Shares cannot be voted at the meeting unless the owner is present in person or by proxy. All properly executed and unrevoked proxies in the accompanying form that are received in time for the meeting will be voted at the meeting or any adjournment thereof in accordance with instructions thereon, or if no instructions are given, will be voted "FOR" the election of the named nominees as Directors of the Company, "FOR" the ratification of Ernst and Young LLP as the Company's independent auditors for the year ending December 31, 2002, and in accordance with the judgment of the persons appointed as proxies with respect to other matters which properly come before the Annual Meeting. Any person giving a proxy may revoke it by written notice to the Company at any time prior to exercise of the proxy. In addition, although mere attendance at the Annual Meeting will not revoke the proxy, a stockholder who attends the meeting may withdraw his or her proxy by voting in person. Directions to withhold authority for any Director nominees, abstentions and broker non-votes will be counted for purposes of determining the presence or absence of a quorum for the transaction of business at the Annual Meeting.

The Annual Report to Stockholders of the Company (which does not form a part of the proxy solicitation materials), on Form 10-KSB (the "Form 10-KSB") with the financial statements of the Company for the fiscal year ended December 31, 2001, is being distributed concurrently herewith to stockholders.

PROPOSAL 1

ELECTION OF DIRECTORS

Edgar Filing: DOR BIOPHARMA INC - Form DEF 14A

Unless otherwise directed, the persons appointed in the accompanying form of proxy intend to vote at the Annual Meeting for the election of the nine nominees named below as directors of the Company to serve until the next annual meeting of stockholders of the Company or until their successors have been duly elected and qualified. If any nominee is unable to be a candidate when the election takes place, the shares represented by valid proxies will be voted in favor of such substitute nominee as the Board of Directors recommends or to allow the vacancy to remain open until filled by the Board, as the Board recommends. The Board of Directors does not currently anticipate that any nominee will be unable to be a candidate for election.

The Board of Directors currently has nine members, all of whom are nominees for re-election. Each Director will serve until the next annual meeting of stockholders of the Company or until his successor has been duly elected and qualified, unless he dies, resigns or is removed from office prior to that time. Six of the nominees were elected to the Board of Directors by the stockholders at the 2001 annual stockholders meeting on November 29th. Dr. Colin Bier, Peter Kliem and Guy Rico were elected to the Board pursuant to the terms of the merger agreement between the Company and Corporate Technology Development, Inc. ("CTD") approved by the Company's stockholders on November 29, 2001.

The nine nominees who receive the greatest number of "FOR" votes of the Company's outstanding common stock and Series B convertible preferred stock, voting together as a single class, cast at the Annual Meeting will be elected as directors. As a result, abstentions and broker non-votes will not affect the election of directors. Stockholders are not permitted to cumulate their votes in the election of directors.

Section 16(a) Beneficial Ownership Reporting Compliance

The Company's directors and executive officers, and persons who beneficially own more than 10% of a registered class of its equity securities, must file initial reports of ownership and reports of changes in ownership of any equity securities of DOR with the Securities and Exchange Commission. Copies of the reports must be furnished to the Company. To the company's knowledge, based solely on review of the copies of such reports furnished to it (and on written representations by certain persons that no such reports were required for them), all persons subject to these reporting requirements filed the required reports on a timely basis with respect to the Company's most recent fiscal year other than Dr. Bier and Mr. Kanzer. Inadvertently, the Form 5 of Dr. Bier, reporting 2 transactions, and Form 5 of Mr. Kanzer, reporting 2 transactions, for fiscal year 2001 were filed late.

Board and Committee Meetings

During the year ended December 31, 2001, the Board of Directors held seven meetings. During 2001, each of the current members of the Board of Directors, other than Steve Thornton, attended at least 75 percent of all of the Board meetings, while a director of the Company, and meetings of the committees on which he served, while a member of those committees. In addition to formal meetings, the Board of Directors and the members of the Executive, Strategy, Merger & Acquisition ("SM&A"), Audit and Compensation Committees conferred frequently on an informal basis.

The Compensation Committee of the Board of Directors determines the salaries and incentive compensation of the officers of the Company and provides recommendations for the salaries and incentive compensation of the other employees and consultants of DOR. The Compensation Committee also administers various incentive compensation, stock and benefit plans. Dr. Rubin and Mr. Kanzer served on the Compensation Committee, with Dr. Rubin as the Chairman, during 2001. Effective December 5, 2001, Mr. Rico, Dr. Tempero and Dr. Rubin were selected as the new Compensation Committee members, with Mr. Rico serving as Chairman. The Compensation Committee held two meetings during fiscal year 2001.

The Executive Committee of the Board of Directors acted on the matters referred to it by the full Board of Directors. Dr. Tempero, the Chairman of the Executive Committee, Mr. Thornton and Mr. Rosen were the Executive Committee members during 2001. The Executive Committee held two meetings during fiscal year 2001. Effective December 5, 2001, the Executive Committee was dissolved.

The SM&A Committee of the Board of Directors acted on any matters referred to it by the full Board of Directors related to current or potential mergers or acquisitions. Dr. Tempero, the Chairman of the SM&A Committee, Richard Dunning and Dr. Rubin were the members of the M&A Committee during 2001. The SM&A Committee held 10 meetings during fiscal year 2001. Effective December 5, 2001, the Strategy, Merger and Acquisition Committee was dissolved.

The Audit Committee of the Board of Directors reviews, acts on and reports to the Board of Directors with respect to various auditing and accounting matters, including the selection of the Company's independent auditors, the scope of the annual audits, fees to be paid to the auditors, the

Edgar Filing: DOR BIOPHARMA INC - Form DEF 14A

performance of the Company's auditors and the accounting practices of the Company. Mr. Dunning, Chairman of the Audit Committee, and Mr. Kanzer are currently the Audit Committee members. Dr. Shaw served on the Audit Committee from May 17, 2000 until November 29, 2001 and was replaced by Mr. Kanzer effective December 5, 2001. The Audit Committee held four meetings during fiscal year 2001. Mr. Dunning and Mr. Kanzer are independent as defined by Section 121(A) of the American Stock Exchange's listing standards.

The Governance Committee of the Board of Directors sets out the basic principles of how the Company is managed and sets the framework for the operations of the Board. Best Corporate Governing practices, such as the establishing and review of committees, annual review of director performance and disclosure of information to shareholders are under the jurisdiction of the committee. In addition, the committee recommends to the the board nominees for election as directors. The committee was established on December 5, 2001 with Mr. Kliem and Mr. Thornton as committee members; Mr. Kliem is the chairman.

Report of the Audit Committee of the Board of Directors

The Audit Committee assists the Board of Directors in overseeing the Company's financial reporting process. Management, however, has the primary responsibility for the financial reporting process, including the systems of internal controls, and management, not the Audit Committee, has the responsibility to determine that the Company's financial statements are complete and accurate and in accordance with accounting principles generally accepted in the United States. In fulfilling its oversight responsibilities, the Committee reviewed the audited financial statements with management including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements.

The Committee reviewed with the independent auditors, who are responsible for expressing an opinion on the conformity of those audited financial statements with accounting principles generally accepted in the United States, their judgments as to the quality, not just the acceptability, of the Company's accounting principles and such other matters as are required to be discussed with the Committee under auditing standards generally accepted in the United States (including Statement on Auditing Standards No. 61). In addition, the Committee has discussed with the independent auditors the auditors' independence from management and the Company including the matters in the written disclosures required by the Independence Standards Board and considered the compatibility of non-audit services with the auditors' independence.

The Committee discussed with the Company's independent auditors the overall scope and plans for the audits. However, the responsibility to plan and conduct the audits is the duty of the independent auditors, not the Audit Committee. The Committee meets with the independent auditors, with and without management present, to discuss the results of their examinations, their evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting.

In reliance on the reviews and discussions referred to above, the Committee recommended to the Board of Directors that the audited financial statements be included in the Annual Report on Form 10-KSB for the year ended December 31, 2001 for filing with the Securities and Exchange Commission. The Committee and the Board also recommended, subject to stockholder approval, the selection of the Company's independent auditors.

THE AUDIT COMMITTEE MEMBERS

Richard Dunning, Chairman
Steve H. Kanzer

Notwithstanding anything to the contrary set forth in any of the Company's previous or future filings under the Securities Act of 1933 as amended, or the Securities Exchange Act of 1934, as amended, that

7

might incorporate this Proxy Statement, the Audit Committee Report and reference to the independence of the Audit Committee members are not deemed filed with the SEC and are not deemed incorporated by reference into any of those prior or future filings.

Compensation of Directors

Edgar Filing: DOR BIOPHARMA INC - Form DEF 14A

Cash Compensation. During 2001, directors received a \$2,000 fee for attending quarterly meetings of the Board of Directors in person and \$500 for telephonic attendance at such meetings and for attendance at committee meetings. Effective December 5, 2001, the fee structure was amended to a \$1,000 fee for attending quarterly meetings and \$250 for telephonic attendance of board meetings and for attendance at committee meetings. Directors are also reimbursed for travel expenses incurred in connection with performing their duties as directors of the Company.

Director Fee Option Grant Program. Each non-employee director has the right to apply all or a portion of his annual cash retainer fee to the acquisition of a special option grant under the Director Fee Option Grant Program pursuant to the Company's Amended and Restated 1995 Omnibus Incentive Plan. The grant is automatically made on the first trading day in January following the filing of the stock-in-lieu-of-cash election and will have an exercise price per share equal to one-third of the fair market value of the option shares on the grant date. The number of shares subject to the option is determined by dividing the amount of the retainer fee applied to the program by two-thirds of the fair market value per share of common stock on the grant date. As a result, the total spread on the option (the fair market value of the option shares on the grant date less the aggregate exercise price payable for those shares) equals the portion of the retainer fee invested in that option. The option becomes exercisable for 50% of the option shares upon the director's completion of six months of Board service in the calendar year in which the option is granted. The option becomes exercisable for the balance of the option shares exercisable in six successive equal monthly installments upon the director's completion of each additional month of Board service during that calendar year. The option remains exercisable until the earlier of (1) the expiration of the ten-year option term or (2) the end of the three-year period measured from the date of the director's cessation of Board service. The option will become immediately exercisable in its entirety should the director die or become permanently disabled while a Board member. In addition, upon the successful completion of a hostile takeover, each option may be surrendered to the Company for a cash distribution per surrendered option share in an amount equal to the excess of (a) the takeover price per share over (b) the exercise price payable for such share.

Automatic Option Grant Program. As amended by stockholder approval at the Company's November 29, 2001 annual meeting, each non-employee director automatically receives a fully vested

10

option to purchase 50,000 shares of the Company's common stock at the commencement of Board service. In addition, on the date of each annual meeting of the DOR stockholders, each non-employee director who continues to serve on the Board is automatically granted an option to purchase an additional 10,000 shares of common stock. Each 10,000 share option granted under the Automatic Option Grant Program is immediately exercisable for any or all of the option shares. However, any shares purchased under the option are subject to repurchase by the Company, at the exercise price paid per share, upon the director's cessation of Board service prior to completion of one year of Board service measured from the option grant date. The exercise price per share of each option granted under the Automatic Option Grant Program equals the fair market value per share of common stock on the date of grant. Under the Automatic Option Grant Program, both Guy Rico and Peter Kleim received an option to purchase 50,000 shares on December 5, 2001, the date of their appointment to the Board.

Discretionary Option Grants. On February 21, 2001, the Board granted a fully vested option to purchase 50,000 shares of the Company's common stock to each of the persons who were then non-employee Board members. These options vested immediately and have a term of ten years. Any shares purchased under the option are subject to repurchase by the Company, at the exercise price paid per share upon the optionee's cessation of service. The terms on which such repurchase right shall be exercisable (including the period and procedure for exercise and the appropriate vesting schedule for the purchased shares) shall be established by the option plan administrator and set forth in a document evidencing such repurchase rights.

Consulting Agreement with Chairman. On May 17, 2000, the Company entered into a consulting agreement with Dr. Kenneth Tempero, as an independent consultant, to provide, on a non-exclusive basis, assistance and advice to the Company regarding its business, licensing opportunities, corporate partnering activities and research and development activities. Dr. Tempero was the Chairman of the Board of Directors until December 5, 2001. Pursuant to his consulting agreement, Dr. Tempero also received an option to purchase up to 12,000 shares of common stock at an exercise price of \$3.25 per share, of which options to purchase 3,000 shares of common stock vested every quarter after the date of the consulting agreement. PROPOSAL 2 RATIFICATION OF INDEPENDENT AUDITORS

Upon the recommendation of the Audit Committee, the Board of Directors appointed Ernst & Young LLP, or E&Y, independent auditors, as auditors of the Company to serve for the year ending December 31, 2002, subject to the ratification of such appointment by stockholders at the Annual Meeting. The affirmative vote of the holders of a majority of the voting power of the shares of the Company's common stock, and series B convertible preferred stock, voting together as a single class, entitled to vote and present in person or represented by proxy at the Annual Meeting is required to ratify the appointment of the auditors. Abstentions will be considered present and entitled to vote with respect to this matter and therefore will have the effect of votes against the proposal. Broker non-votes will not be considered present and entitled to vote with respect to this matter and therefore will have no effect on the voting on the proposal.

A representative of E&Y is expected to be available at the annual meeting, will have the opportunity to make a statement if he or she desires to do so, and will be available to respond to appropriate questions.

On November 2, 2000, the Company engaged E&Y as its independent auditors and dismissed PricewaterhouseCoopers LLP, or PwC. The decision to change independent auditors was recommended and approved by the Audit Committee.

PwC's reports on the Company's financial statements for the fiscal years ended December 31, 1998 and 1999 did not contain an adverse opinion or disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope or accounting principle.

In connection with its audits for the fiscal years ended December 31, 1998 and 1999 and through November 2, 2000, there were no disagreements with PwC on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which, if not resolved to PwC's satisfaction, would have caused them to make reference to the subject matter of the disagreements in their report on the financial statements for such years.

During the fiscal years ended December 31, 1998 and 1999 and through November 2, 2000 there were no reportable events except that in connection with its review of the June 30, 2000 financial statements, PwC reported a material weakness in the Company's internal control

Edgar Filing: DOR BIOPHARMA INC - Form DEF 14A

structure relative to the employees' of the Company not having expertise in the area of generally accepted accounting principles and financial reporting procedures. The Company did not have a certified public accountant on its full-time staff at that time. DOR has since hired a certified public accountant to serve as the Company's corporate controller. The Company's management and Audit Committee believe that the concerns expressed by PwC were adequately addressed with the hiring of the certified public accountant as controller. Furthermore, the Company's management and Audit Committee do not believe that the reported material weakness in the Company's internal control structure relative to the employees' of the Company not having expertise in the area of generally accepted accounting principles and financial reporting procedures had an effect on the Company's financial statements.

Prior to engaging E&Y, the Company did not consult E&Y with respect to the application of accounting principles to a specific completed transaction or contemplated transaction, or the type of audit opinion that might be rendered on the Company's financial statements. The Company provided a copy of PwC's letter reporting the material weakness to E&Y and authorized PwC to respond fully to the inquiries of E&Y regarding the letter.
