HALLMARK FINANCIAL SERVICES, INC. AND SUBSIDIARIES

Item 1. Notes to Consolidated Financial Statements (Unaudited).

Note 1 - Summary of Accounting Policies

In the opinion of management, the accompanying consolidated financial statements contain all adjustments, consisting primarily of normal recurring adjustments, necessary to present fairly the financial position of Hallmark Financial Services, Inc. and subsidiaries (the "Company") as of March 31, 2002 and the consolidated results of operations and cash flows for the periods presented. The accompanying financial statements have been prepared by the Company without audit.

Certain information and disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") have been condensed or omitted. Reference is made to the Company's annual consolidated financial statements for the year ended December 31, 2001 for a description of accounting policies and certain other disclosures. Certain items in the 2001 interim financial statements have been reclassified to conform to the 2002 presentation.

The results of operations for the period ended March 31, 2002 are not necessarily indicative of the operating results to be expected for the full year.

Note 2 - Reinsurance

The Company is involved in the assumption and cession of reinsurance from/to other companies. The Company remains obligated to its policyholders in the event that reinsurers do not meet their obligations under the reinsurance agreements.

Edgar Filing: HALLMARK FINANCIAL SERVICES INC - Form 10QSB

Effective March 1, 1992, the Company entered into a reinsurance arrangement with State & County Mutual Fire Insurance Company ("State & County"), an unaffiliated company, to assume 100% of the nonstandard auto business produced by the Company and underwritten by State & County. The arrangement is supplemented by a separate retrocession agreement effective July 1, 2000 between the Company and Dorinco Reinsurance Company ("Dorinco"). Under the agreement, the Company currently retains 35% and cedes 65% of the risk to Dorinco. Prior to January 1, 2002, the Company retained 30% and ceded 70% of the risk to Dorinco.

Note 3 - Intangible Assets

When Hallmark, AHGA, HFC and HCS were purchased by HFS, the excess cost over the fair value of the net assets acquired was recorded as goodwill and was amortized on a straight-line basis over forty years. Other intangible assets consist of a trade name, a managing general agent's license and non-compete arrangements, all of which were fully amortized at March 31, 2002.

In June 2001, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 141 ("SFAS 141"), "Business Combinations", and No. 142 ("SFAS 142"), "Goodwill and Other Intangible Assets". SFAS 141 supersedes Accounting Principles Board Opinion ("APB") No. 16, "Business Combinations". SFAS 141 (1) requires that the purchase method of accounting be used for all business combinations initiated after June 30, 2001, (2) provides specific criteria for the initial recognition and measurement of intangible assets apart from goodwill and (3) requires that unamortized negative goodwill be written off immediately as an extraordinary gain. SFAS 142 supersedes APB 17, "Intangible Assets," and is effective for fiscal years beginning after December 15, 2001. SFAS 142 primarily addresses the accounting for goodwill and intangible assets subsequent to their initial recognition. SFAS 142 (1) prohibits the amortization of goodwill and indefinite-lived intangible assets, (2) requires testing of goodwill and indefinite-lived intangible assets on an annual basis for impairment (and more frequently if the occurrence of an event or circumstance indicates an impairment), (3) requires that reporting units be identified for the purpose of assessing potential future impairments of goodwill, and (4) removes the forty-year limitation on the amortization period of intangible assets that have finite lives.

The Company adopted the provisions of SFAS 142 during the first quarter of 2002. The Company is making the determinations as to what its reporting units are and what amounts of goodwill, intangible assets, other assets, and liabilities should be allocated to those reporting units. In accordance with SFAS 142, the Company has ceased recording amortization expense of its goodwill.

A reconciliation of net income and earnings per share as reported to illustrate the impact of goodwill amortization for the three months ended March 31, 2002 and 2001 is as follows:

(In thousands except for earnings per share amounts)	Three Months Ended March 31	
	2002	2001
	-----	-----
Reported net income (loss)	\$ 195	\$ (99)
Add back: Goodwill amortization	-	39
	-----	-----
Adjusted net income (loss)	\$ 195	\$ (60)
	=====	=====
Basic and diluted earnings per share:		

Edgar Filing: HALLMARK FINANCIAL SERVICES INC - Form 10QSB

Reported net income (loss)	\$ 0.02	\$ (0.01)
Goodwill amortization	-	-
	-----	-----
Adjusted net income (loss)	\$ 0.02	\$ (0.01)

SFAS 142 requires that goodwill be tested annually for impairment using a two-step process. The first step is to identify a potential impairment and, in transition, this step must be measured as of the beginning of the fiscal year. However, a company has six months from the date of adoption to complete the first step. The Company expects to complete the first step of the goodwill impairment test during the second quarter of 2002. The second step of the goodwill impairment test measures the amount of the impairment loss (measured as of the beginning of the year of adoption), if any, and must be completed by the end of the company's fiscal year. Any intangible assets of the Company deemed to have an indefinite life will be tested for impairment using a one-step process which compares the fair value to the carrying amount of the asset as of the beginning of the fiscal year. Any impairment loss resulting from the transitional impairment tests is expected to be reflected as the cumulative effect of a change in accounting principle in the Company's second quarter of 2002. The Company has not yet determined what effect these impairment tests will have on the Company's earnings and financial position. However, an impairment loss may be recognized.

Item 2. Management's Discussion and Analysis or Plan of Operation.

Introduction. Hallmark Financial Services, Inc. ("HFS") and its wholly owned subsidiaries (collectively, the "Company") engage in the sale of property and casualty insurance products. The Company's business primarily involves marketing, underwriting and premium financing of non-standard automobile insurance, as well as claims adjusting and other insurance related services.

The Company pursues its business activities through an integrated insurance group, (collectively, the "Insurance Group"), the members of which are an authorized Texas property and casualty insurance company, American Hallmark Insurance Company of Texas ("Hallmark"); a managing general agency, American Hallmark General Agency, Inc. ("AHGA"); a network of four insurance agencies known as the American Hallmark Agencies ("Hallmark Agencies"); a premium finance company, Hallmark Finance Corporation ("HFC"); and a claims handling and adjusting firm, Hallmark Claims Service, Inc. ("HCS"). The Company operates only in Texas.

Hallmark provides non-standard automobile liability and physical damage insurance through a reinsurance arrangement with an unaffiliated company, State & County Mutual Fire Insurance Company ("State & County"). Through State & County, Hallmark provides insurance primarily for high-risk drivers who do not qualify for standard-rate insurance. Under a supplementary quota-share reinsurance agreement, Hallmark, upon mutual agreement with its current reinsurer, may elect on a quarterly basis to retain 30% to 45% of the risk while ceding the remaining percentage to its reinsurer. The Company's principal reinsurer, Dorinco Reinsurance Company ("Dorinco"), currently assumes 65% of Hallmark's risk. HFC finances annual and six-month policy premiums through its premium finance program. AHGA manages the marketing of Hallmark policies through the Hallmark Agencies, and independent agents. Additionally, AHGA provides premium processing, underwriting, reinsurance accounting and cash management for unaffiliated managing general agents ("MGAs"). HCS provides fee-based claims adjustment, salvage, subrogation recovery and litigation services to Hallmark and unaffiliated MGAs.

Edgar Filing: HALLMARK FINANCIAL SERVICES INC - Form 10QSB

Financial Condition and Liquidity

The Company's sources of funds are principally derived from insurance related operations. Major sources of funds from operations include premiums collected (net of policy cancellations and premiums ceded), ceding commissions, premium finance charges and service fees. Other sources of funds are from financing and investment activities.

On a consolidated basis, the Company's total cash, cash equivalents and investments (excluding restricted cash) at March 31, 2002 and December 31, 2001 were \$20.4 million and \$21.8 million, respectively. The Company's liquidity decreased 6% during the first quarter of 2002 as compared to December 31, 2001 principally as a result of an annual ceding commission adjustment with its reinsurer in the amount of \$3.4 million during the first quarter of 2002, which was not significant in 2001.

Net cash used by the Company's consolidated operating activities was \$0.7 million for the first quarter of 2002 compared to net cash provided by operating activities of approximately \$1.9 million for the first quarter of 2001. The approximate \$3.4 million ceding commission adjustment paid to reinsurers during the first quarter of 2002 was partially offset by an increase in monthly policy production, and to a lesser extent, by the increase in the Company's retention of State & County business to 35% (from 30%) effective January 1, 2002 under the Company's quota share retrocession agreement with Dorinco.

Cash provided by investing activities during the first quarter of 2002 increased approximately \$4.6 million as compared to the first quarter of 2001. This increase in cash provided by investing activities was primarily the result of increased maturities of short-term investments during the first quarter of 2002 as compared to the first quarter of 2001. This increase was partially offset by reinvestment of the matured funds into both long and short-term investments during the first quarter of 2002.

Cash provided by financing activities increased by approximately \$1.4 million in the first quarter of 2002 as compared to the same period of 2001 primarily due to a decrease in net advances from the Company's premium finance lender. The decrease in net advances was attributable to decreased production of annual policies during the first quarter of 2002 as compared to the same period of 2001.

A substantial portion of the Company's liquid assets is held by Hallmark and is not available for general corporate purposes. Of the Company's consolidated liquid assets of \$20.4 million at March 31, 2002, and \$21.8 million at December 31, 2001, \$2.1 million and \$1.9 million, respectively, represented non-restricted cash. Since state insurance regulations restrict financial transactions between an insurance company and its affiliates, HFS is limited in its ability to use Hallmark funds for its own working capital purposes. Furthermore, dividends and loans by Hallmark to the Company are restricted and subject to Texas Department of Insurance ("TDI") approval. Although TDI has sanctioned the payment of management fees, commissions and claims handling fees by Hallmark to HFS and affiliates, since the second half of 2000, Hallmark has elected not to pay all of the commissions allowed to AHGA. Additionally, during the first three months of 2002, Hallmark paid only nominal management fees to HFS. These steps were taken to preserve Hallmark's surplus. Management anticipates that Hallmark may pay management fees periodically during the remainder of 2002. The Company has never received a dividend from Hallmark, and there is no immediate plan to pay a dividend.

Ceding commission income represents a significant source of funds to

Edgar Filing: HALLMARK FINANCIAL SERVICES INC - Form 10QSB

the Company. Ceding commission income for the first quarter of 2002 decreased \$0.8 million (representing a 27% decrease) as compared to the comparable period of 2001. This decrease was the result of the combined effect of (1) less favorable reinsurance terms during the first quarter of 2002 compared to 2001, (2) a decrease in overall core State & County premium volume, and (3) an increase in Hallmark's retention rate to 35% from 30%. In accordance with GAAP, a portion of ceding commission income and policy acquisition costs is deferred and recognized as income and expense, respectively, as related net premiums are earned. Deferred policy acquisition costs (net of deferred ceding commission) increased to approximately \$1.2 million at March 31, 2002 from \$0.8 million at December 31, 2001. The increase in net deferred acquisition costs was principally due to the combined effect of (1) decreased ceding commission due to less favorable reinsurance terms, (2) decreased annual policy production, and (3) increased retention to 35%. These factors were partially offset by a decrease in underwriting expenses.

At March 31, 2002, Hallmark reported statutory capital and surplus of \$6.1 million, which reflects an increase of \$0.1 million since December 31, 2001. Hallmark's premium-to-surplus ratio for the twelve months ended March 31, 2002 was 2.61 to 1 as compared to 2.62 for the twelve months ended December 31, 2001. Effective January 1, 2001, TDI adopted the Codification of Statutory Accounting Principles (the "Codification"), which replaced the National Association of Insurance Commissioners primary guidance on statutory accounting. As a result of the implementation of the Codification, Hallmark recognized a deferred tax asset. The deferred tax adjustment required by the Codification is recognized by TDI as an increase to surplus; however, certain rating agencies, such as A.M. Best, do not recognize the adjustment as an increase to surplus. Hallmark's premium-to-surplus ratio, without the Codification, for the twelve months ended March 31, 2002 was 2.86 to 1 as compared to 2.83 to 1 for the year ended December 31, 2001.

The Company provides program administration and claims handling for unaffiliated MGAs. The Company currently provides these services for one unaffiliated MGA which continues to produce new business. Hallmark assumes a pro-rata share of the business produced under this unaffiliated MGA program, and Dorinco assumes the remainder. Three other unaffiliated MGAs for whom the Company provides similar services have discontinued writing new business due to the inability to obtain reinsurance and are in run-off.

Management is continuing to investigate opportunities to enhance and expand the Company's operations. While additional capital or strategic alliances may be required to fund future expansion, operational enhancements through increased information technology capabilities are in progress. During the summer of 2001, the Company rolled out its web-based information system (named e-Integrity and referred to as the "Integrity System") which is designed to enhance Company and agency relationships by improving content and timeliness of information to support agents in servicing their customers. The second phase of the Integrity System is composed of two parts. Part One relates to electronic reporting and communication capabilities, and Part Two encompasses, among other things, payment and new business upload to support agents in more promptly and efficiently producing new business, as well as to improve the quality and timeliness of servicing existing policyholders. Part One alleviates certain manual processes and results in daily communication of time-sensitive information to agents, thus decreasing labor, supplies and postage costs and increasing the agent's likelihood of policyholder retention. This phase was completed during the first quarter of 2002. Part Two, which will further reduce processing costs, is targeted to be completed by year-end 2002 with related cost savings to commence in 2003.

Edgar Filing: HALLMARK FINANCIAL SERVICES INC - Form 10QSB

Results of Operations

Overview

The Company had profitable results for the first quarter of 2002 principally due to its focus on rate adequacy, underwriting discipline and agent management. For the first quarter ended March 31, 2002, net income was \$0.2 million compared to a net loss of \$0.1 million for the same quarter in 2001. Gross premiums written for the first quarter of 2002 decreased 11%, while net premiums written for the quarter increased by 4% to \$5.4 million compared to \$5.2 million in the first quarter of 2001. Net premiums earned of \$4.1 million for the quarter decreased 5% in relation to net premiums earned of \$4.4 million for the 2001 quarter.

The Company's net incurred loss ratios declined to 76.6% for the first quarter of 2002 from 87.0% for the first quarter of 2001. Certain key financial insurance operational ratios follow:

	First quarter 2002 -----	First quarter 2001 -----
GAAP Incurred Loss Ratio (excluding storm and loss corridor)	64.8%	87.0%
GAAP Loss Corridor Incurred Loss Ratio (1)	10.4%	-
GAAP Storm Incurred Loss Ratio (2)	1.4%	-
	-----	-----
GAAP Incurred Loss Ratio	76.6%	87.0%
GAAP Expense Ratio (3)	21.6%	15.1%
	-----	-----
GAAP Combined Ratio	98.2%	102.1%
	=====	=====

(1) Effective April 1, 2001, the Company's reinsurance agreement was amended to include a loss corridor provision. Losses incurred within the loss corridor range are retained 100% by the Company. The loss corridor for the three months ended March 31, 2002 was \$0.4 million.

(2) Net storm losses retained by the Company were approximately \$0.06 million for the three months ended March 31, 2002.

(3) The GAAP expense ratio represents underwriting expenses and other income less certain expenses as a percentage of net premiums written. The principal reason for the increased GAAP expense ratio is the decrease in ceding commission income. As a percentage of net premiums written, ceding commission income declined 17.9%, as discussed in the Financial Condition and Liquidity section.

Analysis

Gross premiums written (prior to reinsurance) for the first quarter of 2002 decreased 11%, while net premiums written (after reinsurance) increased 4%, in relation to the same period in 2001. The decrease in gross premiums written was principally due to the Company's strategic focus on underwriting profitability rather than market share. This focus included increased attention to rate adequacy, agent performance and underwriting discipline. The disparity between gross premiums written and net premiums written is

Edgar Filing: HALLMARK FINANCIAL SERVICES INC - Form 10QSB

primarily due to the increase in the Company's retention of premiums from 30% to 35% effective January 1, 2002.

Despite the 11% decrease in gross premiums written compared to the same quarter of the prior year, gross premiums earned (prior to reinsurance) for the first quarter of 2002 decreased only slightly as compared to the same period of 2001. This was principally due to the combined effect of a shift in policy mix from annual to monthly policies and the continued earning of annual premiums written at a higher volume level during 2001. For the first quarter of 2002, net premiums earned (after reinsurance) decreased approximately 5% in relation to the same period of 2001. The disproportionate change in premiums earned prior to and after reinsurance is principally due to the reduction in premiums earned from unaffiliated MGA programs, three of which are currently in run-off. The unaffiliated MGA programs have a greater impact on net premiums as the Company assumes this business from Dorinco (i.e. the same amount is reflected in both gross and net premiums).

Net incurred loss ratio (computed on net premiums earned after reinsurance) for the first quarter of 2002 was 76.6% compared to 87.0% for the same period of 2001. During the second quarter of 2001, the Company's reinsurance agreement was amended to include a loss corridor provision which increases net losses incurred by the Company between certain loss ratio levels. If the loss corridor provision had not been in place during the first quarter of 2002, the net incurred loss ratio would have been 66.2%. Additionally, severe storms occurring in March 2002 impacted the 2002 loss ratio. Excluding the impact of storms and the loss corridor, the loss ratio for 2002 would have been 64.8%. The significant improvement in the loss ratio from 2001 to 2002 is principally the result of the Company's increasing focus on underwriting profitability during 2001 which is now reflected in first quarter 2002 results. Specific strategies implemented in late 2000 and 2001 to improve the Company's loss ratio included multiple rate increases, more restrictive underwriting guidelines, reductions in agency force and emphasis on faster payment of claims.

Investment income decreased 59% during the first quarter of 2002 compared to the same period of 2001. The decrease is attributable to the combined effect of decreased yields currently available in the marketplace and maturities/calls of higher yield investments.

Finance charges, which decreased approximately \$0.2 million during the first quarter of 2002 compared to the same period of 2001, represent interest earned on premium notes issued by HFC. This decrease is directly correlated to the decrease in the annual policy premium volume.

Processing and service fees represent fees earned on third party processing and servicing contracts with unaffiliated MGAs. Processing and service fees for the first quarter of 2002 decreased approximately \$0.3 million (66%) as a result of cancellation of service contracts with three unaffiliated MGAs (which are currently in run-off).

Acquisition costs, net represents the amortization of acquisition costs (and credits) deferred over the past twelve months and the deferral of acquisition costs (and credits) incurred in the current period. The \$0.5 million decrease in acquisition costs, net is primarily due to the combined effect of a decrease in ceding commission income due to changes in the Company's reinsurance terms and an increase in the deferral rate as a result of the Company increasing its retention of State & County business under its quota share retrocession agreement.

Other acquisition and underwriting expenses increased 53% during the first quarter of 2002 as compared to the same period of 2001. The increase

Edgar Filing: HALLMARK FINANCIAL SERVICES INC - Form 10QSB

in expenses is primarily attributable to decreased ceding commission income as a result of decreased core State & County premium volume and a 5% increase in the Company's retention of its core business. This was partially offset by a decrease in variable expenses, such as commissions, front fees and premium taxes. Additionally, certain other underwriting expenses which fluctuate with premium volume decreased due to information technology enhancements.

Operating expenses include expenses related to premium finance operations, general corporate overhead, and third party administrative and claims handling contracts. Related revenues are derived from finance charges and processing and service fees. Operating expenses decreased 46% for the first quarter of 2002 as compared to the same period of 2001. The majority of this decrease in operating expenses is attributable to decreased operating costs related to third party processing and claims handling.

Interest expense decreased approximately \$0.1 million during 2002 as compared to 2001. This decrease is principally the result of a decrease in the effective interest rate related to the premium finance line of credit and to lower premium note volume as a result of lower annual premium volume.

Risks Associated with Forward-Looking Statements Included in this Form 10-QSB

This Form 10-QSB contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, which are intended to be covered by the safe harbors created thereby. These statements include the plans and objectives of management for future operations, including plans and objectives relating to future growth of the Company's business activities and availability of funds. The forward-looking statements included herein are based on current expectations that involve numerous risks and uncertainties. Assumptions relating to the foregoing involve judgments with respect to, among other things, future economic, competitive and market conditions, regulatory framework, and future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond the control of the Company. Although the Company believes that the assumptions underlying the forward-looking statements are reasonable, any of the assumptions could be inaccurate and, therefore, there can be no assurance that the forward-looking statements included in this Form 10-QSB will prove to be accurate. In light of the significant uncertainties inherent in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation by the Company or any other person that the objectives and plans of the Company will be achieved.

PART II OTHER INFORMATION

Item 1. Legal Proceedings.

Except for routine litigation incidental to the business of the Company and as described in Note 3 to the Consolidated Financial Statements of the Company, neither the Company, nor any of the properties of the Company was subject to any material pending or threatened legal proceedings as of the date of this report.
