Item 5.02 Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers;
Compensatory Arrangements of Certain Officers.

Compensatory Arrangements of Certain Officers

On February 24, 2016, the Compensation Committee of the Board of Directors (the “Compensation Committee”) of Thermo Fisher Scientific Inc. (the “Company”) took the following actions relating to executive compensation: Annual Cash Incentive Plans - Approval of Payout of Cash Bonuses for 2015. The Compensation Committee approved the payout of cash bonuses for 2015 to the Company’s executive officers including Marc N. Casper, President and Chief Executive Officer, Stephen Williamson, Senior Vice President and Chief Financial Officer, Alan J. Malus, Executive Vice President, Mark P. Stevenson, Executive Vice President, Peter M. Wilver, Executive Vice President and Chief Administrative Officer and Thomas W. Loewald, Senior Vice President and Chief Commercial Officer under the Company’s 2013 Annual Incentive Award Plan (the “162(m) Plan”), which was approved by the stockholders of the Company at its 2013 Annual Meeting of Stockholders. The Compensation Committee exercised its discretion to lower the amount of the cash bonuses payable under the 162(m) Plan based on its determinations as to the level of achievement of the applicable supplemental performance metrics and goals for 2015 under the Company’s annual cash incentive program, which operates in connection with the 162(m) Plan. The amount of cash bonuses approved by the Compensation Committee is set forth in the table below.

Annual Cash Incentive Plans - Establishment of Criteria for 2016 Bonus. The Compensation Committee established the performance goal under the 162(m) Plan for 2016 as earnings before interest, taxes and amortization, excluding the impact of (i) extraordinary items and any other unusual or non-recurring items, (ii) discontinued operations, (iii) gains or losses on the dispositions of discontinued operations, (iv) the cumulative effects of changes in accounting principles, (v) the writedown of any asset, (vi) charges for restructuring and rationalization programs, (vii) other non-cash charges or items, (viii) gains or losses related to financing activities, (ix) the effect of acquisitions, or (x) gains or losses as a result of foreign currency conversions or fluctuations in foreign currency exchange rates, and certain other unusual or nonrecurring items (“Adjusted Operating Income”); and determined the percentage of Adjusted Operating Income that each executive officer is entitled to receive as a cash bonus for 2016 under the Plan, subject to the Compensation Committee’s right to lower, but not raise, the actual cash bonus to be paid to such officer for the year. The Compensation Committee’s determination as to whether to lower the actual cash bonus to be paid is generally based on the results of its determinations under the Company’s annual cash incentive program for that year (which is described in the next paragraph).

The Compensation Committee also established a target cash bonus amount for each of such executive officers as well as supplemental performance metrics and goals for the Company under the Company’s annual cash incentive program for 2016. The target amount for each of such executive, which is a percentage of base salary (ranging from 45% to 190%), was determined by the Compensation Committee based on the salary level and position of such executive within the Company. The supplemental performance metrics and goals are based on (a) (70%) financial measures for the Company, comprised of (i) growth in revenue (adjusted for the impact of acquisitions and divestitures and for foreign currency changes) (40%), (ii) earnings (adjusted for restructuring charges and certain other items of income or expense) before interest, taxes and amortization as a percentage of revenue at varying percentages of revenue growth (15%) and (iii) earnings (adjusted for restructuring charges and certain other items of income or expense) per share (15%) and (b) (30%) non-financial measures of such executives’

contributions to the achievement of certain business objectives of the Company. For each of the financial measures, the Company's actual performance will be measured relative to the Company's internal operating plan for 2016. After giving effect to the weighting of the supplemental performance metrics and individual performance, a range of performance for the financial and non-financial measures, corresponding to a multiplier of 0 to 2, will be applied to the target cash bonus amounts.

Additionally, the Compensation Committee established a supplemental bonus plan for 2016, which allows executives an opportunity to achieve up to an additional 20% of target bonus and would be achieved if the Company attains certain adjusted operating income dollar goals.

Base Salary - Approval of Increases. Effective March 28, 2016, the Compensation Committee increased the annual base salary of certain executives as set forth below.

Revised Target Bonus for 2016. The Compensation Committee also set the annual target cash bonus amounts, expressed as a percentage of annual base salary of such executives as set forth below.

The Committee also granted performance-based restricted stock units to Messrs. Casper, Williamson, Stevenson, Wilver and Loewald, under the Company's 2013 Stock Incentive Plan. The vesting of the performance-based restricted stock units for Messrs.
