PRESS RELEASE

*Not for release, publication or distribution, directly or indirectly, in Australia, Canada, Japan or the United States*

TELECOM ITALIA: SALE OF STAKE IN INFRASTRUTTURA WIRELESS ITALIANE S.p.A. SUCCESSFULLY CONCLUDED

Offer price set at 3.65 euros per share

*Rome, 18 June 2015*

Telecom Italia announces the sale of a stake in its subsidiary Infrastrutture Wireless Italiane S.p.A, after the conclusion of the initial public offering aimed at listing the ordinary shares of the company on Borsa Italiana's MTA, on 17 June 2015.

The sale price of the shares was identified at 3.65 euros per share, which means the total value of the IPO, based on the Offer Price, will be approximately 875.3 million euros, including any greenshoe options exercised and before commission and expenses.

The greenshoe option may be exercised within 30 days of the start of trading, scheduled for 22 June next, by the Consorzio per il Collocamento Istituzionale (the post-offer syndicate of underwriters).

Net of these, the total value of the IPO, calculated as before on the offer price, will be approximately 795.7 million euros, again before commission and expenses.

The total amount raised through the IPO, all to be assigned to the Selling Shareholder, Telecom Italia, based on the Offer Price and net of the maximum commissions payable to the Consorzio per l'Offerta Pubblica and the Consorzio per il Collocamento Istituzionale (the pre- and post-offer syndicates of underwriters, respectively) will be approximately 779.8 million euros. This revenue will increase to a total of approximately 857.8 million euros if the greenshoe option is exercised within the period of time indicated above.

Cautionary Statement for Purposes of the "Safe Harbor" Provisions of the United States Private Securities Litigation Reform Act of 1995.

The Private Securities Litigation Reform Act of 1995 provides a "safe harbor" for forward-looking statements. The Group's interim report as of and for the three months ended March 31, 2015 included in this Form 6-K contains certain forward-looking statements. Forward-looking statements are statements that are not historical facts and can be identified by the use of forward-looking terminology such as "believes," "may," "is expected to," "will," "will continue," "should," "seeks" or "anticipates" or similar expressions or the negative thereof or other comparable terminology, or by the forward- looking nature of discussions of strategy, plans or intentions.

Actual results may differ materially from those projected or implied in the forward-looking statements. Such forward-looking information is based on certain key assumptions which we believe to be reasonable but forward-looking information by its nature involves risks and uncertainties, which are outside our control, that could significantly affect expected results.

The following important factors could cause our actual results to differ materially from those projected or implied in any forward-looking statements:

1. our ability to successfully implement our strategy over the 2015-2017 period;
2. the continuing effects of the global economic crisis in the principal markets in which we operate, including, in particular, our core Italian market;
3. the impact of regulatory decisions and changes in the regulatory environment in Italy and other countries in which we operate;
4. the impact of political developments in Italy and other countries in which we operate;
5. our ability to successfully meet competition on both price and innovation capabilities of new products and services;
6. our ability to develop and introduce new technologies which are attractive in our principal markets, to manage innovation, to supply value added services and to increase the use of our fixed and mobile networks;
7. our ability to successfully implement our internet and broadband strategy;

8. our ability to successfully achieve our debt reduction and other targets;
9. the impact of fluctuations in currency exchange and interest rates and the performance of the equity markets in general;
10. the outcome of litigation, disputes and investigations in which we are involved or may become involved;
11. our ability to build up our business in adjacent markets and in international markets (particularly in Brazil), due to our specialist and technical resources;
12. our ability to achieve the expected return on the investments and capital expenditures we have made and continue to make in Brazil;
13. the amount and timing of any future impairment charges for our authorizations, goodwill or other assets;
14. our ability to manage and reduce costs;
15. any difficulties which we may encounter in our supply and procurement processes, including as a result of the insolvency or financial weaknesses of our suppliers; and
16. the costs we may incur due to unexpected events, in particular where our insurance is not sufficient to cover such costs.

The foregoing factors should not be construed as exhaustive. Due to such uncertainties and risks, readers are cautioned not to place undue reliance on such forward-looking statements, which speak only as of the date hereof. We undertake no obligation to release publicly the result of any revisions to these forward-looking statements which may be made to reflect events or circumstances after the date hereof, including, without limitation, changes in our business or acquisition strategy or planned capital expenditures, or to reflect the occurrence of unanticipated events.
