NOTES TO QUARTERLY PORTFOLIO OF INVESTMENTS (UNAUDITED)

ENERGY INCOME AND GROWTH FUND
AUGUST 31, 2005

1. VALUATION AND INVESTMENT PRACTICES

A. PORTFOLIO VALUATION:

Energy Income and Growth Fund (the "Fund") determines the net asset value of its Common Shares as of the close of regular session trading on the New York Stock Exchange ("NYSE"), normally 4:00 p.m. Eastern time, no less frequently than weekly on Friday of each week. Net asset value is computed by dividing the value of all assets of the Fund (including option premiums, accrued interest and dividends), less all Fund liabilities (including accrued expenses, dividends payable, current and deferred income taxes, any borrowings of the Fund and the market value of written call options) by the total number of shares outstanding. The Fund will rely to some extent on information provided by the master limited

Edgar Filing: ENERGY INCOME & GROWTH FUND - Form N-Q

partnerships ("MLPs"), which is not necessarily timely, to estimate taxable income allocable to the MLP units held in the Fund's portfolio and to estimate the associated deferred tax liability. From time to time the Fund will modify its estimates and/or assumptions regarding its deferred tax liability as new information becomes available. To the extent the Fund modifies its estimates and/or assumptions, the net asset value of the Fund would likely fluctuate.

The Fund's investments are valued at market value, or in the absence of market value with respect to any portfolio securities, at fair value according to procedures adopted by the Fund's Board of Trustees. Portfolio securities listed on any exchange other than the NASDAQ National Market ("NASDAQ") are valued at the last sale price on the business day as of which such value is being determined. If there has been no sale on such day, the securities are valued at the mean of the most recent bid and asked prices on such day. Securities traded on the NASDAQ are valued at the NASDAQ Official Closing Price as determined by NASDAQ. Portfolio securities traded on more than one securities exchange are valued at the last sale price on the business day as of which such value is being determined at the close of the exchange representing the principal market for such securities. Portfolio securities traded in the over-the-counter market, but excluding securities traded on the NASDAQ, are valued at the closing bid prices. Fixed income securities with a remaining maturity of 60 days or more will be valued by the Fund using a pricing service. When price quotes are not available, fair market value is based on prices of comparable securities. Short-term investments that mature within 60 days are valued at amortized cost.

Exchange traded options and futures contracts are valued at the closing price in the market where such contracts are principally traded.

B. OPTION CONTRACTS:

The Fund may enter into various hedging and strategic transactions to seek to reduce interest rate risks arising from any use of financial leverage by the Fund, to facilitate portfolio management and mitigate risks.

Call options are contracts representing the right to purchase a common stock at a specified price (the "strike price") through a specified future date (the "expiration date"). The price of the option is determined from trading activity in the broad options market, and generally reflects the relationship between the current market price for the underlying common stock and the strike price, as well as the time remaining until the expiration date. The Fund will write call options only if they are "covered." In the case of a call option on a common stock or other security, the option is "covered" if the Fund owns the security underlying the call or has an absolute and immediate right to acquire that security without additional cash consideration (or, if additional cash consideration is required, cash or other assets determined to be liquid by Fiduciary Asset Management, LLC (the "Sub-Adviser") (in accordance with procedures adopted by the Board of Trustees) in such amount are segregated by the Fund's custodian) upon conversion or exchange of other securities held by the Fund.

If an option written by the Fund expires unexercised, the Fund realizes on the expiration date a capital gain equal to the premium received by the Fund at the time the option was written. If an option purchased by the Fund expires unexercised, the Fund realizes a capital loss equal to the premium paid at the time the option expires. Prior to the earlier of exercise or expiration, an exchange-traded option may be closed out by an offsetting purchase or sale of an option of the same series (type, underlying security, exercise price, and expiration). There can be no assurance, however, that a closing purchase or sale transaction can be effected when the Fund desires. The Fund may sell put or call options it has previously purchased, which could result in a net gain or loss depending on whether the amount realized on the sale is more or less than the

Edgar Filing: ENERGY INCOME & GROWTH FUND - Form N-Q

premium and other transaction costs paid on the put or call option purchased.

C. SECURITIES TRANSACTIONS:

Securities transactions are recorded as of the trade date. Realized gains and losses from securities transactions are recorded on the identified cost basis.

Securities purchased or sold on a when-issued or delayed-delivery basis may be settled a month or more after the trade date; interest income is not accrued until settlement date. The Fund instructs the custodian to segregate assets of the Fund with a current value at least equal to the amount of its when-issued purchase commitments.

D. RESTRICTED SECURITIES:

The Fund may invest up to 35% of its Managed Assets, the average daily gross asset value of the Fund minus accrued liabilities (excluding the principal of any borrowings), in restricted securities. Restricted securities are securities that cannot be offered for public sale without first being registered under the Securities Act of 1933, as amended. The Fund currently holds the restricted securities shown in the following table consisting of limited partnership units of Clearwater Natural Resources, L.P. ("Clearwater"), limited liability company units of Copano Energy, LLC ("Copano"), limited liability company units of Copano Energy, LLC, Class B ("Copano CL B"), limited partnership units of Energy Transfer Partners, L.P. ("Energy Transfer"), and limited partnership units of MarkWest Energy Partners, L.P. ("MarkWest"), which were purchased in private placement transactions. Restricted securities are valued at fair value in accordance with procedures adopted by the Fund's Board of Trustees.

CLEARWATER. Pursuant to a registration rights agreement, the Fund has certain automatic registration rights subsequent to an initial public offering with respect to these restricted securities.

COPANO. The Fund has certain automatic and piggyback registration rights with respect to Copano restricted securities.

COPANO CL B. The Fund has certain automatic and piggyback registration rights with respect to the Copano CL B restricted securities.

ENERGY TRANSFER. The Fund has certain automatic registration rights with respect to the Energy Transfer restricted securities. On March 29, 2005, the SEC declared a registration statement on Form S-3 effective with respect to the Energy Transfer restricted shares held by the Fund. The Fund is in the process of having the restrictive legend removed from such securities.

MARKWEST. The Fund has certain demand and piggyback registration rights with respect to the MarkWest restricted securities. On January 21, 2005, the SEC declared a registration statement on Form S-3 effective with respect to the MarkWest restricted securities held by the Fund. The Fund is in the process of having the restrictive legend removed from such securities.
