FRANKLIN TEMPLETON INVESTMENTS

GAIN FROM OUR PERSPECTIVE

Franklin Templeton's distinct multi-manager structure combines the specialized expertise of three world-class investment management groups: Franklin, Templeton and Mutual Series.

SPECIALIZED EXPERTISE

Each of our portfolio management groups operates autonomously, relying on its own research and staying true to the unique investment disciplines that underlie its success.

FRANKLIN. Founded in 1947, Franklin is a recognized leader in fixed income investing and also brings expertise in growth- and value-style U.S. investing.

TEMPLETON. Founded in 1940, Templeton pioneered international investing and, in 1954, launched what has become the industry's oldest global fund. Today, with offices in over 25 countries, Templeton offers investors a global perspective.

MUTUAL SERIES. Founded in 1949, Mutual Series is dedicated to a unique value investing, searching aggressively for opportunity among what many are undervalued stocks, as well as arbitrage situations and distressed securities.

TRUE DIVERSIFICATION

Because our management groups work independently and adhere to different investment approaches, Franklin, Templeton and Mutual Series funds have distinct portfolios. That's why our funds can be used to build diversified allocation plans covering every major asset class.

RELIABILITY YOU CAN TRUST

At Franklin Templeton Investments, we seek to consistently provide investors with exceptional risk-adjusted returns over the long term, as well as accurate and personal service that has helped us become one of the most trusted names in financial services.

IMPORTANT NOTICE TO SHAREHOLDERS

CHANGE IN NON-FUNDAMENTAL INVESTMENT POLICY

On December 1, 2005, the Fund's Board of Directors approved a change in non-fundamental investment policy to permit investment of up to 15% of the Fund's assets in a single issuer. The Fund formerly had a non-fundamental operating policy that permitted the Fund's Investment Manager to invest up to 10% of the Fund's assets in a single issuer.

Management believes that this change is in the best interests of the Fund and its shareholders because it gives the Fund greater investment flexibility to pursue its investment objective of capital appreciation in light of current market conditions.

Enabling the Fund to invest a greater portion of its assets in a single issuer, and thus potentially fewer issuers, involves potential risks, including the risk that changes in the value of a single issuer's securities may have a greater effect on the Fund's performance and share price.

REPURCHASE PROGRAM

In December 2004, the Board of Directors of the Fund authorized management to re-implement the Fund's open-market share repurchase program, which was originally implemented in October 1997. The Fund's Board of Directors had discontinued the open-market share repurchase program in May 2002, in connection with the Fund's previously conducted tender offers. Under the program, the Fund may purchase, from time to time, shares of the Fund's common stock in open-market transactions, at the discretion of the Fund's Investment Manager.

Dear Shareholder:

This annual report for Templeton Dragon Fund covers the fiscal year ended December 31, 2005.

PERFORMANCE OVERVIEW

Templeton Dragon Fund posted cumulative total returns of +14.08% in market price terms and +21.20% in net asset value terms for the year under review. You can find the Fund's long-term performance data in the Performance Summary beginning on page 7.

ECONOMIC AND MARKET OVERVIEW

Economic growth was strong in the region where the Fund invests. As a result of a new and more detailed economic survey, the Chinese government raised its 2004 gross domestic product (GDP) estimate by US\$284 billion to almost US\$2 trillion in November, an increase of about 17%. (1) Based on this revision, China moved ahead of Italy to become the world's sixth largest economy. Despite China's strong economic growth, inflation remained benign, averaging 1.8% for the 12-month period. (1) Although the yuan appreciated against the U.S. dollar by 2.5% since the beginning of the year, China's trade sector experienced robust growth, with the trade surplus surging 333% to US\$90.8 billion in the first 11 months of 2005 compared with the same period in 2004 (year-over-year). (2) Foreign direct investment (FDI) into China totaled US\$53.1

billion in the same period, down 1.9% year-over-year. (1) However, pledged FDI was up 24.0% year-over-year to US\$167 billion, indicating strong investment flows into China from foreign investors. (1)

Hong Kong reported favorable economic data during the period. Third quarter 2005 GDP growth was 8.2% year-over-year, bringing growth for the first nine months of the year to 7.2%. (3) Key drivers included strong exports and domestic demand. The government expects the economy to expand 7% for the entire year. (3) Unemployment was on a downward trend, ending November at 5.3%. (3) Inflation remained relatively mild, increasing 1.7% year-over-year in November. (3) This led the government to lower its 2005 inflation forecast to 1.2% from 1.5%, ending nearly six years of deflation. (3) Property prices came under pressure as

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-CSR

investors remained cautious in view of rising interest rates. Politics came to the forefront during the year with the resignation of Tung Chee-Hwa as chief executive. He was replaced by Donald Tsang.

In Taiwan, a rebound in exports supported third quarter 2005 GDP expansion to an annualized 4.4%, an acceleration from the revised annualized 3.0% recorded in the second quarter.(4) Exports rose 7.1% year-over-year during the quarter, compared to 6.1% in the preceding quarter.(5) Private consumption also supported the economic recovery, increasing 3.7%, higher than the 3.0% recorded in the second quarter.(4) Inflation remained under control as the central bank maintained a tightening policy, gradually increasing interest rates to reverse the island's negative real interest rates. The government forecast inflation to increase 2.3% in 2005 and 1.3% in 2006.(4) Politically, the ruling democratic progressive party lost significant support to the opposition party Kuomintang (KMT) in local elections.

Although equity markets in the greater China region started 2005 on a weak note, market sentiment turned positive in the latter part of the year with the Morgan Stanley Capital International (MSCI) China Index returning +19.77% in U.S. dollar terms.(6) China continued to attract new funds, making 2005 a record year for new equity issuance. Although the Hong Kong stock market was adversely affected by rising interest rates for most of the period, investors seemed to react favorably to robust economic growth, falling unemployment and news of a possible halt to interest rate hikes in the U.S.

The Taiwan market had a volatile year as poor political sentiment, slow economic growth in the first half of the year and a scare in the credit card business affected the banking sector. However, apparently attracted by cheap valuations and conclusion of the local elections, investors returned in the last quarter of the year, which allowed the Taiwan market to end the period in positive territory.

INVESTMENT STRATEGY

Our investment strategy employs a fundamental, value-oriented, long-term approach. In selecting companies for investment, we will consider overall growth prospects, competitive positions in export markets, technologies, research and development, productivity, labor costs, raw material costs and sources, profit margins, returns on investment, capital resources, government regulation, management and other factors in comparison to other companies around the world that we believe are comparable.

Our approach to selecting investments emphasizes fundamental company-by-company analysis (rather than broader analyses of specific industries or sectors of the economy), to construct an "action list" from which we make our buy decisions. Although we will consider historical value measures, the primary factor in selecting securities for investment by the Fund will be the company's current price relative to its long-term earnings potential.

MANAGER'S DISCUSSION

In the year under review, our stock selection generally helped the Fund's performance relative to the MSCI China Index, as we held many stocks that were not part of the index. The Fund's overweighted positions in the food and staples retailing (not in the index) and technology hardware and equipment industries were among the largest contributors to relative performance. (7) Stock selection in the semiconductors and semiconductor equipment industry and an underweighted allocation to the transportation sector further supported performance. (8) Within the food and staples retailing and technology hardware and equipment industries, our positions in Dairy Farm International Holdings and Acer, which are not in the index, as well as no exposure to ZTE, had the greatest positive impact. Dairy Farm operates supermarkets, drug stores, convenience stores and restaurants in Asia. The stock performed extremely well mainly due to greater private consumption in the region.

(7) The technology hardware and equipment sector comprises communications

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-CSR

equipment, computers and peripherals, electronic equipment and instruments, office electronics, and semiconductors and semiconductor equipment in the SOI.

- (8) The transportation sector comprises air freight and logistics, airlines, and transportation infrastructure in the SOI.

4 | Annual Report

In the semiconductors and semiconductor equipment industry, the Fund's holdings in Taiwanese semiconductor companies, Siliconware Precision Industries and Taiwan Semiconductor Manufacturing, as well as Samsung Electronics in South Korea, were significant performance contributors on an absolute basis, as well as relative to the index. These stocks performed well and are not index components. The Fund's lack of exposure to transportation sector stocks such as Guangshen Railway, China Shipping Development and China Southern Airlines helped Fund performance relative to the index since those stocks underperformed.

The largest negative impact on relative performance resulted from the Fund's underweighted exposure to the energy and telecommunication services sectors as well as an overweighted position in commercial banks. (9) Stocks that hurt relative performance the most included underweighted positions in PetroChina, China Mobile and no holding in CNOOC. We increased the Fund's investments in PetroChina and China Mobile during the reporting period, but did not invest in CNOOC. We sought to increase the Fund's energy sector allocation via what we considered the better valued PetroChina. The Fund's position in HSBC Holdings, which is not in the index, caused the greatest negative impact in the commercial banks sector. HSBC has a large international presence, and we believe it is in a position to benefit from the growing global demand for banking services in the long term.

During the reporting period, the Fund's largest investments were in China H shares (Hong Kong-listed Chinese companies). Key purchases included China Construction Bank, one of the country's largest commercial banks; PetroChina, a dominant player in the oil, gas and consumable fuels industry; and Air China, the national flag carrier. Elsewhere, the Fund made selective investments in South Korea and the U.K. These included LG, a prominent multi-holding company with a broad product line that ranges from basic chemicals to LCD televisions. The LG brand is fast becoming a household name in China. We also added shares of HSBC Holdings, one of the largest banking and financial services organizations in the world.

On the other hand, we reduced the Fund's exposure to selective Hong Kong and Taiwanese companies. Major partial sales included Hang Lung Group, a Hong Kong real estate company; Delta Electronics, a leading Taiwanese elec-

tronic equipment manufacturer; and The Hongkong and Shanghai Hotels, the owner and operator of seven hotels including the prestigious Peninsula Hotel in Hong Kong. One of the Fund's largest sales was Henderson China Holdings as a result of its privatization by the parent company, Henderson Land. The company is

involved in property development and property investment in China.

Thank you for your continued participation in Templeton Dragon Fund. We look forward to serving your future investment needs.

PERFORMANCE SUMMARY AS OF 12/31/05

Your dividend income will vary depending on dividends or interest paid by securities in the Fund's portfolio, adjusted for operating expenses. Capital gain distributions are net profits realized from the sale of portfolio securities. Total return reflects the Fund's dividend income, capital gain distributions, if any, and any unrealized gains or losses. All total returns include reinvested distributions according to the terms specified in the Fund's dividend reinvestment and cash purchase plan and do not reflect any sales charges paid at inception or brokerage commissions paid on secondary market purchases. The performance table does not reflect any taxes that a shareholder would pay on Fund dividends, capital gain distributions, if any, or realized gains on the sale of Fund shares.

TEMPLETON DRAGON FUND, INC.

NOTES TO FINANCIAL STATEMENTS

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Templeton Dragon Fund, Inc. (the Fund) is registered under the Investment Company Act of 1940 as a non-diversified, closed-end investment company.

On May 29, 2002, the Fund's shareholders approved an Agreement and Plan of

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-CSR

Reorganization (the "Plan") that provides for the reorganization of the Fund from a Maryland corporation to a Delaware statutory trust. The completion of the reorganization is pending guidance from the National Tax Agency in Japan relating to the tax treatment of the Plan under Japanese laws with respect to the Fund's Japanese shareholders. If and when the reorganization is completed, the Delaware statutory trust will be the successor to the Fund.

The following summarizes the Fund's significant accounting policies.

A. SECURITY VALUATION

Securities listed on a securities exchange or on the NASDAQ National Market System are valued at the last quoted sale price or the official closing price of the day, respectively. Over-the-counter securities and listed securities for which there is no reported sale are valued within the range of the most recent quoted bid and ask prices. Securities that trade in multiple markets or on multiple exchanges are valued according to the broadest and most representative market. Investments in open-end mutual funds are valued at the closing net asset value.

Foreign securities are valued as of the close of trading on the foreign stock exchange on which the security is primarily traded, or the NYSE, whichever is earlier. If no sale is reported at that time, the foreign security will be valued within the range of the most recent quoted bid and ask prices. The value is then converted into its U.S. dollar equivalent at the foreign exchange rate in effect at the close of the NYSE on the day that the value of the foreign security is determined.

The Fund has procedures to determine the fair value of individual securities and other assets for which market prices are not readily available or which may not be reliably priced. Methods for valuing these securities may include: fundamental analysis, matrix pricing, discounts from market prices of similar securities, or discounts applied due to the nature and duration of restrictions on the disposition of the securities. Due to the inherent uncertainty of valuations of such securities, the fair values may differ significantly from the values that would have been used had a ready market for such investments existed. Occasionally, events occur between the time at which trading in a security is completed and the close of the NYSE that might call into question the availability (including the reliability) of the value of a portfolio security held by the Fund. If such an event occurs, the securities may be valued using fair value procedures, which may include the use of independent pricing services. All security valuation procedures are approved by the Fund's Board of Directors.

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. FOREIGN CURRENCY TRANSLATION

Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the exchange rate of such currencies against U.S. dollars on the date of valuation. Purchases and sales of securities, income and expense items denominated in foreign currencies are translated into U.S. dollars at the exchange rate in effect on the transaction

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-CSR

date. Occasionally, events may impact the availability or reliability of foreign exchange rates used to convert the U.S. dollar equivalent value. If such an event occurs, the foreign exchange rate will be valued at fair value using procedures established and approved by the Fund's Board of Directors.

The Fund does not separately report the effect of changes in foreign exchange rates from changes in market prices on securities held. Such changes are included in net realized and unrealized gain or loss from investments on the Statement of Operations.

Realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the recorded amounts of dividends, interest, and foreign withholding taxes and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in foreign exchange rates on foreign denominated assets and liabilities other than investments in securities held at the end of the reporting period.

C. FOREIGN CURRENCY CONTRACTS

When the Fund purchases or sells foreign securities it may enter into foreign exchange contracts to minimize foreign exchange risk from the trade date to the settlement date of the transactions. A foreign exchange contract is an agreement between two parties to exchange different currencies at an agreed upon exchange rate on a specified date. Realized and unrealized gains and losses on these contracts are included in the Statement of Operations.

The risks of these contracts include movement in the values of the foreign currencies relative to the U.S. dollar and the possible inability of the counterparties to fulfill their obligations under the contracts, which may be in excess of the amount reflected in the Statement of Assets and Liabilities.

D. INCOME TAXES

No provision has been made for U.S. income taxes because the Fund's policy is to continue to qualify as a regulated investment company under the Internal Revenue Code and to distribute to shareholders substantially all of its taxable income and net realized gains.

Foreign securities held by the Funds may be subject to foreign taxation. Foreign taxes, if any, are recorded based on the tax regulations and rates that exist in the foreign markets in which the Fund invests.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

E. SECURITY TRANSACTIONS, INVESTMENT INCOME, EXPENSES AND DISTRIBUTIONS

Security transactions are accounted for on trade date. Realized gains and losses on security transactions are determined on a specific identification basis. Interest income and estimated expenses are accrued daily. Dividend income is recorded on the ex-dividend date except that certain dividends from foreign securities are recognized as soon as the Fund is notified of the ex-dividend

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-CSR

date. Distributions to shareholders are recorded on the ex-dividend date and are determined according to income tax regulations (tax basis). Distributable earnings determined on a tax basis may differ from earnings recorded in accordance with generally accepted accounting principles. These differences may be permanent or temporary. Permanent differences are reclassified among capital accounts to reflect their tax character. These reclassifications have no impact on net assets or the results of operations. Temporary differences are not reclassified, as they may reverse in subsequent periods.

F. ACCOUNTING ESTIMATES

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

G. GUARANTEES AND INDEMNIFICATIONS

Under the Fund's organizational documents, its officers and directors are indemnified by the Fund against certain liabilities arising out of the performance of their duties to the Fund. Additionally, in the normal course of business, the Fund enters into contracts with service providers that contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

2. CAPITAL STOCK

In December 2004, the Board of Directors of the Fund authorized management to re-implement the Fund's open-market share repurchase program. Originally implemented in October 1997, the Fund's Board of Directors had discontinued the open-market share repurchase program in May 2002, in connection with the Fund's previously conducted tender offers. Under the program, the Fund may purchase, from time to time, shares of the Fund's common stock in open-market transactions, at the discretion of the Fund's investment manager.

TEMPLETON DRAGON FUND, INC.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

2. CAPITAL STOCK (CONTINUED)

At December 31, 2005, there were 100 million shares authorized (\$0.01 par value). During the year ended December 31, 2004, 50,373 shares were issued for \$857,852 from reinvested distributions. During the year ended December 31, 2005, there were no share transactions; all reinvested distributions were satisfied with previously issued shares purchased in the open market.

3. TRANSACTIONS WITH AFFILIATES

Franklin Resources, Inc. is the holding company for various subsidiaries that together are referred to as Franklin Templeton Investments. Certain officers and directors of the Fund are also officers and/or directors of the following subsidiaries:

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-CSR

SUBSIDIARY	AFFILIATION
Templeton Asset Management Ltd. (TAML) Franklin Templeton Services, LLC (FT Services)	Investment manager Administrative manager

A. MANAGEMENT FEES

The Fund pays an investment management fee to TAML based on the average weekly net assets of the Fund as follows:

ANNUALIZED FEE RATE	NET ASSETS
1.250%	Up to and including \$1 billion
1.200%	Over \$1 billion, up to and including \$5 billion
1.150%	Over \$5 billion, up to and including \$10 billion

1.050%	Over \$15 billion, up to and including \$20 billion
1.000%	In excess of \$20 billion

B. ADMINISTRATIVE FEES

The Fund pays an administrative fee to FT Services of 0.15% per year of the Fund's average weekly net assets, of which 0.10% is paid to Nomura Asset Management U.S.A. Inc., for sub-administrative services

4. EXPENSE OFFSET ARRANGEMENT

The Fund has entered into an arrangement with its custodian whereby credits realized as a result of uninvested cash balances are used to reduce a portion of the Fund's custodian expenses. During the year ended December 31, 2005, the custodian fees were reduced as noted in the Statement of Operations.

5. INCOME TAXES

For tax purposes, realized currency losses occurring subsequent to October 31, may be deferred and treated as occurring on the first day of the following fiscal year. At December 31, 2005, the Fund deferred realized currency losses of \$2,565.

The tax character of distributions paid during the years ended December 31, 2005 and 2004, was as follows:

	2005	2004
Distributions paid from:		
Ordinary income	\$18,394,047	\$ 6,171,637
Long term capital gain ...	10,579,409	15,009,844
	<u>\$28,973,456</u>	<u>\$21,181,481</u>

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-CSR

Net investment income differs for financial statement and tax purposes primarily due to differing treatments of foreign currency transactions.

Net realized gains (losses) differ for financial statement and tax purposes primarily due to differing treatments of wash sales and foreign currency transactions.

At December 31, 2005, the cost of investments, net unrealized appreciation (depreciation), undistributed ordinary income and undistributed long term capital gains for income tax purposes were as follows:

Cost of investments	\$ 498,948,196
	=====
Unrealized appreciation	\$ 359,038,159
Unrealized depreciation	(12,654,467)

Net unrealized appreciation (depreciation)	\$ 346,383,692

Undistributed ordinary income	\$ 12,095,657
Undistributed long term capital gains	8,645,845

Distributable earnings	\$ 20,741,502
	=====

6. INVESTMENT TRANSACTIONS

Purchases and sales of investments (excluding short term securities) for the year ended December 31, 2005, aggregated \$69,102,126 and \$64,853,103, respectively.

7. INVESTMENTS IN FRANKLIN INSTITUTIONAL FIDUCIARY TRUST MONEY MARKET PORTFOLIO

The Fund may invest in the Franklin Institutional Fiduciary Trust Money Market Portfolio (the Sweep Money Fund), an open-end investment company managed by Franklin Advisers Inc. (an affiliate of the investment manager). Management fees paid by the Fund are reduced on assets invested in the Sweep Money Fund, in an amount not to exceed the management and administrative fees paid by the Sweep Money Fund.

8. CONCENTRATION OF RISK

Investing in foreign securities may include certain risks and considerations not typically associated with investing in U.S. securities, such as fluctuating currency values and changing local and regional economic, political and social conditions, which may result in greater market volatility. In addition, certain foreign securities may not be as liquid as U.S. securities.

9. PREVIOUS LITIGATION

Pursuant to a settlement agreement which was announced on March 20, 2003, between the Fund and Harvard College, a former shareholder of the Fund, Harvard

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-CSR

Management Company, Inc. ("Harvard Management"), which is an investment advisor to Harvard College, and Steven Alperin, an officer of Harvard Management at the time (referred to collectively as "Harvard"), the Fund agreed to take, and the Board approved, the following actions, among other actions, which have already been carried out.

- o IN-KIND TENDER OFFERS--The Fund has applied to the SEC for an exemptive order allowing the Fund to make occasional, non-periodic tender offers, each for up to 20% of the Fund's outstanding shares at a price equal to 95% of net asset value per share as of the date the offer expires, to be paid entirely in kind through a pro rata distribution of marketable portfolio securities and available cash. Subject to certain conditions, the settlement required the Fund to commence such an in-kind tender offer for 20% of the Fund's shares within three months after obtaining the SEC exemption. The Fund has also been required under the settlement to conduct, on substantially identical terms, up to two additional in-kind tender offers under certain circumstances. There is no assurance that the SEC will issue the exemptive order, nor is it possible to predict the date when an exemptive order might be granted.

- o ADDITIONAL CASH TENDER OFFERS--If the SEC did not issue the exemptive order for in-kind tender offers by March 26, 2004, the settlement provided that the Fund could, but was not obligated to, conduct an additional cash tender offer, and possibly later follow-on cash tender offers, each for 15% of the Fund's outstanding shares at a price of 92.5% of net asset value per share as of the date the offer expires. Under certain circumstances, if the Fund did not conduct these tender offers, Harvard would be relieved of its obligation to refrain from making shareholder proposals and taking other actions with respect to the Fund. The exemptive application was not received by March 26, 2004 and the Fund did not conduct any tender offers for the period ended December 31, 2005.

The settlement agreement provides that the Fund will not be obligated to commence in-kind tender offers or additional cash tender offers under certain circumstances or conditions. These relate to, among other things, the number of shares tendered by shareholders into preceding tender offers as well as the beneficial ownership percentages of the Fund's shareholders.

22 | Annual Report

TEMPLETON DRAGON FUND, INC.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

9. PREVIOUS LITIGATION (CONTINUED)

STANDSTILL. As part of the settlement, Harvard agreed not to submit any proposals for consideration by shareholders of the Fund, or any other closed-end fund or similar investment vehicle managed by TAML or its affiliates, or for consideration by shareholders of Franklin Resources, Inc., nor to encourage others to do so, for a period of four years. Harvard also has agreed not at any time to acquire additional shares of the Fund or any other closed-end fund or similar investment vehicle managed by TAML or its affiliates.

10. REGULATORY MATTERS

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-CSR

As part of various investigations by a number of federal, state, and foreign regulators and governmental entities, relating to certain practices in the mutual fund industry, including late trading, market timing and marketing support payments to securities dealers who sell fund shares, Franklin Resources, Inc. and certain of its subsidiaries (collectively, the "Company"), entered into settlements with certain of those regulators.

Specifically, the Company entered into settlements with the Securities and Exchange Commission ("SEC") concerning market timing (the "August 2, 2004 SEC Order") and marketing support payments to securities dealers who sell fund shares (the "December 13, 2004 SEC Order") and with the California Attorney General's Office ("CAGO") concerning marketing support payments to securities dealers who sell fund shares (the "CAGO Settlement"). Under the terms of the settlements with the SEC and the CAGO, the Company retained an Independent Distribution Consultant ("IDC") to develop a plan for distribution of the respective settlement monies. The CAGO approved the distribution plan under the CAGO Settlement and, in accordance with the terms and conditions of that settlement, the monies were disbursed to the relevant funds. The Fund did not participate in the CAGO Settlement. The SEC has not yet approved the distribution plan pertaining to the December 13, 2004 SEC Order. When approved, disbursements of settlement monies will be made promptly to the relevant funds, in accordance with the terms and conditions of that order. The IDC continues to develop the plan of distribution under the August 2, 2004 SEC Order that resolved the SEC's market timing investigation.

In addition, the Company, as well as most of the mutual funds within Franklin Templeton Investments and certain current or former officers, directors, and/or employees, have been named in private lawsuits (styled as shareholder class actions, or as derivative actions on behalf of either the named funds or Franklin Resources, Inc.) relating to the industry practices referenced above, as well as to allegedly excessive advisory fees, commissions, and/or 12b-1 fees. The lawsuits were filed in different courts throughout the country. Many of those suits are now pending in a multi-district litigation in the United States District Court for the District of Maryland.

10. REGULATORY MATTERS (CONTINUED)

The Company and fund management strongly believe that the claims made in each of the private lawsuits referenced above are without merit and intends to defend against them vigorously. The Company cannot predict with certainty the eventual outcome of these lawsuits, nor whether they will have a material negative impact on the Company. If it is determined that the Company bears responsibility for any unlawful or inappropriate conduct that caused losses to the Fund, it is committed to making the Fund or its shareholders whole, as appropriate.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-CSR

TO THE BOARD OF DIRECTORS AND SHAREHOLDERS OF TEMPLETON DRAGON FUND, INC.

In our opinion, the accompanying statement of assets and liabilities, including the statement of investments, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of Templeton Dragon Fund, Inc. (the "Fund") at December 31, 2005, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Fund's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at December 31, 2005 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

The Fund offers a Dividend Reinvestment and Cash Purchase Plan (the "Plan") with the following features:

If shares of the Fund are held in the shareholder's name, the shareholder will automatically be a participant in the Plan (other than shareholders holding their shares through Japan Securities Clearing Corporation, who will not be enrolled in the Plan unless certain conditions are met and they elect to participate), unless he elects to withdraw. If the shares are registered in the name of a broker-dealer or other nominee (i.e., in "street name"), the broker-dealer or nominee will elect to participate in the Plan on the shareholder's behalf unless the shareholder instructs them otherwise, or unless the reinvestment service is not provided by the broker-dealer or nominee.

Participants should contact Mellon Investor Services LLC, P.O. Box 3338, South Hackensack, NJ 07606-1938, to receive the Plan brochure.

To receive dividends or distributions in cash, the shareholder must notify Mellon Bank, N.A. (the "Plan Administrator") at the address above or the institution in whose name the shares are held. The Plan Administrator must receive written notice within 10 business days before the record date for the distribution.

Whenever the Fund declares dividends in either cash or common stock of the Fund, if the market price is equal to or exceeds net asset value at the valuation date, the participant will receive the dividends entirely in stock at a price equal to the net asset value, but not less than 95% of the then current market price of the Fund's shares. If the market price is lower than net asset value or if dividends and/or capital gains distributions are payable only in cash, the participant will receive shares purchased on the New York Stock Exchange or otherwise on the open market.

A participant has the option of submitting additional payments to the Plan Administrator, in any amounts of at least \$100, up to a maximum of \$5,000 per month, for the purchase of Fund shares for his or her account. These payments shall be made by check or money order payable to "Mellon Bank, N.A." and sent to Mellon Investor Services, P.O. Box 382009, Pittsburgh, PA 15250-8009, Attention: Templeton Dragon Fund, Inc. The Plan Administrator shall apply such payments (less a \$5.00 service charge and less a pro rata share of trading fees) to purchases of the Fund's shares in the open market.

Whenever shares are purchased on the New York Stock Exchange or otherwise on the open market, each participant will pay a pro rata portion of trading fees. Trading fees will be deducted from amounts to be invested.

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-CSR

The automatic reinvestment of dividends and/or capital gains does not relieve the participant of any income tax which may be payable on dividends or distributions.

TEMPLETON DRAGON FUND, INC.

TAX DESIGNATION (UNAUDITED)

Under Section 852(b)(3)(C) of the Internal Revenue Code (Code), the Fund designates the maximum amount allowable but no less than \$18,688,502 as a capital gain dividend for the fiscal year ended December 31, 2005.

Under Section 854(b)(2) of the Code, the Fund designates the maximum amount allowable but no less than \$4,002,972 as qualified dividends for purposes of the maximum rate under Section 1(h)(11) of the Code for the fiscal year ended December 31, 2005. In January 2006, shareholders will receive Form 1099-DIV which will include their share of qualified dividends distributed during the calendar year 2005. Shareholders are advised to check with their tax advisors for information on the treatment of these amounts on their individual income tax returns.

Under Section 871(k)(1)(C) of the Code, the Fund designates the maximum amount allowable but no less than \$658,662 as interest-related dividends for purposes of the tax imposed under Section 871(a)(1)(A) of the Code for the fiscal year ended December 31, 2005.

Under Section 871(k)(2)(C) of the Code, the Fund designates the maximum amount allowable but no less than \$3,177,162 as a short-term capital gain dividend for purposes of the tax imposed under Section 871(a)(1)(A) of the Code for the fiscal year ended December 31, 2005.

At December 31, 2005, more than 50% of the Fund's total assets were invested in securities of foreign issuers. In most instances, foreign taxes were withheld from dividends paid to the Fund on these investments. As shown in the table below, the Fund designates to shareholders the foreign source income and foreign taxes paid as allowed, pursuant to Section 853 of the Code. This designation will allow shareholders of record on December 30, 2005, to treat their proportionate share of foreign taxes paid by the Fund as having been paid

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-CSR

directly by them. The shareholder shall consider these amounts as foreign taxes paid in the tax year in which they receive the Fund distribution.

The following table provides a detailed analysis, by country, of foreign tax paid, foreign source income, and foreign qualified dividends as designated by the Fund to shareholders of record.

Record Date: 12/30/2005

TEMPLETON DRAGON FUND, INC.

TAX DESIGNATION (UNAUDITED) (CONTINUED)

Foreign Tax Paid per Share (Column 1) is the amount per share available to you, as a tax credit (assuming you held your shares in the Fund for a minimum of 16 days during the 31-day period beginning 15 days before the ex-dividend date of the Fund's distribution to which the foreign taxes relate), or as a tax deduction.

Foreign Source Income per Share (Column 2) is the amount per share of income dividends paid to you that is attributable to foreign securities held by the Fund, plus any foreign taxes withheld on these dividends. The amounts reported include foreign source qualified dividends that have not been adjusted for the rate differential applicable to such dividend income.(1)

Foreign Qualified Dividends per Share (Column 3) is the amount per share of foreign source qualified dividends the Fund paid to you, plus any foreign taxes withheld on these dividends. These amounts represent the portion of the Foreign Source Income reported to you in column 2 that were derived from qualified foreign securities held by the Fund.(1)

In January 2006, shareholders will receive Form 1099-DIV which will include their share of taxes paid and foreign source income distributed during the calendar year 2005. The Foreign Source Income reported on Form 1099-DIV has not been adjusted for the rate differential on foreign source qualified dividend income. Shareholders are advised to check with their tax advisors for information on the treatment of these amounts on their 2005 individual income tax returns.

- (1) Qualified dividends are taxed at a maximum rate of 15% (5% for those in the 10% and 15% income tax brackets). In determining the amount of foreign tax credit that may be applied against the U.S. tax liability of individuals receiving foreign source qualified dividends, adjustments may be required to the foreign tax credit limitation calculation to reflect

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-CSR

the rate differential applicable to such dividend income. The rules however permit certain individuals to elect not to apply the rate differential adjustments for capital gains and/or dividends for any taxable year. Please consult your tax advisor and the instructions to Form 1116 for more information.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The board of directors of the Fund has delegated the authority to vote proxies related to the portfolio securities held by the Fund to the Fund's manager Templeton Asset Management Ltd in accordance with the Proxy Voting Policies and Procedures (Policies) adopted by the manager.

The manager has delegated its administrative duties with respect to the voting of proxies to the Proxy Group within Franklin Templeton Companies, LLC (Proxy Group), an affiliate and wholly owned subsidiary of Franklin Resources, Inc. All proxies received by the Proxy Group will be voted based upon the manager's instructions and/or policies.

To assist it in analyzing proxies, the manager subscribes to Institutional Shareholder Services (ISS), an unaffiliated third party corporate governance research service that provides in-depth analyses of shareholder meeting agendas,

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-CSR

vote recommendations, recordkeeping and vote disclosure services. In addition, the manager subscribes to Glass, Lewis & Co., LLC (Glass Lewis), an unaffiliated third party analytical research firm, to receive analyses and vote recommendations on the shareholder meetings of publicly held U.S. companies. Although ISS' and/or Glass Lewis' analyses are thoroughly reviewed and considered in making a final voting decision, the manager does not consider recommendations from ISS, Glass Lewis or any other third party to be determinative of the manager's ultimate decision. The manager votes proxies solely in the interests of the Fund and its shareholders. As a matter of policy, the officers, directors/trustees and employees of the Fund, the manager and the Proxy Group will not be influenced by outside sources whose interests conflict with the interests of the Fund and its shareholders. All conflicts are resolved in the interests of the manager's clients. In situations where the manager perceives a material conflict of interest, the manager may: disclose the conflict to the Fund's board of directors; defer to the voting recommendation of the Fund's board of directors, ISS, Glass Lewis or those of another independent third party provider of proxy services; or take such other action in good faith (in consultation with counsel) which would protect the interests of the Fund and its shareholders.

The recommendation of management on any issue is a factor which the manager considers in determining how proxies should be voted, but is not determinative of the manager's ultimate decision. As a matter of practice, the votes with respect to most issues are cast in accordance with the position of the company's management. Each issue, however, is considered on its own merits, and the manager will not support the position of the company's management in any situation where it deems that the ratification of management's position would adversely affect the investment merits of owning that company's shares.

MANAGER'S PROXY VOTING POLICIES AND PRINCIPLES The manager has adopted general proxy voting guidelines, which are summarized below. These guidelines are not an exhaustive list of all the issues that may arise and the manager cannot anticipate all future situations. In all cases, each proxy will be considered based on the relevant facts and circumstances.

BOARD OF DIRECTORS. The manager supports an independent board of directors, and prefers that key committees such as audit, nominating, and compensation committees be comprised of independent directors. The manager will generally vote against management efforts to classify a board and will generally support proposals to declassify the board of directors. The manager may withhold votes from directors who have attended less than 75% of meetings without a valid reason. While generally in favor of separating Chairman and CEO positions, the manager will review this issue as well as proposals to restore or provide for cumulative voting on a case-by-case basis, taking into consideration factors such as the company's corporate governance guidelines or provisions and performance.

RATIFICATION OF AUDITORS OF PORTFOLIO COMPANIES. In light of several high profile accounting scandals, the manager will closely scrutinize the role and performance of auditors. On a case-by-case basis, the manager will examine proposals relating to non-audit relationships and non-audit fees. The manager will also consider, on a case-by-case basis, proposals to rotate auditors, and will vote against the ratification of auditors when there is clear and compelling evidence of accounting irregularities or negligence.

MANAGEMENT AND DIRECTOR COMPENSATION. A company's equity-based compensation plan should be in alignment with its shareholders' long-term interests. The manager evaluates plans on a case-by-case basis by considering several factors to determine whether the plan is fair and reasonable, including the ISS quantitative model utilized to assess such plans and/or the Glass Lewis evaluation of the plans. The manager will generally oppose plans that have the potential to be excessively dilutive, and will almost always oppose plans that

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-CSR

are structured to allow the repricing of underwater options, or plans that have an automatic share replenishment "evergreen" feature. The manager will generally support employee stock option plans in which the purchase price is at least 85% of fair market value, and when potential dilution is 10% or less.

Severance compensation arrangements will be reviewed on a case-by-case basis, although the manager will generally oppose "golden parachutes" that are considered to be excessive. The manager will normally support proposals that require a percentage of directors' compensation to be in the form of common stock, as it aligns their interests with those of shareholders. The manager will review on a case-by-case basis any shareholder proposals to adopt policies on expensing stock option plans.

ANTI-TAKEOVER MECHANISMS AND RELATED ISSUES. The manager generally opposes anti-takeover measures since they tend to reduce shareholder rights. On occasion, the manager may vote with management when the research analyst has concluded that the proposal is not onerous and would not harm the Fund or its shareholders' interests. The manager generally supports proposals that require shareholder rights' plans ("poison pills") to be subject to a shareholder vote and will closely evaluate such plans on a case-by-case basis to determine whether or not they warrant support. The manager will generally vote against any proposal to issue stock that has unequal or subordinate voting rights. The manager generally opposes any supermajority voting requirements as well as the payment of "greenmail." The manager generally supports "fair price" provisions and confidential voting.

CHANGES TO CAPITAL STRUCTURE. The manager will review, on a case-by-case basis, proposals by companies to increase authorized shares and the purpose for the increase and proposals seeking preemptive rights. The manager will generally not vote in favor of dual-class capital structures to increase the number of authorized shares where that class of stock would have superior voting rights. The manager will generally vote in favor of the issuance of preferred stock in cases where the company specifies the voting, dividend, conversion and other rights of such stock and the terms of the preferred stock issuance are deemed reasonable.

MERGERS AND CORPORATE RESTRUCTURING. Mergers and acquisitions will be subject to careful review by the research analyst to determine whether each will be beneficial to shareholders. The manager will analyze various economic and strategic factors in making the final decision on a merger or acquisition. Corporate restructuring and reincorporation proposals are also subject to a thorough examination on a case-by-case basis.

SOCIAL AND CORPORATE POLICY ISSUES. The manager will generally give management discretion with regard to social, environmental and ethical issues, although the manager may vote in favor of those that are believed to have significant economic benefits or implications for the Fund and its shareholders.

GLOBAL CORPORATE GOVERNANCE. Many of the tenets discussed above are applied to proxy voting decisions for international companies. However, the manager must be more flexible in these instances and must be mindful of the varied market practices of each region.

The manager will attempt to process every proxy it receives for all domestic and foreign proxies. However, there may be situations in which the manager cannot process proxies, for example, where a meeting notice was received too late, or sell orders preclude the ability to vote. The manager may abstain from voting under certain circumstances or vote against items such as "Other Business" when the manager is not given adequate information from the company.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT.

(a) (1) As of February 27, 2006, the portfolio managers of the Fund are as follows:

MARK MOBIUS, PH.D., MANAGING DIRECTOR OF TEMPLETON ASSET MANAGEMENT, LTD.

Dr. Mobius has been a manager of the Fund since inception. He has overall authority for supervising the team allocating the investments of the Fund. He has final responsibility over all aspects of the Fund's investment portfolio, including but not limited to, purchases and sales of individual securities, portfolio risk assessment, and the management of daily cash balances in accordance with anticipated management requirements. The degree to which he may perform these functions, and the nature of these functions, may change from time to time. Dr. Mobius joined Franklin Templeton Investments in 1987.

EDDIE CHOW, INVESTMENT ANALYST OF TEMPLETON ASSET MANAGEMENT, LTD.

Mr. Chow heads the team with primary responsibility for allocation of investments for the Fund. He has been working on the Fund since 2000 providing research and advice on the purchases and sales of individual securities, and portfolio risk assessment. Mr. Chow joined Franklin Templeton Investments in 1994.

(a) (2) This section reflects information about the portfolio managers as of the fiscal year ended December 31, 2005.

The following table shows the number of other accounts managed by each portfolio manager and the total assets in the accounts managed within each category:

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-CSR

Portfolio managers that provide investment services to the Fund may also provide services to a variety of other investment products, including other funds, institutional accounts and private accounts. The advisory fees for some of such other products and accounts may be different than that charged to the Fund and may include performance-based compensation. This may result in fees that are higher (or lower) than the advisory fees paid by the Fund. As a matter of policy, each fund or account is managed solely for the benefit of the beneficial owners thereof. As discussed below, the separation of the trading execution function from the portfolio management function and the application of objectively based trade allocation procedures helps to mitigate potential conflicts of interest that may arise as a result of the portfolio managers managing accounts with different advisory fees.

CONFLICTS. The management of multiple funds, including the Fund, and accounts may also give rise to potential conflicts of interest if the funds and other accounts have different objectives, benchmarks, time horizons, and fees as the portfolio manager must allocate his or her time and investment ideas across multiple funds and accounts. The manager seeks to manage such competing interests for the time and attention of portfolio managers by having portfolio manager's focus on a particular investment discipline. Most other accounts managed by a portfolio manager are managed using the same investment strategies that are used in connection with the management of the Fund. Accordingly, portfolio holdings, position sizes, and industry and sector exposures tend to be similar across similar portfolios, which may minimize the potential for conflicts of interest. The separate management of the trade execution and valuation functions from the portfolio management process also helps to reduce potential conflicts of interest. However, securities selected for funds or accounts other than the Fund may outperform the securities selected for the Fund. Moreover, if a portfolio manager identifies a limited investment opportunity that may be suitable for more than one fund or other account, the Fund may not be able to take full advantage of that opportunity due to an allocation of that opportunity across all eligible funds and other accounts. The manager seeks to manage such potential conflicts by using procedures intended to provide a fair allocation of buy and sell opportunities among funds and other accounts.

The structure of a portfolio manager's compensation may give rise to potential conflicts of interest. A portfolio manager's base pay and bonus tend to increase with additional and more complex responsibilities that include increased assets under management. As such, there may be an indirect relationship between a portfolio manager's marketing or sales efforts and his or her bonus.

Finally, the management of personal accounts by a portfolio manager may give rise to potential conflicts of interest. While the funds and the manager have adopted a code of ethics, which they believe contains provisions reasonably necessary to prevent a wide range of prohibited activities by portfolio managers and others with respect to their personal trading activities, there can be no assurance that the code of ethics addresses all individual conduct that could result in conflicts of interest.

The manager and the Fund have adopted certain compliance procedures that are designed to address these, and other, types of conflicts. However, there is no guarantee that such procedures will detect each and every situation where a conflict arises.

COMPENSATION. The manager seeks to maintain a compensation program that is competitively positioned to attract, retain and motivate top-quality investment professionals. Portfolio managers receive a base salary, a cash incentive bonus opportunity, an equity compensation opportunity, and a benefits package. Portfolio manager compensation is reviewed annually and the level of compensation is based on individual performance, the salary range for a

Edgar Filing: TEMPLETON DRAGON FUND INC - Form N-CSR

portfolio manager's level of responsibility and Franklin Templeton guidelines. Portfolio managers are provided no financial incentive to favor one fund or account over another. Each portfolio manager's compensation consists of the following three elements:

BASE SALARY Each portfolio manager is paid a base salary.

ANNUAL BONUS Annual bonuses are structured to align the interests of the portfolio manager with those of the Fund's shareholders. Each portfolio manager is eligible to receive an annual bonus. Bonuses generally are split between cash (50% to 65%) and restricted shares of a Franklin Templeton fund which vest over a three-year period (17.5% to 25%) and other mutual fund shares (17.5% to 25%). The deferred equity-based compensation is intended to build a vested interest of the portfolio manager in the financial performance of both Franklin Resources and mutual funds advised by the manager. The bonus plan is intended to provide a competitive level of annual bonus compensation that is tied to the portfolio manager achieving consistently strong investment performance, which aligns the financial incentives of the portfolio manager and Fund shareholders. The Chief Investment Officer of the manager and/or other officers of the manager, with responsibility for the Fund, have discretion in the granting of annual bonuses to portfolio managers in accordance with Franklin Templeton guidelines. The following factors are generally used in determining bonuses under the plan:

- o **INVESTMENT PERFORMANCE.** Primary consideration is given to the historic investment performance over the 1, 3 and 5 preceding years of all accounts managed by the portfolio manager. The pre-tax performance of each fund managed is measured relative to a relevant peer group and/or applicable benchmark as appropriate.
- o **NON-INVESTMENT PERFORMANCE.** The more qualitative contributions of a portfolio manager to the manager's business and the investment management team, including business knowledge, contribution to team efforts, mentoring of junior staff, and contribution to the marketing of the Fund, are evaluated in determining the amount of any bonus award.
- o **RESEARCH.** Where the portfolio management team also has research responsibilities, each portfolio manager is evaluated on the number and performance of recommendations over time.
- o **RESPONSIBILITIES.** The characteristics and complexity of funds managed by the portfolio manager are factored in the manager's appraisal.

ADDITIONAL LONG-TERM EQUITY-BASED COMPENSATION Portfolio managers may also be awarded restricted shares or units of one or more mutual funds, and options to purchase common shares of a Franklin Templeton fund. Awards of such deferred equity-based compensation typically vest over time, so as to create incentives to retain key talent.

Portfolio managers also participate in benefit plans and programs available generally to all employees of the manager.

OWNERSHIP OF FUND SHARES. The manager has a policy of encouraging portfolio managers to invest in the funds they manage. Exceptions arise when, for example, a fund is closed to new investors or when tax considerations or jurisdictional constraints cause such an investment to be inappropriate for the portfolio manager. The following is the dollar range of Fund shares beneficially owned by each portfolio manager as of December 31, 2005 (such amounts may change from

ITEM 9. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS. N/A

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no changes to the procedures by which shareholders may recommend nominees to the Registrant's Board of Directors that would require disclosure herein.

ITEM 11. CONTROLS AND PROCEDURES.

(A) EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES. The Registrant maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Registrant's filings under the Securities Exchange Act of 1934 and the Investment Company Act of 1940 is recorded, processed, summarized and reported within the periods specified in the rules and forms of the Securities and Exchange Commission. Such information is accumulated and communicated to the Registrant's management, including its principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. The Registrant's management, including the principal executive officer and the principal financial officer, recognizes that any set of controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

Within 90 days prior to the filing date of this Shareholder Report on Form N-CSR, the Registrant had carried out an evaluation, under the supervision and with the participation of the Registrant's management, including the Registrant's principal executive officer and the Registrant's principal financial officer, of the effectiveness of the design and operation of the Registrant's disclosure controls and procedures. Based on such evaluation, the Registrant's principal executive officer and principal financial officer concluded that the Registrant's disclosure controls and procedures are effective.

(B) CHANGES IN INTERNAL CONTROLS. There have been no significant changes in the Registrant's internal controls or in other factors that could significantly affect the internal controls subsequent to the date of their evaluation in connection with the preparation of this Shareholder Report on Form N-CSR.
