Establishment of Performance-Based Target Bonuses and Long-Term Incentive Opportunities

On January 11, 2008, the Compensation Committee (the “Committee”) of the Board of Directors of the Company established performance-based target bonuses and long-term incentive opportunities for its management team, including, without limitation, its principal executive officer, principal financial officer and the other executive officers listed in the table below, effective for the Company’s 2008 fiscal year. Cash awards paid under such arrangement are designed to provide eligible participants with incentive compensation based upon the achievement of pre-established performance measures. Under such arrangement, awards are variable, and are determined based on a scale establishing specific weighting of certain financial and business objectives of the Company. The financial objectives include earnings before interest, taxes, depreciation and amortization. Depending on the applicable officer, the business objectives include, without limitation: (i) achieving certain strategic objectives; (ii) achieving certain per unit operating costs; (iii) achieving pre-established levels of selling, general and administrative expenses; and (iv) achieving customer specific initiatives.

The potential business objective target bonus (the “Personal Business Objective Bonus”) for each executive begins payout at achievement of 90% of a pre-established financial performance goal for the Company (the “Company Financial Performance Goal”) and achievement of at least 75% of individual strategic, personal and operational goals. The financial objective target bonus (the “Company Financial Objective Bonus”) begins payout at achievement of 100% of the Company Financial Performance Goal, with 100% of the Company Financial Objective Bonus being earned at a target level of approximately 120% of the Company Financial Performance Goal (the “Target Objective”). If actual performance exceeds the Target Objective, the Company Financial Objective Bonus will continue to increase up to a maximum payout for achievement of (i) 175% of the Company Financial Performance Goal for the principal executive officer and principal financial officer and (ii) 150% of the Company Financial Performance Goal for all other executive officers. The long-term incentive opportunities are obtained with achievement at 100% of the Company Financial Performance Goal and are primarily intended to be delivered through annual restricted stock grants vesting over a four-year period. No awards will be earned if threshold performance levels are not met. The following table sets forth the current base salary of each listed executive officer and the amounts that can be attained by each such executive officer under the aforementioned arrangement, in the

case of the Personal Business Objective Bonus and the long-term incentive opportunity, at achievement of 100% of the Company Financial Performance Goal, and in the case of the Company Financial Objective Bonus, at achievement of the Target Objective:

<b>Name</b>	<b>Title</b>	<b>Current Base Salary</b>	<b>Approved Maximum Personal Business Objective Bonus Opportunity</b>	<b>Approved Company Financial Objective Bonus Opportunity Payable at Target Objective (1)</b>	<b>Approved Maximum LTI Opportunity</b>
