**Table of Contents****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)**

## UNITED BANKSHARES, INC. AND SUBSIDIARIES

**1. GENERAL**

The accompanying unaudited consolidated interim financial statements of United Bankshares, Inc. and Subsidiaries ( United ) have been prepared in accordance with accounting principles for interim financial information generally accepted in the United States and with the instructions for Form 10-Q and Article 10 of Regulation S-X. Accordingly, the financial statements do not contain all of the information and footnotes required by accounting principles generally accepted in the United States. In preparing the consolidated financial statements, management is required to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. The financial statements presented as of June 30, 2005 and 2004 and for the three-month and six-month periods then ended have not been audited. The consolidated balance sheet as of December 31, 2004 has been extracted from the audited financial statements included in United s 2004 Annual Report to Shareholders. The accounting and reporting policies followed in the presentation of these financial statements are consistent with those applied in the preparation of the 2004 Annual Report of United on Form 10-K. In the opinion of management, all adjustments necessary for a fair presentation of financial position and results of operations for the interim periods have been made. Such adjustments are of a normal and recurring nature.

The accompanying consolidated interim financial statements include the accounts of United and its wholly owned subsidiaries. United considers all of its principal business activities to be bank related. All significant intercompany accounts and transactions have been eliminated in the consolidated financial statements. Dollars are in thousands, except per share and share data.

**New Accounting Standards:** In June 2005, the Financial Accounting Standards Board (FASB) issued Statement No. 154 (SFAS 154), Accounting Changes and Error Corrections , a replacement of APB No. 20, Accounting Changes and FASB Statement No. 3, Reporting Accounting Changes in Interim Financial Statements . SFAS 154 applies to all voluntary changes in accounting principle and changes the requirements for accounting for, and reporting of, a change in accounting principle. Previously, most voluntary changes in accounting principles were required to be recognized by way of a cumulative effect adjustment within net income during the period of the change. SFAS 154 requires retrospective application to prior periods financial statements, unless it is impracticable to determine either the period specific effects or the cumulative effect of the change. SFAS 154 is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. The implementation of FAS 154 is not expected to have a material impact on United s consolidated financial statements.

United has stock option plans for certain employees that are accounted for under the intrinsic value method. Because the exercise price at the date of the grant is equal to the market value of the stock, no compensation expense is recognized. In December 2004, FASB enacted Statement of Financial Accounting Standards 123 revised 2004 (SFAS 123R), Share-Based Payment which replaces Statement of Financial Accounting Standards No. 123 (SFAS 123), Accounting for Stock-Based Compensation and supersedes

**Table of Contents**

APB Opinion No. 25 (APB 25), Accounting for Stock Issued to Employees and amends FASB Statement No. 95, Statement of Cash Flows. SFAS 123R requires the measurement of all employee share-based payments to employees, including grants of employee stock options, using a fair-value based method and the recording of such expense in our consolidated statements of income. In April 2005, the Securities and Exchange Commission (SEC) adopted a new rule amending the adoption date of SFAS 123R. Based on this new rule, registrants that are not small business issuers must adopt SFAS 123R no later than the beginning of the first fiscal year beginning after June 15, 2005. SFAS 123R may be adopted in one of two ways the modified prospective transition method or the modified retrospective transition method. United expects to adopt SFAS 123R using the modified prospective transition method. Prior to 2004, United disclosed pro forma compensation expense quarterly and annually by calculating the stock option grants fair value using the Black-Scholes model and disclosing the impact on net income and net income per share. For options granted in 2004, United used a binomial lattice model to value the options granted and determine the pro forma compensation expense presented in the table below. United intends to use this binomial lattice model to value future grants. SFAS 123R defines a lattice model as a model that produces an estimated fair value based on the assumed changes in prices of a financial instrument over successive periods of time. A binomial lattice model assumes at least two price movements are possible in each period of time.

United, as does the FASB, believes the use of a binomial lattice model for option valuation is capable of more fully reflecting certain characteristics of employee stock options compared to the Black-Scholes options pricing model. For United, the difference in fair values calculated under each option pricing model is immaterial. The table below reflects the estimated impact the fair value method would have had on United's net income and net income per share if SFAS 123R had been in effect for the three and six months ended June 30, 2005 and 2004. United will continue to evaluate the method of adoption and will begin to apply SFAS 123R as of the interim reporting period ending March 31, 2006, as required. United does not expect the adoption to have a material impact on its consolidated statements of income and net income per share.

The following pro forma disclosures present United's consolidated net income and diluted earnings per share, determined as if United had recognized compensation expense for its employee stock options based on the estimated fair value of the option at the date of grant amortized over the vesting period of the option:

	<b>Three Months Ended</b>		<b>Six Months Ended</b>	
	<b>June 30,</b>		<b>June 30,</b>	
	<b>2005</b>	<b>2004</b>	<b>2005</b>	<b>2004</b>
Net Income, as reported	\$24,514	\$24,214	\$49,274	\$47,718
Less pro forma expense related to options granted, net of tax	(300)	(249)	(601)	(504)
Pro forma net income	\$24,214	\$23,965	\$48,673	\$47,214
Pro forma net income per share:				
Basic as reported	\$ 0.57	\$ 0.56	\$ 1.15	\$ 1.09
Basic pro forma	\$ 0.57	\$ 0.55	\$ 1.14	\$ 1.08
Diluted as reported	\$ 0.57	\$ 0.55	\$ 1.14	\$ 1.08
Diluted pro forma	\$ 0.56	\$ 0.54	\$ 1.12	\$ 1.07

**Table of Contents**

SFAS 123R also requires the benefits of tax deductions in excess of recognized compensation cost to be reported as a financing cash flow, rather than as an operating cash flow as required under current standards. This requirement will reduce net operating cash flows and increase net financing cash flows in periods after adoption. While the company cannot estimate what those amounts will be in the future (because they depend on, among other things, the date employees exercise stock options), United did not recognize any such amounts in operating cash flows for the six months ended June 30, 2005 and 2004.

In March of 2005, the SEC issued Staff Accounting Bulletin No. 107 (SAB 107), Share-Based Payment. SAB 107 provides guidance regarding the application of SFAS 123R including option valuation methods, the accounting for income tax effects of share-based payment arrangements upon the adoption of SFAS 123R, and the required disclosures within filings made with the SEC related to the accounting for share-based payment transactions. United will provide SAB 107 required disclosures beginning in the interim reporting period ending March 31, 2006, as required.

**2. DISCONTINUED OPERATIONS**

On July 7, 2004, United closed the sale of its wholly owned mortgage banking subsidiary, George Mason Mortgage, LLC (Mason Mortgage) to Cardinal Financial Corporation (Cardinal) of McLean, Virginia for an amount equivalent to Mason Mortgage's net worth plus cash of \$17 million in exchange for all of the outstanding membership interests in Mason Mortgage. Mason Mortgage, which was previously reported as a separate segment, is presented as discontinued operations for all periods presented in these financial statements.

The results of Mason Mortgage are presented as discontinued operations in a separate category on the income statement following the results from continuing operations. All assets and liabilities of Mason Mortgage were sold as of July 7, 2004 and thus, were not included in the June 30, 2005 or December 31, 2004 consolidated balance sheets. No income from discontinued operations was recorded for the quarter and six months ended June 30, 2005 as the sale of Mason Mortgage occurred in 2004. Income from discontinued operations for the quarter and six months ended June 30, 2004 is presented on the following page:

**Table of Contents****Statement of Income for Discontinued Operations**

	<b>Three Months Ended June 30, 2004</b>	<b>Six Months Ended June 30, 2004</b>

In March 2004, the Financial Accounting Standards Board (FASB) ratified the consensus reached by the Emerging Issues Task Force (EITF) regarding Issue 03-1, *The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments* (EITF 03-1). The issue provides guidance for evaluating whether an investment is other-than-temporarily impaired and requires certain disclosures with respect to these investments. The FASB delayed the guidance in EITF 03-1 regarding measurement and recognition of other-than-temporary impairment. In June 2005, the FASB decided not to provide additional guidance on the meaning of other-than-temporary impairment and directed the staff to issue proposed FASB-directed Staff Position (FSP) EITF 03-1-a, *Implementation Guidance for the Application of Paragraph 16 of EITF Issue No. 03-1*, as final. The final FSP will supersede EITF Issue No. 03-1, *The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments*, and EITF Topic No. D-44, *Recognition of Other-Than-Temporary Impairment upon the Planned Sale of a Security Whose Cost Exceeds Fair Value*.

The final FSP (retitled FSP FAS 115-1, *The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments*) will replace the guidance set forth in paragraphs 10 through 18 of EITF 03-1 with references to existing other-than-temporary impairment guidance, such as FASB Statement No. 115, *Accounting for Certain Investments in Debt and Equity Securities*, SEC Staff Accounting Bulletin No. 59, *Accounting for Noncurrent Marketable Equity Securities*, and APB Opinion No. 18, *The Equity Method of Accounting for Investments in Common Stock*. FSP FAS 115-1 will codify the guidance set forth in EITF Topic D-44 and clarify that an investor should recognize an impairment loss no later than when the impairment is deemed other than temporary, even if a decision to sell has not been made.

FASB decided that FSP FAS 115-1 would be effective for other-than-temporary impairment analysis conducted in periods beginning after September 15, 2005. United does not anticipate adoption of FSP FAS 115-1 will have a significant impact upon its consolidated financial statements.

**Table of Contents**

Provided below is a summary of securities available-for-sale which were in an unrealized loss position at June 30, 2005 and December 31, 2004:

	Less than 12 months		12 months or longer	
	Market Value	Unrealized Losses	Market Value	Unrealized Losses
<b>June 30, 2005</b>				
Treasuries and agencies	\$ 3,163	\$ 24	\$ 982	\$ 22
State and political	5,919	77	3,410	51
Mortgage-backed	474,320	4,269	332,119	5,140
Marketable equity securities			865	94
Other	6,676	24	18,321	158

Other	20,619	126	4,929	34
Total	\$515,847	\$4,580	\$154,094	\$1,981

Gross unrealized losses on available for sale securities were \$9,859 at June 30, 2005. Securities in a continuous unrealized loss position for twelve months or more consisted primarily of mortgage-backed and trust preferred securities. The unrealized loss on the mortgage-backed securities portfolio relates primarily to AAA securities issued by FNMA, FHLMC, GNMA, and various other private label issuers. Management does not believe any individual unrealized loss as of June 30, 2005 is other than temporarily impaired. United believes the decline in value is attributable to changes in market interest rates and not the credit quality of the issuers. United has the ability to hold these securities until such time as the value recovers or the securities mature.

The amortized cost and estimated fair value of securities available for sale at June 30, 2005 and December 31, 2004 by contractual maturity are shown below. Expected maturities may differ from contractual maturities because the issuers may have the right to call or prepay obligations without penalties.

	June 30, 2005		December 31, 2004	
	Amortized Cost	Estimated Fair Value	Amortized Cost	Estimated Fair Value
Due in one year or less	\$ 4,091	\$ 4,095	\$ 12,420	\$ 12,418

<b>Total</b>	<b>\$ 231,627</b>	<b>\$ 240,229</b>	<b>\$ 233,282</b>	<b>\$ 241,592</b>

The carrying value of securities pledged to secure public deposits, securities sold under agreements to repurchase, and for other purposes as required or permitted by law, approximated \$1,021,730 and \$1,034,573 at June 30, 2005 and December 31, 2004, respectively.

**Table of Contents****4. LOANS**

Major classifications of loans are as follows:

	<b>June 30, 2005</b>	<b>December 31, 2004</b>
Commercial, financial and agricultural	\$ 904,938	\$ 864,511
Real estate:		
Single-family residential	1,696,215	1,663,198
Commercial	1,091,648	1,063,554
Construction	338,677	303,516
Other	103,864	123,165
Installment	393,707	406,758
Total gross loans	\$4,529,049	\$4,424,702

The table above does not include loans held for sale of \$3,232 and \$3,981 at June 30, 2005 and December 31, 2004, respectively. Loans held for sale consist of single-family residential real estate loans originated for sale in the secondary market.

United's subsidiary banks have made loans, in the normal course of business, to the directors and officers of United and its subsidiaries, and to their affiliates. Such related party loans were made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with unrelated persons and did not involve more than normal risk of collectibility. The aggregate dollar amount of these loans was \$113,649 and \$109,126 at June 30, 2005 and December 31, 2004, respectively.

**5. ALLOWANCE FOR CREDIT LOSSES**

United maintains an allowance for loan losses and an allowance for lending-related commitments such as unfunded loan commitments and letters of credit. The allowance for lending-related commitments of \$8,048 and \$7,988 at June 30, 2005 and December 31, 2004, respectively, is separately identified on the balance sheet and is included in other liabilities. The combined allowances for loan losses and lending-related commitments are referred to as the allowance for credit losses.

The allowance for credit losses is management's estimate of the probable credit losses inherent in the lending portfolio. Management's evaluation of the adequacy of the allowance for credit losses and the appropriate provision for credit losses is based upon a quarterly evaluation of the loan portfolio and lending-related commitments. This evaluation is inherently subjective and requires significant estimates, including the amounts and timing of future cash flows, value of collateral, losses on pools of homogeneous loans based on historical loss experience, and consideration of current economic trends, all of which are susceptible to constant and significant change. The allowance allocated to specific credits and loan pools grouped by similar risk characteristics is reviewed on a quarterly basis and adjusted as necessary based upon subsequent changes in circumstances. In determining the components of the allowance for credit losses, management considers the risk arising in part from, but not limited to, charge-off and delinquency trends, current economic and business conditions, lending policies and procedures, the size and risk characteristics of the loan portfolio, concentrations of credit, and other various factors. Loans deemed to be uncollectible are charged against the allowance for credit losses, while recoveries of previously charged-off amounts are credited to the allowance for credit losses. Credit expenses related to the allowance for credit losses and the

**Table of Contents**

allowance for lending-related commitments are reported in the provision for credit losses in the income statement. A progression of the allowance for credit losses, which includes the allowance for credit losses and the allowance for lending-related commitments, for the periods presented is summarized as follows:

	<b>Three Months Ended</b>		<b>Six Months Ended</b>	
	<b>June 30</b>		<b>June 30</b>	
	<b>2005</b>	<b>2004</b>	<b>2005</b>	<b>2004</b>
Balance at beginning of period	\$51,424	\$51,351	\$51,353	\$51,309
Provision	504	539	1,615	1,896
	51,928	51,890	52,968	53,205
Loans charged-off	(1,039)	(1,076)	(2,577)	(2,838)
Less: Recoveries	744	565	1,242	1,012
Net Charge-offs	(295)	(511)	(1,335)	(1,826)
Balance at end of period	\$51,633	\$51,379	\$51,633	\$51,379

**6. RISK ELEMENTS**

Nonperforming assets include loans on which no interest is currently being accrued, principal or interest has been in default for a period of 90 days or more and for which the terms have been modified due to deterioration in the financial position of the borrower. Loans are designated as nonaccrual when, in the opinion of management, the collection of principal or interest is doubtful. This generally occurs when a loan becomes 90 days past due as to principal or interest unless the loan is both well secured and in the process of collection. When interest accruals are discontinued, unpaid interest credited to income in the current year is reversed, and unpaid interest accrued in prior years is charged to the allowance for credit losses. Other real estate owned consists of property acquired through foreclosure and is stated at the lower of cost or fair value less estimated selling costs.

Nonperforming assets are summarized as follows:

	<b>June 30,</b>	<b>December</b>
	<b>2005</b>	<b>31,</b>
		<b>2004</b>
Nonaccrual loans	\$ 9,510	\$ 6,352
Loans past due 90 days or more and still accruing interest	5,955	4,425
Total nonperforming loans	15,465	10,777
Other real estate owned	2,410	3,692
Total nonperforming assets	\$17,875	\$ 14,469

Loans are designated as impaired when, in the opinion of management, the collection of principal and interest in accordance with the contractual terms of the loan agreement is not probable. At June 30, 2005, the recorded investment in loans that were considered to be impaired was \$17,190 (of which \$9,510 were on

**Table of Contents**

a nonaccrual basis). Included in this amount is \$6,490 of impaired loans for which the related allowance for credit losses is \$1,238 and \$10,700 of impaired loans that do not have an allowance for credit losses due to management's estimate that the fair value of the underlying collateral of these loans is sufficient for full repayment of the loan and interest. At December 31, 2004, the recorded investment in loans that were considered to be impaired was \$10,348 (of which \$6,352 were on a nonaccrual basis). Included in this amount was \$3,914 of impaired loans for which the related allowance for credit losses was \$997, and \$6,434 of impaired loans that did not have an allowance for credit losses. The average recorded investment in impaired loans during the six months ended June 30, 2005 and for the year ended December 31, 2004 was approximately \$13,144 and \$15,709, respectively.

United recognized interest income on impaired loans of approximately \$90 and \$196 for the quarter and six months ended June 30, 2005, respectively, and \$67 and \$254 for the quarter and six months ended June 30, 2004, respectively. Substantially all of the interest income was recognized using the accrual method of income recognition. The amount of interest income that would have been recorded under the original terms for the above loans and nonaccrual loans was \$185 and \$423 for the quarter and six months ended June 30, 2005, respectively, and \$156 and \$465 for the quarter and six months ended June 30, 2004, respectively.

**7. INTANGIBLE ASSETS**

Total goodwill was \$166,852 and \$166,926 as of June 30, 2005 and December 31, 2004, respectively.

The following is a summary of intangible assets subject to amortization and those not subject to amortization:

	<b>As of June 30, 2005</b>		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Amortized intangible assets:			
Core deposit intangible assets	\$ 19,890	(\$ 14,268)	\$ 5,622
Goodwill not subject to amortization			\$ 166,852

	<b>As of December 31, 2004</b>		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Amortized intangible assets:			
Core deposit intangible assets	\$ 19,890	(\$ 13,071)	\$ 6,819
Goodwill not subject to amortization			\$ 166,926

**Table of Contents**

United incurred amortization expense of \$586 and \$1,197 for the quarter and six months ended June 30, 2005, respectively, and \$683 and \$1,433 for the quarter and six months ended June 30, 2004, respectively, related to intangible assets. The following table sets forth the anticipated amortization expense for intangible assets for each of the next five years:

<b>Year</b>	<b>Amount</b>
2005	\$2,278
2006	1,871
2007	1,462
2008	832
2009	303
Thereafter	73

**8. SHORT-TERM BORROWINGS**

Federal funds purchased and securities sold under agreements to repurchase are a significant source of funds for the company. United has various unused lines of credit available from certain of its correspondent banks in the aggregate amount of \$200,000. These lines of credit, which bear interest at prevailing market rates, permit United to borrow funds in the overnight market, and are renewable annually subject to certain conditions. At June 30, 2005, federal funds purchased were \$61,520 while securities sold under agreements to repurchase were \$555,035.

United has available funds of \$70,000 with two unrelated financial institutions to provide for general liquidity needs. Both are unsecured revolving line of credits. One has a one-year renewable term while the other line of credit has a two-year renewable term. Each line of credit carries an indexed floating rate of interest. At June 30, 2005, United had no outstanding balance under these lines of credit.

United Bank (VA) participates in the Treasury Investment Program, which is essentially the U.S. Treasury's savings account for companies depositing employment and other tax payments. The bank retains the funds in an open-ended interest-bearing note until the Treasury withdraws or calls the funds. A maximum note balance is established and that amount must be collateralized at all times. All tax deposits or a portion of the tax deposits up to the maximum balance are generally available as a source of short-term investment funding. As of June 30, 2005, United Bank (VA) had an outstanding balance of \$3,468 and had additional funding available of \$1,532.

**9. LONG-TERM BORROWINGS**

United's subsidiary banks are members of the Federal Home Loan Bank (FHLB). Membership in the FHLB makes available short-term and long-term borrowings from collateralized advances. All FHLB borrowings are collateralized by a mix of single-family residential mortgage loans, commercial loans and investment securities. At June 30, 2005, United had an unused borrowing amount of approximately \$1,266,667 available subject to delivery of collateral after certain trigger points.

**Table of Contents**

At June 30, 2005, \$607,729 of FHLB advances with a weighted-average interest rate of 5.03% is scheduled to mature within the next twelve years. The scheduled maturities of borrowings are as follows:

	<b>Year</b>	<b>Amount</b>
2005		\$ 140,800
2006		1,100
2007		
2008		100,497
2009 and thereafter		365,332
Total		\$607,729

United has a total of seven statutory business trusts that were formed for the purpose of issuing or participating in pools of trust preferred capital securities (Capital Securities) with the proceeds invested in junior subordinated debt securities (Debentures) of United. The Debentures, which are subordinate and junior in right of payment to all present and future senior indebtedness and certain other financial obligations of United, are the sole assets of the trusts and United's payment under the Debentures is the sole source of revenue for the trusts. At June 30, 2005 and December 31, 2004, the outstanding balances of the Debentures were \$89,173 and \$89,433 respectively, and were included in the category of long-term debt on the Consolidated Balance Sheets entitled "Other long-term borrowings". The Capital Securities are not included as a component of shareholders' equity in the Consolidated Balance Sheets. United fully and unconditionally guarantees each individual trust's obligations under the Capital Securities.

Under the provisions of the subordinated debt, United has the right to defer payment of interest on the subordinated debt at any time, or from time to time, for periods not exceeding five years. If interest payments on the subordinated debt are deferred, the dividends on the Capital Securities are also deferred. Interest on the subordinated debt is cumulative.

The Trust Preferred Securities currently qualify as Tier 1 capital of United for regulatory purposes. In March of 2005, the banking regulatory agencies issued guidance, which did not change the regulatory capital treatment for the Trust Preferred Securities.

On March 3, 2005, the FASB issued FIN 46R-5, "Implicit Variable Interest under FASB Interpretation No. 46R, Consolidation of Variable Interest Entities (VIE)". FIN 46R-5 requires a reporting enterprise to address whether a reporting enterprise has an implicit variable interest in a VIE or potential VIE when specific conditions exist. FIN 46R-5 was effective in the second quarter of 2005 and did not have a material impact on United's consolidated financial statements.

**10. COMMITMENTS AND CONTINGENT LIABILITIES**

United is a party to financial instruments with off-balance-sheet risk in the normal course of business to meet the financing needs of its customers and to alter its own exposure to fluctuations in interest rates. These financial instruments include loan commitments, standby letters of credit, and commercial letters of credit. The instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the financial statements.

**Table of Contents**

United's maximum exposure to credit loss in the event of nonperformance by the counterparty to the financial instrument for the loan commitments and standby letters of credit is the contractual or notional amount of those instruments. United uses the same policies in making commitments and conditional obligations as it does for on-balance sheet instruments. Collateral may be obtained, if deemed necessary, based on management's credit evaluation of the counterparty.

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the commitment contract. Commitments generally have fixed expiration dates or other termination clauses and may require the payment of a fee. Since many of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. United had approximately \$1,643,053 and \$1,618,823 of loan commitments outstanding as of June 30, 2005 and December 31, 2004, respectively, the majority of which expire within one year.

Commercial and standby letters of credit are agreements used by United's customers as a means of improving their credit standing in their dealings with others. Under these agreements, United guarantees certain financial commitments of its customers. A commercial letter of credit is issued specifically to facilitate trade or commerce. Typically, under the terms of a commercial letter of credit, a commitment is drawn upon when the underlying transaction is consummated as intended between the customer and a third party. United has issued commercial letters of credit of \$1,479 and \$1,449 as of June 30, 2005 and December 31, 2004, respectively. A standby letter of credit is generally contingent upon the failure of a customer to perform according to the terms of an underlying contract with a third party. United has issued standby letters of credit of \$129,651 and \$140,168 as of June 30, 2005 and December 31, 2004, respectively. In accordance with FIN 45, United has determined that substantially all of its letters of credit are renewed on an annual basis and that the fair value of these letters of credit is immaterial.

**11. DERIVATIVE FINANCIAL INSTRUMENTS**

United uses derivative instruments to help aid against adverse prices or interest rate movements on the value of certain assets or liabilities and on future cash flows. These derivatives commonly consist of interest rate swaps, caps, floors, collars, futures, forward contracts, written and purchased options. United also executes derivative instruments with its commercial banking customers to facilitate its risk management strategies.

Under the provisions of SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, the interest rate swaps are considered fair value hedges. The swaps qualify for the shortcut method of accounting treatment because the critical terms of the hedged financial instruments (FHLB advances and fixed commercial loans) and the interest rate payments to be received on the swaps coincide and thus are effective in offsetting changes in the fair value of the hedged financial instruments over their remaining term. The fair value of the interest rate swaps is recognized on the balance sheet as either a freestanding asset or liability with a corresponding adjustment to the hedged financial instrument. Adjustments due to changes in the fair value of the interest rate swaps are recorded as corresponding adjustments to the hedged financial instruments within the asset or liability section of the balance sheet.

**Table of Contents**

The following tables set forth certain information regarding the interest rate derivatives portfolio used for interest-rate risk management purposes and designated as accounting hedges under SFAS 133 at June 30, 2005:

**Derivative Classifications and Hedging Relationships****June 30, 2005**

	<b>Notional Amount</b>	<b>Derivative Asset</b>	<b>Liability</b>
Derivatives Designated as Fair Value Hedges:			
Hedging Commercial Loans	\$ 4,500		\$ 147
Hedging FHLB Borrowings	150,000		5,000
 Total	 \$154,500		 \$5,147

**Derivative Instruments****June 30, 2005**

	<b>Notional Amount</b>	<b>Average Receive Rate</b>	<b>Average Pay Rate</b>	<b>Estimated Fair Value</b>
Receive Fixed Swap (FHLB Borrowing)	\$100,000	6.43%		\$(4,870)
Pay Fixed Swap (FHLB Borrowing)	50,000		4.29%	(130)
Pay Fixed Swap (Commercial Loans)	4,500		6.70%	(147)
 Total	 \$154,500			 \$(5,147)

**12. EMPLOYEE BENEFIT PLANS**

United has a defined benefit retirement plan covering substantially all employees. Pension benefits are based on years of service and the average of the employee's highest five consecutive plan years of basic compensation paid during the ten plan years preceding the date of determination. United's funding policy is to contribute annually the maximum amount that can be deducted for federal income tax purposes. Contributions are intended to provide not only for benefits attributed to service to date, but also for those expected to be earned in the future. The associated benefits accumulated by these employees in their previous plan were assumed by United's benefit plan.

**Table of Contents**

Net periodic pension cost included the following components:

(In thousands)	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2005	2004	2005	2004
Service cost	\$ 468	\$ 580	\$ 933	\$ 1,162
Interest cost	756	706	1,504	1,411
Expected return on plan assets	(1,114)	(933)	(2,216)	(1,867)
Amortization of transition asset	(44)	(44)	(87)	(87)
Recognized net actuarial loss	170	229	338	457
Amortization of prior service cost				
Net periodic pension cost	\$ 236	\$ 538	\$ 472	\$ 1,076

**Weighted-Average Assumptions:**

Discount rate	6.25%	6.25%	6.25%	6.25%
Expected return on assets	9.00%	9.00%	9.00%	9.00%
Rate of compensation increase	3.25%	3.25%	3.25%	3.25%

**13. COMPREHENSIVE INCOME**

The components of total comprehensive income for the three and six months ended June 30, 2005 and 2004 are as follows:

	Three Months Ended		Six Months Ended	
	June 30		June 30	
	2005	2004	2005	2004
Net Income	\$24,514	\$ 24,214	\$49,274	\$ 47,718
Other Comprehensive Income (Loss), Net of Tax:

**Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

**FORWARD-LOOKING STATEMENTS**

Congress passed the Private Securities Litigation Act of 1995 to encourage corporations to provide investors with information about the company's anticipated future financial performance, goals, and strategies. The act provides a safe harbor for such disclosure, in other words, protection from unwarranted litigation if actual results are not the same as management expectations.

United desires to provide its shareholders with sound information about past performance and future trends.

Consequently, any forward-looking statements contained in this report, in a report incorporated by reference to this report, or made by management of United in this report, in any other reports and filings, in press releases and in oral statements, involves numerous assumptions, risks and uncertainties.

Actual results could differ materially from those contained in or implied by United's statements for a variety of factors including, but not limited to: changes in economic conditions; movements in interest rates; competitive pressures on product pricing and services; success and timing of business strategies; the nature and extent of governmental actions and reforms; and rapidly changing technology and evolving banking industry standards.

**APPLICATION OF CRITICAL ACCOUNTING POLICIES**

The accounting and reporting policies of United conform with accounting principles generally accepted in the United States. In preparing the consolidated financial statements, management is required to make estimates, assumptions and judgments that affect the amounts reported in the financial statements and accompanying notes. These estimates, assumptions and judgments are based on information available as of the date of the financial statements. Actual results could differ from these estimates. These policies, along with the disclosures presented in the other financial statement notes and in this financial review, provide information on how significant assets and liabilities are valued in the financial statements and how those values are determined. Based on the valuation techniques used and the sensitivity of financial statement amounts to the methods, assumptions, and estimates underlying those amounts, management has identified the determination of the allowance for credit losses and the valuation of retained interests in securitized assets to be the accounting areas that require the most subjective or complex judgments, and as such could be most subject to revision as new information becomes available.

The allowance for credit losses represents management's estimate of the probable credit losses inherent in the lending portfolio. Determining the amount of the allowance for credit losses is considered a critical accounting estimate because management's evaluation of the adequacy of the allowance for credit losses is inherently subjective and requires significant estimates, including the amounts and timing of estimated future cash flows, estimated losses on pools of loans based on historical loss experience, and consideration of current economic trends, all of which are susceptible to constant and significant change. In determining the components of the allowance for credit losses, management considers the risk arising in part from, but not limited to, charge-off and delinquency trends, current economic and business conditions, lending policies and procedures, the size and risk characteristics of the loan portfolio, concentrations of credit, and other

**Table of Contents**

various factors. The methodology used to determine the allowance for credit losses is described in Note 5 to the unaudited consolidated financial statements. A discussion of the factors leading to changes in the amount of the allowance for credit losses is included in the Provision for Credit Losses section of this Management's Discussion and Analysis of Financial Condition and Results of Operations.

Retained interests in securitized financial assets are recorded at their estimated fair values in securities available for sale. Since quoted market prices are generally not available for retained interests, United relies on discounted cash flow modeling techniques to estimate fair values based on the present value of future expected cash flows using management's best estimates of key assumptions—credit losses, prepayment speeds, forward yield curves, and discount rates commensurate with the risks involved. Because the values of the assets are sensitive to changes in these key assumptions, the valuation of retained interests is considered a critical accounting estimate. A discussion of the accounting for these securitized financial assets as well as sensitivity analyses showing how these assets' value change due to adverse changes in key assumptions is presented in the Interest Rate Risk section of the Quantitative and Qualitative Disclosures about Market Risk.

United's calculation of income tax provision is complex and requires the use of estimates and judgments in its determination. As part of United's analysis and implementation of business strategies, consideration is given to tax laws and regulations that may affect the transaction under evaluation. This analysis includes the amount and timing of the realization of income tax liabilities or benefits. United strives to keep abreast of changes in the tax laws and the issuance of regulations which may impact tax reporting and provisions for income tax expense. United is also subject to audit by federal and state authorities. Results of these audits may produce indicated liabilities which differ from United's estimates and provisions. United continually evaluates its exposure to possible tax assessments arising from audits and records its estimate of probable exposure based on current facts and circumstances.

Any material effect on the financial statements related to these critical accounting areas are further discussed in this Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following is a broad overview of the financial condition and results of operations and is not intended to replace the more detailed discussion, which is presented under specific headings on the following pages.

**FINANCIAL CONDITION**

United's total assets as of June 30, 2005 were \$6.53 billion, up \$92.73 million or 1.44% from year-end 2004 primarily the result of a \$104.30 million or 2.36% increase in portfolio loans. Cash and cash equivalents increased \$56.82 million or 37.02%. Partially offsetting these increases was a decrease in securities available for sale of \$66.38 million or 5.20%. The increase in total assets is reflected in a corresponding increase in total liabilities and shareholders' equity of \$87.72 million and \$5.01 million, respectively, from year-end 2004. The increase in total liabilities was due mainly to growth in deposits of \$216.38 million or 5.03%. Partially offsetting this increase in total liabilities were reductions of \$69.59 million or 53.08% and \$61.59 million or 9.20%, respectively, in federal funds purchased and Federal Home Loan Bank borrowings. The following discussion explains in more detail the changes in financial condition by major category.

**Table of Contents****Cash and Cash Equivalents**

Cash and cash equivalents increased \$56.82 million or 37.02% comparing June 30, 2005 to year-end 2004. Of this total increase, cash and due from banks increased \$16.24 million while interest-bearing deposits with other banks increased \$35.07 million. Federal funds sold increased \$5.51 million. During the first six months of 2005, net cash of \$52.98 million and \$53.05 million was provided by operating activities and financing activities from continuing operations, respectively. Net cash of \$49.20 million was used in investing activities of continuing operations. The Consolidated Statements of Cash Flows present data on cash and cash equivalents provided and used in operating, investing and financing activities for the first six months of 2005 and 2004.

**Securities**

Total investment securities decreased \$68.04 million or 4.50% since year-end 2004. Securities available for sale decreased \$66.38 million or 5.20%. This change reflects \$291.89 million in sales, maturities and calls of securities, \$236.03 million in purchases and a decrease of \$7.64 million in market value. Securities held to maturity were relatively flat from year-end 2004. The amortized cost and estimated fair value of investment securities, including types and remaining maturities, is presented in Note 3 to the unaudited Notes to Consolidated Financial Statements.

**Loans**

Loans held for sale decreased \$749 thousand or 18.81% as loan sales in the secondary market exceeded loan originations during the first half of 2005. Portfolio loans, net of unearned income, increased \$104.30 million or 2.36% from year-end 2004 as all major classification of loans increased except for installment and other loans secured by real estate. Since year-end 2004, commercial loans (not secured by real estate) increased \$40.43 million or 4.68%, construction loans increased \$35.16 million or 11.58%, single-family residential real estate loans increased \$33.02 million or 1.99% and commercial real estate loans increased \$28.09 million or 2.64%. Installment loans decreased \$13.05 million or 3.21% and other real estate secured loans decreased \$19.30 million or 15.67% from year-end 2004. For a summary of major classifications of loans, see Note 4 to the unaudited Notes to Consolidated Financial Statements.

**Other Assets**

Other assets were relatively flat from year-end 2004, increasing only \$1.11 million or less than 1%. This slight increase was primarily due to a \$2.42 million increase in the cash surrender value of bank owned life insurance policies and a \$2.12 million increase in deferred tax assets related to the decline in market value of available for sale securities. Partially offsetting these increases were declines of \$1.28 million and \$1.20 million, respectively, in the levels of other real estate owned and core deposit intangibles.

**Deposits**

Total deposits at June 30, 2005 grew \$216.38 million or 5.03% since year-end 2004. In terms of composition, noninterest-bearing deposits increased \$78.95 million or 8.92% while interest-bearing deposits

**Table of Contents**

increased \$137.42 million or 4.03% from December 31, 2004. The increase in noninterest-bearing deposits was due mainly to a \$40.53 million or 9.72% increase in commercial demand deposits. The increase in interest-bearing deposits was due primarily to growth of \$86.25 million or 17.43% in certificate accounts (CDs) over \$100,000 due to higher interest rates. Brokered deposits accounted for \$40.42 million of this increase in CDs over \$100,000.

**Borrowings**

Total borrowings at June 30, 2005 decreased \$123.79 million or 8.59% during the first half of 2005. Since year-end 2004, federal funds purchased and FHLB borrowings decreased \$69.59 million or 53.08% and \$61.59 million or 9.20%, respectively. Securities sold under agreements to repurchase increased \$8.61 million or 1.58%. For a further discussion of borrowings see Notes 8 and 9 to the unaudited Notes to Consolidated Financial Statements.

**Accrued Expenses and Other Liabilities**

Accrued expenses and other liabilities at June 30, 2005 declined \$4.93 million or 8.47% from year-end 2004. The decrease was due mainly to a timing difference of income tax payments.

**Shareholders Equity**

Shareholders equity at June 30, 2005, increased \$5.01 million or less than 1% from December 31, 2004 as United continued to balance capital adequacy and returns to shareholders. The slight increase in shareholders equity was due mainly to first half 2005 earnings net of dividends declared of \$27.06 million. Treasury stock increased \$16.65 million since year-end 2004 as treasury share repurchases exceeded stock option redemptions during the first six months of 2005. During the first six months of 2005, United repurchased 551,680 shares under a plan approved by its Board of Directors in 2004 to repurchase up to 1.775 million shares of United's common stock on the open market. Since the plan's implementation, 555,657 shares have been repurchased.

**RESULTS OF OPERATIONS**

**Overview**

As previously reported, on July 7, 2004, United consummated the sale of its wholly-owned mortgage banking subsidiary, Mason Mortgage. United will continue to focus on retail mortgage lending through its banking subsidiaries. The results of operations for Mason Mortgage are reported as income from discontinued operations. For detailed financial data and further information related to discontinued operations, refer to Note 2 of the accompanying unaudited consolidated financial statements.

The following is a detailed discussion of United's second quarter and first half 2005 results. Results for the second quarter and first half of 2004 include results from continuing and discontinued operations. For discussion purposes, information referred to on a consolidated basis combines the results of continuing and discontinued operations.

**Table of Contents**

Income from continuing operations for the second quarter and first six months of 2005 was \$24.51 million and \$49.27 million, respectively, up 9.16% and 9.34%, respectively, from the comparable periods in 2004. Diluted earnings per share from continuing operations were \$0.57 and \$1.14 for the second quarter and first six months of 2005, respectively, up 11.76% from the comparable periods in 2004. Income from continuing operations for the second quarter and first six months of 2004 totaled \$22.46 million or \$0.51 per share and \$45.06 and \$1.02 per share, respectively. No income from discontinued operations was recorded for the second quarter and first six months of 2005 because the sale of Mason Mortgage occurred in 2004. Income from discontinued operations for the second quarter and first six months ended 2004 was \$1.76 million or \$0.04 per share and \$2.65 million or \$0.06 per share, respectively.

Consolidated net income for the first six months of 2005 was \$49.27 million or \$1.14 per diluted share compared to \$47.72 million or \$1.08 per share for the first six months of 2004. These results represent a 3.26% increase in net income and a 5.56% increase in diluted earnings per share. Consolidated net income for the second quarter of 2005 was \$24.51 million, an increase of 1.24% from the \$24.21 million reported for the prior year second quarter. Second quarter 2005 earnings were \$0.57 per diluted share, as compared to the \$0.55 per share reported for the second quarter of 2004. This represents a 3.64% increase in diluted earnings per share.

United's annualized return on average assets for the first six months of 2005 was 1.56% and return on average shareholders' equity was 15.60% as compared to 1.51% and 15.28% for the first six months of 2004. For the second quarter of 2005, United's annualized return on average assets was 1.55% while the return on average equity was 15.50% as compared to 1.51% and 15.38%, respectively, for the second quarter of 2004.

Consolidated tax-equivalent net interest income for the first six months of 2005 was \$112.18 million, an increase of \$2.08 million or 1.88% from the prior year's first six months. Consolidated tax-equivalent net interest income increased \$936 thousand or 1.69% for the second quarter of 2005 as compared to the same period for 2004. The provision for credit losses was \$1.62 million for the first six months of 2005 as compared to \$1.90 million for the first six months of 2004. For the quarters ended June 30, 2005 and 2004, the provision for credit losses was \$504 thousand and \$539 thousand, respectively. Consolidated noninterest income was \$26.28 million for the first six months of 2005, down \$16.73 million or 38.90% when compared to the first six months of 2004. For the second quarter of 2005, consolidated noninterest income was \$13.36 million, a decrease of \$9.59 million or 41.79% from the second quarter of 2004. Consolidated noninterest expenses decreased \$17.14 million or 22.42% for the first six months of 2005 compared to the same period in 2004. For the second quarter of 2005, consolidated noninterest expenses decreased \$8.66 million or 22.07% from the second quarter of 2004. United's effective tax rate was 31.37% and 30.80% for the first six months of 2005 and 2004, and 31.40% and 31.56% for the second quarter of 2005 and 2004, respectively.

**Net Interest Income**

Consolidated tax-equivalent net interest income increased \$936 thousand or 1.69% and \$2.08 million or 1.88% for the second quarter and first six months of 2005 when compared to the same periods of 2004.

Tax-equivalent net interest income from continuing operations for the second quarter of 2005 was \$56.43 million, an increase of \$3.89 million or 7.41% from the second quarter of 2004. This increase in tax-equivalent net interest income from continuing operations was due mainly to a \$274.96 million or 4.96%

**Table of Contents**

increase in average earning assets as average loans for the second quarter of 2005 grew \$341.03 million or 8.31% over last year's second quarter. In addition, the average yield on earning assets for the second quarter of 2005 increased 54 basis points from the second quarter of 2004 as a result of higher interest rates. These increases to net interest income were partially offset by a corresponding 54 basis point increase in the cost of funds due to the higher interest rates. On a consolidated basis, the net interest margin for the second quarter of 2005 was 3.88%, an increase of 11 basis points from 3.77% in the second quarter of 2004.

On a linked-quarter basis, United's tax-equivalent net interest income from continuing operations for the second quarter of 2005 increased \$671 thousand or 1.20% compared to the first quarter of 2004 due primarily to average loan growth of \$45.00 million or 1.02% for the quarter. Portfolio loans outstanding at June 30, 2005 actually grew \$131.48 million or 2.99% from the end of March 2005. However, most of this growth occurred in June and, thus, did not significantly impact the average loans for the quarter. The yield on loans for the second quarter of 2005 increased 17 basis points from the first quarter, but this increase was more than offset by an increase of 19 basis points in the cost of funds. The net interest margin for the second quarter of 2005 of 3.88% was an increase of 3 basis points from the net interest margin of 3.85% for the first quarter of 2005.

Tax-equivalent net interest income from continuing operations for the first six months of 2005 was \$112.18 million, an increase of \$7.38 million or 7.04% from the prior year's first six months as average earning assets increased \$337.11 million or 6.14% due to average loan growth of \$367.93 million or 9.08%. In addition, the average yield on earning assets for the first six months of 2005 increased 40 basis points from the first six months of 2004 due to higher interest rates. However, as a result of the higher interest rates, the average cost of funds for the first half of 2005 increased 45 basis points from the first half of 2004. The consolidated net interest margin for the first half of 2005 was 3.86%, up 4 basis points from a consolidated net interest margin of 3.82% during the same period last year.

Tables 1 and 2 on the following pages show the consolidated daily average balance of major categories of assets and liabilities for the three-month and six-month periods ended June 30, 2005 and 2004, respectively, with the consolidated interest and rate earned or paid on such amount. The interest income and yields on federally nontaxable loans and investment securities are presented on a tax-equivalent basis using the statutory federal income tax rate of 35%. The interest income and yield on state nontaxable loans and investment securities are presented on a tax-equivalent basis using the statutory state income rate of 9%.

(3) Nonaccruing loans are included in the daily average loan amounts outstanding.

**Table of Contents****Provision for Credit Losses**

At June 30, 2005, nonperforming loans were \$15.47 million or 0.34% of loans, net of unearned income compared to nonperforming loans of \$10.78 million or 0.24% of loans, net of unearned income at December 31, 2004, respectively. United's credit quality continues to compare favorably to its most recently reported peer group banking companies averages despite the increase in nonperforming loans. The components of nonperforming loans include nonaccrual loans and loans, which are contractually past due 90 days or more as to interest or principal, but have not been put on a nonaccrual basis. At June 30, 2005, nonaccrual loans were \$9.51 million, an increase of \$3.16 million from \$6.35 million at year-end 2004. This increase was due mainly to one large commercial credit of \$2.54 million being placed on nonaccrual at June 30, 2005. This credit is adequately collateralized and was appropriately considered in assessing the adequacy of the allowance for credit losses. Loans past due 90 days or more were \$5.96 million at June 30, 2005 as compared to \$4.43 million at year-end 2004. This increase was due mainly to two loans with one commercial customer totaling \$972 thousand. The loans are secured by real estate and cash. The loans are currently being refinanced to obtain additional collateral. Additional protection would also be provided by personal and corporate guarantors. The loss potential has been properly evaluated and allocated within the company's allowance for credit losses analysis process. Total nonperforming assets of \$17.88 million, including OREO of \$2.41 million at June 30, 2005, represented 0.27% of total assets at the end of the second quarter. For a summary of nonperforming assets, see Note 6 to the unaudited Notes to Consolidated Financial Statements.

At June 30, 2005, impaired loans were \$17.19 million, which was an increase of \$6.84 million from the \$10.35 million in impaired loans at December 31, 2004. This increase in impaired loans was due primarily to the addition of three large commercial credits totaling approximately \$5 million. The three credits are adequately secured by real estate. Collection efforts are ongoing and the loss potential has been evaluated and allocated within the allowance for credit losses analysis process. For further details, see Note 6 to the unaudited consolidated financial statements.

United evaluates the adequacy of the allowance for credit losses on a quarterly basis and its loan administration policies are focused upon the risk characteristics of the loan portfolio. United's process for evaluating the allowance is a formal company-wide process that focuses on early identification of potential problem credits and procedural discipline in managing and accounting for those credits. This process determines the appropriate level of the allowance for credit losses, allocation among loan types and lending-related commitments, and the resulting provision for credit losses.

United maintains an allowance for loan losses and an allowance for lending-related commitments. The combined allowances for loan losses and lending-related commitments are referred to as the allowance for credit losses. At June 30, 2005, the allowance for credit losses was \$51.63 million as compared to \$51.35 million at December 31, 2004. As a percentage of loans, net of unearned income, the allowance for credit losses was 1.14% at June 30, 2005 and 1.16% of loans, net of unearned income at December 31, 2004. The ratio of the allowance for credit losses to nonperforming loans was 333.9% and 476.5% at June 30, 2005 and December 31, 2004, respectively.

For the quarters ended June 30, 2005 and 2004, the provision for credit losses was \$504 thousand and \$539 thousand, respectively. The provision for credit losses for the first six months of 2005 and 2004 was \$1.62
