Item 2.06 Material Impairments.

On October 20, 2004 the management of Brooks Automation, Inc. ( Brooks ) concluded that, for the results pertaining to its fiscal year ended September 30, 2004, the goodwill related to what has been reported as Brooks Other segment has been impaired in the amount of \$7.4 million. The business comprising the Other segment is that pertaining to life sciences and custom automation products and services (the Business ). The decision to record the impairment at this time is based on the estimated current market value of the Business as derived from recent third party indications of interest to purchase the assets of the Business. Brooks estimates that this impairment will result in a non-cash charge of approximately \$0.17 per share for the year ended September 30, 2004. Brooks does not anticipate that this charge will result in any material future cash expenditures.
