Apartment Investment and Management Company
AIMCO Properties, L.P.
(Exact name of registrant as specified in its charter)

Maryland (Apartment Investment and Management Company)
Delaware (AIMCO Properties, L.P.)

(State or other jurisdiction of
incorporation or organization)

84-1259577
84-1275621
(I.R.S. Employer
Identification
No.)

4582 South Ulster Street, Suite 1100
Denver, Colorado
(Address of principal executive offices)
(303) 757-8101

(Registrant's telephone number, including area code)

80237
(Zip Code)

Not Applicable

(Former name, former address, and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Apartment Investment and Management Company: Yes No
AIMCO Properties, L.P.: Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Edgar Filing: APARTMENT INVESTMENT & MANAGEMENT CO - Form 10-Q

Apartment Investment and Management Company: Yes No AIMCO Properties, L.P.: Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Apartment Investment and Management Company:

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

AIMCO Properties, L.P.:

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Apartment Investment and Management Company: Yes No AIMCO Properties, L.P.: Yes No

The number of shares of Apartment Investment and Management Company Class A Common Stock outstanding as of October 31, 2012: 145,544,888

Table of Contents

EXPLANATORY NOTE

This filing combines the reports on Form 10-Q for the quarterly period ended September 30, 2012, of Apartment Investment and Management Company, or Aimco, and AIMCO Properties, L.P., or the Aimco Operating Partnership. Where it is important to distinguish between the two entities, we refer to them specifically. Otherwise, references to “we,” “us” or “our” mean collectively Aimco, the Aimco Operating Partnership and their consolidated entities. Aimco, a Maryland corporation, is a self-administered and self-managed real estate investment trust, or REIT. Aimco, through wholly-owned subsidiaries, is the general and special limited partner of and, as of September 30, 2012, owned an approximate 94.8% ownership interest in the common partnership units of, the Aimco Operating Partnership. The remaining 5.2% interest is owned by limited partners. As the sole general partner of the Aimco Operating Partnership, Aimco has exclusive control of the Aimco Operating Partnership’s day-to-day management.

The Aimco Operating Partnership holds all of Aimco’s assets and manages the daily operations of Aimco’s business and assets. Aimco is required to contribute all proceeds from offerings of its securities to the Aimco Operating Partnership. In addition, substantially all of Aimco’s assets must be owned through the Aimco Operating Partnership; therefore, Aimco is generally required to contribute all assets acquired to the Aimco Operating Partnership. In exchange for the contribution of offering proceeds or assets, Aimco receives additional interests in the Aimco Operating Partnership with similar terms (e.g., if Aimco contributes proceeds of a stock offering, Aimco receives partnership units with terms substantially similar to the stock issued by Aimco).

We believe combining the periodic reports of Aimco and Aimco Operating Partnership into this single report provides the following benefits:

- presents our business as a whole, in the same manner our management views and operates the business;
- eliminates duplicative disclosure and provides a more streamlined and readable presentation since a substantial portion of the disclosures apply to both Aimco and the Aimco Operating Partnership; and
- saves time and cost through the preparation of a single combined report rather than two separate reports.

We operate Aimco and the Aimco Operating Partnership as one enterprise and the management of Aimco directs the management and operations of the Aimco Operating Partnership.

We believe it is important to understand the few differences between Aimco and the Aimco Operating Partnership in the context of how Aimco and the Aimco Operating Partnership operate as a consolidated company. Aimco has no assets or liabilities other than its investment in the Aimco Operating Partnership. Also, Aimco is a corporation that issues publicly traded equity from time to time, whereas the Aimco Operating Partnership is a partnership that has no publicly traded equity. Except for the net proceeds from stock offerings by Aimco, which are contributed to the Aimco Operating Partnership in exchange for additional limited partnership interests (of a similar type and in an amount equal to the shares of stock sold in the offering), the Aimco Operating Partnership generates all remaining capital required by its business. These sources include the Aimco Operating Partnership’s working capital, net cash provided by operating activities, borrowings under its revolving credit facility, the issuance of secured and unsecured debt and equity securities, including additional partnership units, and proceeds received from the disposition of certain properties and investments in real estate.

Shareholders’ equity, partners’ capital and noncontrolling interests are the main areas of difference between the consolidated financial statements of Aimco and those of the Aimco Operating Partnership. Interests in the Aimco Operating Partnership held by entities other than Aimco are classified within partners’ capital in the Aimco Operating Partnership’s financial statements and as noncontrolling interests in Aimco’s financial statements.

To help investors understand the differences between Aimco and the Aimco Operating Partnership, this report provides separate consolidated financial statements for Aimco and the Aimco Operating Partnership; a single set of consolidated notes to such financial statements that includes separate discussions of each entity’s shareholders’ equity or partners’ capital, as applicable; and a combined Management’s Discussion and Analysis of Financial Condition and Results of Operations section that includes discrete information related to each entity.

This report also includes separate Part I, Item 4. Controls and Procedures sections and separate Exhibits 31 and 32 certifications for Aimco and the Aimco Operating Partnership in order to establish that the requisite certifications have been made and that Aimco and the Aimco Operating Partnership are both compliant with Rule 13a-15 or Rule 15d-15 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and 18 U.S.C. §1350.

APARTMENT INVESTMENT AND MANAGEMENT COMPANY
AIMCO PROPERTIES, L.P.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2012

(Unaudited)

NOTE 1 — Organization

Apartment Investment and Management Company, or Aimco, is a Maryland corporation incorporated on January 10, 1994. Aimco is a self-administered and self-managed real estate investment trust, or REIT, engaged in the ownership and operation of a diversified portfolio of apartment properties. AIMCO Properties, L.P., or the Aimco Operating Partnership, is a Delaware limited partnership formed on May 16, 1994, to conduct our business, which is focused on the ownership, management and redevelopment of quality apartment communities located in the largest markets of the United States.

Aimco, and through its wholly-owned subsidiaries, AIMCO-GP, Inc. and AIMCO-LP Trust, owns a majority of the ownership interests in the Aimco Operating Partnership. Aimco conducts all of its business and owns all of its assets through the Aimco Operating Partnership. Interests in the Aimco Operating Partnership that are held by limited partners other than Aimco are referred to as “OP Units.” OP Units include common partnership units, high performance partnership units and partnership preferred units, which we refer to as common OP Units, HPUs and preferred OP Units, respectively. We also refer to HPUs as common OP Unit equivalents. At September 30, 2012, after eliminations for units held by consolidated entities, the Aimco Operating Partnership had 153,568,093 common partnership units and equivalents outstanding. At September 30, 2012, Aimco owned 145,554,888 of the common partnership units (94.8% of the common partnership units and equivalents of the Aimco Operating Partnership) and Aimco had outstanding an equal number of shares of its Class A Common Stock, which we refer to as Common Stock.

Except as the context otherwise requires, “we,” “our” and “us” refer to Aimco, the Aimco Operating Partnership and their consolidated entities, collectively.

As of September 30, 2012, we owned an equity interest in 183 conventional real estate properties with 57,744 units and 136 affordable real estate properties with 17,097 units. Of these properties, we consolidated 179 conventional properties with 57,602 units and 105 affordable properties with 14,268 units. These conventional and affordable properties generated 88% and 12%, respectively, of our proportionate property net operating income (as defined in Note 11) during the nine months ended September 30, 2012.

As of September 30, 2012, we also provided services for or managed 7,265 units in 108 properties, primarily pursuant to long-term asset management agreements. In certain cases, we may indirectly own generally less than 1.0% of the operations of such properties through a syndication or other fund. In February 2012, we entered into an agreement to transfer asset management of a portfolio comprised of substantially all of these managed properties, and to sell our interests in this portfolio to the new asset manager upon satisfaction of certain conditions and regulatory approvals.

NOTE 2 — Basis of Presentation and Summary of Significant Accounting Policies

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and Article 10 of Regulation S-X. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America, or GAAP, have been condensed or omitted in accordance with such rules and regulations, although management believes the disclosures are adequate to prevent the information presented from being misleading. In the opinion of management, all adjustments (consisting of normal recurring items) considered necessary for a fair presentation have been included. Operating results for the three and nine months ended September 30, 2012, are not necessarily indicative of the results that may be expected for the year ending December 31, 2012.

The balance sheets of Aimco and the Aimco Operating Partnership at December 31, 2011, have been derived from their audited financial statements at that date, but do not include all of the information and disclosures required by

GAAP for complete financial statements. For further information, refer to the financial statements and notes thereto included in Aimco's and the Aimco Operating Partnership's Annual Reports on Form 10-K for the year ended December 31, 2011. Certain 2011 financial statement amounts have been reclassified to conform to the 2012 presentation, including adjustments for discontinued operations. Except where indicated, the footnotes refer to both Aimco and the Aimco Operating Partnership.

Table of Contents

Principles of Consolidation

Aimco's accompanying condensed consolidated financial statements include the accounts of Aimco, the Aimco Operating Partnership, and their consolidated entities. The Aimco Operating Partnership's condensed consolidated financial statements include the accounts of the Aimco Operating Partnership and its consolidated subsidiaries. We consolidate all variable interest entities for which we are the primary beneficiary. Generally, we consolidate real estate partnerships and other entities that are not variable interest entities when we own, directly or indirectly, a majority voting interest in the entity or are otherwise able to control the entity. All significant intercompany balances and transactions have been eliminated in consolidation.

Interests in the Aimco Operating Partnership that are held by limited partners other than Aimco are reflected in Aimco's accompanying balance sheets as noncontrolling interests in Aimco Operating Partnership. Interests in partnerships consolidated into the Aimco Operating Partnership that are held by third parties are reflected in our accompanying balance sheets as noncontrolling interests in consolidated real estate partnerships. The assets of consolidated real estate partnerships owned or controlled by the Aimco Operating Partnership generally are not available to pay creditors of Aimco or the Aimco Operating Partnership.

As used herein, and except where the context otherwise requires, "partnership" refers to a limited partnership or a limited liability company and "partner" refers to a partner in a limited partnership or a member in a limited liability company.

Variable Interest Entities

We consolidate all variable interest entities for which we are the primary beneficiary. Generally, a variable interest entity, or VIE, is an entity with one or more of the following characteristics: (a) the total equity investment at risk is not sufficient to permit the entity to finance its activities without additional subordinated financial support; (b) as a group, the holders of the equity investment at risk lack (i) the ability to make decisions about an entity's activities through voting or similar rights, (ii) the obligation to absorb the expected losses of the entity, or (iii) the right to receive the expected residual returns of the entity; or (c) the equity investors have voting rights that are not proportional to their economic interests and substantially all of the entity's activities either involve, or are conducted on behalf of, an investor that has disproportionately few voting rights.

In determining whether we are the primary beneficiary of a VIE, we consider qualitative and quantitative factors, including, but not limited to: which activities most significantly impact the VIE's economic performance and which party controls such activities; the amount and characteristics of our investment; the obligation or likelihood for us or other investors to provide financial support; and the similarity with and significance to the business activities of us and the other investors. Significant judgments related to these determinations include estimates about the current and future fair values and performance of real estate held by these VIEs and general market conditions. Refer to Note 5 for further discussion of our variable interest entities.

Temporary Equity and Partners' Capital

The following table presents a reconciliation of the Aimco Operating Partnership's Preferred OP Units from December 31, 2011 to September 30, 2012 (in thousands). These amounts are presented within temporary equity in Aimco's condensed consolidated balance sheets as preferred noncontrolling interests in the Aimco Operating Partnership, and within temporary capital in the Aimco Operating Partnership's condensed consolidated balance sheets as redeemable preferred units.

Balance, December 31, 2011	\$83,384
Preferred distributions	(4,890)
Redemption of Preferred Units	(3,307)
Net income	4,890
Balance, September 30, 2012	\$80,077

Partners' Capital attributable to the Aimco Operating Partnership

The following table presents a reconciliation of the consolidated partners' capital balances in permanent capital that are attributable to the Aimco Operating Partnership from December 31, 2011 to September 30, 2012 (in thousands):

	Partners' capital attributable to the Partnership
Balance, December 31, 2011	\$874,008
Issuance of common partnership units to Aimco	594,437
Issuance of Preferred Units to Aimco	9,818
Redemption of Preferred Units from Aimco	(600,956)
Preferred unit distributions to Aimco	(26,774)
Common distributions	(79,497)
Redemption of common OP Units	(8,372)
Amortization of Aimco stock-based compensation cost	4,130
Common OP Units issued to Aimco in connection with Aimco stock option exercises	48,906
Effect of changes in ownership for consolidated entities (Note 4)	(44,363)
Change in accumulated other comprehensive loss	503
Other	2,393
Net income	64,459
Balance, September 30, 2012	\$838,692

A separate reconciliation of noncontrolling interests in consolidated real estate partnerships and total partners' capital for the Aimco Operating Partnership is not presented as these amounts are identical to the corresponding noncontrolling interests in consolidated real estate partnerships and total equity for Aimco, which are presented above.

Table of Contents

Income Taxes

In March 2008, we were notified by the Internal Revenue Service, or the IRS, that it intended to examine the 2006 Federal tax return for the Aimco Operating Partnership. During June 2008, the IRS issued AIMCO-GP, Inc., the general partner and tax matters partner of the Aimco Operating Partnership, a summary report including the IRS's proposed adjustments to the Aimco Operating Partnership's 2006 Federal tax return. In addition, in May 2009, we were notified by the IRS that it intended to examine the 2007 Federal tax return for the Aimco Operating Partnership. During November 2009, the IRS issued AIMCO-GP, Inc. a summary report including the IRS's proposed adjustments to the Aimco Operating Partnership's 2007 Federal tax return. The IRS has now concluded its examination and by Notice dated October 25, 2012, issued a Final Partnership Administrative Adjustment to AIMCO-GP, Inc. in its capacity as tax matters partner. We do not expect the 2006 or 2007 proposed adjustments to have any material effect on our unrecognized tax benefits, financial condition or results of operations.

In October 2011, we were notified by the IRS that it intends to examine refund claims related to the carry back of our taxable REIT subsidiary's 2009 net operating loss. We do not anticipate that this examination will result in any material effect on our unrecognized tax benefits, financial condition or results of operations.

Use of Estimates

The preparation of our condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts included in the financial statements and accompanying notes thereto. Actual results could differ from those estimates.

NOTE 3 — Assets Held for Sale and Discontinued Operations

We report as discontinued operations real estate properties that meet the definition of a component of an entity and have been sold or meet the criteria to be classified as held for sale. We include all results of these discontinued operations, less applicable income taxes, in a separate component of income on the consolidated statements of operations under the heading "income from discontinued operations, net." This treatment resulted in the retrospective adjustment of the statements of operations for the three and nine months ended September 30, 2011 and the balance sheet as of December 31, 2011.

We are currently marketing for sale certain real estate properties that are inconsistent with our long-term investment strategy. At the end of each reporting period, we evaluate whether such properties meet the criteria to be classified as held for sale, including whether such properties are expected to be sold within 12 months. Additionally, certain properties that do not meet all of the criteria to be classified as held for sale at the balance sheet date may nevertheless be sold and included in discontinued operations in the subsequent 12 months; thus the number of properties that may be sold during the subsequent 12 months could exceed the number classified as held for sale. At September 30, 2012 and December 31, 2011, after adjustments to classify as held for sale properties that were sold or classified as held for sale during the nine months ended September 30, 2012, we had five and 55 properties with an aggregate of 625 and 8,470 units, respectively, classified as held for sale. Amounts classified as held for sale in the accompanying consolidated balance sheets as of September 30, 2012 and December 31, 2011 are as follows (in thousands):

	September 30, 2012	December 31, 2011
Real estate, net	\$45,210	\$337,074
Other assets	1,265	11,028
Assets held for sale	\$46,475	\$348,102
Property debt	\$46,418	\$314,906
Other liabilities	311	3,012
Liabilities related to assets held for sale	\$46,729	\$317,918

During the nine months ended September 30, 2012 and 2011, we sold or disposed of our interest in 50 properties and 39 properties with an aggregate of 7,845 units and 6,701 units, respectively. During the year ended December 31, 2011, we sold or disposed of our interest in 67 consolidated properties with an aggregate of 10,912 units. For the three and nine months ended September 30, 2012 and 2011, discontinued operations includes the results of operations for the periods prior to the date of disposition for all properties disposed of and for properties classified as held for sale as of September 30, 2012.

Table of Contents

The following is a summary of the components of income from discontinued operations and the related amounts of income from discontinued operations attributable to Aimco, the Aimco Operating Partnership and noncontrolling interests for the three and nine months ended September 30, 2012 and 2011 (in thousands):

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2012	2011	2012	2011
Rental and other property revenues	\$7,297	\$30,365	\$37,244	\$104,551
Property operating expenses	(5,020)	(17,279)	(16,970)	(54,643)
Depreciation and amortization	(2,549)	(10,565)	(15,013)	(36,365)
Provision for real estate impairment losses	(2,453)	(5,671)	(8,837)	(11,979)
Operating (loss) income	(2,725)	(3,150)	(3,576)	1,564
Interest income	55	180	185	1,019
Interest expense	(1,872)	(5,946)	(6,605)	(20,171)
Loss before gain on dispositions of real estate and income tax	(4,542)	(8,916)	(9,996)	(17,588)
Gain on dispositions of real estate	55,721	37,467	139,925	64,901
Income tax (expense) benefit	(2,413)	377	(8,047)	701
Income from discontinued operations, net	\$48,766	\$28,928	\$121,882	\$48,014
Income from discontinued operations attributable to noncontrolling interests in consolidated real estate partnerships	(11,683)	(11,838)	(22,902)	(16,924)
Income from discontinued operations attributable to the Aimco Operating Partnership	\$37,083	\$17,090	98,980	31,090
Income from discontinued operations attributable to noncontrolling interests in Aimco Operating Partnership	(2,141)	(1,127)	(6,012)	(2,063)
Income from discontinued operations attributable to Aimco	\$34,942	\$15,963	\$92,968	\$29,027

Gain on dispositions of real estate is reported net of incremental direct costs incurred in connection with the transactions, including any prepayment penalties incurred upon repayment of property loans collateralized by the properties being sold. Such prepayment penalties totaled \$6.4 million and \$8.9 million for the three and nine months ended September 30, 2012, respectively, and \$2.6 million and \$7.6 million for the three and nine months ended September 30, 2011, respectively. We classify interest expense related to property debt within discontinued operations when the related real estate asset is sold or classified as held for sale.

In connection with properties sold or classified as held for sale during the three and nine months ended September 30, 2012, we allocated \$2.9 million and \$5.0 million, respectively, of goodwill related to our conventional and affordable segments to the carrying amounts of the properties sold or classified as held for sale. In connection with properties sold or classified as held for sale during the three and nine months ended September 30, 2011, we allocated \$1.0 million and \$2.7 million, respectively, of goodwill related to our conventional and affordable segments to the carrying amounts of the properties sold or classified as held for sale. The amounts of goodwill allocated to these properties were based on the relative fair values of the properties sold or classified as held for sale and the retained portions of the reporting units to which the goodwill was allocated.

In connection with our real estate dispositions during the three and nine months ended September 30, 2012, the purchasers assumed approximately \$92.3 million and \$148.6 million, respectively, of non-recourse property debt, and during the three and nine months ended September 30, 2011 the purchasers assumed \$95.4 million and \$120.9 million, respectively, of non-recourse property debt.

Table of Contents

NOTE 4 — Other Significant Transactions

Investments in Real Estate Properties

During the periods presented, we acquired conventional properties as set forth in the table below (dollars in thousands):

	Three Months Ended		
	September 30, 2012	June 30, 2012	March 31, 2012
Property location	San Diego, CA	Manhattan, NY	Phoenix, AZ
Number of residential units	84	42	488
Acquisition price	\$19,814	\$38,245	\$72,310
Non-recourse property debt assumed (outstanding principal balance)	\$9,695	\$—	\$29,124
Non-recourse property debt assumed (fair value)	\$10,684	\$—	\$33,254

Equity and Partners' Capital Transactions

During the nine months ended September 30, 2012, Aimco completed two public offerings resulting in the sale of an aggregate 22,144,200 shares of its Common Stock, generating net proceeds of \$594.4 million, or net proceeds per share of \$26.84. In addition, during the nine months ended September 30, 2012, the holders of near-term expiring stock options exercised 2,041,934 stock options with a weighted average exercise price of \$23.01 per option for proceeds to Aimco of \$47.0 million. The shares received upon exercise of the options were then sold by the stockholders as part of one of the public offerings discussed above. Aimco contributed the net proceeds from the sale of shares of Common Stock and exercise of the stock options to the Aimco Operating Partnership in exchange for a number of common partnership units equal to the number of shares issued and sold.

During the nine months ended September 30, 2012, using primarily the proceeds from these Common Stock issuances, Aimco redeemed all of its outstanding shares of Class T, Class U, Class V and Class Y Cumulative Preferred Stock. The following table summarizes these preferred stock redemptions (in thousands, except share amounts):

	Nine Months Ended September 30, 2012			
	Class T	Class U	Class V	Class Y
Class of preferred stock redeemed	Class T	Class U	Class V	Class Y
Shares of preferred stock redeemed	6,000,000	12,000,000	2,587,500	3,450,000
Redemption value of preferred stock redeemed	\$150,000	\$300,000	\$64,688	\$86,250
Accrued and unpaid dividends paid at redemption	\$2,067	\$775	\$891	\$1,166
Previously deferred issuance costs recognized as an adjustment of net income attributable to Aimco preferred stockholders	\$5,193	\$10,137	\$2,350	\$2,987

In connection with these redemptions by Aimco, the Aimco Operating Partnership redeemed from Aimco all of the outstanding units of its Class T, Class U, Class V and Class Y Partnership Preferred Units.

During the nine months ended September 30, 2012, Aimco issued 405,090 shares of its 7.00% Class Z Cumulative Preferred Stock, par value \$0.01 per share, through its preferred stock at-the-market, or ATM, offering program, for net proceeds per share of \$24.27 (reflecting an average price to the public of \$24.78 per share, less commissions and transaction costs of \$0.51 per share). The offerings generated net proceeds of \$9.8 million. Aimco contributed the net proceeds from the sale of such shares of preferred stock to the Aimco Operating Partnership in exchange for an equal number of the Aimco Operating Partnership's 7.00% Class Z Cumulative Preferred Partnership Units.

Acquisitions of Noncontrolling Partnership Interests

During the nine months ended September 30, 2012, we acquired the remaining noncontrolling limited partnership interests in 11 consolidated real estate partnerships that own 17 properties and for which our affiliates serve as general partner, for a total cost of \$50.6 million. The Aimco Operating Partnership recognized the \$44.4 million excess of the consideration paid over the carrying amount of the noncontrolling interests acquired as an adjustment of additional paid-in capital within partners' capital (which is included in effects of changes in ownership for consolidated entities in the reconciliation of partners' capital included in Note 2). This amount is allocated between Aimco and noncontrolling

interests in the Aimco Operating Partnership within Aimco's consolidated financial statements.

16

Table of Contents

NOTE 5 — Variable Interest Entities

As of September 30, 2012, we were the primary beneficiary of, and therefore consolidated, 107 VIEs, which owned 73 apartment properties with 12,273 units. Real estate with a carrying value of \$741.7 million collateralized \$617.7 million of debt of those VIEs. Any significant amounts of assets and liabilities related to our consolidated VIEs are identified parenthetically on our accompanying condensed consolidated balance sheets. The creditors of the consolidated VIEs do not have recourse to our general credit.

As of September 30, 2012, we also held variable interests in 158 VIEs for which we were not the primary beneficiary. Those VIEs consist primarily of partnerships that are engaged, directly or indirectly, in the ownership and management of 211 apartment properties with 10,943 units. We are involved with those VIEs as an equity holder, lender, management agent, or through other contractual relationships. Approximately \$17.8 million of our investment in unconsolidated VIEs at September 30, 2012, are held through consolidated partnerships that are VIEs and in which we generally hold a 1% or less general partner or equivalent interest. Accordingly, substantially all of the investment balances related to these unconsolidated VIEs are attributed to the noncontrolling interests in the consolidated investment partnerships that hold the investments in these unconsolidated VIEs. Our maximum risk of loss related to our investment in these VIEs is generally limited to our equity interest in the consolidated investment partnerships, which is insignificant. The remainder of our investment in unconsolidated VIEs, or approximately \$4.7 million at September 30, 2012, is held through consolidated investment partnerships that are VIEs and in which we hold substantially all of the economic interests. Our maximum risk of loss related to our investment in these VIEs is limited to our \$4.7 million recorded investment in such entities.

As discussed in Note 1, we have entered into an agreement to sell our interests in a portfolio of properties upon satisfaction of certain conditions and regulatory approvals. As of September 30, 2012, this portfolio included 36 consolidated VIEs that owned 16 properties and 111 unconsolidated VIEs that owned 111 properties.

In addition to our investments in unconsolidated VIEs discussed above, at September 30, 2012, we had in aggregate \$97.3 million of receivables from unconsolidated VIEs (primarily notes receivable collateralized by second mortgages on real estate properties as further discussed in Note 10) and we had a contractual obligation to advance funds to certain unconsolidated VIEs totaling \$2.5 million. Our maximum risk of loss associated with our lending and management activities related to these unconsolidated VIEs is limited to these amounts. We may be subject to additional losses to the extent of any receivables relating to future provision of services to these entities or financial support that we voluntarily provide.

As discussed in Note 8, noncompliance with applicable requirements related to our consolidated and unconsolidated tax credit partnerships, substantially all of which are VIEs, could result in projected tax credits not being realized and require a refund of investor contributions already received or a reduction of future investor contributions. We have not historically had, nor do we anticipate, any material refunds or reductions of investor capital contributions in connection with these arrangements.

NOTE 6 — Derivative Financial Instruments

We have limited exposure to derivative financial instruments. We primarily use long-term, fixed-rate and self-amortizing non-recourse debt to avoid, among other things, risk related to fluctuating interest rates. For our variable rate debt, we are sometimes required by our lenders to limit our exposure to interest rate fluctuations by entering into interest rate swap agreements, which moderate our exposure to interest rate risk by effectively converting the interest on variable rate debt to a fixed rate. The fair values of the interest rate swaps are reflected as assets or liabilities in the balance sheet, and periodic changes in fair value are included in interest expense or equity and partners' capital, as appropriate.

As of September 30, 2012 and December 31, 2011, we had interest rate swaps with aggregate notional amounts of \$52.3 million, and recorded fair values of \$8.3 million and \$7.0 million, respectively, reflected in accrued liabilities and other in our condensed consolidated balance sheets. At September 30, 2012, these interest rate swaps had a weighted average term of 8.4 years. We have designated these interest rate swaps as cash flow hedges and recognize any changes in their fair value as an adjustment of accumulated other comprehensive loss within equity to the extent of their effectiveness. Changes in the fair value of these instruments and the related amounts of such changes that were reflected as an adjustment of accumulated other comprehensive loss within equity and as an adjustment of earnings

(ineffectiveness) are discussed in Note 7.

If the forward rates at September 30, 2012 remain constant, we estimate that during the next 12 months, we would reclassify into earnings approximately \$1.7 million of the unrealized losses in accumulated other comprehensive loss. If market interest rates increase above the 3.43% weighted average fixed rate under these interest rate swaps we will benefit from net cash payments due to us from our counterparty to the interest rate swaps.

17

Table of Contents

At September 30, 2012 and December 31, 2011, we had borrowings payable subject to total rate of return swaps with aggregate outstanding principal balances of \$74.5 million and \$75.0 million, respectively, that were collateralized by four properties. We use total rate of return swaps to convert fixed-rate property debt obligations to a variable rate to lower our cost of borrowing. In exchange for our receipt of a fixed rate equal to the underlying borrowing's interest rate, the total rate of return swaps require that we pay a variable rate plus a risk spread. The underlying borrowings are callable at our option, with no prepayment penalty. We have designated the total rate of return swaps as hedges of the risk of overall changes in the fair value of the underlying borrowings. At each reporting period, we estimate the fair value of these borrowings and the total rate of return swaps and recognize any changes therein as an adjustment of interest expense. During the periods presented, we determined these hedges were fully effective and accordingly we made no adjustments to interest expense for ineffectiveness.

At September 30, 2012, the weighted average fixed receive rate under the total return swaps was 5.8% and the weighted average variable pay rate was 2.2%, based on the applicable index rate effective as of that date. The debt subject to these total rate of return swaps matures in 2036 whereas the corresponding swaps mature in May 2014. The total rate of return swaps require specified loan-to-value ratios which may require us to pay down the debt or provide additional collateral. At September 30, 2012 and December 31, 2011, we had provided \$20.0 million of cash collateral pursuant to the swap agreements, which is included in restricted cash in our condensed consolidated balance sheets.

NOTE 7 — Fair Value Measurements

In accordance with GAAP, we are required to measure certain assets and liabilities in our consolidated financial statements at fair value. Certain assets, such as our investment in the first loss and mezzanine positions in a securitization trust that holds certain of our property debt, our interest rate swaps (IR swaps), total rate of return swaps (TRR swaps), and the debt subject to TRR swaps (TRR debt) are required to be measured at fair value on a quarterly basis. Other assets, such as real estate, are required to be measured at fair value when we determine that that a held for use asset's carrying amount is no longer recoverable, or to be measured at fair value less estimated costs to sell when we determine that the carrying amount of an asset classified as held for sale is no longer recoverable.

We are required to classify these fair value measurements into one of three categories, based on the nature of the inputs used in the fair value measurement. Level 1 of the hierarchy includes fair value measurements based on unadjusted quoted prices in active markets for identical assets or liabilities we can access at the measurement date. Level 2 includes fair value measurements based on inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Level 3 includes fair value measurements based on unobservable inputs. The classification of fair value measurements is subjective and GAAP requires us to disclose more detailed information regarding those fair value measurements classified within the lower levels of the hierarchy.

Recurring Fair Value Measurements

The table below presents information regarding significant items measured in our condensed consolidated financial statements at fair value on a recurring basis, consisting of investments in the securitization trust discussed above, which we classify as available for sale (AFS), IR swaps, TRR swaps and TRR debt (in thousands):

Table of Contents

	Level 2		Level 3		
	AFS (1)	IR swaps (2)	TRR swaps (3)	TRR debt (4)	Total
Fair value at December 31, 2010	\$—	\$(2,746)	\$(19,542)	\$19,542	\$(2,746)
Purchases	51,534	—	—	—	51,534
Investment accretion	939	—	—	—	939
Unrealized gains (losses) included in earnings (5)	—	(36)	11,772	(11,772)	(36)
Realized gains (losses) included in earnings	—	—	—	—	—
Unrealized gains (losses) included in equity and partners' capital	(3,428)	(3,814)	—	—	(7,242)
Fair value at September 30, 2011	\$49,045	\$(6,596)	\$(7,770)	\$7,770	\$42,449
Fair value at December 31, 2011	\$51,693	\$(7,012)	\$(5,841)	\$5,841	\$44,681
Investment accretion	2,303	—	—	—	2,303
Unrealized gains (losses) included in earnings (5)	—	(36)	4,259	(4,259)	(36)
Realized gains (losses) included in earnings	—	—	—	—	—
Unrealized gains (losses) included in equity and partners' capital	1,655	(1,285)	—	—	370
Fair value at September 30, 2012	\$55,651	\$(8,333)	\$(1,582)	\$1,582	\$47,318

Our investments classified as AFS are presented within other assets in the accompanying condensed consolidated balance sheets. We estimate the fair value of these investments using an income and market approach with primarily observable inputs, including yields and other information regarding similar types of investments, and adjusted for certain unobservable inputs specific to these investments. We are accreting the discount to the \$100.9 (1) million face value of the investments into interest income using the effective interest method over the remaining expected term of the investments, which, as of September 30, 2012, was approximately 8.8 years. Our amortized cost basis for these investments, which represents the original cost adjusted for interest accretion less interest payments received, was \$55.5 million and \$53.2 million at September 30, 2012 and December 31, 2011, respectively.

The fair value of IR swaps is estimated using an income approach with primarily observable inputs including (2) information regarding the hedged variable cash flows and forward yield curves relating to the variable interest rates on which the hedged cash flows are based.

TRR swaps have contractually-defined termination values generally equal to the difference between the fair value and the counterparty's purchased value of the underlying borrowings. We calculate the termination value, which we (3) believe is representative of the fair value, of total rate of return swaps using a market approach by reference to estimates of the fair value of the underlying borrowings, which are discussed below, and an evaluation of potential changes in the credit quality of the counterparties to these arrangements.

This represents changes in fair value of debt subject to TRR swaps. We estimate the fair value of debt instruments using an income and market approach, including comparison of the contractual terms to observable and (4) unobservable inputs such as market interest rate risk spreads, contractual interest rates, remaining periods to maturity, collateral quality and loan-to-value ratios on similarly encumbered assets within our portfolio. We handle a large volume of financing transactions annually and use pricing information obtained during the financing process to evaluate market pricing information for reasonableness.

Unrealized gains (losses) for the TRR swaps and TRR debt relate to periodic revaluations of fair value, including (5) revaluations resulting from repayment of the debt at par, and have not resulted from the settlement of a swap position as we have not historically incurred any termination payments upon settlement. These unrealized gains (losses) are included in interest expense in the accompanying condensed consolidated statements of operations.

Due to their subjectivity, GAAP requires us to disclose additional quantitative and qualitative information about the unobservable inputs significant to our Level 3 fair value measurements. The unobservable inputs significant to our estimation of the fair value of TRR debt classified within Level 3 includes information about the property debt, such as the payment schedule, contractual interest rate and loan-to-value ratio (computed using real estate values estimated as described below). Based on the impracticality of providing payment schedules for our nonrecourse property debt measured at fair value, we believe the disclosure of the weighted average maturity date is meaningful in the context of the related valuation input. Information regarding the weighted average unobservable inputs for TRR debt measured at fair value during the nine months ended September 30, 2012 and 2011 is as follows:

19

Table of Contents

	2012	2011		
Number of properties encumbered by nonrecourse property debt measured at fair value during period	4	7		
Weighted average interest rate	5.8	% 6.3	%	
Weighted average maturity in years	24.2	22.9		
Weighted average loan-to-value ratio	76.7	% 71.8	%	

Of these unobservable inputs significant to the TRR debt fair value measurement, the loan-to-value ratio is the only input to which the fair value measurement is sensitive to changes, as the property debt interest rates and maturities are not subject to adjustment. Holding constant the other observable inputs which may also be significant to the fair value measurement, such as market interest rates for similar types of debt, we believe any increase in the loan-to-value ratios for the TRR debt would result in a decrease in the fair value of the TRR debt and any decrease in the loan-to-value ratios would result in an increase in the fair value of the TRR debt. Based on the relationship of the fair value of the TRR debt to that of the TRR swaps, we believe any increase or decrease in the fair value of the TRR debt would have an equal and offsetting decrease or increase in the fair value of the TRR swaps, and therefore would have no effect on our financial position, results of operations or liquidity.

Nonrecurring Fair Value Measurements

During the nine months ended September 30, 2012, we reduced the aggregate carrying amounts of 11 assets classified as held for use or held for sale from \$85.7 million to their estimated fair values of \$69.2 million, resulting in an impairment loss of \$16.5 million. During the nine months ended September 30, 2011, we reduced the aggregate carrying amounts of nine assets classified as held for sale from \$70.1 million to their estimated fair values of \$59.5 million, resulting in an impairment loss of \$10.6 million.

The fair values for the properties we impaired during these periods were based primarily on contract prices for pending sales or expected sales values of the properties. The contract prices were based in part on unobservable inputs classified within Level 3 of the fair value hierarchy, but were also based on observable inputs that can be validated to observable external sources, such as pricing information about widely marketed real estate properties for sale.

The unobservable inputs significant to our estimation of the fair value of real estate impaired during the periods include, among other things, information such as the properties' net operating income, or NOI, free cash flow, or FCF, which represents the property's NOI less capital spending required to maintain the condition of the property, and assumptions about NOI and FCF growth rates and exit values. A FCF internal rate of return, which represents the rate of return generated by discounting the expected FCF from the property and the proceeds from its eventual sale, is a common benchmark used in the real estate industry for relative comparison of real estate valuations. The projected cash flows, including the expected sales prices, on which the impairment losses were based translated to weighted average implied FCF internal rates of return of 7.36% and 6.56% for the properties impaired during the nine months ended September 30, 2012 and 2011, respectively.

Fair Value Disclosures

We believe that the aggregate fair value of our cash and cash equivalents, receivables and payables approximates their aggregate carrying amounts at September 30, 2012 and December 31, 2011, due to their relatively short-term nature and high probability of realization. The estimated aggregate fair value of our notes receivable (including notes receivable from unconsolidated real estate partnerships, which we classify within other assets in our consolidated balance sheets) was approximately \$99.9 million and \$107.9 million at September 30, 2012 and December 31, 2011, respectively, as compared to their carrying amounts of \$108.5 million and \$117.9 million, respectively. The estimated aggregate fair value of our consolidated debt (including amounts reported in liabilities related to assets held for sale) was approximately \$5.4 billion at both September 30, 2012 and December 31, 2011, as compared to aggregate carrying amounts of \$5.0 billion and \$5.2 billion, respectively. We classify within Level 3 of the valuation hierarchy the fair values of our notes receivable and consolidated debt disclosed above, based on the significance of certain of the unobservable inputs used to estimate their fair values. The fair value of our notes receivable and consolidated debt is estimated using a methodology consistent with that described above for the property debt we measure at fair value on a recurring and nonrecurring basis.

Table of Contents

NOTE 8 — Commitments and Contingencies

Commitments

In connection with our redevelopment and capital improvement activities, we have commitments of approximately \$61.3 million related to construction projects, most of which we expect to incur during the next 12 months. Pursuant to financing arrangements on our Lincoln Place, Pacific Bay Vistas, The Preserve at Marin and Elm Creek conventional redevelopment properties, we are contractually obligated to complete the planned projects. Additionally, we enter into certain commitments for future purchases of goods and services in connection with the operations of our properties. Those commitments generally have terms of one year or less and reflect expenditure levels comparable to our historical expenditures.

As discussed in Note 5, we have committed to fund an additional \$2.5 million to increase loans secured by certain properties in West Harlem in New York City. In certain circumstances, the obligor on these notes has the right to put these properties to us, which would result in a cash payment by us of approximately \$31.0 million and our assumption of approximately \$118.2 million in property debt. The exercise of the put is conditioned on the achievement of specified rent levels at the properties.

Tax Credit Arrangements

We are required to manage certain consolidated real estate partnerships in compliance with various laws, regulations and contractual provisions that apply to our historic and low-income housing tax credit syndication arrangements. In some instances, noncompliance with applicable requirements could result in projected tax benefits not being realized and require a refund or reduction of investor capital contributions, which are reported as deferred income in our consolidated balance sheet, until such time as our obligation to deliver tax benefits is relieved. The remaining compliance periods for our tax credit syndication arrangements range from less than one year to 14 years. We do not anticipate that any material refunds or reductions of investor capital contributions will be required in connection with these arrangements.

Legal Matters

In addition to the matters described below, we are a party to various legal actions and administrative proceedings arising in the ordinary course of business, some of which are covered by our general liability insurance program, and none of which we expect to have a material adverse effect on our consolidated financial condition, results of operations or cash flows.

Limited Partnerships

In connection with our acquisitions of interests in real estate partnerships, we are sometimes subject to legal actions, including allegations that such activities may involve breaches of fiduciary duties to the partners of such real estate partnerships or violations of the relevant partnership agreements. We may incur costs in connection with the defense or settlement of such litigation. We believe that we comply with our fiduciary obligations and relevant partnership agreements. Although the outcome of any litigation is uncertain, we do not expect any such legal actions to have a material adverse effect on our consolidated financial condition, results of operations or cash flows.

During 2011, we mediated a previously disclosed dispute with respect to mergers completed early in 2011 in which we acquired the remaining noncontrolling interests in six consolidated real estate partnerships. As a result of the mediation we agreed to pay the limited partners additional consideration of \$7.5 million for their partnership units, which we included in the total consideration paid for the noncontrolling interests we acquired. Final approvals of the settlement were granted and we paid the additional consideration resulting from the settlement during the nine months ended September 30, 2012.

Table of Contents

Environmental

Various Federal, state and local laws subject property owners or operators to liability for management, and the costs of removal or remediation, of certain potentially hazardous materials present on a property, including lead-based paint, asbestos, polychlorinated biphenyls, petroleum-based fuels, and other miscellaneous materials. Such laws often impose liability without regard to whether the owner or operator knew of, or was responsible for, the release or presence of such materials. The presence of, or the failure to manage or remedy properly, these materials may adversely affect occupancy at affected apartment communities and the ability to sell or finance affected properties. In addition to the costs associated with investigation and remediation actions brought by government agencies, and potential fines or penalties imposed by such agencies in connection therewith, the improper management of these materials on a property could result in claims by private plaintiffs for personal injury, disease, disability or other infirmities. Various laws also impose liability for the cost of removal, remediation or disposal of these materials through a licensed disposal or treatment facility. Anyone who arranges for the disposal or treatment of these materials is potentially liable under such laws for the proper operation of the disposal facility. These laws often impose liability whether or not the person arranging for the disposal ever owned or operated the disposal facility. In connection with the ownership, operation and management of properties, we could potentially be responsible for environmental liabilities or costs associated with our properties or properties we acquire or manage in the future.

We have determined that our legal obligations to remove or remediate certain potentially hazardous materials may be conditional asset retirement obligations, as defined in GAAP. Except in limited circumstances where the asset retirement activities are expected to be performed in connection with a planned construction project or property casualty, we believe that the fair value of our asset retirement obligations cannot be reasonably estimated due to significant uncertainties in the timing and manner of settlement of those obligations. Asset retirement obligations that are reasonably estimable as of September 30, 2012, are immaterial to our consolidated financial condition, results of operations and cash flows.

NOTE 9 — Earnings (Loss) per Share/Unit

Aimco

Aimco calculates earnings (loss) per share based on the weighted average number of shares of Common Stock, participating securities, common stock equivalents and dilutive convertible securities outstanding during the period. The following table illustrates Aimco's calculation of basic and diluted earnings (loss) per share for the three and nine months ended September 30, 2012 and 2011 (in thousands, except per share data):

Table of Contents

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2012	2011	2012	2011
Numerator:				
Income (loss) from continuing operations	\$4,569	\$(24,271)	\$(23,769)	\$(97,605)
(Income) loss from continuing operations attributable to noncontrolling interests	(730)	6,866	(5,669)	24,425
Income attributable to preferred stockholders	(14,515)	(13,301)	(49,136)	(35,429)
Income attributable to participating securities	(103)	(58)	(317)	(169)
Loss from continuing operations attributable to Aimco common stockholders	\$(10,779)	\$(30,764)	\$(78,891)	\$(108,778)
Income from discontinued operations	\$48,766	\$28,928	\$121,882	\$48,014
Income from discontinued operations attributable to noncontrolling interests	(13,824)	(12,965)	(28,914)	(18,987)
Income from discontinued operations attributable to Aimco common stockholders	\$34,942	\$15,963	\$92,968	\$29,027
Net income (loss)	\$53,335	\$4,657	\$98,113	\$(49,591)
Net (income) loss attributable to noncontrolling interests	(14,554)	(6,099)	(34,583)	5,438
Income attributable to preferred stockholders	(14,515)	(13,301)	(49,136)	(35,429)
Income attributable to participating securities	(103)	(58)	(317)	(169)
Net income (loss) attributable to Aimco common stockholders	\$24,163	\$(14,801)	\$14,077	\$(79,751)
Denominator:				
Denominator for basic earnings per share — weighted average number of shares of Common Stock outstanding	144,959	120,339	130,960	118,939

Denominator for diluted earnings per share	144,959	120,339	130,960	118,939
Earnings (loss) per common share – basic and diluted:				
Loss from continuing operations attributable to Aimco common stockholders	\$(0.07)	\$(0.26)	\$(0.60)	\$(0.91)
Income from discontinued operations attributable to Aimco common stockholders	0.24	0.14	0.71	0.24
Net income (loss) attributable to Aimco common stockholders	\$0.17	\$(0.12)	\$0.11	\$(0.67)

The Aimco Operating Partnership

The Aimco Operating Partnership calculates earnings (loss) per unit based on the weighted average number of common partnership units and equivalents, participating securities and dilutive convertible securities outstanding during the period. The Aimco Operating Partnership considers both common OP Units and HPU, which have identical rights to distributions and undistributed earnings, to be common units for purposes of the earnings per unit data presented below. The following table illustrates the Aimco Operating Partnership's calculation of basic and diluted earnings (loss) per unit for the three and nine months ended September 30, 2012 and 2011 (in thousands, except per unit data):

Table of Contents

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2012	2011	2012	2011
Numerator:				
Income (loss) from continuing operations	\$4,569	\$(23,447)	\$(23,769)	\$(96,345)
Loss (income) from continuing operations attributable to noncontrolling interests	349	6,374	(5,862)	21,536
Income attributable to the Partnership's preferred unitholders	(16,124)	(14,971)	(54,026)	(40,441)

Income from discontinued operations attributable to the Partnership's common unitholders	0.24	0.13	0.71	0.24
Net income (loss) attributable to the Partnership's common unitholders	\$0.17	\$(0.12)	\$0.11	\$(0.66)

Aimco and the Aimco Operating Partnership

As of September 30, 2012 and 2011, the common share equivalents or common partnership unit equivalents that could potentially dilute basic earnings per share or unit in future periods totaled 3.1 million and 6.8 million, respectively. These securities represent options to purchase shares of Common Stock, which, if exercised, would result in Aimco's issuance of additional shares and the Aimco Operating Partnership's issuance to Aimco of additional common partnership units equal to the number of shares purchased under the options. These securities have been excluded from the earnings (loss) per share or unit computations for the three and nine months ended September 30, 2012 and 2011, because their effect would have been anti-dilutive. Participating securities, consisting primarily of unvested restricted shares of Common Stock, receive dividends similar to shares of Common Stock and common partnership units and totaled 0.5 million at both September 30, 2012 and 2011, respectively. The effect of participating securities is included in basic and diluted earnings (loss) per share and unit computations for the periods presented above using the two-class method of allocating distributed and undistributed earnings.

Various classes of preferred OP Units of the Aimco Operating Partnership are outstanding. Depending on the terms of each class, these preferred OP Units are convertible into common OP Units or redeemable for cash or, at the Aimco Operating Partnership's option, Common Stock, and are paid distributions varying from 1.8% to 8.8% per annum per unit, or equal to the dividends paid on Common Stock based on the conversion terms. As of September 30, 2012, a total of 2.9 million preferred OP Units were outstanding with an aggregate redemption value of \$79.3 million and were potentially redeemable for approximately 3.0 million shares of Common Stock (based on the period end market price), or cash at the Aimco Operating Partnership's option.

Table of Contents

The Aimco Operating Partnership has a redemption policy that requires cash settlement of redemption requests for the preferred OP Units, subject to limited exceptions. The potential dilutive effect of these securities would have been antidilutive in the periods presented. Additionally, based on the Aimco Operating Partnership's cash redemption policy, they may also be excluded from future earnings (loss) per share or unit computations in periods during which their effect is dilutive.

NOTE 10 — Notes Receivable

Our notes receivable generally have stated maturity dates and may require current payments of principal and interest. Repayment of these notes is subject to a number of variables, including the performance and value of the underlying real estate properties and the claims of unaffiliated mortgage lenders, which are generally senior to our claims. Our notes receivable consist of two classes: loans extended by us that we carry at the face amount plus accrued interest, which we refer to as "par value notes," and loans extended by us that were discounted at origination, which we refer to as "discounted notes."

We recognize interest income on par value notes as earned in accordance with the terms of the related loan agreements. We recognize interest income on discounted notes that we originated using the effective interest method. We assess the collectability of notes receivable on a periodic basis, which assessment consists primarily of an evaluation of the projected cash flow of the borrower to determine whether estimated cash flows are sufficient to repay principal and interest in accordance with the contractual terms of the note. We update our projections of the cash flow of such borrowers annually, and more frequently for certain loans depending on facts and circumstances. We recognize impairments on notes receivable when it is probable that principal and interest will not be received in accordance with the contractual terms of the loan. Factors that affect this assessment include the fair value of the partnership's real estate, pending transactions to refinance the partnership's senior obligations or sell the partnership's real estate, and market conditions (current and forecasted) related to a particular asset. In certain instances where other sources of cash flow are available to repay the loan, the impairment is measured by discounting the estimated cash flows at the loan's original effective interest rate.

The following table summarizes our notes receivable as of September 30, 2012 and December 31, 2011 (in thousands):

	September 30, 2012	December 31, 2011
Par value notes	\$6,248	\$15,695
Discounted notes	97,040	95,510
Total notes receivable	\$103,288	\$111,205
Face value of discounted notes	\$103,966	\$103,471

Notes receivable have various annual interest rates ranging between 2.2% and 8.8% and averaging 4.0%. Included in the notes receivable at September 30, 2012 and December 31, 2011 are \$100.7 million and \$99.3 million, respectively, in notes that were secured by interests in real estate or interests in real estate partnerships.

As of September 30, 2012, substantially all of our par value notes outstanding had stated maturity dates and the remainder had no stated maturity dates and were governed by the terms of the partnership agreements pursuant to which the loans were extended. At September 30, 2012, none of the par value notes with stated maturity dates were past due. All of our discounted notes have stated maturity dates and none are past due. All of the notes receivable shown above are estimated to be collectible and have not been impaired for the periods presented.

NOTE 11 — Business Segments

We have two reportable segments: conventional real estate operations and affordable real estate operations. Our conventional real estate operations consist of market-rate apartments with rents paid by the residents and included 183 properties with 57,744 units at September 30, 2012. Our affordable real estate operations consisted of 136 properties with 17,097 units at September 30, 2012, with rents that are generally paid, in whole or part, by a government agency. Our chief executive officer, who is our chief operating decision maker, uses various generally accepted industry financial measures to assess the performance and financial condition of the business, including: Net Asset Value, which is the estimated fair value of our assets, net of liabilities and preferred equity; Funds From Operations, which represents net income or loss computed in accordance with GAAP, excluding gains from sales of, and impairment

losses recognized with respect to, depreciable property, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures; Pro forma Funds From Operations, which is Funds From Operations excluding preferred equity redemption related amounts; Adjusted Funds From

Table of Contents

Operations, which is Pro forma Funds From Operations less spending for capital replacements, which represents our estimation of the capital additions required to maintain the value of our portfolio during our ownership period; property net operating income, which is rental and other property revenues less direct property operating expenses, including real estate taxes; proportionate property net operating income, which reflects our share of property net operating income of our consolidated and unconsolidated properties that we manage; same store property operating results; Free Cash Flow, which is net operating income less spending for Capital Replacements; Free Cash Flow internal rate of return; financial coverage ratios; and leverage as shown on our balance sheet. Our chief operating decision maker emphasizes proportionate property net operating income as a key measurement of segment profit or loss.

The following tables present the revenues, net operating income (loss) and income (loss) from continuing operations of our conventional and affordable real estate operations segments on a proportionate basis for the three and nine months ended September 30, 2012 and 2011 (in thousands):

Represents adjustments for the noncontrolling interests in consolidated real estate partnerships' share of the results of our consolidated properties and the results of consolidated properties that we do not manage, which are excluded (1) from our measurement of segment performance but included in the related consolidated amounts, and our share of the results of operations of our unconsolidated real estate partnerships that we manage, which are included in our measurement of segment performance but excluded from the related consolidated amounts.

Proportionate property net operating income, our key measurement of segment profit or loss, excludes provision for operating real estate impairment losses, property management revenues (which are included in rental and other (2) property revenues), property management expenses and casualty gains and losses (which are included in property operating expenses) and depreciation and amortization. Accordingly, we do not allocate these amounts to our segments.

(3)

In addition to the other items included in continuing operations presented in the table for the three and nine months ended September 30, 2011, the Aimco Operating Partnership recognized \$0.8 million and \$1.3 million, respectively, of interest income on its notes receivable from Aimco. These notes were repaid by Aimco during the three months ended December 31, 2011.

For the nine months ended September 30, 2012 and 2011, capital additions related to our conventional segment totaled \$174.7 million and \$111.2 million, respectively, and capital additions related to our affordable segment totaled \$11.1 million and \$12.2 million, respectively.

ITEM 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

Forward Looking Statements

The Private Securities Litigation Reform Act of 1995 provides a “safe harbor” for forward-looking statements in certain circumstances. Certain information included in this Report contains or may contain information that is forward-looking, within the meaning of the federal securities laws, including, without limitation, statements regarding our ability to maintain current or meet projected occupancy, rental rates and property operating results, the effect of acquisitions, dispositions and redevelopments and our ability to comply with debt covenants, including financial coverage ratios. Actual results may differ materially from those described in these forward-looking statements and, in addition, will be affected by a variety of risks and factors, some of which are beyond our control, including, without limitation: financing risks, including the availability and cost of financing and the risk that our cash flows from operations may be insufficient to meet required payments of principal and interest; earnings may not be sufficient to maintain compliance with debt covenants; real estate risks, including fluctuations in real estate values and the general economic climate in the markets in which we operate and competition for residents in such markets; national and local economic conditions, including the pace of job growth and the level of unemployment; the terms of governmental regulations that affect us and interpretations of those regulations; the competitive environment in which we operate; the timing of acquisitions, dispositions and redevelopments; insurance risk, including the cost of insurance; natural disasters and severe weather such as hurricanes; litigation, including costs associated with prosecuting or defending claims and any adverse outcomes; energy costs; and possible environmental liabilities, including costs, fines or penalties that may be incurred due to necessary remediation of contamination of properties presently owned or previously owned by us. In addition, our current and continuing qualification as a real estate investment trust involves the application of highly technical and complex provisions of the Internal Revenue Code and depends on our ability to meet the various requirements imposed by the Internal Revenue Code, through actual operating results, distribution levels and diversity of stock ownership. Readers should carefully review our financial statements and the notes thereto, as well as the section entitled “Risk Factors” described in Item 1A of Apartment Investment and Management Company’s and AIMCO Properties, L.P.’s Annual Reports on Form 10-K for the year ended December 31, 2011, and the other documents we file from time to time with the Securities and Exchange Commission. As used herein and except as the context otherwise requires, “we,” “our” and “us” refer to Apartment Investment and Management Company (which we refer to as Aimco), AIMCO Properties, L.P. (which we refer to as the Aimco Operating Partnership) and their consolidated entities, collectively.

Executive Overview

Aimco is a self-administered and self-managed real estate investment trust, or REIT. The Aimco Operating Partnership is the operating partnership for Aimco and conducts our business, which is focused on the ownership, management and redevelopment of quality apartment communities located in the largest markets in the United States. Our business activities are defined by a commitment to our core values of integrity, respect, collaboration, a focus on our customers and a performance culture. These values and our corporate mission, to consistently provide quality apartment homes in a respectful environment delivered by a team of people who care, continually shape our culture. In all our dealings with residents, team members, business partners and equity holders, we aim to be the best owner and operator of apartment communities and an outstanding corporate citizen.

Our principal financial objective is to provide predictable and attractive returns to our equity holders. Our business plan to achieve this objective is to:

- operate our nationwide portfolio of desirable apartment homes with valued amenities and extraordinary customer service in an efficient manner that realizes the benefits of our local management expertise;
- improve our diversified portfolio of “A,” “B” and “C” quality conventional apartment properties (defined below), which average “B/B+” in quality, and are diversified among select coastal and job growth markets in the United States by selling each year the lowest rated 5% to 10% of the portfolio and investing the proceeds from such sales through redevelopment and acquisition of higher-quality properties; and
- provide financial leverage primarily by the use of non-recourse, long-dated, fixed-rate property debt and perpetual preferred equity, a combination which helps to limit our refunding and re-pricing risk and provides a hedge against increases in interest rates, capitalization rates and inflation.

Our owned real estate portfolio consists primarily of conventional real estate properties. Our conventional property operations consist of market-rate apartments with rents paid by the residents and included 183 properties with 57,744 units in which we held an average ownership of 97% as of September 30, 2012. We also operate a portfolio of affordable properties. Our affordable property operations consist of apartments with rents that are generally paid, in whole or part, by a government agency and consisted of 136 properties with 17,097 units in which we held an average ownership of 61% as of September 30, 2012. Our conventional and affordable property operations comprise our reportable segments and generated 88% and 12%, respectively, of our proportionate property net operating income (defined below under “Results of Operations – Real Estate Operations”) during the nine months

Table of Contents

ended September 30, 2012. Over the next four to five years, we expect to sell essentially all of our affordable properties and reinvest this capital into our conventional portfolio.

For the three months ended September 30, 2012, our conventional portfolio revenues averaged \$1,332 per effective unit and provided 63% operating margins. The average revenue per effective unit increased 8.0% from average revenues of \$1,233 for the three months ended September 30, 2011, as a result of year-over-year revenue growth of 4.9% and the sale of conventional properties during 2011 and 2012 with average revenues per unit substantially lower than those of the retained portfolio. During the three months ended September 30, 2012, on average, combined conventional new and renewal lease rates were 4.8% higher than expiring lease rates. During the three months ended September 30, 2012, the net operating income of our total same store properties and total real estate operations increased by 6.9% and 7.6%, respectively, as compared to the three months ended September 30, 2011.

Our portfolio strategy seeks predictable rent growth from a portfolio of “A,” “B” and “C” quality conventional apartment properties, which average “B/B+” in quality and are diversified among the largest coastal and job growth markets in the United States, as measured by total apartment value. We measure conventional property quality based on average rents of our units compared to local market average rents as reported by a third-party provider of commercial real estate performance and analysis, with A-quality properties earning rents greater than 125% of local market average, B-quality properties earning rents 90% to 125% of local market average and C-quality properties earning rents less than 90% of local market average. We classify as B/B+ those properties earning rents ranging from 100% to 125% of local market average. Although some companies and analysts within the multifamily real estate industry use property class ratings of A, B and C, some of which are tied to local market rent averages, the metrics used to classify property quality as well as the timing for which local markets rents are calculated may vary from company to company. Accordingly, our rating system for measuring property quality is neither broadly nor consistently used in the multifamily real estate industry.

We upgrade the quality of our portfolio through the sale of properties with lower projected returns, which are often in markets we deem less desirable than our target markets, and reinvest these proceeds through the purchase of other properties or additional investment in properties already in our portfolio, including increased ownership or redevelopment. Increasing our ownership in properties in our portfolio is attractive as we already operate these properties and know them well, and these acquisitions are especially accretive where we can eliminate overhead costs associated with these partnerships. During the nine months ended September 30, 2012, we used proceeds from property sales, the assumption of property debt and new property debt to fund \$70.6 million of redevelopment spending on our conventional properties, the acquisition for \$50.6 million of the noncontrolling interests in 11 consolidated real estate partnerships that own 17 conventional properties with average revenues per unit of \$1,010, the acquisition for \$130.4 million of conventional properties located in Phoenix, Arizona; Manhattan, New York City, New York; and San Diego, California. Revenues per effective unit at the Phoenix, Manhattan and San Diego properties averaged approximately \$1,100, \$4,000 and \$1,880, respectively, and the properties' average rents per unit were approximately 47%, 38% and 15%, respectively, greater than the local market averages.

During 2012, we expect to invest \$100 million in redevelopment projects at a total of 10 properties. At September 30, 2012, construction was underway at nine of these properties. After the end of the third quarter, we started a broader phase of redevelopment of our Lincoln Place property in Venice, California. This project will take approximately two years and involves the redevelopment of 42 buildings, including 631 now-vacant apartment homes, together with common areas and landscaping. Over the next few years, we expect to invest approximately \$400 million in these ten projects and, excluding projected market rent growth, generate average initial cash returns greater than 7% and average free cash flow internal rates of return in excess of 10%.

Our leverage strategy seeks to balance our desire to increase financial returns with the inherent risks. During the nine months ended September 30, 2012, we issued an aggregate of 22,144,200 shares of Common Stock in two public offerings, generating net proceeds of \$594.4 million. In addition, during the nine months ended September 30, 2012, the holders of near-term expiring stock options exercised 2,041,934 stock options generating proceeds to Aimco of \$47.0 million. The shares received upon exercise of the options were then sold by the stockholders as part of one of the public offerings. We used these proceeds to redeem \$600.9 million of preferred stock. At September 30, 2012, 95.5% of our leverage consisted of property-level, non-recourse, long-dated, fixed-rate, amortizing debt and 3.1%

consisted of perpetual preferred equity, a combination which helps to limit our refunding and re-pricing risk. At September 30, 2012, we had \$66.2 million of outstanding borrowings on our revolving credit facility, which represented 1.4% of our leverage.

Our leverage strategy limits refunding risk on our property-level debt. At September 30, 2012, the weighted average maturity of our property-level debt was 7.7 years, with no significant maturities during the remainder of 2012 and an average of 5.6% of our unpaid principal balance maturing per year from 2013 through 2016. Long duration, fixed-rate liabilities provide a hedge against increases in interest rates, capitalization rates and inflation. At September 30, 2012, approximately 96% of our property-level debt was fixed-rate.

Table of Contents

We measure our leverage using, four key metrics: 1) the ratio of Debt to EBITDA; 2) Debt and Preferred Equity to EBITDA; 3) EBITDA Coverage of Interest; and 4) EBITDA Coverage of Interest and Preferred Dividends.

Debt, as used in these ratios, represents our proportionate share of debt, net of our proportionate share of cash and restricted cash and our investment in the subordinate tranches of a securitization that holds certain of our property loans, and Preferred Equity represents Aimco's preferred stock and the preferred OP Units of the Aimco Operating Partnership. EBITDA is calculated by adding to our Pro forma FFO (defined below) our proportionate share of interest expense, taxes, depreciation and amortization related to non-real estate assets, non-cash stock-based compensation, and dividends and distributions on our preferred equity instruments. Interest, as used in these ratios, represents our proportionate share of interest expense, excluding debt prepayment penalties and amortization of deferred financing costs, and reduced by interest income we receive on our investment in the subordinate tranches of a securitization that holds certain of our property loans.

Our leverage targets are a ratio of Debt and Preferred Equity to EBITDA of less than 7.0x and a ratio of EBITDA Coverage of Interest and Preferred Dividends of greater than 2.5x. Our leverage ratios for the trailing twelve month periods ended September 30, 2012 and 2011 and for the annualized three month periods ended September 30, 2012 and 2011, are presented below, along with our leverage ratios based on our expected annualized results for the three months ending December 31, 2012.

	Trailing twelve months ended September 30,		Annualized three months ended September 30,		Expected annualized three months ending December 31,
	2012	2011	2012	2011	2012
Debt to EBITDA	7.9x	8.3x	7.7x	8.2x	7.5x
Debt and Preferred Equity to EBITDA	8.1x	9.7x	8.0x	9.6x	7.7x
EBITDA Coverage of Interest	2.3x	2.1x	2.3x	2.2x	2.5x
EBITDA Coverage of Interest and Preferred Dividends	2.2x	1.7x	2.2x	1.8x	2.3x

The 2012 EBITDA Coverage of Interest and Preferred Dividends ratios presented above are on a pro forma basis to exclude dividends on the preferred stock we redeemed during the nine months ended September 30, 2012. We made significant progress toward our stated leverage targets with the preferred stock redemptions completed during the year. As a result of these redemptions, we now expect to achieve our leverage targets by early 2014, two years earlier than we anticipated at the beginning of 2012. We expect future leverage reduction from earnings growth generated by the current portfolio and by regularly scheduled property debt amortization funded from retained earnings. We also expect to increase our financial flexibility in the future by creating a pool of unencumbered properties.

Although our primary sources of leverage are property-level, non-recourse, long-dated, fixed-rate, amortizing debt and perpetual preferred equity, we also have a \$500.0 million revolving credit facility to meet our short-term liquidity needs. As of September 30, 2012, we had the capacity to borrow \$406.8 million pursuant to our revolving credit facility, net of \$66.2 million of outstanding borrowings under the revolving credit facility and \$27.0 million for undrawn letters of credit backed by the revolving credit facility. The revolving credit facility matures in December 2014, and may be extended for two additional one-year periods, subject to certain conditions.

Under our revolving credit facility, we have agreed to Debt Service and Fixed Charge Coverage covenants. For the twelve months ended September 30, 2012, our Debt Service and Fixed Charge Coverage ratios were 1.63x and 1.44x, compared to covenants of 1.50x and 1.30x, respectively, and ratios of 1.60x and 1.36x, respectively, for the twelve months ended September 30, 2011.

Key Financial Indicators

The key financial indicators that we use in managing our business and in evaluating our financial condition and operating performance are: Net Asset Value; Funds From Operations; Pro forma Funds From Operations; Adjusted Funds From Operations; property net operating income, which is rental and other property revenues less direct property operating expenses, including real estate taxes; proportionate property net operating income; same store property operating results; Free Cash Flow, which is net operating income less spending for Capital Replacements; Free Cash Flow internal rate of return; financial coverage ratios; and leverage as shown on our balance sheet. Funds

From Operations, Pro forma Funds From Operations and Adjusted Funds From Operations are defined and further described in “Funds From Operations,” and proportionate property net operating income is defined and further described in “Results of Operations – Real Estate Operations.” The key macro-economic factors and non-financial indicators that affect our financial condition and operating performance are: household formations; rates of job growth; single-family and multifamily housing starts; interest rates; and availability and cost of financing.

Table of Contents

Results of Operations

Because our operating results depend primarily on income from our properties, the supply and demand for apartments influences our operating results. Additionally, the level of expenses required to operate and maintain our properties and the pace and price at which we redevelop, acquire and dispose of our apartment properties affect our operating results.

The following discussion and analysis of the results of our operations and financial condition should be read in conjunction with the accompanying consolidated financial statements in Item 1.

Overview

Highlights of our results of operations for the three months ended September 30, 2012, are summarized below:

Conventional Same Store revenues and expenses for the three months ended September 30, 2012, increased by 4.9% and 0.5%, respectively, resulting in a 7.4% increase in net operating income as compared to the three months ended September 30, 2011;

Average daily occupancy for our Conventional Same Store properties was 95.3% for the three months ended September 30, 2012, as compared to 95.2% for the three months ended September 30, 2011;

Total Same Store revenues and expenses for the three months ended September 30, 2012, increased by 4.8% and 1.3%, respectively, resulting in a 6.9% increase in net operating income as compared to the three months ended September 30, 2011; and

Net operating income for our total real estate portfolio (continuing operations) for the three months ended September 30, 2012, increased 7.6% as compared to the three months ended September 30, 2011.

Three Months Ended September 30, 2012 compared to September 30, 2011

We reported net income attributable to Aimco of \$38.8 million and net income attributable to Aimco common stockholders of \$24.2 million for the three months ended September 30, 2012, as compared to net loss attributable to Aimco of \$1.4 million and net loss attributable to Aimco common stockholders of \$14.8 million for the three months ended September 30, 2011, increases in income of \$40.2 million and \$39.0 million, respectively.

We reported net income attributable to the Aimco Operating Partnership of \$42.0 million and net income attributable to the Aimco Operating Partnership's common unitholders of \$25.8 million for the three months ended September 30, 2012, as compared to net income attributable to the Aimco Operating Partnership of less than \$0.1 million and net loss attributable to the Aimco Operating Partnership's common unitholders of \$15.0 million for the three months ended September 30, 2011, increases in income of \$42.0 million and \$40.8 million, respectively.

Nine Months Ended September 30, 2012 compared to September 30, 2011

We reported net income attributable to Aimco of \$63.5 million and net income attributable to Aimco common stockholders of \$14.1 million for the nine months ended September 30, 2012, as compared to net loss attributable to Aimco of \$44.2 million and net loss attributable to Aimco common stockholders of \$79.8 million for the nine months ended September 30, 2011, an increase in income of \$107.7 million and a decrease in losses of \$93.8 million, respectively.

We reported net income attributable to the Aimco Operating Partnership of \$69.3 million and net income attributable to the Aimco Operating Partnership's common unitholders of \$15.0 million for the nine months ended September 30, 2012, as compared to net loss attributable to the Aimco Operating Partnership of \$43.7 million and net loss attributable to the Aimco Operating Partnership's common unitholders of \$84.3 million for the nine months ended September 30, 2011, an increase in income of \$113.1 million and a decrease in losses of \$99.3 million, respectively. These increases in income for Aimco and the Aimco Operating Partnership during the three and nine months ended September 30, 2012, as compared to the three and nine months ended September 30, 2011, were principally due to increases in gain on dispositions of real estate in 2012 compared to 2011 and increases in the net operating income of our properties included in continuing operations. The increase in income during the nine months ended September 30, 2012, was also attributed to a decrease in interest expense, primarily due to prepayment penalties incurred during 2011 in connection with a series of refinancing transactions that did not recur in 2012.

Table of Contents

The following paragraphs discuss these and other items affecting the results of operations of Aimco and the Aimco Operating Partnership in more detail.

Real Estate Operations

Our owned real estate portfolio consists primarily of conventional real estate properties. Our conventional property operations consist of market-rate apartments with rents paid by the resident and included 183 properties with 57,744 units in which we held an average ownership of 97% as of September 30, 2012. We also operate a portfolio of affordable properties. Our affordable property operations consist of apartments with rents that are generally paid, in whole or part, by a government agency and consisted of 136 properties with 17,097 units in which we held an average ownership of 61% as of September 30, 2012. Our conventional and affordable property operations comprise our reportable segments and generated 88% and 12%, respectively, of our proportionate property net operating income (defined below) during the three and nine months ended September 30, 2012.

In accordance with accounting principles generally accepted in the United States of America, or GAAP, we consolidate certain properties in which we hold an insignificant economic interest and in some cases we do not consolidate other properties in which we have a significant economic interest. Due to the diversity of our economic ownership interests in our properties, our chief operating decision maker emphasizes as a key measurement of segment profit or loss proportionate property net operating income, which represents our share of the property net operating income of our consolidated and unconsolidated properties. Accordingly, the results of operations of our conventional and affordable segments discussed below are presented on a proportionate basis.

We do not include property management revenues, offsite costs associated with property management or casualty related amounts in our assessment of segment performance. Accordingly, these items are not allocated to our segment results discussed below.

The tables and discussions below reflect the proportionate results of our conventional and affordable segments and the consolidated results related to our real estate operations not allocated to segments for the three and nine months ended September 30, 2012 and 2011 (in thousands). The tables and discussions below exclude the results of operations for properties included in discontinued operations as of September 30, 2012. Refer to Note 11 in the condensed consolidated financial statements in Item 1 for further discussion regarding our reporting segments, including a reconciliation of these proportionate amounts to consolidated rental and other property revenues and property operating expenses.

Total Same Store Portfolio

Our conventional and affordable segments each include properties we classify as same store. Same store properties are properties we manage and that have reached and maintained a stabilized level of occupancy (greater than 90%) during the current and prior year-to-date comparable periods. We consider total same store results as a meaningful measure of the performance of the results of operations of the properties we own and operate. For the three and nine months ended September 30, 2012, our total same store portfolio comprised 94% of our total proportionate property net operating income.

For the three months ended September 30, 2012, as compared to the three months ended September 30, 2011, our total same store portfolio's proportionate property revenues and expenses increased by 4.8% and 1.3%, respectively, resulting in a 6.9% increase in net operating income, and our total same store operating margin increased by approximately 120 basis points, from 62.6% during the three months ended September 30, 2011, to 63.8% during the three months ended September 30, 2012. For the nine months ended September 30, 2012, as compared to the nine months ended September 30, 2011, our total same store portfolio's proportionate property revenues and expenses increased by 4.5% and 1.2%, respectively, resulting in a 6.4% increase in net operating income, and our total same store operating margin increased by approximately 110 basis points, from 62.9% during the nine months ended September 30, 2011, to 64.0% during the nine months ended September 30, 2012.

The results of operations of our conventional and affordable same store properties are discussed further in the discussion of segment results below.

Conventional Real Estate Operations

Our conventional segment consists of conventional properties we classify as same store, redevelopment and other conventional properties. Same store properties are defined above. Redevelopment properties are those in which a

substantial number of available units have been vacated for major renovations or have not been stabilized in occupancy for at least one year as of the earliest period presented, or for which other significant non-unit renovations are underway or have been complete for less than one year. Other conventional properties may include conventional properties that have significant rent control restrictions, casualty properties, acquisition properties and properties that are not multifamily, such as commercial properties or fitness centers.

Table of Contents

For the three and nine months ended September 30, 2012 and 2011, as presented below, our conventional same store portfolio and our other conventional portfolio consisted of 145 and 37 properties with 52,691 and 4,656 units, respectively. During the three and nine months ended September 30, 2012, our conventional same store portfolio decreased on a net basis by 15 properties with 3,905 units for properties that were sold or classified as held for sale through September 30, 2012 and for which the results have been reclassified into discontinued operations. Additionally, during the nine months ended September 30, 2012, we reclassified one property with 135 units from our conventional same store portfolio to our other conventional portfolio based on a casualty loss incurred at the property.

	Three Months Ended September 30,				
	2012	2011	\$ Change	% Change	
Rental and other property revenues:					
Conventional same store	\$ 190,941	\$ 182,079	\$ 8,862	4.9	%
Other Conventional	18,072	14,332	3,740	26.1	%
Total	209,013	196,411	12,602	6.4	%
Property operating expenses:					
Conventional same store	68,147	67,777	370	0.5	%
Other Conventional	8,931	6,670	2,261	33.9	%
Total	77,078	74,447	2,631	3.5	%
Property net operating income:					
Conventional same store	122,794	114,302	8,492	7.4	%
Other Conventional	9,141	7,662	1,479	19.3	%
Total	\$ 131,935	\$ 121,964	\$ 9,971	8.2	%

For the three months ended September 30, 2012, as compared to the three months ended September 30, 2011, our conventional segment's proportionate property net operating income increased \$10.0 million, or 8.2%.

For the three months ended September 30, 2012, as compared to the three months ended September 30, 2011, conventional same store proportionate property net operating income increased by \$8.5 million, or 7.4%. This increase was primarily attributable to an \$8.9 million, or 4.9%, increase in rental and other property revenues due to higher average revenues (approximately \$60 per effective unit), comprised of increases in rental rates, fee income and utility reimbursements and a 10 basis point increase in average daily occupancy. Rental rates on new leases transacted during the three months ended September 30, 2012, were 3.8% higher than expiring lease rates, and renewal rates were 6.0% higher than expiring lease rates. The increase in conventional same store rental and other property revenues was partially offset by a \$0.4 million, or 0.5%, increase in property operating expenses, primarily due to increases in insurance and real estate taxes, partially offset by a decrease in personnel and related costs.

Our other conventional proportionate property net operating income increased by \$1.5 million, or 19.3%, during the three months ended September 30, 2012, as compared to the three months ended September 30, 2011, primarily due to a \$1.3 million increase in net operating income resulting from conventional properties we acquired in 2012.

	Nine Months Ended September 30,				
	2012	2011	\$ Change	% Change	
Rental and other property revenues:					
Conventional same store	\$ 564,729	\$ 540,195	\$ 24,534	4.5	%
Other Conventional	49,215	44,233	4,982	11.3	%
Total	613,944	584,428	29,516	5.1	%
Property operating expenses:					
Conventional same store	200,301	198,681	1,620	0.8	%
Other Conventional	23,855	20,237	3,618	17.9	%
Total	224,156	218,918	5,238	2.4	%
Property net operating income:					
Conventional same store	364,428	341,514	22,914	6.7	%
Other Conventional	25,360	23,996	1,364	5.7	%
Total	\$ 389,788	\$ 365,510	\$ 24,278	6.6	%

Table of Contents

For the nine months ended September 30, 2012, as compared to the nine months ended September 30, 2011, our conventional segment's proportionate property net operating income increased \$24.3 million, or 6.6%.

For the nine months ended September 30, 2012, as compared to the nine months ended September 30, 2011, conventional same store proportionate property net operating income increased by \$22.9 million, or 6.7%. This increase was primarily attributable to a \$24.5 million, or 4.5%, increase in rental and other property revenues due to higher average revenues (approximately \$59 per effective unit), comprised of increases in rental rates, fee income and utility reimbursements, partially offset by a 20 basis point decrease in average daily occupancy. Rental rates on new leases transacted during the nine months ended September 30, 2012, were 3.7% higher than expiring lease rates, and renewal rates were 5.6% higher than expiring lease rates. The increase in conventional same store rental and other property revenues was partially offset by a \$1.6 million, or 0.8%, increase in property operating expenses, primarily due to increases in real estate taxes, insurance and administrative costs, partially offset by decreases in personnel and related costs.

Our other conventional proportionate property net operating income increased by \$1.4 million, or 5.7%, during the nine months ended September 30, 2012, as compared to the nine months ended September 30, 2011, primarily due to an increase in net operating income resulting from conventional properties we acquired in mid-2011 and 2012, partially offset by a decrease in revenues resulting from the non-payment of rents by a former corporate tenant in Manhattan.

Affordable Real Estate Operations

Our affordable segment consists of properties we classify as same store or other, which are defined in the preceding total same store and conventional discussions. For the three and nine months ended September 30, 2012 and 2011, as presented below, our affordable same store portfolio and other affordable portfolio consisted of 84 and 48 properties with 11,946 and 4,923 units, respectively. During the three and nine months ended September 30, 2012, our affordable same store portfolio decreased on a net basis by 35 properties with 3,439 units for properties that were sold or classified as held for sale through September 30, 2012 and for which the results have been reclassified into discontinued operations. Additionally, during the three and nine months ended September 30, 2012, we reclassified one property with 172 units from our affordable same store portfolio to our other affordable portfolio based on a casualty loss incurred at the property and two properties with 82 units from our affordable same store portfolio to our other affordable portfolio when we stopped managing the properties.

We did not have a significant economic ownership in any of the properties classified as other affordable properties and/or did not manage the properties during the three and nine months ended September 30, 2012 and 2011.

Accordingly, based on our basis for assessing segment performance, this portfolio is excluded from the discussion of proportionate results for the periods shown below.

	Three Months Ended September 30,			
	2012	2011	\$ Change	% Change
Affordable same store:				
Rental and other property revenues	\$28,277	\$27,073	\$1,204	4.4 %
Property operating expenses	11,161	10,514	647	6.2 %
Property net operating income	\$17,116	\$16,559	\$557	3.4 %

For the three months ended September 30, 2012, as compared to the three months ended September 30, 2011, the proportionate property net operating income of our affordable same store properties increased \$0.6 million, or 3.4%. This increase in net operating income consisted of a \$1.2 million, or 4.4%, increase in revenue, partially offset by a \$0.6 million, or 6.2%, increase in expense. Affordable same store revenue increased partially due to higher average revenues (\$31 per effective unit) and higher average physical occupancy (120 basis points). Affordable same store expenses increased primarily due to an increase in insurance and real estate taxes.

	Nine Months Ended September 30,			
	2012	2011	\$ Change	% Change
Affordable same store:				
Rental and other property revenues	\$84,367	\$81,093	\$3,274	4.0 %
Property operating expenses	33,075	31,947	1,128	3.5 %

Property net operating income	\$51,292	\$49,146	\$2,146	4.4	%
-------------------------------	----------	----------	---------	-----	---

34

Table of Contents

For the nine months ended September 30, 2012, compared to the nine months ended September 30, 2011, the proportionate property net operating income of our affordable same store properties increased \$2.1 million, or 4.4%. This increase in net operating income consisted of a \$3.3 million, or 4.0%, increase in revenue, partially offset by a \$1.1 million, or 3.5%, increase in expense. Affordable same store revenue increased partially due to higher average revenues (\$30 per effective unit) and higher average physical occupancy (80 basis points). Affordable same store expenses increased primarily due to an increase in insurance and real estate taxes, approximately \$0.8 million of which related to revaluations in 2011 that reduced tax expense related to prior years. The increase in insurance and real estate taxes was partially offset by a decrease in personnel and related costs.

Non-Segment Real Estate Operations

Real estate operations net operating income amounts not attributed to our conventional or affordable segments include property management revenues, offsite costs associated with property management, and casualty losses, reported in consolidated amounts, which we do not allocate to our conventional or affordable segments for purposes of evaluating segment performance (see Note 11 to the consolidated financial statements in Item 1).

For the three months ended September 30, 2012 and 2011, property management expenses, which includes offsite costs associated with managing properties we own (both our share and the share that we allocate to the limited partners in our consolidated partnerships) and offsite costs associated with properties we manage for third parties, totaled \$8.1 million and \$10.7 million, respectively. For the nine months ended September 30, 2012 and 2011, property management expenses totaled \$25.8 million and \$31.8 million, respectively. The decrease in property management expenses in 2012 as compared to 2011 is primarily due to reduced personnel and related costs based on the reduced size of our portfolio.

For the three months ended September 30, 2012 and 2011, casualty losses decreased by \$0.8 million, from \$2.8 million to \$2.0 million, primarily due to losses in 2011 from fires that damaged several of our properties. For the nine months ended September 30, 2012 and 2011, casualty losses decreased by \$7.3 million, from \$9.4 million to \$2.1 million, primarily due to losses in 2011 from severe snow storms in the Northeast as well as fires that damaged several properties.

Asset Management and Tax Credit Revenues

We perform activities and services for consolidated and unconsolidated real estate partnerships, including portfolio strategy, capital allocation, joint ventures, tax credit syndication, acquisitions, dispositions and other transaction activities. These activities are conducted in part by our taxable subsidiaries, and the related net operating income may be subject to income taxes. In recent years, in an effort to simplify our business, we have reduced our role in transactional activities and accordingly the amount of earnings we generate from transactional activities has decreased. As we continue to work toward our simplification strategy, we expect the amounts of annual transactional fees to continue to diminish.

For the three months ended September 30, 2012, as compared to the three months ended September 30, 2011, asset management and tax credit revenues decreased \$1.2 million. This decrease is primarily attributable to \$1.0 million of income recognized in 2011 upon the syndication of a low-income housing tax credit partnership, with no comparable activity during 2012.

For the nine months ended September 30, 2012, as compared to the nine months ended September 30, 2011, asset management and tax credit revenues decreased \$1.1 million. This decrease is primarily attributable to a \$1.4 million decrease in asset management fees resulting from the termination in early 2011 of our role as asset manager for approximately 100 properties. Pursuant to the termination, we agreed to receive a reduced payment on asset management and other fees owed to us, \$1.3 million of which was not previously recognized based on concerns regarding collectability.

Investment Management Expenses

Investment management expenses consist primarily of the costs of personnel who perform asset management and tax credit activities. For the three and nine months ended September 30, 2012, compared to the three and nine months ended September 30, 2011, investment management expenses increased \$0.5 million and \$2.0 million, respectively. These increases were primarily due to fees paid to third parties for providing asset management services partially offset by a reduction in personnel and related costs. The increase in investment management expenses during the nine

months ended September 30, 2012 was also attributed to our write off during 2012 of previously deferred costs on tax credit projects we elected not to pursue.

Depreciation and Amortization

For the three months ended September 30, 2012, as compared to the three months ended September 30, 2011, depreciation and amortization decreased \$0.2 million, or 0.3% and for the nine months ended September 30, 2012, as compared to the nine

Table of Contents

months ended September 30, 2011, depreciation and amortization increased \$5.9 million, or 2.3%. These fluctuations were primarily due to adjustments that reduced depreciation during 2011 and increases in depreciation related to properties we acquired during 2011 and 2012.

Provision for Real Estate Impairment Losses

Based on periodic tests of recoverability of long-lived assets, for the three and nine months ended September 30, 2012, we recognized impairment losses of \$2.5 million and \$10.8 million, respectively, primarily related to real estate properties we expect to sell within the next twelve months that do not otherwise meet the criteria to be classified as held for sale. We recognized no impairments related to properties classified as held for use during the three and nine months ended September 30, 2011.

General and Administrative Expenses

For the three months ended September 30, 2012, as compared to the three months ended September 30, 2011, general and administrative expenses decreased \$0.4 million, or 3.4%, primarily due to decreases in personnel and related costs.

For the nine months ended September 30, 2012, as compared to the nine months ended September 30, 2011, general and administrative expenses increased \$1.1 million, or 3.1%, primarily due to increases in information technology and related outsourcing costs.

Other Expenses, Net

Other expenses, net includes franchise taxes, risk management activities, partnership administration expenses and certain non-recurring items. For the three months ended September 30, 2012, as compared to the three months ended September 30, 2011, other expenses, net increased \$1.4 million. The net increase was primarily attributable to our write off during 2012 of residual receipts amounts held by certain of our affordable properties following a change in the U.S. Department of Housing and Urban Development's intended use of these amounts.

For the nine months ended September 30, 2012, as compared to the nine months ended September 30, 2011, other expenses, net decreased \$0.8 million. The net decrease was primarily attributable to the reduction in 2012 of costs associated with certain of our consolidated tax credit partnerships, partially offset by the write off during 2012 of the residual receipts amounts discussed above.

Interest Income

Interest income consists primarily of interest on notes receivable (including those from unconsolidated real estate partnerships, which are classified within other assets in our consolidated balance sheets), accretion of discounts on certain notes receivable, interest on cash and restricted cash accounts and interest on investments in debt securities in a securitization of certain of our property loans. Interest income for the periods presented has been reduced by the amount of provisions for losses on notes receivable recognized, which are immaterial for separate presentation in the consolidated statements of operations.

For the three months ended September 30, 2012, as compared to the three months ended September 30, 2011, interest income decreased by \$1.3 million, or 38.3%. Interest income decreased by \$0.6 million primarily due reductions in interest income related to discounted notes that were repaid in advance of their maturity dates due to property sales.

Interest income also decreased by \$0.7 million due to an increase in net provisions for losses on notes receivable related to property sales during 2012 for which the net proceeds available for repayment of partnership loans were less than the amounts previously anticipated.

For the nine months ended September 30, 2012, as compared to the nine months ended September 30, 2011, interest income decreased by \$0.2 million, or 2.8%. Interest income decreased by \$1.5 million primarily due to reductions in interest income related to discounted notes that were repaid in advance of their maturity dates due to property sales and by \$0.7 million due to an increase in net provisions for losses on notes receivable related to property sales during 2012 for which the net proceeds available for repayment of partnership loans were less than the amounts previously anticipated. These decreases were partially offset by a \$2.0 million increase in accretion income recognized in 2012 on our investment in the first loss and mezzanine positions in a securitization trust that holds certain of our property loans.

In addition to the interest income described above recognized by Aimco, the Aimco Operating Partnership recognized \$0.8 million and \$1.3 million of interest income during the three and nine months ended September 30, 2011,

respectively, related to the notes receivable from Aimco, for which no interest income was recognized in 2012 following repayment of the notes in late

Table of Contents

2011. These notes receivable and related interest income were eliminated in Aimco's consolidated financial statements prior to their repayment.

Interest Expense

For the three months ended September 30, 2012, as compared to the three months ended September 30, 2011, interest expense, which includes the amortization of deferred financing costs, decreased by \$3.5 million, or 5.1%. The decrease was primarily related to \$2.7 million of debt forgiveness gains recognized upon the sales during 2012 of partnership interests by certain of our consolidated partnerships. These gains were primarily allocated to noncontrolling interests and had no significant effect on the amounts of net income attributable to Aimco and the Aimco Operating Partnership. The remainder of the decrease in interest expense related to lower interest rates and average outstanding balances on non-recourse property debt for our existing properties, partially offset by increases in interest related to properties we acquired in 2012.

For the nine months ended September 30, 2012, as compared to the nine months ended September 30, 2011, interest expense, which includes the amortization of deferred financing costs, decreased by \$34.9 million, or 15.3%. The decrease is primarily attributable to our recognition during 2011 of \$20.7 million of prepayment penalties and the write off of \$2.3 million of deferred loan costs in connection with the completion of a series of refinancing transactions completed in 2011. Interest expense also decreased by \$10.4 million due to debt forgiveness gains recognized upon the sales during 2012 of partnership interests by certain of our consolidated partnerships. These gains were primarily allocated to noncontrolling interests and had no significant effect on the amounts of net income attributable to Aimco and the Aimco Operating Partnership. The remainder of the decrease in interest expense related to lower interest rates and average outstanding balances on non-recourse property debt for our existing properties, partially offset by increases in interest related to properties we acquired in mid-2011 and 2012.

Equity in Losses of Unconsolidated Real Estate Partnerships

Equity in earnings or losses of unconsolidated real estate partnerships includes our share of the net earnings or losses of our unconsolidated real estate partnerships, which may include impairment losses, gains or losses on the disposition of real estate properties or depreciation expense, which generally exceeds the net operating income recognized by such unconsolidated partnerships.

During the periods presented, the majority of the investments in unconsolidated real estate partnerships included in our consolidated balance sheets were entities that we consolidated in our financial statements even though we held a nominal economic interest in these entities. Accordingly, the equity in earnings and losses recognized by these entities were allocated to noncontrolling interests and had no significant effect on the amounts of net income or loss attributable to Aimco.

Gain on Dispositions of Interests in Unconsolidated Real Estate and Other

Gain on dispositions of interests in unconsolidated real estate and other includes gains on disposition of interests in unconsolidated real estate partnerships, gains on dispositions of land and other non-depreciable assets and certain costs related to asset disposal activities, which vary from period to period.

For the three and nine months ended September 30, 2012, compared to the three and nine months ended September 30, 2011, gain on dispositions of interests in unconsolidated real estate and other increased \$12.9 million and \$15.5 million, respectively. The increase in gains is primarily related to our recognition of \$15.7 million of gains in upon the sale of our interests in two unconsolidated partnerships during 2012.

Income Tax Benefit

Certain of our operations or a portion thereof, including property management, asset management and risk management are conducted through taxable REIT subsidiaries, each of which we refer to as a TRS. A TRS is a C-corporation that has not elected REIT status and, as such, is subject to United States Federal corporate income tax. We use TRS entities to facilitate our ability to offer certain services and activities to our residents and investment partners that cannot be offered directly by a REIT. We also use TRS entities to hold investments in certain properties. Income taxes related to the results of continuing operations of our TRS entities are included in income tax benefit in our consolidated statements of operations.

For the three and nine months ended September 30, 2012, compared to the three and nine months ended September 30, 2011, income tax benefit decreased by \$0.8 million and \$4.3 million, respectively, primarily due to decreases in the losses of our TRS entities.

Table of Contents

Income from Discontinued Operations, Net

The results of operations for consolidated properties sold during the period or designated as held for sale at the end of the period are generally required to be classified as discontinued operations for all periods presented. The components of net earnings that are classified as discontinued operations include all property-related revenues and operating expenses, depreciation expense recognized prior to the classification as held for sale, property-specific interest expense and debt extinguishment gains and losses to the extent there is secured debt on the property. In addition, any impairment losses on assets held for sale and the net gain or loss on the eventual disposal of properties held for sale are reported in discontinued operations.

For the three months ended September 30, 2012 and 2011, income from discontinued operations totaled \$48.8 million and \$28.9 million, respectively. The \$19.8 million increase in income from discontinued operations was principally due to a \$15.8 million increase in gain on dispositions of real estate, net of income taxes, and a \$3.2 million decrease in impairment losses on dispositions of real estate, with the balance of the change resulting from an increase in operating income, net of interest expense, due to the timing and composition of sales.

For the nine months ended September 30, 2012 and 2011, income from discontinued operations totaled \$121.9 million and \$48.0 million, respectively. The \$73.9 million increase in income from discontinued operations was principally due to a \$66.8 million increase in gain on dispositions of real estate, net of income taxes, and a \$3.1 million decrease in impairment losses on dispositions of real estate, with the balance of the change resulting from a decrease in operating income, net of interest expense, due to the timing and composition of sales.

During the three months ended September 30, 2012, we sold or disposed of our interest in 22 consolidated properties for gross proceeds of \$235.4 million and net proceeds of \$68.7 million, resulting in a net gain of approximately \$53.3 million (which is net of \$2.4 million of related income taxes). During the three months ended September 30, 2011, we sold or disposed of our interest in 12 consolidated properties for gross proceeds of \$154.5 million and net proceeds of \$63.9 million, resulting in a net gain of approximately \$37.5 million (which includes \$0.1 million of related income taxes).

During the nine months ended September 30, 2012, we sold or disposed of our interest in 50 consolidated properties for gross proceeds of \$447.9 million and net proceeds of \$162.4 million, resulting in a net gain of approximately \$131.5 million (which is net of \$8.4 million of related income taxes). During the nine months ended September 30, 2011, we sold or disposed of our interest in 39 consolidated properties for gross proceeds of \$293.2 million and net proceeds of \$105.6 million, resulting in a net gain of approximately \$64.7 million (which is net of \$0.2 million of related income taxes).

The weighted average net operating income capitalization rates for our conventional and affordable property sales, which are calculated using the trailing twelve month net operating income prior to sale, less a 3.0% management fee, divided by gross proceeds, were 6.2% and 7.8% for conventional and affordable property sales, respectively, during the nine months ended September 30, 2012, and 7.2% and 8.5% for conventional and affordable property sales, respectively, during the nine months ended September 30, 2011.

For the three and nine months ended September 30, 2012 and 2011, income from discontinued operations includes the operating results of the properties sold or classified as held for sale as of September 30, 2012. Refer to Note 3 to the condensed consolidated financial statements in Item 1 for additional information on discontinued operations.

Noncontrolling Interests in Consolidated Real Estate Partnerships

Noncontrolling interests in consolidated real estate partnerships reflects the results of our consolidated real estate partnerships allocated to the non-Aimco (or non-Aimco Operating Partnership) owners in these partnerships. We adjust our total consolidated operating results in our consolidated financial statements to determine the portion of our consolidated operating results that corresponds to our ownership interest in all of our consolidated entities. The amounts of income or loss of our consolidated real estate partnerships that we allocate to the non-Aimco (or non-Aimco Operating Partnership) owners includes their share of property management fees, interest on notes and other amounts that we charge to these partnerships.

For the three months ended September 30, 2012, we allocated net income of \$11.3 million to noncontrolling interests in consolidated real estate partnerships, compared to \$5.5 million of net income allocated to these noncontrolling interests during the three months ended September 30, 2011, or an increase of \$5.9 million. This change was primarily due to a \$6.0 million increase in the noncontrolling interest partners' share of income from continuing operations resulting from their share of decreases in interest expense (inclusive of debt forgiveness gains during 2012) and their share of increases in gains on dispositions of

Table of Contents

unconsolidated properties in consolidated real estate partnerships. The increase was also affected by ownership changes during the periods resulting from our acquisitions of noncontrolling interests in certain of our consolidated partnerships.

For the nine months ended September 30, 2012, we allocated net income of \$28.8 million to noncontrolling interests in consolidated real estate partnerships, compared to \$4.6 million of net losses allocated to these noncontrolling interests during the nine months ended September 30, 2011, or a variance of \$33.4 million. This change was due to a \$27.4 million increase in the noncontrolling interests' share of income from continuing operations primarily due to their share of decreases in interest expense (inclusive of debt forgiveness gains during 2012) and impairments and their share of increases in gains on dispositions of unconsolidated properties in consolidated real estate partnerships. These increases were also affected by ownership changes during the periods resulting from our acquisitions of noncontrolling interests in certain of our consolidated partnerships. The increase was in addition to a \$6.0 million increase in their share of income from discontinued operations, which is primarily due to an increase in gains on the disposition of real estate from 2011 to 2012.

Noncontrolling Interests in Aimco Operating Partnership

In Aimco's consolidated financial statements, noncontrolling interests in Aimco Operating Partnership reflects the results of the Aimco Operating Partnership that are allocated to the non-Aimco owners of OP Units. Aimco allocates the Aimco Operating Partnership's income or loss to the holders of common OP Units and equivalents based on the weighted average number of these units (including those held by Aimco) outstanding during the period. The amount of the Aimco Operating Partnership's income allocated to holders of the preferred OP Units is equal to the amount of distributions they receive.

For the three months ended September 30, 2012 and 2011, the non-Aimco owners' share of the Aimco Operating Partnership's operating results represented income of \$3.2 million and \$0.6 million, respectively, a change in their share of income and losses of \$2.6 million. For the nine months ended September 30, 2012 and 2011, the non-Aimco owners' share of the Aimco Operating Partnership's operating results represented income of \$5.8 million and losses of \$0.8 million, respectively, a change in their share of income and losses of \$6.6 million.

Critical Accounting Policies and Estimates

We prepare our consolidated financial statements in accordance with GAAP, which requires us to make estimates and assumptions. We believe that the following critical accounting policies involve our more significant judgments and estimates used in the preparation of our consolidated financial statements.

Impairment of Long-Lived Assets

Real estate and other long-lived assets to be held and used are stated at cost, less accumulated depreciation and amortization, unless the carrying amount of the asset is not recoverable. If events or circumstances indicate that the carrying amount of a property may not be recoverable, we make an assessment of its recoverability by comparing the carrying amount to our estimate of the undiscounted future cash flows, excluding interest charges, of the property. If the carrying amount exceeds the estimated aggregate undiscounted future cash flows, we recognize an impairment loss to the extent the carrying amount exceeds the estimated fair value of the property.

From time to time, we have non-revenue producing properties that we hold for future redevelopment. We assess the recoverability of the carrying amount of these redevelopment properties by comparing our estimate of undiscounted future cash flows based on the expected service potential of the redevelopment property upon completion to the carrying amount. In certain instances, we use a probability-weighted approach to determine our estimate of undiscounted future cash flows when alternative courses of action are under consideration.

Real estate investments are subject to varying degrees of risk. Several factors may adversely affect the economic performance and value of our real estate investments. These factors include:

- the general economic climate;
- competition from other apartment communities and other housing options;
- local conditions, such as loss of jobs or an increase in the supply of apartments, that might adversely affect apartment occupancy or rental rates;
- changes in governmental regulations and the related cost of compliance;
-

increases in operating costs (including real estate taxes) due to inflation and other factors, which may not be offset by increased rents;

Table of Contents

• changes in tax laws and housing laws, including the enactment of rent control laws or other laws regulating multifamily housing; and
• changes in interest rates and the availability of financing.

Any adverse changes in these and other factors could cause an impairment of our long-lived assets, including real estate and investments in unconsolidated real estate partnerships. As we execute our portfolio strategy over the next few years, we are evaluating alternatives to sell or reduce our interest in a significant number of properties that do not align with our long-term investment strategy. While there is no assurance that we will sell or reduce our investment in these properties during the desired time frame, the size of our portfolio is likely to change as we continue to execute our portfolio management strategy. For any properties that are sold or meet the criteria to be classified as held for sale during the next twelve months, the reduction in the estimated holding period for these properties may result in additional impairment losses.

Based on periodic tests of recoverability of long-lived assets, for the three and nine months ended September 30, 2012, we recorded impairment losses of \$2.5 million and \$10.8 million, respectively, primarily related to real estate properties we expect to sell that do not otherwise meet the criteria to be classified as held for sale. We recognized no impairments related to properties classified as held for use during the three and nine months ended September 30, 2011. During the three months ended September 30, 2012 and 2011, we recognized impairment losses of \$2.5 million and \$5.7 million, respectively, and during the nine months ended September 30, 2012 and 2011, we recognized impairment losses of \$8.8 million and \$12.0 million, respectively, related to real estate properties included in discontinued operations, primarily due to reductions in the estimated holding periods for properties sold during these periods.

Provision for Losses on Notes Receivable

We assess the collectability of notes receivable on a periodic basis, which assessment consists primarily of an evaluation of the projected cash flow of the borrower to determine whether estimated cash flows are sufficient to repay principal and interest in accordance with the contractual terms of the note. We update our projections of the cash flow of such borrowers annually, and more frequently for certain loans depending on facts and circumstances. We recognize provisions for losses on notes receivable when it is probable that principal and interest will not be received in accordance with the contractual terms of the loan. Factors that affect this assessment include the fair value of the partnership's real estate, pending transactions to refinance the partnership's senior obligations or sell the partnership's real estate, and market conditions (current and forecasted) related to a particular asset. In certain instances where other sources of cash flow are available to repay the loan, the provision is measured by discounting the estimated cash flows at the loan's original effective interest rate.

During the three and nine months ended September 30, 2012, we recognized \$0.5 million and \$0.6 million, respectively, of net provisions for losses on notes receivable. During the three and nine months ended September 30, 2011, we recognized net recoveries of previously recognized losses on notes receivable of \$0.2 million. We will continue to evaluate the collectability of these notes, and we will adjust related allowances in the future due to changes in market conditions and other factors.

Capitalized Costs

We capitalize costs, including certain indirect costs, incurred in connection with our capital additions activities, including redevelopment and construction projects, other tangible property improvements and replacements of existing property components. Included in these capitalized costs are payroll costs associated with time spent by site employees in connection with the planning, execution and control of all capital additions activities at the property level. We characterize as "indirect costs" an allocation of certain department costs, including payroll, at the area operations and corporate levels that clearly relate to capital additions activities. We also capitalize interest, property taxes and insurance during periods in which redevelopment and construction projects are in progress. We commence capitalization of costs, including certain indirect costs, incurred in connection with our capital addition activities, at the point in time when activities necessary to get properties ready for their intended use are in progress. This includes when properties or units are undergoing physical construction, as well as when units are held vacant in advance of planned construction, provided that other activities such as permitting, planning and design are in progress. We cease the capitalization of costs when the assets are substantially complete and ready for their intended use, which is

typically when construction has been completed and units are available for occupancy. We charge to expense as incurred costs that do not relate to capital additions activities, including ordinary repairs, maintenance, resident turnover costs and general and administrative expenses.

For the three months ended September 30, 2012 and 2011, for continuing and discontinued operations, we capitalized \$4.2 million and \$3.5 million of interest costs, respectively, and \$7.9 million and \$6.5 million of site payroll and indirect costs, respectively. For the nine months ended September 30, 2012 and 2011, for continuing and discontinued operations, we capitalized \$12.4 million and \$9.9 million of interest costs, respectively, and \$25.5 million and \$20.9 million of site payroll and indirect costs, respectively.

Table of Contents

Funds From Operations

Funds From Operations, or FFO, is a non-GAAP financial measure that we believe, when considered with the financial statements determined in accordance with GAAP, is helpful to investors in understanding our performance because it captures features particular to real estate performance by recognizing that real estate generally appreciates over time or maintains residual value to a much greater extent than do other depreciable assets such as machinery, computers or other personal property. The National Association of Real Estate Investment Trusts, or NAREIT, defines FFO as net income or loss computed in accordance with GAAP, excluding gains from sales of, and impairment losses recognized with respect to, depreciable property, plus depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. Adjustments for unconsolidated partnerships and joint ventures are calculated on the same basis to determine FFO. We calculate FFO attributable to Aimco common stockholders (diluted) by subtracting, if dilutive, redemption or repurchase related preferred stock issuance costs and dividends on preferred stock and adding back dividends/distributions on dilutive preferred securities and premiums or discounts on preferred stock redemptions or repurchases.

In addition to FFO, we compute Pro forma FFO and Adjusted FFO, or AFFO, which are also non-GAAP financial measures we believe are helpful to investors in understanding our performance. Pro forma FFO represents FFO attributable to Aimco common stockholders (diluted), excluding preferred equity redemption-related amounts (adjusted for noncontrolling interests). Preferred equity redemption-related amounts (gains or losses) are items that periodically affect our operating results and we exclude these items from our calculation of Pro forma FFO because such amounts are not representative of our operating performance. AFFO represents Pro forma FFO reduced by Capital Replacements (also adjusted for noncontrolling interests), which represents our estimation of the capital additions required to maintain the value of our portfolio during our ownership period. When we make capital additions at a property, we evaluate whether the additions enhance the value, profitability, or useful life of an asset as compared to its condition at the time we purchased the asset. We classify as Capital Improvements those capital additions that meet these criteria and we classify as Capital Replacements those that do not.

FFO, Pro forma FFO and AFFO should not be considered alternatives to net income (loss) or net cash flows from operating activities, as determined in accordance with GAAP, as indications of our performance or as measures of liquidity. Although we use these non-GAAP measures for comparability in assessing our performance against other REITs, not all REITs compute these same measures. Additionally, computation of AFFO is subject to definitions of capital spending, which are subjective. Accordingly, there can be no assurance that our basis for computing these non-GAAP measures is comparable with that of other REITs. For the three and nine months ended September 30, 2012 and 2011, Aimco's FFO, Pro forma FFO and AFFO are calculated as follows (in thousands):

Table of Contents

	Three Months Ended		Nine Months Ended	
	September 30, 2012		September 30, 2012	
	2012	2011	2012	2011
Net (loss) income attributable to Aimco common stockholders (1)	\$24,163	\$(14,801)	\$14,077	\$(79,751)
Adjustments:				
Depreciation and amortization	87,444	87,687	264,978	259,069
Depreciation and amortization related to non-real estate assets	(3,259)	(3,306)	(9,845)	(9,645)
Depreciation of rental property related to noncontrolling partners and unconsolidated entities (2)	(4,798)	(5,647)	(15,322)	(19,271)
Gain on dispositions of unconsolidated real estate and other, net of noncontrolling partners' interests (2)	(14,924)	(245)	(15,243)	(1,037)
Provision for impairment losses related to depreciable real estate assets, net of noncontrolling partners' interest (2)	2,392	98	10,471	77
Discontinued operations:				
Gain on dispositions of real estate, net of income taxes and noncontrolling partners' interest (2)	(40,924)	(24,237)	(109,625)	(42,914)
Provision for impairment losses related to depreciable real estate assets, net of income taxes and noncontrolling partners' interest (2)	2,453	5,671	7,136	9,410
Depreciation of rental property, net of noncontrolling partners' interest (2)	3,866	8,510	14,194	29,449
Common noncontrolling interests in Aimco Operating Partnership's share of above adjustments	(1,563)	(4,592)	(8,949)	(15,424)
Amounts allocable to participating securities	(93)	(138)	(328)	(400)
FFO attributable to Aimco common stockholders – diluted	\$54,757	\$49,000	\$151,544	\$129,563
Preferred equity redemption related amounts	12,053	788	22,583	(1,961)
Common noncontrolling interests in Aimco Operating Partnership's share of above adjustments	(698)	(54)	(1,377)	134
Amounts allocable to participating securities	(41)	(3)	(90)	8
Pro Forma FFO attributable to Aimco common stockholders – diluted	\$66,071	\$49,731	\$172,660	\$127,744
Capital Replacements, net of common noncontrolling interests in Aimco Operating Partnership and participating securities	(18,317)	(20,416)	(46,697)	(48,111)
Amounts allocable to participating securities	52	142	186	392
AFFO attributable to Aimco common stockholders – diluted	\$47,806	\$29,457	\$126,149	\$80,025
Weighted average common shares outstanding – diluted (earnings per share)	144,959	120,339	130,960	118,939
Dilutive common share equivalents	160	331	305	330
Weighted average common shares outstanding – diluted (3)	145,119	120,670	131,265	119,269

(1) Represents the numerator for calculating Aimco's earnings per common share in accordance with GAAP (see Note 9 to the condensed consolidated financial statements in Item 1).

(2) "Noncontrolling partners" refers to noncontrolling partners in our consolidated real estate partnerships.

(3) Represents the denominator for Aimco's earnings per common share – diluted, calculated in accordance with GAAP, plus common share equivalents that are dilutive for FFO, Pro forma FFO and AFFO.

The Aimco Operating Partnership does not separately compute or report FFO, Pro forma FFO or AFFO. However, based on Aimco's method for allocation of amounts of FFO, Pro forma FFO and AFFO to noncontrolling interests in the Aimco Operating Partnership, as well as the limited differences between Aimco's and the Aimco Operating Partnership's net loss amounts during the periods presented, FFO, Pro forma FFO and AFFO amounts on a per unit basis for the Aimco Operating Partnership would be expected to be substantially the same as the corresponding per share amounts for Aimco.

Liquidity and Capital Resources

Liquidity is the ability to meet present and future financial obligations. Our primary source of liquidity is cash flow from our operations. Additional sources are proceeds from property sales, proceeds from refinancings of existing property loans, borrowings under new property loans and borrowings under our revolving credit facility.

Table of Contents

Our principal uses for liquidity include normal operating activities, payments of principal and interest on outstanding property debt, capital expenditures, dividends paid to stockholders and distributions paid to noncontrolling interest partners and acquisitions of, and investments in, properties. We use our cash and cash equivalents and our cash provided by operating activities to meet short-term liquidity needs. In the event that our cash and cash equivalents and cash provided by operating activities are not sufficient to cover our short-term liquidity needs, we have additional means, such as short-term borrowing availability and proceeds from property sales and refinancings, to help us meet our short-term liquidity needs. We may use our revolving credit facility for general corporate purposes and to fund investments on an interim basis. We expect to meet our long-term liquidity requirements, such as debt maturities and property acquisitions, through long-term borrowings, primarily secured, the issuance of equity securities (including OP Units), the sale of properties and cash generated from operations.

The availability of credit and its related effect on the overall economy may affect our liquidity and future financing activities, both through changes in interest rates and access to financing. Currently, interest rates are low compared to historical levels and many lenders are active in the market. However, any adverse changes in the lending environment could negatively affect our liquidity. We believe we have mitigated much of this exposure by reducing our short and intermediate term maturity risk through refinancing such loans with long-dated, fixed-rate property loans. However, if property financing options become unavailable for our further debt needs, we may consider alternative sources of liquidity, such as reductions in capital spending or proceeds from asset dispositions.

As further discussed in Item 3. Quantitative and Qualitative Disclosures About Market Risk, we are subject to interest rate risk associated with certain variable rate liabilities and preferred stock. At September 30, 2012, we estimate that a 1.0% increase in 30-day LIBOR with constant credit risk spreads would reduce the amounts of net income (or increase the amounts of net loss) attributable to Aimco common stockholders and the Aimco Operating Partnership's common unitholders by approximately \$2.2 million on an annual basis. This effect could be mitigated by increasing income earned on our variable rate assets.

We are subject to total rate of return swaps that require specified loan-to-value ratios that may require us to pay down the debt or provide additional collateral, which may adversely affect our cash flows. At September 30, 2012, we had provided \$20.0 million of cash collateral pursuant to the swap agreements to satisfy the loan-to-value requirements. See Note 6 to the condensed consolidated financial statements in Item 1 for additional information regarding these arrangements, including the maturity date of the swaps.

As of September 30, 2012, we had the capacity to borrow \$406.8 million pursuant to our revolving credit facility, net of \$66.2 million of outstanding borrowings under the revolving credit facility and \$27.0 million for undrawn letters of credit backed by the revolving credit facility.

At September 30, 2012, we had \$102.5 million in cash and cash equivalents and \$158.6 million of restricted cash, an increase in cash of \$11.4 million and decrease in restricted cash of \$26.0 million from December 31, 2011. Restricted cash primarily consists of reserves and escrows held by lenders for bond sinking funds, capital additions, property taxes and insurance, and escrows related to tenant security deposits. In addition, cash, cash equivalents and restricted cash are held by partnerships that are not presented on a consolidated basis. The following discussion relates to changes in cash due to operating, investing and financing activities, which are presented in our condensed consolidated statements of cash flows in Item 1.

Operating Activities

For the nine months ended September 30, 2012, our net cash provided by operating activities of \$242.3 million was primarily related to operating income from our consolidated properties, which is affected primarily by rental rates, occupancy levels and operating expenses related to our portfolio of properties, in excess of payments of operating accounts payable and accrued liabilities. Cash provided by operating activities for the nine months ended September 30, 2012 increased by \$65.9 million as compared to the nine months ended September 30, 2011, primarily due to an increase in the net operating income of our properties, resulting from improved operations, and a decrease in cash paid for interest, due to the \$20.7 million of prepayment penalties incurred during 2011 in connection with a series of refinancing transactions, as well as lower average debt balances and lower interest rates from our refinancing activities.

Investing Activities

For the nine months ended September 30, 2012, our net cash provided by investing activities of \$36.2 million consisted primarily of proceeds from disposition of real estate, partially offset by capital expenditures and purchases of real estate.

43

Table of Contents

Although we hold all of our properties for investment, we sell properties when they do not meet our investment criteria or are located in areas that we believe do not justify our continued investment when compared to alternative uses for our capital. During the nine months ended September 30, 2012, we sold or disposed of our interest in 50 consolidated properties for an aggregate sales price of \$447.9 million, generating proceeds totaling \$162.4 million after the amount of property debt repaid upon the sale or assumed by the buyers, and after the payment of transaction costs and debt prepayment penalties. Net cash proceeds from property sales were used primarily to fund redevelopment spending on our conventional properties and property investments, including investments in other properties and acquisitions of the noncontrolling interests in certain of our consolidated properties.

Capital expenditures totaled \$188.4 million and \$118.4 million during the nine months ended September 30, 2012 and 2011, respectively. We generally fund capital additions with cash provided by operating activities, working capital and property sales. We categorize our capital spending broadly into four primary categories: Capital Replacements, Capital Improvements, redevelopment and casualty spending. We monitor our spending in these categories based on capital additions related to properties that we own and manage, and we do not include in these measures capital spending related to properties sold or classified as held for sale at the end of the period, properties that are not multi-family such as commercial properties or fitness facilities, or properties we own but do not manage. A summary of the capital spending for these categories, along with a reconciliation of the total for these categories to the capital expenditures reported in the accompanying condensed consolidated statements of cash flow for the nine months ended September 30, 2012 and 2011 are presented below (dollars in thousands):

	2012	2011
Capital Replacements	\$47,301	\$53,937
Capital Improvements	55,977	38,635
Redevelopment additions	70,599	19,455
Casualty replacements	5,661	9,441
Total capital additions	179,538	121,468
Less: additions related to unconsolidated partnerships	(1,525) (243
Plus: additions related to sold or held for sale properties	7,588	1,709
Plus: additions related to consolidated properties not managed	176	472
Consolidated capital additions	185,777	123,406
Plus: net change in accrued capital spending	2,594	(4,976
Capital expenditures per consolidated statement of cash flows	\$188,371	\$118,430

Capital spending related to Redevelopment and Capital Improvements increased significantly during the nine months ended September 30, 2012, as compared to the nine months ended September 30, 2011, due to redevelopment projects we commenced in 2012 and large projects for property upgrades, primarily the installation of vinyl wood plank flooring at certain of our properties. For the nine months ended September 30, 2012 and 2011, capital spending included \$12.4 million and \$9.9 million of interest costs, respectively, and \$25.5 million and \$20.9 million of site payroll and indirect costs, respectively.

Financing Activities

For the nine months ended September 30, 2012, our net cash used in financing activities of \$267.1 million was primarily attributed to cash used in our redemption of preferred equity securities, debt principal payments, dividends and distributions paid to common and preferred security holders and distributions to and acquisitions of noncontrolling interests, partially offset by proceeds from our issuance of common equity securities, property loans, borrowings on our revolving line of credit and stock option exercises.

Property Debt

At September 30, 2012 and December 31, 2011, we had \$4.9 billion and \$5.2 billion, respectively, of consolidated property debt outstanding, which included \$46.4 million and \$314.9 million at September 30, 2012 and December 31, 2011, respectively, of property debt classified within liabilities related to assets held for sale. We intend to continue to refinance property debt primarily as a means of extending current and near term maturities and we also intend to use property debt to finance certain capital projects.

Credit Facility

We have a Senior Secured Credit Agreement with a syndicate of financial institutions, which we refer to as the Credit Agreement. The Credit Agreement consists of \$500.0 million of revolving loan commitments. Borrowings under the Credit Agreement bear

44

Table of Contents

interest at a rate set forth on a pricing grid which rate varies based on our leverage (initially either LIBOR plus 2.75% or, at our option, a base rate). The revolving credit facility matures December 2014, and may be extended for two additional one-year periods, subject to certain conditions, including payment of a 25.0 basis point fee on the total revolving commitments.

As of September 30, 2012, we had \$66.2 million of outstanding borrowings under the Credit Agreement, and we had the capacity to borrow \$406.8 million, net of the outstanding borrowings and \$27.0 million for undrawn letters of credit backed by the revolving credit facility. The proceeds of revolving loans are generally used to fund working capital and for other corporate purposes.

Our Credit Agreement requires us to satisfy, among other customary financial covenants, ratios of EBITDA to debt service and EBITDA to fixed charges of 1.50x and 1.30x, respectively. For the twelve months ended September 30, 2012, as calculated based on the provisions in our Credit Agreement, we had a ratio of EBITDA to debt service of 1.63x and a ratio of EBITDA to fixed charges of 1.44x. We expect to remain in compliance with these covenants during the remainder of 2012.

Equity and Partners' Capital Transactions

During the nine months ended September 30, 2012, Aimco completed two public offerings resulting in the sale of in aggregate 22,144,200 shares of its Common Stock, generating net proceeds of \$594.4 million, or net proceeds per share of \$26.84. In addition, during the nine months ended September 30, 2012, the holders of near-term expiring stock options exercised 2,041,934 stock options with a weighted average exercise price of \$23.01 per option for proceeds to Aimco of \$47.0 million. The shares received upon exercise of the options were then sold by the stockholders as part of one of the public offerings discussed above. Aimco contributed the net proceeds from the sale of shares of Common Stock and exercise of the stock options to the Aimco Operating Partnership in exchange for a number of common partnership units equal to the number of shares issued and sold.

During the nine months ended September 30, 2012, using primarily the proceeds from these Common Stock issuances, Aimco redeemed all of its outstanding shares of Class T, Class U, Class V and Class Y Cumulative Preferred Stock. The following table summarizes these preferred stock redemptions (in thousands, except share amounts):

Class of preferred stock redeemed	Nine Months Ended September 30, 2012			
	Class T	Class U	Class V	Class Y
Number of shares of preferred stock redeemed	6,000,000	12,000,000	2,587,500	3,450,000
Redemption value of preferred stock redeemed	\$150,000	\$300,000	\$64,688	\$86,250
Previously deferred issuance costs recognized as an adjustment of net income attributable to Aimco preferred stockholders	\$5,193	\$10,137	\$2,350	\$2,987

In connection with these redemptions by Aimco, the Aimco Operating Partnership redeemed from Aimco all of the outstanding units of its Class T, Class U, Class V and Class Y Partnership Preferred Units.

During the nine months ended September 30, 2012, Aimco issued 405,090 shares of its 7.00% Class Z Cumulative Preferred Stock, par value \$0.01 per share, through its preferred stock at-the-market, or ATM, offering program, for net proceeds per share of \$24.27 (reflecting an average price to the public of \$24.78 per share, less commissions and transaction costs of \$0.51 per share). The offerings generated net proceeds of \$9.8 million. Aimco contributed the net proceeds from the sale of such shares of preferred stock to the Aimco Operating Partnership in exchange for an equal number of the Aimco Operating Partnership's 7.00% Class Z Cumulative Preferred Partnership Units.

Pursuant to ATM offering programs active at September 30, 2012, Aimco has the capacity to issue up to 3.5 million additional shares of its Common Stock and an additional 3.5 million shares of its Class Z Cumulative Preferred Stock. In the event of any such issuances, Aimco would contribute the net proceeds to the Aimco Operating Partnership in exchange for number of common OP Units or Class Z Partnership Preferred Units, as the case may be, equal to the number of shares issued and sold. Additionally, the Aimco Operating Partnership and Aimco have a shelf registration statement that provides for the issuance of debt securities by the Aimco Operating Partnership and equity securities by Aimco.

During the nine months ended September 30, 2012, Aimco paid cash dividends or distributions totaling \$36.1 million, \$74.9 million and \$9.5 million to preferred stockholders, common stockholders and holders of noncontrolling interests in the Aimco Operating Partnership, respectively.

Table of Contents

During the nine months ended September 30, 2012, the Aimco Operating Partnership paid cash distributions totaling \$41.0 million and \$79.5 million to preferred unitholders and common unitholders, respectively, of which \$36.1 million and \$74.9 million, respectively, represented distributions to Aimco.

During the nine months ended September 30, 2012, Aimco and the Aimco Operating Partnership paid cash distributions of \$28.4 million to holders of noncontrolling interests in consolidated real estate partnerships, primarily related to property sales during 2012 and late 2011.

During the nine months ended September 30, 2012, we acquired the remaining noncontrolling limited partnership interests in eleven consolidated real estate partnerships that own 17 properties and for which our affiliates serve as general partner, for a total cost of \$50.6 million, and we redeemed approximately 320,000 common OP Units for cash of \$8.4 million.

Future Capital Needs

We expect to fund any future acquisitions, redevelopment projects, Capital Improvements and Capital Replacements principally with proceeds from property sales, short-term borrowings, debt and equity financing and operating cash flows.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk

Our primary market risk exposure is to the availability of property debt or other cash sources to refund maturing property debt and to changes in base interest rates and credit risk spreads. Our liabilities are not subject to any other material market rate or price risks. We use predominantly long-term, fixed-rate non-recourse property debt in order to avoid the refunding and repricing risks of short-term borrowings. We use short-term debt financing and working capital primarily to fund short-term uses and acquisitions and generally expect to refinance such borrowings with cash from operating activities, property sales proceeds, long-term debt or equity financings. We use total rate-of-return swaps to obtain the benefit of variable rates on certain of our fixed rate debt instruments. We make limited use of other derivative financial instruments and we do not use them for trading or other speculative purposes.

As of September 30, 2012, on a consolidated basis, we had approximately \$185.6 million of variable-rate indebtedness outstanding and \$37.0 million of variable rate preferred stock outstanding. Of the total debt subject to variable interest rates, floating rate tax-exempt bond financing was approximately \$157.2 million. Floating rate tax-exempt bond financing is benchmarked against the Securities Industry and Financial Markets Association Municipal Swap Index, or SIFMA, rate, which since 1992 has averaged 75% of the 30-day LIBOR rate. If this historical relationship continues, we estimate that an increase in 30-day LIBOR of 100 basis points (75 basis points for tax-exempt interest rates) with constant credit risk spreads would result in Aimco's net income and net income attributable to Aimco common stockholders being reduced (or the amounts of net loss and net loss attributable to Aimco common stockholders being increased) by \$2.2 million and \$2.3 million, respectively, on an annual basis. We estimate this same increase in interest rates would result in the Aimco Operating Partnership's net income and net income attributable to the Aimco Operating Partnership's common unitholders being reduced (or the amounts of net loss and net loss attributable to the Aimco Operating Partnership's common unitholders being increased) by \$2.2 million and \$2.4 million, respectively, on an annual basis.

At September 30, 2012, we had approximately \$364.5 million in cash and cash equivalents, restricted cash and notes receivable, a portion of which bear interest at variable rates indexed to LIBOR-based rates, and which may mitigate the effect of an increase in variable rates on our variable-rate indebtedness and preferred stock discussed above.

We estimate the fair value for our debt instruments as described in Note 7 to the condensed consolidated financial statements in Item 1. The estimated aggregate fair value of our consolidated debt (including amounts reported in liabilities related to assets held for sale) was approximately \$5.4 billion at September 30, 2012 (\$5.1 billion on a proportionate basis, including our share of the property debt of unconsolidated partnerships). The combined carrying value of our consolidated debt (including amounts reported in liabilities related to assets held for sale) was approximately \$5.0 billion at September 30, 2012 (\$4.7 billion on a proportionate basis). If market rates for our fixed-rate debt were higher by 100 basis points with constant credit risk spreads, the estimated fair value of our debt discussed above would have decreased from \$5.4 billion to \$5.2 billion (from \$5.1 billion to \$4.8 billion on a proportionate basis). If market rates for our debt discussed above were lower by 100 basis points with constant credit risk spreads, the estimated fair value of our fixed-rate debt would have increased from \$5.4 billion to \$5.7 billion

(from \$5.1 billion to \$5.3 billion on a proportionate basis).

ITEM 4. Controls and Procedures

Aimco

Disclosure Controls and Procedures

Aimco's management, with the participation of Aimco's chief executive officer and chief financial officer, has evaluated the effectiveness of its disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this report. Based on such evaluation, Aimco's chief executive officer and chief financial officer have concluded that, as of the end of such period, Aimco's disclosure controls and procedures are effective.

Changes in Internal Control Over Financial Reporting

There has been no change in Aimco's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the third quarter of 2012 that has materially affected, or is reasonably likely to materially affect, Aimco's internal control over financial reporting.

The Aimco Operating Partnership

Disclosure Controls and Procedures

The Aimco Operating Partnership's management, with the participation of the chief executive officer and chief financial officer of Aimco, who are the equivalent of the Aimco Operating Partnership's chief executive officer and chief financial officer, respectively, has evaluated the effectiveness of the Aimco Operating Partnership's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this report. Based on such evaluation, the chief executive officer and chief financial officer of Aimco have concluded that, as of the end of such period, the Aimco Operating Partnership's disclosure controls and procedures are effective.

Changes in Internal Control Over Financial Reporting

There has been no change in the Aimco Operating Partnership's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the third quarter of 2012 that has materially affected, or is reasonably likely to materially affect, the Aimco Operating Partnership's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1A. Risk Factors

As of the date of this report, there have been no material changes from the risk factors in both Aimco's and the Aimco Operating Partnership's Annual Reports on Form 10-K for the year ended December 31, 2011.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

Aimco

(a) Unregistered Sales of Equity Securities. Aimco did not issue any unregistered shares of Common Stock during the three months ended September 30, 2012.

(c) Repurchases of Equity Securities. There were no repurchases by Aimco of its equity securities during the three months ended September 30, 2012. Aimco's Board of Directors has, from time to time, authorized Aimco to repurchase shares of its outstanding capital stock. As of September 30, 2012, Aimco was authorized to repurchase approximately 19.3 million additional shares. This authorization has no expiration date. These repurchases may be made from time to time in the open market or in privately negotiated transactions.

The Aimco Operating Partnership

(a) Unregistered Sales of Equity Securities. The Aimco Operating Partnership did not issue any common OP Units in exchange for shares of Aimco Common Stock during the three months ended September 30, 2012.

(c) Repurchases of Equity Securities. The Aimco Operating Partnership's Partnership Agreement generally provides that after holding the common OP Units for one year, Limited Partners have the right to redeem their common OP Units for cash, subject to the Aimco Operating Partnership's prior right to cause Aimco to acquire some or all of the common OP Units tendered for redemption in exchange for shares of Common Stock. Common OP Units redeemed for Common Stock are exchanged on a one-for-one basis (subject to antidilution adjustments). During the three months ended September 30, 2012, no common OP Units were redeemed in exchange for shares of Common Stock. The following table summarizes repurchases of the Aimco Operating Partnership's equity securities for the three months ended September 30, 2012.

Period	Total Number of Units Purchased	Average Price Paid per Unit	Total Number of Units Purchased as Part of Publicly Announced Plans or Programs (1)	Maximum Number of Units that May Yet Be Purchased Under the Plans or Programs (1)
July 1 – July 31, 2012	152,880	\$27.17	N/A	N/A
August 1 – August 31, 2012	15,372	27.22	N/A	N/A
September 1 – September 30, 2012	1,401	26.62	N/A	N/A
Total	169,653	\$27.17		

(1) The terms of the Aimco Operating Partnership's Partnership Agreement do not provide for a maximum number of units that may be repurchased, and other than the express terms of its Partnership Agreement, the Aimco Operating Partnership has no publicly announced plans or programs of repurchase. However, whenever Aimco repurchases shares of its Common Stock, it is expected that Aimco will fund the repurchase with proceeds from a concurrent repurchase by the Aimco Operating Partnership of common OP Units held by Aimco at a price per unit that is equal to the price per share paid for its Common Stock.

Aimco and the Aimco Operating Partnership

Dividend and Distribution Payments. Our Credit Agreement includes customary covenants, including a restriction on dividends and distributions and other restricted payments, but permits dividends and distributions during any 12-month period in an aggregate amount of up to 95% of Aimco's Funds From Operations, subject to certain non-cash adjustments, for such period or such amount as may be necessary for Aimco to maintain its REIT status.

ITEM 5. Other Information

Reclassification of Unissued Preferred Stock

On October 30, 2012, pursuant to Maryland law and our Charter, our Board of Directors reclassified into Common Stock, all of the authorized and unissued shares of each of the following classes of preferred stock: Class T Cumulative Preferred Stock, Class U Cumulative Preferred Stock, Class V Cumulative Preferred Stock and Class Y Cumulative Preferred Stock. The reclassification increases the number of authorized shares classified as Common Stock by 24,900,000 shares, from 480,887,260 shares of Common Stock to 505,787,260 shares of Common Stock immediately after the reclassification. The reclassification does not impact any of our issued and outstanding shares of preferred stock.

Restatement of Charter

On October 30, 2012, pursuant to Maryland law and our Charter, we restated our Charter to reflect the reclassification of the preferred stock and the currently operative provisions of the Charter. A copy of the Charter as restated is attached to this Quarterly Report on Form 10-Q as Exhibit 3.1.

ITEM 6. Exhibits

The following exhibits are filed with this report:

EXHIBIT NO. (1)

- 3.1 Aimco – Charter
- 3.2 Aimco – Amended and Restated Bylaws (Exhibit 3.2 to Aimco’s Current Report on Form 8-K dated February 2, 2010, is incorporated herein by this reference)
- 31.1 Aimco – Certification of Chief Executive Officer pursuant to Securities Exchange Act Rules 13a-14(a)/15d-14(a), as Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
- 31.2 Aimco – Certification of Chief Financial Officer pursuant to Securities Exchange Act Rules 13a-14(a)/15d-14(a), as Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
- 31.3 The Aimco Operating Partnership – Certification of Chief Executive Officer pursuant to Securities Exchange Act Rules 13a-14(a)/15d-14(a), as Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
- 31.4 The Aimco Operating Partnership – Certification of Chief Financial Officer pursuant to Securities Exchange Act Rules 13a-14(a)/15d-14(a), as Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
- 32.1 Aimco – Certification Pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
- 32.2 Aimco – Certification Pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
- 32.3 The Aimco Operating Partnership – Certification Pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
- 32.4 The Aimco Operating Partnership – Certification Pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
- 99.1 Aimco – Agreement Regarding Disclosure of Long-Term Debt Instruments
- 101 XBRL (Extensible Business Reporting Language). The following materials from Aimco’s and the Aimco Operating Partnership’s combined Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2012, tagged in XBRL: (i) condensed consolidated balance sheets; (ii) condensed consolidated statements of operations; (iii) condensed consolidated statements of comprehensive income (loss); (iv) condensed consolidated statements of cash flows; and (v) notes to condensed consolidated financial statements.

- (1) Schedules and supplemental materials to the exhibits have been omitted but will be provided to the Securities and Exchange Commission upon request.
