During the first quarter of 2003, CIBC adopted Emerging Issues Task Force Issue No. 02-3, "Issues Involved in Accounting for Derivative Contracts Held for Energy Trading and Risk Management Activities (EITF 02-3). Under EITF 02-3, recognition of a trading profit at inception of a derivative transaction is prohibited unless the fair value of that derivative is obtained from a quoted market price, supported by comparison to other observable market transactions, or based upon a valuation technique incorporating observable market data. The initial adoption of EITF 02-3 in the first quarter of 2003 was not material to CIBC's consolidated financial statements.
