The information contained in these shareholder letters represent the opinions of Van Eck Global and may differ from other persons. This information is not intended to be a forecast of future events, a guarantee of future results or investment advice. The information contained herein regarding each index has been provided by the relevant index provider. Also, unless otherwise specifically noted, any discussion of the Funds' holdings and the Funds' performance, and the views of Van Eck Global are as of June 30, 2014, and are subject to change.

MARKET VECTORS HARD ASSETS ETFs

(unaudited)

Dear Shareholder:

On May 1 this year, we changed the name of our Market Vectors RVE Hard Assets Producers ETF to Market Vectors Natural Resources ETF (NYSE Arca: HAP). This followed naturally from the rebranding of the Fund's benchmark index from the *Rogers*TM-Van Eck Hard Assets Producers Index to the *Rogers*TM-Van Eck Natural Resources Index.

We believe that the rebranding better aligns the index with the industry segment it seeks to represent. The index's methodology and underlying constituents have not changed, and it remains a transparent, impartial and fair measure of the performance of the natural resources industry.

Since it is global, the index reflects the different factors driving the continuing development of the natural resources industry. In addition to being comprehensive, the index contains the world's largest and most prominent commodity producers and distributors, it was also the first commodity equity index to include both water and renewable energy.

***Rogers*TM-Van Eck Natural Resources Index vs Benchmarks (7/1/2009 – 6/30/2014)**

Source: FactSet. Past performance is no guarantee of future results; current performance may be lower or higher than the performance data quoted. Index performance is not illustrative of fund performance. Investors cannot invest directly in an Index.

We continue to believe, too, that as a broad-based ETF, HAP can serve as the core of any natural resources investment allocation and that its comprehensive exposure may be attractive to investors seeking long-term access to global companies participating in the commodity segment.

Going forward, we will, of course, continue to seek out and evaluate the most attractive opportunities for you as a shareholder in the hard asset space. Please stay in touch with us through our website (<http://www.marketvectorsetfs.com>) on which we offer videos, email subscriptions and podcasts, all of which are designed to keep you up to date with your investment in Market Vectors ETFs.

On the following pages, you will find the performance record of each of the funds for the six-month period ended June 30, 2014. You will also find their financial statements. As always, we value your continuing confidence in us and look forward to helping you meet your investment goals in the future.

Jan F. van Eck

Trustee and President

Market Vectors ETF Trust

July 30, 2014

Represents the opinions of the investment adviser. Past performance is no guarantee of future results. Not intended to be a forecast of future events, a guarantee of future results or investment advice. Current market conditions may not continue.

Index returns are not Fund returns and do not reflect any management fees or brokerage expenses. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses. Index returns assume that dividends have been reinvested.

The *Rogers*TM-Van Eck Natural Resources Index (RVEIT) is a rules based, modified capitalization weighted, float adjusted index comprising publicly traded companies engaged in the production and distribution of commodities and commodity-related products and services in the following sectors: 1) Agriculture; 2) Alternatives (Water & Alternative Energy); 3) Base and Industrial Metals; 4) Energy; 5) Forest Products; and 6) Precious Metals.

The S&P Global Natural Resources Index (SPGNRUP) includes 90 of the largest publicly traded companies in natural resources and commodities businesses that meet specific investability requirements, offering investors diversified and investable equity exposure across three primary commodity-related sectors: agribusiness, energy, and metals &

mining.

Bloomberg Commodity Index (BCOMTR) aims to provide broadly diversified representation of commodity markets as an asset class. The index is made up of exchange-traded futures on physical commodities weighted to account for economic significance and market liquidity with weighting restrictions to promote diversification.

S&P GSCI® Index (SPGSCITR) is widely recognized as a leading measure of general price movements and inflation in the world economy. It provides investors with a reliable and publicly available benchmark for investment performance in the commodity markets. The index is calculated primarily on a world production-weighted basis and is comprised of the principal physical commodities that are the subject of active, liquid futures markets.

MANAGEMENT DISCUSSION

Hard Assets Market Overview

The *Rogers*TM-Van Eck Natural Resources Index[†](RVEIT), which includes equities of the world's largest and most prominent hard assets producers, remains the most comprehensive index in the hard assets producer space. For the six-month period ending June 30, 2014, the index returned 8.53%.

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSRS

The table below shows average sector weightings within this index and the total return of each sector for the six-month period ending June 30, 2014.

RVEIT Sector	Average Sector Weighting	Six Month Total Return for Period Ending June 30, 2014
Energy	41.40 %	13.65 %
Agriculture	30.53 %	4.77 %
Base/Industrial Metals	13.12 %	0.94 %
Precious Metals	6.90 %	17.31 %
Alternatives	4.09 %	19.03 %
Paper & Forest Products	3.96 %	-1.03 %

Source: Van Eck Global; FactSet; S-Network Global Indexes, LLC. Past performance is no guarantee of future results; current performance may be lower or higher than the performance data quoted. Index performance is not illustrative of fund performance. Investors cannot invest directly in an Index.

All sectors - except for paper & forest products - had positive returns over the six months ended June 30, 2014. The largest sector by average weight, energy, which accounted for nearly half the index, had a healthy positive return. Two of the three smaller sectors, by average weight, alternatives and precious metals, also both had a very good six months. However, the negative performance of the paper and forest products sector did not prevent the index as a whole from providing a positive total return over the six-month period.

Two-thirds (eight) of the suite of 12 Market Vectors Hard Assets ETFs posted positive total returns during the six-month period, with the two Market Vectors' gold funds, Junior Gold Miners ETF (36.38%) and Gold Miners ETF (24.91%) producing the best returns of the eight. The Global Alternative Energy ETF (17.69%), Oil Services ETF (20.04%), Solar Energy ETF (19.95%), and Unconventional Oil & Gas ETF (20.96%), each posted a total return for the period in excess of 15%. Only three ETFs showed a loss for the six months ending June 30, 2014, and, of these three, the two worst performers, Steel ETF (-4.16%) and Coal ETF (-4.10%) both lost under 5%.

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSRS

Source: Van Eck Global. Returns based on NAV. The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Funds reflects temporary waivers of expenses and/or fees. Had the Funds incurred all expenses, investment returns would have been reduced. Investment return and value of the shares of the Funds will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Current performance may be lower or higher than performance data quoted.

MARKET VECTORS HARD ASSETS ETFs

(unaudited)

Agribusiness

Fertilizer and agricultural chemical companies, together with food product companies, led performance in the sector. Companies manufacturing and distributing agricultural and farm machinery detracted most from performance. Geographically, the greatest positive returns came from companies in Canada and the U.S., while the greatest negative returns came from those in Japan, the Netherlands, and Switzerland.

Coal

The first six months of 2014 were difficult for the coal industry. 2013 saw coal production in U.S. at its lowest level since 1993 and its annual share of total net generation having declined to 39% from nearly 50% in 2007¹. In January, China, the world's largest consumer and producer of coal, brought forward to this year the goal it had previously announced of reducing its dependence upon coal, by 2017, to less than 65% of its energy usage². Then, at the beginning of June, the Obama administration in the U.S. mandated³ that, by 2030, fossil fuel-burning power plants cut carbon emissions by 30% from 2005 levels⁴. Four countries with companies that contributed positive total returns were, in order of magnitude, Indonesia, Canada, Russia, and Thailand. China and the U.S., with between them an average weight of over 56%, detracted most from the sector's performance.

Global Alternative Energy

As did solar energy stocks, global alternative energy stocks as a whole performed strongly during the first half of 2014, with significant contributions to overall performance from companies producing semiconductor equipment, and involved in wind energy and automobile manufacturing. The strongest contribution came from companies in the U.S., with by far the largest average weighting in the sector. But there was also a significant contribution from Denmark. China and Canada were the main detractors from performance.

Gold Miners/Junior Gold Miners

After a difficult year in 2013, gold miners, both large and small, bounced back during the first half of 2014. With political tensions and a weak U.S. dollar underpinning demand, gold rose in each of the first two quarters of the year⁵. Canadian gold mining companies, both large and junior, were by far the most significant contributors to performance.

However, both their established, and less established, peers in Australia and U.S. also thrived in the first six months of the year. Some Asian miners lagged and, in the case of “juniors”, detracted from performance.

Natural Resources

Energy companies, the largest segment of the natural resources industry, provided the largest positive return. The agricultural and precious metals sectors also provided healthy positive returns. Although paper and forest products contributed a negative return, the sector’s low relative average weighting resulted in a minimal detraction to performance.

Oil Services

Oil services stocks continued to produce a healthy positive total return in the first half of 2014. On the back of shale well production, domestic crude oil production in the U.S. continued to increase during the first six months of 2014⁶. And, after growth of 4% in 2012 and only 2% in 2013, according to Barclays Capital, producers are projected to raise capital spending in the U.S. and Canada by 7% in 2014⁷. U.S. oil services companies contributed by far the most to return, while foreign domiciled companies lagged.

Rare Earth and Strategic Metals

Following their decline in 2013⁸, the prices of rare earths, particularly light rare earths, continued to decline in the first six months of 2014⁹. At the end of March¹⁰, the World Trade Organization sided with the U.S. in its dispute with China over export limits on rare earths. China said it would consider an appeal. However, in early June, it was reported not only that the country may soon end both quotas and tariffs on exports, but that it may also increase the resource tax on rare earths “significantly”¹¹, not least as part of its efforts to clean up pollution¹². While companies in Australia and the U.S. involved specifically in the mining and refining of rare earths, were the largest detractors from performance, contributors to performance included companies involved in both titanium and molybdenum. Smaller companies performed better than their mid-cap peers during the period under review.

Solar Energy

Solar energy stocks continued to perform strongly in the first half of 2014, performing even better than did global alternative energy stocks. On June 9 of this year, Germany set a new world record when solar energy production peaked at 24.24 GW (gigawatts), equaling around 50.6 percent of the country's electricity demand³. In the U.S., in the first quarter of 2014, 1,330 MW (megawatts) of solar photovoltaics (PV) were installed (an increase of 79% over the first quarter of 2013), to total 14.8 GW installed capacity, enough to power three million homes¹⁴. Within the sector, by far the strongest contribution came from companies in the U.S., followed by those in Norway, Switzerland, and China. In addition to having the highest average weighting in the sector, mid-cap companies also made the most significant contribution to overall performance. However, both smaller and larger companies contributed much less to this strong performance.

Steel

The first half of 2014 was a challenging one for the steel industry. Global overcapacity continues to be a problem, especially in China, with growth in demand falling behind expanding steel capacity¹⁵. While global steel consumption grew 9.3% and 8.7% in the third and fourth quarters of 2013 respectively, it fell 0.8% year-on-year in the first quarter of 2014¹⁶. With the two largest average weightings in the sector during the period under review, both the U.S. and Brazil detracted from performance over the first six months of 2014. India was the only country to contribute positively to the fund's return for the period.

Unconventional Oil & Gas

Unconventional energy companies continued to perform well during the first half of 2014, particularly those in the U.S. The rate at which American shale oil wells produce oil continues to increase and, according to the U.S. Energy Information Administration: "U.S. crude oil production in May increased to the highest output for any month in 26 years and is on track next year to reach the highest annual production level since 1972"¹⁷. U.S. stocks (on average just over 76% of the fund by weight during the period under review) contributed by far the most to performance. Although both Canadian and Australian companies contributed positive returns, Australia's low relative average weighting resulted in a minimal contribution to performance.

Uranium and Nuclear Energy

Performance in the sector during the first six months of 2014 remained positive. With the largest average weighting over the period under review, utilities produced the vast majority of the sector's positive return. Geographically,

companies in the U.S. contributed most to return, while Japan and the Netherlands were the only countries to detract from performance. Japan's and France's continuing commitment to nuclear energy was underlined further in early May when Japanese Prime Minister Shinzo Abe and French President Francois Hollande, agreed that their two countries should work on developing a fast-breeder (Fourth Generation) nuclear reactor¹⁸. In spring, Mr. Abe reversed the previous government decision to shut all the country's reactors. However, as yet, none has been restarted⁹.

All indices are unmanaged and include the reinvestment of all dividends, but do not reflect the payment of transaction costs, advisory fees or expenses that are associated with an investment in the Fund. An index's performance is not illustrative of the Fund's performance. Indices are not securities in which investments can be made. Results reflect past performance and do not guarantee future results.

The *Rogers*TM-Van Eck Natural Resources Index (RVEIT) is a rules based, modified capitalization weighted, float adjusted index comprising publicly traded companies engaged in the production and distribution of commodities and commodity-related products and services in the following sectors: 1) Agriculture; 2) Alternatives (Water & Alternative Energy); 3) Base and Industrial Metals; 4) Energy; 5) Forest Products; and 6) Precious Metals.

Life* (cumulative)	44.18 %	44.39 %	49.27 %

*since 8/31/07

Index data prior to March 18, 2013 reflects that of the DAXglobal Agribusiness Index (DXAG). From March 18, 2013, forward, the index data reflects that of the Fund's underlying index, Market Vectors® Global Agribusiness Index (MVMOOTR). All Index history reflects a blend of the performance of the aforementioned Indexes AND IS NOT INTENDED FOR ANY THIRD PARTY USE.

Commencement date for the Market Vectors Agribusiness ETF (MOO) was 8/31/07.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, ¹ for the period from commencement (8/31/07) to the first day of secondary market trading in shares of the Fund (9/5/07), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Gross Expense Ratio 0.57% / Net Expense Ratio 0.57%

Van Eck Associates Corporation (the “Adviser”) has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.56% of the Fund’s average daily net assets per year until at least May 1, 2015. During such time, the expense limitation is expected to continue until the Fund’s Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called “creation units” and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in cash. Shares may trade at a premium or discount to their NAV in the secondary market.

The “Net Asset Value” (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares out standing. The NAV is not necessarily the same as the ETF’s intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Market Vectors® Global Agribusiness Index (MVMOOTR) is a rules-based, modified-capitalization-weighted, float-adjusted index intended to give investors exposure to the overall performance of the global agribusiness industry.

Market Vectors® Global Agribusiness Index (the “Index”) is the exclusive property of Market Vectors Index Solutions GmbH (a wholly owned subsidiary of the Adviser), which has contracted with Solactive AG to maintain and calculate the Index. Solactive AG uses its best efforts to ensure that the Index is calculated correctly. Irrespective of its obligations towards Market Vectors Index Solutions GmbH, Solactive AG has no obligation to point out errors in the Index to third parties. Market Vectors Agribusiness ETF (the “Fund”) is not sponsored, endorsed, sold or promoted by Market Vectors Index Solutions GmbH and Market Vectors Index Solutions GmbH makes no representation regarding the advisability of investing in the Fund.

MARKET VECTORS GLOBAL ALTERNATIVE ENERGY ETF

PERFORMANCE COMPARISON

(unaudited)

Total Return	Share Price ¹	NAV	AGIXLT ²
Six Months	17.49 %	17.69 %	18.02 %
One Year	45.43 %	45.52 %	45.93 %
Five Years	(0.71)%	(0.76)%	(1.42)%
Life* (annualized)	(6.98)%	(6.97)%	(7.42)%
Life* (cumulative)	(40.42)%	(40.39)%	(42.42)%

*since 5/3/07

Commencement dates for the Market Vectors Global Alternative Energy ETF (GEX) was 5/3/07.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (5/3/07) to the first day of secondary market trading in shares of the Fund (5/9/07), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Gross Expense Ratio 0.65% / Net Expense Ratio 0.62%

Van Eck Associates Corporation (the "Adviser") has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.62% of the Fund's average daily

net assets per year until at least May 1, 2015. During such time, the expense limitation is expected to continue until the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in cash. Shares may trade at a premium or discount to their NAV in the secondary market.

The "Net Asset Value" (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Ardour Global IndexSM (Extra Liquid) (AGIXLT) is a rules-based, global capitalization-weighted, float adjusted index intended to give investors a means of tracking the overall performance of a global universe of listed companies engaged in the alternative energy industry.

"Ardour Global IndexSM, LLC", "ARDOUR GLOBAL INDEXSM (Extra Liquid)", and "ARDOUR - ~~XL~~" are service marks of Ardour Global IndexSM, LLC and have been licensed for use by Van Eck Associates Corporation in connection with Market Vectors Global Alternative Energy ETF (GEX). Market Vectors Global Alternative Energy ETF (the "Fund") is not sponsored, endorsed, sold or promoted by Ardour Global IndexSM, LLC and Ardour Global IndexSM, LLC makes no representation regarding the advisability of investing in the Fund. AGIXLT is calculated by Dow Jones Indexes. The Fund, based on the AGIXLT, is not sponsored, endorsed, sold or promoted by Dow Jones Indexes, and Dow Jones Indexes makes no representation regarding the advisability of investing in the Fund.

Six Months	(4.02)%	(4.16)%	(4.02)%
One Year	28.07 %	27.86 %	28.48 %
Five Year	4.49 %	4.47 %	4.86 %
Life* (annualized)	4.13 %	4.12 %	4.52 %
Life* (cumulative)	36.70 %	36.59 %	40.72 %

*since 10/10/06

Commencement date for the Market Vectors Steel ETF was 10/10/06.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (10/10/06) to the first day of secondary market trading in shares of the Fund (10/16/06), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Gross Expense Ratio 0.64% / Net Expense Ratio 0.55%

Van Eck Associates Corporation (the "Adviser") has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense,

offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.55% of the Fund's average daily net assets per year until at least May 1, 2015. During such time, the expense limitation is expected to continue until the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The "Net Asset Value" (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

² NYSE Arca Steel Index (STEEL) is a modified capitalization-weighted index comprised of publicly traded companies predominantly involved in the production of steel products or mining and processing of iron ore.

NYSE Arca Steel Index (STEEL) is a trademark of NYSE Euronext or its affiliates (NYSE Euronext), is licensed for use by Van Eck Associates Corporation in connection with Market Vectors Steel ETF (SLX). Market Vectors Steel ETF (the "Fund") is not sponsored, endorsed, sold or promoted by NYSE Euronext and NYSE Euronext makes no representation as to the accuracy and/or completeness of STEEL or the results to be obtained by any person from the using STEEL in connection with trading the Fund.

*since 2/14/12

On January 23, 2013, the name of the Market Vectors® Unconventional Oil & Gas Index changed to Market Vectors® Global Unconventional Oil & Gas Index. This was a name change only. There were no other changes to the Fund's underlying index.

Commencement date for the Unconventional Oil & Gas ETF (FRAK) was 2/14/2012.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (2/14/12) to the first day of secondary market trading in shares of the Fund (2/15/12), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Gross Expense Ratio 0.74% / Net Expense Ratio 0.54%

Van Eck Associates Corporation (the “Adviser”) has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.54% of the Fund’s average daily net assets per year until at least May 1, 2015. During such time, the expense limitation is expected to continue until the Fund’s Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called “creation units” and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The “Net Asset Value” (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF’s intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Market Vectors® Global Unconventional Oil & Gas Index (MVFRAKTR) is a rules-based, modified² capitalization-weighted, float-adjusted index intended to track the overall performance of companies involved in the exploration, development, extraction, production and/or refining of unconventional oil and natural gas.

Market Vectors® Global Unconventional Oil & Gas Index (MVFRAKTR) is the exclusive property of Market Vectors Index Solutions GmbH (a wholly owned subsidiary of the Adviser), which has contracted with Solactive AG to maintain and calculate MVFRAKTR. Solactive AG uses its best efforts to ensure that MVFRAKTR is calculated correctly. Irrespective of its obligations towards Market Vectors Index Solutions GmbH, Solactive AG has no obligation to point out errors in MVFRAKTR to third parties. Market Vectors Unconventional Oil & Gas ETF (the “Fund”) is not sponsored, endorsed, sold or promoted by Market Vectors Index Solutions GmbH and Market Vectors Index Solutions GmbH makes no representation regarding the advisability of investing in the Fund.

MARKET VECTORS ETF TRUST

EXPLANATION OF EXPENSES

(unaudited)

Hypothetical \$1,000 investment at beginning of period

As a shareholder of a Fund, you incur operating expenses, including management fees and other Fund expenses. This disclosure is intended to help you understand the ongoing costs (in dollars) of investing in your Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The disclosure is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, January 1, 2014 to June 30, 2014.

Actual Expenses

The first line in the table below provides information about account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During the Period."

Hypothetical Example for Comparison Purposes

The second line in the table below provides information about hypothetical account values and hypothetical expenses based on your Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as program fees. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

*See Schedule of Investments for security type and geographic sector breakouts.

During the period ended June 30, 2014, transfers of securities from Level 1 to Level 2 were \$9,477,665 and transfers of securities from Level 2 to Level 1 were \$99,939,933. These transfers resulted primarily from changes in certain foreign securities valuation methodologies between the last close of the securities' primary market (Level 1) and valuation by a pricing service (Level 2), which takes into account market direction or events occurring before the Fund's pricing time but after the last local close, as described in the Notes to Financial Statements.

The following table reconciles the valuation of the Fund's Level 3 investment securities and related transactions during the period ended June 30, 2014:

	Common Stocks China / Hong Kong
Balance as of December 31, 2013	\$-
Realized gain (loss)	-
Net change in unrealized appreciation (depreciation)	(965,952)
Purchases	-
Sales	-
Transfers in and/or out of level 3	5,554,209
Balance as of June 30, 2014	\$4,588,257

Transfers to Level 3 resulted primarily due to suspended trading.

Total	\$1,881,027,266	\$603,575,989	\$4,439,492	\$2,489,042,747

*See Schedule of Investments for security type and geographic sector breakouts.

During the period ended June 30, 2014, transfers of securities from Level 1 to Level 2 were \$9,258,702 and transfers of securities from Level 2 to Level 1 were \$ 2,821,177. These transfers resulted primarily from changes in certain foreign securities valuation methodologies between the last close of the securities' primary market (Level 1) and valuation by a pricing service (Level 2), which takes into account market direction or events occurring before the Fund's pricing time but after the last local close, as described in the Notes to Financial Statements.

The following table reconciles the valuation of the Fund's Level 3 investment securities and related transactions during the period ended June 30, 2014:

	Common Stocks China/Hong Kong
Balance as of December 31, 2013	\$4,551,243
Realized gain (loss)	(11,857)
Change in unrealized appreciation (depreciation)	(85,307)
Purchases	6,807
Sales	(21,394)

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSRS

Transfers in and/or out of level 3	–
Balance as of June 30, 2014	\$4,439,492

† Security fully or partially on loan. Total market value of securities on loan is \$3,011,860.

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSRS

Indicates a fair valued security which has not been valued utilizing an independent quote, but has been valued pursuant to guidelines established by the Board of Trustees. The aggregate value of fair valued securities is \$38,463,031 which represents 35.7% of net assets.

§ Illiquid Security – the aggregate value of illiquid securities is \$36,400 which represents 0.0% of net assets. Security was purchased pursuant to Regulation S under the Securities Act of 1933, which exempts from Reg S registration securities offered and sold outside of the United States. Such a security cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration.

144A Security exempt from registration under Rule 144A of the Securities Act of 1933, as amended, or otherwise restricted. These securities may be resold in transactions exempt from registration, unless otherwise noted, and the value amounted to \$338,221, or 0.3% of net assets.

During the period ended June 30, 2014, transfers of securities from Level 2 to Level 1 were \$855,892. These transfers resulted primarily from changes in certain foreign securities valuation methodologies between the last close of the securities' primary market (Level 1) and valuation by a pricing service (Level 2), which takes into account market direction or events occurring before the Fund's pricing time but after the last local close, as described in the Notes to Financial Statements.

Total	\$26,681,552	\$13,012,773	\$ -	\$39,694,325

* See Schedule of Investments for security type and geographic sector breakouts.

During the period ended June 30, 2014, transfers of securities from Level 1 to Level 2 were \$485,030 and transfers of securities from Level 2 to Level 1 were \$ 1,080,483. These transfers resulted primarily from changes in certain foreign securities valuation methodologies between the last close of the securities' primary market (Level 1) and valuation by a pricing service (Level 2), which takes into account market direction or events occurring before the Fund's pricing time but after the last local close, as described in the Notes to Financial Statements.

† Security fully or partially on loan. Total market value of securities on loan is \$2,333,864.

Indicates a fair valued security which has not been valued utilizing an independent quote, but has been valued pursuant to guidelines established by the Board of Trustees. The aggregate value of fair valued securities is \$25,072,550 which represents 32.6% of net assets.

Reg Security was purchased pursuant to Regulation S under the Securities Act of 1933, which exempts from registration securities offered and sold outside of the United States. Such a security cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration.

(a) Commencement of operations

(b) Calculated based upon average shares outstanding

(c) Total return is calculated assuming an initial investment made at the net asset value at the beginning of period, reinvestment of any dividends and distributions at net asset value on the dividend/distributions payment date and a redemption at the net asset value on the last day of the period. The return does not reflect the deduction of taxes that a shareholder would pay on Fund dividends/distributions or the redemption of Fund shares.

(d) Not annualized

(e) Annualized

On July 1, 2013, the Fund effected a 1 for 4 reverse share split (See Note 10). Per share data has been adjusted to reflect the share split.

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

June 30, 2014 (unaudited)

Note 1—Fund Organization—Market Vectors ETF Trust (the “Trust”) is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company. The Trust was incorporated in Delaware as a statutory trust on March 15, 2001. The Trust operates as a series fund, and as of June 30, 2014, offers fifty-eight investment portfolios, each of which represents a separate series of the Trust.

These financial statements relate only to the following investment portfolios: Agribusiness ETF, Coal ETF, Global Alternative Energy ETF, Gold Miners ETF, Junior Gold Miners ETF, Natural Resources ETF (formerly RVE Hard Assets Producers ETF), Oil Services ETF, Rare Earth/Strategic Metals ETF, Solar Energy ETF, Steel ETF, Unconventional Oil & Gas ETF and Uranium+Nuclear Energy ETF (each a “Fund” and, together, the “Funds”). Each Fund was created to provide investors with the opportunity to purchase a security representing a proportionate undivided interest in a portfolio of securities consisting of substantially all of the common stocks in substantially the same weighting, in an index sponsored, licensed or managed by the NYSE Euronext, Ardour Global Indexes, LLC, S-Network Global Indexes, LLC or Market Vectors Index Solutions GmbH, a wholly owned subsidiary of Van Eck Associates Corporation (the “Adviser”).

The Funds’ commencement of operations dates and their respective Indices are presented below:

Fund	Commencement of Operations	Index
Agribusiness ETF	August 31, 2007	Market Vectors Global Agribusiness Index*
Coal ETF	January 10, 2008	Market Vectors Global Coal Index*®
Global Alternative Energy ETF	May 03, 2007	Ardour Global Index SM (Extra Liquid)
Gold Miners ETF	May 16, 2006	NYSE Arca Gold Miners Index
Junior Gold Miners ETF	November 10, 2009	Market Vectors Global Junior Gold Miners Index*
Natural Resources ETF ^(c)	August 29, 2008	Rogers TM -Van Eck Natural Resources Index*
Oil Services ETF	December 20, 2011	Market Vectors US Listed Oil Services 25 Index*
Rare Earth/Strategic Metals ETF	October 27, 2010	Market Vectors Global Rare Earth/Strategic Metals Index*
Solar Energy ETF	April 21, 2008	Market Vectors Global Solar Energy Index*
Steel ETF	October 10, 2006	NYSE Arca Steel Index
Unconventional Oil & Gas ETF	February 14, 2012	Market Vectors Global Unconventional Oil & Gas Index*
Uranium+Nuclear Energy ETF	August 13, 2007	Market Vectors Global Uranium & Nuclear Energy Index* ^(b)

* Published by Market Vectors Index Solutions GmbH.

(a) Prior to May 1, 2014, the index for Natural Resources ETF was RogersTM-Van Eck Hard Assets Producers Index.

(b) Prior to May 1, 2014, the index for Uranium+Nuclear Energy ETF was DAXglobal[®] Nuclear Energy Index.

(c) Effective May 1, 2014, the RVE Hard Assets Producers ETF changed its name to Natural Resources ETF.

Note 2—Significant Accounting Policies—The preparation of financial statements in conformity with U.S. generally accepted accounting principles (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

The Funds are investment companies and are following accounting and reporting requirements of Accounting Standard Codification (“ASC”) 946 Financial Services - Investment Companies.

The following is a summary of significant accounting policies followed by the Funds.

Security Valuation—The Funds value their investments in securities and other assets and liabilities carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. Securities traded on national exchanges or traded on the NASDAQ National Market System are valued at the last sales price as reported at the close of each business day. Securities traded on the NASDAQ Stock Market are valued at the NASDAQ official closing price.

A. Over-the-counter securities not included in the NASDAQ National Market System and listed securities for which no sale was reported are valued at the mean of the bid and ask prices. To the extent these securities are actively traded they are categorized as Level 1 in the fair value hierarchy (described below). Certain foreign securities, whose values may be affected by market direction or events occurring before the Funds’ pricing time (4:00 p.m. Eastern Standard Time) but after the last close of the securities’ primary market, are fair valued using a pricing service and are categorized as Level 2 in the fair value

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(unaudited) (continued)

hierarchy. The pricing service, using methods approved by the Board of Trustees, considers the correlation of the trading patterns of the foreign security to intraday trading in the U.S. markets, based on indices of domestic securities and other appropriate indicators such as prices of relevant ADR's and futures contracts. The Funds may also fair value securities in other situations, such as, when a particular foreign market is closed but the Fund is open. Short-term obligations with more than sixty days remaining to maturity are valued at market value. Short-term obligations with sixty days or less to maturity are valued at amortized cost, which with accrued interest approximates fair value. Money market fund investments are valued at net asset value and are considered to be Level 1 in the fair value hierarchy. Forward foreign currency contracts are valued at the spot currency rate plus an amount ("points"), which reflects the differences in the interest rates between the U.S. and foreign markets and are classified as Level 2 in the fair value hierarchy. Securities for which quotations are not available are stated at fair value as determined by the Pricing Committee of the Adviser appointed by the Board of Trustees. The Pricing Committee provides oversight of the Funds' valuation policies and procedures, which are approved by the Funds' Board of Trustees. Among other things, these procedures allow the Funds to utilize independent pricing services, quotations from securities dealers, and other market sources to determine fair value. The Pricing Committee convenes regularly to review the fair value of financial instruments for which market prices are not readily available. The Pricing Committee employs various methods for calibrating the valuation approaches utilized to determine fair value, including a regular review of key inputs and assumptions, transactional back-testing and disposition analysis.

Certain factors such as economic conditions, political events, market trends, the nature of and duration of any restrictions on disposition, trading in similar securities of the issuer or comparable issuers and other security specific information are used to determine the fair value of these securities. Depending on the relative significance of valuation inputs, these securities may be classified either as Level 2 or Level 3 in the fair value hierarchy. The price which the Funds may realize upon sale of an investment may differ materially from the value presented in the Schedules of Investments.

The Funds utilize various methods to measure the fair value of its investments on a recurring basis which includes a hierarchy that prioritizes inputs to valuation methods used to measure fair value. The fair value hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The transfers between levels of the fair value hierarchy assume the financial instruments were transferred at the beginning of the reporting period. The three levels of the fair value hierarchy are described below:

Level 1 - Quoted prices in active markets for identical securities.

Level 2 - Significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 - Significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

A summary of the inputs, the levels used to value the Funds' investments, and transfers between levels are located in the Schedules of Investments. Additionally, tables that reconcile the valuation of the Funds' Level 3 investments and that present additional information about valuation methodologies and unobservable inputs, if applicable, are located in the Schedules of Investments.

Federal Income Taxes—It is each Fund's policy to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

Dividends and Distributions to Shareholders—Dividends to shareholders from net investment income and distributions from net realized capital gains, if any, are declared and paid annually. Income dividends and capital gain distributions are determined in accordance with U.S. income tax regulations, which may differ from such amounts determined in accordance with GAAP.

Currency Translation—Assets and liabilities denominated in foreign currencies and commitments under foreign currency contracts are translated into U.S. dollars at the closing prices of such currencies each business day. Purchases and sales of investments are translated at the exchange rates prevailing when such investments are acquired or sold.

Foreign denominated income and expenses are translated at the exchange rates prevailing when accrued. The portion of realized and unrealized gains and losses on investments that result from fluctuations in foreign currency exchange rates is not separately disclosed in the financial statements.

Recognized gains or losses attributable to foreign currency fluctuations on foreign currency denominated assets, other than investments, and liabilities are recorded as net realized gain (loss) on foreign currency transactions and foreign denominated assets and liabilities in the Statements of Operations.

E. Restricted

Securities—The Funds may invest in securities that are subject to legal

or contractual restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the securities are registered. Disposal of these securities may involve time-consuming negotiations and expense, and prompt sale at an acceptable price may be difficult. Information regarding restricted securities, if any, is included at the end of each Fund's Schedule of Investments.

F. Use of Derivative Instruments—The Funds may make investments in derivative instruments, including, but not limited to, options, futures, swaps and other derivatives relating to foreign currency transactions. A derivative is an instrument whose value is derived from underlying assets, indices, reference rates or a combination of these factors.

Derivative instruments may be privately negotiated contracts (often referred to as over-the-counter (“OTC”) derivatives) or they may be listed and traded on an exchange.

Derivative contracts may involve future commitments to purchase or sell financial instruments at specified terms on a specified date, or to exchange interest payment streams or currencies based on a notional or contractual amount.

Derivative instruments may involve a high degree of financial risk. The use of derivative instruments also involves the risk of loss if the Adviser is incorrect in its expectation of the timing or level of fluctuations in securities prices, interest rates or currency prices.

Investments in derivative instruments also include the risk of default by the counterparty, the risk that the

investment may not be liquid and the risk that a small movement in the price of the underlying security or benchmark may result in a disproportionately large movement, unfavorable or favorable, in the price of the derivative instruments. The Funds held no derivative instruments during the period ended June 30, 2014.

Forward Foreign Currency Contracts—The Funds are subject to foreign currency risk in the normal course of pursuing its investment objectives. The Funds may buy and sell forward foreign currency contracts to settle purchases and sales of foreign denominated securities or to hedge foreign denominated assets. Realized gains and losses from forward foreign currency contracts, if any, are included in net realized gain (loss) on foreign currency transactions and foreign denominated assets and liabilities in the Statements of Operations. The Funds may incur additional risk from investments in forward foreign currency contracts if the counterparty is unable to fulfill its obligation or there are unanticipated movements of the foreign currency relative to the U.S. dollar. The Funds held no forward foreign currency contracts during the period ended June 30, 2014.

G. Offsetting Assets and Liabilities—In

the ordinary course of business, the Funds enter into transactions subject to enforceable master netting or other similar agreements. Generally, the right of setoff in those agreements allows the Funds to set off any exposure to a specific counterparty with

any collateral received or delivered to that counterparty based on the terms of the agreements. The Funds may pledge or receive cash and/or securities as collateral for derivative instruments, securities lending and repurchase agreements. For financial reporting purposes, the Funds do not offset securities lending or repurchase agreement assets and liabilities in the Statements of Assets and Liabilities.

H. Other—Security transactions are accounted for on trade date. Transactions in certain securities may take longer than the customary settlement cycle to be completed. The counterparty is required to collateralize such trades with cash in excess of the market value of the transaction, which is held at the custodian and marked to market

daily. Realized gains and losses are calculated on the identified cost basis. Dividend income is recorded on the ex-dividend date except that certain dividends from foreign securities are recognized upon notification of the ex-dividend date/rate. Interest income, including amortization of premiums and discounts, is accrued as earned.

In the normal course of business, the Funds enter into contracts that contain a variety of general indemnifications. The Funds' maximum exposure under these agreements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Adviser believes the risk of loss under these arrangements to be remote.

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(unaudited) (continued)

Note 3—Investment Management and Other Agreements—The Adviser is the investment adviser to the Funds. The Adviser receives a management fee, calculated daily and payable monthly based on an annual rate of 0.50% of each Fund's average daily net assets (except for Oil Services ETF). The management fee rate for Oil Services ETF is 0.35%. The Adviser has agreed, at least until May 1, 2015, to voluntarily waive or limit its fees and to assume as its own expense certain expenses otherwise payable by the Funds so that each Fund's total annual operating expenses does not exceed the expense caps, excluding interest expense, trading expenses, taxes and extraordinary expenses, listed in the table below.

The current expense caps and the amounts waived by the Adviser for the period ended June 30, 2014, are as follows:

Fund	Expense Cap	Waiver of Management Fees
Agribusiness ETF	0.56 %	\$ –
Coal ETF	0.59	47,463
Global Alternative Energy ETF	0.62	18,010
Gold Miners ETF	0.53	–
Junior Gold Miners ETF	0.56	–
Natural Resources ETF	0.49	123,763
Oil Services ETF	0.35	260,015
Rare Earth/Strategic Metals ETF	0.57	76,843
Solar Energy ETF	0.65	57,677
Steel ETF	0.55	45,352
Unconventional Oil & Gas ETF	0.54	57,751
Uranium+Nuclear Energy ETF	0.60	68,386

In addition, Van Eck Securities Corporation, an affiliate of the Adviser, acts as the Funds' Distributor. Certain officers and a Trustee of the Trust are officers, directors or stockholders of the Adviser and Distributor.

Note 4—Investments—For the period ended June 30, 2014, the cost of purchases and proceeds from sales of investments other than U.S. government obligations and short-term obligations (excluding in-kind transactions described in Note 6) were as follows:

Fund

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSRS

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(unaudited) (continued)

The Funds recognize the tax benefits of uncertain tax positions only where the position is “more-likely-than-not” to be sustained assuming examination by applicable tax authorities. Management has analyzed the Funds’ tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on return filings for open tax years (tax years ended December 31, 2010-2013), or expected to be taken in the Funds’ current tax year. The Funds do not have exposure for additional years that might still be open in certain foreign jurisdictions. Therefore, no provision for income tax is required in the Funds’ financial statements. However, the Funds are subject to foreign taxes on the appreciation in value of certain investments. The Funds provide for such taxes on both realized and unrealized appreciation.

The Funds recognize interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statements of Operations. During the year ended period, the Funds did not incur any interest or penalties.

Note 6—Capital Share Transactions—As of June 30, 2014, there were an unlimited number of capital shares of beneficial interest authorized by the Trust with no par value. Shares are issued and redeemed by the Funds only in Creation Units, consisting of 50,000 shares, or multiples thereof. The consideration for the purchase or redemption of Creation Units of the Funds generally consists of the in-kind contribution or distribution of securities constituting the Funds’ underlying index plus a small amount of cash. For the period ended June 30, 2014 the Trust had in-kind contributions and redemptions as follows:

Fund	In-Kind Contributions	In-Kind Redemptions
Agribusiness ETF	\$—	\$2,234,829,710
Coal ETF	28,963,819	11,041,460
Global Alternative Energy ETF	12,291,718	5,897,611
Gold Miners ETF	1,223,683,337	1,545,033,503
Junior Gold Miners ETF	782,975,020	97,977,432
Natural Resources ETF	1,808,858	3,618,964
Oil Services ETF	2,481,868,393	2,747,165,027
Rare Earth/Strategic Metals ETF	—	1,645,290
Solar Energy ETF	10,481,232	6,925,969
Steel ETF	27,567,220	72,956,794
Unconventional Oil & Gas ETF	26,944,120	7,753,291
Uranium+Nuclear Energy ETF	44,048,919	16,547,438

Note 7—Concentration of Risk—The investment objective of each Fund is to seek investment results that correspond generally to the price and yield performance, before fees and expenses, of its underlying index, as indicated in the

name of each Fund. The Adviser uses a “passive” or index approach to achieve each Fund’s investment objective by investing in a portfolio of securities that generally replicates the Funds’ index. Each of the Funds is classified as a non-diversified fund under the 1940 Act. Non-diversified funds generally hold securities of fewer issuers than diversified funds and may be more susceptible to the risks associated with these particular issuers, or to a single economic, political or regulatory occurrence affecting these issuers. The Funds may purchase securities on foreign exchanges. Securities of foreign issuers involve special risks and considerations not typically associated with investing in U.S. issuers. These risks include devaluation of currencies, currency controls, less reliable information about issuers, different securities transaction clearance and settlement practices, future adverse political and economic developments and local/regional conflicts. These risks are heightened for investments in emerging market countries. Moreover, securities of many foreign issuers and their markets may be less liquid and their prices more volatile than those of comparable U.S. issuers.

As a result of recent events involving Ukraine and the Russian Federation, the United States and the European Union have imposed sanctions on certain Russian individuals and companies. These sanctions do not currently impact the Funds. Additional economic sanctions may be imposed or other actions may be taken that may adversely affect the value and liquidity of the Russian-related issuers’ held by the Funds.

Note 8—Trustee Deferred Compensation Plan—The Trust has a Deferred Compensation Plan (the “Plan”) for Trustees under which the Trustees can elect to defer receipt of their trustee fees until retirement, disability or termination from the Board of Trustees. The fees otherwise payable to the participating Trustees are deemed invested in shares of the Funds as directed by the Trustees.

The expense for the Plan is included in “Trustees’ fees and expenses” in the Statements of Operations. The liability for the Plan is shown as “Deferred Trustee fees” in the Statements of Assets and Liabilities.

Note 9—Securities Lending—To generate additional income, each of the Funds may lend its securities pursuant to a securities lending agreement with The Bank of New York Mellon, the securities lending agent and also the Funds' custodian. Each Fund may lend up to 33% of its investments requiring that the loan be continuously collateralized by cash, U.S. government or U.S. government agency securities, shares of an investment trust or mutual fund, or any combination of cash and such securities at all times equal to at least 102% (105% for foreign securities) of the market value plus accrued interest on the securities loaned. During the term of the loan, the Funds will continue to receive any dividends, interest or amounts equivalent thereto, on the securities loaned while receiving a fee from the borrower or earning interest on the investment of the cash collateral. Such fees and interest are shared with the securities lending agent under the terms of the securities lending agreement. The Funds may pay reasonable finders', administrative and custodial fees in connection with a loan of its securities and shares the interest earned on the collateral and borrowing fees received with the securities lending agent. Securities lending income is disclosed as such in the Statements of Operations. The collateral for securities loaned is recognized in the Schedules of Investments and the Statements of Assets and Liabilities. The cash collateral is maintained on the Funds' behalf by the lending agent and is invested in the Bank of New York Overnight Government Fund, the Bank of New York Institutional Cash Reserve, or repurchase agreements collateralized by obligations of the U.S. Treasury and/or Government Agencies. Loans are subject to termination at the option of the borrower or the Funds. Upon termination of the loan, the borrower will return to the lender securities identical to the securities loaned. The Funds bear the risk of delay in recovery of, or even loss of rights in, the securities loaned should the borrower of the securities fail financially. The value of loaned securities and related collateral outstanding at June 30, 2014 are shown on a gross basis in the Schedules of Investments and Statements of Assets and Liabilities.

Note 10—Share Split—On January 27, 2012, the Board of Trustees of the Trust approved a 3 for 1 share split for the Oil Services ETF. The split took place for shareholders of record as of the close of business on February 10, 2012, and were paid on February 13, 2012. Fund shares began trading on a split-adjusted basis on February 14, 2012. The Financial Highlights for the Oil Services ETF prior to January 27, 2012 have been adjusted to reflect the 3 for 1 share split.

On July 2, 2012, the Board of Trustees of the Trust approved a 1 for 15 reverse share split for Solar Energy ETF. Fund shares began trading on a split-adjusted basis on July 2, 2012. The Financial Highlights for Solar Energy ETF prior to July 2, 2012 have been adjusted to reflect the 1 for 15 reverse share split.

On July 1, 2013, the Board of Trustees of the Trust approved a 1 for 3 reverse share split for Global Alternative Energy ETF and Uranium+Nuclear Energy ETF, and 1 for 4 reverse share split for Junior Gold Miners ETF and Rare Earth/Strategic Metals ETF. Fund shares began trading on a split-adjusted basis on July 1, 2013. The Statements of Changes in Net Assets and Financial Highlights prior to July 1, 2013 for the respective Funds have been adjusted to reflect the reverse share splits.

Note 11—Bank Line of Credit—Certain Funds may participate in a \$200 million committed credit facility (the "Facility") to be utilized for temporary financing until the settlement of sales or purchases of portfolio securities, the repurchase

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSRS

or redemption of shares of the Funds at the request of the shareholders and other temporary or emergency purposes. The Funds have agreed to pay commitment fees, pro rata, based on the unused but available balance. Interest is charged to the Funds at rates based on prevailing market rates in effect at the time of borrowings. During the period ended June 30, 2014, the following Funds borrowed under this Facility:

Fund	Days Outstanding	Average Daily Loan Balance	Average Interest Rate	Outstanding Loan Balance as of June 30, 2014
Agribusiness ETF	179	\$9,411,343	1.50 %	\$6,529,623
Coal ETF	80	354,487	1.49	223,792
Global Alternative Energy ETF	17	94,080	1.49	–
Gold Miners ETF	112	10,299,520	1.50	49,757,002
Junior Gold Miners ETF	174	10,571,015	1.50	11,387,527
Natural Resources ETF	161	328,906	1.50	652,819
Oil Services ETF	134	2,516,780	1.48	2,550,408
Rare Earth/Strategic Metals ETF	147	519,321	1.50	121,470
Solar Energy ETF	35	215,986	1.52	–
Steel ETF	68	484,022	1.49	–
Unconventional Oil & Gas ETF	34	273,203	1.49	157,003
Uranium+Nuclear Energy ETF	180	206,927	1.50	318,285

77

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(unaudited) (continued)

Note 12—Custodian Fees—The Funds have entered into an expense offset agreement with the custodian wherein they receive a credit toward the reduction of custodian fees whenever there are uninvested cash balances. The Funds could have invested their cash balances elsewhere if they had not agreed to a reduction in fees under the expense offset agreement with the custodian. For the period ended June 30, 2014, there were no offsets to the custodian fees.

Note 13—Subsequent Event Review—The Funds have evaluated subsequent events and transactions for potential recognition or disclosure through the date the financial statements were issued.

MARKET VECTORS ETF TRUST

APPROVAL OF INVESTOR MANAGEMENT AGREEMENT

June 30, 2014 (unaudited)

At a meeting held on June 6, 2014 (the “Renewal Meeting”), the Board of Trustees (the “Board”) of Market Vectors ETF Trust (the “Trust”), including all of the Trustees that are not interested persons of the Trust (the “Independent Trustees”), approved the continuation of (i) the investment management agreements (the “Investment Management Agreements”) between the Trust and Van Eck Associates Corporation (the “Adviser”) with respect to the Market Vectors Africa Index ETF, Agribusiness ETF, Agriculture Producers ETF, Brazil Small-Cap ETF, ChinaAMC All China Consumer ETF, ChinaAMC A-Share ETF, ChinaAMC MSCI All China ETF, ChinaAMC MSCI All China Small Cap ETF, ChinaAMC SME-ChiNext ETF, Coal ETF, Colombia ETF, Egypt Index ETF, Emerging Europe ex-Russia Index ETF, Energy Producers ETF, GDP Weighted Emerging Markets ETF, GDP Weighted Emerging Markets Small-Cap ETF, GDP Weighted International ex-US ETF, Germany Small-Cap ETF, Global Alternative Energy ETF, Global Frontier Index ETF, Gold Miners ETF, Gulf States Index ETF, Hard Assets Producers Extra Liquid ETF, India Small-Cap Index ETF, Indonesia Index ETF, Indonesia Small-Cap ETF, Internet ETF, Israel ETF, Junior Gold Miners ETF, Kuwait Index ETF, Latin America Small-Cap Index ETF, Metals ETF, Mongolia ETF, Natural Resources ETF, Nigeria ETF, Nigeria-Focused West Africa ETF, Oil Services ETF, Poland ETF, Rare Earth/Strategic Metals ETF, Russia ETF, Russia Small-Cap ETF, Saudi Arabia ETF, Saudi Arabia Small-Cap ETF, Software ETF, Solar Energy ETF, Steel ETF, Telecom ETF, Unconventional Oil & Gas ETF, Uranium+Nuclear Energy ETF and Vietnam ETF (the “Funds”) and (ii) a sub-advisory agreement between the Adviser and China Asset Management (Hong Kong) Limited (the “Sub-Adviser”) (the “Sub-Advisory Agreement”) with respect to Market Vectors ChinaAMC A-Share ETF (the “China Fund”). The Investment Management Agreements and the Sub-Advisory Agreement are collectively referred to as the “Agreements.”

The Board’s approval of the Agreements was based on a comprehensive consideration of all of the information available to the Trustees and was not the result of any single factor. Some of the factors that figured particularly in the Trustees’ deliberations and how the Trustees considered those factors are described below, although individual Trustees may have evaluated the information presented differently, giving different weights to various factors.

In preparation for the Renewal Meeting, the Trustees held a meeting on May 9, 2014. At that meeting, the Trustees discussed the information the Adviser, the Sub-Adviser (with respect to the China Fund) and Lipper Inc. (“Lipper”), an independent third party data provider, had provided to them in advance. The information provided to the Trustees included, among other things, information about the performance (for those Funds which had begun operations) and expenses of the Funds and (where applicable) the Funds’ peer funds (other index-based exchange-traded funds (“ETFs”)), information about the advisory services provided to the Funds and the personnel providing those services, and the profitability and other benefits enjoyed by the Adviser and its affiliates as a result of the Adviser’s relationship with the Funds. In reviewing performance and expense information for certain of the Funds against their peer groups, the Trustees considered that some of the Funds generally invest in a different group of issuers than some or all of the other funds in a Fund’s designated peer group. For these and other reasons, the Trustees noted that the peer group information did not necessarily provide meaningful direct comparisons to the Funds.

The Independent Trustees' consideration of the Agreements was based, in part, on their review of information obtained through discussions with the Adviser at the Renewal Meeting and the May 9, 2014 meeting and information obtained at other meetings of the Trustees and/or based on their review of the materials provided by the Adviser and the Sub-Adviser (with respect to the China Fund), including the background and experience of the portfolio managers and others involved in the management and administration of the Funds. The Trustees considered the terms of, and scope of services that the Adviser and Sub-Adviser (with respect to the China Fund) provide under, the Agreements, including, where applicable, the Adviser's commitment to waive certain fees and/or pay expenses of each of the Funds to the extent necessary to prevent the operating expenses of each of the Funds from exceeding agreed upon limits for a period of time. With respect to the Sub-Advisory Agreement, the Trustees took into account the unique legal and operational aspects of the China Fund and the Sub-Adviser's experience and investment management process with respect to Renminbi Qualified Institutional Investors Scheme ("RQFII") funds. The Trustees also noted that the Sub-Adviser is a wholly-owned subsidiary of China Asset Management Co., China's largest asset management company measured by fund assets under management.

The Trustees concluded that the Adviser, the Sub-Adviser (with respect to the China Fund) and their personnel have the requisite expertise and skill to manage the Funds' portfolios. In evaluating the performance over relevant periods of each of the Funds that had commenced operations prior to the date of the Renewal Meeting (the "Operating Funds"), the Trustees reviewed various performance metrics but relied principally on a comparison of the "gross" performance of each Operating Fund (i.e., measured without regard to the impact of fees and expenses) to the performance of its benchmark index, in each case incorporating any fair value adjustments to the underlying securities. Based on this review and discussions with the

MARKET VECTORS ETF TRUST

APPROVAL OF INVESTOR MANAGEMENT AGREEMENT

(unaudited) (continued)

Adviser, the Trustees concluded that the investment performance of the Funds was satisfactory. The Trustees also considered the short period since the Sub-Adviser commenced activities on behalf of the China ETF.

The Trustees also considered information relating to the financial condition of the Adviser and the Sub-Adviser (with respect to the China Fund) and the current status, as they understood it, of the Adviser's and Sub-Adviser's (with respect to the China Fund) compliance environment.

As noted above, the Trustees were also provided various data from Lipper comparing the Operating Funds' expenses and performance to that of other ETFs. The Trustees noted that the information provided showed that each Operating Fund had a total expense ratio (after the effect of any applicable expense limitation) below or equal to the average and/or median of its respective peer group of funds, except for each of Market Vectors Agribusiness ETF, ChinaAMC A-Share ETF, Colombia ETF, Egypt Index ETF, Global Alternative Energy ETF, Gulf States Index ETF, India Small-Cap ETF, Israel ETF, Rare Earth/Strategic Metals ETF, Russia Small-Cap ETF, Solar Energy ETF, Unconventional Oil & Gas ETF and Vietnam ETF, which had a total expense ratio (after the effect of any applicable expense limitation) greater than the average and median of its peer group of funds, and each of Market Vectors Indonesia Small-Cap ETF, Steel ETF and Uranium+Nuclear Energy ETF, which had a total expense ratio (after the effect of any applicable expense limitation) greater than the average but equal to the median of its peer group of funds. The Trustees concluded, however, in light of this information and the other information available to them, that the fees paid by the Operating Funds were reasonable in light of the performance of the Funds and the quality of services received. The Trustees noted that this comparative data, while generally helpful, was limited in its usefulness in many cases due to the lack of a large number of directly comparable ETFs.

The Trustees also considered any other benefits received by the Adviser from serving as adviser to the Funds and from providing certain administrative services to most of the Funds, and from an affiliate of the Adviser serving as distributor for the Funds.

The Trustees also considered information provided by the Adviser about the overall profitability of the Adviser and its profitability or loss in respect of each Operating Fund. The Trustees reviewed each Fund's asset size, expense ratio and expense cap and noted that the Investment Management Agreements do not include breakpoints in the advisory fee rates as asset levels in a Fund increase. The Trustees noted that certain Funds were still relatively new products, which therefore made it difficult to quantify the potential variability in net assets and thus determine the sustainability of any potential economies of scale which may exist. The Trustees noted that the Adviser has capped expenses on each Operating Fund since its inception. Based on the foregoing and the other information available to them, the Trustees determined that the advisory fee rate for each Fund is reasonable and appropriate in relation to the current asset size of each Fund and the other factors discussed above and currently reflects an appropriate sharing of any economies of

scale which may exist with shareholders. The Trustees also determined that the profits earned by the Adviser in respect of the Funds that were profitable to the Adviser were reasonable in light of the nature and quality of the services received by such Funds.

The Trustees did not review profit or loss information for the Sub-Adviser in respect of its role as Sub-Adviser to the China Fund and noted that the Sub-Adviser began providing services to the China Fund in January 2014.

The Trustees did not consider historical information about the profitability of Market Vectors Agriculture Producers ETF, ChinaAMC All China Consumer ETF, ChinaAMC MSCI All China ETF, ChinaAMC MSCI All China Small Cap ETF, ChinaAMC SME-ChiNext ETF, Emerging Europe ex-Russia Index ETF, Energy Producers ETF, GDP Weighted Emerging Markets ETF, GDP Weighted Emerging Markets Small-Cap ETF, GDP Weighted International ex-US ETF, Global Frontier Index ETF, Hard Assets Producers Extra Liquid ETF, Internet ETF, Israel ETF, Kuwait Index ETF, Metals ETF, Mongolia ETF, Nigeria ETF, Nigeria-Focused West Africa ETF, Saudi Arabia ETF, Saudi Arabia Small-Cap ETF, Software ETF and Telecom ETF to the Adviser because the Funds had not yet commenced operations at the time of the Renewal Meeting. The Trustees also could not consider the historical performance or the quality of services previously provided to each of these Funds.

The Independent Trustees were advised by and met in executive session with their independent counsel at the Renewal Meeting and at their May 9, 2014 meeting as part of their consideration of the Agreements.

In voting to approve the continuation of the Agreements, the Trustees, including the Independent Trustees, concluded that the terms of each Agreement are reasonable and fair in light of the services to be performed, expenses to be incurred and such other matters as the Trustees considered relevant in the exercise of their reasonable judgment. The Trustees further concluded that each Agreement is in the best interest of each Fund and such Fund's shareholders.

This report is intended for the Funds' shareholders. It may not be distributed to prospective investors unless it is preceded or accompanied by a Market Vectors ETF Trust (the "Trust") Prospectus and Summary Prospectus, which includes more complete information. An investor should consider the investment objective, risks, and charges and expenses of the Funds carefully before investing. The prospectus and summary prospectus contains this and other information about the investment company. Please read the prospectus and summary prospectus carefully before investing.

Additional information about the Trust's Board of Trustees/Officers and a description of the policies and procedures the Trust uses to determine how to vote proxies relating to portfolio securities are

provided in the Statement of Additional Information. The Statement of Additional Information and information regarding how the Trust voted proxies relating to portfolio securities during the most recent twelve month period ending June 30 is available, without charge, by calling 1.888.MKT.VCTR, or by visiting vaneck.com, or on the Securities and Exchange Commission's website at <http://www.sec.gov>.

The Trust files its complete schedule of portfolio holdings with the Securities and Exchange Commission for the first and third quarters of each fiscal year on Form N-Q. The Trust's Form N-Qs are available on the Commission's website at <http://www.sec.gov> and may be reviewed and copied at the Commission's Public Reference Room in Washington, D.C. Information on the operation of the

Public Reference
Room may be

MARKET VECTORS INTERNATIONAL ETFs

(unaudited)

Dear Shareholder:

One metric of a country's economic potential may be to look at GDP vs. stock market capitalization. In the U.S., market cap is larger than GDP. In other countries, such as China (or Indonesia or India) that are perennially underweight in broad market emerging markets indices, GDP is much larger than market cap. This may indicate the potential of growth in those local markets, but what is the best way to tap that potential?

Source: World Bank, <http://data.worldbank.org/>; World Federation of Exchanges, <http://www.world-exchanges.org/>.

A recent Reuters story entitled "Emerging market fund managers ignore borders, chase profits" reported that these fund managers are now paying "less attention to where a company is located or listed than to whether it is making money, either as an advanced world company doing business in the developing world, or the other way around."

This is something we have recognized for some time now. Many of our international ETFs seek to track indices that incorporate a revenue screen which enables offshore companies to be included, if the majority of their revenue is earned from a target country or region. We believe this unique pure-play approach in index construction allows for more representative exposure to the economic potential of that country or region.

Still, for comprehensive exposure, our ETFs include not only offshore companies, but locally listed companies as well. In some countries, companies best positioned to benefit from the trend of a rising middle class and growing local consumerism are in the local markets, particularly smaller capitalization stocks.

Over the last six months of 2014 we have seen a number of elections, some with the obvious potential to reshape local economies, for example those in both Egypt and India. (Indonesia's presidential election was soon after the first half of the year.) In May, Qatar and UAE—both represented in the Market Vectors Gulf States Index ETF—were reclassified by MSCI from Frontier to Emerging Markets status. While these countries and regions still have challenges in order to realize their full potential, if you believe these changes are positive and that these countries have more room for growth, Market Vectors offers ETFs that allow you to get more focused exposure to these markets and to do so with a methodology we believe provides the most representative exposure.

Going forward, we will, as always, continue to seek out and evaluate the most attractive opportunities for you as a shareholder, and we encourage you stay in touch with us through the videos and email subscriptions available on our website (<http://www.marketvectorsetfs.com>).

Management Discussion

The performance of funds in the suite of Market Vectors International ETFs was predominantly positive in the first six months of 2014. Thirteen funds, from a total of 16, posted positive total returns. Only three funds reported negative performance over the period: Market Vectors ChinaAMC A-Share ETF (-8.71%), Market Vectors Russia ETF (-7.88%), and Market Vectors Russia Small-Cap ETF (-16.83%).

January 1 through June 30, 2014

Market Vectors International ETFs Total Returns

Source: Van Eck Global. The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the funds reflects temporary waivers of expenses and/or fees. Had the funds incurred all expenses, investment returns would have been reduced. Investment return and value of the shares of the funds will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Current performance may be lower or higher than performance data quoted.

Country/Regional Overviews

Africa

The financial sector, in particular banks and real estate development, and the materials sector, in particular gold miners, were the two greatest contributors to the positive return for the half year. Large- and small-cap companies were the greatest contributors to return, with mid-caps contributing much less than either of these two grouping of companies. Geographically, South Africa and Egypt were the two most significant contributors to return. While the vast majority of sectors contributed positively to return, the energy sector, and oil exploration companies in particular, detracted from performance.

Brazil

Despite the excitement and anticipation of hosting the World Cup, which kicked off on June 12, the first six months of 2014 were challenging for Brazil. Right up to the start of the event there were still violent protests in a number of Brazilian cities at the size of the US\$11 billionⁱ price tag for the honor of acting as host. The forthcoming presidential elections (with the initial vote set for October 5)ⁱⁱ, have also overshadowed the Brazilian market. Few much needed budget cutsⁱⁱⁱ and economic reforms seem likely over the course of the rest of this year and, for whoever wins, 2015 is not going to be an easy year. Nevertheless, the majority of sectors

MARKET VECTORS INTERNATIONAL ETFs

(unaudited)

contributed positively to return over the six-month period, with the consumer discretionary and utilities sectors leading performance. The generally positive sector returns were, however, offset partially by negative contributions from both the materials and telecommunication services sectors.

China

In both 2012 and 2013, China's GDP grew at 7.7%. According to the World Bank^v, it is expected to decrease slightly to 7.6% in 2014 and 7.5% in 2015. In the first quarter of 2014, the economy grew at 7.4%, with growth forecast by one private survey to be the same in the second quarter^v. The Chinese government has taken steps to stimulate growth by, among other things, cutting taxes to small firms, speeding up the construction of cross-country rail lines, and, in order to boost shipments, encouraging banks to lend more to exporters^{vi}. No sector, except utilities, contributed positively to return. The worst performing sector was industrials. Performance of the Market Vectors ChinaAMC A-Share ETF (the "Fund") during the first week in January was primarily derived from swap contracts on the CSI 300 Index[†](CSI 300). The Fund began direct investment in the A-Share constituents of the CSI 300 on January 8, 2014 and significantly reduced its direct exposure to the index through swap contracts. Contracts outstanding as of June 30, 2014 are presented in the Fund's Schedule of Investments.

Colombia

Colombia was one of a number of countries with elections in the first half of this year; in mid-June, President Juan Manuel Santos won a second four-year term^{vii}. High on his agenda is the successful conclusion of negotiations with the country's Marxist guerillas—FARC—to end 50 years of fighting. The economy started the year from a position of strength. Colombia's GDP grew 4.3 percent^{viii} in 2013, beating not only Brazil, but also both Chile and Mexico. Inflation remained low over the first six months of the year and April saw yet another drop in the jobless rate^{ix}. All sectors, with financials being the greatest, were positive contributors to return. Both the materials and energy sectors were also significant contributors. The consumer staples and utilities sectors were the two greatest detractors from performance.

Egypt

At the end of May, in a landslide victory, former chief of the army Abdel Fattah al-Sisi ("Sisi") became president, the third such in Egypt over the past three years^x. Notwithstanding doubts that, following a low turnout in the election, he holds a firm enough mandate to tackle the county's economic woes, in a speech in Cairo on June 24, Sisi sought to

forewarn Egyptians of austerity measures^{xi} to come. Despite the run up to the election over the first five months of 2014, and its creaking economy, during the first six months of 2014 all sectors in the domestic market, except consumer staples and energy, contributed to a positive return for the year. The financial sector was by far the greatest contributor to performance. In addition to having the highest average weighting, small-cap companies also made the most significant contribution to return. Regardless of the significant average weighting of mid-cap companies, their contribution to return lagged far behind that of their smaller peers.

Germany

In 2013, Germany's current account surplus reached a new high of 7.5%ⁱⁱ. In the first quarter of 2014, its economy recorded growth of 0.8%, an annualized rate of some 3.3%. Growth is expected to be 2% in both 2014 and 2015^{xiii}, placing the country far ahead of all the other Euro countries. Even the recent rate cut by the ECB is seen as having a positive side^{xiv}: a weaker Euro will lead to more competitive exports. German small-cap companies continued to thrive in the first six months of 2014. Except for stocks in the energy sector, all individual sectors produced positive returns, with particularly strong contributions from financial companies, followed by those in the industrial sector. The health care sector contributed least to performance.

Gulf States

Anchored on solid growth of around 4% in 2013 and budget surpluses^{xv}, the GCC economies enjoyed a healthy first half to 2014. Indeed, the World Bank envisages the group growing by nearly 5%^{xvi} in the whole of 2014. In early May^{xvii}, 11 years after it was first launched, leaders of the GCC finally announced that a customs union was set to be implemented on January 1, 2015. Geographically, the United Arab Emirates, with the greatest average country weighting, contributed most significantly to performance, followed by Qatar and Kuwait-in that order. In terms of sector, financial stocks were the greatest contributors, with industrials providing the only other significant contribution. While the majority of return was contributed by large- and mid-cap stocks, small-cap stocks actually detracted from performance.

India

On May 16, Narendra Modi^{xviii} swept to power in India, trouncing the Congress party (fiefdom of the Nehru-Gandhi family), and placing his Bharatiya Janata Party (BJP) firmly and decisively in power in the lower house. Reactions to the election of pro-business Modi were swift, with the Indian Rupee firming strongly, and the country's benchmark stock index bouncing to a record high^{xix}. Following a somewhat lackluster first quarter and Modi's election, the performance of smaller companies strengthened firmly toward the end of the second quarter of the year. The fund posted the highest total return of any in the Market Vectors suite of international funds. All sectors contributed positively to return. The consumer discretionary, financial and industrial sectors were the greatest contributors to performance. While still positive, the contribution from each of the energy and telecommunication services sectors was minimal.

Indonesia

Indonesia is another country with an election cycle this year. As matters stood at the end of June, in the forthcoming presidential election on July 9, Prabowo Subianto, a former army general, will be facing off the front runner, governor of Jakarta, Joko Widodo. Whoever wins will face the immediate and challenging task of reviving the country's economy. In 2013, not only was the rupiah the region's worst performing currency, but also, for the year, and for the first time since 2009, economic growth fell below 6%.^{xx} However, despite a moribund economy and a potentially widening current account deficit^{xxi}, during the first six months of 2014 small-cap stocks and medium- and large-cap names, performed strongly. For medium- and large-cap names, there were positive contributions to return across all sectors, with financial stocks providing the most significant contribution to performance. Among small-cap stocks, most sectors contributed positively to return, with the industrial sector the greatest contributor to performance. However, among small-cap stocks, negative returns from both the information technology and materials sectors detracted from performance.

Israel

Israel saw its GDP grow a healthy 3.3% in 2013 and cross the one trillion shekel mark for the first time in the fourth quarter of the year^{xxii}. However, in the first quarter of 2014, on the back of decreases in both private consumption and fixed capital formation^{xxiii}, even figures revised upward at end June indicated that growth fell to an annualized rate of 2.7%^{xxiv}. Also, toward the end of June, Israel became a member of the Paris Club of creditor nations^{xxv}. Over the six-month period, health care and information technology stocks, constituting the two sectors with the highest average weightings, were the fund's most significant contributors to performance. The consumer discretionary, consumer staples, and energy sectors detracted from performance.

MARKET VECTORS INTERNATIONAL ETFs

(unaudited)

Latin America

Building on an estimated expansion of 2.6% in 2013 and despite forecasts of deterioration in its economic outlook for the year^{xxvi}, during the first six months of 2014 small-cap stocks in Latin America performed positively. While in 2013 they were hit particularly hard by the falling prices of both gold and precious metals, particularly silver, this situation was reversed in the first half of 2014. The materials sector, especially gold mining companies, was the largest contributor to the fund's performance. The consumer discretionary sector was the second largest contributor to return. The industrials and telecommunications sectors were the only detractors from performance.

Poland

Poland remains the EU's largest emerging economy^{xxvii}. Following a major slowdown in the economy in late 2012 and early 2013^{xxviii}, the country ended the year with a final growth rate of 1.6%^{xxix}. Building on this foundation and a currently accelerating economy, the government expects the country to end the year with a growth rate of 3.3%^{xxx}. Exports remain strong and domestic consumer demand and investments increasingly support economic growth. By far the largest contribution to positive performance came from utilities. However, the consumer staples sector was the most significant detractor from performance.

Russia

Following the sell-offs in March, both the ruble and the stock market in Russia had firmed considerably as the six months ending June 30 came to a close. Not only had concerns about any immediate involvement by Russia in Ukraine eased, but there were also some signs that the broader Russian economy was doing better. GDP was reported as having grown 1.1% during the first five months of the year, with, in particular, both industrial output and manufacturing showing strong growth in both April and May^{xxxi}. After a rough period in both March and April, both the small- and large-cap funds saw a considerable improvement in performance through May and June. However, in neither instance was it enough to lift the performance of either into positive territory. Only the materials and health care sectors contributed positive, but minimal, returns to the large-cap fund, with financials serving as the worst performing sector. In the small-cap fund, companies in the industrial sector, closely followed by those in the financial and utilities sectors, detracted most from performance. As with the large-cap fund, only stocks in the materials and health care sectors contributed positively, but minimally, to the small-cap fund's return.

Vietnam

Vietnam was prominent in headlines in the first half of 2014. At the beginning of May, China placed its Haiyang Shiyu 981^{xxxii} oil rig in disputed waters west^{xxxiii} of the Paracel Islands—claimed by both China and Vietnam—sparking government-sanctioned but peaceful anti-Chinese protests in four cities^{xxxiv} in Vietnam on May 11. These, however, were swiftly followed by totally unexpected violent riots with fatalities against both foreign- and, particularly, Chinese-owned factories in the provinces. There were a number of deaths. However, by May 18, the government was back in control. Despite a dip in performance during this period, the return for the whole six-month period was positive. With an average weighting of just over 48%, small-cap companies made by far the greatest contribution to return. The energy and financial sectors were the two most significant contributors to return. However, the consumer staples, materials and utilities sectors all detracted from performance.

All indices are unmanaged and include the reinvestment of all dividends, but do not reflect the payment of transaction costs, advisory fees or expenses that are associated with an investment in the fund. An index's performance is not illustrative of the fund's performance. Indices are not securities in which investments can be made. Results reflect past performance and do not guarantee future results.

One Year	25.37%	24.90%	25.65 %
Five Year	6.67 %	6.88 %	7.97 %
Life* (annualized)	(1.25)%	(1.24)%	0.11 %
Life* (cumulative)	(7.26)%	(7.20)%	0.65 %

*since 7/10/08

Index data prior to June 21, 2013 reflects that of the Dow Jones Africa Titans 50 IndexSM. From June 21, 2013, forward, the index data reflects that of the Fund's underlying index, Market Vectors[®] GDP Africa Index (MVAFKTR). All Index history reflects a blend of the performance of the aforementioned Indexes AND IS NOT INTENDED FOR ANY THIRD PARTY USE.

Commencement date for the Market Vectors Africa Index ETF was 7/10/08.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (7/10/08) to the first day of secondary market trading in shares of the Fund (7/14/08), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Gross Expense Ratio 0.87% / Net Expense Ratio 0.82%

Van Eck Associates Corporation (the "Adviser") has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.78% of the Fund's average daily net assets per year until at least May 1, 2015. During such time, the expense limitation is expected to continue until the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in cash. Shares may trade at a premium or discount to their NAV in the secondary market.

The "Net Asset Value" (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may

differ from what is shown because of differences in timing, the amount invested and fees and expenses.

²Market Vectors® GDP Africa Index (MVAFKTR) tracks the performance of the largest and most liquid companies in Africa. The weighting of a country in the index is determined by the size of its gross domestic product.

Market Vectors® GDP Africa Index (the “Index”) is the exclusive property of Market Vectors Index Solutions GmbH (a wholly owned subsidiary of the Adviser), which has contracted with Solactive AG to maintain and calculate the Index. Solactive AG uses its best efforts to ensure that the Index is calculated correctly. Irrespective of its obligations towards Market Vectors Index Solutions GmbH, Solactive AG has no obligation to point out errors in the Index to third parties. Market Vectors Africa Index ETF (the “Fund”) is not sponsored, endorsed, sold or promoted by Market Vectors Index Solutions GmbH and Market Vectors Index Solutions GmbH makes no representation regarding the advisability of investing in the Fund.

Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Gross Expense Ratio 0.89% / Net Expense Ratio 0.86%

Van Eck Associates Corporation (the "Adviser") has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.85% of the Fund's average daily net assets per year until at least May 1, 2015. During such time, the expense limitation is expected to continue until

the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in cash. Shares may trade at a premium or discount to their NAV in the secondary market.

The "Net Asset Value" (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Market Vectors® India Small-Cap Index (MVSCIFTR) is a rules-based, modified market capitalization-weighted, float-adjusted index comprised of publicly traded small-capitalization companies that are headquartered in India or that generate the majority of their revenues in India.

MARKET VECTORS INDONESIA INDEX ETF

PERFORMANCE COMPARISON

June 30, 2014 (unaudited)

Total Return	Share Price ¹	NAV	MVIDXTR ²
Six Months	15.95 %	18.49 %	19.04 %
One Year	(11.87) %	(12.92) %	(12.79) %
Five Years	12.79 %	13.09 %	13.74 %
Life* (annualized)	23.88 %	24.07 %	25.06 %
Life* (cumulative)	221.54 %	224.33 %	238.65 %

*since 1/15/09

Commencement date for the Market Vectors Indonesia Index ETF was 1/15/09.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (1/15/09) to the first day of secondary market trading in shares of the Fund (1/20/09), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Gross Expense Ratio 0.72% / Net Expense Ratio 0.58%

Van Eck Associates Corporation (the "Adviser") has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.57% of the Fund's average daily

net assets per year until at least May 1, 2015. During such time, the expense limitation is expected to continue until the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The "Net Asset Value" (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Market Vectors® Indonesia Index (MVIDXTR) is a rules-based, modified market capitalization-weighted, float-adjusted index comprised of publicly traded companies that are domiciled and primarily listed on an exchange in Indonesia, or that generate at least 50% of their revenues in Indonesia.

*since 8/11/09

Commencement date for the Market Vectors Vietnam ETF was 8/11/09.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (8/11/09) to the first day of secondary market trading in shares of the Fund (8/14/09), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 1.888.MKT.VCTR or by visiting marketvectorsetfs.com.

Gross Expense Ratio 0.67% / Net Expense Ratio 0.67%

Van Eck Associates Corporation (the "Adviser") has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.76% of the Fund's average daily net assets per year until at least May 1, 2015. During such time, the expense limitation is expected to continue until

the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in cash. Shares may trade at a premium or discount to their NAV in the secondary market.

The "Net Asset Value" (NAV) of a Market Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. Market Vectors ETF investors should not expect to buy or sell shares at NAV.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Market Vectors[®] Vietnam Index (MVVNMTR) is a rules-based, modified market capitalization-weighted, float-adjusted index comprised of publicly traded companies that are domiciled and primarily listed in Vietnam, or that generate at least 50% of their revenues in Vietnam.

Market Vectors[®] Vietnam Index (the "Index") is the exclusive property of Market Vectors Index Solutions GmbH (a wholly owned subsidiary of the Adviser), which has contracted with Solactive AG to maintain and calculate the Index. Solactive AG uses its best efforts to ensure that the Index is calculated correctly. Irrespective of its obligations towards Market Vectors Index Solutions GmbH, Solactive AG has no obligation to point out errors in the Index to third parties. Market Vectors Vietnam ETF (the "Fund") is not sponsored, endorsed, sold or promoted by Market Vectors Index Solutions GmbH and Market Vectors Index Solutions GmbH makes no representation regarding the advisability of investing in the Fund.

MARKET VECTORS ETF TRUST

EXPLANATION OF EXPENSES

(unaudited)

Hypothetical \$1,000 investment at beginning of period

As a shareholder of a Fund, you incur operating expenses, including management fees and other Fund expenses. This disclosure is intended to help you understand the ongoing costs (in dollars) of investing in your Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The disclosure is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, January 1, 2014 to June 30, 2014.

Actual Expenses

The first line in the table below provides information about account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During the Period."

Hypothetical Example for Comparison Purposes

The second line in the table below provides information about hypothetical account values and hypothetical expenses based on your Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as program fees. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Expenses are equal to the Fund's annualized expense ratio (for the six months ended June 30, 2014) multiplied by

* the average account value over the period, multiplied by the number of days in the most recent fiscal half year divided by the number of days in the fiscal year (to reflect the one-half year period).

** Assumes annual return of 5% before expenses

During the period ended June 30, 2014, transfers of securities from Level 2 to Level 1 were \$6,522,096. These transfers resulted primarily from changes in certain foreign securities valuation methodologies between the last close of the securities' primary market (Level 1) and valuation by a pricing service (Level 2), which takes into account market direction or events occurring before the Fund's pricing time but after the last local close, as described in the Notes to Financial Statements.

The following table reconciles the valuation of the Fund's Level 3 investment securities and related transactions during the period ended June 30, 2014:

**Real
Estate
Investment
Trusts**

	Nigeria
Balance as of December 31, 2013	\$ 519
Realized gain (loss)	-
Net change in unrealized appreciation (depreciation)	5
Purchases	-
Sales	-
Transfers in and/or out of level 3	-
Balance as of June 30, 2014	\$ 524

† Security fully or partially on loan. Total market value of securities on loan is \$953,776.

Indicates a fair valued security which has not been valued utilizing an independent quote, but has been valued pursuant to guidelines established by the Board of Trustees. The aggregate value of fair valued securities is \$59,943,303 which represents 86.6% of net assets.

Reg Security was purchased pursuant to Regulation S under the Securities Act of 1933, which exempts from registration securities offered and sold outside of the United States. Such a security cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration.

* See Schedule of Investments for security type and geographic sector breakouts.

During the period ended June 30, 2014, transfers of securities from Level 1 to Level 2 were \$4,858,388 and transfers from Level 2 to Level 1 were \$2,480,779. These transfers resulted primarily from changes in certain foreign securities valuation methodologies between the last close of the securities' primary market (Level 1) and valuation by a pricing service (Level 2), which takes into account market direction or events occurring before the Fund's pricing time but after the last local close, as described in the Notes to Financial Statements.

During the period ended June 30, 2014, transfers of securities from Level 2 to Level 1 were \$3,401,237. These transfers resulted primarily from changes in certain foreign securities valuation methodologies between the last close of the securities' primary market (Level 1) and valuation by a pricing service (Level 2), which takes into account market direction or events occurring before the Fund's pricing time but after the last local close, as described in the Notes to Financial Statements.

Total	\$21,550,790	\$25,455,056	\$ -	\$47,005,846

During the period ended June 30, 2014, transfers of securities from Level 1 to Level 2 were \$625,625 and transfers from Level 2 to Level 1 were \$223,848. These transfers resulted primarily from changes in certain foreign securities valuation methodologies between the last close of the securities' primary market (Level 1) and valuation by a pricing service (Level 2), which takes into account market direction or events occurring before the Fund's pricing time but after the last local close, as described in the Notes to Financial Statements.

* See Schedule of Investments for security type and geographic sector breakouts.

During the period ended June 30, 2014, transfers of securities from Level 2 to Level 1 were \$344,184. These transfers resulted primarily from changes in certain foreign securities valuation methodologies between the last close of the securities' primary market (Level 1) and valuation by a pricing service (Level 2), which takes into account market direction or events occurring before the Fund's pricing time but after the last local close, as described in the Notes to Financial Statements.

The following table reconciles the valuation of the Fund's Level 3 investment securities and related transactions during the period ended June 30, 2014:

Common Stocks

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSRS

	Mexico
Balance as of December 31, 2013	\$ -
Realized gain (loss)	-
Net change in unrealized appreciation (depreciation)	(536)
Purchases	-
Sales	-
Transfers in and/or out of level 3	536
Balance as of June 30, 2014	\$ -

Transfers from Level 2 to Level 3 resulted primarily from suspended trading activity.

During the period ended June 30, 2014, transfers of securities from Level 1 to Level 2 were \$5,227,584 and transfers from Level 2 to Level 1 were \$170,322,260. These transfers resulted primarily from changes in certain foreign securities valuation methodologies between the last close of the securities' primary market (Level 1) and valuation by a pricing service (Level 2), which takes into account market direction or events occurring before the Fund's pricing time but after the last local close, as described in the Notes to Financial Statements.

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

June 30, 2014 (unaudited)

Note 1—Fund Organization—Market Vectors ETF Trust (the “Trust”) is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company. The Trust was incorporated in Delaware as a statutory trust on March 15, 2001. The Trust operates as a series fund, and as of June 30, 2014, offers fifty-eight investment portfolios, each of which represents a separate series of the Trust.

These financial statements relate only to the following investment portfolios: Africa Index ETF, Brazil Small-Cap ETF, ChinaAMC A-Share ETF (formerly known as China ETF), Colombia ETF, Egypt Index ETF, Germany Small-Cap ETF, Gulf States Index ETF, India Small-Cap Index ETF, Indonesia Index ETF, Indonesia Small-Cap ETF, Israel ETF, Latin America Small-Cap Index ETF, Poland ETF, Russia ETF, Russia Small-Cap ETF and Vietnam ETF (each a “Fund” and, together, the “Funds”). Effective January 7, 2014, China Asset Management (Hong Kong) Limited (the “Sub-Adviser”) is the sub-adviser to China AMC A-Share ETF. The Fund will seek to achieve its investment objective by primarily investing directly in A-shares via the A-share quota granted to the Sub-Adviser. India Small-Cap Index ETF makes its investments through the India Small-Cap Mauritius Fund (the “Subsidiary”), a wholly-owned subsidiary organized in the Republic of Mauritius. Each Fund was created to provide investors with the opportunity to purchase a security representing a proportionate undivided interest in a portfolio of securities consisting of substantially all of the common stocks in substantially the same weighting, in an index sponsored by the China Securities Index Co. Ltd., BlueStar Global Investors LLC or Market Vectors Index Solutions GmbH, a wholly-owned subsidiary of Van Eck Associates Corporation (the “Adviser”).

The Funds’ commencement of operations dates and their respective indices are presented below:

Fund	Commencement of Operations	Index
Africa Index ETF	July 10, 2008	Market Vectors GDP Africa Index*

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSRS

Russia Small-Cap ETF	April 13, 2011	Market Vectors Russia Small-Cap Index*
Vietnam ETF	August 11, 2009	Market Vectors Vietnam Index*

* Published by Market Vectors Index Solutions GmbH.

** Effective January 7, 2014, the Fund changed its name from China ETF to ChinaAMC A-Share ETF.

Note 2—Significant Accounting Policies—The preparation of financial statements in conformity with U.S. generally accepted accounting principles (“GAAP”) requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

The Funds are investment companies and are following accounting and reporting requirements of Accounting Standard Codification (“ASC”) 946 Financial Services – Investment Companies.

The following is a summary of significant accounting policies followed by the Funds.

Security Valuation—The Funds value their investments in securities and other assets and liabilities carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. Securities traded on national exchanges or traded on the

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(unaudited) (continued)

NASDAQ National Market System are valued at the last sales price as reported at the close of each business day. Securities traded on the NASDAQ Stock Market are valued at the NASDAQ official closing price. Over-the-counter securities not included in the NASDAQ National Market System and listed securities for which no sale was reported are valued at the mean of the bid and ask prices. To the extent these securities are actively traded they are categorized as Level 1 in the fair value hierarchy (described below). Certain foreign securities, whose values may be affected by market direction or events occurring before the Funds' pricing time (4:00 p.m. Eastern Standard Time) but after the last close of the securities' primary market, are fair valued using a pricing service and are categorized as Level 2 in the fair value hierarchy. The pricing service, using methods approved by the Board of Trustees, considers the correlation of the trading patterns of the foreign security to intraday trading in the U.S. markets, based on indices of domestic securities and other appropriate indicators such as prices of relevant ADR's and futures contracts. The Funds may also fair value securities in other situations, such as, when a particular foreign market is closed but the Fund is open. Short-term obligations with more than sixty days remaining to maturity are valued at market value. Short-term obligations with sixty days or less to maturity are valued at amortized cost, which with accrued interest approximates fair value. Money market fund investments are valued at net asset value and are considered to be Level 1 in the fair value hierarchy. Forward foreign currency contracts are valued at the spot currency rate plus an amount ("points"), which reflects the differences in the interest rates between the U.S. and foreign markets and are classified as Level 2 in the fair value hierarchy. Securities for which quotations are not available are stated at fair value as determined by the Pricing Committee of the Adviser appointed by the Board of Trustees. The Pricing Committee provides oversight of the Funds' valuation policies and procedures, which are approved by the Funds' Board of Trustees. Among other things, these procedures allow the Funds to utilize independent pricing services, quotations from securities dealers, and other market sources to determine fair value. The Pricing Committee convenes regularly to review the fair value of financial instruments for which market prices are not readily available. The Pricing Committee employs various methods for calibrating the valuation approaches utilized to determine fair value, including a regular review of key inputs and assumptions, transactional back-testing and disposition analysis.

Certain factors such as economic conditions, political events, market trends, the nature of and duration of any restrictions on disposition, trading in similar securities of the issuer or comparable issuers and other security specific information are used to determine the fair value of these securities. Depending on the relative significance of valuation inputs, these securities may be classified either as Level 2 or Level 3 in the fair value hierarchy. The price which the Funds may realize upon sale of an investment may differ materially from the value presented in the Schedules of Investments.

The Funds utilize various methods to measure the fair value of its investments on a recurring basis which includes a hierarchy that prioritizes inputs to valuation methods used to measure fair value. The fair value hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The transfers between levels of the fair value hierarchy assume the financial instruments were transferred at the beginning of the reporting period. The three levels of the fair value hierarchy are described below:

Level 1 - Quoted prices in active markets for identical securities.

Level 2 - Significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 - Significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

A summary of the inputs, the levels used to value the Funds' investments, and transfers between levels are located in the Schedules of Investments. Additionally, tables that reconcile the valuation of the Funds' Level 3 investments and that present additional information about valuation methodologies and unobservable inputs, if applicable, are located in the Schedules of Investments.

Basis for Consolidation—The Subsidiary, an Indian exempted company, was incorporated on February 25, 2010 and is currently a wholly-owned subsidiary and acts as an investment vehicle for the India Small-Cap Index ETF (the "SCIF") in order to effect certain investments on behalf of the SCIF. The SCIF is the sole shareholder of the Subsidiary, and it is intended that the SCIF will remain the sole shareholder and will continue to control the Subsidiary. The consolidated

financial statements of the SCIF include the financial results of its wholly-owned subsidiary. All material interfund account balances and transactions have been eliminated in consolidation.

Federal Income Taxes—It is each Fund’s policy to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

Dividends and Distributions to Shareholders—Dividends to shareholders from net investment income and distributions from net realized capital gains, if any, are declared and paid annually. Income dividends and capital gain distributions are determined in accordance with U.S. income tax regulations, which may differ from such amounts determined in accordance with GAAP.

Currency Translation—Assets and liabilities denominated in foreign currencies and commitments under foreign currency contracts are translated into U.S. dollars at the closing prices of such currencies each business day. Purchases and sales of investments are translated at the exchange rates prevailing when such investments are acquired or sold. Foreign denominated income and expenses are translated at the exchange rates prevailing when accrued. The portion of realized and unrealized gains and losses on investments that result from fluctuations in foreign currency exchange rates is not separately disclosed in the financial statements. Recognized gains or losses attributable to foreign currency fluctuations on foreign currency denominated assets, other than investments, and liabilities are recorded as net realized gain (loss) on foreign currency transactions and foreign denominated assets and liabilities in the Statements of Operations.

Restricted Securities—The Funds may invest in securities that are subject to legal or contractual restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the securities are registered. Disposal of these securities may involve time-consuming negotiations and expense, and prompt sale at an acceptable price may be difficult. Information regarding restricted securities, if any, is included at the end of each Fund’s Schedule of Investments.

Use of Derivative Instruments—The Funds may make investments in derivative instruments, including, but not limited to, options, futures, swaps and other derivatives relating to foreign currency transactions. A derivative is an instrument whose value is derived from underlying assets, indices, reference rates or a combination of these factors. Derivative instruments may be privately negotiated contracts (often referred to as over-the-counter (“OTC”) derivatives) or they may be listed and traded on an exchange. Derivative contracts may involve future commitments to purchase or sell financial instruments at specified terms on a specified date, or to exchange interest payment streams or currencies based on a notional or contractual amount. Derivative instruments may involve a high degree of financial risk. The use of derivative instruments also involves the risk of loss if the Adviser is incorrect in its expectation of the timing or level of fluctuations in securities prices, interest rates or currency prices. Investments in derivative instruments also include the risk of default by the counterparty, the risk that the investment may not be liquid and the risk that a small movement in the price of the underlying security or benchmark may result in a disproportionately large movement, unfavorable or favorable, in the price of the derivative instruments. The notional amount of the swap position reflected in the Schedule of Investments is indicative of the volume of swap activity during the period ended June 30, 2014. Details of this disclosure are found below:

At June 30, 2014, ChinaAMC A-Share ETF held the following derivatives:

Liability derivatives

Equity risk

Swap contracts, at value¹ \$(21,428)

¹ Statements of Assets and Liabilities location: Swap contracts, at value

95

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(unaudited) (continued)

For ChinaAMC A-Share ETF, the impact of transactions in derivative instruments, during the period ended June 30, 2014, were as follows:

	Equity risk
Realized gain (loss):	
Swap contracts ¹	\$(2,679,882)
Net change in unrealized appreciation (depreciation):	
Swap contracts ²	1,696,893

¹ Statements of Operations location: Net realized gain (loss) on swap contracts

² Statements of Operations location: Net change in unrealized appreciation (depreciation) on swap contracts

Forward Foreign Currency Contracts—The Funds are subject to foreign currency risk in the normal course of pursuing its investment objectives. The Funds may buy and sell forward foreign currency contracts to settle purchases and sales of foreign denominated securities or to hedge foreign denominated assets. Realized gains and losses from forward foreign currency contracts, if any, are included in net realized gain (loss) on foreign currency transactions and foreign denominated assets and liabilities in the Statements of Operations. The Funds may incur additional risk from investments in forward foreign currency contracts if the counterparty is unable to fulfill its obligation or there are unanticipated movements of the foreign currency relative to the U.S. dollar. The Funds held no forward foreign currency contracts during the period ended June 30, 2014.

Swap Agreements—The Funds may enter into swap transactions to gain investment exposure for total return or for hedging purposes. Risks may arise as a result of the failure of the counterparty to the swap contract to comply with the terms of the swap contract. The loss incurred by the failure of a counterparty is generally limited to the net payment to be received by the Funds and/or the termination value at the end of the contract. Therefore, the Funds consider the creditworthiness of each counterparty to a contract in evaluating potential credit risk. Additionally, risks may arise from unanticipated movements in interest rates or in the value of the underlying reference asset or index. Entering into these agreements involves, to varying degrees, market risk, liquidity risk and elements of credit, legal and documentation risk in excess of amounts recognized in the Statements of Assets and Liabilities. The Funds may pay or receive cash as collateral on these contracts which may be recorded as an asset and/or liability. The Funds must set aside liquid assets, or engage in other appropriate measures, to cover their obligations under these contracts. Swap contracts are marked to market daily and the change in value, if any, is recorded as unrealized appreciation or depreciation. Upfront payments, if any, made and/or received by the Funds are recorded as an asset and/or liability and realized gains or losses are recognized over the contract's term/event. Periodic payments received or made on swap contracts are recorded as realized gains or losses. Gains or losses are realized upon termination of a swap contract and are recorded in the Statements of Operations. The Funds, other than ChinaAMC A-Share ETF, held no swaps contracts during the period ended June 30, 2014. ChinaAMC A-Share ETF invests in the following type of swap:

A total return swap is an agreement that gives a Fund the right to receive the appreciation in the value of a specified security index or other instrument in return for a fee paid to the counterparty, which will typically be an agreed upon interest rate. If the underlying asset declines in value over the term of the swap, the Fund may also be required to pay the dollar value of that decline to the counterparty. During the period ended June 30, 2014, the average monthly notional amount of the total return swap contracts in ChinaAMC A-Share ETF was \$1,533,971. Outstanding total return swap contracts for the ChinaAMC A-Share ETF held at June 30, 2014 are reflected in the Schedule of Investments.

H. Offsetting Assets and Liabilities—In the ordinary course of business, the Funds enter into transactions subject to enforceable master netting or other similar agreements. Generally, the right of setoff in those agreements allows the Funds to set off any exposure to a specific counterparty with any collateral received or delivered to that counterparty based on the terms of the agreements. The Funds may pledge or receive cash and/or securities as collateral for derivative instruments, securities lending and repurchase agreements. For financial reporting purposes, the Funds do not offset securities lending or repurchase agreement assets and liabilities subject to enforceable master netting or other similar agreements in the Statements of Assets and Liabilities. Collateral held at June 30, 2014 is presented in the Schedules of Investments.

The table below presents both gross and net information about the derivative instruments eligible for offset in the Statements of Assets and Liabilities, subject to master netting or similar agreements, as well as financial collateral received or pledged (including cash collateral and margin) as of June 30, 2014. Collateral is disclosed up to 100% of the net amount of unrealized gain/loss or market value of the respective financial instruments. In general, collateral received or pledged exceeds the net amount of the unrealized gain/loss or market value of financial instruments. Refer to the Schedules of Investments and Statements of Assets and Liabilities for collateral received or pledged as of June 30, 2014, as well as related disclosures in Note 9 (Securities Lending).

Fund	Description	Gross Amounts of Recognized Liabilities	Gross Amounts of the Offset in Statements of Assets and Liabilities	Net Amounts of Liabilities Presented in the Statements of Assets and Liabilities	Financial Instruments and Cash Collateral Pledged*	Net Amount
ChinaAMC A-Share ETF	Swap contracts, at value	\$ 21,428	\$ -	\$ 21,428	\$(21,428)	\$ -

*Gross amounts not offset in the Statements of Assets and Liabilities

Other—Security transactions are accounted for on trade date. Transactions in certain securities may take longer than the customary settlement cycle to be completed. The counterparty is required to collateralize such trades with cash in excess of the market value of the transaction, which is held at the custodian and marked to market daily. Realized gains and losses are calculated on the identified cost basis. Dividend income is recorded on the ex-dividend date except that certain dividends from foreign securities are recognized upon notification of the ex-dividend date/rate. Interest income, including amortization of premiums and discounts, is accrued as earned.

In the normal course of business, the Funds enter into contracts that contain a variety of general indemnifications. The Funds' maximum exposure under these agreements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Adviser believes the risk of loss under these arrangements to be remote.

Note 3—Investment Management and Other Agreements—The Adviser is the investment adviser to the Funds. The Adviser receives a management fee, calculated daily and payable monthly based on an annual rate of 0.50% of each Fund's average daily net assets. The Adviser has agreed, at least until May 1, 2015, to voluntarily waive or limit its fees and to assume as its own expense certain expenses otherwise payable by the Funds so that each Fund's total annual operating expenses does not exceed the expense caps (excluding interest expense, trading expenses, taxes and extraordinary expenses) listed in the table below.

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(unaudited) (continued)

The expense caps and the amounts waived/assumed by the Adviser for the period ended June 30, 2014, are as follows:

Fund	Expense Cap	Waiver of Management Fees	Expenses Assumed by the Adviser
Africa Index ETF	0.78 %	\$ 30,244	\$—
Brazil Small-Cap ETF	0.59	131,035	—

The Funds recognize the tax benefits of uncertain tax positions only where the position is “more-likely-than-not” to be sustained assuming examination by applicable tax authorities. Management has analyzed the Funds’ tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on return filings for open tax years (tax years ended December 31, 2010-2013), or expected to be taken in the Funds’ current tax year. The Funds do not have exposure for additional years that might still be open in certain foreign jurisdictions. Therefore, no provision for income tax is required in the Funds’ financial statements.

Uncertainties in the Chinese tax rules governing taxation of income and gains from investments in A-Shares could result in unexpected tax liabilities for the ChinaAMC A-Share ETF. China generally imposes withholding tax at a rate of 10% on dividends and interest derived by Qualified Foreign Institutional Investors (“QFII”) from issuers resident in China. China also imposes withholding tax at a rate of 10% on capital gains derived by nonresident enterprises from investments in an issuer resident in China. There is at present, however, no direct authority on the application of these taxes to an Renminbi Qualified Foreign Institutional Investor (“RQFII”). In the case of the capital gains tax, moreover, the methodology for calculating and collecting the tax is as yet undetermined, and the Chinese tax authorities are not currently enforcing the collection of the tax. The withholding taxes on dividends, interest and capital gains may in principle be subject to a reduced rate under an applicable tax treaty, but the application of such treaties in the case of

an RQFII acting for a foreign investor such as the Fund is also uncertain. Finally, it is also unclear how China's business tax may apply to activities of an RQFII and how such application may be affected by tax treaty provisions. The imposition of such taxes could have a material adverse effect on the Fund's returns.

The People's Republic of China ("PRC") rules for taxation of RQFIIs (and QFIIs) are evolving and certain of the tax regulations to be issued by the PRC State Administration of Taxation and/or PRC Ministry of Finance to clarify the subject matter may apply retrospectively, even if such rules are adverse to the Fund and its shareholders.

In the Adviser's opinion, the Fund would qualify for United States-China treaty benefits with respect to the imposition of tax on capital gains. As a result, the Fund presently reserves 10% of its realized and unrealized gains from its A-Share investments in land-rich enterprises, which are companies that have greater than 50% of their assets in land or real properties in China to meet any potential withholding tax liability. The Fund's withholding provision may be excessive or inadequate to meet actual Chinese tax liabilities with respect to the Fund's investments. The Fund is liable to the Sub-Adviser for any Chinese tax that is imposed on the Sub-Adviser with respect to the Fund's investments in excess of such provision.

The Funds recognize interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statements of Operations. During the period ended June 30, 2014, the Funds did not incur any interest or penalties.

The Indian Finance Minister announced the introduction of a general anti-avoidance rule ("GAAR") in the Indian tax law in the 2012/2013 budget. GAAR would be applicable where the main purpose of an arrangement is tax avoidance and would empower Indian tax authorities to declare such arrangement as an impermissible avoidance arrangement. Presently, GAAR

is expected to become effective tax year beginning 2015. A special committee was constituted by the Indian Revenue authorities to provide clarity and guidance on the application and implementation of GAAR and have submitted proposed recommendations. As the rules and guidelines have not yet been approved by the Indian Parliament, the Adviser cannot assess whether the India Small-Cap Index ETF, investing through its Mauritius Subsidiary, will fall within the scope of the GAAR provision.

Note 6—Capital Share Transactions—As of June 30, 2014, there were an unlimited number of capital shares of beneficial interest authorized by the Trust with no par value. Shares are issued and redeemed by the Funds only in Creation Units, consisting of 50,000 shares (except for ChinaAMC A-Share ETF which has Creation Units consisting of 100,000 shares), or multiples thereof. The consideration for the purchase or redemption of Creation Units of the Funds generally consists of the in-kind contribution or distribution of securities constituting the Funds' underlying index plus a small amount of cash. For the period ended June 30, 2014, the Funds had in-kind contributions and redemptions as follows:

Fund	In-Kind Contributions	In-Kind Redemptions
Africa Index ETF	\$7,017,055	\$—
Brazil Small-Cap ETF	699,106	2,895,567
ChinaAMC A-Share ETF	7,805	—
Colombia ETF	—	—
Egypt Index ETF	5,832,577	2,952,893
Germany Small-Cap ETF	—	1,532,980
Gulf States Index ETF	363,201	165,970
India Small-Cap Index ETF	5,279,302	1,040,044
Indonesia Index ETF	75,354,588	70,812,139
Indonesia Small-Cap ETF	708,052	—
Israel ETF	15,479,523	—
Latin America Small-Cap Index ETF	—	—
Poland ETF	2,307,765	5,852,675
Russia ETF	721,339,473	286,420,415
Russia Small-Cap ETF	27,881,973	—
Vietnam ETF	31,865,944	5,824,049

Note 7—Concentration of Risk—The investment objective of each Fund is to seek investment results that correspond generally to the price and yield performance, before fees and expenses, of its underlying index, as indicated in the name of each Fund. The Adviser uses a “passive” or index approach to achieve each Fund’s investment objective by investing in a portfolio of securities that generally replicates the Funds’ index. Each of the Funds is classified as a non-diversified fund under the 1940 Act. Non-diversified funds generally hold securities of fewer issuers than diversified funds and may be more susceptible to the risks associated with these particular issuers, or to a single economic, political or regulatory occurrence affecting these issuers. The Funds may purchase securities on foreign exchanges. Securities of foreign issuers involve special risks and considerations not typically associated with investing in U.S. issuers. These risks include devaluation of currencies, currency controls, less reliable information about issuers, different securities transaction clearance and settlement practices, future adverse political and economic developments and local/regional conflicts. These risks are heightened for investments in emerging market countries.

Moreover, securities of many foreign issuers and their markets may be less liquid and their prices more volatile than those of comparable U.S. issuers.

As a result of recent events involving Ukraine and the Russian Federation, the United States and the European Union have imposed sanctions on certain Russian individuals and companies. These sanctions do not currently impact the Funds. Additional economic sanctions may be imposed or other actions may be taken that may adversely affect the value and liquidity of the Russian-related issuers' held by Russia ETF and Russia Small-Cap ETF.

Should the Chinese government impose restrictions on the Fund's ability to repatriate funds associated with direct investment in A-Shares, the Fund may be unable to satisfy distribution requirements applicable to regulated investment companies ("RICs") under the Internal Revenue Code of 1986, as amended (the "Internal Revenue Code"), and the Fund may therefore be subject to Fund-level U.S. federal taxes.

At June 30, 2014, the Adviser owned approximately 12% of ChinaAMC A-Share ETF.

MARKET VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(unaudited) (continued)

Note 8—Trustee Deferred Compensation Plan—The Trust has a Deferred Compensation Plan (the “Plan”) for Trustees under which the Trustees can elect to defer receipt of their trustee fees until retirement, disability or termination from the Board of Trustees. The fees otherwise payable to the participating Trustees are deemed invested in shares of the Funds as directed by the Trustees.

The expense for the Plan is included in “Trustees’ fees and expenses” in the Statements of Operations. The liability for the Plan is shown as “Deferred Trustee fees” in the Statements of Assets and Liabilities.

Note 9—Securities Lending—To generate additional income, each of the Funds may lend its securities pursuant to a securities lending agreement with The Bank of New York Mellon, the securities lending agent and also the Funds’ custodian. Each Fund may lend up to 33% of its investments requiring that the loan be continuously collateralized by cash, U.S. government or U.S. government agency securities, shares of an investment trust or mutual fund, or any combination of cash and such securities at all times equal to at least 102% (105% for foreign securities) of the market value plus accrued interest on the securities loaned. During the term of the loan, the Funds will continue to receive any dividends, interest or amounts equivalent thereto, on the securities loaned while receiving a fee from the borrower or earning interest on the investment of the cash collateral. Such fees and interest are shared with the securities lending agent under the terms of the securities lending agreement. The Funds may pay reasonable finders’, administrative and custodial fees in connection with a loan of its securities and shares the interest earned on the collateral and borrowing fees received with the securities lending agent. Securities lending income is disclosed as such in the Statements of Operations. The collateral for securities loaned is recognized in the Schedules of Investments and the Statements of Assets and Liabilities. The cash collateral is maintained on the Funds’ behalf by the lending agent and is invested in the Bank of New York Overnight Government Fund, the Bank of New York Institutional Cash Reserve, or repurchase agreements collateralized by obligations of the U.S. Treasury and/or Government Agencies. Loans are subject to termination at the option of the borrower or the Funds. Upon termination of the loan, the borrower will return to the lender securities identical to the securities loaned. The Funds bear the risk of delay in recovery of, or even loss of rights in, the securities loaned should the borrower of the securities fail financially. The value of loaned securities and related collateral outstanding at June 30, 2014 are shown on a gross basis in the Schedules of Investments and Statements of Assets and Liabilities.

Note 10—Share Split—On January 19, 2011, the Adviser announced the Board of Trustees approved a 3 for 1 share split of the Indonesia Index ETF. This split took place for shareholders of record as of the close of business on January 28, 2011 and was payable on January 31, 2011. Fund shares began trading on the split adjusted NAV on February 1, 2011. The Financial Highlights prior to February 1, 2011 for the Fund have been adjusted to reflect the 3 for 1 share split.

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSRS

On July 1, 2013, the Board of Trustees of the Trust approved a 1 for 3 reverse share splits for Russia Small-Cap ETF, and 1 for 4 reverse share splits for Egypt Index ETF and India Small-Cap Index ETF. Fund shares began trading on the split adjusted NAV on July 1, 2013. The Statements of Changes in Net Assets and Financial Highlights prior to July 1, 2013 for the Funds have been adjusted to reflect the 1 for 3 reverse share split.

Note 11—Bank Line of Credit—Certain Funds may participate in a \$200 million committed credit facility (the “Facility”) to be utilized for temporary financing until the settlement of sales or purchases of portfolio securities, the repurchase or redemption of shares of the Funds at the request of the shareholders and other temporary or emergency purposes. The Funds have agreed to pay commitment fees, pro rata, based on the unused but available balance. Interest is charged to the Funds at rates based on prevailing market rates in effect at the time of borrowings. During the period ended June 30, 2014, the following Funds borrowed under this Facility:

Fund	Days Outstanding	Average Daily Loan Balance	Average Interest Rate	Outstanding Loan Balance as of June 30, 2014
Africa Index ETF	112	\$4,801,251	1.50 %	\$309,286
Brazil Small-Cap ETF	142	1,089,373	1.49	393,813
Egypt Index ETF	124	4,434,303	1.50	4,108,560
Gulf States Index ETF	57	305,661	1.48	—
India Small-Cap Index ETF	61	5,426,392	1.48	663,564
Indonesia Index ETF	181	961,217	1.50	926,200
Indonesia Small-Cap ETF	44	68,220	1.47	—
Israel ETF	155	285,042	1.49	109,673
Latin America Small-Cap Index ETF	119	76,020	1.48	29,725
Poland ETF	41	103,658	1.49	193,481
Russia ETF	106	2,002,888	1.49	—
Russia Small-Cap ETF	33	511,788	1.49	1,209,225
Vietnam ETF	42	17,193,571	1.49	5,603,241

Note 12—Custodian Fees—The Funds have entered into an expense offset agreement with the custodian wherein they receive a credit toward the reduction of custodian fees whenever there are uninvested cash balances. The Funds could have invested their cash balances elsewhere if they had not agreed to a reduction in fees under the expense offset agreement with the custodian. For the period ended June 30, 2014, there were no offsets to the custodian fees.

Note 13—Subsequent Event Review—The Funds have evaluated subsequent events and transactions for potential recognition or disclosure through the date the financial statements were issued.

Effective on and from July 2, 2014, Egypt enacted a 10% tax liability on dividends and capital gains from investments in Egyptian issuers. In response to this legislation, Africa Index ETF and Egypt Index ETF began accruing for such tax.

MARKET VECTORS ETF TRUST

APPROVAL OF INVESTMENT MANAGEMENT AGREEMENT

(unaudited)

At a meeting held on June 6, 2014 (the “Renewal Meeting”), the Board of Trustees (the “Board”) of Market Vectors ETF Trust (the “Trust”), including all of the Trustees that are not interested persons of the Trust (the “Independent Trustees”), approved the continuation of (i) the investment management agreements (the “Investment Management Agreements”) between the Trust and Van Eck Associates Corporation (the “Adviser”) with respect to the Market Vectors Africa Index ETF, Agribusiness ETF, Agriculture Producers ETF, Brazil Small-Cap ETF, ChinaAMC All China Consumer ETF, ChinaAMC A-Share ETF, ChinaAMC MSCI All China ETF, ChinaAMC MSCI All China Small Cap ETF, ChinaAMC SME-ChiNext ETF, Coal ETF, Colombia ETF, Egypt Index ETF, Emerging Europe ex-Russia Index ETF, Energy Producers ETF, GDP Weighted Emerging Markets ETF, GDP Weighted Emerging Markets Small-Cap ETF, GDP Weighted International ex-US ETF, Germany Small-Cap ETF, Global Alternative Energy ETF, Global Frontier Index ETF, Gold Miners ETF, Gulf States Index ETF, Hard Assets Producers Extra Liquid ETF, India Small-Cap Index ETF, Indonesia Index ETF, Indonesia Small-Cap ETF, Internet ETF, Israel ETF, Junior Gold Miners ETF, Kuwait Index ETF, Latin America Small-Cap Index ETF, Metals ETF, Mongolia ETF, Natural Resources ETF, Nigeria ETF, Nigeria-Focused West Africa ETF, Oil Services ETF, Poland ETF, Rare Earth/Strategic Metals ETF, Russia ETF, Russia Small-Cap ETF, Saudi Arabia ETF, Saudi Arabia Small-Cap ETF, Software ETF, Solar Energy ETF, Steel ETF, Telecom ETF, Unconventional Oil & Gas ETF, Uranium+Nuclear Energy ETF and Vietnam ETF (the “Funds”) and (ii) a sub-advisory agreement between the Adviser and China Asset Management (Hong Kong) Limited (the “Sub-Adviser”) (the “Sub-Advisory Agreement”) with respect to Market Vectors ChinaAMC A-Share ETF (the “China Fund”). The Investment Management Agreements and the Sub-Advisory Agreement are collectively referred to as the “Agreements.”

The Board’s approval of the Agreements was based on a comprehensive consideration of all of the information available to the Trustees and was not the result of any single factor. Some of the factors that figured particularly in the Trustees’ deliberations and how the Trustees considered those factors are described below, although individual Trustees may have evaluated the information presented differently, giving different weights to various factors.

In preparation for the Renewal Meeting, the Trustees held a meeting on May 9, 2014. At that meeting, the Trustees discussed the information the Adviser, the Sub-Adviser (with respect to the China Fund) and Lipper Inc. (“Lipper”), an independent third party data provider, had provided to them in advance. The information provided to the Trustees included, among other things, information about the performance (for those Funds which had begun operations) and expenses of the Funds and (where applicable) the Funds’ peer funds (other index-based exchange-traded funds (“ETFs”)), information about the advisory services provided to the Funds and the personnel providing those services, and the profitability and other benefits enjoyed by the Adviser and its affiliates as a result of the Adviser’s relationship with the Funds. In reviewing performance and expense information for certain of the Funds against their peer groups, the Trustees considered that some of the Funds generally invest in a different group of issuers than some or all of the other funds in a Fund’s designated peer group. For these and other reasons, the Trustees noted that the peer group information did not necessarily provide meaningful direct comparisons to the Funds.

The Independent Trustees' consideration of the Agreements was based, in part, on their review of information obtained through discussions with the Adviser at the Renewal Meeting and the May 9, 2014 meeting and information obtained at other meetings of the Trustees and/or based on their review of the materials provided by the Adviser and the Sub-Adviser (with respect to the China Fund), including the background and experience of the portfolio managers and others involved in the management and administration of the Funds. The Trustees considered the terms of, and scope of services that the Adviser and Sub-Adviser (with respect to the China Fund) provide under, the Agreements, including, where applicable, the Adviser's commitment to waive certain fees and/or pay expenses of each of the Funds to the extent necessary to prevent the operating expenses of each of the Funds from exceeding agreed upon limits for a period of time. With respect to the Sub-Advisory Agreement, the Trustees took into account the unique legal and operational aspects of the China Fund and the Sub-Adviser's experience and investment management process with respect to Renminbi Qualified Institutional Investors Scheme ("RQFII") funds. The Trustees also noted that the Sub-Adviser is a wholly-owned subsidiary of China Asset Management Co., China's largest asset management company measured by fund assets under management.

The Trustees concluded that the Adviser, the Sub-Adviser (with respect to the China Fund) and their personnel have the requisite expertise and skill to manage the Funds' portfolios. In evaluating the performance over relevant periods of each of the Funds that had commenced operations prior to the date of the Renewal Meeting (the "Operating Funds"), the Trustees reviewed various performance metrics but relied principally on a comparison of the "gross" performance of each Operating Fund (i.e., measured without regard to the impact of fees and expenses) to the performance of its benchmark index, in each case incorporating any fair value adjustments to the underlying securities. Based on this review and discussions with the

Adviser, the Trustees concluded that the investment performance of the Funds was satisfactory. The Trustees also considered the short period since the Sub-Adviser commenced activities on behalf of the China ETF.

The Trustees also considered information relating to the financial condition of the Adviser and the Sub-Adviser (with respect to the China Fund) and the current status, as they understood it, of the Adviser's and Sub-Adviser's (with respect to the China Fund) compliance environment.

As noted above, the Trustees were also provided various data from Lipper comparing the Operating Funds' expenses and performance to that of other ETFs. The Trustees noted that the information provided showed that each Operating Fund had a total expense ratio (after the effect of any applicable expense limitation) below or equal to the average and/or median of its respective peer group of funds, except for each of Market Vectors Agribusiness ETF, ChinaAMC A-Share ETF, Colombia ETF, Egypt Index ETF, Global Alternative Energy ETF, Gulf States Index ETF, India Small-Cap ETF, Israel ETF, Rare Earth/Strategic Metals ETF, Russia Small-Cap ETF, Solar Energy ETF, Unconventional Oil & Gas ETF and Vietnam ETF, which had a total expense ratio (after the effect of any applicable expense limitation) greater than the average and median of its peer group of funds, and each of Market Vectors Indonesia Small-Cap ETF, Steel ETF and Uranium+Nuclear Energy ETF, which had a total expense ratio (after the effect of any applicable expense limitation) greater than the average but equal to the median of its peer group of funds. The Trustees concluded, however, in light of this information and the other information available to them, that the fees paid by the Operating Funds were reasonable in light of the performance of the Funds and the quality of services received. The Trustees noted that this comparative data, while generally helpful, was limited in its usefulness in many cases due to the lack of a large number of directly comparable ETFs.

The Trustees also considered any other benefits received by the Adviser from serving as adviser to the Funds and from providing certain administrative services to most of the Funds, and from an affiliate of the Adviser serving as distributor for the Funds.

The Trustees also considered information provided by the Adviser about the overall profitability of the Adviser and its profitability or loss in respect of each Operating Fund. The Trustees reviewed each Fund's asset size, expense ratio and expense cap and noted that the Investment Management Agreements do not include breakpoints in the advisory fee rates as asset levels in a Fund increase. The Trustees noted that certain Funds were still relatively new products, which therefore made it difficult to quantify the potential variability in net assets and thus determine the sustainability of any potential economies of scale which may exist. The Trustees noted that the Adviser has capped expenses on each Operating Fund since its inception. Based on the foregoing and the other information available to them, the Trustees determined that the advisory fee rate for each Fund is reasonable and appropriate in relation to the current asset size of each Fund and the other factors discussed above and currently reflects an appropriate sharing of any economies of scale which may exist with shareholders. The Trustees also determined that the profits earned by the Adviser in respect of the Funds that were profitable to the Adviser were reasonable in light of the nature and quality of the services received by such Funds.

Edgar Filing: MARKET VECTORS ETF TRUST - Form N-CSRS

The Trustees did not review profit or loss information for the Sub-Adviser in respect of its role as Sub-Adviser to the China Fund and noted that the Sub-Adviser began providing services to the China Fund in January 2014.

The Trustees did not consider historical information about the profitability of Market Vectors Agriculture Producers ETF, ChinaAMC All China Consumer ETF, ChinaAMC MSCI All China ETF, ChinaAMC MSCI All China Small Cap ETF, ChinaAMC SME-ChiNext ETF, Emerging Europe ex-Russia Index ETF, Energy Producers ETF, GDP Weighted Emerging Markets ETF, GDP Weighted Emerging Markets Small-Cap ETF, GDP Weighted International ex-US ETF, Global Frontier Index ETF, Hard Assets Producers Extra Liquid ETF, Internet ETF, Israel ETF, Kuwait Index ETF, Metals ETF, Mongolia ETF, Nigeria ETF, Nigeria-Focused West Africa ETF, Saudi Arabia ETF, Saudi Arabia Small-Cap ETF, Software ETF and Telecom ETF to the Adviser because the Funds had not yet commenced operations at the time of the Renewal Meeting. The Trustees also could not consider the historical performance or the quality of services previously provided to each of these Funds.

The Independent Trustees were advised by and met in executive session with their independent counsel at the Renewal Meeting and at their May 9, 2014 meeting as part of their consideration of the Agreements.

In voting to approve the continuation of the Agreements, the Trustees, including the Independent Trustees, concluded that the terms of each Agreement are reasonable and fair in light of the services to be performed, expenses to be incurred and such other matters as the Trustees considered relevant in the exercise of their reasonable judgment. The Trustees further concluded that each Agreement is in the best interest of each Fund and such Fund's shareholders.

This report is intended for the Funds' shareholders. It may not be distributed to prospective investors unless it is preceded or accompanied by a Market Vectors ETF Trust (the "Trust") Prospectus and Summary Prospectus, which includes more complete information. An investor should consider the investment objective, risks, and charges and expenses of the Funds carefully before investing. The prospectus and summary prospectus contains this and other information about the investment company. Please read the prospectus and summary prospectus carefully before investing.

Additional information about the Trust's Board of Trustees/Officers and a description of the policies and procedures the Trust uses to determine how to vote proxies relating to portfolio securities are

provided in the Statement of Additional Information. The Statement of Additional Information and information regarding how the Trust voted proxies relating to portfolio securities during the most recent twelve month period ending June 30 is available, without charge, by calling 1.888.MKT.VCTR, or by visiting vaneck.com, or on the Securities and Exchange Commission's website at <http://www.sec.gov>.

The Trust files its complete schedule of portfolio holdings with the Securities and Exchange Commission for the first and third quarters of each fiscal year on Form N-Q. The Trust's Form N-Qs are available on the Commission's website at <http://www.sec.gov> and may be reviewed and copied at the Commission's Public Reference Room in Washington, D.C. Information on the operation of the

Public Reference
Room may be
