Senior Portfolio Manager
Fixed Income

Q: How did the Fund perform relative to its benchmark for the 12-month period ended November 30, 2003?

A: Delaware Investments Dividend and Income Fund, Inc. gained +27.13% (at net asset value with distributions reinvested) for the fiscal year. In comparison, its benchmark, the Standard & Poor's (S&P) 500 Index, gained +15.08% for the same time period. The Fund's peer group, as measured by the Lipper Closed-End Income and Preferred Stock Funds Average, rose +23.93% for the fiscal year.

Q: How would you describe your equity outlook at the beginning of the fiscal year?

A: Our outlook for common stocks (excluding real estate investment trusts, or REITs), which represents 58% of net assets at the onset of the fiscal year, was generally optimistic. We believed the economic recovery would likely gather steam in 2003, to the benefit of corporate profitability. We also experienced an environment marked by attractive stock valuations, which favors our value-oriented style of investing.

Q: How would you describe your equity investment strategy during the fiscal year?

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

A: We favored market sectors such as financials. We viewed J.P. Morgan Chase as a sound holding, given its strong balance sheet and a dividend yield that we believe was both robust and durable. We also leaned our security weightings toward economically-sensitive companies, such as Weyerhaeuser. The producer of wood-related products also generated an attractive income stream and was well positioned, in our opinion, to benefit from the economy's improvement.

Q: Did any common stocks within the Fund underperform relative to your expectations?

A: Some of our healthcare positions turned in performances that we believe did not reflect the quality of their underlying companies. We credit this circumstance, in part, to investor uncertainty regarding proposed changes in Medicare legislation, as well as concerns regarding patent expirations.

Q: How might the passage of new tax legislation in May 2003 impact the Fund's stock holdings?

A: Beyond the relatively immediate effect of lowering the tax rate assessed against dividends for most taxpayers, we believe the legislation dovetails nicely into the trend among corporate leaders for greater managerial and fiscal discipline, as well as their attempt to re-orient how investors are rewarded. The 1990s saw companies use earnings to buy back their stock, in an attempt to increase price through reduced supply. Of late, we have witnessed more companies turning to dividends -- either by starting a dividend or increasing an existing dividend -- as a primary means of returning profits to investors.

Q: What caused high-yield bonds to perform as they did for the 12-month period?

A: A primary cause for the high-yield bond market rebound was the Federal Reserve's push to add liquidity to the economy. By lowering short-term interest rates, the Fed attempted to provide incentive for greater bank lending, which in turn puts more money to work in the economy and tends to foster economic expansion. When the prospects for a stronger economy became apparent, investors directed their assets toward securities that particularly benefit from such an environment, including high-yield corporate bonds -- and high-yield bond mutual funds. High-yield bonds also benefited from generally improving operational conditions throughout the business community. Companies issuing high-yield bonds tended to extend their debt and experienced declining default rates, from as high as double-digit levels to roughly the five-to-six percent range of late.

Q: How did you manage the Fund's high-yield bond allocation during the fiscal year?

A: We saw no reason to alter the manner in which we strategically managed the portfolio during the 12-month period. We continued to focus on the lower-rated securities within this asset class, given the availability of attractive yields, as well as the general prospect for rising bond prices. Compared to our high-yield benchmark, the Citigroup High Yield Cash Pay Index, we tended to hold a greater weighting in utility bonds, due in part to the presence of "fallen angels" -- high-grade bonds that were downgraded to high-yield status. Given Delaware's strong commitment to fundamental research capabilities, we believe we could identify attractive candidates for acquisition among such bonds.

1

Q: Please describe some high-yield securities that impacted Fund performance during the 12-month period.

A: High-yield issues that provided sound positive performance for the Fund included Charter Communications. While our overall return was strong, we held some underperforming securities, too. One was DiGiorgio Foods, which declined in value after losing one of its larger customers.

Q: How did real estate investment trusts (REITs) impact Fund performance during the fiscal year?

A: As an asset class, REITs turned in a strong performance. Specifically, the

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

Fund benefitted from its exposure to the retail sector, which included General Growth Properties. We also gained a measure of performance versus our REIT benchmark by being less heavily weighted in the multi-family sector, where apartment vacancies rose during the 12-month period. Conversely, the Fund lost performance with its overweighting in the travel sector, a position we developed in anticipation of speedy economic recovery but which suffered from industry volatility. Performance was also impeded somewhat from an overweighting in the office sector. Like the multi-family sector, this area of the REIT market suffered from falling occupancy rates.

Q: What role did convertible securities play for the 12-month period?

A: As a percentage of net assets, convertible securities represent a smaller portion of your Fund. However, we believe they play a beneficial role in adding diversification to the portfolio, as well as generating income and offering capital appreciation potential. Our approach to managing the portfolio's convertible securities did not change over the 12-month period. Our research focused on identifying companies selling at attractive valuations that feature strong cash flows and balance sheets. Convertible securities' performance within the Fund was in line with the broad equity market, yet with less volatility and a greater income stream.

Chart assumes \$10,000 invested on November 30, 1993, and reflects the reinvestment of all distributions at market value. Performance of the Fund and the Lipper peer group at market value are based on market performance during the period. Performance of the Fund and the Lipper peer group at net asset value are based on the fluctuations in net asset value during the period. The chart also assumes \$10,000 invested in the Lipper Closed-End Income and Preferred Stock Funds Average at Market Price and at Net Asset Value. Returns plotted were as of the last day of each month shown. Delaware Investments Dividend and Income Fund, Inc. was initially offered with a sales charge of 6.0%. Performance since inception does not include fees, the initial sales charge or any brokerage commissions for purchases made since inception. Investments in the Fund are not available at net asset value. The Lipper Closed-End Income and Preferred Stock Funds Average represents the average return of closed-end income and preferred stock mutual funds tracked by Lipper (Source: Lipper Inc.). You cannot invest directly in an index. Past performance is not a guarantee of future results.

Asset coverage per \$1,000 of debt outstanding at end of period	\$3,743	\$3,379	\$3,73

(1) Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the closing of the last day of each period reported. Dividends and distributions, if any, are assumed for the purpose of this calculation, to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Generally, total investment return based on net asset value will be higher than total investment return based on market value in periods where there is an increase in the discount or decrease in the premium of the market value to the net asset value from the beginning to the end of such periods. Conversely, total investment return based on net asset value will be lower than total investment return based on market value in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of such periods.

(2) Adjusted average net assets excludes debt outstanding.

(3) As required, effective December 1, 2001, the Fund adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies that requires amortization of all premium and discounts on debt securities. The effect of this change for the year ended November 30, 2002 was a decrease in net investment income per shares of \$0.025, an increase in net realized and unrealized gain (loss) per share of \$0.025, a decrease in the ratio of net investment income to average net assets of 0.22%, and a decrease in the ratio of net investment income to adjusted net assets of 0.16%. Per share data and ratios for periods prior to December 1, 2001 have not been restated to reflect this change in accounting.

(4) The average shares outstanding method has been applied for per share information.

See accompanying notes

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

TO FINANCIAL STATEMENTS November 30, 2003

Delaware Investments Dividend and Income Fund, Inc. (the "Fund") is organized as a Maryland corporation and is a diversified closed-end management investment company under the Investment Company Act of 1940, as amended. The Fund's shares trade on the New York Stock Exchange under the symbol DDF.

The investment objective of the Fund is to seek high current income. Capital appreciation is a secondary objective.

1. Significant Accounting Policies

The following accounting policies are in accordance with accounting principles generally accepted in the United States and are consistently followed by the Fund.

Security Valuation -- All equity securities are valued at the last quoted sales price as of the time of the regular close of the New York Stock Exchange (NYSE) on the valuation date. Securities traded on the Nasdaq Stock Market, Inc. (NASDAQ) are valued in accordance with the NASDAQ Official Closing Price, which may not be the last sales price. If on a particular day an equity security does not trade, then the mean between the bid and the asked prices will be used. U.S. government and agency securities are valued at the mean between the bid and asked prices. Long-term debt securities are valued by an independent pricing service and such prices are believed to reflect the fair value of such securities. Short-term debt securities having less than 60 days to maturity are valued at amortized cost, which approximates market value. Other securities and assets for which market quotations are not readily available are valued at fair value as determined in good faith by or under the direction of the Fund's Board of Directors. In determining whether market quotations are readily available or fair valuation will be used, various factors will be taken into consideration, such as market closures, or with respect to foreign securities, aftermarket trading or significant events after local market trading (e.g., government actions or pronouncements, trading volume or volatility on markets, exchanges among dealers, or news events).

Federal Income Taxes -- The Fund intends to continue to qualify for federal income tax purposes as a regulated investment company and make the requisite distributions to shareholders. Accordingly, no provision for federal income taxes has been made in the financial statements.

Distributions -- The Fund has a managed distribution policy. Under the policy, the Fund declares and pays monthly distributions and is managed with a goal of generating as much of the distribution as possible from ordinary income (net investment income and short-term capital gains). The balance of the distribution then comes from long-term capital gains, and, if necessary, a return of capital. Effective September 1, 2003, the current annualized rate is \$0.96 per share. The Fund continues to evaluate its monthly distribution in light of ongoing economic and market conditions and may change the amount of the monthly distributions in the future.

Borrowings -- The Fund issues short-term commercial paper at a discount from par. The discount is amortized as interest expense over the life of the commercial paper using the straight-line method (See Note 6).

Use of Estimates -- The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Other -- Expenses common to all funds within the Delaware Investments Family of

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

Funds are allocated amongst the funds on the basis of average net assets. Security transactions are recorded on the date the securities are purchased or sold (trade date). Costs used in calculating realized gains and losses on the sale of investment securities are those of the specific securities sold. Dividend income is recorded on the ex-dividend date and interest income is recorded on the accrual basis. Discounts and premiums are amortized to interest income over the lives of the respective securities. Distributions received from investments in Real Estate Investment Trusts are recorded as dividend income on ex-dividend date, subject to reclassification upon notice of the character of such distribution by the issuer.

Certain expenses of the Fund are paid through commission arrangements with brokers. The amount of these expenses was approximately \$3,276 for the year ended November 30, 2003. In addition, the Fund may receive earnings credits from its custodian when positive cash balances are maintained, which are used to offset custody fees. There were no earnings credits for the year ended November 30, 2003. The expenses paid under the above arrangements are included in their respective expense captions on the Statement of Operations with the corresponding expense offset shown as "expenses paid indirectly."

2. Investment Management, Administration Agreements and Other Transactions with Affiliates

In accordance with the terms of its investment management agreement, the Fund pays Delaware Management Company (DMC), a series of Delaware Management Business Trust and the investment manager, an annual fee of 0.55%, which is calculated daily based on the adjusted average weekly net assets.

The Fund has engaged Delaware Service Company, Inc. (DSC), an affiliate of DMC, to provide accounting and administration services. The Fund pays DSC a monthly fee computed at the annual rate of 0.05% of the Fund's adjusted average weekly net assets, subject to an annual minimum of \$85,000.

For purposes of the calculation of investment management fees and administration fees, adjusted average weekly net assets does not include the commercial paper liability.

At November 30, 2003, the Fund had liabilities payable to affiliates as follows:

Investment management fee payable to DMC	\$18,567
Accounting, administration and other expenses payable to DSC	11,401
Other expense payable to DMC and affiliates*	28,127

*DMC, as part of its administrative services, pays Fund operating expenses on behalf of the Fund and is reimbursed on a periodic basis. Such expenses include items such as printing of shareholder reports, professional fees, stock exchange fees, custodian fees and directors fees.

Certain officers of DMC and DSC are officers and/or directors of the Fund. These officers and directors are paid no compensation by the Fund.

3. Investments

For the year ended November 30, 2003, the Fund made purchases of \$312,330,161 and sales of \$316,857,252 of investment securities other than U.S. government securities and short-term investments.

At November 30, 2003, the cost of investments for federal income tax purposes was \$186,754,577. At November 30, 2003, the net unrealized appreciation was \$19,252,245, of which \$29,180,798 related to unrealized appreciation of

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

investments and \$9,928,553 related to unrealized depreciation of investments.

4. Dividend and Distribution Information

Income and long-term capital gain distributions are determined in accordance with federal income tax regulations, which may differ from accounting principles generally accepted in the United States. The tax

13

Notes Delaware Investments Dividend and Income Fund, Inc.
TO FINANCIAL STATEMENTS (CONTINUED)

4. Dividend and Distribution Information (continued)

character of dividends and distributions paid during the years ended November 30, 2003 and 2002 were as follows:

	2003	2002
Ordinary income	\$ 9,189,360	\$ 8,496,926
Return of capital	5,490,473	10,496,508
	-----	-----
Total	\$14,679,833	\$18,993,434
	=====	=====

As of November 30, 2003, the components of net assets on a tax basis were as follows:

Shares of beneficial interest	\$155,449,542
Capital loss carryforwards	(24,106,870)
Unrealized appreciation of investments	19,252,245

Net assets	\$150,594,917
	=====

For federal income tax purposes, capital loss carryforwards may be carried forward and applied against future capital gains. Such capital loss carryforwards expire as follows: \$6,557,294 expires in 2009, \$15,759,675 expires in 2010 and \$1,789,901 expires in 2011.

5. Capital Stock

The Fund did not have any transactions in common shares during the year ended November 30, 2003.

Shares issuable under the Fund's dividend reinvestment plan are purchased by the Fund's transfer agent, Mellon Investor Services, LLC, in the open market.

6. Commercial Paper

As of November 30, 2003, \$55,000,000 (par value) of commercial paper was outstanding with an amortized cost of \$54,898,141. The weighted average discount rate of commercial paper outstanding at November 30, 2003 was 1.17%. The average daily balance of commercial paper outstanding during the year ended November 30, 2003 was \$54,882,329 at a weighted average discount rate of 1.29%. The maximum amount of commercial paper outstanding at any time during the period was \$55,000,000. In conjunction with the issuance of the commercial paper, the Fund entered into a line of credit arrangement with J.P. Morgan Chase for \$30,000,000 with a scheduled termination date of January 6, 2005. Interest on borrowings is based on market rates in effect at the time of borrowing. The commitment fee is computed at the rate of 0.15% per annum on the unused balance. For the year ended November 30, 2003, the Fund was charged a commitment fee of \$45,000, which is included in "commercial paper fees" on the Statement of Operations. During the year ended November 30, 2003, there were no borrowings under this arrangement.

7. Securities Lending

The Fund, along with other funds in the Delaware Investments Family of Funds, may lend its securities pursuant to a security lending agreement (Lending Agreement) with J.P. Morgan Chase. Initial security loans made pursuant to the Lending Agreement are required to be secured by U.S. Treasury obligations and/or cash collateral not less than 102% of the market value of the securities issued in the United States. With respect to each loan, if the aggregate market value of the collateral held on any business day is less than the aggregate market value of the securities which are the subject of such loan, the borrower will be notified to provide additional collateral not less than the applicable collateral requirements.

Cash collateral received is invested in fixed-income securities, with a weighted average maturity not to exceed 90 days, rated in one of the top two tiers by Standard & Poor's Ratings Group or Moody's Investors Service, Inc. or repurchase agreements collateralized by such securities. However, in the event of default or bankruptcy by the lending agent, realization and/or retention of the collateral may be subject to legal proceedings. In the event the borrower fails to return loaned securities and the collateral received is insufficient to cover the value of the loaned securities and provided such collateral shortfall is not the result of investment losses, the lending agent has agreed to pay the amount of the shortfall to the Fund, or at the discretion of the lending agent, replace the loaned securities. The Fund continues to record dividends on the securities loaned and is subject to change in fair value of the securities loaned that may occur during the term of the loan. The Fund has the right under the Lending Agreement to recover the securities from the borrower on demand. The security lending agent and the borrower retain a portion of the earnings from the collateral investments. The Fund records security lending income net of such allocation.

At November 30, 2003, the market value of securities on loan was \$19,339,198, for which cash collateral was received and invested in accordance with the Lending Agreement. Such investments are presented on the Statement of Net Assets under the caption "Securities Lending Collateral."

8. Credit and Market Risks

The Fund invests in high-yield fixed income securities, which carry ratings of BB or lower by Standard & Poor's Rating Group and/or Ba or lower by Moody's Investor's Services, Inc. Investments in these higher yielding securities are generally accompanied by a greater degree of credit risk than higher rated securities. Additionally, lower rated securities may be more susceptible to adverse economic and competitive industry conditions than investment grade securities.

The Fund may invest up to 10% of its total assets in illiquid securities, which may include securities with contractual restrictions on resale, securities exempt from registration under Rule 144A of the Securities Act of 1933, as amended, and other securities which may not be readily marketable. The relative illiquidity of these securities may impair the Fund from disposing of them in a timely manner and at a fair price when it is necessary or desirable to do so.

The Fund invests in real estate investment trusts (REITs) and is subject to some of the risks associated with that industry. If the Fund holds real estate directly as a result of defaults or receives rental income directly from real estate holdings, its tax status as a regulated investment company may be jeopardized. There were no direct holdings during the year ended November 30, 2003. The Fund's REIT holdings are also affected by interest rate changes, particularly if the REITs it holds use floating rate debt to finance their ongoing operations.

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

9. Tax Information (Unaudited)

The information set forth below is for the Fund's fiscal year as required by federal laws. Shareholders, however, must report distributions on a calendar year basis for income tax purposes, which may include distributions for portions of two fiscal years of a fund. Accordingly, the information needed by shareholders for income tax purposes will be sent to them in January of each year. Please consult your tax advisor for proper treatment of this information.

14

Notes Delaware Investments Dividend and Income Fund, Inc.
TO FINANCIAL STATEMENTS (CONTINUED)

9. Tax Information (Unaudited) (continued)

For the fiscal year ended November 30, 2003, the Fund designates distributions paid during the year as follows:

(A) Long-Term Capital Gains Distributions (Tax Basis)	(B) Ordinary Income Distributions (Tax Basis)	(C) Return of Capital (Tax Basis)	Total Distribution (Tax Basis)	(D) Qualifying Dividends(1)
--	63%	37%	100%	25%

(A) (B) and (C) are based on a percentage of the Fund's total distributions.
(D) is based on a percentage of ordinary income of the Fund.

(1) Qualifying dividends represent dividends which qualify for the corporate dividends received deductions.

For the fiscal year ended November 30, 2003 certain dividends may be subject to a maximum tax rate of 15%, as provided for by the Jobs and Growth Tax Relief Reconciliation Act of 2003. The Fund intends to designate \$1,665,421 to be taxed at a maximum rate of 15%. Complete information will be computed and reported in conjunction with your 2003 Form 1099-DIV.

10. Proxy Results (Unaudited)

The Fund held its Annual Meeting of Shareholders on August 14, 2003. At the Annual Meeting, the Fund's shareholders elected nine Directors. The results of the voting at the meeting were as follows:

Nominee	Shares Voted For	Shares Voted Against	Shares Voted Abstain
Jude T. Driscoll	11,536,093	140,867	--

Report

OF INDEPENDENT AUDITORS

To the Shareholders and Board of Directors
Delaware Investments Dividend and Income Fund, Inc.

We have audited the accompanying statement of net assets of Delaware Investments Dividend and Income Fund, Inc. (the "Fund") as of November 30, 2003, and the related statements of operations and cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights. Our procedures included confirmation of securities owned as of November 30, 2003, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Delaware Investments Dividend and Income Fund, Inc. at November 30, 2003, the results of its operations and its cash flows for the year then ended, the changes in its net assets for each of the two years in the period then ended, and its financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States.

Item 2. Code of Ethics

The registrant has adopted a code of ethics that applies to the registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions, regardless of whether these individuals are employed by the registrant or a third party. A copy of the registrant's Code of Business Ethics has been posted on Delaware Investments' internet website at www.delawareinvestments.com. Any amendments to the Code of Business Ethics, and information on any waiver from its provisions granted by the registrant, will also be posted on this website within five business days of such amendment or waiver and will remain on the website for at least 12 months.

Item 3. Audit Committee Financial Expert

The registrant's Board of Trustees/Directors has determined that each member of the registrant's Audit Committee is an audit committee financial expert, as defined below. For purposes of this item, an "audit committee financial expert" is a person who has the following attributes:

a. An understanding of generally accepted accounting principles and financial statements;

b. The ability to assess the general application of such principles in connection with the accounting for estimates, accruals, and reserves;

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

c. Experience preparing, auditing, analyzing, or evaluating financial statements that present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and complexity of issues that can reasonably be expected to be raised by the registrant's financial statements, or experience actively supervising one or more persons engaged in such activities;

d. An understanding of internal controls and procedures for financial reporting; and

e. An understanding of audit committee functions.

An "audit committee financial expert" shall have acquired such attributes through:

a. Education and experience as a principal financial officer, principal accounting officer, controller, public accountant, or auditor or experience in one or more positions that involve the performance of similar functions;

b. Experience actively supervising a principal financial officer, principal accounting officer, controller, public accountant, auditor, or person performing similar functions;

c. Experience overseeing or assessing the performance of companies or public accountants with respect to the preparation, auditing, or evaluation of financial statements; or

d. Other relevant experience.

The registrant's Board of Trustees/Directors has also determined that each member of the registrant's Audit Committee is independent. In order to be "independent" for purposes of this item, the Audit Committee member may not: (i) other than in his or her capacity as a member of the Board of Trustees/Directors or any committee thereof, accept directly or indirectly any consulting, advisory or other compensatory fee from the issuer; or (ii) be an "interested person" of the registrant as defined in Section 2(a)(19) of the Investment Company Act of 1940.

The names of the audit committee financial experts on the registrant's Audit Committee are set forth below:

Ann R. Leven
Thomas F. Madison
Janet L. Yeomans(1)

Item 4. Principal Accountant Fees and Services

Required only for fiscal years ending after December 15, 2003.

Not applicable.

Item 5. Audit Committee of Listed Registrants

The registrant has a separately-designated standing Audit Committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The members of the registrant's Audit Committee are Ann R. Leven, Thomas F. Madison and Janet L. Yeomans.

(1) The instructions to Form N-CSR require disclosure on the relevant experience

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

of persons who qualify as audit committee financial experts based on "other relevant experience." The Board of Trustees/Directors has determined that Ms. Yeomans qualifies as an audit committee financial expert by virtue of her education and experience as the Treasurer of a large global corporation.

Item 6. [Reserved]

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies

The registrant has formally delegated to its investment adviser(s) (including any sub-adviser) (the "Adviser") the ability to make all proxy voting decisions in relation to portfolio securities held by the registrant. If and when proxies need to be voted on behalf of the registrant, the Adviser will vote such proxies pursuant to its Proxy Voting Policies and Procedures (the "Procedures"). The Adviser has established a Proxy Voting Committee (the "Committee") which is responsible for overseeing the Adviser's proxy voting process for the registrant. One of the main responsibilities of the Committee is to review and approve the Procedures to ensure that the Procedures are designed to allow the Adviser to vote proxies in a manner consistent with the goal of voting in the best interests of the registrant.

In order to facilitate the actual process of voting proxies, the Adviser has contracted with Institutional Shareholder Services ("ISS") to analyze proxy statements on behalf of the registrant and other Adviser clients and vote proxies generally in accordance with the Procedures. The Committee is responsible for overseeing ISS's proxy voting activities. If a proxy has been voted for the registrant, ISS will create a record of the vote. Beginning no later than August 31, 2004, information (if any) regarding how the registrant voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available without charge (i) through the registrant's website at <http://www.delawareinvestments.com>; and (ii) on the Commission's website at <http://www.sec.gov>.

The Procedures contain a general guideline that recommendations of company management on an issue (particularly routine issues) should be given a fair amount of weight in determining how proxy issues should be voted. However, the Adviser will normally vote against management's position when it runs counter to its specific Proxy Voting Guidelines (the "Guidelines"), and the Adviser will also vote against management's recommendation when it believes that such position is not in the best interests of the registrant.

As stated above, the Procedures also list specific Guidelines on how to vote proxies on behalf of the registrant. Some examples of the Guidelines are as follows: (i) generally vote for shareholder proposals asking that a majority or more of directors be independent; (ii) generally vote against proposals to require a supermajority shareholder vote; (iii) votes on mergers and acquisitions should be considered on a case-by-case basis, determining whether the transaction enhances shareholder value; (iv) generally vote against proposals to create a new class of common stock with superior voting rights; (v) generally vote re-incorporation proposals on a case-by-case basis; (vi) votes with respect to management compensation plans are determined on a case-by-case basis; and (vii) generally vote for reports on the level of greenhouse gas emissions from a company's operations and products.

Because the registrant has delegated proxy voting to the Adviser, the

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

registrant is not expected to encounter any conflict of interest issues regarding proxy voting and therefore does not have procedures regarding this matter. However, the Adviser does have a section in its Procedures that addresses the possibility of conflicts of interest. Most proxies which the Adviser receives on behalf of the registrant are voted by ISS in accordance with the Procedures. Because almost all registrant proxies are voted by ISS pursuant to the pre-determined Procedures, it normally will not be necessary for the Adviser to make an actual determination of how to vote a particular proxy, thereby largely eliminating conflicts of interest for the Adviser during the proxy voting process. In the very limited instances where the Adviser is considering voting a proxy contrary to ISS's recommendation, the Committee will first assess the issue to see if there is any possible conflict of interest involving the Adviser or affiliated persons of the Adviser. If a member of the Committee has actual knowledge of a conflict of interest, the Committee will normally use another independent third party to do additional research on the particular proxy issue in order to make a recommendation to the Committee on how to vote the proxy in the best interests of the registrant. The Committee will then review the proxy voting materials and recommendation provided by ISS and the independent third party to determine how to vote the issue in a manner which the Committee believes is consistent with the Procedures and in the best interests of the registrant.

Item 8. [Reserved]

Item 9. Controls and Procedures

The registrant's principal executive officer and principal financial officer have evaluated the registrant's disclosure controls and procedures within 90 days of the filing of this report and have concluded that they are effective in providing reasonable assurance that the information required to be disclosed by the registrant in its reports or statements filed under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission.

There were no significant changes in the registrant's internal control over financial reporting that occurred during the registrant's last fiscal half-year (the registrant's second fiscal half-year in the case of an annual report) that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 10. Exhibits

(a) (1) Code of Ethics

Not applicable.

(2) Certifications of Principal Executive Officer and Principal Financial Officer pursuant to Rule 30a-2 under the Investment Company Act of 1940 are attached hereto as Exhibit 99.CERT.

(b) Certifications pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 are furnished herewith as Exhibit 99.906CERT.
