Item 1.01. Entry into a Material Definitive Agreement

On February 24, 2011, Charles River Laboratories International, Inc. (“Charles River” or the “Company”) entered into an agreement (the “ASR Agreement”) with Morgan Stanley & Co. Incorporated (“Morgan Stanley”) to effect an accelerated repurchase of Charles River’s common stock as part of Charles River’s \$750 million share repurchase program, which was initially authorized by Charles River’s board of directors on July 29, 2010 for \$500 million and later increased by \$250 million on October 20, 2010.

Under the ASR Agreement, Charles River will pay a purchase price of \$150 million to Morgan Stanley on February 28, 2011 from cash on hand and available liquidity, including funds borrowed by Charles River under its newly amended \$900 million credit facility. Charles River will receive an initial delivery on February 28, 2011 of approximately 3.76 million shares of its common stock from Morgan Stanley, which represents approximately 90% of the total number of shares that Charles River would receive under the ASR Agreement if the price per share of Charles River’s common stock remained at the closing price per share of Charles River’s common stock on February 23, 2011 throughout the calculation period.

The actual number of shares that Charles River will repurchase under the ASR Agreement will be determined based on a discount to the daily volume-weighted average prices of Charles River’s common stock over the course of the calculation period. The calculation period is scheduled to extend for approximately three months, but it may conclude earlier at Morgan Stanley’s option. If the actual number of shares repurchased exceeds the number of shares initially delivered, Charles River will receive from Morgan Stanley a number of additional shares equal to such excess following conclusion of the calculation period. If the actual number of shares repurchased is less than the number of shares initially delivered, Charles River will be required, at its election, to either (1) deliver to Morgan Stanley a number of shares approximately equal to the difference or (2) make a cash payment to Morgan Stanley equal to the value of such shares, in either case following conclusion of the calculation period. While the ASR Agreement is in effect, Charles River will generally not be permitted to repurchase its common stock in the open market.

The ASR Agreement contains certain terms customary for agreements of this type, including provisions for adjustments upon the occurrence of certain events and setting forth certain circumstances under which the ASR Agreement may be extended, terminated or unwound early.

Item 2.03. Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant.

On February 24, 2011, Charles River and certain of its subsidiaries entered into an Incremental Assumption Agreement and Amendment (the “Amendment”) relating to and amending its existing credit agreement (the “Third Amended and Restated Credit Agreement”) dated as of August 26, 2010 with certain financial institutions and JPMorgan Chase Bank, N.A. as administrative agent (as amended, the “Amended Credit Agreement”). Pursuant to the Amendment, Charles River incurred an additional \$150 million aggregate principal amount of new term loans (the “2011 Incremental Term Loan Facility”) to finance in part the purchase price under the ASR Agreement, to pay related fees and expenses and for general corporate purposes. The Amendment also (i) reset the amount of incremental facilities potentially available to Charles River to the amount potentially available prior to the funding of the 2011 Incremental Term Loan Facility, so that an aggregate principal amount of \$250 million of incremental facilities remain potentially available to Charles River, (ii) modified the leverage ratio test that Charles River is required to comply with under the Amended Credit Agreement and (iii) made certain other amendments.

The \$150 million 2011 Incremental Term Loan Facility matures in 18 quarterly installments with the last installment due August 26, 2015. The interest rates applicable to term loans made under the 2011 Incremental Term Loan Facility are the same as those applicable to the existing term loans and revolving loans under the Amended Credit Agreement,

which are, at the Company's option, equal to either the base rate (which is the higher of (1) the prime rate, (2) the federal funds rate plus 0.50% or (3) the one-month adjusted LIBOR rate) or the adjusted LIBOR rate plus an interest rate margin based upon the Company's leverage ratio.

The obligations of Charles River under the Amended Credit Agreement, including those under the 2011 Incremental Term Loan Facility, remain guaranteed by Charles River's material domestic subsidiaries and secured by substantially all of the assets of Charles River and the guarantors, including a pledge of 100% of the capital stock of the domestic subsidiaries (other than the capital stock of any domestic subsidiary that is treated as a disregarded entity for U.S. federal income tax purposes ("Disregarded Entities")) and 65% of the capital stock of certain first-tier foreign subsidiaries and Disregarded Entities, and mortgages on owned real property in the U.S. having a book value in excess of \$10 million.

The Amended Credit Agreement now provides for up to \$900 million in financing, including the prior \$400 million U.S. term loan facility, the \$150 million 2011 Incremental Term Loan Facility and a \$350 million U.S. revolving facility. A portion of the prior term loan facility is available in euros to a Netherlands-based subsidiary of the Company.

---

The Amendment is attached hereto as Exhibit 10.1 and incorporated into this Item 2.03 by reference.

In addition, the disclosure provided in Item 1.01 "Entry into a Material Definitive Agreement" is incorporated by reference into this Item 2.03 as if fully set forth herein.
