PROXY STATEMENT

GENERAL INFORMATION

This proxy statement is furnished in connection with the solicitation of proxies by the Board of Directors of Ameristar Casinos, Inc., a Nevada corporation (we, Ameristar or the Company), for use only at our 2008 Annual Meeting of Stockholders (the Annual Meeting) to be held at 2:00 p.m. (local time) on Friday, June 20, 2008, at Ameristar Casino Resort Spa, One Ameristar Boulevard, St. Charles, Missouri 63301, or any adjournments or postponements thereof. We anticipate that this proxy statement and accompanying proxy card will first be mailed to stockholders on or about May 8, 2008.

You may not vote your shares unless the signed proxy card is returned or you make other specific arrangements to have the shares represented at the Annual Meeting. Any stockholder of record giving a proxy may revoke it at any time before it is voted by filing with the Secretary of Ameristar a notice in writing revoking it, by executing a proxy bearing a later date or by attending the Annual Meeting and expressing a desire to revoke the proxy and vote the shares in person. If your shares are held in street name you should consult with your broker or other nominee concerning procedures for revocation. Subject to any revocation, all shares represented by a properly executed proxy card will be voted as you direct on the proxy card. **If no choice is specified, proxies will be voted FOR the election as Directors of the persons nominated by our Board of Directors and FOR the approval of the provisions of the Amended and Restated 1999 Stock Incentive Plan relating to the grant of performance share units.**

In addition to soliciting proxies by mail, Ameristar officers, Directors and other regular employees, without additional compensation, may solicit proxies personally or by other appropriate means. We will bear the total cost of solicitation of proxies. Although there are no formal agreements to do so, we anticipate that we will reimburse banks, brokerage houses and other custodians, nominees and fiduciaries for their reasonable expenses in forwarding any proxy soliciting materials to their principals.

Only stockholders of record at the close of business on May 1, 2008 are entitled to receive notice of and to vote at the Annual Meeting. As of March 31, 2008, we had 57,204,939 shares of Common Stock outstanding, which constituted all of our outstanding voting securities. Each share outstanding on the record date is entitled to one vote on each matter. A majority of the shares of Common Stock outstanding on the record date and represented at the Annual Meeting in person or by proxy will constitute a quorum for the transaction of business.

Directors are elected by a plurality of votes cast. You may not cumulate your votes in the election of Directors. Under Nevada law, the affirmative vote of a majority of the votes actually cast on the proposal to approve the provisions of the Amended and Restated 1999 Stock Incentive Plan relating to the grant of performance share units, and generally on any other proposal that may be presented at the Annual Meeting, will constitute the approval of the stockholders. With respect to the approval of the provisions of the Amended and Restated 1999 Stock Incentive Plan, this approval will satisfy the requirements of The Nasdaq Stock Market, Inc. for the continued designation of the Common Stock as a Global Select Market Security, as well as the requirements of Section 162(m) of the Internal Revenue Code (the Code) applicable to the deductibility of certain compensation paid to executive officers.

A broker non-vote occurs when a nominee holding shares for a beneficial owner does not vote on a particular proposal or matter, and so notifies us, because the nominee does not have discretionary voting power with respect to that proposal or matter and has not received voting instructions from the beneficial owner. Abstentions and broker non-votes will be counted for purposes of determining the presence or absence of a quorum for the transaction of business but will not be counted in any of the matters being voted upon at the Annual Meeting. Thus, abstentions and broker non-votes will have no effect on the election of Directors or the vote on the proposal to approve the provisions of the Amended and Restated 1999 Stock Incentive Plan relating to the grant of performance share units.

Table of Contents

The Estate of Craig H. Nielsen, our former Chairman of the Board, Chief Executive Officer and majority stockholder (the Nielsen Estate), owns 31,528,400 shares of our Common Stock, which represented approximately 55.1% of our voting power as of March 31, 2008. Ray H. Nielsen and Gordon R. Kanofsky, who are Directors and executive officers of Ameristar and the co-executors of the Nielsen Estate, have advised us that they intend to vote all the shares held by the Nielsen Estate FOR the election as Directors of the persons nominated by the Board of Directors and the approval of the provisions of the Amended and Restated 1999 Stock Incentive Plan relating to the grant of performance share units. The Nielsen Estate s vote by itself will be sufficient to cause the election of the Directors nominated by the Board of Directors and the approval of such provisions.

All share and per-share information in this proxy statement has been retroactively adjusted to give effect to our 2-for-1 stock split effective June 20, 2005.

**IMPORTANT NOTICE REGARDING THE AVAILABILITY OF
PROXY MATERIALS FOR THE ANNUAL MEETING TO BE HELD ON JUNE 20, 2008**

The Notice of Annual Meeting of Stockholders, this proxy statement and accompanying proxy card and our 2007 Annual Report to stockholders are also available on our website at www.ameristar.com in About Ameristar/Investor Relations. You will **not** be able to vote your proxy on the Internet.

PROPOSAL NO. 1

ELECTION OF DIRECTORS

Information Concerning the Nominees

Our Articles of Incorporation provide that the Board of Directors shall be classified, with respect to the time for which the Directors hold office, into three classes, as nearly equal in number as possible as the total number of Directors constituting the entire Board of Directors permits. The Board of Directors is authorized to fix the number of Directors from time to time at not less than three and not more than 15. The authorized number of Directors is currently fixed at nine. Of the nine incumbent Directors, three are Class A Directors whose terms are expiring at the Annual Meeting and whom our Board of Directors has nominated for re-election as described below. Biographical information concerning the nominees and our other Directors is set forth under the caption Directors and Executive Officers. See Security Ownership of Certain Beneficial Owners and Management for information regarding each such person s holdings of Common Stock.

The Board of Directors has nominated each of the incumbent Class A Directors, Luther P. Cochrane, Larry A. Hodges and Ray H. Nielsen, to be elected for a term expiring at the 2011 Annual Meeting of Stockholders and until his successor has been duly elected and qualified, or until his earlier death, resignation or removal.

The Board of Directors has no reason to believe that its nominees will be unable or unwilling to serve if elected. However, should these nominees become unable or unwilling to accept nomination or election, the persons named as proxies will vote instead for such other persons as the Board of Directors may recommend.

The Board of Directors unanimously recommends a vote FOR the election of each of the above-named nominees as Directors.

Corporate Governance

The Board of Directors currently consists of nine members. All Directors are elected to serve staggered three-year terms and until their successors are duly elected and qualified. The Board of Directors held 10 meetings (including telephonic meetings) during 2007.

Director Independence. The Board of Directors has determined that each of the current non-employee Directors (i.e., Messrs. Brooks, Cochrane, Hodges and Richardson and Ms. Nathanson Juris) are independent, as that term is defined in Rule 4200(a)(15) of The Nasdaq Stock Market, Inc.'s listing requirements. In making these determinations, the Board of Directors did not rely on any exemptions to The Nasdaq Stock Market, Inc.'s requirements.

Stockholder Communications with Directors. Stockholders may communicate with the Board of Directors, committees of the Board of Directors, our independent Directors as a group or individual Directors by mail addressed to them at our principal office in Las Vegas. The Company transmits these communications directly to the Director(s) without screening them.

Audit Committee. The Audit Committee consists of Messrs. Richardson, Cochrane and Hodges, with Mr. Richardson serving as Chairman of the Committee. The Board of Directors has determined that

Table of Contents

each of Messrs. Richardson, Cochrane and Hodges is independent, as that term is defined in Rule 4200(a)(15) of The Nasdaq Stock Market, Inc.'s listing requirements, and also meets the requirements set forth in Rule 10A-3(b) under the Securities Exchange Act of 1934, as amended (the Exchange Act). The Board of Directors has determined that Mr. Richardson is an audit committee financial expert, as defined in Item 407(d)(5) of Regulation S-K promulgated by the Securities and Exchange Commission (the SEC). The Board of Directors has adopted a written charter for the Audit Committee, and reviews and reassesses the adequacy of the charter on an annual basis. The Audit Committee Charter is not posted on our website but is attached as *Appendix A* to this proxy statement. The functions of the Audit Committee include: selecting the Company's independent registered public accounting firm and approving the terms of its engagement; approving the terms of any other services to be rendered by the independent registered public accounting firm; discussing with the independent registered public accounting firm the scope and results of its audit; reviewing our audited financial statements; considering matters pertaining to our accounting policies; reviewing the adequacy of our system of internal control over financial reporting; and providing a means for direct communication between the independent registered public accounting firm and the Board of Directors. The Audit Committee has not adopted a pre-approval policy with respect to any general classes of audit or non-audit services of the independent registered public accounting firm. The Audit Committee's policy is that all proposals for specific services must be approved by the Audit Committee or by the Chairman of the Committee pursuant to delegated authority. The Audit Committee held five meetings during 2007.

Compensation Committee. The Compensation Committee consists of Messrs. Hodges, Brooks and Cochrane and Ms. Nathanson Juris, with Mr. Hodges serving as Chairman of the Committee. The Board of Directors has adopted a written charter for the Compensation Committee. The Compensation Committee Charter is not posted on our website but was attached as *Appendix B* to our proxy statement for our 2007 Annual Meeting of Stockholders. The functions of the Compensation Committee include: reviewing and approving compensation for the Chief Executive Officer and other executive officers; reviewing and making recommendations with respect to the executive compensation and benefits philosophy and strategy of the Company; administering our stock-based incentive compensation plans; and selecting participants for our Deferred Compensation Plan. The Compensation Committee held 10 meetings (including telephonic meetings) during 2007.

Director Nominations. We have no nominating committee or committee performing similar functions because we believe that a nominating committee would only add an unnecessary extra layer of corporate governance. Nominations of Directors are made by the entire Board of Directors, a majority of whom are independent as described above. While the listing requirements of The Nasdaq Stock Market, Inc. generally require nominations to be made by an independent committee or a majority of the independent Directors, we are exempt from this requirement as a controlled company by virtue of the Neilsen Estate's ownership of a majority of our voting power.

The Board of Directors has not adopted a formal policy with respect to consideration of any Director candidates recommended by stockholders. We believe that such a policy is unnecessary because we do not limit the sources from which we may receive nominations. The Board of Directors will consider candidates recommended by stockholders. Stockholders may submit such recommendations by mail to the attention of the Board of Directors or the Secretary of the Company at our principal office in Las Vegas. The Board of Directors has not established any specific minimum qualifications that must be met by a nominee for a position on the Board of Directors, but takes into account a candidate's education, business or other experience, independence, character and any particular expertise or knowledge the candidate possesses that may be relevant to service on the Board of Directors or its committees. The Board of Directors evaluates potential nominees without regard to the source of the recommendation. The Board of Directors identifies potential nominees through recommendations from individual Directors and management, and from time to time we also retain and pay third-party professional search firms to assist the Board of Directors in identifying and evaluating potential nominees. Mr. Cochrane was identified as a potential nominee by a third-party retained search firm and recommended by our Chief Executive Officer and other members of senior management.

Director Attendance of Meetings. During 2007, each Director attended at least 75% of the total number of meetings of the Board of Directors and each committee on which he or she served. We have not adopted a formal policy with regard to Directors' attendance at annual meetings of stockholders, but we encourage all Directors to attend annual meetings. Each member of the Board of Directors other than Mr. Brooks attended the 2007 Annual Meeting of Stockholders.

Table of Contents**Code of Ethics**

The Board of Directors has adopted a Code of Ethics, in accordance with Item 406 of SEC Regulation S-K, that applies to our principal executive officer, principal financial officer and principal accounting officer/controller and persons performing similar functions. We filed the Code of Ethics as an exhibit to our Annual Report on Form 10-K for the year ended December 31, 2006.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Under SEC rules, our officers and Directors, as well as beneficial owners of more than 10% of our Common Stock, are required to file with the SEC reports of their holdings and changes in beneficial ownership of our Common Stock. We have reviewed copies of reports provided to the Company, as well as other records and information. Based on that review, we concluded that all required reports for 2007 were timely filed.

PROPOSAL NO. 2

**APPROVAL OF CERTAIN PROVISIONS OF
AMENDED AND RESTATED 1999 STOCK INCENTIVE PLAN
RELATING TO PERFORMANCE SHARES UNITS**

Purpose and Summary of the Proposal

On December 15, 2007, the Board of Directors amended and restated the Ameristar Casinos, Inc. 1999 Stock Incentive Plan (as so amended and restated, the Stock Incentive Plan or the Plan) to, among other things, permit the grant of restricted stock units (restricted stock units or RSUs) and performance share units (performance share units or PSUs) under the Stock Incentive Plan to eligible participants. On the same day, the Compensation Committee granted PSUs to 10 members of senior management of the Company, including each of our five named executive officers. See Benefits under the Plan, below.

Since the PSUs are intended to qualify as performance-based compensation under Section 162(m) of the Code, the grants were made subject to stockholder approval of certain provisions of the Stock Incentive Plan relating to PSUs that have not previously been approved by the Company's stockholders. Specifically, we are asking stockholders to approve (i) a limit of 500,000 on the number of PSUs that may be granted under the Stock Incentive Plan to any single participant in any calendar year and (ii) a list of business criteria on which the Compensation Committee may base the establishment of performance goals for PSUs intended to qualify as performance-based compensation under Section 162(m) (collectively, the Proposal).

Under Section 162(m), the Company may not receive a federal income tax deduction for compensation paid to our Chief Executive Officer or any of certain other executive officers to the extent that any of these persons receives more than \$1,000,000 of compensation in any one year, unless the compensation is performance-based. If the

Table of Contents

compensation qualifies as performance-based under Section 162(m), the Company will receive a federal income tax deduction for the compensation even if it is more than \$1,000,000 during a single year.

If the Proposal is approved by stockholders, the grants of PSUs by the Compensation Committee on December 15, 2007 will be effective as of such date. If the Proposal is not approved by stockholders, those grants will be cancelled and any future grant of PSUs under the Stock Incentive Plan will not qualify as performance-based compensation under Section 162(m). This is because Section 162(m) provides that compensation will not be considered to be performance-based unless, among other things, the stockholders have approved an annual limit on the amount of compensation that may be awarded to any participant under the compensation plan and the criteria upon which the performance goals may be based.

The Board of Directors unanimously recommends a vote FOR approval of the Proposal. Our executive officers have a financial interest in the Proposal because the Compensation Committee has granted PSUs to each executive officer under the Plan, which will be cancelled if the Proposal is not approved by stockholders.

Principal Provisions of the Plan

The following summary of the Plan, as modified by the Proposal, is qualified in its entirety by reference to the full text of the Plan, which was filed as Exhibit 10.3 to our Annual Report on Form 10-K for the year ended December 31, 2007.

Purpose. The purpose of the Plan is to enable the Company and Related Companies (as defined below) to attract, motivate and retain quality officers, Directors, employees, consultants, advisers and independent contractors, to provide those persons with incentives to act in the best interests of the Company's stockholders and to reward extraordinary efforts by those persons on behalf of the Company or a Related Company.

Types of Awards. The Plan provides for awards in the form of (i) stock options, which may be either incentive stock options within the meaning of Section 422 of the Code or non-qualified stock options, (ii) restricted stock, (iii) restricted stock units or (iv) performance share units.

Shares. The total number of shares of Common Stock available for distribution under the Plan and the Company's former Management Stock Option Incentive Plan is 16,000,000, subject to adjustment for certain changes in the Company's capital structure. Shares awarded under the Plan may be authorized but unissued shares or treasury shares.

Shares subject to previously granted options that expire unexercised, subject to restricted stock awards that are forfeited or subject to RSU or PSU awards that terminate without such shares having been delivered to the participant, for any reason, will again be available for future distribution under the Plan, unless the forfeiting participant received any benefits of ownership (such as dividends) with respect to the forfeited award.

Administration. The Plan provides for it to be administered by the Compensation Committee of the Board of Directors or such other committee of Directors as the Board of Directors shall designate, which committee shall consist solely of not less than two non-employee directors (as such term is defined in Rule 16b-3 under the Exchange Act or any successor rule (Rule 16b-3)) who shall serve at the pleasure of the Board of Directors, each of whom shall also be an outside director within the meaning of Section 162(m) of the Code and Section 1.162-27 of the Treasury Regulations or any successor provision(s) thereto (Section 162(m)). However, if there are not two persons on the Board of Directors who meet the foregoing qualifications, any such committee may be comprised of two or more Directors of the Company, none of whom is an officer (other than a non-employee Chairman of the Board of the Company) or employee of the Company or a Related Company. If no such committee has been appointed by the Board of Directors, the Plan will be administered by the full Board of Directors. Such committee as shall be

designated to administer the Plan, or the Board of Directors, as the case may be, is hereinafter referred to as the Committee.

The Plan is currently administered by the Compensation Committee, which is comprised of four independent Directors, each of whom is a non-employee director as defined for purposes of Rule 16b-3 and an outside director as defined for purposes of Section 162(m).

Table of Contents

The Committee is authorized to, among other things, set the terms of awards to participants and waive compliance with the terms of such awards. The provisions attendant to the grant of an award under the Plan may vary from participant to participant. The Committee has the authority to interpret the Plan and adopt administrative regulations. The Committee may from time to time delegate to one or more officers of the Company any or all of its authority under the Plan, except with respect to awards granted to persons subject to Section 16 of the Exchange Act. The Committee must specify the maximum number of shares that the officer or officers to whom such authority is delegated may award, and the Committee may in its discretion specify any other limitations or restrictions on the authority delegated to such officer or officers.

Participation. The Committee may make awards to persons who are or agree to become Directors, officers, employees, consultants, advisers or independent contractors of the Company or a Related Company, all of whom are eligible to participate in the Plan. A Related Company is any corporation, partnership, limited liability company, joint venture or other entity in which the Company owns, directly or indirectly, at least a 50% beneficial ownership interest. The participants in the Plan are selected from among those eligible in the sole discretion of the Committee.

Awards to Participants

1. Stock Options

Incentive stock options (ISOs) and non-qualified stock options may be granted for such number of shares of Common Stock as the Committee determines, provided that no participant may be granted stock options in any calendar year exercisable for more than 2,000,000 shares of Common Stock. A stock option will be exercisable at such times, over such term and subject to such terms and conditions as the Committee determines. The exercise price of stock options is determined by the Committee. The Committee has the discretion, among other things, to reduce the exercise price of previously granted stock options.

The exercise price of a stock option may not be less than the per-share fair market value of the Common Stock on the date of grant. The exercise price of an ISO may not be less than 110% of such fair market value if the recipient owns, or would be considered to own by reason of Section 424(d) of the Code, more than 10% of the total combined voting power of all classes of stock of the Company or any parent or subsidiary of the Company (a 10% Stockholder). A stock option may not be exercisable more than 120 months after the date such option is granted (five years after the date of grant in the case of an ISO granted to a 10% Stockholder). An ISO may not be transferable other than by will or by the laws of descent and distribution. The aggregate fair market value (determined as of the time a stock option is granted) of Common Stock with respect to which ISOs are exercisable for the first time by a participant in any calendar year (under the Plan and any other plans of the Company or any subsidiary or parent corporation) may not exceed \$100,000.

Payment of the exercise price may be made in such manner as the Committee may provide, including cash or delivery of shares of Common Stock already owned or subject to award under the Plan. The Committee may provide that all or part of the shares received upon exercise of an option using restricted stock will be restricted stock.

Upon an optionee's termination of employment or other qualifying relationship with the Company or a Related Company, the option will be exercisable to the extent determined by the Committee; provided, however, that unless employment or such other qualifying relationship is terminated for cause (as may be defined by the Committee in connection with the grant of any stock option), the stock option will remain exercisable (to the extent that it was otherwise exercisable on the date of termination) for at least six months from the date of termination if termination was caused by death or disability or at least 90 days from the date of termination if termination was caused other than by death or disability. The Committee may provide that an option that is outstanding on the date of an optionee's death will remain outstanding for an additional period after the date of such death, notwithstanding that such option would

expire earlier under its terms.

A stock option agreement for a non-qualified option may permit an optionee to transfer the stock option to his or her children, grandchildren or spouse (Immediate Family), to one or more trusts for the benefit of such Immediate Family members, or to one or more partnerships or limited liability companies in which such Immediate Family members are the only partners or members if (i) the agreement setting forth the stock option expressly provides that the option may be transferred only with the express written consent of the Committee and (ii) the

Table of Contents

optionee does not receive any consideration in any form for such transfer other than the receipt of an interest in the trust, partnership or limited liability company to which the non-qualified option is transferred. Any stock option so transferred will continue to be subject to the same terms and conditions as were applicable to the option immediately prior to its transfer. Except as described above, stock options are not transferable by the optionee otherwise than by will or by the laws of descent and distribution.

2. Restricted Stock

In making an award of restricted stock, the Committee will determine the periods, if any, during which the stock is subject to forfeiture, and the purchase price, if any, for the stock. The vesting of restricted stock may be unconditional or may be conditioned upon the completion of a specified period of service with the Company or a Related Company, the attainment of specific performance goals or such other criteria as the Committee may determine.

During the restricted period, the award holder may not sell, transfer, pledge or assign the restricted stock, except as may be permitted by the Committee. The certificate evidencing the restricted stock will be registered in the award holder's name, although the Committee may direct that it remain in the possession of the Company until the restrictions have lapsed. Except as may otherwise be provided by the Committee, upon the termination of the award holder's service with the Company or a Related Company for any reason during the period before all restricted stock has vested, or in the event the conditions to vesting are not satisfied, all restricted stock that has not vested will be subject to forfeiture and the Committee may provide that any purchase price paid by the award holder, or an amount equal to the restricted stock's fair market value on the date of forfeiture, if lower, will be paid to the award holder. During the restricted period, the award holder will have the right to vote the restricted stock and to receive any cash dividends only to the extent provided by the Committee. Stock dividends will be treated as additional shares of restricted stock and will be subject to the same terms and conditions as the initial grant, unless otherwise provided by the Committee.

3. Restricted Stock Units and Performance Share Units

RSUs and PSUs (collectively, Units) may be granted for such number of shares of Common Stock as the Committee determines, provided that, subject to approval of the Proposal by the stockholders, no participant may be granted PSUs in any calendar year for more than 500,000 shares. In making an award of Units, the Committee will determine the periods, if any, during which and the conditions under which the receipt of the shares is to be deferred (the Deferral Period) and the purchase price, if any, for the shares. The Committee may make the grant or vesting of Units, or receipt of shares or cash at the end of the Deferral Period, conditional upon the completion of a specified period of service with the Company or a Related Company, the attainment of specific performance goals or such other criteria as the Committee may determine. PSUs are Units whose grant or vesting is in whole or in part conditioned on the attainment of specified performance goals. RSUs are Units whose grant or vesting is not conditioned on the attainment of specified performance goals.

During the Deferral Period, the award holder may not sell, transfer, pledge or assign any Unit, except as may be permitted by the Committee. When the Deferral Period ends for an award or portion of an award of Units, the award holder will receive either (i) a certificate for the shares of Common Stock covered by the Unit award, free of restrictions, (ii) cash equal to the fair market value of such shares or (iii) a combination of shares and cash, as the Committee may determine and as set forth in the award agreement. The Committee may waive, in whole or in part, any or all of the conditions to receipt of, or restrictions with respect to, Common Stock or cash under a Unit award, but may not accelerate the payment of a Unit award if such acceleration would violate Section 409A of the Code. Except as may otherwise be provided by the Committee, upon the termination of the award holder's service with the Company or a Related Company for any reason during the period before the Unit award has vested in full, the unvested portion of the award will be forfeited. During the Deferral Period, the award holder will not have the right to

vote the shares that are covered by the Unit award and will have the right to receive cash dividends only to the extent provided by the Committee.

Performance-Based Awards

Subject to the approval of the Proposal by the stockholders, the grant or vesting of PSUs or other awards under the Plan (other than stock options) intended to qualify as performance-based within the meaning of Section 162(m) shall be subject to the achievement of performance goals established by the Committee based on one or more of the following criteria:

- (1) sales or other sales or revenue measures;
- (2) operating income, earnings from operations, earnings before or after taxes, or earnings before or after interest, depreciation, amortization, or extraordinary or designated items;
- (3) net income or net income per common share (basic or diluted);
- (4) operating efficiency ratio;
- (5) return on average assets, return on investment, return on capital, or return on average equity;
- (6) cash flow, free cash flow, cash flow return on investment, or net cash provided by operations;
- (7) economic profit or value created;
- (8) operating margin;
- (9) stock price or total stockholder return; and
- (10) strategic business criteria, consisting of one or more objectives based on meeting specified business goals, such as market share or geographic business expansion goals, cost targets, customer satisfaction and goals relating to acquisitions, divestitures or joint ventures.

The targeted level or levels of performance with respect to such business criteria may be established for the Company on a consolidated basis, and/or for specified subsidiaries or affiliates or other business units of the Company, or for an individual, and may be established at such levels and on such terms as the Committee may determine in its discretion, including in absolute terms, in relation to one another, as a goal relative to performance in prior periods or as a goal compared to the performance of one or more comparable companies or an index covering multiple companies.

The Committee may provide in any award granted under the Plan that any evaluation of performance may include or exclude any of the following events that occurs during the performance period for such award: (i) asset write-downs, (ii) litigation or claim judgments or settlements, (iii) the effect of changes in tax laws, accounting principles or other laws or provisions affecting reported results, (iv) any reorganization and restructuring programs, (v) extraordinary nonrecurring items as described in Accounting Principles Board Opinion No. 30 and/or in management's discussion and analysis of financial condition and results of operations appearing in the Company's annual report to stockholders for the applicable year, (vi) the impact of adjustments to the Company's deferred tax asset valuation allowance, (vii) acquisitions or divestitures and (viii) foreign exchange gains and losses. To the extent such inclusions or exclusions affect awards intended to be performance-based within the meaning of Section 162(m), they shall be prescribed in a form that meets the requirements of Section 162(m).

For all awards intended to be performance-based under Section 162(m) (other than stock options): (i) the Committee will establish the performance goals within the earlier of 90 days after the start of the performance period or the time

25% of the performance period has elapsed; (ii) the performance goals will be objective and the achievement of the performance goals will be substantially uncertain at the time they are established; (iii) the amount payable upon achievement of the performance goals will be objectively determinable (except the Committee will have the right to reduce, but not increase, the amount payable); and (iv) prior to payment, the Committee will certify in writing that the performance goals have been satisfied.

Acceleration of Vesting in Certain Circumstances. Unless otherwise determined by the Committee and expressly set forth in the award agreement, in the event of any change in control or corporate transaction (each as defined in the Plan): (i) each stock option outstanding under the Plan that is not otherwise fully vested or exercisable with respect to all of the shares of stock at that time subject to such stock option will automatically

Table of Contents

accelerate so that each such stock option becomes, immediately upon the effective time of such event, exercisable for all the shares of stock at the time subject to such stock option and may be exercised for any or all of those shares as fully vested shares of stock; and (ii) all shares of restricted stock and all RSU and PSU awards outstanding under the Plan that are not otherwise fully vested will automatically accelerate so that all such shares of restricted stock and RSU and PSU awards become, immediately upon the effective time of such event, fully vested, free of all restrictions. In addition, to the extent permitted under Section 409A of the Code, the Committee may, in the award agreement or otherwise, accelerate the payment date of all or a portion of an award of Units upon or after a change in control or a corporate transaction.

Amendment and Termination. No awards may be made under the Plan more than 10 years after the date of approval of the Plan by the stockholders of the Company, which occurred on June 11, 1999. No award intended to qualify as performance-based compensation within the meaning of Section 162(m) (other than stock options) may be granted after the first stockholder meeting that occurs in the fifth year after the most recent stockholder approval of the material terms of the performance goals under the Plan. The Board may terminate the Plan at any earlier time and may amend it from time to time, in each case after consideration of the consequences under Section 409A of the Code, except that no amendment or termination may adversely affect any outstanding award without the holder's written consent. Amendments may be made without stockholder approval except as required to satisfy any applicable mandatory legal or regulatory requirements, or as required for the Plan to continue to satisfy the requirements of Section 162(m) or Section 422 of the Code or any other non-mandatory legal or regulatory requirements if the Board of Directors deems it desirable for the Plan to satisfy any such requirements.

Adjustment. In the event of any merger, reorganization, consolidation, sale of substantially all assets, recapitalization, stock dividend, stock split, reverse stock split, spin-off, split-up, split-off, extraordinary cash dividend, distribution of assets or other change in corporate structure affecting the Common Stock, a substitution or adjustment, as may be determined to be appropriate by the Committee in its sole discretion, will be made in the aggregate number and kind of shares reserved for issuance under the Plan, the maximum number and kind of shares with respect to which awards may be granted to any participant during any calendar year, the number and kind of shares subject to outstanding awards and the amounts to be paid by award holders or the Company, as the case may be, with respect to outstanding awards. No such adjustment may increase the aggregate value of any outstanding award.

Certain Federal Income Tax Consequences

The following is a summary of certain federal income tax aspects of awards made under the Plan based upon the laws currently in effect. Since the tax consequences to each participant will differ depending on the terms of the award and the participant's specific situation, participants should not rely on this summary for individual tax advice. Rather, each participant should consult his or her own tax adviser regarding the pertinent federal, state and local income tax and other tax consequences of his or her particular transactions under the Plan.

1. Incentive Stock Options

Generally, no taxable income is recognized by the participant upon the grant of an ISO or upon the exercise of an ISO during the period of the participant's employment with the Company or one of its subsidiaries or within 90 days (12 months, in the event of permanent and total disability, or the term of the option, in the event of death) after termination. However, the exercise of an ISO may result in a significant alternative minimum tax liability to the participant, and thus participants should carefully consider alternative minimum tax consequences prior to exercising an ISO. If the participant continues to hold the shares acquired upon the exercise of an ISO for at least two years from the date of grant and 12 months from the date of transfer of the shares to the participant, then generally: (a) upon the sale of the shares, any amount realized in excess of the option exercise price will be taxed as long-term capital gain; and (b) no deduction will be allowed to the employer corporation for federal income tax purposes.

If Common Stock acquired upon the exercise of an ISO is disposed of prior to the expiration of the 12-month or two-year holding period described above (a disqualifying disposition), then generally in the year of disposition: (a) the participant will recognize ordinary income in an amount equal to the excess, if any, of the fair market value of the shares on the date of exercise (or, if less, the amount realized on disposition of the shares) over the option exercise price; and (b) the employer corporation will be entitled to deduct any such recognized amount. Any further

Table of Contents

gain recognized by the participant on such disposition generally will be taxed as capital gain, but such additional amounts will not be deductible by the employer corporation.

In general, no gain or loss will be recognized by a participant who uses shares of Common Stock rather than cash to exercise an ISO. A number of new shares of Common Stock acquired equal to the number of shares surrendered will have a basis and capital gain holding period equal to those of the shares surrendered (although such shares will be subject to new holding periods for disqualifying disposition purposes beginning on the acquisition date). To the extent new shares of Common Stock acquired pursuant to the exercise of the ISO exceed the number of shares surrendered, such additional shares will have a zero basis and will have a holding period beginning on the date the ISO is exercised. The use of Common Stock acquired through exercise of an ISO to exercise an ISO will constitute a disqualifying disposition with respect to such Common Stock if the applicable holding period requirement has not been satisfied.

2. Non-Qualified Stock Options

In general, with respect to non-qualified stock options: (a) no income is recognized by the participant at the time the option is granted; (b) upon exercise of the option, the participant recognizes ordinary income in an amount equal to the excess, if any, of the fair market value of the shares on the date of exercise over the option exercise price and the employer corporation will be entitled to a tax deduction in the same amount; and (c) at disposition, any appreciation after the date of exercise generally is treated as capital gain, and any such appreciation is not deductible by the employer corporation.

No gain or loss will be recognized by a participant with respect to shares of Common Stock surrendered to exercise a non-qualified stock option. A number of new shares acquired equal to the number of shares surrendered will have a tax basis and capital gain holding period equal to those of the shares surrendered. The participant will recognize ordinary income in an amount equal to the fair market value of the additional shares acquired at the time of exercise. Such additional shares will be deemed to have been acquired on the date of exercise and will have a tax basis equal to their fair market value on such date.

In addition to the foregoing consequences, in certain cases non-qualified stock options that are modified or extended after the date of grant will subject the participant to additional tax and interest under Section 409A of the Code, unless the exercisability of such options is restricted in a manner that satisfies the timing requirements of that section. The employer corporation's deduction is not affected by Section 409A.

3. Restricted Stock

A participant receiving restricted stock generally will recognize income in the amount of the fair market value of the restricted stock at the time the stock either becomes transferable or is no longer subject to a substantial risk of forfeiture, whichever comes first, less the consideration, if any, paid for the stock. However, a participant may elect within 30 days of the grant of the restricted stock to the participant, under Section 83(b) of the Code, to recognize ordinary income on the date of grant of the restricted stock in an amount equal to the excess of the fair market value of the shares on such date (determined without regard to the restrictions other than restrictions which by their terms will never lapse) over their purchase price. The participant's holding period generally begins when ordinary income was recognized, and the tax basis of such shares generally will be the amount of income that was recognized plus the amount, if any, paid for the stock. However, if a participant makes the election under Section 83(b), in general no deduction will be allowed for the income recognized as a result of that election if the shares are later forfeited to the Company.

4. Units

Generally, the participant will not recognize income upon the grant of an RSU or PSU. When the Deferral Period ends, the participant will recognize ordinary income upon the delivery of cash or shares of Common Stock in settlement of the Unit. The amount of income recognized will equal the amount of cash received or the fair market value of the shares of Common Stock on the date the shares are delivered. The employer corporation generally will be entitled to a tax deduction in the same amount.

Table of Contents

A participant's tax basis in shares of Common Stock received in settlement of Units will be equal to the fair market value of the shares on the date they are delivered to the participant and the participant's holding period in the shares will begin on that date. The participant will recognize capital gain on the subsequent sale or exchange of the shares to the extent of the excess, if any, of the amount realized over the participant's tax basis in the shares.

Units granted under the Plan are subject to the requirements applicable to nonqualified deferred compensation under Section 409A of the Code. If a Unit fails to comply with the applicable requirements of Section 409A, a participant may be subject to an additional 20% income tax and interest, and may be required to recognize income before the end of the Deferral Period. Regulations interpreting the requirements of Section 409A have been promulgated, although many of the aspects of the provision remain unclear. While the Company intends for the Units to meet the requirements of Section 409A, there can be no assurance that all of such requirements will be met.

5. Dividends

Dividends paid on restricted stock or Units prior to the date on which the forfeiture restrictions lapse or the Deferred Period ends generally will be treated as compensation that is taxable as ordinary income to the participant and will be deductible by the employer corporation. If, however, the participant makes a timely Section 83(b) election with respect to restricted stock, the dividends will be taxable as ordinary dividend income to the participant and will not be deductible by the employer corporation.

6. Withholding Taxes

A participant in the Plan may be required to pay the employer corporation an amount necessary to satisfy the applicable federal, state and local law requirements with respect to the withholding of taxes on wages, or to make some other arrangements to comply with such requirements. The employer has the right to withhold from salary or otherwise to cause a participant (or the executor or administrator of the participant's estate or the participant's distributee or transferee) to make payment of any federal, state, local or other taxes required to be withheld with respect to any award under the Plan. The Committee may permit participants to use the shares issuable under the Plan or unrestricted shares of Common Stock to satisfy withholding obligations.

7. Company Deductions

As a general rule, the Company or one of its subsidiaries will be entitled to a deduction for federal income tax purposes at the same time and in the same amount that a participant in the Plan recognizes ordinary income from awards under the Plan, to the extent that such income is considered reasonable compensation and currently deductible (and not capitalized) under the Code and certain reporting requirements are satisfied.

However, Section 162(m) limits to \$1,000,000 the annual tax deduction that the Company and its subsidiaries can take with respect to the compensation of each of certain executive officers unless the compensation qualifies as performance-based or certain other exemptions apply. Compensation arising from restricted stock awards and RSU awards under the Plan generally will not qualify as performance-based compensation under Section 162(m); therefore, the Company generally will be subject to the Section 162(m) limitation for compensation attributable to an award of restricted stock or RSUs. PSUs may qualify as performance-based compensation under Section 162(m). Deductions may also be disallowed if they are excess parachute payments as discussed below.

8. Effect of Change in Control

The Plan provides generally for the acceleration of vesting of stock options, restricted stock awards and Unit awards in connection with certain events that may constitute a change in ownership or effective control of the Company or

sale of a substantial portion of the Company's assets. In that event and depending upon the individual circumstances of the participant, certain amounts with respect to such awards may constitute "excess parachute payments" under the "golden parachute" provisions of the Code. Pursuant to these provisions, a participant will be subject to a 20% excise tax on any "excess parachute payments" and the Company will be denied any deduction with respect to such payments.

Table of Contents**Benefits Under the Plan**

As of March 31, 2008, there were stock options outstanding under the Plan and the Company's former Management Stock Option Incentive Plan (collectively, the Option Plans) exercisable for 5,501,562 shares of Common Stock with per-share exercise prices ranging from \$1.50 to \$34.94 (with a weighted-average exercise price of \$21.95) and with expiration dates ranging from April 2008 to March 2018. There were also 32,815 restricted shares, 256,180 RSUs and 123,090 PSUs outstanding under the Plan. As of March 31, 2008, 7,295,870 shares of Common Stock had been issued upon the exercise of stock options or as restricted shares under the Option Plans, and 2,815,109 shares were available for future issuance under the Plan. The Board of Directors believes that the Plan has aided the Company in attracting, motivating and retaining quality employees and management personnel.

As of March 31, 2008, there were five non-employee Directors, five executive officers and approximately 9,000 other employees of the Company and Related Companies eligible to participate in the Plan. The benefits that will be received by or allocated to various participants in the Plan, including the Company's executive officers and Directors, is not currently determinable. Since the Plan does not specify a minimum exercise price for options or minimum purchase price for awards of restricted stock, RSUs or PSUs, for federal income tax purposes the maximum compensation payable under the Plan to participants, during the term of the Plan and awards granted thereunder, is equal to the number of shares of Common Stock with respect to which awards may be issued thereunder, multiplied by the value of such shares on the date such compensation is measured. On April 15, 2008, the closing sale price of the Common Stock was \$16.12.

The following table shows the minimum, target and maximum number and dollar value of shares of Common Stock that could be earned by the persons and groups indicated under the PSU grants awarded by the Compensation Committee on December 15, 2007. There is no assurance that the pre-established performance goals will actually be achieved for the two-year performance period ending December 31, 2009 and, therefore, there is no assurance that any such shares will actually be earned. If the Proposal is not approved by stockholders, these grants will be cancelled.

EXECUTIVE COMPENSATION

Compensation Committee Interlocks and Insider Participation

The Compensation Committee (which we sometimes refer to in this Executive Compensation section as the Committee) consists of Messrs. Hodges, Brooks and Cochrane and Ms. Nathanson Juris. None of the members (i) is an employee or officer of the Company or our subsidiaries, (ii) is or was a participant in a related person transaction in 2007 (see Transactions with Related Persons) or (iii) is an executive officer of another entity of which one of our executive officers serves on the board of directors.

Compensation Discussion and Analysis

Overview of Compensation and Process

Philosophy

Our compensation program for our named executive officers is intended to

attract and retain executive officers with needed skills and qualities who exemplify the Company's core values, including quality, collaboration, inclusion and continuous improvement, and who work well within our culture, and

enhance stockholder value by motivating cooperative performance toward the near- and long-term goals that enable us to effectively compete in each of our markets, and to drive future growth, through high-quality facilities and products and a strong focus on superior guest service.

In order to achieve these goals, the Company generally seeks to compensate the named executive officers in cash at levels that are competitive with median market practices and with long-term incentives that are slightly greater than median competitive levels, while providing opportunity in both cases for above-market compensation for superior individual performance.

Compensation Committee Matters

Scope of Authority. The Compensation Committee acts on behalf of the Board of Directors to establish the compensation of our named executive officers and provide oversight of our compensation philosophy. The Committee also acts as the oversight committee with respect to our Deferred Compensation Plan, Stock Incentive Plan and bonus plans covering named executive officers and other senior management. The Committee may delegate authority for day-to-day administration of those plans to Company officers; however, authority to select participants and determine award levels for executive officer bonus plans may not be delegated, and authority to select participants and determine award levels for the Deferred Compensation Plan and Stock Incentive Plan may only be delegated to one or more individual members of the Committee. In practice, for the past several years, decisions concerning awards under our Stock Incentive Plan have been made by the full Committee.

Role of Executive Officers and Management. The Chief Executive Officer and the Co-Chairmen of the Board formulate recommendations to the Committee on matters of compensation philosophy, plan design and specific compensation recommendations for the named executive officers. The Chief Executive Officer and the Co-Chairmen discuss with the Committee their assessments and compensation recommendations for each of the other named executive officers. Those recommendations are then considered by the Committee and may be reviewed by the

Committee with its compensation consultant and approved or modified as the Committee deems appropriate.

Role of Compensation Consultant. During 2007, the Committee engaged Towers Perrin as its independent consultant to assist the Committee in assessing the Company's compensation philosophy, establishing 2007 cash and incentive compensation for the named executive officers and reviewing and making recommendations with regard to possible changes in the Company's change in control arrangements with named executive officers. The decision to engage Towers Perrin was made by the Committee, with input from the Chief Executive Officer and Co-Chairmen and other senior management. Towers Perrin reports directly to the Committee and does not perform services for management. However, the Chief Executive Officer and Co-Chairmen and other senior management have provided input to the Chairman of the Committee with regard to the scope of Towers Perrin's assignment and

Table of Contents

have participated in a number of meetings and telephone calls with Towers Perrin and the Committee with regard to Towers Perrin's services. All decisions with respect to accepting or rejecting recommendations of the compensation consultant are made by the Committee.

In 2007, at the request of the Board, Towers Perrin analyzed compensation of the Company's outside Directors relative to that of directors of other members of the Company's peer group. Based on Towers Perrin's review, in October 2007 the Board approved an increase in compensation for non-employee Directors. See *Directors' Compensation*.

Performance Measures

The primary means of measuring of corporate performance used by the Committee in setting compensation policies and making compensation decisions is consolidated earnings before interest, taxes, depreciation and amortization, as adjusted for certain non-recurring items (EBITDA), a non-GAAP financial measure. The Committee believes EBITDA is an appropriate measure for compensation decisions because it is the primary metric used by management of the Company and that of the Company's competitors in evaluating many aspects of overall corporate performance.

Benchmarking

We believe it is important to compensate our employees in an amount and manner that makes us competitive in attracting and retaining individuals who have the high skill levels and are the top performers that drive our corporate success and stockholder value. That principle is especially important for our named executive officers.

Following the death of the Company's founder and majority stockholder in late 2006, the Committee engaged Towers Perrin, an independent compensation consulting firm, for assistance in establishing salaries and bonuses for the named executive officers for 2007. The Committee, with advice from Towers Perrin, selected a peer group from among other participants in the casino gaming industry based on considerations of size, scope, financial performance and complexity of operations. The peer group was:

Aztar Corporation
Dover Downs Gaming & Entertainment, Inc.
MTR Gaming Group
Pinnacle Entertainment, Inc.

Boyd Gaming Corporation
Isle of Capri Casinos, Inc.
Penn National Gaming, Inc.
Trump Entertainment Resorts, Inc.

The Committee compared the amounts of compensation paid to Company management, including both named executive officers and other key employees in corporate and property management, in relation to a target competitive range calculated from the median amounts paid for comparable positions in the peer group. The target range for salary was the peer group median plus or minus 10% and the range for total cash compensation (salary plus cash incentive bonus, in the case of the Company) was the peer group median plus or minus 15%. While the target range for total direct compensation, or total cash compensation plus incentive compensation (equity-based compensation in the case of the Company), was the peer group median plus or minus 20%, the Committee's compensation philosophy is generally to compensate in the high end of that range through the use of equity-based compensation. The target competitive range was used by the Committee as a guideline, not a strict standard, and compensation of our named executive officers could and did fall above or below the calculated target range.

Components of Compensation for 2007

The primary elements of compensation for our management, including named executive officers, include base salary, an annual cash incentive bonus, equity-based compensation in the form of annual awards under our Stock Incentive

Plan and a benefits package including retirement savings and health benefits. This mix of compensation furthers the objectives of the Company to attract and retain an effective management team and keep their incentives aligned with the long-term interests of our stockholders.

We believe management should be rewarded with total compensation that is increasingly weighted toward performance-based compensation as responsibilities increase and, especially, toward equity-based compensation as the executive's position increases his or her impact on the overall performance of the Company.

Table of Contents

Base Salary

Base salary is the guaranteed element of a named executive officer's annual cash compensation. The Committee's objectives in establishing base salaries for the named executive officers are to compensate the officers for their decisions to commit their time and skills for the benefit of the Company and to reflect the market value of their skill sets and productivity. Other forms of incentive and other compensation, including annual cash bonus, equity-based compensation awards and the Company match on executives' Deferred Compensation Plan deferrals, are directly tied to the amount of base salary for the named executive officers.

During the annual review of the base salaries of named executive officers, the Committee considers:

the compensation paid to the executive officer in prior years;

the responsibilities of the executive officer;

the individual performance of the officer, including the Committee's and/or the Chief Executive Officer's and Co-Chairmen's subjective assessment of the officer's contributions to the Company during the prior year;

the target range determined with reference to the base salaries paid by our peer group to individuals in comparable positions;

the relationship between the salary of the executive officer and those of other executive officers and members of management (internal pay equity); and

generally applicable baseline increases in salaries of management-level employees based on cost-of-living increases and other market conditions.

In 2007, Towers Perrin prepared for the Committee a comparison of the base salaries of the Company's named executive officers other than Mr. Neilsen (who was not an executive officer at that time) against those of the comparable officers of companies within the Company's peer group. While the comparison revealed that base salaries of the named executive officers were generally within the competitive range, base salaries were raised between 5.3% and 10.5% for Messrs. Boushy, Kanofsky and Walsh, in order to better bring that element of compensation in line with that of comparable officers of the peer group. Mr. Steinbauer's salary was raised by the largest amount, 14.3%, in order to adjust for a marked difference between his salary and that of chief financial officers in the peer group. Mr. Neilsen was elected Co-Chairman of the Board in November 2006 and was promoted to Senior Vice President on January 1, 2007. In view of Mr. Neilsen's increased corporate responsibilities, following consultation with Messrs. Boushy and Kanofsky and Towers Perrin, the Committee increased his base salary by 20% in March 2007, retroactive to January 1, 2007.

Cash Incentive Bonus

We have established an annual cash incentive bonus program in order to align senior executives' goals with our performance objectives for the current year. The annual bonus awarded to each named executive officer and certain other senior corporate executives is determined based on three factors:

corporate performance, expressed as the percentage of the Company's actual EBITDA to the target EBITDA established by the Committee for the year;

the bonus target level established by the Committee for the executive's position, expressed as a percentage of the individual's base salary; and

the individual's merit performance grade, as expressed by a percentage that corresponds to a letter grade (i.e., A=100%, A-=92%, B+=85%, B=80%, B-=75%, C+=40% and C=28%).

The Company's target EBITDA for the year is established in connection with management's annual budgeting process and is intended to represent a level of performance that is the most probable of being achieved (i.e., a median result among possible future outcomes, assuming the successful implementation of the Company's business plan). The Committee typically sets the Company's target EBITDA for the year in March of that year. The

Table of Contents

Committee defines the manner of calculation of EBITDA, which may vary from EBITDA used or publicly announced by the Company in other circumstances.

In January 2007, the Compensation Committee adopted the Performance-Based Annual Bonus Plan (the Bonus Plan), which was subsequently approved by stockholders at the Company's 2007 Annual Meeting of Stockholders. In March 2007, the Committee adopted the 2007 Bonus Opportunities and Performance Goal (the 2007 Bonus Criteria) pursuant to the Bonus Plan. The Committee established the following bonus target levels (expressed as a percentage of base salary) for the named executive officers: 100% for the Chief Executive Officer and President (Mr. Boushy); 85% for the Executive Vice President and Co-Chairman (Mr. Kanofsky); and 75% for Senior Vice Presidents (Messrs. Neilsen, Steinbauer and Walsh). In setting the bonus target levels, the Committee considered the targets for total cash compensation and peer group practices described above in Benchmarking.

The 2007 Bonus Criteria set the Company's target EBITDA at \$282,600,000. Target EBITDA was defined to exclude non-recurring items and the performance, and costs of acquisition and integration, of any property or business unit that is acquired by the Company during the year, which includes the East Chicago property that we acquired in September 2007. The 2007 Bonus Criteria provided that each executive officer would be paid his target bonus if the Company's actual EBITDA were exactly equal to the target EBITDA, and that the bonus would increase or decrease (subject to minor rounding adjustments) with the square of the difference (expressed as a percentage) between 100% and actual EBITDA as a percentage of target EBITDA, up to a maximum of 200% of the target bonus if actual EBITDA were 110% or more of target EBITDA. No bonus would be paid if actual EBITDA were 90% or less of target EBITDA.

Actual 2007 EBITDA was approximately 6.16% below target, and 2007 incentive bonuses were paid to the named executive officers at a rate of 62% of each individual's target bonus, adjusted downward, in the case of those individuals whose merit performance grade was lower than A, by the applicable merit performance grade percentage described above.

Merit performance grades were based on the Committee's assessment of the level of achievement of the operational and strategic goals within the executive officer's area of responsibility, including implementation of the Company's financial plan and significant transactions. The Committee directly determined the performance grades of Messrs. Boushy, Neilsen and Kanofsky, taking into account their recommendations with respect to the performance grades. In the case of Messrs. Steinbauer and Walsh, the Committee adopted the recommendations of the Chief Executive Officer and Co-Chairmen. See footnote (1) to the Grant of Plan-Based Awards in 2007 table.

In addition to the bonuses paid pursuant to the 2007 Bonus Criteria, the Committee used its discretion to award additional cash bonuses for 2007 to compensate for the decrease in 2007 EBITDA for an unforeseen and unbudgeted change in the Company's method of accounting for deferred compensation expense, which reduces EBITDA for purposes of the 2007 Bonus Criteria, but not net income. Such additional cash bonuses totaled approximately \$54,000 for the named executive officers and were paid outside the Bonus Plan.

Equity-Based Compensation

Our primary form of long-term compensation is equity-based awards made pursuant to our Stock Incentive Plan. These equity-based awards include stock options, performance share units, restricted stock and restricted stock units and are designed to align executives' incentives with the interests of stockholders by increasing in value as the price of our stock increases. They also give executives a greater incentive to focus on the long-term reputation, growth and performance of the Company. Our equity-based awards help retain our named executive officers because they vest over a period of years and, to the extent not vested, are forfeited if the officer leaves the Company.

The Committee makes grants pursuant to the Stock Incentive Plan to the named executive officers and other eligible employees each December.

Size of Grants

Grants of equity-based compensation are intended to fulfill the competitive goals for total direct compensation described above under Benchmarking. In order to achieve those goals, the equity-based component of total direct

Table of Contents

compensation must be above the peer group average. The Committee evaluates equity-based compensation in terms of fair market value of options to purchase Common Stock at the market price on the grant date, using the Black-Scholes-Merton option pricing model.

In 2007, the Committee reviewed the competitiveness of the Company's long-term incentive compensation practices against the grants of stock options, restricted stock and other performance-based compensation by companies in our peer group. Specifically, the Committee considered how the ratios of our officers' equity-based compensation to their base salaries compared to the long-term incentive compensation paid to comparable officers in the peer group. In certain cases, notably the Chief Executive Officer and the Chief Financial Officer, the comparison indicated that the Company was not reaching its goal of bettering peer group averages in total direct compensation. Accordingly, based on the recommendations of Towers Perrin and the Chief Executive Officer and Co-Chairmen, the Committee established target factors for equity-based compensation, expressed as a percentage of base salary, for each of the named executive officers as follows:

Chief Executive Officer and President (Mr. Boushy)	220%
Co-Chairman and Executive Vice President (Mr. Kanofsky)	175%
Co-Chairman and Senior Vice President (Mr. Neilsen)	135%
Senior Vice Presidents (Messrs. Steinbauer and Walsh)	125%

Individual grants were determined as the product of (i) the target value factor based on position, (ii) the named executive officer's base salary and (iii) the named executive officer's merit performance grade for the year. These factors produced a target value and, when divided by the per-share fair market value of the options, a target number for options granted at market price.

For 2007, the Committee determined to use another form of equity-based compensation in addition to stock options. The Committee concluded that including performance share units (discussed below) as a majority of the value of equity-based compensation for named executive officers would provide a more appropriate mix of incentives and improve the Company's competitiveness in employment markets. Based on the analysis of Towers Perrin, the Committee determined that each performance share unit had a fair value at the time of grant approximately equal to three times that of a stock option. For 2007, the Committee granted options valued at one-fourth of the total equity-based compensation target value for each named executive officer and performance share units for an equal number of shares. Therefore, the aggregate award for each named executive officer had an expected value equal to that officer's equity-based compensation target, weighted three-to-one toward performance share units.

Grants of options and other forms of compensation pursuant to the Stock Incentive Plan may also be made at other times and for specific reasons, at the discretion of the Committee, such as for an exceptional individual contribution to the Company's goals. During 2007, no named executive officer received any discretionary grant under the Stock Incentive Plan.

Options

Options create incentives for management to take actions in order to maximize stockholder value, especially in the near term.

Our stock options are granted with an exercise price equal to the market value (defined as the average of the high and low sale prices of our Common Stock) on the date of grant.

In 2007, the Committee, in connection with the review by Towers Perrin of the Company's equity-based compensation, revised the standard stock option grant provisions from five-year vesting and a seven-year term to four-year vesting and a 10-year term. Those changes increase the per-share value of stock option grants, enabling the Committee to provide equally valuable compensation with options for fewer shares, thereby reducing the rate at which shares available under the Stock Incentive Plan are used and minimizing the impact on the market of shares issued pursuant to the exercise of options.

Table of Contents*Performance Share Units*

Performance share units are rights to receive shares of Common Stock in the future after completion of a specified period of service with the Company and subject to the attainment of specified performance objectives over a specified period (the Performance Period). Performance share units may be used to create targeted incentives, especially those to take a longer-term view than that encouraged by focus on stock price.

As described above, in December 2007, the Compensation Committee granted performance share units to the named executive officers. Those performance share units give the officers the right to receive shares of Common Stock based on (i) the Company's cumulative consolidated adjusted earnings per share (computed before interest, taxes, depreciation, amortization and non-recurring items that are disregarded in determining Adjusted EBTIDA as reported by the Company in its public earnings releases), for the Performance Period and (ii) guest satisfaction, measured by the average of the Company's monthly Overall Player Experience scores, as reported by JD Power and Associates or another third-party survey firm retained by the Company, over the Performance Period. Attainment of the adjusted earnings per share objective is weighted two-thirds and attainment of Overall Player Experience scores is weighted one-third. The Performance Period for the performance share units granted in 2007 was established as January 1, 2008 through December 31, 2009. The number of performance share units earned will range from zero to 200% of the number of units granted to each executive officer, based on the extent to which the performance objectives are attained, with 100% of the units granted earned for performance at the target level and an increasingly smaller or greater number of units earned as performance falls below or exceeds the target, as the case may be. One-half of the earned performance share units vest in February 2010, when the information necessary to determine attainment of the performance objectives following the Performance Period becomes available, while the remainder of the earned units vests in equal amounts in December 2010 and December 2011. Since the performance share units are intended to qualify as performance-based compensation under Section 162(m) of the Code, the grants are subject to stockholder approval of certain provisions of the Stock Incentive Plan relating to performance share units, as described in Proposal No. 2 Approval of Certain Provisions of Amended and Restated 1999 Stock Incentive Plan Relating to Performance Share Units.

The Committee determined to grant performance share units based on the recommendation of Towers Perrin because it believes a significant portion of the incentive compensation for the Company's most senior executives should be based on achieving important long-term performance objectives rather than solely continued service with the Company. The adjusted earnings per share objective was chosen because it is an important determinant of stockholder value and the most commonly used performance goal by companies that have implemented similar programs. The Committee defined adjusted earnings per share as EBITDA (determined in the same manner as for purposes of the 2007 Bonus Criteria), divided by the weighted-average number of fully diluted shares outstanding. The Committee also adopted management's recommendation to include the Overall Player Experience scores as a component of the performance share unit program because of the importance of guest satisfaction to the Company's long-term success and to ensure that senior management is not incentivized to sacrifice guest loyalty in order to achieve shorter-term earnings targets.

The specific adjusted earnings per share and Overall Player Experience Score targets were set at levels of performance over the two-year Performance Period that the Committee believes are each the most probable of being achieved (i.e., a median result among possible future outcomes, assuming the successful implementation by management of the Company's business plan and guest service objectives). The target Overall Player Experience Score for the Performance Period is any score between 7.85 and 7.89, inclusive, with a score in excess of 8.09 doubling the number of performance share units earned for the player experience component of performance and a score below 7.69 meaning that no performance share units are earned for that component of performance.

The Company has a policy not to issue public projections of future earnings. Reporting our internal targets for adjusted earnings per share would amount to a forecast of that data for 2008 and 2009. In addition, such a forecast could create competitive harm to the Company by giving competitors advance insight into our strategies, including planned promotional spending, capital improvements, asset acquisitions and cost containment. Adjusted earnings per share 6% in excess of the target would double the number of performance share units earned for that component, while a shortfall of the same amount would mean that no performance share units would be earned by the officer for the earnings component.

Table of Contents

Other Grants

Under the Stock Incentive Plan, the Committee may also issue other forms of awards, including restricted stock. The Committee does not typically use these grants in the compensation of the named executive officers. The Committee did grant restricted stock to Mr. Boushy in connection with the acceptance of his employment with the Company in 2006.

Timing of Grants

Our practices for granting stock options greatly reduce the possibility of timing being manipulated to result in exercise prices that do not accurately reflect the value of the stock at the time of the option grant. The annual date of awards of equity-based compensation for all eligible employees, including named executive officers, is in mid-December. The mid-December grant date coincides with our calendar year-based performance assessment cycle for named executive officers. New-hire options are, with very few exceptions, granted by the Committee on the last business day of the quarter in which employment starts. All of our options are priced on the date the Committee takes formal action to grant the options, and we have never backdated the grant of options. Likewise, we do not intentionally time the grant of options in relation to anticipated increases or decreases in our stock price.

Deferred Compensation Plan

We maintain a non-qualified Deferred Compensation Plan that allows highly compensated employees, including named executive officers, to voluntarily defer receipt of up to 90% of their base salary and up to 100% of their annual cash incentive bonus until the date or dates selected by the participant at the time of annual enrollment. The Deferred Compensation Plan is offered to higher-level employees in order to allow them to defer taxation on more compensation than is permitted under our tax-qualified 401(k) Plan. Further, we offer the Deferred Compensation Plan as a competitive practice to enable us to attract and retain top talent, and have found it to be effective in that regard.

The amounts deferred under the Deferred Compensation Plan are credited with earnings or debited with losses equal to the returns on measurement funds selected by the participant from among a group of variable universal life insurance separate accounts. To increase the security of the participants' Deferred Compensation Plan benefits, the Company funds a grantor trust (known as a rabbi trust) with amounts equal to the participants' deferrals and Company matching contributions and causes those funds to be invested in the accounts selected by the participants. The rabbi trust is designed so that assets are available to pay plan benefits to participants in the event the Company is unwilling or unable to pay the plan benefits for any reason other than insolvency (such as following a change in control or management of the Company). As a result, the Company is generally prevented from withdrawing or accessing assets for corporate needs and the Company does not incur significant out-of-pocket expense related to participants' earnings on their deferred compensation.

We make matching contributions to the Deferred Compensation Plan equal to 100% of the first 5% of salary and 100% of the first 5% of bonus deferred by the participant. Company matching contributions vest at the rate of 20% per year. Vested account balances are paid following termination of employment; however, participants may elect, at the time of annual enrollment, to receive their deferred amounts, adjusted for the performance of their selected measurement funds, either as short-term payouts starting as soon as five years from the date of deferral, or as a retirement benefit to be paid in up to 15 annual installments after retirement.

The level of deferred compensation benefits provided is typically not taken into account in determining a named executive officer's overall compensation package for a particular year.

Insurance and Other Employee Benefits

In addition to the broad-based health and welfare benefits generally available to all full-time Company employees, the named executive officers receive the following benefits. Named executive officers and other eligible management-level employees are not required to pay premiums for medical, dental and vision coverage and certain other benefits. We also provide supplemental executive health benefits without cost to our named executive officers and other eligible management-level employees, which cover all co-payments, deductibles and other out-of-pocket

Table of Contents

costs up to certain limits. We have found that this benefit has been valuable in our efforts to recruit qualified management personnel.

Perquisites

We provide a limited amount of perquisites and other personal benefits to our management, including our named executive officers. These perquisites primarily consist of complimentary meals, lodging and entertainment at our properties, use of season seats for sporting events when not provided to our customers and the use of condominium units in Sun Valley, Idaho that are leased by the Company. These benefits are minimal in value, broadly available to management-level employees and not considered by the Committee as a factor in establishing the specific compensation levels for any named executive officer.

Termination and Change in Control Payments

Each of the named executive officers is entitled to receive certain severance payments and other benefits upon a termination of his employment in specified circumstances. In October 2007, the Compensation Committee adopted the Change in Control Severance Plan (the "CIC Plan"). Adoption of the CIC Plan followed a review of the Company's existing change in control provisions conducted by Towers Perrin to ensure that the Company's change in control-related protections are aligned with its defined philosophy and to identify potential changes in those protections aimed at strengthening the retention of executives, as well as establishing standard and competitive change in control terms. Prior to the adoption of the CIC Plan, Messrs. Boushy, Kanofsky and Walsh were eligible for single-trigger change in control severance payments under the terms of their existing employment agreements. The terms of the CIC Plan as adopted by the Committee reflect the Committee's views that (i) best practices dictate that change in control payments should only be payable following termination of an executive officer's employment (i.e., double-trigger benefits), rather than solely upon the occurrence of the change in control (single-trigger) and (ii) the benefits payable to any executive officer should be set at that level necessary to fairly compensate the officer for income opportunities and other benefits lost in connection with a change of employment rather than to enrich the officer upon a change in control. Prior to adopting the CIC Plan, the Committee also reviewed projections of total change in control severance costs and determined they were reasonable and not likely to impede or affect the consideration payable in a potential change in control transaction.

The purpose of the CIC Plan is to provide compensation and benefits to certain senior-level employees of the Company and its subsidiaries upon certain change in control events (a "Change in Control") involving the Company. The CIC Plan and a similar plan adopted by the Committee in December 2007 for director-level employees cover each of the Company's current named executive officers and all other current and future employees of the Company and its subsidiaries in the position of director or higher, with the exception of Mr. Steinbauer, our Chief Financial Officer, and two other executives who elected to retain the benefits in their existing employment agreements in lieu of participating in the CIC Plan. All compensation and benefits provided to participants under the CIC Plan are in lieu of, and not in addition to, any severance or other termination pay or benefits payable specifically as a result of a Change in Control or a termination of employment within a specified period following a Change in Control that are provided for in any employment agreement between the Company or one of its subsidiaries and a participant.

Under the CIC Plan, upon the occurrence of a Change in Control, except as otherwise expressly provided in the applicable plan document or award agreement, all outstanding and unvested stock options and restricted stock held by each participant shall become vested and non-forfeitable, without regard to whether the participant's employment is terminated. This provision of the CIC Plan reflects a continuation of the pre-existing terms of the Stock Incentive Plan applicable to all participants and does not increase any benefits. The award agreements for the performance share units granted to the named executive officers in 2007 contain the same provision.

The CIC Plan provides for additional compensation on a double-trigger basis. If a participant's employment is terminated within a one-year period following a Change in Control by a participant for a defined Good Reason, or by the Company for any reason other than Cause or the participant's death or Disability (as defined), the participant

Table of Contents

will be entitled to a lump-sum cash payment, payable within 10 days following the participant's last day of employment, equal to, as applicable to the named executive officers:

if the participant is employed in a position above Senior Vice President level (Messrs. Boushy and Kanofsky), two times the sum of the participant's then-current annual base salary and target annual incentive bonus, plus a prorated target annual incentive bonus for the year in which the participant's employment termination date occurs; and

if the participant is employed at the Senior Vice President level (including Messrs. Neilsen and Walsh), one and one-half times the sum of the participant's annual base salary and target annual incentive bonus, plus a prorated target bonus for the year in which the participant's termination date occurs.

The Committee set the levels of these payments with reference to compensation payable in the event of a change in control within the Company's peer group and among other comparable companies, with the Company's benefits established slightly below median levels. In addition, the larger proportion of salary payable to more senior executives is intended to reflect the additional time that may be required for such an executive to find a comparable position.

For a description of the specific payments that would be made to our named executive officers in connection with a Change in Control pursuant to the CIC Plan and Mr. Steinbauer's employment agreement based on certain assumptions, see Potential Payments Upon Termination of Employment or Change in Control.

For 18 months, in the case of participants employed at the Senior Vice President level or higher, following a participant's last day of employment, the participant and his or her eligible dependents will be entitled to continue to participate at the Company's expense in the Company's primary and supplemental executive health benefit plans as in effect immediately prior to the Change in Control, pursuant to the terms of the Consolidated Omnibus Budget Reconciliation Act of 1985 (COBRA). This benefit was previously provided in Messrs. Boushy's, Kanofsky's, Steinbauer's and Walsh's employment agreements and will continue under Mr. Steinbauer's employment agreement, notwithstanding that he is not participating in the CIC Plan.

In general, if an executive officer who is a participant in the CIC Plan becomes subject to the excise tax on excess parachute payments under Section 4999 of the Code, the Company will reimburse the participant for an amount equal to the amount of any such taxes imposed or to be imposed on the participant, and will gross up the tax reimbursement by paying the participant an additional amount equal to the total amount of any additional taxes (including income taxes, excise taxes, special taxes and employment taxes) that are payable by the participant as a result of the tax reimbursement, such that after payment of such additional taxes the participant will have received on a net after-tax basis an amount equal to the tax reimbursement. The Committee believed that such gross-up was reasonable based on competitive practices in order to ensure that the participants receive the intended net benefits under the CIC Plan and concluded that the projected gross-up costs would not be material to the Company.

Section 162(m) of the Internal Revenue Code

Section 162(m) disallows a deduction for federal income tax purposes of most compensation exceeding \$1,000,000 in any year paid to the chief executive officer and each of certain other executive officers of a publicly traded corporation. However, performance-based compensation, as defined in the Code, is fully deductible. Our policy is to qualify our incentive compensation programs for full income tax deductibility to the extent feasible and consistent with our overall compensation goals. The Committee takes into account the effect of Section 162(m) if the potential compensation payable to any executive officer approaches \$1,000,000. However, the fact that compensation in excess of \$1,000,000 may not be deductible for federal income tax purposes will not necessarily preclude the award of such compensation if the Committee believes it is otherwise justified. Incentive bonus payments made to executive officers

pursuant to the Bonus Plan qualify as performance-based compensation.

The Company was in 2007, and likely will be in 2008 and 2009, limited by Section 162(m) in the deductibility of expense recognized as a result of the vesting of an award of restricted stock, that was not a performance-based award, to Mr. Boushy upon his hiring in 2006. In addition, the Committee, in order to adjust for a change in accounting not reflected in the establishment of the 2007 Bonus Criteria, paid a discretionary cash bonus of \$19,200 to Mr. Boushy that does not qualify as performance-based compensation. See Cash Incentive Bonus above.

(1) Salary consists of base salary, including amounts paid as paid time off (PTO) used by the named executive officer.

(2)

Represents: (i) a one-time sign-on bonus paid to Mr. Boushy when he started working for the Company in 2006; and (ii) cash bonuses for 2007 performance paid in January 2008 outside of the Bonus Plan.

- (3) Represents: the amount of expense we recognized in the applicable year for financial statement reporting purposes, calculated in accordance with Statement of Financial Accounting Standards No. 123(R) (FAS 123(R)), in connection with (i) the issuance of 95,876 restricted shares of Common Stock to Mr. Boushy when he agreed to join the Company on July 28, 2006. This value is determined by multiplying the number of the restricted shares that vested on each of January 1, 2007 and 2008 (31,959) by the closing sale price of the Common Stock on August 29, 2006, the date Mr. Boushy commenced employment with us (\$20.77); and (ii) the grant of performance share units to each of the named executive officers in December 2007. This value is calculated as set forth in Note 8 of the Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended December 31, 2007, which was filed with the SEC on February 29, 2008 (the 2007 Form 10-K).
- (4) Represents the amount of expense we recognized in the applicable year for financial statement reporting purposes, calculated in accordance with FAS 123(R), in connection with the grant of stock options to the individuals in that year and prior years. The assumptions used to calculate these values are set forth in Note 8 of the Notes to Consolidated Financial Statements included in the 2007 Form 10-K and in Note 2 of the Notes to Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended December 31, 2004, which was filed with the SEC on March 16, 2005. Estimates of forfeitures were disregarded in this calculation.

Table of Contents

- (5) Represents payment for performance in the applicable year made in January of the following year under the Bonus Plan for 2007 and our 2006 incentive cash bonus program for senior management.
- (6) The table below show the components of this column for 2007, which include: the Company match on each individual's 401(k) Plan contributions and on each individual's Deferred Compensation Plan deferrals (including on deferrals of the individuals' 2007 annual bonus that was paid in January 2008); the cost of excess term life insurance provided without charge to Mr. Kanofsky; reimbursement of monthly mortgage payments for Mr. Neilsen's home in Las Vegas, Nevada; and the cost of providing health benefits for each individual and his or her covered dependents. The named executive officers received certain perquisites and other personal benefits, including complimentary food, lodging and entertainment at properties owned or leased by us; however, no named executive officer individually received perquisites or other personal benefits with an aggregate value, based on the Company's incremental cost, of \$10,000 or more.

Table of Contents

- (1) These columns show the range of payouts targeted for 2007 performance under the Bonus Plan as described in the section entitled Components of Compensation for 2007 Cash Incentive Bonus of Compensation Discussion and Analysis. The January 2008 bonus payments for 2007 performance were made on the basis of the metrics described in that section, at 62% of target (before consideration of each named executive officer's merit performance grade), and are shown in the Non-Equity Incentive Plan Compensation column of the Summary Compensation Table. The Target amount assumes that the named executive officer's bonus is not reduced based on his merit performance grade.
- (2) These columns show the range of payouts targeted for cumulative 2008-2009 performance under the 2007 performance share unit grants awarded by the Compensation Committee in December 2007, as described in the section entitled Components of Compensation for 2007 Equity-Based Compensation Performance Share Units of Compensation Discussion and Analysis.
- (3) This column shows stock options granted under the Stock Incentive Plan, which are described in the section entitled Components of Compensation for 2007 Equity-Based Compensation Options of Compensation Discussion and Analysis and in the Outstanding Equity Awards at December 31, 2007 table. The options granted to the named executive officers on December 15, 2007 were part of our annual equity award program.
- (4) For purposes of the Stock Incentive Plan, the fair market value per share of our Common Stock on the date of grant is defined as the average of the high and low sale prices of the Common Stock on the Nasdaq Global Select Market on that date or, if the date of grant is not a trading day, on the next trading day (in this case, on December 17, 2007, since December 15, 2007 was not a trading day). We have consistently granted options on that basis rather than using the closing market price on the date of grant.
- (5) The amounts shown in this column represent the fair value of the performance share unit and option awards as of the grant date, determined pursuant to FAS 123(R). Regardless of the value placed on a performance share unit or a stock option on the grant date, the actual value of the performance share unit or the option will depend on the market price of our Common Stock at such date in the future when the performance shares are issued (assuming the applicable performance objectives are satisfied) or the option is exercised.

Table of Contents

- (1) These columns show restricted shares of Common Stock granted to Mr. Boushy when he agreed to join the Company on July 28, 2006. 31,959 of the shares vested on each of January 1, 2007 and 2008 and, assuming continued employment or other qualifying relationship with the Company, 31,958 shares will vest on January 1, 2009. The restricted shares pay dividends during the restriction period in additional restricted shares at the same rate as dividends paid on other outstanding shares of Common Stock. Dividend shares are issued based on the market value of the Common Stock on the record date for the applicable dividend and are subject to the same vesting restrictions as the shares on which the dividends are paid. The dividend shares are not included in this table. The market value of the shares shown in the table is calculated based on the closing sale price of the Common Stock on December 31, 2007 (\$27.54).
- (2) These columns show performance share units granted under the Stock Incentive Plan to each of the named executive officers on December 15, 2007 as part of our annual equity award program. Each performance share unit represents the right to receive one share of Common Stock when the performance share unit has been earned and has vested. The number of performance share units earned will range from zero to 200% of the number of units granted, based on the extent to which the specified performance objectives are attained for the two-year performance period ending December 31, 2009. Assuming continued employment or other qualifying relationship with the Company, 50% of the earned performance share units will vest on February 8, 2010, 25% of the earned performance share units will vest on December 31, 2010 and 25% of the earned performance share units will vest on December 30, 2011. Dividends or dividend equivalents are not payable with respect to the performance share units. The number of performance share units shown in the table is based on achievement of the performance objectives at the target level during the performance period and the payout value is calculated based on the closing sale price of the Common Stock on December 31, 2007 (\$27.54).

Potential Payments Upon Termination of Employment or Change in Control

Pursuant to employment agreements in effect as of December 31, 2007 between the Company and each of Messrs. Boushy, Kanofsky, Walsh and Steinbauer and our Change in Control Severance Plan (the CIC Plan) in which

Messrs. Boushy, Kanofsky, Neilsen and Walsh are participants, each of them would be entitled to receive certain payments and benefits upon termination of their employment under certain circumstances, including following a change in control of the Company ("CIC"), as described below. Except in the case of voluntary termination by Mr. Steinbauer as described below, none of the named executive officers would be entitled to any payments or benefits upon voluntary termination of employment by the executive officer without good reason (as defined in the employment agreements and the CIC Plan), retirement, termination as a result of death or disability (as defined in the employment agreements) or termination by the Company for cause (as defined in the employment agreements and the CIC Plan), other than (i) distribution of vested account balances in our Deferred Compensation Plan as described below and (ii) payments and benefits provided on a non-discriminatory basis to salaried employees generally.

Mr. Boushy. If we terminate Mr. Boushy's employment without cause (including failing to renew his employment agreement at the end of any annual term), or if Mr. Boushy terminates his employment for good reason, in either case at any time prior to a CIC or after one year following a CIC, Mr. Boushy is entitled to receive (i) severance equal to two times his annual base salary, payable in equal installments over 24 months (a total of \$1,600,000 as of December 31, 2007), (ii) continuation of Company-paid primary and supplemental executive health benefits for Mr. Boushy and his eligible dependents for 18 months (having an estimated cost to the Company of \$39,915 as of December 31, 2007, based on the Company's 2007 COBRA rates) and (iii) the continued vesting

Table of Contents

for two years of his 210,000 stock options that vest in equal installments on January 1, 2007, 2008 and 2009, and the right to exercise any or all of those vested options during such two-year period. Such payments and benefits would be contingent on Mr. Boushy (i) signing a release of all claims against the Company and (ii) abiding by the non-competition and non-solicitation provisions of his employment agreement, which generally provide that he will not engage in certain activities in competition with the Company, and will not solicit or hire Company employees or attempt to divert existing business from the Company, for a period of 12 months following termination of employment.

Assuming that a CIC occurred on December 31, 2007 at a transaction price of \$27.54, the closing price of our Common Stock on December 31, 2007 (the CIC Assumption), as is the case with all employees who hold equity awards, Mr. Boushy's unvested stock options, restricted stock and performance share units would vest immediately upon the CIC (having a value of \$5,551,743). The unvested portion of his Deferred Compensation Plan account balance (\$40,328) would also vest immediately upon the CIC. If Mr. Boushy's employment is terminated without cause, or if he terminates his employment for good reason, as defined in the CIC Plan, within one year following the CIC, he would receive, in lieu of the above-described severance payments, (i) a severance payment equal to two times his annual base salary and target incentive bonus in effect at the time of the CIC or at the time of his termination, whichever is greater, payable in a lump sum (\$3,200,000 as of December 31, 2007) and (ii) continuation of his health benefits for 18 months following termination as provided above. Additionally, Mr. Boushy would be entitled to be reimbursed (grossed-up) for any excise tax payable by him under Section 4999 of the Code as well as any income and excise taxes payable by him as a result of the reimbursement for the Section 4999 excise tax (having a value of \$1,940,672, based on the CIC Assumption, a Section 4999 excise tax rate of 20%, a 35% federal income tax rate and a 1.45% Medicare tax rate). Such severance payments and benefits would be contingent on Mr. Boushy signing a release of all claims against the Company.

Mr. Kanofsky. If we terminate Mr. Kanofsky's employment without cause (including failing to renew his employment agreement at the end of any annual term), or if Mr. Kanofsky terminates his employment for good reason, in either case at any time prior to a CIC or after one year following a CIC, Mr. Kanofsky is entitled to receive (i) severance equal to two times his annual base salary, payable in equal installments over 24 months (a total of \$1,050,000 as of December 31, 2007) and (ii) continuation of Company-paid primary and supplemental executive health benefits for Mr. Kanofsky and his eligible dependents for 18 months (having an estimated cost to the Company of \$39,915 as of December 31, 2007). Such payments and benefits would be contingent on Mr. Kanofsky (i) signing a release of all claims against the Company and (ii) abiding by the non-competition and non-solicitation provisions of his employment agreement for a period of 24 months following termination of employment.

Based on the CIC Assumption, Mr. Kanofsky's unvested stock options and performance share units would vest immediately upon the CIC (having a value of \$1,177,957). If Mr. Kanofsky's employment is terminated without cause, or if he terminates his employment for good reason, as defined in the CIC Plan, within one year following the CIC, he would receive, in lieu of the above-described severance payments, (i) a severance payment equal to two times his annual base salary and target incentive bonus in effect at the time of the CIC or at the time of his termination, whichever is greater, payable in a lump sum (\$1,942,500 as of December 31, 2007) and (ii) continuation of his health benefits for 18 months following termination as provided above. Such severance payments and benefits would be contingent on Mr. Kanofsky signing a release of all claims against the Company. Based on the CIC Assumption, no excise tax would be payable by Mr. Kanofsky.

Mr. Neilsen. Mr. Neilsen does not have an employment agreement with the Company and is not entitled to any severance payments or benefits in the event of termination of his employment for any reason prior to a CIC (other than payments and benefits provided on a non-discriminatory basis to salaried employees generally).

Based on the CIC Assumption, Mr. Neilsen's unvested stock options and performance share units would vest immediately upon the CIC (having a value of \$488,695). If Mr. Neilsen's employment is terminated without cause, or if he terminates his employment for good reason, as defined in the CIC Plan, within one year following the CIC, he would receive (i) a severance payment equal to one and one-half times his annual base salary and target incentive bonus in effect at the time of the CIC or at the time of his termination, whichever is greater, payable in a lump sum (\$787,500 as of December 31, 2007) and (ii) continuation of Company-paid primary and supplemental executive health benefits for Mr. Neilsen and his eligible dependents for 18 months (having an estimated cost to the Company

Table of Contents

of \$30,813 as of December 31, 2007). Such severance payments and benefits would be contingent on Mr. Neilsen signing a release of all claims against the Company. Based on the CIC Assumption, no excise tax would be payable by Mr. Neilsen.

Mr. Walsh. If we terminate Mr. Walsh's employment without cause (including failing to renew his employment agreement at the end of any annual term), or if Mr. Walsh terminates his employment for good reason, in either case at any time prior to a CIC or after one year following a CIC, Mr. Walsh is entitled to receive (i) severance equal to one times his annual base salary, payable in equal installments over 12 months (a total of \$400,000 as of December 31, 2007) and (ii) continuation of Company-paid primary and supplemental executive health benefits for Mr. Walsh and his eligible dependents for 18 months (having an estimated cost to the Company of \$34,350 as of December 31, 2007). Such payments and benefits would be contingent on Mr. Walsh (i) signing a release of all claims against the Company and (ii) abiding by the non-competition and non-solicitation provisions of his employment agreement for a period of 12 months following termination of employment.

Based on the CIC Assumption, Mr. Walsh's unvested stock options and performance share units would vest immediately upon the CIC (having a value of \$689,229). If Mr. Walsh's employment is terminated without cause, or if he terminates his employment for good reason, as defined in the CIC Plan, within one year following the CIC, he would receive, in lieu of the above-described severance payments, (i) a severance payment equal to one and one-half times his annual base salary and target incentive bonus in effect at the time of the CIC or at the time of his termination, whichever is greater, payable in a lump sum (\$1,050,000 as of December 31, 2007) and (ii) continuation of his health benefits for 18 months following termination as provided above. Such severance payments and benefits would be contingent on Mr. Walsh signing a release of all claims against the Company. Based on the CIC Assumption, no excise tax would be payable by Mr. Walsh.

Mr. Steinbauer. If we terminate Mr. Steinbauer's employment without cause, or if Mr. Steinbauer terminates his employment for any reason, including retirement, voluntary resignation, death or disability, Mr. Steinbauer is entitled to receive (i) a lump-sum severance payment of \$275,000, (ii) continuation of Company-paid primary and supplemental executive health benefits for Mr. Steinbauer and his eligible dependents for 18 months (having an estimated cost to the Company of \$34,350 as of December 31, 2007) and (iii) an extension of the right to exercise all of his stock options that were vested as of the date of termination until the later of one year following termination or 90 days after the cessation of any qualifying relationship (including a relationship as a Director or consultant) with the Company. Such payments and benefits would be contingent on Mr. Steinbauer signing a release of all claims against the Company. Mr. Steinbauer's employment agreement contains a covenant not to compete with the Company (but not a non-solicitation covenant) for a period of one year following termination of employment, although the foregoing payments and benefits are not expressly conditioned on Mr. Steinbauer abiding by the non-competition covenant. Mr. Steinbauer would not be entitled to receive any additional payments or benefits in the event of a CIC, other than the immediate vesting of all of his unvested stock options and performance share units (having a value of \$573,488 based on the CIC Assumption) and the payments and benefits provided on a non-discriminatory basis to salaried employees generally.

In the event a named executive officer's employment terminates for any reason, whether before or after a CIC, the officer's vested account balance in the Deferred Compensation Plan will be distributed to him in a lump sum or, in the case of retirement, over a period of years previously selected by the officer. As of December 31, 2007, these balances are: Mr. Boushy \$435,045; Mr. Kanofsky \$1,043,081; Mr. Neilsen \$97,572; Mr. Walsh \$839,443; and Mr. Steinbauer \$530,152.

Except as noted above with respect to the reimbursement of Section 4999 excise and related taxes to Messrs. Boushy, Kanofsky, Neilsen and Walsh in the event of a CIC, all payments and benefits described above are subject to applicable income, Medicare and other tax withholding.

Directors Compensation

Directors who are employees of the Company (Messrs. Boushy, Kanofsky, Neilsen and Steinbauer) receive no additional compensation for serving on the Board. In 2007, we provided the following compensation to non-employee Directors.

Table of Contents**Director Compensation for 2007**

(1) Represents the expense we recognized in 2007 for financial statement reporting purposes, calculated in accordance with FAS 123(R), in connection with the grant of stock options to the Directors in 2007 and 2006. The assumptions used to calculate these values are set forth in Note 8 of the Notes to Consolidated Financial Statements included in the 2007 Form 10-K. Estimates of forfeitures were disregarded in this calculation. All options granted to Directors vest in full one year from the date of grant. The following table shows the total number of stock options outstanding as of December 31, 2007 and the grant date fair value of each option granted in 2007. The grant date fair value of the stock options is determined in accordance with FAS 123(R). Regardless of the value placed on a stock option on the grant date, the actual value of the option will depend on the market value of the Common Stock at such date in the future when the option is exercised.

Name	Total Options Outstanding at December 31, 2007	Grant Date Fair Value of Options Granted in 2007
Carl Brooks	35,000	\$ 141,766
Luther P. Cochrane	35,000	\$ 141,766
Larry A. Hodges	139,000	\$ 141,766

J. William Richardson	72,500	\$ 141,766

(2) This amount represents fees paid to Mr. Hodges for service as Chairman of the Compliance Committee that oversees our Gaming Compliance Program. The Compliance Committee is not a Board committee.

In 2007, each non-employee Director received an annual Director's fee of \$40,000, paid in quarterly installments, plus \$3,500 for each Board meeting (and each Board committee meeting held other than in conjunction with a Board meeting) attended in person. The Chairmen of the Audit and Compensation Committees received an additional annual fee of \$15,000 and \$10,000, respectively, paid quarterly, for service in those capacities, with the fee for the Chairman of the Compensation Committee prorated from April 1, 2007 (i.e., a fee of \$7,500 was paid for 2007). Effective January 1, 2008, the annual Director's fee was increased to \$50,000 and the meeting attendance fee was increased to \$4,500. In 2007, each non-employee Director also received fees of \$8,000 for service on a special committee of the Board. Pursuant to our 2002 Non-Employee Directors' Stock Election Plan, each non-employee Director may elect to

be paid all or a portion of his or her Director's and Board committee fees in shares of Common Stock in lieu of cash. None of our current Directors has elected to do so.

Our Gaming Compliance Program requires one of the members of the Compliance Committee that oversees that Program to be an outside Director of the Company. Mr. Hodges has been appointed by the Board of Directors as the Chairman of the Compliance Committee. For these additional services, Mr. Hodges receives compensation of \$1,000 per meeting, whether attended in person or by telephone. Mr. Steinbauer is also a member of the Compliance Committee, but he does not receive any additional compensation for these services.

In 2007, the Company had in effect a policy of granting options to purchase 20,000 shares of Common Stock to each new non-employee Director who joins the Board and options to purchase 15,000 shares of Common Stock to each non-employee Director on the date of each annual meeting of stockholders so long as the Director has held such position for at least six months. All options granted pursuant to the policy become exercisable on the first anniversary of the grant date. We also reimburse each non-employee Director for reasonable out-of-pocket expenses incurred in his or her capacity as a member of the Board or its committees. No payments are made for participation in telephonic meetings of the Board or its committees or actions taken in writing.

TRANSACTIONS WITH RELATED PERSONS

Review and Approval of Transactions with Related Persons

Our Board of Directors is committed to upholding the highest standards of legal and ethical conduct in fulfilling its responsibilities and recognizes that related person transactions can present a heightened risk of potential or actual conflicts of interest. Accordingly, as a general matter, it is our preference to avoid transactions with related persons.

In January 2007, the Board adopted a written policy and procedures for review, approval and monitoring of transactions involving the Company or one of its subsidiaries and related parties (defined as Directors, nominees for election as Directors, executive officers and stockholders owning more than 5% of our outstanding Common Stock, or members of their immediate families). The policy generally covers any related party transaction in which the aggregate amount involved will or is expected to exceed \$100,000 in any calendar year in which a related party has a direct or material indirect interest.

The Audit Committee must review the material facts of all related party transactions and either approve or disapprove of the Company's entry into the transaction. If advance Audit Committee approval is not feasible, the related party transaction will be considered and, if the Audit Committee determines it to be appropriate, ratified at the Audit Committee's next regularly scheduled meeting. In determining whether to approve or ratify a transaction, the Audit Committee will take into account, among other factors, whether the transaction is on terms no less favorable to the Company than terms generally available in a transaction with an unaffiliated third party under similar circumstances and the extent of the related party's interest in the transaction. The Audit Committee has determined that certain types of related party transactions that are not considered to involve a significant risk of potential or actual conflicts of interest are deemed to be pre-approved or ratified by the Audit Committee under the policy. Additionally, the Board has delegated to the Chairman of the Audit Committee the authority to pre-approve or ratify any related party transaction in which the aggregate amount involved is expected to be less than \$250,000.

A Director will not participate in any discussion or approval of a related party transaction in which he or she is a related party, but will provide all material information concerning the transaction to the Audit Committee. If a related party transaction will be ongoing, the Audit Committee may establish guidelines for management to follow in its dealings with the related party. Thereafter, the Audit Committee, on at least an annual basis, will review and assess ongoing relationships with the related party to see that they are in compliance with the Audit Committee's guidelines and that the transaction remains appropriate.

Any executive officer, Director or nominee, or a greater-than-5% stockholder employed by the Company, who proposes to enter into a related party transaction must notify the Chairman of the Audit Committee prior to engaging in the transaction and provide all material information concerning the proposed transaction to the Chairman. Any executive officer or Director who becomes aware that the Company proposes to enter into a related party transaction with a greater-than-5% stockholder who is not employed by the Company must provide this notification to the Chairman.

All related party transactions will be disclosed in our filings with the SEC to the extent required under SEC rules.

Certain Relationships and Related Party Transactions

Each of the following transactions and relationships was reviewed and approved by the Audit Committee pursuant to the Board's related party transactions policy described above:

The Neilsen Foundation is a private charitable foundation established by Craig H. Neilsen, our former Chairman of the Board, Chief Executive Officer and majority stockholder, that is primarily dedicated to spinal cord injury research and treatment. During 2007, our former Director of Charitable Giving and Community Relations, whom we paid as a full-time employee, devoted approximately one-half of her time to the business of the Neilsen Foundation. In February 2008, she became a full-time employee of the Neilsen Foundation and continues to occupy Company office space and receive Company-provided administrative assistance without charge to the Neilsen Foundation under a revocable license from the Company. Messrs. Neilsen and Kanofsky are the co-trustees and are

Table of Contents

members of the board of directors of the Neilsen Foundation and devote a portion of their time to its affairs, and certain other Company employees provide services to the Neilsen Foundation on an incidental basis. As part of its charitable giving program, the Company is supportive of the goals and objectives of the Neilsen Foundation and considers the expenditure of time by Company employees on behalf of the Neilsen Foundation without compensation to the Company to be consistent with those goals and objectives. Accordingly, the Audit Committee has waived the Company's policy requiring the Neilsen Foundation to reimburse the Company for services provided by our employees to the Neilsen Foundation.

Messrs. Neilsen and Kanofsky are the co-executors of the Neilsen Estate. Since Craig H. Neilsen's death in November 2006, Messrs. Neilsen and Kanofsky have provided, and they expect to continue to provide for an indefinite period, personal services in connection with the administration of the Neilsen Estate. The Audit Committee has reviewed the provision of these services to the Neilsen Estate as well as the time and effort devoted by Messrs. Neilsen and Kanofsky on behalf of the Company, and the Audit Committee has determined that it has not detracted and will not detract in any significant manner from the performance of Messrs. Neilsen's and Kanofsky's respective duties to the Company, has not resulted and will not result in the Company incurring any incremental payroll or other costs and does not create a conflict of interest. Accordingly, the Audit Committee has waived the Company's policy to the extent that it would otherwise require reimbursement to the Company with respect to services provided to the Neilsen Estate by Messrs. Neilsen and Kanofsky in their capacities as co-executors of the Neilsen Estate. The Audit Committee will review periodically, not less frequently than annually, the relevant facts and circumstances to determine whether it is appropriate and in the best interest of the Company to rescind this waiver or modify it in any respect.

IV. Responsibilities and Duties.

The Committee's specific responsibilities and duties shall include the following:

1. Since the Accountants are ultimately accountable to the Committee and the Board, as representatives of the stockholders, the Committee shall: (a) be directly responsible for the appointment, retention and compensation of the Accountants, considering independence, effectiveness and cost; (b) review and discuss with the Accountants the scope and extent of the Accountants' annual audit, including, without limitation, the terms of the Accountants' engagement letter and the compensation to be paid to the Accountants; and (c) review the performance of the Accountants on an annual basis and, if the circumstances warrant, determine whether to terminate the Accountants (including with such determination the reasons for such termination). The Committee shall be directly responsible for the oversight of the work of the Accountants (including resolution of disagreements between Management and the Accountants regarding financial reporting) for the purpose of preparing or issuing an audit report or related work, and the Accountants shall report directly to the Committee. In its review of the scope of the Accountant's annual audit, the Committee shall consider, as and to the extent it deems appropriate: (i) the industry and business risk characteristics of the Company; (ii) the Company's external reporting requirements; (iii) the materiality of the Company's various properties and business segments; (iv) the quality of internal accounting controls; and (v) the degree of involvement and reliability of the Internal Audit Department.

2. The Committee shall pre-approve all audit and non-audit services of the Accountants, subject to a *de minimis* exception. Alternatively, the engagement of the Accountants may be entered into pursuant to pre-approved policies and procedures established by the Committee.

3. The Committee shall review with Management and the Accountants the Company's annual and quarterly financial statements. Such review shall include a review of:

An analysis of the Accountant's judgment as to the quality of the Company's accounting principles, setting forth significant financial reporting issues and judgments made in connection with the preparation of the financial statements;

The financial information to be included in the Company's Annual Report on Form 10-K (the Annual Report), including the financial statements, financial schedules, Management's Discussion and Analysis of Financial Condition and Results of Operations and all other financial disclosures required by generally accepted accounting principles (GAAP) and the rules and regulations of the SEC as in effect from time to time, and including accounting policies that may be regarded as critical;

Major issues regarding the Company's significant accounting policies, principles and practices and all material judgments made and accounting estimates used by Management in preparing the financial statements;

All alternative treatments of financial information within GAAP that have been discussed with Management, ramifications of the use of those alternative disclosures and treatments and the treatment preferred by the Accountants and the reasons for favoring that treatment;

Any significant disagreements between any of Management, the Internal Audit Department and the Accountants encountered during the course of the Company's annual audit or otherwise, and any limitations in scope or impediments to accessing information imposed on the Accountants or the Internal Audit Department by Management;

Any significant adjustments to the Company's financial results that are or were proposed by the Accountants;

Any material written communications between the Accountants and Management, such as any management letter or schedule of unadjusted differences;

Any significant variance between the Company's anticipated or forecasted results and the Company's actual results for the year; and

Any other matters required to be discussed in accordance with Statement on Auditing Standards No. 114, as in effect from time to time (SAS 114).

4. Each year, prior to the filing of the Company's Annual Report with the SEC, the Committee shall require the Accountants to submit a written report to the Committee: (a) delineating all relationships between the Accountants and the Company which, in the Accountants' professional judgment, may reasonably be thought to bear on its independence; and (b) confirming that, in the Accountants' professional judgment, they are independent of the Company within the meaning of the securities laws, SEC rules and regulations and applicable Nasdaq listing standards. The Committee shall review the Accountants' report and all non-audit services provided by the Accountants, and shall discuss such report and services with the Accountants, to the extent necessary or appropriate to allow the Committee to make an informed conclusion with respect to whether the Accountants possess the independence and objectivity required for the audit.

5. Based on the matters set forth in Items 3 and 4 above, the Committee shall recommend to the Board whether or not the financial information proposed to be included in the Annual Report should be so included.

6. The Committee shall cause audit partners of the Accountants to be rotated as required by Section 10A(j) of the Exchange Act and the SEC's related rules and regulations.

7. The Committee shall establish clear Company hiring policies for employees or former employees of the Accountants.

8. Each year, the Committee shall submit a report to the Company to be included in the Company's Proxy Statement covering all matters required to be covered by the rules and regulations of the SEC and applicable Nasdaq listing standards.

9. The Committee or the Chairman shall meet (in person or by telephone) with the Company's Chief Financial Officer and the Accountants to review and discuss the Company's unaudited quarterly financial statements before the public release thereof. The Committee or the Chairman, as the case may be, shall discuss with the Company's Chief Financial Officer any significant variance between the Company's anticipated or forecasted results and the Company's actual results for the quarter. The Committee or the Chairman shall review and discuss earnings press releases and earnings guidance before any such information is released to the market.

10. The Committee shall, from time to time as it determines appropriate, consult with the Accountants, outside of the presence of Management, regarding the adequacy and effectiveness of the Company's system of internal control and the accuracy and completeness of the Company's disclosure controls and procedures and management reports thereon.

11. The Committee shall from time to time as it deems appropriate, but in no event less frequently than annually, review with Management the adequacy of the Company's system of internal control over financial reporting. The Committee shall receive reports from Management and the Accountants regarding whether there have been any significant changes to the Company's system of internal control over financial reporting.

12. The Committee shall review and approve, as it deems appropriate, all material changes to the Company's accounting policies, principles and practices (Policies, Principles and Practices), other than those required by law, regulation or GAAP, and shall review the extent to which all changes to Policies, Principles and Practices have been implemented (allowing an appropriate amount of time for the implementation thereof). In determining whether any material change to Policies, Principles and Practices is appropriate, the Committee shall consider the Accountants judgment about the appropriateness thereof.

13. The Committee shall review and approve, as it deems appropriate, all material changes in the accounting, financial reporting or internal control-related duties of the Company's Chief Financial Officer.

15. At each of its meetings, the Committee shall review the activities of the Internal Audit Department and the extent to which the policies and procedures followed by the Internal Audit Department focus on significant risk areas to the Company. The Committee shall also periodically review the Company's practices with respect to risk assessment and risk management.

17. The Committee shall review and discuss with Management and the Accountants significant accounting and reporting issues, including recent professional and regulatory pronouncements. The Committee may request the Accountants to provide the Committee with periodic reports and supplementary materials to enable the Committee to perform this review.

18. The Committee shall, from time to time as it deems appropriate, review other matters that come to its attention in areas such as security and surveillance, legal and regulatory compliance, information technology systems, and other subject matters that could have a material impact on the Company's financial results and financial statements (Other Subject Matters). In addition, the Committee shall meet with Management as it deems appropriate to assess generally the adequacy, from a financial reporting perspective, of the Company's policies and procedures and operations related to Other Subject Matters. The Committee shall recommend to Management or the Board any actions the Committee believes are necessary or appropriate to ensure that the Company's policies and procedures and operations relating to Other Subject Matters are adequate to provide effective internal control.

19. The Committee shall review and discuss with Management and the Accountants any material financial or non-financial arrangements of the Company that do not appear on the financial statements of the Company.

25. The Committee shall, from time to time, perform any other activities consistent with this Charter, the Company's Articles of Incorporation and Bylaws and applicable law as the Committee or the Board deems appropriate.
