Payment of Filing Fee (Check the appropriate box):

No fee required.

Fee computed on table below per Exchange Act Rules 14a-6(i)(1) and 0-11.

(1) Title of each class of securities to which transaction applies:

(2) Aggregate number of securities to which transaction applies:

(3) Per unit price or other underlying value of transaction computed pursuant to Exchange Act Rule 0-11 (set forth the amount on which the filing fee is calculated and state how it was determined):

(4) Proposed maximum aggregate value of transaction:

(5) Total fee paid:

Fee paid previously with preliminary materials:

Check box if any part of the fee is offset as provided by Exchange Act Rule 0-11(a)(2) and

identify the filing for which the offsetting fee was paid previously. Identify the previous filing by registration statement number, or the Form or Schedule and the date of its filing.

(1) Amount previously paid:

(2) Form, Schedule or Registration Statement No.:

(3) Filing Party:

(4) Date Filed:

Support.com, Inc., a Delaware corporation (“Support.com” or the “Company”), is filing materials contained in this Schedule 14A with the U.S. Securities and Exchange Commission (“SEC”) in connection with its solicitation of proxies from its stockholders in connection with its 2016 Annual Meeting of Stockholders to be held on Friday, June 24, 2016, at 10:00 a.m., Pacific Time, at the Hyatt House Belmont/Redwood Shores hotel located at 400 Concourse Drive, Belmont, California 94002 and at any and all adjournments or postponements thereof (the “2016 Annual Meeting”). On May 12, 2016, Support.com filed with the SEC a revised definitive proxy statement and accompanying definitive WHITE proxy card in connection with its solicitation of proxies from its stockholders to be used at the 2016 Annual Meeting.

#### **Investor Presentation First Used on June 8, 2016**

Attached hereto is an investor presentation that Support.com is first using on June 8, 2016 in presentations to stockholders and proxy advisory firms. This investor presentation is being filed herewith because it may be deemed to be solicitation material in connection with Support.com’s solicitation of proxies from its stockholders to be used at the 2016 Annual Meeting. As previously announced, VIEX Opportunities Fund, LP — Series One, VIEX GP, LLC, VIEX Capital Advisors, LLC, BLR Partners LP, BLRPart, LP, BLRGP Inc., Fondren Management, LP, FMLP Inc., Eric Singer, Bradley L. Radoff, Joshua E. Schechter, Richard Bloom and Brian J. Kelley (collectively, the “VIEX Group”) have publicly disclosed that they intend to pursue a proxy contest in an effort to have their five proposed director candidates elected to Support.com’s board of directors (the “Support.com Board”) at the 2016 Annual Meeting and, thereby, replace five out of the current six members of the Support.com Board, including three highly-qualified and very experienced directors who were added to the Support.com Board within the past ninety days. Support.com strongly believes that the five nominees proposed by the VIEX Group lack the necessary and relevant experience, expertise and industry knowledge to advance the execution of Support.com’s strategic plan for growth and the creation of long-term stockholder value and, most importantly, lack the experience to determine when and how to refine and adapt Support.com’s strategic plan as needed in response to the support market’s changing dynamics.

As Support.com has also previously disclosed in its communications with stockholders, while the VIEX Group has been abundantly clear that it wants control of Support.com without paying Support.com stockholders any control premium, notably absent from the VIEX Group’s disruptive and inflammatory rhetoric is any specific and viable alternative strategic growth plan or any viable and substantive proposals on how it would drive the creation of long-term stockholder value were it to obtain control of the Support.com Board. Nor has the VIEX Group provided any substantive and viable ideas for enhancing stockholder value in the short-term. In addition, the VIEX Group has not provided any details on how such an abrupt change in control of the Support.com Board, at a pivotal and critical time in Support.com’s trajectory, would be accomplished so as not to cause significant and substantial harm to Support.com’s business and prospects, including, but not limited to, Support.com’s relationships with its employees, customers and partners. Support.com believes its stockholders have been provided with scant information as to the VIEX Group’s ultimate intentions and plans if it was to abruptly obtain control of Support.com at the 2016 Annual Meeting.

### **Important Additional Information And Where To Find It**

Support.com, its directors and certain of its executive officers and employees are deemed to be participants in the solicitation of proxies from Support.com's stockholders in connection with the matters to be considered at Support.com's 2016 Annual Meeting of Stockholders. On May 12, 2016, Support.com filed a revised definitive proxy statement and accompanying definitive **WHITE** proxy card with the SEC in connection with the solicitation of proxies from Support.com stockholders in connection with the matters to be considered at Support.com's 2016 Annual Meeting of Stockholders. Information regarding the identity of participants, and their direct or indirect interests, by security holdings or otherwise, is set forth in such revised definitive proxy statement, including the schedules and appendices thereto. **INVESTORS AND STOCKHOLDERS ARE STRONGLY ENCOURAGED TO READ ANY SUCH PROXY STATEMENT AND THE ACCOMPANYING WHITE PROXY CARD AND OTHER DOCUMENTS FILED BY SUPPORT.COM WITH THE SEC CAREFULLY AND IN THEIR ENTIRETY WHEN THEY BECOME AVAILABLE AS THEY WILL CONTAIN IMPORTANT INFORMATION.** Stockholders may obtain the revised definitive proxy statement, any amendments or supplements to the proxy statement, the accompanying **WHITE** proxy card, and other documents filed by Support.com with the SEC for no charge at the SEC's website at [www.sec.gov](http://www.sec.gov). Copies will also be available at no charge at the Investor Relations section of Support.com's corporate website at [www.Support.com](http://www.Support.com) or by contacting Support.com's proxy solicitation firm, Mackenzie Partners, Inc., by mail at 105 Madison Avenue, New York, New York 10016, by phone at (212) 929-5500 (Call Collect) or Toll-Free (800) 322-2885, or by email at [proxy@mackenziepartners.com](mailto:proxy@mackenziepartners.com).

© 2016 SUPPORT.COM Inc . All Rights Reserved. Safe Harbor Statement This presentation contains “forward - looking statements” as defined under the U . S . federal securities laws, including the Private Securities Litigation Reform Act of 1995 , and is subject to the safe harbors created by such laws . Forward - looking statements include, for example, all statements relating to expected financial performance (including without limitation statements involving growth and projections of revenue, margin, profitability, income (loss) from continuing operations, income (loss) per share from continuing operations, cash usage or generation, cash balance as of any future date, capital structure and other financial items) ; the plans and objectives of management for future operations, customer relationships, products, services or investments ; personnel matters ; and future performance in economic and other terms . Such forward - looking statements are based on current expectations that involve a number of uncertainties and risks that may cause actual events or results to differ materially from those indicated by such forward - looking statements, including, among others, our ability to retain and grow major programs, our ability to expand and diversify our customer base, our ability to market and sell our Support . com Cloud (formerly “Nexus®”) software - as - a - service (SaaS) offering, our ability to maintain and grow revenue, our ability to successfully develop new products and services, our ability to manage our workforce, our ability to operate in markets that are subject to extensive regulations, such as support for home security systems, our ability to control expenses and achieve desired margins, our dependence on a small number of customers and partners, our ability to attract, train and retain talented employees, the potential for acquisitions or other strategic transactions that deplete our resources or do not prove successful, privacy concerns, the potential for payment fraud issues, potential intellectual property, class action or other litigation, potential impairments of long lived assets, our ability to utilize and realize the value of our net operating loss carryforwards and how they could be substantially limited or permanently impaired, given our current market capitalization and cash position, if we experienced an “ownership change” as defined in Section 382 of the Internal Revenue Code and whether our recently adopted tax benefits preservation plan will be effective in reducing the likelihood of such an unintended ownership change from occurring, and risks, disruption, costs and uncertainty caused by or related to the actions of activist stockholders, including that if individuals are elected to our Board with a specific agenda, it may adversely affect our ability to effectively implement our business strategy and create value for our stockholders and perceived uncertainties as to our future direction as a result of potential changes to the composition of our Board may lead to the perception of a change in the direction of our business, instability or a lack of continuity which may be exploited by our competitors, cause concern to our current or potential clients, and may result in the loss of potential business opportunities and make it more difficult to attract and retain qualified personnel and business partners, our ability to execute the cost reduction program involving the planned actions on the expected schedule, our ability to achieve the cost savings expected in connection with the cost reduction plan, the ultimate effect of any such cost reductions on our financial results, and our ability to manage the effects of the cost reduction plan on our workforce and other operations . These and other risks may be detailed from time to time in Support . com’s periodic reports filed with the Securities and Exchange Commission, including, but not limited to, its latest Annual Report on Form 10 - K and its latest Quarterly Report on Form 10 - Q, copies of which may be obtained from [www . sec . gov](http://www.sec.gov) . Support . com assumes no obligation to update its forward - looking statements, except as may otherwise be required by the federal securities laws . 2

BOARD OF DIRECTORS, COMMITMENT TO GOVERNANCE Recently Refreshed and Diverse Board of Highly  
- Qualified, Very Experienced and Engaged Directors is Overseeing the Development, Refinement and Execution of  
Support.com's Strategic Plan SUPPORT.COM 36

© 2016 SUPPORT.COM Inc . All Rights Reserved. o Support.com’s Board, collectively, has substantial leadership, governance, business transformation, technology, product management, support services, sales, marketing, capital allocation, financial discipline, M&A and risk oversight experience and expertise relevant to the advancement of Support.com’s strategic plan. o Over the past year, the Support.com Board undertook a thorough search to identify new, independent directors with relevant qualifications, experiences and expertise to ensure that the Support.com Board has the right mix of insights, experiences and competencies to help oversee the development, execution and refinement of Support.com’s strategic growth plan and the creation of long - term stockholder value. o The Board’s search for new, independent directors, which involved the use of a leading executive search firm, was initiated well before the VIEX Group began its inflammatory, distracting and self - interested campaign to seek control of Support.com. o As a result of this director search and an extensive vetting process, 3 new highly - qualified, very experienced and independent directors - Liz Fetter, Lowell Robinson and Tim Stanley – were added to the Support.com Board within the past 90 days. o All three new directors are standing for election at the 2016 Annual Meeting. o All three new directors replaced incumbent directors who voluntarily resigned. o All three new directors have extensive senior management and governance experience at leading public companies. o All three new directors have experience overseeing business transformations that drove stockholder value creation . o All three new directors have public company board and leadership experience. o All three new directors are aligned with, and committed to acting in, the best interests of ALL stockholders o The recently refreshed Support.com Board, including the three independent directors who were added within the past 90 days, balances the need for new insights and perspectives with the importance of preserving access to critical institutional knowledge and memory. Support.com’s Board Has Been Recently Refreshed with Three New, Independent Board Members Added Since March 2016 37

© 2016 SUPPORT.COM Inc . All Rights Reserved. • Member of the Board since October 2006. • Chair of Compensation and Strategy Committees; Nominating/Governance Committee member . • Extensive institutional knowledge of Support.com and the support market. • Extensive experience in executive management, sales, marketing and M&A. • Former member of Adobe Incorporated's executive management team where he was instrumental in driving Adobe's growth from \$900 million to almost \$2 billion in annual revenue. JIM STEPHENS Recently Refreshed Board of Highly - Qualified, Experienced and Engaged Directors is Overseeing the Development, Refinement and Execution of Support.com's Strategic Plan Chairman Of The Board & Independent Director • Joined Support.com in May 2014 as President and CEO and in July 2014 became a member of the Board. • An award - winning product thought leader with deep expertise leading the development and marketing of innovative SaaS offerings for support - related markets. • Prior management and executive roles with Citrix Systems, Inc. where she revitalized product development and client services, grew customer satisfaction and retention to their highest levels, and expanded key products to a broader market, all while continuing to lead the GoToAssist and GoToMyPC products in their #1 position in their respective markets for 5 consecutive years. ELIZABETH CHOLAWSKY Director • Member of the Board since March 2016. • Member of Strategy and Audit Committees. • As a five - time former CEO, brings significant leadership and technology experience to Support.com, having led companies in networking, equipment and B2B SaaS spaces. • Extensive experience overseeing business transformations at technology companies resulting in revenue growth and value creation for stockholders. • Extensive public company board and leadership experience. LIZ FETTER Independent Director (Added to Board in March 2016) 38

© 2016 SUPPORT.COM Inc . All Rights Reserved. Recently Refreshed Board of Highly - Qualified, Experienced and Engaged Directors is Overseeing the Development, Refinement and Execution of Support.com's Strategic Plan • Member of the Board since February 2011. • Chair of Nominating/Governance Committee; Compensation Committee member. • More than 30 years of leadership experience in service, sales, and marketing, including at technology companies such as Diebold, Inc. and IBM Corporation. • Extensive experience leading large - scale world - class technical support operations. • Former CEO of Trivac Ltd. (d/b/a LIT OnLine), an e - learning SaaS platform company. TONI PORTMANN • Member of the Board since March 2016. • Chair of Audit Committee; Compensation Committee Member. • 30 years of global strategic, financial, turnaround and M&A experience. • Prior senior leadership roles at both public and private technology and software services companies, including well - known technology companies such as HotJobs.com. • Extensive public company board and leadership experience. LOWELL ROBINSON Independent Director (Added to Board in March 2016) Independent Director • Member of the Board since March 2016. • Member of Nominating/Governance, Audit and Strategy Committees. • Award - winning technology leader and innovator in cloud - based and technology solutions. • Extensive experience in developing and bringing to market cloud - enabled solutions for a broad range of enterprise customers. • Prior senior executive and technology leadership roles at Salesforce.com and Harrah's. • Public company board and leadership experience as well as past service as an advisor and/or board member at a number of privately - held technology companies. TIM STANLEY Independent Director (Added to Board in March 2016) 39

PRESERVATION OF ASSETS AND PATH TO PROFITABILITY Recently refreshed board of directors is taking  
decisive action to preserve assets, reduce cash burn rate and accelerate Support.com's path to profitability  
SUPPORT.COM 41

© 2016 SUPPORT.COM Inc . All Rights Reserved. • As of December 31, 2015, Support.com had approximately \$126.2 million of (pre - tax) federal net operating loss carryforwards, or NOLs, that could potentially be utilized in certain circumstances to offset Support.com’s future taxable income and reduce its federal income tax liability. • Support.com’s ability to benefit from its NOLs would be substantially limited by Section 382 of the Internal Revenue Code if an “ownership change” occurred. A company experiences an “ownership change” for tax purposes if the percentage of stock owned by one or a group of its 5% stockholders (as defined for tax purposes) increases by more than 50 percentage points over a rolling three - year period over the lowest percentage of stock of such corporation owned by such stockholders at any time during that period. • Some of the limitations associated with Section 382 focus on the relative size of a corporation’s “non - business assets,” or investment assets (including cash, cash equivalents and marketable securities), to its equity value making Support.com’s commercial risk from a Section 382 limitation triggering event particularly acute given the relative size of its current cash on hand to its market capitalization. • Given Support.com’s current cash position and current market capitalization, if Support.com was to currently experience an ownership change, it would be subject to Section 382’s “non - business asset” limitation which would result in Support.com permanently losing all \$126.2 million of its NOLs . Recently Refreshed Board of Directors is Taking Decisive Action to Preserve Support.com’s Substantial NOLs (Approximately \$126.2 million as of December 31, 2015) 42

© 2016 SUPPORT.COM Inc . All Rights Reserved. • On April 20, 2016, the recently refreshed Board of Directors, after consulting with its legal, tax and financial advisors, took decisive action to approve the adoption of a tax benefits preservation plan in the form of a Section 382 Rights Agreement designed to protect Support.com's NOLs from being limited or permanently lost. • The tax benefits preservation plan replaced Support.com's limited duration stockholder rights plan, which has been terminated. • The tax benefits preservation plan is intended to prevent Support.com's NOLs from being limited or permanently lost under Section 382 by reducing the likelihood of an unintended "ownership change" occurring. • The tax benefits preservation plan is intended to act as a deterrent to any person acquiring beneficial ownership of 4.99% or more of Support.com's outstanding common stock without the approval of the Board. Stockholders who beneficially owned 4.99% or more of Support.com's outstanding common stock prior to the first public announcement by Support.com of the plan do not trigger the plan unless they acquire additional shares. • The Board retains the ability to exempt any person or group from the penalties imposed by the tax benefits preservation plan. • The preferred stock purchase rights and the tax benefits preservation plan will expire no later than April 20, 2019. • The preferred stock purchase rights and the tax benefits preservation plan may also expire on an earlier date upon the occurrence of other events, including a determination by Support.com's Board that (i) the tax benefits preservation plan is no longer necessary or desirable for the preservation of Support.com's tax attributes, or (ii) no tax attributes may be carried forward. Recently Refreshed Board of Directors is Taking Decisive Action to Preserve Support.com's Substantial NOLs (Approximately \$126.2 million as of December 31, 2015) 43

© 2016 SUPPORT.COM Inc . All Rights Reserved. While Not Required by Charter Documents or Applicable Law, Stockholders Will Vote on the Section 382 Tax Benefits Preservation Plan at the 2016 Annual Meeting • Support.com is submitting the tax benefits preservation plan, which is similar to tax benefits preservation plans adopted by many other public companies with significant tax assets, for stockholder ratification at its 2016 Annual Meeting of Stockholders . • Stockholder ratification of the tax benefits preservation p lan is not required by applicable law or by Support.com’s Restated Certificate of Incorporation, Amended and Restated Bylaws or other governing documents. • Support.com’s Board has determined to request stockholder ratification of the adoption of the tax b enefits preservation plan to determine the viewpoint of stockholders on the advisability of the tax benefits p reservation p lan and as a matter of good corporate governance . • Support.com’s tax benefits preservation plan was designed to comply with the policies of the leading proxy advisory firms and, in that regard, includes a sunset provision which provides that the term of the tax benefits preservation plan expires upon the earlier of three years from the date of adoption and the exhaustion of the NOLs. 44

© 2016 SUPPORT.COM Inc . All Rights Reserved. • On April 22, 2016, less than sixty days after the three new independent directors joined the Support.com Board, the recently refreshed Board of Directors adopted an aggressive cost reduction plan. • The cost reduction plan is intended to reduce Support.com's longer term cash burn rate and accelerate its path to profitability on a non - GAAP basis. • The cost reduction plan involves substantial expense reductions as well as corporate headcount reductions of approximately 20% measured as of the end of the first fiscal quarter of 2016 and is intended to result in a more optimized cost structure for Support.com while still preserving Support.com's ability to execute on its strategic growth plan. • Support.com anticipates that the actions contemplated by the cost reduction plan will be taken primarily in the second fiscal quarter of 2016, and that the full impact of these actions will be reflected in Support.com's financial statements by the fourth fiscal quarter of 2016. Recently Refreshed Board of Directors is Taking Decisive Action to Reduce Support.com's Cash Burn Rate and Accelerate its Path to Profitability 45

© 2016 SUPPORT.COM Inc . All Rights Reserved. • We anticipate the cost reduction plan will allow us to expedite our previously communicated path to profitability and position Support.com to become profitable on a non - GAAP basis for the full year of 2018.\* • This is a substantially improved outlook compared to the view Support.com gave at its September 2015 Investor Day, where Support.com communicated becoming breakeven on a non - GAAP basis exiting 2018. • This aggressive cost reduction plan is only one of a number of actions and initiatives being considered by the refreshed Board of Directors as it examines how Support.com can effectively execute its strategic growth plan while at the same time controlling and optimizing its cost structure so that Support.com's path to profitability is accelerated. \*The Company's non - GAAP financial measures exclude stock - based compensation expense, amortization of intangible assets and other, restructuring and impairment charges, acquisition expense, other non - recurring items and tax expense (benefit) associated with acquired goodwill. Recently Refreshed Board of Directors is Taking Decisive Action to Reduce Support.com's Cash Burn Rate and Accelerate its Path to Profitability 46

THE SUPPORT.COM PROXY CONTEST The VIEX Group is Seeking Control of Support.com Without Presenting  
any Alternative Strategic Plan or Substantive and Viable Ideas for Growing Stockholder Value SUPPORT.COM 47

© 2016 SUPPORT.COM Inc . All Rights Reserved. o VIEX Capital Advisors, LLC and the other members of its dissident investor group, including Eric Singer, Bradley Radoff and Joshua Schechter (the “VIEX Group”), who beneficially own, in the aggregate, approximately 14.9% of our shares, are waging a costly and distracting proxy contest to abruptly take control of Support.com’s recently refreshed Board. o The VIEX Group is seeking to take control of Support.com by replacing 5 of the 6 members of the Support.com Board – including the 3 Board members who joined the Support.com Board within the last 90 days – with its own nominees, three of whom are affiliates of the VIEX Group. o Support.com strongly believes the 5 nominees proposed by the VIEX Group, none of whom have any experience at technology companies providing cloud - based support services, lack the necessary and relevant experience, expertise and industry knowledge to advance the development and execution of our strategic plan for growth and the creation of long - term stockholder value and, most importantly, lack the experience to determine when and how to refine and adapt our strategic plan as needed in response to the support market’s changing dynamics. o The VIEX Group’s highly vocal campaign is focused on making numerous inflammatory and misleading statements in an effort to distract stockholders from its lack of any substantive and viable ideas or alternative strategic plan for creating long - term stockholder value or even anything viable for unlocking stockholder value in the short - tem. o The VIEX Group has not provided any details on how its plans to abruptly take control of the Support.com Board would not cause significant and substantial harm to our business and prospects, including, but not limited to, our relationships with o ur employees, customers and partners. The VIEX Group is Seeking to Abruptly Take Control of Support.com Through its Proxy Contest to Replace Five out of the Six Members of the Support.com Board 48

© 2016 SUPPORT.COM Inc . All Rights Reserved. o The VIEX Group has NOT presented any specific and viable alternative strategic growth plan or any viable and substantive proposals on how it would drive the creation of long - term stockholder value were it to obtain control of the Support.com Board. o In addition, the VIEX Group has NOT provided any substantive and viable ideas for enhancing stockholder value in the short - term. o The VIEX Group's ill - conceived theories for how stockholder value can be enhanced at Support.com are thin on facts, substance and viability , reflect no understanding of the support industry or its changing dynamics, and are nothing more than a thinly - veiled attempt to further its self - interested agenda of seizing control of Support.com without paying our stockholders a control premium . o The VIEX Group's theories that we should immediately sell Support.com's promising Cloud business or the company as a whole – possibly in the form of a “fire sale” – are misguided and short - sighted approaches that would completely derail the progress Support.com has made implementing its strategic growth plan and could deprive stockholders of a high - potential opportunity to realize long - term value from their investment in Support.com. o However misguided the VIEX Group may be in seeking a “fire sale” of Support.com or its assets, the VIEX Group has never articulated any detailed plan on how it would even accomplish a sale of Support.com given Support.com's ongoing transition and current stock price and, regardless of how short - sighted such a sale may be, whether it is even a practical or viable option for Support.com. o Nor has the VIEX Group ever proposed any specific transaction that it believes the Support.com Board should consider. The VIEX Group Has Not Presented Any Alternative Strategic Plan or Substantive and Viable Ideas for Creating Long - Term Stockholder Value 49

© 2016 SUPPORT.COM Inc . All Rights Reserved. o We believe that if the VIEX Group was able to replace 5 out of the 6 members of the Support.com Board, it would completely derail the progress Support.com has made implementing its strategic growth plan and could deprive stockholders of a high - potential opportunity to realize long - term value from their investment in Support.com. o The VIEX Group has not provided any details on how its plans to abruptly take control of the Support.com Board would not cause significant and substantial harm to our business and prospects, including, but not limited to, our relationships with our employees, customers and partners . o The VIEX Group has also not detailed how it would avoid an abrupt change in control from causing the perception of a change in the direction of the business, instability or lack of continuity which could be exploited by Support.com's competitors . o Were the VIEX Group to take control of Support.com, such an abrupt change in control now could have significant adverse effects on Support.com, including that, among other things, it could: o Cause the perception of a change in the direction of the business, instability or lack of continuity which could be exploited by Support.com's competitors, o Cause concern to our current and potential customers, o Result in the loss of potential business opportunities, and o Make it more difficult for us to attract and retain qualified personnel and business partners. If the VIEX Group Were to Abruptly Take Control of Our Board at Such a Pivotal and Critical Time in Our Trajectory, Our Business and Prospects Could Be Harmed 50

© 2016 SUPPORT.COM Inc . All Rights Reserved. o The current members of our recently refreshed Board, including the three independent directors who joined our board within the past 90 days, collectively, have substantial experience and expertise relevant to the advancement of our strategic plan, including experience in developing and marketing cloud - based services for the enterprise, and, most importantly, are extremely capable of assessing when and how to refine and adapt our strategic plan as needed in response to the market's changing dynamics. o In stark contrast to the members of our recently refreshed Board, we strongly believe the five nominees proposed by the VIEX Group lack the necessary and relevant experience and expertise, including absolutely no knowledge or experience developing and marketing cloud - based services, to advance the execution of our strategic plan for growth and the creation of long - term stockholder value and, most importantly, lack the experience to determine when and how to refine and adapt our strategic plan as needed in response to the support market's changing dynamics. o Given the transition under way at Support.com, we are concerned that the lack of relevant knowledge and expertise of the VIEX Group and its proposed nominees make them ill - suited to abruptly take control of the Support.com Board and oversee Support.com's strategic direction at such a pivotal and critical time in Support.com's trajectory. o We are also concerned that the nominees proposed by the VIEX Group, particularly the three nominees who are affiliates of the VIEX Group, may not be aligned with the best interests of all stockholders given that the VIEX Group's members are relatively new investors in Support.com and appear to have an agenda focused on the short - term as opposed to the development of a strategic plan that grows long - term stockholder value. We Believe the VIEX Group's Nominees Lack the Relevant Experience Necessary To Develop, Advance and Refine Our Strategic Growth Plan 51

© 2016 SUPPORT.COM Inc . All Rights Reserved. o Support.com strives to maintain constructive, ongoing communications with all of its stockholders and welcomes and values the ir input. o Since last October, when the VIEX Group first publicly disclosed its ownership of more than 10% of our common stock, members of your Board and management team have been engaged in an ongoing dialogue with the VIEX Group to discuss their views on your Board's composition, governance, business strategy and performance. o On numerous occasions, we also engaged in numerous discussions with the VIEX Group to discuss potential paths for avoiding a pro xy contest. o During the course of our numerous discussions with the VIEX Group and its representatives, we never received from the VIEX Group any alternative strategic plan or any substantive and viable ideas for creating long - term stockholder value or even any viable and p ractical ideas for enhancing stockholder value in the short - term . o Last December, we indicated to the VIEX Group that we were willing to agree to appoint to the Board two mutually agreeable ca ndi dates, each of whom would have no prior relationship with Support.com, any current member of the Board or Support.com's management o r a ny member of the VIEX Group and would qualify as an independent director for purposes of Nasdaq's listing standards. Unfortunately, the VIEX Group refused to engage with us on our settlement proposal and insisted that the only settlement framework that they wou ld consider would be one where members of the VIEX Group or one of its long - time associates would be added to your Board . o Rather than constructively work with us to achieve a mutually acceptable resolution that serves the best interests of ALL Sup por t.com stockholders, the VIEX Group has chosen to subject Support.com to a costly, distracting and unnecessary proxy contest to further its goal of obtaining control of your Board to further its self - interested and short - sighted agenda . These resources could be better devoted to continuing to implement our strategic growth plan to drive more predictable revenue, profitable growth and enhance value f or ALL Support.com stockholders. We Have Attempted on Numerous Occasions to Constructively and in Good Faith Engage With the VIEX Group to Avoid a Proxy Contest 52

© 2016 SUPPORT.COM Inc . All Rights Reserved. Support.com Stockholders Should Vote the WHITE Proxy Card FOR ALL Six of the Highly - Qualified and Experienced Nominees Recommended by the Support.com Board o Support.com's transition strategy has been precisely defined and its execution is well underway. Our strategy is generating momentum and presents a clear path for capitalizing on the support market's changing dynamics, growing our revenue and enhancing long - term value for stockholders. o The recently refreshed Support.com Board of Directors is taking decisive action to transition Support.com and position it for long - term revenue growth and sustained profitability, which we believe will ultimately enhance the value for ALL stockholders. o The current members of our recently refreshed Board, including the three independent directors who joined our board within the past 90 days, collectively, have substantial industry experience and expertise relevant to the advancement of our strategic plan, including experience in developing and marketing cloud - based services, and, most importantly, are extremely capable of assessing when and how to refine and adapt our strategic plan as needed in response to the market's changing dynamics. o In stark contrast to the members of our recently refreshed Board, we strongly believe the five nominees proposed by the VIEX Group lack the necessary and relevant experience and expertise to advance the execution of our strategic plan for growth and the creation of long - term stockholder value and, most importantly, lack the experience to determine when and how to refine and adapt our strategic plan as needed in response to the support market's changing dynamics. o While the VIEX Group is seeking control of Support.com without offering our stockholders any control premium, the VIEX Group has not presented any alternative strategic plan or substantive and viable ideas for creating long - term stockholder value nor has it presented any viable plan for executing on its own short - sighted theories for unlocking stockholder value in the short - term. o Given the transition under way at Support.com, we are concerned that the lack of relevant knowledge and expertise of the VIEX Group and its proposed nominees make them ill - suited to abruptly take control of the Support.com Board and oversee Support.com's strategic direction at such a pivotal and critical time in Support.com's trajectory. o We also believe that surrendering control of Support.com now to the VIEX Group could lead to the perception of a change in the direction of the business, instability or lack of continuity which may be exploited by our competitors, cause concern to our current and potential customers, result in the loss of potential business opportunities and make it more difficult for us to attract and retain qualified personnel and business partners. 54
