TENNANT COMPANY
NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)
(In thousands, except shares and per share data)

1. Basis of Presentation

The accompanying unaudited Condensed Consolidated Financial Statements have been prepared in accordance with the Securities and Exchange Commission (“SEC”) requirements for interim reporting, which allows certain footnotes and other financial information normally required by accounting principles generally accepted in the United States of America to be condensed or omitted. In our opinion, the Condensed Consolidated Financial Statements contain all adjustments (consisting of only normal recurring adjustments) necessary for the fair presentation of our financial position and results of operations.

These statements should be read in conjunction with the Consolidated Financial Statements and Notes included in our annual report on Form 10-K for the year ended December 31, 2010. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year.

2. Newly Adopted Accounting Guidance

Intangibles – Goodwill and Other

In December 2010, the Financial Accounting Standards Board (“FASB”) issued amended guidance to modify Step 1 of the goodwill impairment test for reporting units with zero or negative carrying amounts. For those reporting units, an entity is required to perform Step 2 of the goodwill impairment test if it is more likely than not that a goodwill impairment exists. In determining whether it is more likely than not that a goodwill impairment exists, an entity should consider whether there are any adverse qualitative factors indicating that an impairment may exist. We adopted the modified guidance on January 1, 2011. The adoption of the modified guidance did not have an impact on our financial position or results of operations.

Multiple-Deliverable Revenue Arrangements

In October 2009, the FASB issued new guidance that sets forth the requirements that must be met for an entity to recognize revenue for the sale of a delivered item that is part of a multiple-element arrangement when other elements have not yet been delivered. We adopted the new guidance on January 1, 2011. The adoption of the new guidance did not have a material impact on our financial position or results of operations.

Business Combinations

In December 2010, the FASB updated guidance to clarify the acquisition date that should be used for reporting the pro forma financial information disclosures when comparative financial statements are presented. We adopted the updated guidance on January 1, 2011. The adoption of the updated guidance did not have an impact on our financial statement disclosures.

Fair Value Measurements and Disclosures

In January 2010, the FASB updated the disclosure requirements for fair value measurements. The updated guidance requires companies to disclose separately the investments that transfer in and out of Levels 1 and 2 and the reasons for those transfers. Additionally, in the reconciliation for fair value measurements using significant unobservable inputs (Level 3), companies should present separately information about purchases, sales, issuances and settlements. We

adopted the updated guidance on January 1, 2010, except for the disclosures about purchases, sales, issuances and settlements in the Level 3 reconciliation, which we adopted on January 1, 2011. The adoption of the updated guidance did not have an impact on our financial statement disclosures.

3. Management Actions

2010 Action - During the fourth quarter of 2010, we implemented a restructuring action. A pretax charge of \$1,671 was recognized in the fourth quarter as a result of this action. The pretax charge consisted of severance and outplacement services and was included within Selling and Administrative Expense in the 2010 Consolidated Statements of Earnings.

Credit Facilities

JPMorgan Chase Bank, National Association

Our June 19, 2007 Credit Agreement (the “Credit Agreement”), as amended from time to time, with our bank group led by JPMorgan Chase Bank, National Association (“JPMorgan”), provides us and certain of our foreign subsidiaries access to a \$125,000 revolving credit facility until June 19, 2012. Borrowings may be denominated in U.S. dollars or certain other currencies. The facility is available for general corporate purposes, working capital needs, share repurchases and acquisitions.

The Credit Agreement includes a security interest on most of our personal property and a pledge of 65% of the stock of all domestic and first tier foreign subsidiaries. The obligations under the Credit Agreement are also guaranteed by our domestic subsidiaries and those subsidiaries also provide a security interest in their similar personal property.

The fee for committed funds under the Credit Agreement ranges from an annual rate of 0.30% to 0.50%, depending on our leverage ratio. Borrowings under the Credit Agreement bear interest at an annual rate of, at our option, either (i) between LIBOR plus 2.20% to LIBOR plus 3.00%, depending on our leverage ratio; or (ii) the highest of (A) the prime rate, (B) the federal funds rate plus 0.50%, and (C) the adjusted LIBOR rate for a one month period plus 1.00%; plus, in any such case under this clause (ii), an additional spread of 1.20% to 2.00%, depending on our leverage ratio.

If we obtain additional indebtedness in excess of \$25,000, to the extent that any revolving loans under the Credit Agreement are then outstanding we are required to prepay the revolving loans. Proceeds over \$25,000 and under \$35,000 require repayment of the revolver commitment on a 50% dollar for dollar basis and proceeds over \$35,000 require prepayment on the revolver commitment on a 100% dollar for dollar basis. The Credit Agreement limits the payment of dividends and repurchases of stock to an amount ranging from \$12,000 to \$40,000 based on our leverage ratio after giving effect to such payments. The Credit Agreement contains customary representations, warranties and covenants, including but not limited to covenants restricting our ability to incur indebtedness and liens and to merge or consolidate with another entity.

As of March 31, 2011, we were in compliance with all covenants under the Credit Agreement. There was \$25,000 in outstanding borrowings under this facility at March 31, 2011, with a weighted average interest rate of 2.47%.

Prudential Investment Management, Inc.

On July 29, 2009, we entered into a Private Shelf Agreement (the “Shelf Agreement”) with Prudential Investment Management, Inc. (“Prudential”) and Prudential affiliates from time to time party thereto. The Shelf Agreement provides us and our subsidiaries access to an uncommitted, senior secured, maximum aggregate principal amount of \$80,000 of debt capital. The Shelf Agreement contains representations, warranties and covenants, including but not limited to covenants restricting our ability to incur indebtedness and liens and to merge or consolidate with another entity. The Shelf Agreement limits the payment of dividends or repurchases of stock to an amount ranging from \$12,000 to \$40,000 based on our leverage ratio after giving effect to such payments.

As of March 31, 2011, there was \$10,000 in outstanding borrowings under this facility with a fixed interest rate of 4.00%. The financial covenants under this facility are the same as the financial covenants in the Credit Agreement, all of which we were in compliance with as of March 31, 2011.

The Royal Bank of Scotland N.V.

On September 14, 2010, we entered into an overdraft facility with The Royal Bank of Scotland N.V. in the amount of 2,000 Euros or approximately \$2,834. There was no balance outstanding on this facility as of March 31, 2011.

7. Warranty

We record a liability for warranty claims at the time of sale. The amount of the liability is based on the trend in the historical ratio of claims to sales, the historical length of time between the sale and resulting warranty claim, new product introductions and other factors. Warranty terms on machines generally range from one to four years.

The changes in warranty reserves for the three months ended March 31, 2011 and 2010 were as follows:

	Three Months Ended March 31	
	2011	2010
Beginning balance	\$7,043	\$5,985
Additions charged to expense	2,880	3,002
Foreign currency fluctuations	50	(69)
Claims paid	(2,590)	(2,008)
Ending balance	\$7,383	\$6,910

Table of Contents

8. Fair Value Measurements

Estimates of fair value for financial assets and financial liabilities are based on the framework established in the accounting guidance for fair value measurements. The framework defines fair value, provides guidance for measuring fair value and requires certain disclosures. The framework discusses valuation techniques, such as the market approach (comparable market prices), the income approach (present value of future income or cash flow) and the cost approach (cost to replace the service capacity of an asset or replacement cost). The framework utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The following is a brief description of those three levels:

- Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.
- Level 3: Unobservable inputs that reflect the reporting entity's own assumptions.

Our population of assets and liabilities subject to fair value measurements at March 31, 2011 is as follows:

	Fair Value	Level 1	Level 2	Level 3
Assets:				
Foreign currency forward exchange contracts	\$28	\$-	\$28	\$-
Total Assets	\$28	\$-	\$28	\$-
Liabilities:				
Foreign currency forward exchange contracts	\$222	\$-	\$222	\$-
Total Liabilities	\$222	\$-	\$222	\$-

Our foreign currency forward exchange contracts are valued based on quoted forward foreign exchange prices at the reporting date.

We use derivative instruments to manage exposures to foreign currency only in an attempt to limit underlying exposures from currency fluctuations and not for trading purposes. Gains or losses on forward foreign exchange contracts to economically hedge foreign currency-denominated net assets and liabilities are recognized in Other Current Assets and Other Current Liabilities within the Condensed Consolidated Balance Sheets and are recognized in Other Income (Expense), Net under Net Foreign Currency Transaction Gains (Losses) within the Condensed Consolidated Statements of Earnings. As of March 31, 2011 the fair value of such contracts outstanding was a gain of \$28 and a loss of \$222. As of March 31, 2010 the fair value of such contracts outstanding was a loss of \$382. We recognized a net loss of \$2,412 and a net gain of \$2,300 on these contracts during the first three months of 2011 and 2010, respectively. At March 31, 2011 and 2010, the notional amounts of foreign currency forward exchange contracts outstanding were \$44,923 and \$50,712, respectively.

The carrying amounts reported in the Condensed Consolidated Balance Sheets for Cash and Cash Equivalents, Accounts Receivable, Other Current Assets, Accounts Payable and Other Current Liabilities approximate fair value.

The fair value of our Long-Term Debt approximates cost based on the borrowing rates currently available to us for bank loans with similar terms and remaining maturities.

9. Retirement Benefit Plans

Our defined benefit pension plans and postretirement medical plan are described in Note 11 of the 2010 annual report on Form 10-K. We have contributed \$67 and \$99 during the first quarter of 2011 to our pension plans and our postretirement medical plan, respectively.

10. Comprehensive Income

We report Accumulated Other Comprehensive Loss as a separate item in the Shareholders' Equity section of the Condensed Consolidated Balance Sheets. Comprehensive Income is comprised of Net Earnings and Other Comprehensive Income (Loss). For the three months ended March 31, 2011 and 2010, Other Comprehensive Income consisted of foreign currency translation adjustments and amortization and remeasurement of pension items.

The reconciliations of Net Earnings to Comprehensive Income are as follows:

	Three Months Ended March 31	
	2011	2010
Net Earnings	\$ 5,866	\$ 4,091
Foreign currency translation adjustments	3,085	(2,958)
Pension adjustments	33	31
Comprehensive Income	\$ 8,984	\$ 1,164

11. Commitments and Contingencies

Certain operating leases for vehicles contain residual value guarantee provisions, which would become due at the expiration of the operating lease agreement if the fair value of the leased vehicles is less than the guaranteed residual value. As of March 31, 2011, of those leases that contain residual value guarantees, the aggregate residual value at lease expiration was \$7,648, of which we have guaranteed \$5,940. As of March 31, 2011, we have recorded a liability for the estimated end of term loss related to this residual value guarantee of \$878 for certain vehicles within our fleet. Our fleet also contains vehicles we estimate will settle at a gain. Gains on these vehicles will be recognized at the end of the lease term.

12. Income Taxes

We and our subsidiaries are subject to U.S. federal income tax as well as income tax of numerous state and foreign jurisdictions. We are generally no longer subject to U.S. federal tax examinations for taxable years before 2007 and with limited exceptions, state and foreign income tax examinations for taxable years before 2004.

We recognize potential accrued interest and penalties related to unrecognized tax benefits in Income Tax Expense. Included in the net liability of \$5,414 for unrecognized tax benefits as of March 31, 2011 was approximately \$442 for accrued interest and penalties. The total amount of unrecognized tax benefits that, if recognized, would affect the effective tax rate as of March 31, 2011 was \$4,020. To the extent interest and penalties are not assessed with respect to uncertain tax positions, amounts accrued will be revised and reflected as an adjustment of the Income Tax Expense.

Unrecognized tax benefits were reduced by \$81 in the first quarter of 2011 for expiration of the statute of limitations in various jurisdictions and completion of state tax audits.

We are currently undergoing income tax examinations in various state and foreign jurisdictions covering 2004 to 2008 for which settlement is expected prior to year end. Although the final outcome of these examinations cannot be currently determined, we believe that we have adequate reserves with respect to these examinations.

13. Stock-Based Compensation

The following table presents the components of Stock-Based Compensation Expense for the three months ended March 31, 2011 and 2010:

	Three Months Ended March 31	
	2011	2010
Stock options and stock appreciation rights	\$507	\$260
Restricted share awards	247	196
Performance share awards	306	41
Share-based liabilities	239	174
Total Stock-Based Compensation Expense	\$1,299	\$671

During the first three months of 2011 we granted 20,550 restricted shares. The weighted average grant date fair value of each share awarded was \$40.21. Restricted share awards generally have a three year vesting period from the effective date of the grant. The total fair value of shares vested during the three months ended March 31, 2011 and 2010 was \$592 and \$39, respectively.

14. Earnings Per Share

The computations of Basic and Diluted Earnings per Share were as follows:

	Three Months Ended March 31	
	2011	2010
Numerator:		
Net Earnings	\$5,866	\$4,091
Denominator:		
Basic - Weighted Average Shares Outstanding	18,963,177	18,682,335
Effect of dilutive securities:		
Employee stock options	592,859	408,088
Diluted - Weighted Average Shares Outstanding	19,556,036	19,090,423
Basic Earnings per Share	\$0.31	\$0.22
Diluted Earnings per Share	\$0.30	\$0.21

Excluded from the dilutive securities shown above were options to purchase 83,368 and 264,693 shares of Common Stock during the three months ended March 31, 2011 and 2010, respectively. These exclusions are made if the exercise prices of these options are greater than the average market price of our Common Stock for the period, if the number of shares we can repurchase exceeds the weighted shares outstanding in the options, or if we have a net loss, as the effects are anti-dilutive.

15. Segment Reporting

We are organized into four operating segments: North America; Latin America; Europe, Middle East, Africa; and Asia Pacific. We combine our North America and Latin America operating segments into the "Americas" for reporting Net Sales by geographic area. In accordance with the objective and basic principles of the applicable accounting guidance, we aggregate our operating segments into one reportable segment that consists of the design, manufacture and sale of products used primarily in the maintenance of nonresidential surfaces.

The following table sets forth Net Sales by geographic area (net of intercompany sales):

	Three Months Ended March 31	
	2011	2010
Americas	\$ 108,142	\$ 92,684

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

Tennant Company is a world leader in designing, manufacturing and marketing solutions that help create a cleaner, safer, healthier world. Our products include equipment for maintaining surfaces in industrial, commercial and outdoor environments; chemical-free and other sustainable cleaning technologies; and specialty surface coatings for protecting, repairing and upgrading floors. We sell our products through our direct sales and service organization and a network of authorized distributors worldwide. Geographically, our customers are located in North America, Latin America, Europe, the Middle East, Africa and Asia Pacific. We strive to be an innovator in our industry through our commitment to understanding our customers' needs and using our expertise to create innovative products and solutions.

Net Earnings for the first quarter of 2011 were \$5.9 million, or \$0.30 per diluted share, as compared to Net Earnings of \$4.1 million, or \$0.21 per diluted share, in the first quarter of 2010. Net Earnings during the first quarter of 2011 were favorably impacted by increased Net Sales, primarily driven by sales of industrial sweepers and continued strong sales of scrubbers equipped with our ec-H2OTM technology. Net Earnings were also favorably impacted by higher sales and production levels and our ongoing emphasis on leveraging our cost structure, which were partially offset by inflationary price increases in our material costs. As sales have grown, we have successfully leveraged our existing workforce, holding our employee count to 2,800 which is flat with when we completed the restructuring effort that began in the 2008 fourth quarter. Net Foreign Currency Transaction Gains during the first quarter of 2011 versus Net Foreign Currency Transaction Losses experienced during the first quarter of 2010 also had a positive impact on Net Earnings.

Net Sales

Consolidated Net Sales for the first quarter of 2011 totaled \$172.6 million, a 15.0% increase as compared to consolidated Net Sales of \$150.1 million in the first quarter of 2010.

Table of Contents

The components of the consolidated Net Sales change for the first three months of 2011 as compared to the same period in 2010 were as follows:

Growth Elements		2011 v. 2010
Organic Growth:		
	Volume	13.5%
	Price	-
Organic Growth		13.5%
Foreign Currency		1.5%
	Total	15.0%

The 15.0% increase in consolidated Net Sales in the first quarter of 2011 as compared to 2010 was primarily driven by:

- an organic sales increase of approximately 13.5%, excluding the effects of acquisitions and foreign currency exchange, due to volume growth in equipment sales; and
 - a favorable direct foreign currency exchange impact of approximately 1.5%.

The following table sets forth the Net Sales by geographic area for the three months ended March 31, 2011 and 2010 and the percentage change from the prior year (in thousands, except percentages):

	Three Months Ended		
	2011	2010	%
Americas	\$108,142	\$92,684	16.7
Europe, Middle East and Africa	45,610	43,006	6.1
Asia Pacific	18,839	14,416	30.7
Total	\$172,591	\$150,106	15.0

Americas

Net Sales in the Americas were \$108.1 million for the first quarter of 2011, an increase of 16.7% from the first quarter of 2010. Net Sales benefited by approximately 15.7% from sales volume increases, primarily from continued strong sales of scrubbers, the majority of which were equipped with our ec-H2O technology, and also sales of industrial products, especially large sweepers. The direct impact of foreign currency translation exchange effects within the Americas favorably impacted Net Sales by approximately 1% during the first quarter of 2011.

Europe, Middle East and Africa

In our markets within Europe, the Middle East and Africa (“EMEA”), Net Sales increased 6.1% to \$45.6 million for the first quarter of 2011 as compared to the first quarter of 2010. Net Sales benefited by approximately 6.1% primarily from sales volume increases in the first quarter of 2011 when compared to the same period last year, primarily from strong sales of scrubbers, the majority of which were equipped with our ec-H2O technology. Direct foreign currency exchange fluctuations did not significantly impact EMEA Net Sales in the first quarter of 2011.

Asia Pacific

Net Sales in the Asia Pacific market for the first quarter of 2011 totaled \$18.8 million, an increase of 30.7% as compared to the first quarter of 2010. Organic growth of approximately 21.7% in Net Sales was primarily driven by growth in equipment unit volume in both the China market as well as Australia. Favorable direct foreign currency translation exchange effects increased Net Sales by approximately 9% in the 2010 first quarter.

Gross Profit

Gross Profit margin was 41.7% for the first quarter of 2011, as compared with 42.5% for the first quarter of 2010. Gross margin decreased by 80 basis points, primarily due to inflationary price increases in our material costs, partially offset by higher sales volume and flexible production management.

Operating Expense

Research & Development Expense

Research and Development (“R&D”) Expense in the first quarter of 2011 was up 13.4% to \$6.3 million as compared with \$5.5 million in the first quarter of 2010. R&D Expense as a percentage of Net Sales was 3.6% for the first quarter of 2011, a slight decrease as compared to 3.7% of Net Sales for R&D Expense in the first quarter of 2010.

Table of Contents

Selling & Administrative Expense

Selling and Administrative (“S&A”) Expense in the first quarter of 2011 was \$57.5 million as compared to \$51.7 million in the first quarter of 2010. The increase in S&A Expense was primarily attributable to higher variable selling costs stemming from increased sales volume and expenses related to new product launches. S&A Expense as a percentage of Net Sales was 33.3% for the first quarter of 2011, down 120 basis points from 34.5% in the comparable 2010 quarter.

Other Income (Expense), Net

Interest Income

Interest Income increased nominally in the first quarter of 2011, as compared to the same period in 2010.

Interest Expense

Interest Expense decreased nominally in the first quarter of 2011, as compared to the same period in 2010. The decline in Interest Expense between periods was primarily due to a lower interest rate on our borrowings.

Net Foreign Currency Transaction Gains (Losses)

Net Foreign Currency Transaction Gains in the first quarter of 2011 were \$0.5 million as compared to Net Foreign Currency Transaction Losses of \$0.2 million the same period in the prior year. The favorable change in the impact from foreign currency transactions in the first quarter of 2011 was due to fluctuations in foreign currency rates in the normal course of business.

Other Income (Expense), Net

There was no significant change in Other Income (Expense), Net in the first quarter of 2011 as compared to the same period in 2010.

Income Taxes

In the 2011 first quarter, the overall effective tax rate was 30.2% and our base tax rate, which excludes discrete tax items, was 32.0%. We had discrete net favorable tax items of approximately \$0.2 million. The overall effective tax rate in the first quarter of 2010 was 30.9% and our base tax rate, which excludes discrete tax items, was 36.1%. The decrease in the 2011 first quarter overall effective tax rate as compared to the first quarter of 2010 was primarily related to the mix in expected full year taxable earnings by country, a decrease in the statutory tax rates of various jurisdictions, and the Federal R&D credit. The 2010 first quarter tax rate did not include any benefit for Federal R&D tax credits as we were not allowed to consider these credits in our tax rate until they were formally reenacted.

Liquidity and Capital Resources

Liquidity

Cash and Cash Equivalents totaled \$38.9 million at March 31, 2011, as compared to \$39.5 million as of December 31, 2010. Wherever possible, cash management is centralized and intercompany financing is used to provide working capital to subsidiaries as needed. Our current ratio was 2.4 and 2.1 as of March 31, 2011 and December 31, 2010, respectively, based on working capital of \$152.3 million and \$132.1 million, respectively. Our debt-to-capital ratio

was 15.2% and 12.5% at March 31, 2011 and December 31, 2010, respectively.

Cash Flow Summary

Cash provided by (used for) our operating, investing and financing activities is summarized as follows (in thousands):

	Three Months Ended	
	March 31	
	2011	2010
Operating Activities	\$(7,247)	\$14,101
Investing Activities:		
Purchases of Property, Plant and Equipment, Net of Disposals	(1,459)	(1,778)

Net (Decrease) Increase in Cash and Cash Equivalents	\$(610)	\$9,211

Operating Activities

Operating activities used \$7.2 million of cash for the three months ended March 31, 2011. Cash used by operating activities was driven primarily from the payment of Employee Compensation and Benefit liabilities and decreased Other Current Liabilities, and

Table of Contents

increased Accounts Receivable and Inventories, primarily due to increased sales volume, offset by \$5.9 million of Net Earnings as well as an increase in Accounts Payable. The increase in Accounts Payable is primarily due to timing of payments.

Operating activities provided \$14.1 million of cash for the three months ended March 31, 2010. Cash provided by operating activities was driven primarily by reductions in Accounts Receivable and \$4.1 million of Net Earnings during the quarter, partially offset by increased use of cash for payments of Employee Compensation and Benefit liabilities.

Management evaluates how effectively we utilize two of our key operating assets, Accounts Receivable and Inventories, using Accounts Receivable “Days Sales Outstanding” (DSO) and “Days Inventory on Hand” (DIOH), on a FIFO basis. The metrics are calculated on a rolling three month basis in order to more readily reflect changing trends in the business. These metrics for the quarters ended were as follows (in days):

	March 31, 2011	December 31, 2010	March 31, 2010
DSO	64	59	67
DIOH	87	83	93

As of March 31, 2011, DSO decreased 3 days as compared to March 31, 2010 due to Net Sales increasing at a higher rate than Accounts Receivable balances due to proactively managing our receivables by enforcing tighter credit limits and successfully collecting past due balances. As of March 31, 2011, DSO increased 5 days as compared to December 31, 2010 due to a lower level of Net Sales in the first quarter of 2011 as compared to the fourth quarter of 2010, as well as a higher mix of international receivables which carry longer payment terms.

As of March 31, 2011, DIOH decreased 6 days as compared to March 31, 2010 due to Net Sales growing at a higher rate than Inventory due to the continued strides we are making in managing our inventory levels. As of March 31, 2011, DIOH increased 4 days as compared to December 31, 2010 due to a lower level of Net Sales in the first quarter of 2011 compared to the fourth quarter of 2010 and higher levels of Inventory, particularly in emerging markets, to support 2011 sales growth initiatives.

Investing Activities

Investing activities during the three months ended March 31, 2011 used \$1.5 million in cash, almost entirely due to net capital expenditures. Capital expenditures included investments in tooling related to new product development and manufacturing; and information technology and infrastructure upgrades.

Investing activities during the three months ended March 31, 2010 used \$1.8 million in cash. Investing activities included net capital expenditures of \$1.8 million. Investments in capital expenditures included technology upgrades, tooling related to new product development and manufacturing equipment.

Financing Activities

Net cash provided by financing activities was \$7.6 million during the first three months of 2011. The issuance of Long-Term Debt provided \$10.0 million, proceeds from issuance of common stock provided \$1.4 million and a \$0.4 million tax benefit on stock plans partially offset by \$3.2 million in dividend payments and \$0.9 million of repayments of Long-Term Debt.

Net cash used for financing activities was \$2.7 million during the first three months of 2010, primarily from \$2.6 million in dividend payments and a \$1.1 million repayment of Long-Term Debt, partially offset by \$0.9 million from the issuance of common stock and a \$0.1 million tax benefit on stock plans.

Indebtedness

As of March 31, 2011, we had committed lines of credit totaling \$125.0 million and uncommitted lines of credit totaling \$82.8 million. There was \$35.0 million in outstanding borrowings against our lines of credit as of March 31, 2011. In addition, we had stand alone letters of credit of \$2.0 million outstanding and bank guarantees in the amount of \$1.0 million. Commitment fees on unused lines of credit for the three months ended March 31, 2011 were \$0.09 million.

Our most restrictive covenants are part of our Credit Agreement (as defined below) with JPMorgan (as defined below), which are the same covenants in the Shelf Agreement (as defined below) with Prudential (as defined below), and require us to maintain an indebtedness to EBITDA ratio of not greater than 3.50 to 1 and to maintain an EBITDA to interest expense ratio of no less than 3.50 to 1 as of the end of each quarter. As of March 31, 2011, our indebtedness to EBITDA ratio was 0.73 to 1 and our EBITDA to interest expense ratio was 37.11 to 1.

Credit Facilities

JPMorgan Chase Bank, National Association

Table of Contents

Our June 19, 2007 Credit Agreement (the “Credit Agreement”), as amended from time to time, with our bank group led by JPMorgan Chase Bank, National Association (“JPMorgan”), provides us and certain of our foreign subsidiaries access to a \$125.0 million revolving credit facility until June 19, 2012. Borrowings may be denominated in U.S. dollars or certain other currencies. The facility is available for general corporate purposes, working capital needs, share repurchases and acquisitions.

The Credit Agreement includes a security interest on most of our personal property and a pledge of 65% of the stock of all domestic and first tier foreign subsidiaries. The obligations under the Credit Agreement are also guaranteed by our domestic subsidiaries and those subsidiaries also provide a security interest in their similar personal property.

The fee for committed funds under the Credit Agreement ranges from an annual rate of 0.30% to 0.50%, depending on our leverage ratio. Borrowings under the Credit Agreement bear interest at an annual rate of, at our option, either (i) between LIBOR plus 2.20% to LIBOR plus 3.00%, depending on our leverage ratio; or (ii) the highest of (A) the prime rate, (B) the federal funds rate plus 0.50%, and (C) the adjusted LIBOR rate for a one month period plus 1.00%; plus, in any such case under this clause (ii), an additional spread of 1.20% to 2.00%, depending on our leverage ratio.

If we obtain additional indebtedness in excess of \$25.0 million, to the extent that any revolving loans under the Credit Agreement are then outstanding we are required to prepay the revolving loans. Proceeds over \$25.0 million and under \$35.0 million require repayment of the revolver commitment on a 50% dollar for dollar basis and proceeds over \$35.0 million require prepayment on the revolver commitment on a 100% dollar for dollar basis. The Credit Agreement limits the payment of dividends and repurchases of stock to an amount ranging from \$12.0 million to \$40.0 million based on our leverage ratio after giving effect to such payments. The Credit Agreement contains customary representations, warranties and covenants, including but not limited to covenants restricting our ability to incur indebtedness and liens and to merge or consolidate with another entity.

As of March 31, 2011 we were in compliance with all covenants under the Credit Agreement. There was \$25.0 million in outstanding borrowings under this facility at March 31, 2011, with a weighted average interest rate of 2.47%.

Prudential Investment Management, Inc.

On July 29, 2009, we entered into a Private Shelf Agreement (the “Shelf Agreement”) with Prudential Investment Management, Inc. (“Prudential”) and Prudential affiliates from time to time party thereto. The Shelf Agreement provides us and our subsidiaries access to an uncommitted, senior secured, maximum aggregate principal amount of \$80.0 million of debt capital. The Shelf Agreement contains representations, warranties and covenants, including but not limited to covenants restricting our ability to incur indebtedness and liens and to merge or consolidate with another entity. The Shelf Agreement limits the payment of dividends or repurchases of stock to an amount ranging from \$12.0 million to \$40.0 million based on our leverage ratio after giving effect to such payments.

As of March 31, 2011, there was \$10.0 million in outstanding borrowings under this facility with a fixed interest rate of 4.00%. The financial covenants under this facility are the same as the financial covenants in the Credit Agreement, all of which we were in compliance with as of March 31, 2011.

The Royal Bank of Scotland N.V.

On September 14, 2010, we entered into an overdraft facility with The Royal Bank of Scotland N.V. in the amount of 2.0 million Euros or approximately \$2.8 million. There was no balance outstanding on this facility as of March 31, 2011.

On February 21, 2011, the Board of Directors authorized the repurchase of an additional 1,000,000 shares of our common stock. This was in addition to the 188,874 shares remaining under our previous repurchase program. Share repurchases are made from time to time in the open market or through privately negotiated transactions, primarily to offset the dilutive effect of shares issued through our stock-based compensation programs. Our Credit Agreement and Shelf Agreement limit the payment of dividends and repurchases of stock to an amount ranging from \$12.0 million to \$40.0 million based on our leverage ratio after giving effect to such payments.
