**CAPITAL SENIOR LIVING CORPORATION**  
**NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS**  
**March 31, 2009**

**1. BASIS OF PRESENTATION**

Capital Senior Living Corporation, a Delaware corporation (together with its subsidiaries, the Company), is one of the largest operators of senior living communities in the United States in terms of resident capacity. The Company owns, operates, develops and manages senior living communities throughout the United States. As of March 31, 2009, the Company operated 64 senior living communities in 23 states with an aggregate capacity of approximately 9,500 residents, including 38 senior living communities which the Company either owned or in which the Company had an ownership interest, 25 senior living communities that the Company leased and one senior living community it managed for a third party. As of March 31, 2009, the Company also operated one home care agency. The accompanying consolidated financial statements include the financial statements of Capital Senior Living Corporation and its wholly owned subsidiaries. All material intercompany balances and transactions have been eliminated in consolidation. The Company accounts for significant investments in unconsolidated companies, in which the Company has significant influence, using the equity method of accounting.

The accompanying consolidated balance sheet, as of December 31, 2008, has been derived from audited consolidated financial statements of the Company for the year ended December 31, 2008, and the accompanying unaudited consolidated financial statements, as of March 31, 2009 and 2008, have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and note disclosures normally included in the annual financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted pursuant to those rules and regulations. For further information, refer to the financial statements and notes thereto for the year ended December 31, 2008 included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission on March 12, 2009.

In the opinion of the Company, the accompanying consolidated financial statements contain all adjustments (all of which were normal recurring accruals) necessary to present fairly the Company's financial position as of March 31, 2009, results of operations for the three months ended March 31, 2009 and 2008, respectively, and cash flows for the three months ended March 31, 2009 and 2008. The results of operations for the three months ended March 31, 2009 are not necessarily indicative of the results for the year ending December 31, 2009.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

*Investments in Joint Ventures*

The Company accounts for its investments in joint ventures under the equity method of accounting. The Company is the general partner in two partnerships and owns member interests in seven joint ventures. The Company has not consolidated these joint venture interests because the Company has concluded that the limited partners or the other members of each joint venture have substantive kick-out rights or substantive participating rights as defined in EITF Issue 04-05 *Determining Whether a General Partner, or the General Partners as a Group, Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights* (EITF 04-05). Under the equity method of accounting the Company records its investments in joint ventures at cost and adjusts such investment for its share of earnings and losses of the joint venture.

*Development Guarantees*

The Company, on three joint venture developments, has guarantees that the communities will be completed at budgeted costs approved by the joint venture members. These costs include the hard and soft construction costs and operating costs until each community reaches breakeven. The budgeted costs include contingency reserves for potential cost overruns and other unforeseen costs. In addition, each of these joint ventures has entered into a guaranteed fixed price construction contract with the general contractor on each of the developments. The Company would be required to fund these guarantees if the actual development costs incurred by the joint venture exceed the budgeted costs for the development. The terms of these guarantees generally do not provide for a limitation on the maximum potential future payments. The Company has not made any payments under these guarantees and currently does not expect to be required to make any payments under these guarantees.

**Table of Contents***Assets Held for Sale*

Assets are classified as held for sale when the Company has committed to selling the asset and believes that it will be disposed of within one year. The Company determines the fair value, net of costs of disposal, of an asset on the date the asset is categorized as held for sale, and the asset is recorded at the lower of its fair value, net of cost of disposal, or carrying value on that date. The Company periodically reevaluates assets held for sale to determine if the assets are still recorded at the lower of fair value, net of cost of disposal, or carrying value. The fair value of properties are generally determined based on market rates, industry trends and recent comparable sales transactions. The Company had one parcel of land, in Fort Wayne, Indiana, held for sale at March 31, 2009.

In February 2008, the Company sold a parcel of land located in Carmichael, California for \$1.2 million, net of closing costs, resulting in a gain on sale of approximately \$0.6 million.

In accordance with the provisions of Statement of Financial Accounting Standard ( SFAS ) No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets ( FAS 144 ), the parcel of land held for sale in Fort Wayne, Indiana, with a carrying amount of \$0.5 million was written down by approximately \$0.1 million to its fair value, less costs to sell, of \$0.4 million during the first quarter of fiscal 2008. The Company currently estimates that this parcel of land held for sale has an aggregate fair value, net of costs of disposal, that exceeds its carrying value of \$0.4 million at March 31, 2009. The amount that the Company will ultimately realize on the parcel of land could differ materially from this estimate.

*Lease Accounting*

The Company determines whether to account for its leases as either operating, capital or financing leases depending on the underlying terms of each lease agreement. This determination of classification is complex and requires significant judgment relating to certain information including the estimated fair value and remaining economic life of the community, the Company's cost of funds, minimum lease payments and other lease terms. As of March 31, 2009, the Company leased 25 communities and classified each of the leases as an operating lease. The Company incurs lease acquisition costs and amortizes these costs over the term of the lease agreement. Certain leases entered into by the Company qualified as sale/leaseback transactions under the provisions of SFAS No. 98 Accounting for Leases ( FAS 98 ) and as such any related gains have been deferred and are being amortized over the lease term.

Facility lease expense in the Company's statement of operations includes rent expense plus amortization expense relating to leasehold acquisition costs offset by the amortization of deferred gains.

*Income Taxes*

The Company accounts for income taxes under the provisions of SFAS No. 109, Accounting for Income Taxes ( FAS 109 ). Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. At March 31, 2009, the Company had recorded on its consolidated balance sheet deferred tax assets of \$11.6 million. Management regularly evaluates the future realization of deferred tax assets and provides a valuation allowance, if considered necessary, based on such evaluation. The Company has evaluated future expectations of net income and various tax planning strategies that it believes are both prudent and feasible, including various strategies to utilize net built-in gains on the Company's appreciated assets. However, the benefits of the net deferred tax assets might not be realized if actual results differ from expectations. The Company believes that based upon this analysis that the realization of the net deferred tax assets is reasonably assured and therefore has not provided for a valuation allowance.

The Company accounts for uncertain tax positions under the provisions of Financial Accounting Standards Board ( FASB ) Interpretation No. 48, Accounting for Uncertainty in Income Taxes An Interpretation of FASB Statement No. 109 ( FIN 48 ). This standard clarifies the accounting for income tax benefits that are uncertain in nature. Under FIN 48, the Company is required to recognize a tax benefit in its financial statements for an uncertain tax position only if management's assessment is that its position is more likely than not (i.e., a greater than 50 percent likelihood) to be upheld on audit based only on the technical merits of the tax position. FIN 48 also provides guidance on thresholds, measurement, derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition that is intended to provide better financial-statement comparability among different companies. The Company's policy is to recognize interest related to unrecognized tax benefits as interest expense and penalties as income tax expense. The Company is not subject to income tax examinations for tax years prior to 2005.

**Table of Contents***Net Income Per Share*

On January 1, 2009, the Company adopted the provisions of FASB Staff Position ( FSP ) Emerging Issues Task Force ( EITF ) 03-6-1, Determining Whether Instruments Granted in Share-Based Payment Transactions are Participating Securities ( FSP 03-6-1 ) requiring unvested share-based payment awards that contain nonforfeitable rights to dividends or dividend equivalents (whether paid or unpaid) to be considered participating securities to be included in the computation of earnings per share under the two-class method. FSP 03-6-1 requires that, upon adoption, all prior period earnings per share data presented be adjusted retrospectively.

Basic net income per common share is computed by dividing net income remaining after allocation to unvested restricted shares by the weighted average number of common shares outstanding for the period. Except when the effect would be anti-dilutive, the calculation of diluted net income per common share includes the net impact of unvested restricted shares and shares that could be issued under outstanding stock options.

The following table sets forth the computation of basic and diluted net income per share (in thousands, except for per share amounts):

	<b>Three Months Ended</b>	
	<b>March 31,</b>	
	<b>2009</b>	<b>2008</b>
Net income	\$ 820	\$ 1,490
Net income allocable to unvested restricted shares	(20)	(14)
Undistributed net income attributable to common shares	\$ 800	\$ 1,476
Weighted average shares outstanding basic	26,597	26,341
Effects of dilutive securities:		
Employee equity compensation plans	50	282
Weighted average shares outstanding diluted	26,647	26,623
Basic income per share	\$ 0.03	\$ 0.06
Diluted income per share	\$ 0.03	\$ 0.06

Awards of unvested restricted stock representing approximately an additional 672,000 shares were outstanding for the first quarter ended March 31, 2009, and were included in the computation of allocable net income. Incremental awards of unvested restricted stock representing approximately 43,000 shares were not removed from the effects of dilutive securities in the computation of diluted weighted average shares outstanding for the first quarter ended March 31, 2008, as the impact to diluted income per share was not significant.

*Treasury Stock*

The Company accounts for treasury stock under the cost method and includes treasury stock as a component of stockholders' equity.

FAS 157 does not require any new fair value measurements but would apply to assets and liabilities that are required to be recorded at fair value under other accounting standards. The Company adopted the provisions of FAS 157 on January 1, 2008, for its financial assets and liabilities and on January 1, 2009, for its nonfinancial assets and liabilities. The adoption of FAS 157 did not have a material effect on the Company's earnings or financial position.

FASB Statement No. 141(R) Business Combinations ( FAS 141(R) ) requires the acquiring entity in a business combination to recognize the full fair value of assets acquired and liabilities assumed in the transaction (whether a full or partial acquisition); establishes the acquisition-date fair value as the measurement objective for all assets acquired and liabilities assumed; requires expensing of most transaction and restructuring costs; and requires the acquirer to disclose to investors and other users all of the information needed to evaluate and understand the nature and financial effect of the business combination. FAS 141(R) applies prospectively to business combinations for which the acquisition date is on or after January 1, 2009. As there have not been any acquisitions during the first three months of fiscal 2009, the provisions of FAS 141(R) did not have an impact on the Company's earnings or financial position. FSP 03-6-1 clarifies that unvested share-based payment awards that contain nonforfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and are to be included in the computation of earnings per share under the two-class method described in SFAS No. 128, Earnings Per Share. This FSP was effective for the Company on January 1, 2009, and required all presented prior-period earnings per share data to be adjusted retrospectively. The Company's adoption of FSP 03-6-1 did not have a material effect on the per share data reported for the basic weighted average shares outstanding in the Company's consolidated financial statements.

**6. STOCK-BASED COMPENSATION**

The Company accounts for share-based payments under the provisions of Statement of Financial Accounting Standards No. 123 (revised), Share-based Payment ( FAS 123R ), which requires all share-based payments to employees, including grants of employee stock options and awards of restricted stock to be recognized in the statement of operations based on their fair values. Under FAS 123R the Company recognizes compensation expense for share-based awards.

On May 8, 2007, the Company's shareholders approved the 2007 Omnibus Stock and Incentive Plan for Capital Senior Living Corporation (the 2007 Plan ) which provides for, among other things, the grant of restricted stock awards and stock options to

**Table of Contents**

purchase shares of the Company's common stock. The 2007 Plan authorizes the Company to issue up to 2.6 million shares of common stock and the Company has reserved 1.9 million shares of common stock for future issuance pursuant to awards under the 2007 Plan. Effective May 8, 2007, the 1997 Omnibus Stock and Incentive Plan (as amended, the 1997 Plan) was terminated and no additional shares will be granted under the 1997 Plan. The Company has reserved 0.9 million shares of common stock for future issuance upon the exercise of outstanding stock options pursuant to the 1997 Plan.

*Stock Options*

The Company's stock option program is a long-term retention program that is intended to attract, retain and provide incentives for employees, officers and directors and to align stockholder and employee interest. The Company's options generally vest over one to five years and the related expense is amortized on a straight-line basis over the vesting period.

A summary of the Company's stock option activity and related information for the three months ended March 31, 2009, is presented below:

	Outstanding at Beginning of				Outstanding End of	
	Period	Granted	Exercised	Forfeited	Period	Options Exercisable
Shares	895,334			166,969	728,365	728,365
Weighted average price	\$ 4.83	\$	\$	\$ 6.22	\$ 4.51	\$ 4.51

The options outstanding and the options exercisable at March 31, 2009, each had an intrinsic value of \$0.1 million.

*Restricted Stock*

The Company grants restricted stock awards to employees, officers, and directors. Restricted stock granted generally vests over a period of three years but such awards are considered outstanding at the time of grant, since the holders thereof are entitled to dividends and voting rights. The Company recognizes compensation expense of a restricted stock award over the respective vesting period based on the fair value of the award on the grant date, net of forfeitures. A summary of the Company's restricted stock awards activity and related information for the three months ended March 31, 2009, is presented below:

	Outstanding at Beginning of				Outstanding End of	
	Period	Issued	Vested	Forfeited	Period	
Shares	251,632	521,625	100,843	250	672,164	

The restricted stock outstanding at March 31, 2009, had an intrinsic value of \$1.6 million.

During the three months ended March 31, 2009, the Company awarded 521,625 shares of restricted common stock to certain employees of the Company. The average market value of the common stock on the date of grant was \$3.08. These awards of restricted shares vest over a three-year period and had an intrinsic value of \$1.6 million on the date of issue.

*Stock Based Compensation*

The Company uses the Black-Scholes option pricing model to estimate the grant date fair value of its stock. The Black-Scholes model requires the input of certain assumptions including expected volatility, expected dividend yield, expected life of the option and the risk free interest rate. The expected volatility used by the Company is based primarily on an analysis of historical prices of the Company's common stock. The expected term of options granted is based primarily on historical exercise patterns on the Company's outstanding stock options. The risk free rate is based on zero-coupon U.S. Treasury yields in effect at the date of grant with the same period as the expected option life. The Company does not currently plan to pay dividends on its common stock and therefore has used a dividend yield of

zero in determining the fair value of its awards. The option forfeiture rate assumption used by the Company, which affects the expense recognized as opposed to the fair value of the award, is based primarily on the Company's historical option forfeiture patterns. The Company issued no stock options during the first three months of fiscal 2009 and 2008.

**Table of Contents**

The Company has total stock-based compensation expense of \$2.2 million not recognized as of March 31, 2009, and expects this expense to be recognized over approximately a three-year period.

**7. CONTINGENCIES**

The Company has claims incurred in the normal course of its business. Most of these claims are believed by management to be covered by insurance, subject to normal reservations of rights by the insurance companies and possibly subject to certain exclusions in the applicable insurance policies. Whether or not covered by insurance, these claims, in the opinion of management, based on advice of legal counsel, should not have a material effect on the consolidated financial statements of the Company if determined adversely to the Company.

**8. SHARE REPURCHASE PROGRAM**

On January 22, 2009, the Company's board of directors approved a share repurchase program that authorized the Company to purchase up to \$10.0 million of the Company's common stock. Purchases may be made from time to time using a variety of methods, which may include open market purchases, privately negotiated transactions or block trades, or by any combination of such methods, in accordance with applicable insider trading and other securities laws and regulations. The size, scope and timing of any purchases will be based on business, market and other conditions and factors, including price, regulatory and contractual requirements or consents, and capital availability. The repurchase program does not obligate the Company to acquire any particular amount of common stock and the share repurchase authorization has no stated expiration date. Shares of stock repurchased under the program will be held as treasury shares. Pursuant to this authorization, during the three months ended March 31, 2009, the Company purchased 337,300 shares at an average cost of \$2.68 per share for a total cost to the Company of approximately \$0.9 million.

**9. SUBSEQUENT EVENTS**

On April 1, 2009, the Company opened two senior living communities through its joint ventures with SHPIII. The Richmond Heights community located in Richmond Heights, Ohio, consists of 96 independent living units and 45 assisted living units. The Levis Commons community located near Toledo, Ohio, consists of 101 independent living units and 45 assisted living units. Under the joint venture and related agreements, the Company earns development and management fees and may receive incentive distributions.

*Certain information contained in this report constitutes Forward-Looking Statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which can be identified by the use of forward-looking terminology such as may, will, would, intend, could, believe, expect, anticipate, estimate or continue or the negative thereof or other variations thereon or comparable terminology. The Company cautions readers that forward-looking statements, including, without limitation, those relating to the Company's future business prospects, revenues, working capital, liquidity, capital needs, interest costs, and income, are subject to certain risks and uncertainties that could cause actual results to differ materially from those indicated in the forward-looking statements, due to several important factors herein identified. These factors may include the Company's ability to complete the refinancing of certain of our wholly owned communities, realize the anticipated savings related to such financings, find suitable acquisition properties at favorable terms, financing, licensing, business conditions, risks of downturn in economic conditions generally, satisfaction of closing conditions such as those pertaining to licensure, availability of insurance at commercially reasonable rates, and changes in accounting principles and interpretations, among others, and other risks and factors identified from time to time in the Company's reports filed with the SEC.*

**Overview**

The following discussion and analysis addresses (i) the Company's results of operations for the three months ended March 31, 2009 and 2008, respectively, and (ii) liquidity and capital resources of the Company, and should be read in conjunction with the Company's consolidated financial statements contained elsewhere in this report.

The Company is one of the largest operators of senior living communities in the United States. The Company's operating strategy is to provide quality senior living services to its residents, while achieving and sustaining a strong, competitive position within its chosen markets, as well as to continue to enhance the performance of its operations.

The Company provides senior living services to the elderly, including independent living, assisted living, skilled nursing and home care services.

As of March 31, 2009, the Company operated 64 senior living communities in 23 states with an aggregate capacity of approximately 9,500 residents, including 25 senior living communities that the Company owned, 13 senior living communities in which the Company had an ownership interest, 25 senior living communities that the Company leased and one senior living community that it managed for a third party. As of March 31, 2009, the Company also operated one home care agency.

**Significant Financial and Operational Highlights**

The Company's operating strategy is to provide quality senior living communities and services to its residents, while achieving and sustaining a strong, competitive position within its chosen markets, as well as to continue to enhance the performance of its operations. The Company provides senior living services to the elderly, including independent living, assisted living, skilled nursing and home care services. Many of the Company's communities offer a continuum of care to meet its residents' needs as they change over time. This continuum of care, which integrates independent living and assisted living and is bridged by home care through independent home care agencies or the Company's home care agency, sustains residents' autonomy and independence based on their physical and mental abilities.

The senior living industry continues to be negatively impacted by unfavorable conditions in the housing, credit and financial markets and deteriorating conditions in the overall economy, generally resulting in lower than anticipated occupancy rates. During the first quarter of fiscal 2009, in response to these conditions, the Company has continued to focus on reducing overhead while maintaining an emphasis on occupancy increases, improvement in rental rates, expense management and growth in net operating income per unit; increasing levels of care through conversions; and other opportunities to enhance shareholder value.

In January 2009, the Company announced that the Company's board of directors approved the implementation of a stock repurchase program of up to \$10 million of the Company's common stock. During the first quarter of fiscal 2009, the Company has acquired 337,300 shares of stock at a cost of approximately \$0.9 million.

**Joint Venture Transactions and Management Contracts**

As of March 31, 2009, the Company managed 13 communities owned by joint ventures in which the Company has a minority interest and one community owned by a third party. For communities owned by joint ventures and third parties, the Company typically receives a management fee of 5% of gross revenues. In addition, certain of the contracts provide for supplemental incentive fees that

**Table of Contents**

vary by contract based upon the financial performance of the managed community.

The Company believes that the factors affecting the financial performance of communities managed under contracts with third parties do not vary substantially from the factors affecting the performance of owned and leased communities, although there are different business risks associated with these activities.

The Company's third-party management fees are primarily based on a percentage of gross revenues. As a result, the cash flow and profitability of such contracts to the Company are more dependent on the revenues generated by such communities and less dependent on net cash flow than for owned or leased communities. Further, the Company is not responsible for capital investments in managed communities. The management contracts are generally terminable only for cause or upon the sale of a community, subject to the Company's rights to offer to purchase such community.

**Midwest I Transaction**

In January 2006, the Company and GE Healthcare formed Midwest I to acquire five senior housing communities from a third party. Midwest I is owned approximately 89% by GE Healthcare and 11% by the Company. As of March 31, 2009, the Company has contributed \$2.7 million for its interest in Midwest I. Midwest I paid approximately \$46.9 million for the five communities. The five communities comprise 293 assisted living units with a resident capacity of 389. The Company manages the five acquired communities under long-term management agreements with Midwest I. The Company accounts for its investment in Midwest I under the equity method of accounting and the Company recognized earnings in the equity of Midwest I of \$39,000 and \$30,000 in the three months ended March 31, 2009 and 2008, respectively. In addition, the Company earned \$0.1 million in management fees on the Midwest I communities in each of the three months ended March 31, 2009 and 2008.

**Midwest II Transaction**

In August 2006, the Company and GE Healthcare formed Midwest II to acquire three senior housing communities from a third party. Midwest II is owned approximately 85% by GE Healthcare and 15% by the Company. As of March 31, 2009, the Company has contributed \$1.6 million for its interest in Midwest II. Midwest II paid approximately \$38.2 million for the three communities. The three communities comprise 300 assisted living and memory care units with a resident capacity of 319. The Company manages the three acquired communities under long-term management agreements with Midwest II. The Company accounts for its investment in Midwest II under the equity method of accounting and the Company recognized earnings (loss) in the equity of Midwest II of \$18,000 and (\$47,000) in the three months ended March 31, 2009 and 2008, respectively. In addition, the Company earned \$0.1 million in management fees on the Midwest II communities in each of the three months ended March 31, 2009 and 2008.

As of March 31, 2009, the Company has contributed \$0.8 million to SHPIII/CSL Miami for its 10% interest. The Company accounts for its investment in SHPIII/CSL Miami under the equity method of accounting and the Company recognized a loss in the equity of SHPIII/CSL Miami of \$43,000 for the three months ended March 31, 2009. During the first three months of fiscal 2009, the Company earned \$38,000 in management fees on the SHPIII/CSL Miami community. **CGIM Transaction**

In August 2004, the Company acquired from Covenant Group of Texas, Inc. ( *Covenant* ) all of the outstanding stock of *Covenant* 's wholly owned subsidiary, CGIM. This acquisition resulted in the Company assuming the management contracts on 14 senior living communities with a combined resident capacity of approximately 1,800 residents. As of March 31, 2009, the Company managed one community under the management agreement with CGIM.

**BRE/CSL**

The Company managed the six communities owned by *BRE/CSL* under long-term management contracts. In September 2005, Ventas acquired the six communities owned by *BRE/CSL* and the Company entered into a series of lease agreements whereby the Company leases the six communities from Ventas. In March 2007, the Company received a final distribution from *BRE/CSL* of \$0.4 million relating to the sale of six communities owned by *BRE/CSL* to Ventas. This distribution resulted in the recognition of an additional gain of \$0.4 million, which has been deferred and is being amortized in the Company 's statement of operations over the remaining initial lease term.

**Facility Lease Transactions**

The Company currently leases 25 communities with certain real estate investment trusts ( *REITs* ) and accounts for each of the leases as an operating lease. The lease terms are generally for ten years with renewal options for 10-20 years at the Company 's option. Under these agreements the Company is responsible for all operating costs, maintenance and repairs, insurance and property taxes. The following table further describes each of the lease agreements (dollars in millions):

#### **Recently Issued Accounting Standards**

FASB Statement No. 157, Fair Value Measurements ( FAS 157 ) defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. FAS 157 does not require any new fair value measurements but would apply to assets and liabilities that are required to be recorded at fair value under other accounting standards. The Company adopted the provisions of FAS 157 on January 1, 2008, for its financial assets and liabilities and on January 1, 2009, for its nonfinancial assets and liabilities. The adoption of FAS 157 did not have a material effect on the Company's earnings or financial position.

FASB Statement No. 141(R) Business Combinations ( FAS 141(R) ) requires the acquiring entity in a business combination to recognize the full fair value of assets acquired and liabilities assumed in the transaction (whether a full or partial acquisition); establishes the acquisition-date fair value as the measurement objective for all assets acquired and liabilities assumed; requires expensing of most transaction and restructuring costs; and requires the acquirer to disclose to investors and other users all of the information needed to evaluate and understand the nature and financial effect of the business combination. FAS 141(R) applies prospectively to business combinations for which the acquisition date is on or after January 1, 2009. As there have not been any acquisitions during the first three months of fiscal 2009, the provisions of FAS 141(R) did not have an impact on the Company's earnings or financial position.

FASB Staff Position ( FSP ) Emerging Issues Task Force ( EITF ) 03-6-1, Determining Whether Instruments Granted in Share-Based Payment Transactions are Participating Securities ( FSP 03-6-1 ) clarifies that unvested share-based payment awards that contain nonforfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and are to be included in the computation of earnings per share under the two-class method described in SFAS No. 128, Earnings Per Share. This FSP was effective for the Company on January 1, 2009, and required all presented prior-period earnings per share data to be adjusted retrospectively. The Company's adoption of FSP 03-6-1 did not have a material effect on the per share data reported for the basic weighted average shares outstanding in the Company's consolidated financial statements.

**Three Months Ended March 31, 2009 Compared to the Three Months Ended March 31, 2008***Revenues.*

Total revenues were \$48.0 million for the three months ended March 31, 2009 compared to \$48.5 million for the three months ended March 31, 2008, representing a decrease of approximately \$0.5 million or 1.1%. This decrease in revenue is primarily the result of a decrease in affiliated management services revenue of \$0.8 million and a decrease in resident and healthcare revenue of \$0.2 million offset by an increase in community reimbursement revenue of \$0.5 million.

The decrease in affiliated management services revenue of \$0.8 million or 56.6% primarily results from the Company no longer earning development fees from three joint venture communities that were under development during fiscal 2008.

Resident and healthcare revenue decreased \$0.2 million or 0.6% due primarily to a decrease in occupancy at the Company's 50 consolidated communities of approximately 3.9% resulting in a decrease in rent which was partially offset by an increase in average rental rates of 3.5%.

Community reimbursement revenue is comprised of reimbursable expenses from non-consolidated communities that the Company operates under long-term management agreements.

*Expenses.*

Total expenses were \$43.7 million in the first quarter of fiscal 2009 compared to \$43.8 million in the first quarter of fiscal 2008, representing a decrease of \$0.1 million or 0.3%. This decrease is primarily the result of a \$0.6 million decrease in operating expenses and a \$0.6 million decrease in general and administrative expenses offset by a \$0.3 million increase in facility lease expense, a \$0.1 million increase in stock-based compensation, a \$0.2 million increase in depreciation and amortization expense, and a \$0.5 million

**Table of Contents**

increase in community reimbursement expense.

Operating expenses decreased \$0.6 million or 2.4% primarily due to a decrease of \$0.5 million in independent living expenses and \$0.1 million in healthcare expenses. The primary decreases in independent living expenses include a decrease in labor and benefit costs of \$0.3 million, a decrease in food costs of \$0.1 million, and a net decrease of \$0.1 million in other independent living operating costs. Healthcare expenses decreased primarily due to a decrease in labor and benefit costs.

General and administrative expenses decreased \$0.6 million primarily due to the write-off of accumulated due diligence costs of \$0.3 million related to a potential acquisition that the Company terminated in the first quarter of fiscal 2008 and a reduction in corporate salaries of \$0.1 million and corporate bonus expense of \$0.2 million due to the retirement of the Chairman of the Company and separation of development department employees in the fourth quarter of fiscal 2008.

Facility lease expense increased \$0.3 million due to annual increases in rental rates for existing leases and a full quarter of lease expense for the Whitley Place community compared to 2 months in the first quarter of fiscal 2008, combined with increases in contingent rent on certain leases.

Stock-based compensation increased \$0.1 million in the first quarter of fiscal 2009 compared to the first quarter of fiscal 2008 due to the award of additional restricted shares of common stock to certain employees and directors of the Company.

Depreciation and amortization expense increased \$0.2 million primarily as a result of an increase in depreciation expense at the Company's 50 consolidated communities

Community reimbursement expense represents payroll and administrative costs paid by the Company for the benefit of non-consolidated communities and joint ventures.

*Other income and expense.*

Interest income reflects interest earned on investment of cash balances and interest earned on escrowed funds.

Interest expense decreased \$0.1 million to \$3.0 million in the first quarter of fiscal 2009 compared to \$3.1 million in the first quarter of fiscal 2008. This decrease in interest expense primarily results from less debt outstanding during the first quarter of fiscal 2009 compared to the first quarter of fiscal 2008.

Gain on sale of assets in the first quarter of fiscal 2008 represents gains associated with the sale of two parcels of land of \$0.7 million and the amortization of a deferred gain on the sale of the Richmond Heights land in fiscal 2007 to a joint venture in which the Company has an equity interest, offset by a \$0.1 million impairment adjustment on a parcel of land, located in Fort Wayne, Indiana, which is classified as held for sale.

Other expense/income in the first quarter of fiscal 2009 and 2008 relates to the Company's equity in the earnings/losses of unconsolidated affiliates, which represents the Company's share of the earnings/losses on its investments in SHPII/CSL, SHPIII/CSL, Midwest I and Midwest II.

*Provision for income taxes.*

Provision for income taxes for the first quarter of fiscal 2009 was \$0.6 million or 42.6% of income before taxes compared to a provision for income taxes of \$0.9 million, or 38.2% of income before taxes, for the first quarter of fiscal 2008. The effective tax rates for the first quarter of 2009 and 2008 differ from the statutory tax rates because of state income taxes and permanent tax differences. The Company is significantly impacted by the recently-enacted Texas Margin Tax which effectively imposes a tax on modified gross revenues for communities within the state. The Company consolidated 17 Texas communities in the first quarter of fiscal 2009 and the Texas Margin Tax increased the overall provision for income taxes by more than four percentage points. Management regularly evaluates the

future realization of deferred tax assets and provides a valuation allowance, if considered necessary, based on such evaluation. At March 31, 2009, no valuation allowance was considered necessary based on this evaluation.

*Net income*

As a result of the foregoing factors, the Company reported net income of \$0.8 million for the three months ended March 31, 2009

**Table of Contents**

compared to a net income of \$1.5 million for the three months ended March 31, 2008.

**Liquidity and Capital Resources**

The impact of the current economic environment could result in decreases in the fair value of assets, slowing of transactions, tightening liquidity and credit markets. These impacts could make securing debt for acquisitions or refinancings for the Company, its joint ventures, or buyers of the Company's properties more difficult or on terms not acceptable to the Company.

In addition to approximately \$24.4 million of unrestricted cash balances on hand as of March 31, 2009, the Company's principal sources of liquidity are expected to be cash flows from operations, proceeds from the sale of assets, cash flows from SHPIII/CSL Miami, SHP III/CSL Richmond Heights, SHPIII/CSL Levis Commons, SHPII/CSL, Midwest I and Midwest II and/or additional debt refinancings. The Company expects its available cash and cash flows from operations, proceeds from the sale of assets, and cash flows from SHPIII/CSL Miami, SHP III/CSL Richmond Heights, SHPIII/CSL Levis Commons, SHPII/CSL, Midwest I and Midwest II to be sufficient to fund its short-term working capital requirements and the Company's stock repurchase program. The Company's long-term capital requirements, primarily for acquisitions and other corporate initiatives, could be dependent on its ability to access additional funds through joint ventures and the debt and/or equity markets. The Company from time to time considers and evaluates transactions related to its portfolio including refinancings, purchases and sales, reorganizations and other transactions. There can be no assurance that the Company will continue to generate cash flows at or above current levels or that the Company will be able to obtain the capital necessary to meet the Company's short and long-term capital requirements.

In summary, the Company's cash flows were as follows (in thousands):

	<b>Three Months Ended March 31,</b>	
	<b>2009</b>	<b>2008</b>
Net cash provided by operating activities	\$ 5,294	\$ 4,444
Net cash used in investing activities	(1,441)	(866)
Net cash used in financing activities	(5,325)	(2,334)
Net increase (decrease) in cash and cash equivalents	\$ (1,472)	\$ 1,244

*Operating Activities*

The net cash provided by operating activities for the first quarter of fiscal 2009 primarily results from net income of \$0.8 million, net non-cash charges of \$3.8 million, a decrease in accounts receivable of \$0.4 million, a decrease in property tax and insurance deposits of \$2.2 million, and a decrease in prepaid expenses and other of \$2.1 million offset by an increase in other assets of \$0.4 million, a decrease in accounts payable of \$0.7 million, a decrease in accrued expenses of \$2.8 million, and a decrease in customer deposits of \$0.1 million. The net cash provided by operating activities for the first quarter of fiscal 2008 primarily results from net income of \$1.5 million, net non-cash charges of \$2.6 million, a decrease in property tax and insurance deposits of \$1.7 million, a decrease in prepaid expenses and other of \$1.9 million, an increase in accounts payable of \$0.5 million and a decrease in federal and state income tax receivable of \$0.5 million offset by an increase in accounts receivable of \$1.3 million, an increase in other assets of \$0.3 million, a decrease in accrued expenses of \$2.6 million and a decrease in customer deposits of \$0.1 million.

*Investing Activities*

The net cash used in investing activities for the first quarter of fiscal 2009 primarily results from capital expenditures of \$1.6 million offset by net investments in joint ventures of \$0.2 million. The net cash used in investing activities for the first quarter of fiscal 2008 primarily results from capital expenditures of \$1.7 million, net investments in joint ventures of \$0.6 million, offset by proceeds from the sale of two parcels of land, one in Carmichael, California and the other in Lincoln, Nebraska, for \$1.4 million.

*Financing Activities*

The net cash used in financing activities for the first quarter of fiscal 2009 primarily results from repayments of notes payable of \$2.2 million, additions to restricted cash of \$2.2 million, and purchases of treasury stock of \$0.9 million. The net cash used in financing activities for the first quarter of fiscal 2008 results from repayments of notes payable of \$2.3 million.

*Debt Transactions / Refinancings*

**Table of Contents**

On December 1, 2008, the Company renewed certain insurance policies and entered into a finance agreement totaling \$2.7 million. The finance agreement has a fixed interest rate of 4.78% with principal being repaid over a 10-month term.

On November 21, 2008, the Company repaid the Lehman acquisition financing non-interest bearing note in its entirety for a total cost of \$3.5 million.

On October 31, 2008, the Company renewed certain insurance policies and entered into a finance agreement totaling \$0.5 million. The finance agreement has a fixed interest rate of 4.78% with principal being repaid over a 10-month term.

On May 31, 2008, the Company renewed certain insurance policies and entered into a finance agreement totaling \$1.5 million. The finance agreement has a fixed interest rate of 3.75% with principal being repaid over a 10-month term.

The Company must maintain certain levels of tangible net worth and comply with other restrictive covenants under the terms of the notes. The Company was in compliance with all of its debt covenants at March 31, 2009 and 2008.

**Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.**

The Company's primary market risk is exposure to changes in interest rates on debt and lease instruments. As of March 31, 2009, the Company had \$187.3 million in outstanding debt comprised solely of fixed rate debt instruments. In addition, as of March 31, 2009, the Company had \$199.1 million in future lease obligations with contingent rent increases based on changes in the consumer price index.

Changes in interest rates would affect the fair market values of the Company's fixed rate debt instruments, but would not have an impact on the Company's earnings or cash flows. Increase in the consumer price index could have an effect on future facility lease expense if the leased community exceeds the contingent rent escalation thresholds set forth in each of the Company's lease agreements.

**Item 4. CONTROLS AND PROCEDURES.**

**Effectiveness of Controls and Procedures**

The Company's management, with the participation of the Company's Chief Executive Officer ( CEO ) and Chief Financial Officer ( CFO ), has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the

Exchange Act )) as of the end of the period covered by this report. The Company's disclosure controls and procedures are designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. The Company's disclosure controls and procedures are also designed to ensure that such information is accumulated and communicated to the Company's management, including the CEO and CFO, as appropriate to allow timely decisions regarding required disclosure.

Based upon the controls evaluation, the Company's CEO and CFO have concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures are effective.

There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the Company's fiscal quarter ended March 31, 2009 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

**Table of Contents****Part II. OTHER INFORMATION****Item 1. LEGAL PROCEEDINGS.**

The Company has claims incurred in the normal course of its business. Most of these claims are believed by management to be covered by insurance, subject to normal reservations of rights by the insurance companies and possibly subject to certain exclusions in the applicable insurance policies. Whether or not covered by insurance, these claims, in the opinion of management, based on advice of legal counsel, should not have a material effect on the consolidated financial statements of the Company if determined adversely to the Company.

**Item 1A. RISK FACTORS.**

Our business involves various risks. When evaluating our business the following information should be carefully considered in conjunction with the other information contained in our periodic filings with the SEC. Additional risks and uncertainties not known to us currently or that currently we deem to be immaterial also may impair our business operations. If we are unable to prevent events that have a negative effect from occurring, then our business may suffer. Negative events are likely to decrease our revenue, increase our costs, make our financial results poorer and/or decrease our financial strength, and may cause our stock price to decline. There have been no material changes in our risk factors from those disclosed in Part 1, Item 1A of our 2008 Form 10-K.
