									\$1,125,855

* Non-income producing security.

† Value determined based on Level 1 inputs, unless otherwise noted — See Note 3.

†† Value determined based on Level 2 inputs, unless otherwise noted — See Note 3.

††† Value determined based on Level 3 inputs — See Note 3.

1 Security was fair valued by the Valuation Committee at February 28, 2018. The total market value of fair valued securities amounts to \$1,055,607, (cost \$1,437,220) or 0.3% of total net assets.

2 Affiliated issuer.

3 Variable rate security. Rate indicated is the rate effective at February 28, 2018. In some instances, the underlying reference rate shown was below the minimum rate earned by the security or has been adjusted by a predetermined factor. The settlement status of a position may also impact the effective rate indicated. In instances where multiple underlying reference rates and spread amounts are shown, the effective rate is based

on a weighted average.

4 Security is a 144A or Section
4(a)(2) security. These securities
have been determined to be liquid
under guidelines established
by the Board of Trustees. The
total market value of 144A or
Section 4(a)(2) securities is
\$31,504,859 (cost \$28,993,509),
or
8.0% of total net assets.

5 Security is in default of interest
and/or principal obligations.

6 Security is a 144A or Section
4(a)(2) security. These securities
have been determined to be
illiquid and restricted under
guidelines established by the
Board of Trustees. The total
market value of 144A or Section
4(a)(2) illiquid and restricted
securities is \$178,138 (cost
\$587,621), or less than 0.1% of
total net assets — See Note 6.

7 Payment-in-kind security.

8 Security has no stated coupon.
However, it is expected to receive
residual cash flow payments on
defined deal dates.

9 The effective rate shown is based
on a weighted average of the
underlying reference rates and
spread amounts listed.

10 Taxable municipal bond issued as
part of the Build America Bond
program.

11 All or a portion of these securities
have been physically segregated
in connection with borrowings
and reverse repurchase
agreements. As of February 28,
2018, the total value of securities
segregated was \$251,241,628.

Edgar Filing: Guggenheim Taxable Municipal Managed Duration Trust - Form N-Q

Guggenheim Taxable Municipal Managed Duration Trust

SCHEDULE OF INVESTMENTS (Unaudited)

February 28, 2018

The Trust may hold assets and/or liabilities in which the fair value approximates the carrying amount for financial statement purposes. As of period end, reverse repurchase agreements of \$57,854,111 are categorized as Level 2 within the disclosure hierarchy.

The following is a summary of the significant unobservable input used in the fair valuation of assets and liabilities categorized within the Level 3 of the fair value hierarchy:

Category	Ending Balance at February 28, 2018	Valuation Technique	Unobservable Inputs	Input Range	Weighted Average
Assets:					
Common Stocks	\$86,351	Enterprise Value	Valuation Multiple	7.9x - 8.9x	8.4x
Senior Floating Rate Interests	492,500	Model Price	Market Comparable Yields	5.6 %	—
Senior Floating Rate Interests	461,784	Yield Analysis	Yield	9.0 %	—
Senior Floating Rate Interests	14,972	Model Price	Purchase Price	—	—
Total Assets	\$1,055,607				
Liabilities:					
Unfunded Loan Commitments	\$193,441	Model Price	Purchase Price	—	—

Transfers between investment levels may occur as the markets fluctuate and/or the availability of data used in an investment's valuation changes. Transfers between valuation levels, if any, are in comparison to the valuation levels at the end of the previous fiscal year, and are effective using the fair value as of the end of the current fiscal period. For the period ended February 28, 2018, the Trust had securities with a total value of \$14,972 transfer out of level 2 into level 3 due to changes in the securities valuation methods based on availability of observable market inputs. There were no other securities that transferred between levels.

Summary of Fair Value Level 3 Activity

Following is a reconciliation of Level 3 assets for which significant unobservable inputs were used to determine fair value for the period ended February 28, 2018:

	Assets			Liabilities	
	Senior Floating Rate Interests	Corporate Bonds	Common Stocks	Total Assets	Unfunded Loan Commitments
Beginning Balance	\$3,542,188	\$ -	\$159,631	\$3,701,819	\$ (67,375)
Purchases/Receipts	466,627	-	-	\$466,627	(225,008)
Sales, maturities and paydowns/Fundings	(3,007,162)	-	(1,398)	\$(3,008,560)	-
Total realized gains or losses included in earnings	(39,756)	(19)	(124,088)	\$(163,863)	-
Total change in unrealized gains or losses included in earnings	(7,613)	19	52,206	\$44,612	98,942
Transfers into Level 3	14,972	-	-	\$14,972	-
Transfers out of Level 3	-	-	-	\$-	-
Ending Balance	\$969,256	\$ -	\$86,351	\$1,055,607	\$ (193,441)
Net Change in unrealized appreciation (depreciation) for investments in securities still held at February 28, 2018	\$1,609	\$ -	\$(72,401)	\$(70,792)	\$ 98,942

Affiliated Transactions

Investments representing 5% or more of the outstanding voting shares of a portfolio company of a fund, or control of or by, or common control under the Guggenheim Investments ("GI"), result in that portfolio company being considered an affiliated company of such fund, as defined in the 1940 Act.

Edgar Filing: Guggenheim Taxable Municipal Managed Duration Trust - Form N-Q

Transactions during the period ended February 28, 2018, in which the portfolio company is an "affiliated person", were as follows:

Security Name	Value 05/31/17	Additions	Reductions	Realized Gain	Change in Unrealized	Value 02/28/18	Shares/ Par 02/28/18	Investment Income	Capital Gain Distributions

Variable rate security. Rate indicated is the rate effective at February 28, 2018. In some instances, the underlying reference rate shown was below the minimum rate earned by the security or has been adjusted by a predetermined 5 factor. The settlement status of a position may also impact the effective rate indicated. In instances where multiple underlying reference rates and spread amounts are shown, the effective rate is based on a weighted average.

NOTES TO SCHEDULE OF INVESTMENTS (Unaudited) February 28, 2018

Note 1 – Organization and Significant Accounting Policies

Organization

Guggenheim Taxable Municipal Managed Duration Trust (the "Trust") (formerly known as Guggenheim Build America Bonds Managed Duration Trust) was organized as a Delaware statutory trust on June 30, 2010. The Trust is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the "1940 Act").

The Trust's primary investment objective is to provide current income with a secondary objective of long-term capital appreciation. There can be no assurance that the Trust will achieve its investment objectives. The Trust's investment objectives are considered fundamental and may not be changed without shareholder approval.

Guggenheim Funds Investment Advisors, LLC ("GFIA" or the "Adviser") provides advisory services. Guggenheim Funds Distributors, LLC ("GFD") acts as principal underwriter for the Trust. GFIA and GFD are affiliated entities.

Significant Accounting Policies

The Trust operates as an investment company and, accordingly, follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946 Financial Services – Investment Companies.

The following significant accounting policies are in conformity with U.S. generally accepted accounting principles ("U.S. GAAP") and are consistently followed by the Trust. This requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates. All time references are based on Eastern Time.

Valuation of Investments

The Board of Trustees of the Trust (the "Board") has adopted policies and procedures for the valuation of the Trust's investments (the "Valuation Procedures"). Pursuant to the Valuation Procedures, the Board has delegated to a valuation committee, consisting of representatives from Guggenheim's investment management, fund administration, legal and compliance departments (the "Valuation Committee"), the day-to-day responsibility for implementing the Valuation Procedures, including, under most circumstances, the responsibility for determining the fair value of the Trust's securities and/or other assets.

Valuations of the Trust's securities are supplied primarily by pricing services appointed pursuant to the processes set forth in the Valuation Procedures. The Valuation Committee convenes monthly, or more frequently as needed, to review the valuation of all assets which have been fair valued for reasonableness. The Trust's officers, through the Valuation Committee and consistent with the monitoring and review responsibilities set forth in the Valuation Procedures, regularly review procedures used and valuations provided by the pricing services.

If the pricing service cannot or does not provide a valuation for a particular investment or such valuation is deemed unreliable, such investment is fair valued by the Valuation Committee.

Equity securities listed on an exchange (New York Stock Exchange ("NYSE") or American Stock Exchange) are valued at the last quoted sale price as of the close of business on the NYSE, usually 4:00 p.m. on the valuation date. Equity securities listed on the NASDAQ market system are valued at the NASDAQ Official Closing Price on the valuation date, which may not necessarily represent the last sale price. If there has been no sale on such exchange or

NASDAQ on a given day, the security is valued at the closing bid price on that day.

Debt securities with a maturity of greater than 60 days at acquisition are valued at prices that reflect broker-dealer supplied valuations or are obtained from independent pricing services, which may consider the trade activity, treasury spreads, yields or price of bonds of comparable quality, coupon, maturity, and type, as well as prices quoted by dealers who make markets in such securities. Short-term debt securities with a maturity of 60 days or less at acquisition are valued at amortized cost, provided such amount approximates market value. Money market funds are valued at net asset value.

Typically, loans are valued using information provided by an independent third party pricing service which uses broker quotes in a non-active market.

NOTES TO SCHEDULE OF INVESTMENTS (Unaudited) February 28, 2018

The value of interest rate swap agreements entered into by a Trust are accounted for using the unrealized gain or loss on the agreements that is determined using the spread priced off the previous day's Chicago Mercantile Exchange ("CME") price.

Generally, trading in foreign securities markets is substantially completed each day at various times prior to the close of the NYSE. The values of foreign securities are determined as of the close of such foreign markets or the close of the NYSE, if earlier. All investments quoted in foreign currencies are valued in U.S. dollars on the basis of the foreign currency exchange rates prevailing at the close of U.S. business at 4:00 p.m. Investments in foreign securities may involve risks not present in domestic investments. The Valuation Committee will determine the current value of such foreign securities by taking into consideration certain factors which may include those discussed above, as well as the following factors, among others: the value of the securities traded on other foreign markets, ADR trading, closed-end fund trading, foreign currency exchange activity, and the trading prices of financial products that are tied to foreign securities such as World Equity Benchmark Securities. In addition, under the Valuation Procedures, the Valuation Committee and GFIA are authorized to use prices and other information supplied by a third party pricing vendor in valuing foreign securities.

Investments for which market quotations are not readily available are fair-valued as determined in good faith by GFIA, subject to review by the Valuation Committee, pursuant to methods established or ratified by the Board. Valuations in accordance with these methods are intended to reflect each security's (or asset's) "fair value". Each such determination is based on a consideration of all relevant factors, which are likely to vary from one pricing context to another. Examples of such factors may include, but are not limited to market prices; sale prices; broker quotes; and models which derive prices based on inputs such as prices of securities with comparable maturities and characteristics, or based on inputs such as anticipated cash flows or collateral, spread over Treasuries, and other information analysis.

Note 2 – Financial Instruments

As part of its investment strategy, the Trust utilizes a variety of derivative instruments. These investments involve, to varying degrees, elements of market risk. Valuation and accounting treatment of these instruments can be found under Significant Accounting Policies in Note 1 of these Notes to Schedule of Investments.

Derivatives

Derivatives are instruments whose values depend on, or are derived from, in whole or in part, the value of one or more other assets, such as securities, currencies, commodities or indices. Derivative instruments may be used to increase investment flexibility (including to maintain cash reserves while maintaining exposure to certain other assets), for risk management (hedging) purposes, to facilitate trading, to reduce transaction costs and to pursue higher investment returns. Derivative instruments may also be used to mitigate certain investment risks, such as foreign currency exchange rate risk, interest rate risk and credit risk. U.S. GAAP requires disclosures to enable investors to better understand how and why a Trust uses derivative instruments, how these derivative instruments are accounted for and their effects on the Trust's financial position and results of operations.

For any Trust whose investment strategy consistently involves applying leverage, the value of the Trust's shares will tend to increase or decrease more than the value of any increase or decrease in the underlying index or other asset. In addition, because an investment in derivative instruments generally requires a small investment relative to the amount of investment exposure assumed, an opportunity for increased net income is created; but, at the same time, leverage risk will increase. The Trust's use of leverage, through borrowings or instruments such as derivatives, may cause the Trust to be more volatile and riskier than if they had not been leveraged.

Swaps

A swap is an agreement that obligates two parties to exchange a series of cash flows at specified intervals based upon or calculated by reference to changes in specified prices or rates for a specified amount of an underlying asset. A Trust utilizing OTC swaps bears the risk of loss of the amount expected to be received under a swap agreement in the event of the default or bankruptcy of a swap agreement counterparty or if the underlying asset declines in value. Certain standardized swaps are subject to mandatory central clearing. Central clearing generally reduces counterparty credit risk and increases liquidity, but central clearing does not make swap transactions risk-free. For Trusts utilizing interest rate swaps, the exchange bears the risk loss. Additionally, there is no guarantee that a Trust or an underlying Trust could eliminate its exposure under an outstanding swap agreement by entering into an offsetting swap agreement with the same or another party.

NOTES TO SCHEDULE OF INVESTMENTS (Unaudited) February 28, 2018

Interest rate swaps involve the exchange by the Trust with another party for its respective commitment to pay or receive a fixed or variable interest rate on a notional amount of principal. Interest rate swaps are generally centrally-cleared, but central clearing does not make interest rate swap transactions risk free.

In conjunction with the use of derivative instruments, the Trust is required to maintain collateral in various forms. The Trust uses, where appropriate, depending on the financial instrument utilized and the broker involved, margin deposits at the broker, cash and/or securities segregated at the custodian bank, discount notes or the repurchase agreements allocated to the Trust.

The Trust has established counterparty credit guidelines and enters into transactions only with financial institutions of investment grade or better. The Trust monitors the counterparty credit risk.

Note 3 – Fair Value Measurement

In accordance with U.S. GAAP, fair value is defined as the price that the Trust would receive to sell an investment or pay to transfer a liability in an orderly transaction with an independent buyer in the principal market, or in the absence of a principal market, the most advantageous market for the investment or liability. U.S. GAAP establishes a three-tier fair value hierarchy based on the types of inputs used to value assets and liabilities and requires corresponding disclosure. The hierarchy and the corresponding inputs are summarized below:

Level 1 — quoted prices in active markets for identical assets or liabilities.

Level 2 — significant other observable inputs (for example quoted prices for securities that are similar based on characteristics such as interest rates, prepayment speeds, credit risk, etc.).

Level 3 — significant unobservable inputs based on the best information available under the circumstances, to the extent observable inputs are not available, which may include assumptions.

The types of inputs available depend on a variety of factors, such as the type of security and the characteristics of the markets in which it trades, if any. Fair valuation determinations that rely on fewer or no observable inputs require greater judgment. Accordingly, fair value determinations for Level 3 securities require the greatest amount of judgment.

Independent pricing services are used to value a majority of the Trust's investments. When values are not available from a pricing service, they may be computed by the Trust's investment adviser or an affiliate. In any event, values may be determined using a variety of sources and techniques, including: market prices; broker quotes; and models which derive prices based on inputs such as prices of securities with comparable maturities and characteristics or based on inputs such as anticipated cash flows or collateral, spread over Treasuries, and other information and analysis. A significant portion of the Trust's assets and liabilities are categorized as Level 2, as indicated in this report.

Indicative quotes from broker-dealers, adjusted for fluctuations in criteria such as credit spreads and interest rates, may be also used to value the Trust's assets and liabilities, i.e. prices provided by a broker-dealer or other market participant who has not committed to trade at that price. Although indicative quotes are typically received from established market participants, the Trust may not have the transparency to view the underlying inputs which support the market quotations. Significant changes in an indicative quote would generally result in significant changes in the fair value of the security.

Certain fixed income securities are valued by obtaining a monthly indicative quote from a broker-dealer, adjusted for fluctuations in criteria such as credit spreads and interest rates.

Edgar Filing: Guggenheim Taxable Municipal Managed Duration Trust - Form N-Q

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The suitability of the techniques and sources employed to determine fair valuation are regularly monitored and subject to change.

Note 4 – Federal Income Tax Information

The Trust intends to comply with the provisions of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and will distribute substantially all taxable net investment income and capital gains sufficient to relieve the Trust from all, or substantially all, federal income, excise and state income taxes. Therefore, no provision for federal or state income tax is required.

Tax positions taken or expected to be taken in the course of preparing the Trust's tax returns are evaluated to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax positions not

NOTES TO SCHEDULE OF INVESTMENTS (Unaudited) February 28, 2018

deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense in the current year. Management has analyzed the Trust's tax positions taken, or to be taken, on federal income tax returns for all open tax years, and has concluded that no provision for income tax is required in the Trust's financial statements. The Trust's federal tax returns are subject to examination by the Internal Revenue Service for a period of three years after they are filed.

At February 28, 2018, the cost of securities for federal income tax purposes, the aggregate gross unrealized gain for all securities for which there was an excess of value over tax cost, and the aggregate gross unrealized loss for all securities for which there was an excess of tax cost over value were as follows:

Tax Cost	Tax Unrealized Gain	Tax Unrealized Loss	Net Unrealized Gain
\$433,415,252	\$60,277,540	\$(1,448,414)	\$58,829,126

Note 5 – Unfunded Loan Commitments

Pursuant to the terms of certain loan agreements, the Trust held unfunded loan commitments as of February 28, 2018. The Trust is obligated to fund these loan commitments at the borrower's discretion.

The unfunded loan commitments as of February 28, 2018, were as follows:

Borrower	Maturity Date	Face Amount	Value
Lytix, Inc.	08/31/22	\$26,316	\$2,963
Solera LLC	03/03/21	2,250,000	190,478
		\$2,276,316	\$193,441

Note 6 – Restricted Securities

The securities below are considered illiquid and restricted under guidelines established by the Board:

Restricted Securities	Acquisition Date	Cost	Value
Highland Park CDO I Ltd. 2006-1A, 2.34% (3 Month USD LIBOR + 0.40%) due 11/25/51 ¹	04/14/15	\$71,066	\$93,118
Schahin II Finance Co. SPV Ltd. 5.88% due 09/25/22 ²	01/08/14	516,555	85,020
		\$587,621	\$178,138

Other Information (Unaudited) February 28, 2018

Sector Classification

Information in the "Schedule of Investments" is categorized by sectors using sector-level classifications used by Bloomberg Industry Classification System, a widely recognized industry classification system provider. In the Trust's registration statement, the Trust has investment policies relating to concentration in specific industries. For purposes of these investment policies, the Trust usually classifies industries based on industry-level classifications used by widely recognized industry classification system providers such as Bloomberg Industry Classification System, Global Industry Classification Standards and Barclays Global Classification Scheme.

Item 2. Controls and Procedures.

(a) The registrant's principal executive officer and principal financial officer have evaluated the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended) as of a date within 90 days of the filing date of this report and have concluded, based on such evaluation, that the registrant's disclosure controls and procedures were effective, as of that date, in ensuring that information required to be disclosed by the registrant on this Form N-Q was recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

(b) There was no change in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act, as amended) that occurred during the registrant's last fiscal quarter that has materially affected or is reasonably likely to materially affect the registrant's internal control over financial reporting.

Item 3. Exhibits.

A separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the Investment Company Act, as amended (17 CFR 270.30a-2(a)) is attached hereto.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
