NEWMONT MINING OPERATIONS REACH TRANSACTION READY MILESTONE VIA QUADREM

PARTICIPATION ON THREE CONTINENTS WITH GLOBAL EMARKETPLACE

DALLAS, TX, AND DENVER, CO, December 18, 2001 - Newmont Mining Corporation, (NYSE: NEM) a leading worldwide gold producer, announced today that its eBusiness initiative has reached a transaction ready status at its three largest mining operations - Minera Yanacocha in Peru, Batu Hijau in Indonesia and Nevada Operations, USA. The transaction ready status marks a significant milestone with its eBusiness trading partner Quadrem - the mining, minerals and metals eMarketplace - as it indicates Newmont's capability of transacting electronically with any supplier.

"Our transaction ready status on three continents is a significant achievement of a strategic corporate initiative for Newmont," explained John Huber, Director IT and eBusiness. "This milestone also exemplifies the commitment of our organization, working with Quadrem specialists, to facilitate electronic commerce with our strategic suppliers."

Newmont's eBusiness program has targeted integration projects with global and regional strategic suppliers. By the end of 2001, the company expects to be transacting with more than 75 suppliers, located around the world. Newmont plans to integrate in three more regions in 2002: Bolivia, Uzbekistan and Canada. With its proposed merger with Franco-Nevada Mining Corporation Ltd. (TSE:FN) and Normandy Mining Ltd. (AUS: NDY), Newmont will integrate its expanded Australian operations into the Quadrem platform in anticipation of future procurement savings.

"As Quadrem continues to grow as a successful and well utilized Marketplace, we fully expect to see our trading partners experience exciting developments that drive additional value, as in Newmont's case," commented Charlie Jackson, Quadrem COO. "This global mining company clearly sees the benefits of Quadrem and we look forward to working with them to ensure they continue to enjoy success."
