**INDEPENDENT AUDITORS REPORT**

Board of Directors  
Camco, Inc. dba SuperPawn  
Las Vegas, Nevada

We have audited the accompanying balance sheet of Camco, Inc. dba SuperPawn (the Company ) as of December 31, 2003, and the related statements of income, stockholder s equity and cash flows for the year ended December 31, 2003. These financial statements are the responsibility of the Company s management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the financial position of the Company at December 31, 2003, and the results of its operations and its cash flows for the year ended December 31, 2003, in conformity with accounting principles generally accepted in the United States of America.

**NOTES TO FINANCIAL STATEMENTS  
YEAR ENDED DECEMBER 31, 2003**

**1. NATURE OF THE COMPANY**

Camco, Inc. (the Company) was incorporated in the state of Nevada in July 1968. The Company provides two services to individuals in the western United States. The primary activity is the disposition of merchandise, mainly collateral from unredeemed pawn loans. The Company also offers secured non-recourse loans, commonly referred to as pawn loans, to individuals through its lending operations. In August 2003, the Company began offering unsecured payday loans. As of December 31, 2003, the Company's operations consisted of 39 locations located in Nevada, Arizona, California and Washington.

See note 10 for discussion on sale of the operating assets of the Company to Cash America International, Inc. (Cash America).

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

***Interim Financial Information*** The accompanying unaudited interim condensed consolidated financial statements reflect all adjustments, consisting of normal recurring adjustments, which management believes are necessary to present fairly the financial position, results of operations and cash flows of the Company as of September 30, 2004 and for the nine-month period ended September 30, 2004 and 2003. The results of operations for an interim period are not necessarily indicative of the results that may be expected for any other interim period or the year as a whole.

***Use of Estimates*** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates. Significant estimates made by the Company include the useful lives of the depreciable or amortizable assets and the allowance for the inventory reserve.

***Cash and Cash Equivalents*** Cash and cash equivalents consist of all cash accounts that are not subject to withdrawal restrictions or penalties and all highly liquid investments with a maturity, when purchased, of three months or less.

***Pawn Loans and Income Recognition*** Pawn loans are made on the pledge of tangible personal property. Pawn service charges are accrued only for those loans for which collection is deemed to be probable based upon historical loan redemption statistics. When a loan is not paid by its maturity, the collateral is transferred to inventory at its cost basis (the principal amount loaned) and offered for sale.

***Merchandise Sales*** Revenue is recognized at the time of disposition of merchandise. Interim customer payments for layaway sales are recorded as a liability and subsequently recognized as revenue during the period in which final payment is received.

***Payday Loans and Income Recognition*** Payday loans are short-term, unsecured loans where customers pledge their next paycheck for repayment. Payday loans are made based on verification of employment, current

**Table of Contents**

bank account and check-writing history. The length of the loan is 14 days with a service charge of \$15 per \$100 loaned.

Payday loans and related service charges are recognized on loans for which collection is deemed to be probable based upon historical loan redemption statistics. The Company considers a loan in default if it has not been repaid or refinanced by the maturity date. Although defaulted loans may be later collected, the Company fully reserves loans over 60 days old.

**Merchandise Inventories** Merchandise inventories are stated at the lower of cost (specific identification) or market value. Inventory consists of merchandise acquired from forfeited loans and merchandise purchased from customers and vendors. The Company provides an allowance for shrinkage and valuation based on management's evaluation of the merchandise. The allowance deducted from the carrying value of inventory amounted to \$539,251 at December 31, 2003.

**Property and Equipment** Property and equipment are stated at cost. The cost of normal maintenance and repairs is charged to expense as incurred. Gains or losses on disposals are recognized as incurred. Leasehold improvements are amortized over the economic life of the improvement to the asset or the life of the lease (lease term), whichever is shorter.

Estimated useful lives of property and equipment are as follows:

Buildings	31.5
Furniture and fixtures	7 10
Leasehold improvements	5 30
Automobiles	5
Computer equipment and software	3 5

**Long-Lived Assets** The Company follows the provisions of Statement of Financial Accounting Standards ( SFAS ) No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*. SFAS No. 144 requires that long-lived assets be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets.

The Company believes that no adjustment for impairment is necessary at December 31, 2003.

**Software Development Costs** In 1999, the Company adopted the Accounting Standards Executive Committee Statement of Position ( SOP ) 98-1, *Accounting for the Costs of Computer Software Developed or Obtained for Internal Use*. SOP 98-1 requires the Company to capitalize certain internal use software costs once certain criteria are met. The Company capitalized \$694,653 of internal use software costs into computer equipment and software costs within property and equipment at December 31, 2003. These costs are amortized using the straight-line method over an estimated useful life of three years.

**Goodwill and Intangible Assets** Intangible assets consist primarily of restricted pawnshop licenses, non-compete agreements and the goodwill represents excess purchase price over net assets acquired. As of January 1, 2002, the Company adopted SFAS No. 142, *Goodwill and Other Intangible Assets*. As a result of adopting SFAS No. 142, the above assets are no longer amortized, and intangible assets are to be tested annually for impairment.

***Merchandise Credits*** Merchandise credits represent sales deposits and customer credits and are recorded as a liability until the entire related sales price has been collected.

## **Table of Contents**

***Income Tax Status*** The Company has elected to be taxed under the provisions of Subchapter S of the Internal Revenue Code. Under those provisions, the Company does not pay federal corporate income taxes on its taxable income. Instead, the sole stockholder includes the Company's taxable income in his individual income tax return.

***New Store Acquisitions*** Acquisitions are accounted for using the purchase method of accounting. Accordingly, the purchase price is allocated to assets acquired based upon their estimated fair market values at the date of acquisition. The excess purchase price over the fair market value of the net tangible assets acquired is recorded as intangible assets in the accompanying balance sheets. The results of operations of the acquired pawnshops are then included in the Company's operations from their respective dates of acquisition. In connection with certain acquisitions, the Company may enter into a non-compete agreement with the former owners.

***Derivative Instruments*** The Financial Accounting Standards Board ( FASB ) issued SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, which requires all derivative instruments to be recognized on the balance sheet at fair value. Derivatives that are not designated as cash flow hedges must be adjusted to fair value through income. If the derivative is a hedge, depending on the nature of the hedge, changes in its fair value will either be offset against the change in fair value of the hedged item through earnings or recognized in other comprehensive income until the hedged item is recognized in earnings. The ineffective portion of a derivative's change in fair value will be immediately recognized in earnings. The Company's only derivative instruments are interest rate swap agreements used for the purpose of managing the risks associated with market fluctuations in interest rates on a portion of its variable rate borrowings. These derivative financial instruments have an initial aggregate notional amount of approximately \$21 million and mature in 2006. These derivative financial instruments were not designated as hedges during 2003. During the year ended December 31, 2003, the Company recorded a \$118,925 gain from derivative valuation fluctuations in interest expense and other liabilities on the balance sheet.

***Phantom Stock Plan*** In 2001, the Company issued 12,532 shares of phantom stock to key employees and directors ( Participants ) at the estimated fair market value of employer stock, defined as the weighted average of the current and prior two years' adjusted Earnings Before Interest, Taxes, Depreciation and Amortization ( EBITDA ), weighting at 50%, 35% and 15% for each respective year, multiplied by a factor of six. These phantom stock shares vest in 33.3% increments over three years. Upon exercise, Participants would be entitled to receive in cash the estimated fair market value of employer stock for the number of phantom shares held. The Company recorded an expense of approximately \$352,433 related to the phantom stock plan in 2003.

***Recently Issued Accounting Standards*** In August 2001, the FASB issued SFAS No. 143, *Accounting for Asset Retirement Obligations*, which addresses the financial accounting and reporting for obligations associated with the retirement of tangible long-lived assets and the associated asset retirement costs. SFAS No. 143 is effective for fiscal years beginning after June 15, 2003. The adoption of this statement did not have a material effect on the Company's financial position or results of operations.

In June 2002, the FASB issued SFAS No. 146, *Accounting for Costs Associated with Exit or Disposal Activities*, which is effective for exit or disposal activities initiated after December 31, 2002. This statement addresses financial accounting and reporting for costs associated with exit or disposal activities and nullifies Emerging Issues Task Force Issue No. 94-3, *Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring)*. The adoption of this statement did not have a material effect on the Company's financial position or results of operations.

In November 2002, the FASB issued Interpretation No. 45, *Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others*, an interpretation of SFAS Nos. 5, 57 and 107 and a rescission of FASB Interpretation No. 34. This interpretation elaborates on the

**Table of Contents**

disclosures to be made by a guarantor in its interim and annual financial statements about its obligations under certain guarantees that it has issued. It also clarifies that a guarantor is required to recognize, at the inception of a guarantee, a liability for the fair value of the obligation undertaken in issuing the guarantee. This interpretation does not prescribe a specific approach for subsequently measuring the guarantor's recognized liability over the term of the related guarantee. This interpretation also incorporates, without change, the guidance in FASB Interpretation No. 34, *Disclosure of Indirect Guarantees of Indebtedness of Others*, which is being superseded. The provisions of this interpretation are applicable on a prospective basis to guarantees issued or modified after December 31, 2002, and the disclosure requirements are effective for financial statements of interim or annual periods ending after December 15, 2002. The adoption of this statement did not have a material effect on the Company's financial position or results of operations.

In April 2003, the FASB issued SFAS No. 149, *Amendment to Statement 133 on Derivative Instruments and Hedging Activities*. SFAS No. 149 amends and clarifies accounting for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities under SFAS No. 133. SFAS No. 149 is applied prospectively and is effective for contracts entered into or modified after June 30, 2003. The adoption of SFAS No. 149 did not have an impact on the Company's financial statements.

In May 2003, the FASB issued SFAS No. 150, *Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity*. SFAS No. 150 establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. An issuer is required to classify a financial instrument that is within the scope of this statement as a liability (or an asset in some circumstances). SFAS No. 150 is effective for financial instruments entered into or modified after May 31, 2003. The adoption of SFAS No. 150 did not have a material impact on the Company's financial statements.

In January 2003, the FASB issued Interpretation No. 46, *Consolidation of Variable Interest Entities*, and subsequently revised the interpretation in December 2003 (FIN 46R). This interpretation of Accounting Research Bulletin No. 51, *Consolidated Financial Statements*, addresses consolidation by business enterprises of variable interest entities which have certain characteristics. As revised, the interpretation is now generally effective for financial statements for interim or annual periods ending after March 31, 2004. The adoption of this standard did not have a material impact on the Company's financial statements.

**3. PROPERTY AND EQUIPMENT**

Property and equipment consist of the following at December 31, 2003 (in thousands):

Land	\$ 693
Buildings	984
Furniture and fixtures	9,093
Leasehold improvements	4,257
Computer equipment and software	6,709
Automobiles	57
Construction in progress	195
	21,988
Less accumulated depreciation	12,618

Total

\$ 9,370

**Table of Contents****4. GOODWILL AND INTANGIBLE ASSETS**

Goodwill was \$1,533,000 at December 31, 2003.

Intangible assets consist of the following at December 31, 2003 (in thousands):

Licenses	\$ 3,875
Non-compete agreement	623
	4,498
Less accumulated amortization	1,663
Total	\$ 2,835

On January 1, 2002, the Company adopted the provisions of SFAS No. 142, *Goodwill and Other Intangible Assets*. Under SFAS No. 142, goodwill and indefinite-lived intangible assets are no longer amortized but are reviewed at least annually for impairment. Separable intangible assets that are not deemed to have an indefinite life will continue to be amortized over their useful lives (but with no maximum life).

In accordance with the initial adoption of SFAS No. 142, each location with assigned goodwill is to be valued as an operating entity. If the fair value of the operating entity is greater than the book value, including assigned goodwill, no further testing is required. However, if the book value, including goodwill, is greater than the fair value of the operating entity, the assets and liabilities of the operating entity will need to be valued. The difference between the fair value of the operating entity and the fair value of the assets is the implied fair value of goodwill. To the extent that the implied fair value of goodwill is less than the book value of goodwill, an impairment charge will be recognized as a cumulative effect of a change in accounting upon adoption.

During the fourth quarter of 2003, the Company completed the annual impairment testing of intangible assets. The test resulted in no impairment recognition as of December 31, 2003.

**5. REVOLVING LINE OF CREDIT**

The Company has a \$30,000,000 revolving line of credit (the Credit Facility ) with a bank, which expires in October 2005. At December 31, 2003 amounts outstanding under the Credit Facility were \$26,115,110, respectively. Amounts outstanding bear interest at either the bank's prime rate (4.00% at December 31, 2003) or the London Interbank Offered Rate ( LIBOR ), which fluctuates daily. Maximum borrowings under the Credit Facility were restricted by certain financial covenants in 2003. Management believes the Company is in compliance with its covenants at December 31, 2003. The Credit Facility is guaranteed by the Company's stockholder and is secured by the Company's pawn loans, inventory, and furniture, fixtures and equipment not otherwise encumbered by other loans in a senior position.
