our securities obtained through employee benefit plans or otherwise, but without the full risks and rewards of ownership. When that occurs, the director, officer or employee may no longer have the same objectives as our other stockholders. Our Insider Trading Policy specifically prohibits our directors, Named Executive Officers and other employees from engaging in any hedging activities with respect to our securities.

Securities held in a margin account as collateral for a margin loan may be sold by the broker without the customer's consent if the customer fails to meet a margin call. Similarly, securities pledged as collateral for a loan may be sold in foreclosure if the borrower defaults on the loan. Because a margin sale or foreclosure sale may occur at a time when the pledgor is aware of material non-public information or otherwise is not permitted to trade in the Company's securities, our Insider Trading Policy prohibits directors, Named Executive Officers and other employees from holding our securities in a margin account or otherwise pledging our securities.

Compensation Program as it Relates to Risk

We have reviewed our compensation policies and practices for both executives and non-executives as they relate to risk and have determined that they are not reasonably likely to have a material adverse effect on the Company. In reaching this conclusion, we considered the various elements of our compensation program that are designed to help mitigate excessive risk taking, including:

• **Components of Compensation:** We use a mix of compensation elements including base salary, short-term incentives and long-term incentives to avoid placing too much emphasis on any one component of compensation.

• **Short-term Incentive Compensation:** Our short-term incentive compensation plan does not allow for unlimited payouts. For fiscal 2017, short-term incentive payments cannot exceed 150% of target levels.

Long-term Incentive Awards: Our long-term incentive awards drive a long-term perspective and vest over a period of four years. Our performance-based long-term incentive awards are capped and cannot exceed 200% of target levels.

Committee Oversight: The Committee reviews and administers all awards under short- and long-term incentive plans.

Performance Measures: Our performance goal setting process is aligned with our business strategy and the interests of our stockholders.

Clawback Policy: We have the ability to recover excess incentive-based compensation awarded to any of our executive officers as a result of an accounting restatement due to material non-compliance with the reporting requirements under federal securities laws in certain circumstances.

Stock Ownership Guidelines: Our stock ownership guidelines require our senior management to maintain a significant portion of their personal wealth in our common stock for the duration of their employment with our Company.

Our compensation program is designed to motivate our Named Executive Officers and other Company officers to achieve business objectives that generate strong stockholder returns and to encourage ethical behaviors.

Equity Ownership Guidelines

The Board believes that our executive officers should demonstrate their commitment to, and belief in, the Company's long-term profitability. Stock ownership more closely aligns our executive officers' interests and actions with the interests of the Company's stockholders. Accordingly, each officer is expected to maintain a significant investment in the Company through the ownership of our common stock. See the discussion under the caption "Security Ownership of Certain Beneficial Owners and Management -- Equity Ownership Guidelines" for a description of our guidelines.

(1) The amounts shown represent the grant date fair value for awards of RSUs and performance units granted during the period determined in accordance with FASB Accounting Standards Codification ASC Topic 718 – Compensation – Stock Compensation ("ASC718"). A portion of the awards that were granted in fiscal years 2015, 2016, and 2017 are subject to certain market conditions; accordingly, the grant date fair value of these awards is based upon the probable outcome of those conditions. Amounts have not been adjusted for expected forfeitures. For further information on the assumptions used in the valuation of these awards see Note 1 and Note 10 included in the Notes to Consolidated Financial Statements included in our fiscal 2017 Annual Report on Form 10-K. Using the maximum number of shares of stock issuable upon vesting of the performance units (200% of the performance units granted in fiscal 2017), the aggregate grant date fair value of the performance units awarded in fiscal 2017

would be: \$1,263,908 for Mr. Hewitt, \$468,200 for Mr. Montalbano, \$409,722 for Mr. Cavanah, \$284,004 for Mr. Ryan and \$266,754 for Mr. Turner.

(2) Represents amounts payable to the Named Executive Officer under the annual/short-term incentive compensation plan for the applicable fiscal year's performance and for the cash-based portion of the long-term incentive award that was earned in the applicable fiscal year. In fiscal 2017, no amounts were earned under the cash-based portion of the long-term incentive plan or under the annual/short-term incentive plan.

(3) Represents amounts paid by us on behalf of the Named Executive Officer for life insurance and disability premiums and matching contributions to the Named Executive Officer's account in our qualified 401(k) plan. Life insurance and disability premiums in fiscal 2017 totaled \$19,160, \$19,664, \$13,170, \$17,598, and \$11,084 for Messrs. Hewitt, Montalbano, Cavanah, Ryan, and Turner, respectively. Matching contributions to our 401(k) plan in fiscal 2017 totaled \$8,100, \$13,253, \$11,576, \$11,948, and \$12,165 for Messrs. Hewitt, Montalbano, Cavanah, Ryan, and Turner, respectively.

(4) The base salary of Mr. Hewitt was unchanged in fiscal 2017. The base salaries shown for Messrs. Montalbano, Cavanah and Turner for fiscal 2017 represent their current base salaries of \$496,125, \$434,148 and \$395,716, respectively, for the period from September 1, 2016 to June 30, 2017 and their prior base salaries for the period July 1, 2016 to August 31, 2016. The base salaries of Messrs. Hewitt, Montalbano, Cavanah and Turner were unchanged in fiscal 2016. The base salaries shown for Messrs. Hewitt, Montalbano, Cavanah and Turner for fiscal 2015 represent their base salaries of \$750,000, \$472,500, \$417,500 and \$344,100 respectively for the period from September 1, 2014 to June 30, 2015 and their prior base salaries for the period July 1, 2014 to August 31, 2014. In recognition of Mr. Ryan's strong contribution to his operating company achieving its budgeted operating income in fiscal 2015, Mr. Ryan received a discretionary short-term incentive compensation bonus of \$78,042, or 21.8% of his base salary at June 30, 2015. Mr. Ryan's bonus was based on record financial performance for his operating company. He did not receive any bonus attributable to the safety or consolidated operating income portions of the annual short-term incentive compensation plan or any bonus attributable to the long-term cash based AROIC plan.

Represents the number of shares which may be issued pursuant to fiscal 2017 performance unit awards to the Named Executive Officers that cliff vest three years after the grant date. The number of shares of common stock received upon vesting of the performance units will range between 0% and 200% of the number of performance (1) units awarded as determined by the three-year Total Shareholder Return on the Company's common stock when compared to the Total Shareholder Return on the common stock of a group of peer companies selected by the Compensation Committee of the Board. The fiscal 2017 performance unit awards are described above under the caption "Compensation Discussion and Analysis".

Amounts shown represent service-based RSUs granted to the Named Executive Officers in fiscal 2017. The awards (2) vest in four equal annual installments beginning one year after the grant date, subject to the Named Executive Officer's continued employment with the Company.

(3)

Amounts shown are calculated based upon the grant date fair value calculated in accordance with ASC718. The grant date fair value of the service-based RSUs is calculated by multiplying the number of RSUs awarded by the closing stock price on the date of grant. The grant date fair value of the performance units is calculated using a Monte Carlo model. The model estimated the fair value of the award based on approximately 100,000 simulations of the future prices of the Company's common stock compared to the future prices of its peer companies based on historical volatilities. The model also took into account the expected dividends over the performance period. See Notes 1 and 10 of the Notes to the Consolidated Financial Statements included in the Company's fiscal 2017 Annual Report on Form 10-K for a full discussion of the Company's stock based compensation accounting policies. The specific grant date fair values are as follows:

Name	Service-Based Awards			Performance-Based Awards			Total Grant Date Fair Value (\$)
	Shares (#)	Value per Share (\$)	Grant Date Fair Value (\$)	Shares at target (#)	Value per Share (\$)	Grant Date Fair Value (\$)	
John R. Hewitt	36,635	17.25	631,954	36,635	22.66	830,149	1,462,103

The amounts shown are the cash incentive compensation award potential for each Named Executive Officer under our annual/short-term incentive compensation plan described above under the caption "Compensation Discussion (4) and Analysis." Actual payouts to the Named Executive Officers for the applicable fiscal year are reported in the Summary Compensation Table as a portion of the amount shown under the column "Non-Equity Incentive Plan Compensation."

Amounts shown represent the potential cash awards for each Named Executive Officer under the cash portion of our fiscal 2017 long-term incentive award described above under the caption "Compensation Discussion and (5) Analysis". The actual cash payout can range from 0% to 150% of the target payout and is based on average Return on Invested Capital for fiscal 2017 and fiscal 2018. Actual payouts for the applicable fiscal year are reported in the Summary Compensation Table as a portion of the amount shown under the column "Non-Equity Incentive Plan Compensation."

Represents fiscal 2015, 2016 and 2017 performance unit awards to the Named Executive Officers that cliff vest three years after the grant date. If threshold performance is achieved, the performance units are converted to the Company's common stock upon vesting. The number of shares of common stock received for each performance unit will vary from zero to two based on the Total Shareholder Return on the Company's common stock when compared to Total Shareholder Return on common stock of peer companies selected by the Compensation Committee of the Board. The Total Shareholder Return Goals are as follows:

(1)
29

Shareholder Return Goal	Total Shareholder Return	Shares of Common Stock for Each Performance Unit
Threshold	25th percentile of Peer Group	0.25
Above Threshold	35th percentile of Peer Group	0.50
Target	50th percentile of Peer Group	1.00
Above Target	75th percentile of Peer Group	1.50
Maximum	90th percentile of Peer Group	2.00

The performance period (fiscal 2015, 2016 and 2017) for the fiscal 2015 performance unit award has been completed. In August 2017, the Compensation Committee certified that the Company's relative Total Shareholder Return for the performance period was below the amount required for a Threshold payout. Accordingly, the number of shares presented for the fiscal 2015 performance unit award is zero. Based on the Company's relative Total Shareholder Return for fiscal 2016 and 2017 (two-thirds of the performance period for the fiscal 2016 award), the fiscal 2016 award is presented at the Threshold performance level. Based on the Company's relative Total Shareholder Return for fiscal 2017 (one-third of the performance period for the fiscal 2017 award), the fiscal 2017 award is also presented at the Threshold performance level.

The following table sets forth information with respect to the value realized by our Named Executive Officers upon the exercise of stock options and the vesting of RSUs in fiscal 2017.

Name	Fiscal 2017 Option Awards		Fiscal 2017 Stock Awards

(1) The value realized is the difference between the option exercise price and the sales price of the common stock on the date of exercise, multiplied by the number of shares for which the options were exercised.

(2) The value realized is the closing sales price of the common stock on the vesting date, multiplied by the number of shares for which the restrictions lapsed. The stock awards that vested in fiscal 2017 relate to service-based and performance-based awards and were as follows:

Name	Service-Based Awards		Performance-Based Awards		Total	
	Shares (#)	Value (\$)	Shares (#)	Value (\$)	Shares (#)	Value (\$)

performance over the vesting period was in the 82nd percentile; therefore, 173% of the target performance was earned.

Potential Payments Upon Termination or Change of Control

We have entered into Change of Control/Severance Agreements with Messrs. Hewitt, Cavanah, Montalbano, Ryan and Turner. These agreements are designed to promote stability, continuity and focus for key members of leadership during periods of uncertainty that may be created by change of control situations. Additionally, the use of such agreements is a competitive practice that enhances our ability to attract and retain leadership talent.

Under these agreements, payment of benefits may occur under two circumstances:

If we experience a "Change of Control" and the executive suffers an "Adverse Event" or is terminated without "Cause," either on the date of the Change of Control or within 24 months following the Change of Control date; or

• The executive is terminated from employment at any time for reasons other than Cause.

"Change of Control" means (i) the acquisition by any "person" or "group" (as defined pursuant to Section 13(d) under the Securities Exchange Act) of "beneficial ownership" (as defined in Rule 13d-3 under the Exchange Act) of in excess of 35% of the combined voting power of the outstanding voting securities of the Company entitled to vote generally in the election of directors (the "Voting Securities"); (ii) during any one (1) year period, individuals who at the beginning of such period constituted the Board of the Company (the "Board") (together with any new directors whose election by the Board or nomination for election by the Company's stockholders was approved by a vote of at least two-thirds (2/3) of the directors of the Company then still in office who either were directors at the beginning of such period or whose election or nomination for election was previously so approved (but excluding, for purposes of this definition, any such individual whose initial assumption of office occurs as a result of an actual or threatened election contest with respect to the election or removal of directors or other actual or threatened solicitation of proxies or consents by or on behalf of a person other than the Board) cease for any reason to constitute a majority of the members of the Board; (iii) consummation of a merger, consolidation, recapitalization or reorganization of the Company, other than a merger, consolidation, recapitalization or reorganization which would result in the Voting Securities of the Company outstanding immediately prior thereto continuing to represent, either by remaining outstanding or by being converted into voting stock of the surviving entity (or if the surviving entity is a subsidiary of another entity, then of the parent entity of such surviving entity), more than fifty percent (50%) of the total voting power represented by the voting stock of the surviving entity (or parent entity) outstanding immediately after such merger, consolidation, recapitalization or reorganization; (iv) a "change in the ownership of a substantial portion of the assets" of the Company as these terms are defined under Code § 409A(a)(2)(A)(v) and Treasury Regulations § 1.409A-3(g)(5) or other then existing and applicable Treasury Regulations promulgated under Code § 409A that define the terms "change of control" for deferred compensation arrangements or (v) the Company's stockholders approve a plan of complete liquidation of the Company or an agreement for the sale or disposition by the Company (in one transaction or a series of related transactions) of all or substantially all of the Company's assets to any Person.

"Cause" means, with reference to a severance event, that the executive has been severed from employment with the Company because of the executive's theft of Company property, embezzlement or dishonesty that results in harm to the Company; continued gross or willful neglect of his or her job responsibilities after receiving written warnings regarding such neglect from the Company; conviction of a felony or pleading nolo contendere to a felony charged under state or federal law; or willful violation of Company policy. A determination by the Company's Board that an event constituting "Cause" under this Agreement has occurred is binding upon the Company and the executive.

"Adverse Event" means that the executive has experienced an event that has a material adverse impact on the executive's job position, responsibilities, duties, authorities, compensation or opportunities within the Company. An Adverse Event shall be considered "material" when: (i) the executive experiences any reduction in base salary; (ii) the executive experiences a reduction in salary range or opportunity for increases in salary; (iii) the executive experiences a reduction in incentive compensation range or opportunity; (iv) there is a material reduction in the executive's executive benefits or perquisites; (v) the executive is reassigned to a position or role with a lower salary range, salary opportunity, incentive range or incentive opportunity; or (vi) the executive experiences a material reduction in responsibilities.

In the event payment of benefits is triggered under these agreements, the executive officer will be paid in the manner outlined below. All benefits paid under these agreements are conditioned upon the executive executing a non-interference, non-solicitation, waiver and release of claims and confidentiality agreement in a form satisfactory to us. Failure to execute such an agreement prior to the payment date is considered an absolute forfeiture of the

severance benefit. In the event an executive officer is terminated for Cause, all benefits and payments under the agreement are forfeited.

In the event an executive suffers an Adverse Event or is terminated from employment for reasons other than Cause, each within 24 months of a Change of Control, benefits are paid as follows:

Mr. Hewitt, Mr. Cavanah and Mr. Montalbano – Paid an amount equal to two years of base salary plus the average annual bonus compensation paid to the executive in the lesser of the previous three years or the number of full fiscal years the executive has been employed in the position. All forms of equity benefits vest and restrictions on such benefits lapse immediately.

Mr. Ryan and Mr. Turner – Paid an amount equal to one and one-half years of base salary plus the average annual bonus compensation paid to the executive in the previous three calendar years. All forms of equity benefits vest and restrictions on such benefits lapse immediately.

Even in the absence of a Change of Control, in the event an executive is terminated from employment for reasons other than Cause, benefits are paid as follows:

Mr. Hewitt – Paid an amount equal to one year of base salary plus bonus compensation in an amount equal to his target short-term incentive payout which is currently 100% of base salary.

Mr. Cavanah, Mr. Montalbano, and Mr. Turner – Paid an amount equal to one year of base salary plus the lesser of the average annual bonus compensation paid to the executive in the previous three years or the number of full fiscal years the executive has been employed in the position.

Mr. Ryan – Paid an amount equal to one year of base salary plus the lesser of the average annual bonus compensation paid to the executive in the previous three years or the number of full fiscal years the executive has been employed in the position. All forms of equity benefits vest and restrictions on such benefits lapse immediately.

We have also entered into Change of Control Agreements with other executive officers and key members of management. These agreements are designed to promote stability, continuity and focus for key personnel during periods of uncertainty that may be created by potential change of control situations. We seek to offer some security and protection when asking officers and managers to remain engaged through uncertain times.

Under these agreements, payment of benefits occurs in the event of a Change of Control and the executive officer/manager has suffered an Adverse Event or been terminated from employment for reasons other than Cause, either on the date of the Change of Control or within six months of the Change of Control date. There is no general severance clause in these agreements.

In the event payment of benefits is triggered under these agreements, the executive officer/manager will be paid an amount equal to one year of base salary. In addition, all equity awards immediately vest and all restrictions on such benefits lapse. All benefits paid under these agreements are conditional upon the executive officer/manager executing a non-interference, non-solicitation, waiver and release of claims and confidentiality agreement in a form satisfactory to us. Failure to execute such an agreement prior to the payment date will be considered an absolute forfeiture of the severance benefit. In the event an executive officer/manager is terminated for Cause, all benefits and payments under the agreement are forfeited.

Benefits will be paid in the calendar year the triggering event occurs and, generally, within thirty days of the date of the triggering event. In no case shall the payment of the severance benefits be paid later than March 15 following the calendar year in which the event occurred.

The following table shows potential payments to our Named Executive Officers under existing contracts, agreements, plans or arrangements, whether written or unwritten for various scenarios involving a termination of each of such Named Executive Officers, assuming a June 30, 2017 termination date and, where applicable, using the closing price of our common stock on June 30, 2017 of \$9.35. These amounts are estimates only. The actual amounts to be paid out can only be determined at the time of such executive officer's separation from us.

Except for certain terminations which entitle a Named Executive Officer to severance payments under the agreements described above, and except for the acceleration of vesting of equity awards upon retirement, death or disability to which a Named Executive Officer may be entitled under his respective award agreements, there are no agreements, arrangements or plans that entitle the Named Executive Officers to severance, perquisites or other enhanced benefits upon their termination of employment. Any agreement to provide such other payments or benefits to a terminating

executive would be at the discretion of the Compensation Committee.

(1) Represents payment of one and one-half or two years of base salary for the event specified based on base salary as of June 30, 2017.

(2) Represents payment of non-equity incentive severance for the event specified based on the average annual bonus compensation paid to the executive in the lesser of the previous three years or the number of full fiscal years the executive has been employed in the position.

(3) Represents the value the Named Executive Officer would realize for the vesting of all nonvested stock options for the specified event. The value is the difference between the option exercise price and the market price of the common stock as of the close of business on June 30, 2016, multiplied by the number of nonvested stock options at June 30, 2017. At June 30, 2017, all of the stock options held by the NEOs were already exercisable.

(4) Represents the value the Named Executive Officer would realize upon the lapsing of restrictions on RSUs, performance units and cash LTI awards due to the specified event. The value shown is the number of unvested RSUs and performance units, assuming a target performance level, at June 30, 2017 multiplied by the market price of common stock at the close of business on June 30, 2017 plus the value of the cash LTI awards, which are also assumed to vest based on the target level of performance.

(5) Represents 100% of annual salary for Mr. Hewitt. For Messrs. Montalbano, Cavanah, Turner and Ryan, the amount represents payment of non-equity incentive severance for the event specified based on the average annual bonus compensation paid to the executive in the lesser of the previous three years or the number of full fiscal years the executive has been employed in the position.

(6) Represents the value Mr. Montalbano would realize for the lapsing of restrictions on RSUs, performance units and cash LTI awards due to his retirement. The value shown is the number of unvested RSUs at June 30, 2017 for which restrictions would lapse at retirement multiplied by the market price of common stock at the close of business on June 30, 2017. Restrictions lapse on performance units, RSUs and cash LTI awards upon retirement on a pro rata basis based on the number of full and partial months served in the applicable performance period. The performance units and cash LTI awards are assumed to vest at the target level of performance. Messrs. Hewitt, Cavanah, Ryan, and Turner were not eligible for retirement at June 30, 2017.

PROPOSAL NUMBER 3: Advisory Vote to Approve Named Executive Officer Compensation

Pursuant to Section 14A of the Securities Exchange Act of 1934, as amended, and Rule 14a-21 promulgated thereunder, we are seeking an advisory vote from our stockholders to approve our Named Executive Officer compensation, as set forth below.

We are asking for stockholder approval of the compensation of our Named Executive Officers as disclosed in this proxy statement in accordance with SEC rules, which disclosures include the disclosures under the caption “Compensation Discussion and Analysis,” the compensation tables and the narrative discussion accompanying the compensation tables. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our Named Executive Officers and the policies and practices described in this proxy statement. We are open to receiving feedback from stockholders on executive compensation and currently provide stockholders with the opportunity to cast an advisory vote to approve the compensation of our Named Executive Officers every year. As discussed under the heading “Compensation Discussion and Analysis,” our executive compensation and benefit programs are designed to attract, motivate and retain a talented management team and to appropriately reward individual contributions to the achievement of our strategic goals. The Board believes this approach establishes a solid alignment of our executives’ and stockholders’ interests.

We use the following principles in the design and administration of our executive compensation program:

Competitiveness – Our compensation programs are designed to ensure we can attract, motivate and retain the talent needed to lead and grow the business. Targets for base salary, short-term and long-term compensation are generally based on median (50th percentile) market levels.

Support Business Objectives, Strategy and Values – Ultimately our compensation program is designed to drive the achievement of annual business objectives, support the creation of long-term value for our stockholders, and promote and encourage behavior consistent with our core values and guiding principles.

Pay for Performance – While we establish target pay levels at or near the median or 50th percentile market levels for target level performance, our plans provide the opportunity for significantly greater rewards for outstanding performance. At the same time, performance that does not meet expectations is not rewarded.

Individual Performance – In addition to objective company-wide, business unit and operating unit financial measures, our programs emphasize individual performance and the achievement of personal objectives.

Integrated Approach – We look at compensation in total and strive to achieve an appropriate balance of immediate, short-term and long-term compensation components, with the ultimate goal of aligning executive compensation with long-term stockholder value.

Approval of this advisory vote requires the affirmative vote of the majority of shares present in person or by proxy at the Annual Meeting and entitled to vote for the adoption of this proposal. The Board unanimously recommends a vote “For” the approval of the compensation of our Named Executive Officers as disclosed in this proxy statement pursuant to the compensation disclosure rules of the SEC.

The Board welcomes our stockholders’ views on this subject, and will carefully consider the outcome of this vote. However, as an advisory vote, the outcome is not binding on us or the Board.

PROPOSAL NUMBER 4: Advisory Vote on the Frequency of a Future Advisory Votes on Executive Compensation
In accordance with Section 14A of the Securities Exchange Act of 1934, as amended, and Rule 14a-21 promulgated thereunder, we are also including in this proxy statement a separate proposal to enable our stockholders to vote, on an advisory and non-binding basis, for their preference as to how frequently we should seek future say-on-pay advisory votes on the compensation of our Named Executive Officers. Stockholders may indicate whether future advisory votes on executive compensation should occur every one, two or three years. Stockholders also may, if they wish, abstain from casting a vote on this proposal.

This advisory vote on the frequency of future say-on-pay votes must be provided to stockholders at least once every six years. At our 2011 annual meeting, we sought an advisory vote from our stockholders on whether future advisory votes on executive compensation of the nature reflected in Proposal 4 should occur every year, every two years or every three years. The one-year option received the greatest number of votes, and the Board confirmed that advisory votes on executive compensation would be held on an annual basis.

Our Board continues to believe that a frequency of every “1 year” for the advisory vote on executive compensation is the most appropriate policy for our company. The Board believes that an annual advisory vote on executive compensation is consistent with our practice of seeking input and engaging in dialogue with our stockholders on corporate governance matters and our executive compensation philosophy, policies and practices.

Stockholders will be able to specify one of four choices for this proposal on the proxy card: one year, two years, three years, or abstaining. Stockholders will not be voting to approve or disapprove our Board’s recommendation.

The option of one year, two years or three years that receives the greatest number of votes will be considered the preferred option of stockholders. Although this advisory vote on the frequency of the say-on-pay vote is non-binding, our Board will take into account the outcome of the vote when considering the frequency of future advisory votes on executive compensation. The Board unanimously recommends that you vote to conduct future advisory votes on executive compensation every year.

Equity Ownership Guidelines

The Board believes that our executive officers should demonstrate their commitment to and belief in the Company's long-term profitability. Accordingly, each executive officer is expected to maintain a significant investment in the Company through the ownership of Company stock. Stock ownership more closely aligns our executive officers' interests and actions with the interests of the Company's stockholders.

Our Equity Ownership Guidelines, which were most recently revised in August 2011, and were reviewed and reaffirmed in August 2014 are as follows:

Amount of Ownership – Defined as a multiple of the individual's base salary as noted below. These multiples represent the minimum amount of Company stock an executive officer should seek to acquire and maintain:

President/CEO	5 times base salary
CFO/COO/Presidents of the three principal operating subsidiaries	3 times base salary
All other executive officers	1 times base salary

Timing: The executive officers have until five years after the date of their appointment as an executive officer to acquire the ownership levels discussed above. Thereafter, they are expected to retain this level of ownership during their tenure with the Company. Compliance will be evaluated on an annual basis as of June 30 of each year.

Eligible Forms of Equity:

- shares owned separately by the executive officer or owned either jointly with, or separately by, his or her immediate family members residing in the same household;

- shares held in trust for the benefit of the executive officer or immediate family members;

- shares purchased in the open market;

- shares purchased through the Company's Employee Stock Purchase Plan;

- vested and unvested time-based restricted stock or RSUs;

- unvested performance or market based performance units, restricted stock or RSUs but only to the extent that the Company recognizes compensation expense with respect to such performance units, restricted stock or RSUs; and
- the in-the-money value of vested and unexercised stock options.

All of our executive officers have met the equity ownership guidelines as of June 30, 2017.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires the Company's directors and executive officers, and persons who own more than 10% of the Company's common stock, to report their initial ownership of the common stock and any subsequent changes in ownership of the common stock with the SEC and NASDAQ and to furnish the Company with a copy of each such report.

To the Company's knowledge, based solely on the Company's review of the copies of such reports received by the Company and on written representations by certain reporting persons that no other reports were required during and with respect to fiscal 2017, all Section 16(a) filing requirements applicable to its executive officers and directors, and

10% stockholders were complied with on a timely basis.

Householding of Proxy Materials

The SEC has adopted rules that permit companies and intermediaries (such as banks and brokers) to satisfy the delivery requirements for proxy statements and annual reports with respect to two or more stockholders sharing the same address by delivering a single proxy statement addressed to those stockholders. This process, which is commonly referred to as "householding," potentially means extra convenience for stockholders and cost savings for companies.

A number of banks and brokers with account holders who are Company stockholders may be "householding" the Company's proxy materials and annual report. A single proxy statement and annual report will be delivered to multiple stockholders sharing an address unless contrary instructions have been received from the affected stockholders. Once you have received notice from your bank or broker that it will be "householding" communications to your address, "householding" will continue until you are notified otherwise or until you revoke your consent. If, at any time, you no longer wish to participate in "householding" and would prefer to receive a separate proxy statement and annual report, please notify your bank or broker, or direct your written request to Matrix Service Company, 5100 East Skelly Drive, Suite 500, Tulsa, Oklahoma, 74135, Attention: Secretary, Kevin S. Cavanah, or telephone at (918) 838-8822 and the Company will deliver a separate copy of the annual report or proxy statement upon request. Stockholders who currently receive multiple copies of the proxy statement and annual report at their address and would like to request "householding" of their communications should contact their bank or broker.

Forward-Looking Statements

Certain statements contained in this Proxy Statement are not based on historical fact and are forward-looking statements within the meaning of federal securities laws and regulations. These statements are based on management's current expectations, assumptions, estimates and observations of future events and include any statements that do not directly relate to any historical or current fact; actual results may differ materially due in part to the risk factors set forth in Item 1A of the 2017 Form 10-K. These forward-looking statements can be identified by the use of words "believes," "intends," "expects," "anticipates," "projects," "estimates," "predicts" and similar expressions. These forward-looking statements include, among others, such things as:

- the impact to our business of crude oil and other commodity prices;
- amounts and nature of future revenues and margins from each of our segments; and
- trends in the industries we serve.

These statements are based on certain assumptions and analyses we made in light of our experience and our historical trends, current conditions and expected future developments as well as other factors we believe are appropriate. However, whether actual results and developments will conform to our expectations and predictions is subject to a number of risks and uncertainties which could cause actual results to differ materially from our expectations, including:

economic, market or business conditions in general and in the oil, gas, power, iron and steel and mining industries in particular;

- reduced creditworthiness of our customer base and the higher risk of non-payment of receivables due to low prevailing crude oil and other commodity prices;
- the inherently uncertain outcome of current and future litigation;
- the adequacy of our reserves for contingencies;
- changes in laws or regulations; and
- other factors, many of which are beyond our control.

Consequently, all of the forward-looking statements made in this proxy statement are qualified by these cautionary statements and there can be no assurance that the actual results or developments anticipated by us will be realized or, even if substantially realized, that they will have the expected consequences or effects on our business operations. We assume no obligation to update publicly, except as required by law, any such forward-looking statements, whether as a result of new information, future events or otherwise.
