Section 2 - Financial Information

Item 2.02 Results of Operation and Financial Condition.

On September 7, 2006, the Registrant issued a press release setting forth results for the fourth quarter and year ended June 30, 2006. The full text of the release is included as an exhibit hereto. For the quarter ended June 30,

## Edgar Filing: ALLIED HEALTHCARE PRODUCTS INC - Form 8-K

2006, the Registrant reported that it earned net income of \$629,000, or 08 cents per diluted share, versus \$1.5 million, or 19 cents per diluted share, for the quarter ended June 30, 2005. For the full fiscal year 2006, the Registrant reported net income of \$1.6 million, or 20 cents per diluted share, compared to about \$2.3 million, or 30 cents per diluted share, for 2005. Although sales for the 2006 quarter and year increased modestly over 2005 levels, order entry declined for both the 2006 quarter and the 2006 year.

As set forth in the release, a direct comparison of final quarter results in 2006 and 2005 is complicated by the fact that the periods both included favorable tax adjustments of differing magnitudes. The 2006 fourth quarter benefited from a settlement and resolution of state tax contingencies which resulted in an adjustment of 4 cents per share. The 2005 final quarter included a tax adjustment which increased earnings by 12 cents per share in that period. These relative tax benefits are also reflected in the 2006 and 2005 full year earnings, respectively.

The Company also reported that increased material costs were the second largest drag on fourth quarter results in 2006. Led by a 77 percent jump in the price of copper, which is a major component of the brass used in many Allied products, material costs in the fourth quarter increased more than 7 percent over those of 2005. Higher material costs accounted for 5 cents of the quarter's decline in earnings per share.
