PIMCO Municipal Income Funds III Letter to Shareholders

May 14, 2010

Dear Shareholder:

Please find enclosed the semi-annual report for the PIMCO Municipal Income Fund III, PIMCO California Municipal Income Fund III and PIMCO New York Municipal Income Fund III (the Funds) for the fiscal six-month period ended March 31, 2010 (the period).

The U.S. bond market delivered relatively flat returns during the period. Municipal and high-quality corporate bonds outperformed U.S. government-issued securities as signs of economic recovery prompted investors to favor less-defensive, higher-yielding securities. In this environment, the Barclays Capital Municipal Bond Index returned a tax-advantaged 0.28% for the period, outperforming U.S. Treasury Bonds, which returned, on average, -2.01%. The broad, taxable bond market, as represented by the Barclays Capital U.S. Aggregate Index, advanced 1.99% for the reporting period.

The U.S. Federal Reserve (the Fed) continued its accommodative monetary policy during the period, holding the benchmark rate on loans between member banks at the historic low target-rate of 0% to 0.25%. The Fed announced that it was concluding purchases of approximately \$1.25 trillion of Agency mortgage-backed securities and about \$175 billion of Agency debt from banks, a policy intended to add to the supply of cash available for lending. Noting that bank lending continues to contract, the Fed stated that it would monitor conditions and employ the policy tools necessary for economic recovery and price stability.

For specific information on the Funds and their performance, please review the following pages. If you have any questions regarding the information provided, we encourage you to contact your financial advisor or call the Funds' shareholder servicing agent at (800) 254-5197. In addition, a wide range of information and resources is available on our website, www.allianzinvestors.com/closedendfunds.

Together with Allianz Global Investors Fund Management LLC, the Funds' investment manager, and Pacific Investment Management Company LLC (PIMCO), the Funds' sub-adviser, we thank you for investing with us.

We remain dedicated to serving your investment needs.

Sincerely,

Hans W. Kertess
Chairman

Brian S. Shlissel

2 PIMCO Municipal Income Funds III Semi-Annual Report 3.31.10

PIMCO Municipal Income Funds III Fund Insights

March 31, 2010 (unaudited)

For the fiscal six-month period ended March 31, 2010, PIMCO Municipal Income Fund III declined 0.72% on net asset value (NAV) and returned 0.62% on market price, compared to a decrease of 0.49% and a rise of 4.59%, respectively, for the Lipper Analytical General Municipal Debt Funds (Leveraged) average.

For the fiscal six-month period ended March 31, 2010, PIMCO California Municipal Income Fund III declined 2.24% on NAV and 4.52% on market price, compared to declines of 0.74% and 0.15%, respectively, for the Lipper Analytical California Municipal Debt Funds average.

For the fiscal six-month period ended March 31, 2010, PIMCO New York Municipal Income Fund III advanced 1.45% on NAV and declined 0.15% on market price, compared to increases of 1.18% and 2.42%, respectively, for the Lipper Analytical New York Municipal Debt Funds average.

High-quality municipal bond yields moved higher across the curve during the period, which was in line with Treasury yields.

Municipal-to-U.S. Treasury yield ratio movement was mixed across the curve. The 10-year ratio increased to 80.72% and the 30-year ratio decreased to 88%; still at or below historical normal levels.

Tobacco securitization exposure contributed to returns during the six-month period, as the sector posted positive performance with investors looking for higher yields in lower quality sectors helping this sector to outperform.

Exposures to corporate backed municipals detracted from performance as the sector underperformed, while exposure to the water & sewer sector was also negative for performance.

Significant exposure to the health care sector benefitted returns, as the sector outperformed the general municipal market during the period.

Exposure to longer maturity zero-coupon municipals detracted from returns, as the longer durations of these bonds led to underperformance due to the upward movement in yields. The Barclay s Capital Zero Coupon Index declined 2.52% for the fiscal six-month period.

Municipal III:

The municipal yield curve was slightly steeper as investors continued to step out of money market securities, moving slightly further out on the curve, which helped minimize the yield movement higher into shorter maturities. The 30-year maturity AAA General Obligation yields increased 36 basis points while the 2-year yield increased 15 basis points during the same period. Significant exposure in longer maturity municipals detracted from performance, as this portion of the curve underperformed due to its longer duration.

Long municipals slightly outperformed the broader long-taxable market as the Barclays Capital Long Municipal Bond Index declined 0.43%, while the Barclays Capital Long Government/Credit and the Barclays Capital Long US Treasury Indices declined 1.13% and 4.46%, respectively.

For 2009, municipal bond issuance exceeded \$400 billion. During the first quarter of 2010, issuance kept pace lead by significant Build America Bond issuance, as issuers took advantage of the interest cost subsidy.

California Municipal Income III:

Municipal bonds within California underperformed the national index decreasing 0.55% versus a rise of 0.28% for the Municipal Bond index during the reporting period. The state continued to experience volatility due to the uncertainty related to their budget deficit situation. In 2009 California led all other states with over \$72 billion in total issuance. It continued to lead through the first quarter of 2010 with in excess of \$15 billion in total issuance.

Long California municipals underperformed the long national index decreasing 2.28% versus 0.43% during the six-month period. The California municipal curve steepened notably with 30-year yields increasing 60 basis points, while two-year yields increased only 10 basis points. Significant exposure to longer maturities detracted from performance, as longer durations underperformed.

New York Municipal III:

Municipal bonds within New York outperformed the municipal bond index during the period, returning 0.59% versus 0.28%. In 2009, issuers in New York State issued \$44 billion in bonds ranking it second in the U.S. For the first quarter of 2010, New York's issuance has been rather low at \$7 billion.

Long New York municipals outperformed the long municipal bond index during the period, returning 0.52% versus -0.43%. The New York yield curve steepened during the period, with 30-year yields increasing by 38 basis points while two-year yields decreased by 1 basis point. New York municipal funds also had significant positions in the longer portions of the curve, which benefitted performance as the longer maturity holdings outperformed in New York.

PIMCO Municipal Income Funds III Performance & Statistics

Moody's Ratings
(as a % of total investments)

- (1) **Past performance is no guarantee of future results.** Total return is calculated by determining the percentage change in net asset value (NAV) or market price (as applicable) in the specified period. The calculation assumes that all income dividends and capital gain distributions if any, have been reinvested. Total return does not reflect broker commissions or sales charges. Total return for a period of less than one year is not annualized. Total return for a period of more than one year represents the average annual total return.

Performance at market price will differ from its results at NAV. Although market price returns typically reflect investment results over time, during shorter periods returns at market price can also be influenced by factors such as changing views about the Funds, market conditions, supply and demand for the Funds shares, or changes in the Funds dividends.

An investment in the Funds involves risk, including the loss of principal. Total return, market price, market yield and NAV will fluctuate with changes in market conditions. This data is provided for information purposes only and is not intended for trading purposes. Closed-end funds, unlike open-end funds, are not continuously offered. There is a onetime public offering and once issued, shares of closed-end funds are traded in the open market on a stock exchange. NAV is equal to total assets attributable to common shareholders less total liabilities divided by the number of common shares outstanding. Holdings are subject to change daily.

- (2) Market Price Yield is determined by dividing the annualized current monthly per share dividend (comprised of net investment income) payable to common shareholders by the market price per common share at March 31, 2010.

PIMCO Municipal Income Funds III Notes to Schedules of Investments

March 31, 2010 (unaudited)

- (a) Private Placement Restricted as to resale and may not have a readily available market. Securities with an aggregate value of \$12,225,412, representing 2.2% of total investments in Municipal III and \$5,270,720, representing 1.5% of total investments in California Municipal III.
- (b) Illiquid.
- (c) 144A Exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, typically only to qualified institutional buyers. Unless otherwise indicated, these securities are not considered to be illiquid.
- (d) When-issued. To be settled after March 31, 2010.
- (e) In default.
- (f) Inverse Floater The interest rate shown bears an inverse relationship to the interest rate on another security or the value of an index. The interest rate disclosed reflects the rate in effect on March 31, 2010.
- (g) Variable Rate Notes Instruments whose interest rates change on specified date (such as a coupon date or interest payment date) and/or whose interest rates vary with changes in a designated base rate (such as the prime interest rate). The interest rate disclosed reflects the rate in effect on March 31, 2010.
- (h) All or partial amount segregated as collateral for reverse repurchase agreements.
- (i) Residual Interest Bonds held in Trust Securities represent underlying bonds transferred to a separate securitization trust established in a tender option bond transaction in which the Fund acquired the residual interest certificates. These securities serve as collateral in a financing transaction.
- (j) Step Bond Coupon is a fixed rate for an initial period then resets at a specific date and rate.

PIMCO Municipal Income Funds III Notes to Financial Statements

March 31, 2010 (unaudited)

1. Organization and Significant Accounting Policies

PIMCO Municipal Income Fund III (Municipal III), PIMCO California Municipal Income Fund III (California Municipal III) and PIMCO New York Municipal Income Fund III (New York Municipal III), collectively referred to as the Funds or PIMCO Municipal Income Funds III , were organized as Massachusetts business trusts on August 20, 2002. Prior to commencing operations on October 31, 2002, the Funds had no operations other than matters relating to their organization and registration as non-diversified, closed-end management investment companies registered under the Investment Company Act of 1940 and the rules and regulations thereunder, as amended. Allianz Global Investors Fund Management LLC (the Investment Manager) serves as the Investment Manager and is an indirect, wholly-owned subsidiary of Allianz Global Investors of America L.P. (Allianz Global). Allianz Global is an indirect, wholly-owned subsidiary of Allianz SE, a publicly traded European insurance and financial services company. Each Fund has an unlimited amount of \$0.00001 par value per share of common stock authorized.

Under normal market conditions, Municipal III invests substantially all of its assets in a portfolio of municipal bonds, the interest from which is exempt from federal income taxes. Under normal market conditions, California Municipal III invests substantially all of its assets in municipal bonds which pay interest that is exempt from federal and California state income taxes. Under normal market conditions, New York Municipal III invests substantially all of its assets in municipal bonds which pay interest that is exempt from federal, New York State and New York City income taxes. The Funds will generally seek to avoid investing in bonds generating interest income which could potentially subject individuals to alternative minimum tax. The issuers' abilities to meet their obligations may be affected by economic and political developments in a specific state or region. There is no guarantee that the Funds will meet their stated objectives.

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the Funds' financial statements. Actual results could differ from those estimated.

In the normal course of business, the Funds enter into contracts that contain a variety of representations that provide general indemnifications. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred.

The following is a summary of significant accounting policies consistently followed by the Funds:

(a) Valuation of Investments

Portfolio securities and other financial instruments for which market quotations are readily available are stated at market value. Market value is generally determined on the basis of last reported sales prices, or if no sales are reported, on the basis of quotes obtained from a quotation reporting system, established market makers, or independent pricing services.

Portfolio securities and other financial instruments for which market quotations are not readily available or for which a development/event occurs that may significantly impact the value of a security, are fair-valued, in good faith, pursuant to procedures established by the Board of Trustees, or persons acting at their discretion pursuant to procedures established by the Board of Trustees. The Funds' investments are valued daily using prices supplied by an independent pricing service or dealer quotations, or by using the last sale price on the exchange that is the primary market for such securities, or the mean between the last quoted bid and ask price for those securities for which the

over-the-counter market is the primary market or for listed securities in which there were no sales. Independent pricing services use information provided by market makers or estimates of market values obtained from yield data relating to investments or securities with similar characteristics. Securities purchased on a when-issued basis are marked to market daily until settlement at the forward settlement date. Short-term securities maturing in 60 days or less are valued at amortized cost, if their original term to maturity was 60 days or less, or by amortizing their value on the 61st day prior to maturity, if the original term to maturity exceeded 60 days.

The prices used by the Funds to value securities may differ from the value that would be realized if the securities were sold and these differences could be material to the Funds' financial statements. Each Fund's net asset value is normally determined as of the close of regular trading (normally, 4:00 p.m. Eastern time) on the New York Stock Exchange (NYSE) on each day the NYSE is open for business.

PIMCO Municipal Income Funds III Notes to Financial Statements

March 31, 2010 (unaudited)

1. Organization and Significant Accounting Policies (continued)**(b) Fair Value Measurements**

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (*i.e.* the exit price) in an orderly transaction between market participants. The three levels of the fair value hierarchy are described below:

Level 1 quoted prices in active markets for identical investments that the Funds have the ability to access

Level 2 valuations based on other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.) or quotes from inactive exchanges

Level 3 valuations based on significant unobservable inputs (including the Funds' own assumptions in determining the fair value of investments)

An investment asset's or liability's level within the fair value hierarchy is based on the lowest level input, individually or in aggregate, that is significant to fair value measurement. The objective of fair value measurement remains the same even when there is a significant decrease in the volume and level of activity for an asset or liability and regardless of the valuation technique used.

The valuation techniques used by the Funds to measure fair value during the six months ended March 31, 2010 maximized the use of observable inputs and minimized the use of unobservable inputs.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

A summary of the inputs used at March 31, 2010 in valuing each Fund's assets and liabilities is listed below:

Municipal III:

	Level 1 - Quoted Prices	Level 2 - Other Significant Observable Inputs	Level 3 - Significant Unobservable Inputs	Value at 3/31/10
Investments in Securities Assets				
Municipal Bonds & Notes		\$ 540,167,427		\$ 540,167,427

Total Investments in Securities		\$ 351,014,933		\$ 351,014,933

PIMCO Municipal Income Funds III Notes to Financial Statements

March 31, 2010 (unaudited)

1. Organization and Significant Accounting Policies (continued)New York Municipal III:

	Level 1 - Quoted Prices	Level 2 - Other Significant Observable Inputs	Level 3 - Significant Unobservable Inputs	Value at 3/31/10
Investments in Securities Assets				
New York Municipal Bonds & Notes		\$ 75,848,074		\$ 75,848,074
Other Municipal Bonds & Notes		8,610,974		8,610,974
New York Variable Rate Notes		5,103,500		5,103,500
Short-Term Investments		100,003		100,003
Total Investments in Securities		\$ 89,662,551		\$ 89,662,551

In January 2010, the Financial Accounting Standards Board released ASU 2010-06, Improving Disclosures about Fair Value Measurements. ASU 2010-06 is effective for annual and interim reporting periods beginning after December 15, 2009. The Funds' management is in the process of reviewing ASU 2010-06 to determine future applicability.

(c) Investment Transactions and Investment Income

Investment transactions are accounted for on the trade date. Securities purchased and sold on a when-issued basis may be settled a month or more after the trade date. Realized gains and losses on investments are determined on an identified cost basis. Interest income adjusted for the accretion of discounts and amortization of premiums is recorded on an accrual basis. Discounts or premiums on debt securities purchased are accreted or amortized, respectively, to interest income over the lives of the respective securities.

(d) Federal Income Taxes

The Funds intend to distribute all of their taxable income and to comply with the other requirements of the U.S. Internal Revenue Code of 1986, as amended, applicable to regulated investment companies. Accordingly, no provision for U.S. federal income taxes is required. The Funds may become subject to excise tax to the extent of distributions to shareholders.

Accounting for uncertainty in income taxes establishes for all entities, including pass-through entities such as the Funds, a minimum threshold for financial statement recognition of the benefit of positions taken in filing tax returns (including whether an entity is taxable in a particular jurisdiction), and requires certain expanded tax disclosures. The

Funds management has determined that its evaluation has resulted in no material impact to the Funds financial statements at March 31, 2010. The Funds federal tax returns for the prior three fiscal years remain subject to examination by the Internal Revenue Service.

(e) Dividends and Distributions Common Stock

The Funds declare dividends from net investment income monthly to common shareholders. Distributions of net realized capital gains, if any, are paid at least annually. The Funds record dividends and distributions to their shareholders on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with federal income tax regulations, which may differ from generally accepted accounting principles. These book-tax differences are considered either temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the capital accounts based on their federal income tax treatment. Temporary differences do not require reclassification. To the extent dividends and/or distributions exceed current and accumulated earnings and profits for federal income tax purposes, they are reported as dividends and/or distributions of paid-in-capital in excess of par.

(f) Reverse Repurchase Agreements

In a reverse repurchase agreement, the Funds sell securities to a bank or broker-dealer and agree to repurchase the securities at a mutually agreed upon date and price. Generally, the effect of such a transaction is that the Funds can recover and reinvest all or most of the cash invested in portfolio securities involved during the term of the reverse repurchase agreement and still be entitled to the returns associated with those portfolio securities. Such transactions are advantageous if the interest cost to the Funds of the reverse repurchase transaction is less than the returns they obtain on investments purchased with the cash. To the extent a Fund does not cover its positions in reverse repurchase

PIMCO Municipal Income Funds III Notes to Financial Statements

March 31, 2010 (unaudited)

1. Organization and Significant Accounting Policies (continued)

agreements (by segregating liquid assets at least equal in amount to the forward purchase commitment), the Funds' uncovered obligations under the agreements will be subject to the Funds' limitations on borrowings. Reverse repurchase agreements involve leverage risk and also the risk that the market value of the securities that the Funds are obligated to repurchase under an agreement may decline below the repurchase price. In the event the buyer of securities under a reverse repurchase agreement files for bankruptcy or becomes insolvent, the Funds' use of the proceeds of the agreement may be restricted pending determination by the other party, or their trustee or receiver, whether to enforce the Funds' obligation to repurchase the securities.

(g) Inverse Floating Rate Transactions – Residual Interest Municipal Bonds (RIBs)/Residual Interest Tax Exempt Bonds (RITEs)

The Funds invest in interest rates of RIBs and RITEs, (Inverse Floaters) whose interest rates bear an inverse relationship to the interest rate on another security or the value of an index. In inverse floating rate transactions, the Funds sell a fixed rate municipal bond (Fixed Rate Bond) to a broker who places the Fixed Rate Bond in a special purpose trust (Trust) from which floating rate bonds (Floating Rate Notes) and Inverse Floaters are issued. The Funds simultaneously or within a short period of time, purchase the Inverse Floaters from the broker. The Inverse Floaters held by the Funds provide the Funds with the right to: (1) cause the holders of the Floating Rate Notes to tender their notes at par, and (2) cause the broker to transfer the Fixed-Rate Bond held by the Trust to the Funds, thereby collapsing the Trust. The Funds account for the transaction described above as a secured borrowing by including the Fixed Rate Bond in their Schedules of Investments, and account for the Floating Rate Notes as a liability under the caption Payable for floating rate notes issued in the Funds' Statements of Assets and Liabilities. The Floating Rate Notes have interest rates that generally reset weekly and their holders have the option to tender their notes to the broker for redemption at par at each reset date.

The Funds also invest in Inverse Floaters without transferring a fixed rate municipal bond into a special purpose trust, which are not accounted for as secured borrowings.

The Inverse Floaters are created by dividing the income stream provided by the underlying bonds to create two securities, one short-term and one long-term. The interest rate on the short-term component is reset by an index or auction process typically every 7 to 35 days. After income is paid on the short-term securities at current rates, the residual income from the underlying bond(s) goes to the long-term securities. Therefore, rising short-term rates result in lower income for the long-term component and vice versa. The longer-term bonds may be more volatile and less liquid than other municipal bonds of comparable maturity. Investments in Inverse Floaters typically will involve greater risk than investments in Fixed Rate Bonds. The Funds may also invest in Inverse Floaters for the purpose of increasing leverage.

The Funds' restrictions on borrowings do not apply to the secured borrowings deemed to have occurred for accounting purposes. Inverse Floaters held by the Funds are exempt from registration under Rule 144A of the Securities Act of 1933.

In addition to general market risks, the Funds' investments in Inverse Floaters may involve greater risk and volatility than an investment in a fixed rate bond, and the value of Inverse Floaters may decrease significantly when market interest rates increase. Inverse Floaters have varying degrees of liquidity, and the market for these securities may be

volatile. These securities tend to underperform the market for fixed rate bonds in a rising interest rate environment, but tend to outperform the market for fixed rate bonds when interest rates decline or remain relatively stable. Although volatile, Inverse Floaters typically offer the potential for yields exceeding the yields available on fixed rate bonds with comparable credit quality, coupon, call provisions and maturity. Trusts in which Inverse Floaters may be held could be terminated due to market, credit or other events beyond the Funds' control, which could require the Funds to reduce leverage and dispose of portfolio investments at inopportune times and prices.

(h) When-Issued/Delayed-Delivery Transactions

When-issued or delayed-delivery transactions involve a commitment to purchase or sell securities for a predetermined price or yield, with payment and delivery taking place beyond the customary settlement period. When delayed-delivery purchases are outstanding, the Funds will set aside and maintain until the settlement date in a designated account, liquid assets in an amount sufficient to meet the purchase price. When purchasing a security on a delayed-delivery basis, the Funds assume the rights and risks of ownership of the security, including the risk of price and yield fluctuations; consequently, such fluctuations are taken into account when determining the net asset value. The Funds may dispose of or renegotiate a delayed-delivery transaction after it is entered into, and may sell when-issued securities before they are delivered, which may result in a realized gain or loss. When a security is sold on a delayed-delivery basis, the Funds do not participate in future gains and losses with respect to the security.

PIMCO Municipal Income Funds III Notes to Financial Statements

March 31, 2010 (unaudited)

1. Organization and Significant Accounting Policies (continued)

(i) Custody Credits on Cash Balances

The Funds benefit from an expense offset arrangement with their custodian bank, whereby uninvested cash balances earn credits which reduce monthly custodian and accounting agent expenses. Had these cash balances been invested in income-producing securities, they would have generated income for the Funds.

(j) Interest Expense

Interest expense relates primarily to the Funds' liability in connection with floating rate notes held by third parties in conjunction with Inverse Floater transactions and reverse repurchase agreements. Interest expense on reverse repurchase agreements is recorded as it is incurred.

2. Principal Risks

In the normal course of business, the Funds trade financial instruments and enter into financial transactions where risk of potential loss exists due to, among other things, changes in the market (market risk) or failure of the other party to a transaction to perform counterparty risk. The Funds are exposed to various risks such as, but not limited to, interest rate and credit risks.

Interest rate risk is the risk that fixed income securities will decline in value because of changes in interest rates. As nominal interest rates rise, the value of certain fixed income securities held by the Funds is likely to decrease. A nominal interest rate can be described as the sum of a real interest rate and an expected inflation rate. Fixed income securities with longer durations tend to be more sensitive to changes in interest rates, usually making them more volatile than securities with shorter durations. Duration is used primarily as a measure of the sensitivity of a fixed income security's market price to interest rate (*i.e.* yield) movements.

The Funds are exposed to credit risk, which is the risk of losing money if the issuer or guarantor of a fixed income security is unable or unwilling, or is perceived (whether by market participants, ratings agencies, pricing services or otherwise) as unable or unwilling, to make timely principal and/or interest payments, or to otherwise honor its obligations. Securities are subject to varying degrees of credit risk, which are often reflected in credit ratings.

Similar to credit risk, the Funds are exposed to counterparty risk, or the risk that an institution or other entity with which the Funds have unsettled or open transactions will default. The potential loss to the Funds could exceed the value of the financial assets recorded in the Funds' financial statements. Financial assets, which potentially expose the Funds to counterparty risk, consist principally of cash due from counterparties and investments. The Funds' sub-adviser, Pacific Investment Management Company LLC (the Sub-Adviser), an affiliate of the Investment Manager, seeks to minimize the Funds' counterparty risk by performing reviews of each counterparty and by minimizing concentrations of credit risk by undertaking transactions with a large number of customers and counterparties on recognized and reputable exchanges. Delivery of securities sold is only made once the Funds have received payment. Payment is made on a purchase once the securities have been delivered by the counterparty. The trade will fail if either party fails to meet its obligation.

3. Investment Manager/Sub-Adviser

Each Fund has an Investment Management Agreement (each an Agreement) with the Investment Manager. Subject to the supervision of the Funds' Board of Trustees, the Investment Manager is responsible for managing, either directly or

through others selected by it, each Fund's investment activities, business affairs and administrative matters. Pursuant to the Agreements, the Investment Manager receives an annual fee, payable on a monthly basis, at an annual rate of 0.65% of each Fund's average daily net assets, inclusive of net assets attributable to any Preferred Shares that may be outstanding. In order to reduce each Fund's expenses, the Investment Manager had contractually agreed to waive a portion of its investment management fees for each Fund at the annual rate of 0.05% of each Fund's average daily net assets, inclusive of net assets attributable to any Preferred Shares that may be outstanding, through October 31, 2009. For the six months ended March 31, 2010, each Fund paid investment management fees at an annualized effective rate of 0.64% of each Fund's average daily net assets, inclusive of net assets attributable to any Preferred Shares that may be outstanding.

The Investment Manager has retained the Sub-Adviser to manage each Fund's investments. Subject to the supervision of the Investment Manager, the Sub-Adviser is responsible for making all of the Funds' investment decisions. The Investment Manager, and not the Funds, pays a portion of the fees it receives as Investment Manager to the Sub-Adviser in return for its services.

PIMCO Municipal Income Funds III Notes to Financial Statements

March 31, 2010 (unaudited)

4. Investments in Securities

Purchases and sales of investments, other than short-term securities and U.S. Government obligations for the six months ended March 31, 2010, were:

	Municipal III	California Municipal III	New York Municipal III
Purchases	\$25,965,461	\$5,722,020	\$9,620,794
Sales	17,582,415	7,330,737	6,274,432

(a) Open reverse repurchase agreements at March 31, 2010 were:

Municipal III:

Counterparty	Rate	Trade Date	Maturity Date	Principal & Interest	Principal
Barclays Capital	0.55%	3/5/10	4/7/10	\$4,689,719	\$4,688,000
	0.75%	3/11/10	4/12/10	622,259	622,000
					\$5,310,000

California Municipal III:

Counterparty	Rate	Trade Date	Maturity Date	Principal & Interest	Principal
Barclays Capital	0.75%	3/11/10	4/12/10	\$445,185	\$445,000

New York Municipal III:

Counterparty	Rate	Trade Date	Maturity Date	Principal & Interest	Principal
Barclays Capital	0.75%	3/5/10	4/7/10	\$89,044	\$89,000

The weighted average daily balance of reverse repurchase agreements outstanding during the six months ended March 31, 2010 for Municipal III, California Municipal III and New York Municipal III was \$5,350,808, \$571,571 and \$161,346 at a weighted average interest rate of 0.66%, 0.63% and 0.69%, respectively. The total market value of underlying collateral (refer to the Schedules of Investments for positions segregated as collateral for reverse repurchase agreements) for open reverse repurchase agreements at March 31, 2010 was \$5,632,317, \$500,016 and \$100,003 for Municipal III, California Municipal III and New York Municipal III, respectively.

5. Income Tax Information

The cost of investments for federal income tax purposes and gross unrealized appreciation and gross unrealized depreciation of investments at March 31, 2010 were:

	Cost of Investments	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Appreciation
Municipal III	\$491,467,149	\$29,643,398	\$23,071,221	\$6,572,177
California Municipal III	312,188,461	17,361,276	12,233,301	5,127,975
New York Municipal III	78,236,174	5,337,806	857,314	4,480,492

The difference between book and tax appreciation is attributable to inverse floater transactions.

PIMCO Municipal Income Funds III Notes to Financial Statements

March 31, 2010 (unaudited)

6. Auction-Rate Preferred Shares

Municipal III has outstanding 1,512 shares of Preferred Shares Series A, 1,512 shares of Preferred Shares Series B, 1,512 shares of Preferred Shares Series C, 1,512 shares of Preferred Shares Series D and 1,512 shares of Preferred Shares Series E, each with a liquidation preference of \$25,000 per share plus any accumulated, unpaid dividends.

California Municipal III has issued 2,500 shares of Preferred Shares Series A and 2,500 shares of Preferred Shares Series B, each with a liquidation preference of \$25,000 per share plus any accumulated, unpaid dividends.

New York Municipal III has issued 1,280 shares of Preferred Shares Series A with a liquidation preference of \$25,000 per share plus any accumulated, unpaid dividends.

Dividends are accumulated daily at an annual rate (typically re-set every seven days) through auction procedures. Distributions of net realized capital gains, if any, are paid annually.

For the six months ended March 31, 2010, the annualized dividend rates for each Fund ranged from:

	High	Low	At March 31, 2010
<u>Municipal III:</u>			
Series A	0.64%	0.27%	0.44%
Series B	0.67%	0.27%	0.44%
Series C	0.69%	0.26%	0.46%
Series D	0.69%	0.26%	0.46%
Series E	0.69%	0.27%	0.46%
<u>California Municipal III:</u>			
Series A	0.67%	0.27%	0.44%
Series B	0.69%	0.26%	0.46%
<u>New York Municipal III:</u>			
Series A	0.64%	0.27%	0.44%

The Funds are subject to certain limitations and restrictions while Preferred Shares are outstanding. Failure to comply with these limitations and restrictions could preclude the Funds from declaring any dividends or distributions to common shareholders or repurchasing common shares and/or could trigger the mandatory redemption of Preferred Shares at their liquidation preference.

Preferred shareholders, who are entitled to one vote per share, generally vote with the common shareholders but vote separately as a class to elect two Trustees and on any matters affecting the rights of the preferred shareholders.

Since mid-February 2008, holders of auction-rate preferred shares (ARPS) issued by the Funds have been directly impacted by an unprecedented lack of liquidity, which has similarly affected ARPS holders in many of the nation's closed-end funds. Since then, regularly scheduled auctions for ARPS issued by the Funds have consistently failed because of insufficient demand (bids to buy shares) to meet the supply (shares offered for sale) at each auction. In a

failed auction, ARPS holders cannot sell all, and may not be able to sell any, of their shares tendered for sale. While repeated auction failures have affected the liquidity holders have continued to receive dividends at the defined maximum rate the higher of the 30-day AA Composite Commercial Paper Rate multiplied by 110% or the Taxable Equivalent of the Short-Term Municipal Obligations Rate-defined as 90% of the quotient of (A) the per annum rate expressed on an interest equivalent basis equal to the Kenny S&P 30-day High Grade Index divided by (B) 1.00 minus the Marginal Tax Rate (expressed as a decimal) multiplied by 110% (which is a function of short-term interest rates and typically higher than the rate that would have otherwise been set through a successful auction). If the Funds ARPS auctions continue to fail and the maximum rate payable on the ARPS rises as a result of changes in short-term interest rates, returns for the Funds common shareholders could be adversely affected.

PIMCO Municipal Income Funds III Notes to Financial Statements

March 31, 2010 (unaudited)

7. Legal Proceedings

In June and September 2004, the Investment Manager and certain of its affiliates (including PEA Capital LLC (PEA), Allianz Global Investors Distributors LLC and Allianz Global Investors of America, L.P.), agreed to settle, without admitting or denying the allegations, claims brought by the Securities and Exchange Commission (SEC) and the New Jersey Attorney General alleging violations of federal and state securities laws with respect to certain open-end funds for which the Investment Manager serves as investment adviser. The settlements related to an alleged market timing arrangement in certain open-end funds formerly sub-advised by PEA. The Investment Manager and its affiliates agreed to pay a total of \$68 million to settle the claims. In addition to monetary payments, the settling parties agreed to undertake certain corporate governance, compliance and disclosure reforms related to market timing, and consented to cease and desist orders and censures. Subsequent to these events, PEA deregistered as an investment adviser and dissolved. None of the settlements alleged that any inappropriate activity took place with respect to the Funds.

Since February 2004, the Investment Manager, and certain of its affiliates and their employees have been named as defendants in a number of pending lawsuits concerning market timing, which allege the same or similar conduct underlying the regulatory settlements discussed above. The market timing lawsuits have been consolidated in a multi-district litigation proceeding in the U.S. District Court for the District of Maryland. Any potential resolution of these matters may include, but not be limited to, judgments or settlements for damages against the Investment Manager or its affiliates or related injunctions.

In addition, the Sub-Adviser is the subject of a lawsuit in the Northern District of Illinois Eastern Division in which the complaint alleges that plaintiffs each purchased and sold a 10-year Treasury note futures contract and suffered damages from an alleged shortage when the Sub-Adviser held both physical and futures positions in 10-year Treasury notes for its client accounts. In July 2007, the court granted class certification of a class consisting of those persons who purchased futures contracts to offset short positions between May 9, 2005 and June 30, 2005. The Sub-Adviser currently believes that the complaint is without merit and the Sub-Adviser intends to vigorously defend against this action.

The Investment Manager and the Sub-Adviser believe that these matters are not likely to have a material adverse effect on the Funds or on their ability to perform their respective investment advisory activities relating to the Funds.

8. Subsequent Events

On April 1, 2010, the following dividends were declared to common shareholders payable May 3, 2010 to shareholders of record on April 12, 2010:

Municipal III	\$0.07 per common share
California Municipal III	\$0.06 per common share
New York Municipal III	\$0.0525 per common share

On May 3, 2010, the following dividends were declared to common shareholders payable June 1, 2010 to shareholders of record on May 13, 2010:

Municipal III	\$0.07 per common share
---------------	-------------------------

California Municipal III
New York Municipal III

\$0.06 per common share
\$0.0525 per common share

* Annualized.

- (1) Total investment return is calculated assuming a purchase of a share of common stock at the current market price on the first day of each period and a sale of a share of common stock at the current market price on the last day of each period reported. Dividends and distributions are assumed, for purposes of this calculation, to be reinvested at prices obtained under Municipal III's dividend reinvestment plan. Total investment return does not reflect brokerage commissions or sales charges. Total investment return for a period of less than one year is not annualized.
- (2) Calculated on the basis of income and expenses applicable to both common and preferred shares relative to the average net assets of common shareholders.
- (3) Inclusive of expenses offset by custody credits earned on cash balances at the custodian bank. (See Note 1(i) in Notes to Financial Statements).
- (4) Interest expense relates to the liability for floating rate notes issued in connection with inverse floater transactions and reverse repurchase agreement transactions.
- (5) During the periods indicated above, the Investment Manager waived a portion of its investment management fee. (See Note 3 in Notes to Financial Statements). The effect of such waiver relative to the average net assets of common shareholders was 0.01%, 0.10%, 0.17%, 0.24%, 0.24% and 0.24%, for the six months ended March 31, 2010 and the years ended September 30, 2009, September 30, 2008, September 30, 2007, September 30, 2006 and September 30, 2005, respectively.
