(B) Stock Acquisition Rights with Exercise Price Denominated in U.S. Dollars

The Exercise Price shall be initially the U.S. dollar amount obtained by dividing the average of the Closing Prices for the ten (10) consecutive trading days (excluding days on which there is no Closing Price) immediately prior to the allotment date of such Stock Acquisition Rights (hereinafter referred to as the Reference Yen Price) by the average of the exchange rate quotations by a leading commercial bank in Tokyo for selling spot U.S. dollars by telegraphic transfer against yen for such ten (10) consecutive trading days (hereinafter referred to as the Reference Exchange Rate) (any fraction less than one (1) cent arising as a result of such calculation shall be rounded up to the nearest one (1) cent); provided, however, that if the Reference Yen Price is lower than either (a) the average of the Closing Prices for the thirty (30) consecutive trading days (excluding days on which there is no Closing Price) commencing forty-five (45) trading days immediately before the date (being the allotment date of Stock Acquisition Rights) on which the Corporation fixes the Exercise Price, or (b) the Closing Price on the allotment date of Stock Acquisition Rights (if there is no Closing Price on such date, the Closing Price on the immediately preceding trading day), the Exercise Price shall be the U.S. dollar amount obtained by dividing the higher price of (a) or (b) above by the Reference Exchange Rate (any fraction less than one (1) cent arising as a result of such calculation shall be rounded up to the nearest one (1) cent).

(ii) Adjustment of Exercise Price

In the event that the Corporation conducts a stock split (including free distribution of shares (*musho-wariate*)) or consolidation of the Common Stock after the allotment date of Stock Acquisition Rights, the Exercise Price shall be adjusted in accordance with the following formula, and any fraction less than one (1) yen or one (1) cent resulting from the adjustment shall be rounded up to the nearest one (1) yen or one (1) cent.

$$\begin{array}{l} \text{Exercise Price} \\ \text{after adjustment} \end{array} = \begin{array}{l} \text{Exercise Price} \\ \text{before adjustment} \end{array} \times \begin{array}{l} 1 \\ \text{Ratio of split or consolidation} \end{array}$$

In addition, in the case of a merger with any other company, corporate split or reduction of the amount of capital of the Corporation, or in any other case similar thereto where an adjustment of Exercise Price shall be required, in each case after the allotment date of Stock Acquisition Rights, the Exercise Price shall be adjusted appropriately to the extent reasonable.

(4) Period during which Stock Acquisition Rights May be Exercised

The period during which Stock Acquisition Rights may be exercised will be the period from the day on which one (1) year has passed from the allotment date of Stock Acquisition Rights to the day on which ten (10) years have passed from such allotment date.

(5) Conditions for the Exercise of Stock Acquisition Rights

(iii) Conditions for the exercise of Stock Acquisition Rights other than the conditions referred to above shall be determined by the Board of Directors of the Corporation.

(6) Mandatory Repurchase of Stock Acquisition Rights

Not applicable.

(7) Matters concerning the Amount of Capital and the Additional Paid-in Capital Increased by the Issue of the Shares upon Exercise of Stock Acquisition Rights

(i) The amount of capital increased by the issue of the shares upon exercise of Stock Acquisition Rights shall be the amount obtained by multiplying the maximum limit of capital increase, as calculated in accordance with the provisions of Paragraph 1, Article 40 of the Company Accounting Regulations, by 0.5, and any fraction less than one (1) yen arising as a result of such calculation shall be rounded up to the nearest one (1) yen.

(ii) The amount of additional paid-in capital increased by the issue of the shares upon exercise of Stock Acquisition Rights shall be the amount obtained by deducting the capital to be increased, as provided in (i) above, from the maximum limit of capital increase, as also provided in (i) above.

(2) Reasons for Proposal

Since 2002, essentially the same proposal has been submitted for approval. Last year, the proposal was accepted by shareholders holding 44.3% of voting shares. A nearly 50% in-favor vote in the last year means that a large number of shareholders have a strong desire for disclosing the individual remuneration of the top five (5) Directors.

The Board of Directors says that it is sufficient to disclose the total amount of remuneration for Directors and Corporate Executive Officers as presently made.

The approximate amount of remuneration paid to Outside Directors can be estimated based upon the limit of liability for damages in derivative actions. However, considered several orders of magnitude larger than the remuneration paid to Outside Directors, remuneration paid to the three Corporate Executive Officers including the CEO, who are also Directors, is unclear in total or individually.

Disclosing the remuneration paid to individual directors is the global trend, not to mention U.S. rules requiring companies to individually disclose the remuneration paid to the top five directors of a company. To increase management transparency, it is essential to disclose the individual

remuneration of at least the top five (5) Directors, in accordance with global trends and voices of a large number of shareholders. We are convinced that such disclosure will increase our corporate value.

< Opinion of the Board of Directors of the Corporation >

The Board of Directors of the Corporation opposes the proposal.

The Corporation has taken various measures within the framework of the Commercial Code to separate the role of Executive Officer and Director and to strengthen the Corporation's Corporate Governance, including the introduction of the Executive Officer system in 1997, which is unique to the Corporation. In addition, upon completion of the ordinary general meeting of shareholders held in 2003, the Corporation adopted the new corporate governance system under the Commercial Code referred to as the Company with Committees system. As a result, three statutory committees were established: the Nominating Committee, the Audit Committee, and the Compensation Committee, and a majority of members of each of those committees consists of outside Directors. Corporate Executive Officers were also established under this new corporate governance system. Under this committee system, the amounts of remuneration for each Director and Corporate Executive Officer are determined by the Compensation Committee, and the basic policy regarding remuneration for the Directors and the Corporate Executive Officers as determined by the Compensation Committee has been disclosed in the Corporation's Business Report.

The aggregate amount of remuneration paid to the Directors and the Corporate Executive Officers by the Corporation has been disclosed to all shareholders in the Corporation's Business Report with a breakdown of fixed remuneration, bonuses linked to business results, and retirement allowances paid to both groups of Directors and Corporate Executive Officers. In addition, in the basic policy regarding remuneration for Directors and Corporate Executive Officers, the Corporation clarifies that the decision on remuneration is an objective decision that is based on research by a third party regarding remuneration of management of both domestic and foreign companies. Moreover, the Corporation has concretely disclosed a standard for the determination of the amounts of bonus linked to business results. Starting from the fiscal year ended March 31, 2006, for the purpose of realizing remuneration linked to business results and shareholder value, the Corporation has repealed the retirement allowance system and introduced a retirement shares allowance system linked to the Corporation's share price. (Please refer to pages 18 and 19.)

The Board of Directors believes that the Corporation's current procedure that discloses the aggregate amount of remuneration for Directors and Corporate Executive Officers and clarifies the standard of distribution is adequate from the standpoint of existing law, business practice and corporate governance.

The Board of Directors opposes the establishment of the provision under this proposal that forces the Directors to disclose individual remuneration, while the Corporation will continue to disclose beneficial information for our shareholders and investors.

Note 2: The Corporation does not pay bonuses linked to business results to Directors who do not concurrently serve as Corporate Executive Officers.

Note 3: The amount that the Corporation plans to pay as bonuses linked to business results will be paid in June 2008, but excludes the amount paid in June 2007 as bonuses linked to business results for the fiscal year ended March 31, 2007 (a total of ¥759 million for 7 Corporate Executive Officers).

Note 4: The amount of Retirement Allowances includes both the amount that will be paid to the director who will resign his office in June 2008 and the amount paid to two directors who resigned their offices during the period from the day after the Ordinary General Meeting of Shareholders held in the previous year, June 22, 2007 to the end of fiscal year 2007. Of the amount the Corporation expects to pay as Retirement Allowances, the amount to be paid under the Phantom restricted stock plan will be calculated using the market price of the Corporation's common stock at the time of resignation. Note 5: In addition to the above, during the fiscal year under review the Corporation issued Stock Acquisition Rights for the purpose of granting stock options to Directors and Corporate Executive Officers and recorded ¥18 million for Directors (¥18 million for Outside Directors) and ¥787 million for Corporate Executive Officers in expenses.
