Householding Information:

We have adopted a procedure approved by the Securities and Exchange Commission (SEC) called householding. Under this procedure, shareholders of record who have the same address and last name and do not participate in electronic delivery of proxy materials will receive only one copy of our annual report and proxy statement unless one or more of these shareholders notifies us that they wish to continue receiving multiple copies. This procedure will reduce our printing costs and postage fees. If you are still receiving multiple copies of our annual report or proxy statement at a single address and wish to receive a single copy, please contact us at 1-800-742-6253 in the U.S., or inform us in writing at: The Procter & Gamble Company, Shareholder Services, P.O. Box 5572, Cincinnati, OH 45201-5572.

Shareholders who participate in householding will continue to receive separate proxy cards. Householding will not in any way affect the mailing of dividend checks.

If you participate in householding and wish to receive a separate copy of the 2003 annual report or proxy statement, or if you do not wish to participate in householding and prefer to receive separate copies of future materials, please call us toll-free at 1-800-742-6253 in the U.S., or inform us in writing at: The Procter & Gamble Company, Shareholder Services, P.O. Box 5572, Cincinnati, OH 45201-5572. We will respond promptly to such requests.

Beneficial shareholders can request information about householding from their banks, brokers or other holders of record.

For The Procter & Gamble Profit Sharing Trust and Employee Stock Ownership Plan participants:

If you are a participant in The Procter & Gamble Profit Sharing Trust and Employee Stock Ownership Plan, you can instruct the Trustees of that Trust how to vote the shares of stock that are allocated to your account. If you do not vote your shares, the Trustees will vote them in proportion to those shares for which they have received voting instructions. Likewise, the Trustees will vote shares that have not been allocated to any account in the same manner.

How do I vote by proxy?

Most shareholders can vote by proxy in three ways:

By Internet You can vote by Internet by following the instructions on your proxy card;

By Telephone In the United States and Canada you can vote by telephone by following the instructions on your proxy card; or

By Mail You can vote by mail by using the enclosed proxy card.

Please see your proxy card or the information your bank, broker, or other holder of record provided you for more information on these options.

Edgar Filing: PROCTER & GAMBLE CO - Form DEF 14A

If you vote by proxy, your shares will be voted in the manner you indicate at the annual meeting. If you sign your proxy card but don't specify how you want your shares to be voted, they will be voted as the Board of Directors recommends.

Table of Contents

Can I change my vote after I return my proxy card?

Yes. You can change or revoke your proxy by Internet, telephone, or mail at any time before the annual meeting.

Can I vote in person at the annual meeting instead of voting by proxy?

Yes. However, we encourage you to complete and return the enclosed proxy card to ensure that your shares are represented and voted.

Voting Procedures

Election of Directors The five candidates receiving the most votes will be elected as members of the Board of Directors.

Proposals The affirmative vote of a majority of shares participating in the voting on each proposal is required for adoption. Abstentions and broker non-votes will not be counted as participating in the voting, and will therefore have no effect.

Who pays for this proxy solicitation?

We do. We have hired Georgeson Shareholder Communications, Inc., a proxy solicitation firm, to assist us in soliciting proxies for a fee of \$16,000 plus reasonable expenses. In addition, Georgeson and Procter & Gamble's Directors, officers, and employees may also solicit proxies by mail, telephone, personal contact, telegraph, or through online methods. We will reimburse their expenses for doing this.

We will also reimburse brokers, fiduciaries, and custodians for their costs in forwarding proxy materials to beneficial owners of Procter & Gamble stock. Other proxy solicitation expenses that we will pay include those for preparation, mailing, returning and tabulating the proxies.

Table of Contents

Election of Directors

The Board of Directors is divided into three classes. The classes are as equal in number as is possible depending on the total number of Directors at any time. Each Director serves for a term of three years. The classes are arranged so that the terms of the Directors in each class expire at successive annual meetings. This means that the shareholders elect approximately one-third of the members of the Board of Directors annually.

The terms of Norman R. Augustine, A. G. Lafley, Johnathan A. Rodgers, John F. Smith, Jr., and Margaret C. Whitman will expire at the 2003 annual meeting. The Board intends to nominate each of these individuals for new terms that will expire at the 2006 annual meeting. Richard J. Ferris and Marina v. N. Whitman, whose terms also expire at the 2003 annual meeting, have advised the Board of their intentions to retire, and are, therefore, not standing for re-election.

We don't know of any reason why any of these nominees would not accept the nomination. However, if any of the nominees does not accept the nomination, the persons named in the proxy will vote for the substitute nominee that the Board recommends.

The Board of Directors recommends a vote FOR Norman R. Augustine, A. G. Lafley, Johnathan A. Rodgers, John F. Smith, Jr., and Margaret C. Whitman as Directors to hold office until the 2006 annual meeting of shareholders and until their successors are elected.

Additional Information Concerning the Board of Directors

During the fiscal year ended June 30, 2003, the Board of Directors held ten meetings and Committees of the Board held a total of 24 meetings. Average attendance at these meetings by nominees and incumbents serving as Directors during the past year was in excess of 88%. Mr. De Sole was only able to attend 72.7% due to prior commitments. Margaret C. Whitman was only able to attend 44.4% of the meetings due to the fact that she was elected a Director only in January and had unanticipated circumstances that conflicted with her attendance.

The Board of Directors has adopted Corporate Governance Guidelines to set forth its agreements concerning overall governance practices. These Corporate Governance Guidelines are attached as Appendix B.

Directors who are Procter & Gamble employees do not receive Directors' fees. Stock awards made to non-employee Directors are made under The Procter & Gamble 1993 Non-Employee Directors' Stock Plan, as amended September 10, 2002. All stock awards under the plan are made in shares of Procter & Gamble Common Stock. During the fiscal year ended June 30, 2003, Directors who were not employees received the following compensation:

an annual retainer fee of \$60,000 paid in quarterly increments, which the Directors may elect to receive as Common Stock;

a grant of restricted stock on January 2, 2003 with a value of approximately \$45,000 on the date of grant (this stock cannot be sold by any Director until service on the Board ends); and

a stock option granted on September 13, 2002 with a term of ten years to purchase 1,442 shares of Common Stock at an exercise price of \$91.33, the fair market value of the Common Stock on the date of grant.

The proxy includes for approval The Procter & Gamble 2003 Non-Employee Directors' Stock Plan which will become effective on January 1, 2004 pending shareholder approval. This will replace the 1993 Plan which terminates on December 31, 2003. The new plan provides for the award of stock, restricted stock, restricted stock units and stock options.

Directors who are not employees also receive insurance coverage in the amount of \$750,000, payable in the event of accidental death or disability occurring while traveling on Procter & Gamble business. Expenses for Company-related business travel are either paid or reimbursed by the Company.

This year, the Compensation Committee adopted share ownership guidelines for non-employee Directors. Non-employee Directors must own Procter & Gamble stock worth six times their annual cash retainer. Except for the five most recently-elected Directors, we anticipate all Directors will reach this goal by July 2004.

If a non-employee Director elects to defer cash fees under The Procter & Gamble Deferred Compensation Plan for Directors, such fees payable to the Director are credited to the Director's account but not funded. Interest is credited to the account at the end of each month at the prime rate then in effect at Morgan Guaranty Trust Company of New York. This type of deferred compensation account is payable either upon the retirement of the Director or after a term of years after retirement specified by the Director.

The Board of Directors has a Charitable Gifts Program which is funded by life insurance on the lives of the non-employee members of the Board of Directors and the Chief Executive. Effective July 1, 2003, the program

Table of Contents

was discontinued for any new Board members (including the Chief Executive); however, current participants will retain the coverage. Directors receive no financial benefit from the program because the Company receives all insurance proceeds and charitable deductions. Under this program, the Company makes charitable contributions of up to a total of \$1 million following the death of a participant. These contributions are divided among up to five charitable organizations that the participant selects. The following current and retired Directors are participants or eligible to participate in this program: David M. Abshire, Edwin L. Artzt, Norman R. Augustine, Donald R. Beall, Theodore F. Brophy, Richard B. Cheney, Scott D. Cook, Domenico DeSole, Richard J. Ferris, Joseph T. Gorman, Robert A. Hanson, Durk I. Jager, A. G. Lafley, Joshua Lederberg, Charles R. Lee, Lynn M. Martin, W. Whitman and Ernesto Zedillo.

Report of the Compensation Committee of the

Board of Directors on Executive Compensation

Overview

The Compensation Committee of the Board of Directors (the Committee) consists entirely of independent, non-employee Directors. The Committee establishes and regularly reviews executive compensation levels and policies, and authorizes short- and long-term awards to executives in the form of cash or stock. All such awards are made within the authority of the Additional Remuneration Plan, which dates back to 1949, and The Procter & Gamble 2001 Stock and Incentive Compensation Plan (the 2001 Stock Plan), which was approved by shareholders on October 9, 2001.

Compensation for executives is based on the principles that compensation must (a) be competitive with other quality companies in order to help attract, motivate and retain the talent needed to lead and grow Procter & Gamble's business; (b) be based on performance of the individual and performance of the business; (c) provide a strong incentive for key managers to achieve the Company's goals; and (d) make prudent use of the Company's resources. Procter & Gamble has an enviable record of recruiting, retaining and developing its executive talent from within an achievement few other corporations have matched.

Executive compensation is based on performance against a combination of financial and non-financial measures including business results and developing organizational capacity. In addition, executives are expected to uphold the fundamental principles embodied in the Company's Statement of Purpose, Values and Principles plus the Sustainability Report and the Environmental Quality Policy. These include a commitment to integrity, maximizing the development of each individual, developing a diverse organization, and continually improving the environmental quality of the Company's products and operations. In upholding these objectives, executives not only contribute to their own success, but also help ensure that the Company's business, employees, shareholders and the communities in which we live and work will prosper.

Elements of Executive Compensation

It is the Company's long-standing policy that variable, at-risk compensation, both annual and long-term, should make up a significant portion of executive compensation. For senior business executives, a substantial portion of compensation is comprised of variable, at-risk elements with the majority based on the long-term success of the Company. When the incentive plans pay awards at target, the executive compensation levels will equal the middle compensation range for a comparative group of companies. This group includes leading consumer products companies and other corporations of size and reputation comparable to Procter & Gamble and companies with which Procter & Gamble must compete in hiring and retaining employees. In order to assure its continued relevance, the composition of this group is updated periodically by the Compensation Committee. A number, but not all, of these companies are included in the composite group index shown on the performance graph.

The Committee believes the compensation levels of the Company's executive officers are competitive and in line with those of comparable companies. This conclusion is derived in part from consultations and surveys by

Table of Contents

independent outside compensation consultants retained by the Compensation Committee, with whom the Committee meets at least annually.

Annual Compensation

Annual compensation consists of base salary and the Short-Term Achievement Reward (STAR).

Salary ranges are established based on a careful examination of survey data, from a comparative group of companies, gathered by a leading consulting firm specializing in executive compensation. Salary ranges are targeted to be in the middle of this select group of companies. Within the established ranges, the Committee approves changes in amounts of base salary considering the executive's performance evaluation and time in position.

STAR is the Company's annual incentive program. Under this program, awards are based on a combination of two factors: (1) the Company's overall results; and (2) each specific business unit's results. The Company factor is derived from two metrics: total shareholder return relative to a competitive peer group and core earnings per share growth relative to a pre-established target. The individual business unit factors are determined by a retrospective assessment of each business unit's performance. This assessment takes into account a number of factors including profit, sales, operating cash flow, market share and performance relative to competitors. Senior management and the Committee believe that differences in performance should result in significantly different levels of annual compensation.

Long-Term Incentives

Long-term incentives consist of stock options and a long-term performance program. Both types of awards serve to focus executives attention on the longer-term performance of the Company. When these incentive plans pay awards at target, the long-term portion of executive compensation will equal the middle range for long-term compensation at the comparative group of companies.

Stock options under the shareholder-approved 2001 Stock Plan are awarded only to employees who have demonstrated a capacity for contributing in a substantial way to the success of the Company. As part of an appropriate mix of compensation elements, stock options encourage these managers to act as owners of the business, which helps to further align their interests with the shareholders' interests. The Company makes stock option grants at no less than 100% of the market price on the date of grant and the options cannot be repriced to a price that is below the market price on the date of grant (unless it is in conjunction with a restructuring). Stock appreciation rights (SARs) are generally granted instead of options in countries where the holding of foreign stock is restricted. Under the 2001 Stock Plan and current provisions set by the Compensation Committee, stock option grants and SARs are fully exercisable after three years and have a maximum term of ten years. The target number of shares to be awarded to an individual is based on the individual's total short-term compensation and the corresponding competitive grant values of the comparator group of companies. This target amount can be adjusted by as much as plus or minus 50% based on the individual's performance. The number of option shares currently held by each executive is not considered in determining awards. Generally, stock options are exercisable only by the employee and cannot be transferred except in case of death.

The Business Growth Program (BGP) is a three-year performance program covering July 1, 2001 through June 30, 2004. Approximately 35 senior executive officers are included in this program and each is assigned a dollar target amount (Target Award) for the three-year performance period. Payments pursuant to BGP are determined based on the Company's performance on two measures—operating total shareholder return and core earnings per share growth. At the end of the performance period, the actual award a participant would be eligible to receive (less any progress awards) may be larger or smaller than the Target Award (or no award at all) depending on the Company's performance. Progress awards equal to 20% of the anticipated award may be paid at the end of the first and second year if interim goals are achieved at or above the target level. Awards may be paid in the form of cash, three-year restricted stock, retirement restricted stock or restricted stock units. Additional information concerning BGP is contained in the table entitled "Long-Term Incentive Plans—Awards for the 3-Year Period Covering Fiscal Years 2001-02 through 2003-04" on page 17.

Share Ownership Program

The Board believes the interests of the Company and its employees are closely coupled. One of the ways this is demonstrated is through share ownership. To support the Company's desire to increase management's share ownership, approximately 35 senior executive officers are expected to achieve and retain a multiple of their base salary in shares of Procter & Gamble stock. This year the Committee increased the Chief Executive's multiple from five times to six times base salary. The multiple for other senior officers is three times base salary. All officers subject to the program are either in compliance or have plans in place to achieve compliance within the time frame prescribed in the stock ownership Program.

The Committee also implemented a mandatory holding period for stock option gains. Starting on January 1, 2004, the Chief Executive, the Vice Chairmen of the Board and the Chief Financial Officer must hold for at least one year the net shares, after expenses and taxes, from stock option exercises.

Limitation of Deductions

Section 162(m) of the Internal Revenue Code limits the deductibility of executive compensation paid to the Company's named executive officers to \$1,000,000 per year, but contains an exception for certain performance-based compensation. For fiscal year 2002-03, grants of retirement restricted stock, restricted stock units and stock options and payments pursuant to the BGP under the 2001 Stock Plan satisfy the requirements for deductible compensation. While the Committee's general policy is to preserve the deductibility of most compensation paid to the Company's named executives, the Committee authorizes payments that may not be deductible if it believes they are in the best interests of the Company and its shareholders.

Compensation of the Chief Executive

The compensation of A. G. Lafley, Chief Executive, was determined in accordance with the compensation principles and plans discussed in this report and the Compensation Committee's charter. In setting the compensation for the Chief Executive, the Committee received an analysis prepared by the outside compensation consultant retained by the Committee. This analysis covered the compensation of CEOs in a comparator group of companies. The analysis reviewed the compensation paid to other CEOs including salary, annual and long-term incentive awards. The analysis also reviewed the financial performance and total shareholder return of each Company. The elements of Mr. Lafley's compensation and the performance basis for his compensation were determined by the Committee acting in executive session without the presence of any Company employee and are discussed below.

Fiscal Year 2002-03 Performance

The Company continues to perform well under A. G. Lafley's leadership. Unit volume, net sales, earnings and cash flow all reached record levels in 2002-03 with the net sales growth rate at the high end of the Company's on-going target.

The Company's progress is driven by both an improved cost structure and strengthened market positions. Strong and growing market shares have contributed to increased top and bottom line growth.

These improved results have been recognized by the investment community, as the Company once again met its objective of ranking in the top third of a peer group on total shareholder return.

Base Salary

The Committee approved a base salary for Mr. Lafley of \$1,700,000 effective July 1, 2003. This is an increase of \$100,000. In determining the amount of the increase the Committee took into account Mr. Lafley's performance, time in position and the base salary paid to Chief Executive Officers in the Company's compensation comparator companies. With this increase, Mr. Lafley's salary is at the midpoint of the salary range for such CEOs.

Table of Contents

Annual Incentive Compensation

Under the Company's STAR program, Mr. Lafley's target award is 100% of his June 2003 base salary of \$1,600,000. The STAR program allows for a maximum award of 217% of the target award. On June 10, 2003 the Committee approved a STAR award for Mr. Lafley in the amount of \$3,000,000 which was 188% of his target award. The Committee used its discretion to determine Mr. Lafley's STAR award, taking into account the Company's overall results, Mr. Lafley's individual performance, the award opportunity provided under the STAR program, and the annual bonus awards paid to Chief Executive Officers in the Company's compensation comparator companies.

Mr. Lafley has elected to receive this STAR award in the form of a stock option grant. This grant will be made in September 2003 on the same terms as the grants made to employees generally. The formula for determining the number of shares that will be granted to Mr. Lafley takes into account the Black-Scholes value of such shares. By electing to take his annual incentive award in the form of stock options rather than cash, Mr. Lafley is further linking his compensation to the Company's future growth in shareholder value.

Effective July 1, 2003, the Committee modified Mr. Lafley's annual compensation opportunity to be more at risk by reducing his salary range and increasing his STAR target award to 120% of base salary.

Long-term Incentive Awards

Mr. Lafley's long-term incentive compensation consists of two components, stock and the Business Growth Program.

On September 13, 2002 the Committee granted a stock option award to Mr. Lafley of 262,798 shares in recognition of his performance in fiscal year 2001-02. These options were granted under the same terms and conditions as awards made to employees generally.

Mr. Lafley's stock option award for his performance in fiscal year 2002-03 will be granted in February 2004 and will be reflected in next year's proxy. The Committee decided to award a portion of Mr. Lafley's long-term stock incentive compensation for fiscal year 2002-03 in the form of restricted stock. On June 10, 2003 the Committee granted Mr. Lafley 50,000 shares of restricted stock. The restrictions on these shares lapse upon Mr. Lafley's retirement provided it is after June 13, 2007.

Under the Company's Business Growth Program, Mr. Lafley has a long-term incentive award opportunity for a 3-year performance period beginning on July 1, 2001 and ending on June 30, 2004. Mr. Lafley's target award opportunity for the three-year program is \$8,220,000, which represents six times his July 1, 2001 base salary. A description of the Business Growth Program is included with the Long-term Incentive Plans table. The criteria for the award are the Company's operating total shareholder return and the growth in core earnings per share. The Committee has set goals for each of the two criteria, and Mr. Lafley's actual award will be based on the results achieved over the 3-year performance period. Mr. Lafley will receive a progress award of \$2,712,600 in restricted stock on September 15, 2003, which is 20% of his total anticipated award (based on Company performance to date).

Summary

Mr. Lafley's total compensation package described above is competitive with that of other Chief Executive Officers of similar sized companies with similar performance. In addition, the Committee has further aligned Mr. Lafley's interests with those of shareholders by increasing his stock ownership requirement to six times his base salary and by requiring Mr. Lafley to retain net shares, after expenses and taxes, from stock option exercises for a minimum holding period of one year.

- (1) The Short-Term Achievement Reward (STAR) awards may be made in the form of cash, restricted stock or stock options as approved by the Compensation Committee. All STAR awards are reported in this column regardless of the form of the award. The STAR award was paid in cash unless otherwise noted. The STAR awards to the named executive officers were based on the performance of the business units under their responsibility. The 2002-03 award for Mr. Lafley is 187.5% of target; the award for Mr. Montoya is 111.1% of target; the award for Mr. Clark is 172.7% of target; the award for Mr. Byrnes is 177.8% of target; and the award for Mr. Ketchum is 170.2% of target.
- (2) Amounts shown in this column are tax equalization payments or reimbursements to cover incremental taxes required to be paid to Japan for Messrs. Lafley and Clark, to Venezuela for Mr. Montoya and to Germany for Mr. Byrnes, as paid in accordance with Company policies applicable generally to employees assigned outside their home countries. Any perquisites or other personal benefits received from the Company by any of the named executives were substantially less than the reporting thresholds established by the Securities and Exchange Commission (the lesser of \$50,000 or 10% of the individual's cash compensation). Mr. Lafley is required to use Company aircraft for personal as well as business travel pursuant to the Company's executive security program established by the Board of Directors. Because the security program is for the benefit of the Company, the costs associated with Mr. Lafley's personal travel are not included in this column. However, the Company is voluntarily reporting in this footnote that the incremental costs associated with such travel were, in

thousands, \$83.1 for 2002-03, \$26.5 for 2001-02, and \$42.0 for 2000-01. (These costs represent less than 2% of the total incremental costs of operating the Company planes during each of these years.) In addition, the value to Mr. Lafley of such travel, calculated pursuant to IRS regulations, is

included in the Imputed Income column of footnote 4. The Company does not reimburse Mr. Lafley for any additional taxes he may incur on this imputed income.

- (3) All restricted stock awarded to the named executives for 2002-03 will vest on retirement. The number and value (in thousands of dollars) of aggregate restricted stock holdings earned by each of the named executives earned over their careers and still held as of June 30, 2003 was: Mr. Lafley, 91,097 shares (\$8,157.3); Mr. Montoya, 60,028 shares (\$5,375.2); Mr. Clark, 9,197 shares (\$823.5); Mr. Byrnes, 22,625 shares (\$2,026.0); and Mr. Ketchum 7,651 shares (\$685.1). The value of the restricted stock is determined by multiplying the total shares held by each named executive by the average of the high and low prices on the New York Stock Exchange on June 30, 2003 (\$89.545). Dividends are paid on all restricted Common Stock at the same rate as paid on the Company's Common Stock. Upon a change in control, all conditions and restrictions on restricted stock will immediately lapse.

- (1) All options, which were granted pursuant to The Procter & Gamble 2001 Stock and Incentive Compensation Plan, were non-qualified, were granted at market value on the date of grant, vest on the third anniversary of the date of grant, and have a term of ten years. Upon a change in control, all stock options will immediately vest.
- (2) Given the lack of appropriate models to value long-term, non-transferable employee stock options, we have used the Black-Scholes option-pricing model to provide a grant date present value of our option grants pursuant to the rules of the SEC. The following assumptions were used in the calculation: options will be held full term; a dividend yield of 1.8%; an interest rate of 4.38%; and expected price volatility of 20%. We have made no adjustments to reflect that these options are non-transferable and subject to forfeiture.
- (3) Mr. Lafley also received an award of 73,914 stock options on September 13, 2002 with an exercise price of \$91.325 and an expiration date of September 13, 2012 for his Short-Term Achievement Reward earned in fiscal year 2001-02 as shown in the Summary Compensation Table. The annualized gains (in thousands of dollars) on these option/ SAR exercises were as follows: Mr. Lafley, \$0; Mr. Montoya, \$0; Mr. Clark, \$84.4; Mr. Byrnes, \$86.2 and Mr. Ketchum \$56.6.

**Long-Term Incentive Plans Awards

2001-02 through 2003-04**

As previously disclosed, this table provides information concerning award opportunities made under the Business Growth Program (BGP) during fiscal year 2001-02 for the 3-year performance period beginning July 1, 2001 and ending June 30, 2004. No new award opportunities were made in the last fiscal year. Payouts under BGP are based on core earnings per share growth and operating total shareholder return over the three-year period. If threshold performance is not met, no award will be earned. To the extent the Company's performance exceeds the threshold, a varying award up to the maximum will be earned. Progress payments equal to 20% of the anticipated award may be made at the end of the first and second year if interim goals are achieved. Progress payments for the second year are shown in the Summary Compensation Table on page 14. BGP is also discussed in the Executive Compensation Committee Report on page 11.

RETIREMENT BENEFITS

Retirement benefits for U.S.-based executive officers are provided primarily by The Procter & Gamble Profit Sharing Trust and Employee Stock Ownership Plan. This is a qualified defined contribution plan providing retirement benefits for U.S.-based employees. In addition, executives participating in The Procter & Gamble Profit Sharing Trust and Employee Stock Ownership Plan receive retirement awards in the form of stock restricted (non-transferable and subject to forfeiture) until retirement. These awards make up the difference between the Internal Revenue Code limit on contributions that can be made to that Plan and what would otherwise be contributed by the Company to the executive's retirement account. Under the rules set by the SEC, these Company contributions are included in the Summary Compensation Table in the All Other Compensation column (see footnote (4) to such Table). Mr. Clark is enrolled in the pension plans of Procter & Gamble Canada, Inc. Messrs. Montoya and Clark are also enrolled in a supplemental retirement plan for U.S.-based managers who previously participated in pension plans of international subsidiaries. These Plans are defined benefit plans funded by book reserves or insurance contracts in order to pay retirement benefits in cash. Given their age and service with the Company, their estimated annual benefit under these Plans, if payable in the form of a straight annuity upon retirement at age 65, would be \$197,390 for Mr. Montoya and \$230,625 for Mr. Clark.

The Procter & Gamble 1992 Stock Plan (Belgian Version)

Effective February 14, 1997, the Company's Board of Directors approved The Procter & Gamble 1992 Stock Plan (Belgian Version). Although the Plan has not been submitted to shareholders for approval, the Plan is nearly identical to The Procter & Gamble 1992 Stock Plan, approved by the Company's shareholders on October 13, 1992, except for a few minor changes designed to comply with the Belgian tax laws. Although no further grants can be made under the Plan, unexercised stock options previously granted under this Plan remain outstanding.

The Plan is a stock incentive plan designed to attract, retain, and motivate key Belgian employees. Under the plan, eligible participants may be granted or offered the right to purchase stock options, may be granted stock appreciation rights, and/or may be granted shares of the Company's Common Stock. Except in the case of death of the recipient, all stock options and stock appreciation rights must vest in no less than one year from the date of grant and must expire no later than fifteen years from the date of grant. The exercise price for all stock options granted under the Plan is the average price of the Company's stock on the date of grant. If a recipient of a grant leaves the Company while holding an unexercised option or right, any unexercisable portions immediately become void, except in the case of death, and any exercisable portions become void within one month of departure, except in the case of death or retirement. Any Common Stock awarded under the Plan may be subject to restrictions on sale or transfer while the recipient is employed, as the Committee administering the plan may determine.

The Procter & Gamble Future Shares Plan

On October 14, 1997, the Company's Board of Directors approved The Procter & Gamble Future Shares Plan pursuant to which options to purchase shares of the Company's Common Stock may be granted to employees worldwide. The purpose of this Plan is to advance the interests of the Company by giving substantially all employees a stake in the Company's future growth and success and to strengthen the alignment of interests.

between employees and the Company's shareholders through increased ownership of shares of the Company's stock. The Plan has not been submitted to shareholders for approval.

Subject to adjustment for changes in the Company's capitalization, the number of shares to be granted under the Plan is not to exceed 17 million shares. Under the Plan's regulations, recipients are granted options to acquire 100 shares of the Company's Common Stock at an exercise price equal to the average price of the Company's Common Stock on the date of the grant. These options vest five years after the date of grant and expire ten years following the date of grant. If a recipient leaves the employ of the Company prior to the vesting date for a reason other than disability, retirement or special separation (as defined in the Plan), then the award is forfeited.

At the time of the first grant following approval of the Plan, each employee of the Company not eligible for an award under the 1992 Stock Plan was granted options for 100 shares. Since the date of the first grant, each new employee of the Company has also received options for 100 shares. Following the grant of options on June 30, 2003, the Company suspended this part of the Plan and intends to make no further grants under this part of the Plan.

In addition to the grants above, annual grants of options for 50 shares are granted to approximately 2,000 employees who are not eligible for participation in the 2001 Stock and Incentive Compensation Plan in recognition of outstanding performance.

(*) The Plans contained in this table are the only equity compensation plans required to be disclosed by the Company under current rules and regulations. Nevertheless, the following is provided in order to provide our shareholders with additional information regarding active plans whereby Company employees may obtain Company stock

In addition to the equity compensation Plans contained in the table, the Company also maintains: (a) a U.S.-based retirement plan that is invested in Company stock (The Procter & Gamble Profit Sharing Trust and Employee Stock Ownership Plan, or PST); (b) a retirement plan for employees located in Puerto Rico that is invested in Company stock (The Profit Sharing Retirement Plan of the Procter & Gamble Commercial Company or Puerto Rico Retirement Plan); (c) a Shareholder Investment Program (SIP) available to all shareholders, including employees; (d) a Shareholder Investment Scheme available to all employees and retirees in the UK (the UK SIS); and (e) a number of stock ownership programs outside the U.S. through which the Company facilitates employee share ownership of Company stock.

PST is a retirement program for U.S.-based employees that is qualified under Section 401(a) of the Internal Revenue Code. Under PST, the Company allocates a combination of cash and preferred shares of Company stock equal to a percentage of each employee's salary to each employee's account. The contribution percentage is determined by a combination of the employee's years of service and Company profits. Any cash allocated is then used by the PST Trustees to purchase shares of Company Common Stock on the open market at current market prices. After five years of service with the Company, the employee is fully vested in these contributions. PST also contains a traditional 401(k) feature whereby employees can contribute a percentage of their salaries toward the purchase of Company Common Stock or other investments at current market prices, but there is no matching Company contribution available for this 401(k) feature.

The Puerto Rico Retirement Plan is a retirement program for Puerto Rico-based employees that is qualified under Section 401(a) of the Internal Revenue Code. Under the Puerto Rico Retirement Plan, the Company contributes cash equal to a percentage of each employee's salary to each employee's account. The contribution percentage is determined by the employee's years of service. The cash is then used by the Puerto Rico Retirement Plan Trustees to purchase shares of Company Common Stock on the open market at current market prices.

SIP provides all Company shareholders, including employees, the opportunity to purchase Common Stock directly through the Company. Employee participation is voluntary. Participating employees can purchase Common Stock through salary reductions, cash or reinvestment of dividends. All contributions (both employee and non-employee) are then used to purchase shares on the open market at current market prices for the participants. Similarly, the UK SIS provides all employees and retirees located in the UK the

Transactions with Executive Officers, Directors and Others

During the past fiscal year, the Company and its subsidiaries had no transactions in which any Director, or any member of the immediate family of any Director, had a material direct or indirect interest reportable under applicable rules of the SEC. In the normal course of business the Company had transactions with other corporations where certain Directors are or were executive officers; and the Company utilized the services of the law firm of Thompson Hine, L.L.P. in which Robert D. Storey, a Director, is a partner. None of the aforementioned matters was material in amount as to the Company, the corporations or the law firm.

Report of the Audit Committee

Working under the guidance of a written Charter approved by the Board of Directors, the Audit Committee is primarily responsible for overseeing the Company's financial reporting process as well as the internal controls that management and the Board have established. The Committee is currently composed of four independent members of the Board. The Committee has had a written Charter for several years, a current version of which is shown as Appendix C to this proxy statement.

opportunity to purchase Common Stock directly through the Company. Participation is voluntary and all contributions are used to purchase shares on the open market at current market prices for the participants.

The Company's stock ownership plans include the: (a) International Stock Ownership Program (ISOP); (b) Savings and Thrift Plan Saudi Arabia (Saudi Plan); (c) UK 1-4-1 Plan (UK Plan); (d) Employee Stock Purchase Plan Japan (Japan Plan); (e) P&G Commercial Company Employees Savings Plan Puerto Rico (Puerto Rico Plan); (f) Group Profit Sharing, Incentive and Employer Contribution Plan France (French Plan); and (g) P&G Ireland Employees Share Ownership Plan (Irish Plan). Although the precise terms vary slightly for each Plan, employees are generally permitted to contribute a certain percentage of their base salary toward the purchase of Company Common Stock, with the Company matching a portion of each employee contribution with a cash contribution equal to a percentage of the employee's base salary. A Trustee uses the cash and purchases shares of Company Common Stock on the open market. All the Plans require that employee and Company contributions be used to purchase shares of Company Common Stock, except for the Saudi Plan and the French Plan, which allow participants to elect alternative investments. In the French Plan, the Company's matching contribution applies only if the employee elects to purchase Company Common Stock. In the Saudi Plan, the Company matches employee contributions regardless of whether the employee chooses to invest in Company Common Stock or an alternative investment. With the exception of a few countries where the rules vary for local tax purposes, employees are immediately vested in all shares purchased; however, employees are not entitled to withdraw the shares purchased with the Company's matching contribution for a period of five years after purchase.

The Board of Directors elected John F. Smith, Jr. as the Chair of the Audit Committee, effective October 8, 2002. The Board has determined that Mr. Smith is both independent and an audit committee financial expert, as defined by SEC guidelines.

The Committee's responsibility is to monitor and review these processes, acting in an oversight capacity relying on the information provided to it and on the representations made by management and the independent auditors.

During the past fiscal year, the Audit Committee met eight times, including telephone meetings to discuss quarterly results. In carrying out its duties, the Committee has reviewed and discussed the Company's audited consolidated financial statements for the fiscal year ended June 30, 2003, with the Company's management and Deloitte & Touche LLP, the independent auditors appointed by the Board. The Committee has also discussed with Deloitte & Touche LLP the matters required to be discussed by Statement on Auditing Standards No. 61, "Communication with Audit Committees", as amended. In addition, the Committee has discussed various matters with Deloitte & Touche LLP related to the Company's consolidated financial statements, including all critical accounting policies and practices used, all alternative treatments for material items that have been discussed with Company management, and all other material written communications between Deloitte & Touche LLP and management. Based on the reports and discussions described in this proxy, and subject to the limitations on the role and responsibilities of the Committee referred to above and in the Audit Committee Charter, the Audit Committee recommended to the Board of Directors that the audited consolidated financial statements be included in the Annual Report on Form 10-K for the fiscal year ended June 30, 2003.

Services Provided by Deloitte

All services rendered by Deloitte are permissible under applicable laws and regulations, and are pre-approved by the Audit Committee. (The Audit Committee's pre-approval policy with respect to non-audit services is shown as Appendix K to this proxy statement.) Pursuant to new rules of the SEC, the fees paid to Deloitte for services are disclosed in the table above under the categories listed below. However, under existing rules, the disclosure would be (in thousands of dollars): Financial Information Systems Design and Implementation: \$0; All Other Fees: \$14,008 (combining Audit-Related Fees, Tax Fees and All Other Fees from the table above).

- 1) **Audit Fees** These are fees for professional services performed by Deloitte for the audit of the Company's annual financial statements and review of financial statements included in the Company's 10-Q filings, and services that are normally provided in connection with statutory and regulatory filings or engagements.
- 2) **Audit-Related Fees** These are fees for assurance and related services performed by Deloitte that are reasonably related to the performance of the audit or review of the Company's financial statements. This includes: employee benefit and compensation plan audits; due diligence related to mergers and acquisitions; attestations by Deloitte that are not required by statute or regulation; and consulting on financial accounting/reporting standards.
- 3) **Tax Fees** These are fees for professional services performed by Deloitte with respect to tax compliance, tax advice and tax planning. This includes preparation of original and amended tax returns for the Company and its consolidated subsidiaries; refund claims; payment planning; tax audit assistance; and tax work stemming from Audit-Related items.
- 4) **All Other Fees** These are fees for other permissible work performed by Deloitte that does not meet the above category descriptions. Approximately 80% of this work involves tax filing and planning for individual employees involved in the Company's expatriate program. The remainder is for various local engagements that are permissible under applicable laws and regulations.

These services are actively monitored (both spending level and work content) by the Audit Committee to maintain the appropriate objectivity and independence in Deloitte's core work, which is the audit of the Company's consolidated financial statements.

PROPOSAL TO RATIFY APPOINTMENT OF INDEPENDENT AUDITORS

The Audit Committee has appointed the firm of Deloitte & Touche LLP as the Company's independent auditors for fiscal year 2003-04. Although action by the shareholders in this matter is not required, the Audit Committee believes that it is appropriate to seek shareholder ratification of this appointment in light of the critical role played by independent auditors in maintaining the integrity of Company financial controls and reporting, and will seriously consider shareholder input on this issue.

One or more representatives of Deloitte & Touche LLP will be in attendance at the annual meeting on October 14, 2003. The representatives will have the opportunity to make a statement, if desired, and will be available to respond to appropriate questions from shareholders.

The following proposal will therefore be presented for action at the annual meeting by direction of the Board of Directors:

RESOLVED, That action by the Audit Committee appointing Deloitte & Touche LLP as the Company's independent auditors to conduct the annual audit of the financial statements of the Company and its subsidiaries for the fiscal year ending June 30, 2004 is hereby ratified, confirmed and approved.

The Board of Directors recommends a vote FOR this proposal.

PROPOSAL TO ADOPT THE PROCTER & GAMBLE 2003 NON-EMPLOYEE DIRECTORS STOCK PLAN

On July 9, 2003, the Board of Directors approved for submission to the shareholders The Procter & Gamble 2003 Non-Employee Directors Stock Plan as set forth in Appendix A to this proxy statement. This 2003 Non-Employee Directors Stock Plan replaces the Company's 1993 Non-Employee Directors Stock Plan, which expires effective December 31, 2003. The resolution which will be introduced at the shareholders meeting seeking approval of such Plan is as follows:

RESOLVED, That The Procter & Gamble 2003 Non-Employee Directors Stock Plan adopted by the Board of Directors, as set forth in Appendix A to the proxy statement for this meeting, is hereby adopted.

The Board of Directors recommends a vote FOR this resolution for the following reasons:

The Procter & Gamble 2003 Non-Employee Directors Stock Plan (the Plan) is designed to strengthen the alignment of interest between non-employee Directors (the Participants) and the shareholders through the increased ownership by Participants of shares of the Company's Common Stock or other equity instruments that track the value of the Company's Common Stock. This will be accomplished by allowing Participants to elect voluntarily to convert a portion or all of their fees for services as a Director into Common Stock or other equity instruments granted under the Plan and allow the Compensation Committee of the Board of Directors (the Committee) to award shares under the Plan to non-employee Directors.

The Plan will be administered by the Committee. Absent a change in the Company's capitalization, the total number of shares that may be awarded will not exceed approximately 500,000 shares. Shares awarded in lieu of fees will be valued at the average of the high and low quotations for Common Stock of the Company on the New York Stock Exchange on the day of the transfer to a Participant. All shares awarded will be full shares.

Grants of shares of Common Stock, restricted stock or restricted stock units will be valued at not less than the average of the high and low quotations for Common Stock on the New York Stock Exchange on the day of the grant. The exercise price for stock options and stock appreciation rights granted under the Plan will be not less than the average of the high and low quotations for Common Stock on the New York Stock Exchange on the date of the grant. Stock options and stock appreciation rights have a term of not less than ten years from the date of grant and are exercisable not less than one year from the date of grant, except upon the death of a Participant or a change of control of the Company, in which case stock options and stock appreciation rights are immediately exercisable. All restrictions on shares granted under the Plan lapse upon a change of control of the Company. All shares awarded may be subject to such conditions and restrictions, if any, as the Committee may determine. However, no stock options or stock appreciation rights granted under the Plan can be re-priced after grant.

The Plan will become effective January 1, 2004 subject to shareholder approval. The Plan will terminate on December 31, 2013 unless a different termination date is fixed by the shareholders or by action of the Board of Directors, but no such termination shall affect the prior rights under the Plan of the Company or of anyone to whom shares have been transferred prior to such termination.

Shareholder Proposals

Shareholder Proposal No. 1

Evelyn Y. Davis, Watergate Office Building, 2600 Virginia Avenue, N.W., Suite 215, Washington, D.C. 20037, owning 400 shares of Common Stock of the Company, has given notice that she intends to present for action at the annual meeting the following resolution:

RESOLVED: That the stockholders of Procter & Gamble recommend that the Board of Directors take the necessary steps to reinstate the election of directors ANNUALLY, instead of the stagger system which was recently adopted.

Table of Contents

Mrs. Davis has submitted the following statement in support of her resolution:

REASONS: Until recently, directors of Procter & Gamble were elected annually by all shareholders.

The great majority of New York Stock Exchange listed corporations elect all their directors each year.

This insures that ALL directors will be more accountable to ALL shareholders each year and to a certain extent prevents the self-perpetuation of the Board.

Eliminating the stagger system certainly would or could help to make outside directors more independent of management.

If you AGREE, please mark your proxy FOR this resolution.

The Board of Directors recommends a vote AGAINST this proposal for the following reasons:

The Company, like the proponent, is committed to good corporate governance. We believe that part of good governance involves having Directors with the proper knowledge and experience to oversee the Company's affairs. To further this goal, eighteen years ago (in 1985), the shareholders decided that the Company's Board of Directors should be divided into three classes, with Directors elected to staggered three-year terms, to help ensure the Company would always have a certain number of experienced Directors available.

The shareholders' decision has worked well for the past eighteen years, balancing the need to have new Directors to bring fresh ideas and perspectives to the Company with the need for experience on the Board. Despite this track record of success, the shareholders' decision has been challenged (usually by the same proponent) in each of the last eighteen years, except last year. And, with each challenge, the shareholders again reaffirmed their support for having the Directors divided into classes.

This year's proposal is supported by essentially the same arguments that have been used in the past. We believe the shareholders have already rejected these arguments, and that ensuring experience on the Board is more important than ever in the current business environment. For these reasons, we believe the proposal should be rejected.

The Board of Directors recommends a vote AGAINST this proposal.

Shareholder Proposal No. 2

Lenore Goldman, c/o Harrington Investments, Inc., 1001 Second Street, Suite 325, Napa, California 94559, owning 600 shares of Common Stock of the Company, in conjunction with four co-sponsoring organizations (whose names with shares of Common Stock of the Company beneficially held, will be furnished to any person upon request in writing to Linda D. Rohrer, Assistant Secretary, The Procter & Gamble Company, P.O. Box 599, Cincinnati, OH 45201 or by telephone at 513-983-8697 or by e-mail at rohrer.ld@pg.com), has given notice that she intends to present for action at the annual meeting the following resolution:

RESOLVED: Shareholders request that (unless long-term safety testing demonstrates that genetically engineered (GE) crops, organisms, or products thereof are not harmful to humans, animals, and the environment) the Board of Directors adopt a policy to identify and label all food products manufactured or sold by the company under the company's brand names or private labels that may contain GE ingredients.

Ms. Goldman has submitted the following statement in support of her resolution:

Right to Know:

In the U.S., a long tradition of citizens' right to know is expressed in laws requiring nutritional labeling of foods;

Focus groups conducted by the Food and Drug Administration (spring 2000) indicated strong public support for mandatory labeling;

Approximately a dozen polls in the U.S. show that about 70-93% of people surveyed want GE food to be labeled as such;

Table of Contents

A coalition of 270 consumer groups, including the American Association of Retired People and the Consumers Union, urged Congress to label GE foods and require strict safety testing. (1/2001)

It is difficult for individuals to avoid GE foods for religious or ethical reasons unless they are labeled;

The European Union, Japan, New Zealand, South Korea and Australia have passed regulations that require labeling of GE foods.

Labeling may reduce liability and protect market share:

Field tests of crops engineered to produce pharmaceuticals/industrial chemicals could pollute the food system. The National Food Processors Association has stated (11/02): There is an unacceptable risk to the food supply associated with the use of food and feed crops as factories for the production of pharmaceuticals or industrial chemicals without mandatory regulations and necessary verification in place.

Since fall of 2000, many millions of dollars may have been spent by food companies in recalling food containing GE corn not approved for human consumption;

Upon ratification by 50 countries, the Biosafety Protocol, signed by over 100 countries, will require that genetically engineered organisms (GEOs) intended for food, feed and processing must be labeled may contain GEOs, and countries can decide whether to import those commodities based on a scientific risk assessment;

Continuing concerns regarding the potentially harmful effects of GE-agricultural products to humans, animals and the environment include:

For human health and environmental concerns, the European Union has proposed regulations to phase out by 2005 antibiotic-resistant marker genes, widely used to develop GE seeds;

Biotechnology companies are encouraged **but not required** to submit safety-testing data to the FDA for its review. (Center for Science in the Public Interest, January 2003);

The National Academy of Sciences report, *Genetically Modified Pest-Protected Plants*, recommends development of improved methods for identifying potential allergens in genetically engineered pest-protected plants. The report found the potential for gaps in regulatory coverage (4/2000); Millions suffer from mild to fatal food allergies. Without labeling, consumers have no way of protecting themselves from hidden allergens.

Research reported in *Ecology Letters* (March 2003) indicates that Bt crops could have unanticipated nutritionally favorable effects on pests, indicating a need for further ecological and biochemical studies.

The Board of Directors recommends a vote AGAINST this proposal for the following reasons:

When it comes to our products, consumer safety is paramount. We firmly believe that all of our food products, including those which may contain ingredients developed through biotechnology, are safe.

The U.S. Food and Drug Administration (FDA), U.S. Department of Agriculture and U.S. Environmental Protection Agency have determined that currently approved foods derived from modern biotechnology are as safe as conventional foods. The FDA has also decided that special labeling is required only if these foods contain allergens or are nutritionally different from their conventional counterparts. None of our foods meet these criteria.

Simply removing the option of using genetically engineered ingredients for our food brands offers no clear benefit for our consumers or our business. Doing so could even put Procter & Gamble at a competitive disadvantage because we would not have the opportunity to use the full range of ingredient supplies available to us.

What's more, we would be turning our backs on the benefits of biotechnology in foods, such as reducing the use of pesticides and creating more nutritious foods. The proponents don't address these and other potential future benefits. We agree with the statement of the United Nations Human Development Report 2001 which

Table of Contents

states: The current debate in Europe and the United States over genetically modified crops mostly ignores the concerns and needs of the development world.

We respect the views of those who question the value of biotechnology in foods. At the same time, we're convinced our food brands are safe. Our consumers can count on that.

The Board of Directors recommends a vote AGAINST this proposal.

2004 Annual Meeting Date

ARTICLE A Purpose.

The purposes of The Procter & Gamble 2003 Non-Employee Directors Stock Plan (the Plan) are to strengthen the alignment of interests between the non-employee Directors (Participants) and the shareholders of The Procter & Gamble Company (the Company) through ownership behavior and the increased ownership of shares of the Company s common stock (Common Stock). This will be accomplished by allowing each Participant to elect voluntarily to convert a portion or all of his/her cash fees for services as a Director into Common Stock or RSUs (as hereinafter defined), and by granting Participants (i) restricted stock units or other awards related to the price of Common Stock (RSUs), (ii) shares of Common Stock restricted in a manner determined by the Committee (Restricted Shares), (iii) non-qualified options to purchase shares of Common Stock (Stock Options), and/or (iv) stock appreciation rights (SARs).

ARTICLE B Administration.

1. The Plan shall be administered by the Compensation Committee of the Board of Directors of the Company (the Board), or such other committee as may be designated by the Board (the Committee). The Committee shall consist of not less than three (3) members of the Board who are Non-Employee Directors as defined in Rule 16b-3 under the Securities Exchange Act of 1934 (the 1934 Act), as amended, or any successor rule or definition adopted by the Securities and Exchange Commission, or such other number of Non-Employee Directors required from time to time by such rule or any successor rule adopted by the Securities and Exchange Commission, to be appointed by the Board from time to time and to serve at the discretion of the Board. The Committee shall report to the Board on the administration of the Plan not less than once each year.
2. Subject to the express provisions of the Plan, the Committee shall have authority: (i) to allow Participants the right to elect to receive fees for services as a Director in either cash or an equivalent amount of whole shares of Common Stock or RSUs of the Company, or partly in cash and partly in whole shares of the Common Stock or RSUs of the Company, subject to such conditions or restrictions, if any, as the Committee may determine; (ii) to grant Participants Restricted Shares, subject to such conditions or restrictions, if any, as the Committee may determine; (iii) to grant RSUs, subject to such conditions or restrictions, if any, as the Committee may determine; (iv) to grant Participants Stock Options, subject to such conditions or restrictions, if any, as the Committee may determine; (v) to grant Participants SARs, subject to such conditions or restrictions, if any, as the Committee may determine; (vi) to make all other determinations it deems necessary or advisable for administering the Plan; and (vii) to provide for special terms for any RSUs, Restricted Shares, Stock Options, SARs or other awards granted to Participants who are foreign nationals or who reside outside of the United States of America in order to fairly accommodate for differences in local law, tax policy or custom and to approve such supplements to or amendments, restatements or alternative versions of the Plan as the Committee may consider necessary or appropriate for such purposes (without affecting the terms of the Plan for any purpose); and to make all other determinations it deems necessary or advisable for administering the Plan.

ARTICLE E Shares Subject to Use Under the Plan.

Shares of Common Stock to be granted by the Company or delivered by the Company upon exercise of Stock Options shall be treasury shares.

ARTICLE F Stock Options and SARs

2. The Committee may, from time to time, grant Participants one or more SARs each entitling the Participant to receive, upon exercise, a redemption differential for each such SAR which shall be the difference between the average of the high and low quotations for one share of Common Stock on the New York Stock Exchange on the date of exercise and the exercise price of the SAR then being exercised. 3. Stock Options and SARs shall have a term of not less than ten (10) years from the date of grant, subject to earlier termination as provided herein, and shall be exercisable one hundred percent (100%) not less than one (1) year from the date of grant, except in the case of death of a Participant, in which case such Participant's Stock Options or SARs shall immediately vest and be exercisable in accordance with this Article F.
4. In the case of death of a Participant, the persons to whom the Stock Options or SARs have been transferred by will or the laws of descent and distribution shall have the privilege of exercising remaining Stock Options or SARs or parts thereof, whether or not exercisable on the date of death of such Participant, at any time prior to the expiration date of such Stock Options or SARs.

6. If a Participant ceases to be a Director while holding unexercised Stock Options or SARs, such Stock Options or SARs are then void, except in the case of (i) death, in which case such Stock Options or SARs may be transferred in accordance with this Article F and Article J hereof, (ii) disability, (iii) retirement at the end of a term, (iv) retirement after attaining the age of sixty nine (69), (v) resignation from the Board following a Participant's retirement from a principal employer in good standing under the terms of that employer's retirement plan, or (vi) resignation from the Board for reasons of antitrust laws or the Company's conflict of interest, corporate governance or continued service policies. 7. Upon the exercise of a Stock Option, payment in full of the exercise price shall be made by the Participant. The exercise price may be paid for by the Participant either in cash, shares of Common Stock to be valued at their fair market value on the date of exercise, or a combination thereof.

ARTICLE G Adjustments.

In the event of any future reorganization, recapitalization, stock split, stock dividend, combination of shares, merger, consolidation, rights offering, share exchange, reclassification, distribution, spin-off or other change affecting the corporate structure, capitalization or Common Stock of the Company occurring after the date of approval of the Plan by the Company's shareholders, (i) the amount of shares authorized to be issued under the Plan, (ii) the number of shares covered by outstanding Stock Options, SARs, Restricted Shares or RSUs, and (iii) the exercise price of stock options or the grant price of SARs shall be adjusted appropriately and equitably to prevent dilution or enlargement of rights under the Plan. Following any such change, the term "Common Stock" shall be deemed to refer to such class of shares or other securities as may be applicable.

ARTICLE H Grant of Common Stock, Restricted Shares or RSUs.

1. The Committee may grant Common Stock, Restricted Shares, or RSUs to Participants under the Plan subject to such conditions or restrictions, if any, as the Committee may determine.
2. The shares granted under this Article H shall be valued at the average of the high and low quotations for Common Stock on the New York Stock Exchange on the day of the grant to a Participant. All shares granted shall be full shares, rounded up to the nearest whole share.

ARTICLE I Additional Provisions.

1. The Board may, at any time, repeal the Plan or may amend it except that no such amendment may amend this paragraph, increase the total aggregate number of shares subject to the Plan, alter the persons eligible to receive shares under the Plan. Participants and the Company shall be bound by any such amendments as of their effective dates, but if any outstanding grants are materially affected adversely, notice thereof shall be given to Participants holding such grants and such amendments shall not be applicable without such Participant's written consent. If the Plan is repealed in its entirety, all theretofore granted shares subject to conditions or restrictions granted pursuant to the Plan shall continue to be subject to such conditions or restrictions. Notwithstanding this or any other provision of this Plan, Stock Options and SARs may not be re-priced or re-valued except in accordance with Article G hereof.
2. Notwithstanding anything to the contrary in this Plan, Stock Options and SARs granted hereunder shall vest immediately, and any conditions or restrictions on Common Stock, Restricted Stock or RSUs shall lapse, upon a "Change in Control." A "Change in Control" shall mean the occurrence of any of the following:
 - (a) An acquisition (other than directly from the Company) of any voting securities of the Company (the "Voting Securities") by any Person (as the term person is used for purposes of Section 13(d) or 14(d) of the 1934 Act), immediately after which such Person has "Beneficial Ownership" (within the meaning of Rule 13d-3 promulgated under the 1934 Act) of twenty percent (20%) or more of the then outstanding shares or the combined voting power of the Company's then outstanding Voting Securities; provided, however, in determining whether a Change in Control has occurred pursuant to this Section 2(a), shares or Voting Securities which are acquired in a "Non-Control Acquisition" (as hereinafter defined) shall not constitute an acquisition which would cause a Change in Control. A "Non-Control Acquisition" shall mean an acquisition by (i) an employee benefit plan (or a trust forming a part thereof) maintained by (A) the Company or (B) any corporation or other Person of which a majority of its voting power or its voting equity securities or equity interest is owned, directly or indirectly, by the

Company (for purposes of this definition, a Related Entity), (ii) the Company or any Related Entity, or (iii) any Person in connection with a Non-Control Transaction (as hereinafter defined);

- (b) The individuals who, as of July 10, 2001 are members of the Board (the Incumbent Board), cease for any reason to constitute at least half of the members of the Board; or, following a Merger (as hereinafter defined) which results in a Parent Corporation (as hereinafter defined), the board of directors of the ultimate Parent Corporation; provided, however, that if the election, or nomination for election by the Company's common stockholders, of any new director was approved by a vote of at least two-thirds of the Incumbent Board, such new director shall, for purposes of the Plan, be considered as a member of the Incumbent Board; provided further, however, that no individual shall be considered a member of the Incumbent Board if such individual initially assumed office as a result of either an actual or threatened Election Contest (as described in Rule 14a-11 promulgated under the 1934 Act) or other actual or threatened solicitation of proxies or consents by or on behalf of a Person other than the Board (a Proxy Contest) including by reason of any agreement intended to avoid or settle any Election Contest or Proxy Contest; or
- (c) The consummation of:
- (i) A merger, consolidation or reorganization with or into the Company or in which securities of the Company are issued (a Merger), unless such Merger is a Non-Control Transaction . A Non-Control Transaction shall mean a Merger where:
- (A) the stockholders of the Company, immediately before such Merger own directly or indirectly immediately following such Merger at least fifty percent (50%) of the combined voting power of the outstanding voting securities of (x) the corporation resulting from such Merger (the Surviving Corporation) if fifty percent (50%) or more of the combined voting power of the then outstanding voting securities of the Surviving Corporation is not Beneficially Owned, directly or indirectly by another Person (a Parent Corporation), or (y) if there is one or more Parent Corporations, the ultimate Parent Corporation;
- (B) the individuals who were members of the Incumbent Board immediately prior to the execution of the agreement providing for such Merger constitute at least half of the members of the board of directors of (x) the Surviving Corporation, if there is no Parent Corporation, or (y) if there is one or more Parent Corporations, the ultimate Parent Corporation; and
- (C) no Person other than (1) the Company, (2) any Related Entity, (3) any employee benefit plan (or any trust forming a part thereof) that, immediately prior to such Merger was maintained by the Company or any Related Entity, or (4) any Person who, immediately prior to such merger, consolidation or reorganization had Beneficial Ownership of twenty percent (20%) or more of the then outstanding Voting Securities or shares, has Beneficial Ownership of twenty percent (20%) or more of the combined voting power of the outstanding voting securities or common stock of (x) the Surviving Corporation if there is no Parent Corporation, or (y) if there is one or more Parent Corporations, the ultimate Parent Corporation;
- (ii) A complete liquidation or dissolution of the Company; or
- (iii) The sale or other disposition of all or substantially all of the assets of the Company to any Person (other than a transfer to a Related Entity or under conditions that would constitute a Non-Control Transaction with the disposition of assets being regarded as a

Merger for this purpose or the distribution to the Company's stockholders of the stock of a Related Entity or any other assets).

Notwithstanding the foregoing, a Change in Control shall not be deemed to occur solely because any Person (the Subject Person) acquired Beneficial Ownership of more than the permitted amount of the then outstanding shares or Voting Securities as a result of the acquisition of shares or Voting Securities by the Company which, by reducing the number of shares or Voting Securities then outstanding, increases the proportional number of shares Beneficially Owned by the Subject Persons, provided that if a Change in Control would occur (but for the operation of this sentence) as a result of the acquisition of shares or Voting Securities by the Company, and after such share acquisition by the Company, the Subject Person becomes the Beneficial Owner of any additional shares or Voting Securities which increases the percentage of the then outstanding shares or Voting Securities Beneficially Owned by the Subject Person, then a Change in Control shall occur.

ARTICLE J Consent.

Every Participant who receives a grant of Common Stock, Stock Options, SARs, Restricted Shares or RSUs pursuant to the Plan shall be bound by the terms and provisions of the Plan and of any grant agreement referable thereto, and the acceptance of any grant of shares or RSUs pursuant to the Plan shall constitute a binding agreement between the Participant and the Company and any successors in interest to any of them. Every person who receives Stock Options or SARs, in accordance with Article F hereof, that a Participant received pursuant to the Plan shall, in addition to such terms and conditions as the Committee may require upon such grant, be bound by the terms and provisions of the Plan and of the grant of Stock Options or SARs referable thereto, and the acceptance of any grant of shares or RSUs by such person shall constitute a binding agreement between such person and the Company and any successors in interest to any of them. The Plan shall be governed by and construed in accordance with the laws of the State of Ohio, United States of America.

ARTICLE K Duration of Plan.

The Plan shall be effective as of January 1, 2004 and terminate on December 31, 2013 unless a different termination date is fixed by the shareholders or by action of the Board but no such termination shall affect the prior rights under the Plan of the Company or of anyone to whom Common Stock, Stock Options, SARs, Restricted Shares or RSUs have been granted prior to such termination.

The separate guideline will always be at least sufficient to meet the independence standards of the New York Stock Exchange and applicable legislation.

E. ***Specific Qualification Rules of All Board Members.*** To assist in meeting the objectives listed above on the qualifications of Board members, the Board has adopted certain specific guidelines:

1. **Disqualifying Factors.*** No person will be considered for Board membership who is:
 - a. an employee or director of a company in significant competition with the Company;

Should any current Board member become subject to one of the above disqualifying factors, s/he will immediately offer his/her resignation to the Board. Absent special circumstances agreed to by a majority of the Board (excluding the affected member(s)), the Board will accept the offer of resignation.

2. **Retirement Age.** Each Board member, upon reaching the age of seventy (70) years, will resign effective upon the next Board meeting.

Except for the Company's Chief Executive, if a Board member's principal occupation or business association changes substantially (including retirement) following his/her initial election, s/he must immediately offer his/her resignation to the Board. The Board will determine by majority vote of members present at a duly-constituted meeting whether to accept the offer of resignation.
 - b. The Company's Chief Executive will resign from the Board when s/he retires from the Company.
5. **Conflicts of Interest.** In addition to abiding by the Company's Worldwide Business Conduct Standards, each Board member must recuse himself/herself from any discussion or decision affecting his/her personal, business or professional interests.

III. **Board Meetings.**

will be allotted for Board member questions and input. At least once per year, the Board will meet to review the performance and succession plan for the Company's Chief Executive, and for other principal officers (the meetings may be separate). Succession planning should include policies and principles for CEO selection and performance review, as well as policies regarding succession in the event of an emergency or the retirement of the CEO. The Board's evaluation of the Chief Executive's performance will be shared with the Chief Executive.

3. **Distribution of Materials.** Information and materials will be distributed in advance of the Board meetings where important to the Board's understanding or to facilitate discussion.

B. **Offsite Meetings.** The Board will meet outside of Cincinnati from time to time in conjunction with major strategic issues or an in-depth review of a major segment of the Company's operations.

C. **Special Meetings.** The Chair will call additional meetings as necessary to address important or urgent Company issues. Any member may request that the Chair call a special meeting. Special meetings may be held in person, or by telephone or other form of interactive electronic communication.

D. **Attendance.** Attendance is expected at all Board and Committee meetings, for the full length of such meetings. Any extraordinary circumstance that would cause a member to attend fewer than seventy-five percent (75%) of all Board meetings should be discussed with the Board Chair and the Chair of the Governance & Nominating Committee as far in advance as possible.

E. **Voting.** At any time, the independent members of the Board present at a duly-constituted meeting may determine, by majority vote, that members who are not independent should not participate in the discussion or voting with respect to any issue. This determination may be made for legal, conflict of interest or any other reason deemed appropriate by the independent members. Likewise, if it appears that an issue will impact the personal, business or professional interests of one or more members, and those members fail to recuse themselves in accordance with Section II.E.5 above, a majority of the other members present at a duly-constituted meeting may determine that the affected members should not participate in the discussion or voting with respect to that issue.

IV. **Board Leadership.**

A. **Chair.** The Board will be chaired by one (1) member. The Chair will be appointed by vote of a majority of non-employee members of the Board present at a duly-constituted meeting, and may be removed at any time by the same vote.

B. **Presiding Director.** If the Board Chair is the Chief Executive of the Company, then one of the independent members of the Board will be named as Presiding Director. The Presiding Director will act as a key liaison with the Chief Executive, will assist the Board Chair in setting the Board agenda, will chair the executive sessions described in Section IV.C below, and will communicate Board member feedback to the Chief Executive. The Presiding Director will be chosen annually by a majority of the non-employee members of the Board present at a duly-constituted meeting after consultation with the Governance & Nominating Committee. The name of, and a means of directly contacting, the Presiding Director will be made public.

C. **Executive Sessions.** Regardless of who holds the position of Board Chair, the non-employee members of the Board will meet regularly outside the presence of any Company employee. For purposes of these executive sessions, a former CEO of the Company will be considered to be an employee member, and thus will not attend the executive sessions. Executive sessions will be led by the Chair, if the Chair is an independent member of the Board, or otherwise by the Presiding Director. Additional semi-executive sessions (meetings of the non-employee mem-

bers of the Board plus specific Company employees or other individuals) may be held at any time at the request of the Board, the Chair or the Presiding Director.

- D. **Board Agendas.** The Board Chair, in consultation with the Presiding Director, if any, will determine the agenda for each meeting. All Board members should propose to the Chair or the Presiding Director the inclusion of additional agenda items that they deem necessary or appropriate in carrying out their duties.

V. **Board Committees.**

- A. **Purpose.** The purpose of Board Committees is to help the Board effectively and efficiently fulfill its responsibilities, although the Committees do not displace the oversight responsibilities of the Board as a whole. Committees will report the results of their significant activities to the full Board or make recommendations to the full Board as appropriate.

- B. **Standing Committees.** The Board has established seven standing Committees of the Board. The Governance & Nominating Committee will regularly review the Board's committee structure and make recommendations to the full Board as needed. The Board may add, eliminate, and change the Charter or composition of any Committee at any time, except to the extent that such a change would violate the Company's Articles, Regulations, ByLaws, or the listing standards of the New York Stock Exchange. The seven standing Committees are as follows:

1. **Audit Committee** (established in 1940): The Audit Committee has the responsibilities set forth in its charter with respect to the quality and integrity of the Company's financial statements; the Company's compliance with legal and regulatory requirements; the Company's overall risk management profile; the independent auditor's qualifications and independence; the performance of the Company's internal audit function and independent auditors; and preparing the annual Audit Committee Report to be included in the Company's proxy statement.
2. **Compensation Committee** (predecessor Committee established in 1960): The Compensation Committee has the responsibilities set forth in its Charter with respect to overseeing overall Company compensation policies and their specific application to principal officers elected by the Board and to members of the Board; and preparing an annual report on executive compensation for inclusion in the Company's proxy statement.
3. **Executive Committee** (established in 1905): The Executive Committee has the responsibilities set forth in its Charter and the Regulations of the Company with respect to, for administrative convenience, carrying out the authority of the Board of Directors for the management of the business and affairs of the Company between meetings of the Board.
4. **Finance Committee** (established in 1994): The Finance Committee has the responsibilities set forth in its Charter with respect to overseeing financial matters of importance to the Company. (Topics considered by this Committee include the Company's annual financing plans, global financing principles and objectives, financial strategies and capital structures, funding and oversight of the Company's pension and benefit plans, the Company's insurance program, the financial implications of major investments, restructurings, joint ventures, acquisitions and divestitures, and the impact of various finance activities on debt ratings.)

Guidelines of The Procter & Gamble Company Audit Committee

for Pre-Approval of Independent Auditor Services

The Committee has adopted the following guidelines regarding the engagement of the Company's independent auditor to perform services for the Company:

For audit services (including statutory audit engagements as required under local country laws), the independent auditor will provide the Committee with an engagement letter during the January-March quarter of each year outlining the scope of the audit services proposed to be performed during the fiscal year. If agreed to by the Committee, this engagement letter will be formally accepted by the Committee at either its March or June Audit Committee meeting.

The independent auditor will submit to the Committee for approval an audit services fee proposal after acceptance of the engagement letter.

For non-audit services, Company management will submit to the Committee for approval (during June or September of each fiscal year) the list of non-audit services that it recommends the Committee engage the independent auditor to provide for the fiscal year. Company management and the independent auditor will each confirm to the Committee that each non-audit service on the list is permissible under all applicable legal requirements. In addition to the list of planned non-audit services, a budget estimating non-audit service spending for the fiscal year will be provided. The Committee will approve both the list of permissible non-audit services and the budget for such services. The Committee will be informed routinely as to the non-audit services actually provided by the independent auditor pursuant to this pre-approval process.

To ensure prompt handling of unexpected matters, the Committee delegates to the Chair the authority to amend or modify the list of approved permissible non-audit services and fees. The Chair will report action taken to the Committee at the next Committee meeting.

The independent auditor must ensure that all audit and non-audit services provided to the Company have been approved by the Committee. The Vice President of Internal Controls will be responsible for tracking all independent auditor fees against the budget for such services and report at least annually to the Audit Committee.
