**Item 8.01 Other Events**

On April 12, 2006, one of our subsidiaries completed an initial equity investment of \$34 million in a non-U.S. satellite services project. We have committed to provide up to an additional \$116 million in equity and debt funding for the project, subject to the satisfaction of various project milestones and customary financing conditions.

Most of the initial funding and contingent commitment is expected to be used to fund a portion of the construction costs of a satellite to be used by the project. EchoStar also has the right but not the obligation to provide substantial additional financing to the project to fund its future capital expenditures and working capital requirements.
