Item 1.01 Entry into a Material Definitive Agreement

On April 21, 2009, Century Aluminum Company and its wholly owned subsidiary, Century Aluminum of West Virginia, Inc., (collectively "Century") agreed with Glencore AG ("Glencore"), a subsidiary of Glencore International AG to amend two alumina purchase agreements among the parties, dated April 14, 2008 and April 26, 2006, respectively (collectively, the "Amendments").

The Amendments are effective March 26, 2009 and reduce the amount of alumina Glencore will be supplying to Century from 330,000 metric tons to 110,368 metric tons in 2009, and from 290,000 metric tons to 229,632 metric tons in 2010, for an overall alumina supply reduction of 280,000 metric tons. With the Amendments, given the alumina received to date by Century, Century reduces its total remaining alumina obligation under the respective agreements for 2009 to 13,500 metric tons. The alumina supply agreements, in all other respects, remain unchanged.

In conjunction with these alumina supply reductions, St. Ann Bauxite Limited ("SABL"), a joint venture owned 50% by Century Aluminum Company, agreed to reduce the amount of bauxite it will supply Glencore in 2009 by 775,000 dry metric tons (DMT), with 125,000 DMT of the reduction being deferred to 2010. As part of this transaction, Century Aluminum Company agreed to pay SABL \$6,000,000 in compensation for the reduced bauxite sales.

Glencore is Century's largest stockholder and owns approximately 38.12% of its outstanding common stock. Glencore is an important business partner, as a customer, and as a supplier of alumina to Century's facilities. Mr. Willy R. Strothotte, a director of Century, is Chairman of the board of directors of Glencore International AG and served as its Chief Executive Officer from 1993 through 2001.
