As previously reported by Federal Signal Corp. (the Company), on its Current Report on Form 8-K that was dated August 6, 2007, and filed with the Securities and Exchange Commission on the same date, on August 6, 2007, the Company acquired PIPS Technology, a privately-held developer and manufacturer of automatic license plate recognition (ALPR) systems. PIPS Technology is comprised of the combined financial statements of PIPS Technology Limited and PIPS Technology Inc. ALPR solutions are used in control and surveillance applications in markets such as traffic and tolling, law enforcement, public safety and access control. ALPR-enabled cameras are used on emergency vehicles and mounted on stationary support structures at access entry and tolling points to capture license plate details for tolling, congestion zone charging and law enforcement purposes. This Current Report on Form 8-K/A is being filed as an amendment to the Initial Form 8-K to provide the financial statements and pro forma financial information that were excluded from the Initial Form 8-K as permitted by Item 9.01 of Form 8-K.
