The share issuance reported on Table I reflects shares issued upon the exercise of options granted on June 1, 2007, which, if unexercised, would have expired on June 1, 2014. The option exercises are reported on Table II. These option exercises were pursuant to a net issuance arrangement effected under the issuer's equity incentive plan. The number of shares issued pursuant to the net issuance arrangement was calculated as follows: the option exercise price (\$12.37) was subtracted from the April 16, 2014 market close price (\$13.84), and this net amount (\$1.47) was then multiplied by the number of options (15,000), with the resulting amount then divided by the market close price to result in a net issuance of 1,594 shares to the optionee. The 13,406 shares underlying the remaining portion of the options are not available for reissuance, and no shares are sold into the market as part of the exercise in connection with a net issuance program.

Note: File three copies of this Form, one of which must be manually signed. If space is insufficient, see Instruction 6 for procedure. Potential persons who are to respond to the collection of information contained in this form are not required to respond unless the form displays a currently valid OMB number.
